attention is getting disturbed. Please pay attention. You will be blessed. This is the time and we should not miss the blessings. I should say, I'm just like a banker. I am the bank of Graciousness. I am the bank of Love of God. I'm just here to cash your checks. You better cash it. Better get blessed by your own power, your spirit.

Thank you very much.

Now if you have any sensible questions, please ask Me. If you have belong to some cult or something, you can go back to it and follow it, all your life; I have nothing to say. If you are identified with anybody else you can go away; I have nothing to say. Those who think that they have to get something in life should be here.

Question: This gentleman says that You said there was going to be a great Advent. What is this Advent?

Shri Mataji: It's rather embarrassing. I think this answer we can do later on. But there is one great Advent who is going to come after this which is just going to sort out everything. There won't be any chance left. There won't be any more realisations. There won't be any comforting relationships. No meetings, no conferences, just the sorting out as described in the Bible.

Question: Is there any means to go against this sorting out that is going to take place?

Shri Mataji: What is it, the meaning? Translator: Is there any means, any way to go out, to avoid this sorting out?

Shri Mataji: Yes, you can take your realisation.

Question: [French.]

Shri Mataji: That's it, I'm saying.

Question: [French.]

Shri Mataji: Just use some small sentences; it's easy to translate then.

Translator: He is saying that somebody who is identified with any political system or somebody who is not quite all right has to pretend mentally and read the Bible because he doesn't believe that anybody can get it just like that.

Shri Mataji: You don't want to believe but it is true. You better see if you get it. Instead of having any political affliations and identifications, even the identification that by reading Bible, you won't know, you don't know about Bible still. But Christ said you better get yourSelf-realised. You better be born again. You have to be born again. You are really going, again I say, [you] *[UNCLEAR* don't make mistakes/play these tricks]. This is a very great mistake we have done. You cannot organize *[UNCLEAR* Christ/Bible].

Christ has never said, `Read Bible,' has He? Never! He said you are to be born again, which is a living process. There are many things we don't understand of Bible. You can't explain what is Holy Ghost is.

But we can explain and show you. We don't know where Christ is within us and how to awaken Him. We don't have any communication with Christ. We just believe we have communication. Can you believe it that if you have any communication with Christ, what the Christians nations are doing today? Can you believe it? Christ has said, “Thou shall not have adulterous eyes." Do you find any Christians without adulterous eyes and the Christian women walking naked on the streets to distract your eyes? Where has Christianity gone today? It has failed

Christ, completely failed Him. And if you see in England, churches are *[UNCLEAR* the first opening] for the *[UNCLEAR* costs/casts]. It is now time for people to open their eyes to see where have they gone wrong, what is the mistake.

They forget that who's seeing them, how the Bible was mutilated. Have you read the books of Essenes which are prophecies written long time back? Augustine is the one who changed so many [works] of Christianity, turned them away from reality that, “You are to be born again” is the point. Christ has really said, “You will be calling Me `Christ, Christ.' I won't recognize you." But once you get your realisation, you become a real Christian. You become a righteous person. You become a moral person.

You become a generous person. You get the power of healing, that Christ had.

How many people have you find reading Bible and try to know what the sermon is? Christ is not a missionary. Like you go and treat the patients and things, He's not that. How did He cure people? A lady touched His cloak and the energy flew *[UNCLEAR* through/of Him].

Translator: Flew?

Shri Mataji: Flew of Him to her. That's what should happen. Now this kind of a thing that we are thinking is a social work that we are doing, is God's work. God's work is not so mundane. It is not so shallow, so low-level. It has to be fantastic. It has to be beautiful. Every moment you must feel the proof of His love.

We have failed Him and we are *[UNCLEAR* feeling/originally] bad. I Myself took My birth in a Protestant family, Christian family. And now I have Jews and I have got Hindus and Muslims who believe in Christ, not because

it's *[UNCLEAR* told to them/said] but they [came to] know that He is the Son of living God. And that is what one has to achieve. But it's a mental projection really; if we carry the Bible Christ will take us in the Heaven. He will not. The Bible is not for reading but for following.

Translator: For what?

Shri Mataji: For following, for integrating people. That is one thing we have lost. Now to understand how Christ, was a[n] universal personality, He Himself has said that, “Those are not against Me are with Me." So those who are not against Him they are the ones who are with *[UNCLEAR* Me/Him].

People ask Me, “Why did I take birth in a Christian religion?" I told them they are the greatest, the greatest sophisticated fanatics. Their minds are closed. Now if you go to Iran, in a Muslim country, they cannot beat you in fanaticism, I can tell you, because they are not so sophisticated. They are brute.

They are gross.

So we can call the Khomeini as the fanatic. And not an Indian or anybody else who is a fanatic can beat the Western fanaticism. They have made a theology of it, a big mental *[UNCLEAR* unsure/thing], a big *[UNCLEAR]*. They have closed their eyes completely even to see that that He has said a Comforter, a Holy Ghost. Do they want to know who is the Holy Ghost? Do they know that Holy Ghost is the Mother? Is the Primordial Mother? They must accept the Mother. They'll say that God the Almighty has a Son without a Mother. Can you believe such an absurd situation? They [left] Christ's Mother unknown. Catholics did have a little bit feeling for that, but that very limited.

And the Protestant church finished it, though Martin Luther was a realised Soul. I asked My father, “Why did he do it?" And he said at that time the Muslims were rising very high and he did not want to talk about the woman because they do not accept the challenge. But that is the trouble they're having.

But today there is no place in Christianity for a spiritual woman. Can you see that? No place for Mother Earth, because She is the One who nourishes us like a Mother. Is that the way to treat the Mother of Christ? She is the Holy Ghost. We can prove it. And the force that is within you which gives you realisation is the reflection of the same Holy Ghost. For that you have to open your eyes and go to other religions and find out. In the old Vedas and all that, there are described all the [religions]. Christ is already described fourteen thousands years back in India. Not only how He came on this earth, but what He was, how He was made, why He came, what was His purpose. But Christians don't want to open their eyes.

Even there are so many Muslims who have become Sahaja Yogis.

I am here to prove their existence. I am here to prove every word of the Bible. Tomorrow your children will deny the Bible. It's a very small place, Lausanne is. But if you go outside in the world, you will find people have absolutely denied the Bible. You will have to re-establish the Bible with more *[UNCLEAR]* to *[UNCLEAR* this/its] reality. Manifesting its real power, through you, you get your realisation. It is not a new religion. It is the essence of all the religions that you have to understand, in your wisdom.

Now should we have the realisation? It's very simple. It is like one enlightened light can enlighten another light. Once you are enlightened, you can enlighten another light. We have here someone from Australia, who has given realisation to three thousand people. He is a diplomat and a doctor. We have [unsure] [another one] here sitting from Nigeria, who has given realisation to so many people. We have another one, an Indian from India who has given realisation to ten thousand people. And even in Geneva and in Lausanne we have people, who can do it, [more than that, unsure]. You also can become that. You can also have that power and you can also do God's work now for a change.

All right, now just you have to just put your hands towards Me like this. But you better take off your shoes; will help Me, because the Mother Earth helps us a lot. Those people who do not want should go out, should not disturb others, should go out. Please keep your hands like this, towards Me. It cannot be forced upon; it cannot be forced. It has to be done in your own freedom. You have to ask for it.

Otherwise it won't work out. If you do not have respect for it, it is better that you leave the room. You put both your hands like this towards Me and close your eyes. You have to keep your eyes closed. That is important. There is no mesmerism. Keep your eyes closed. Please put your hands towards Me, without putting any pressures on you, because any of your fingers have got the sympathetic centers and they receive the message. Please close your eyes.

Now put your right hand on your heart and say in your heart that, `I am the Spirit.' You can say, `Mother, I am the Spirit,' because if you can say `Shri Mataji', that's My name, you can say that, or you say just `Ma, I am the Spirit.' Just assume that you are the Spirit. Say it thrice.

Now put your right hand on your stomach, on the left hand side. Here is your Master Principle, your Guru Principle.

So you have to say, `Mother, I am own Guru.' Say it ten times because there are Ten Commandments. You don't need any of these commandments; you become your own master. You become a perfect master. Just say, `Mother, I am my own master.' Now you just put the same hand on the heart with the right hand, with the left hand towards Me and say twelve times because there are twelve petals of the heart that, `Mother, I am the Spirit.' Loudly, again, twelve times. Loudly.

Now if you are the Spirit you cannot commit guilt. You cannot be guilty. Guilt is an escape from the reality.

So you have to put the right hand on the left hand side of the neck, on the shoulder and say, `Mother, I am not guilty at all.' This you have to say sixteen times. Please say; all of you have got this problem. You are not to feel guilty. `Mother, I'm not guilty.' You are actually damaging your centers.

Don't feel guilty; not to feel guilty.

Now you have to put this hand on your forehead across, right hand. Here lies the center of Christ. This is the window of Christ center, we should say. But in science, in the Optic Chiasma, there's a very subtle center which people call as the `Third Eye'.

So we have to say that, `I forgive everyone. I forgive myself.' Say it from your heart. If you do not forgive anyone, then you are harming yourself, not the person whom you don't forgive. This is the greatest weapon Christ has given us that you say, `I forgive everyone.' Have concern for yourself now. And with that concern you have to say, `I forgive everyone,' because you don't want to harm yourself.

After this, I cannot cross your freedom. You have to ask for your realisation. Otherwise I cannot force. I respect your freedom.

So you have to put your hand on the fontanelle bone area where you get your baptism, or on your head, on top of your head. Press it with your palm and ask, `Mother, please give me my realisation. Please manifest my realisation.' You have to ask for it. `May I have my realisation?' Try to have it. Put your hand on directly and move it in a clockwise manner. Say this seven times that, `Please let me have my Self-knowledge, my second birth,' seven times.

Now see for yourself. Raise your hand and see if there is a Cool Breeze or a hot breeze coming in.

Sometimes the heat comes out, which is heat from the body. Now you put your right hand towards Me and see with your left hand. See if there is any Cool Breeze coming in. If not, again ask, `Mother, please give me my realisation,' with all the humility. You are transformed. He is not going to fall at your feet.

Change the hand. Then you may see for yourself. Are you feeling the Cool Breeze? Those who are feeling the Cool Breeze raise your hands. Raise your both [the] hands.

Those who have come for the first time and are feeling the Cool Breeze, please raise your hands. Now, good; it will work out. Now we have to say that if it had not worked, doesn't mean that you cannot get it. *[UNCLEAR* This might need/It will first need] some time and we have to look after the different defficiencies in the centers. That does not mean that you are a sinner or that you are wrong. It can be worked out.

Now we have some people here, who are adept, who can give you realisation and I would like them to work on you. They won't touch you, but they can work it out with their hands and you'll feel very much better then.

Ha and may I ask all Sahaja Yogis... Now raise the hands, the people who have come for the first time today. Now can Sahaja Yogis attend to them, please? Yeah. This is after their Kuṇḍalinī *[UNCLEAR* has/is] risen.

See how many are there, whoever they are. You shouldn't talk. Just keep quiet. You see, you get the [realisation]. It's a very essential thing to be done. If you are real seekers, you'll get it. Open the doors, *[UNCLEAR]*. It's very hot. I feel very hot. Today is very hot, I must say. Raise your hands. Go on; lift it, absolutely. And *[UNCLEAR]*. It is too much. It is too much, *[UNCLEAR* liver is physically exhausted/very] *[UNCLEAR]*. You got it? He's got it.

Sahaja Yogini: He's got it.

Shri Mataji: Oh great. Now come. *[UNCLEAR]*. These are good seekers *[UNCLEAR* that we have/anyhow]. Please put both your legs straight down. Phil, what about the other lady? Put her left to the right. She has to clear out. He has got the Cool Breeze in the hands also?

Sahaja Yogini: Yes, Mother.

Shri Mataji: Good.

So ask him to get it.

Somebody should look after some lady here. Yes, also call somebody else should come here. What's that? It's a record. Is that [unsure] sitting there? Somebody should look after this lady here.

Sahaja Yogini: She is the wife of this gentleman.

Shri Mataji: Ah, she has no *[UNCLEAR* purpose for/to this one], the one who is sitting *[UNCLEAR* there/here]. No, no, no, this she won't have. She won't get her realisation.

Sahaja Yogini: She thinks she's got it.

So that's all right...

Translator: She says she has got it already.

Shri Mataji: Did she feel the Cool Breeze? Translator: No, no, Mother, no. She already had it before she came here.

Sahaja Yogini: She thinks she's got it.

Shri Mataji: OK. Then what are doing about it? Translator: She gives it around her.

Shri Mataji: Then what do you do? You must learn all about it. If God has given it, you must know all about it. You must know what it is.

Translator: She knows what it is. She says, You are not the only one who know.

Shri Mataji: No, of course, I am not the only one, but the other one that you are, I would like to know what you mean.

Translator: She doesn't understand anything. She just says it's a spiritual power.

Shri Mataji: Spirits.

Translator: She pretends it is `the Spirit'. She says there should be no confusion, between the spirits and the Holy Ghost.

Shri Mataji: Most of you know. She's *[UNCLEAR* got it?/correct.] There is no[t], is no confusion.

That's it. She's got it. Let us see how she gives to others. Hello, how are you? You must have a case out like that, you see. Now, thank you. All right? Close your eyes. Did she get vibrations? Is she feeling? Translator: Very little.

Shri Mataji: Her vibrations are hot, all catching on the Sahasrāra. They're like stones. We changed it *[UNCLEAR]*. Sir, what is your... You got it? Translator: Yes, both of them.

Shri Mataji: Are you feeling it in the hands? Translator: More on the head, more on the head.

Shri Mataji: Now you put your right hand towards Me like you had left hand...

[Aside:] You get ready.

Translator: Yes, she is speaking to the other lady but she is from the *[UNCLEAR]*... Can you imagine? The thin one with the fair hair. Yeah, she is Japanese.

Shri Mataji: *[UNCLEAR]*. She's trying to impress... She's a Sahaja Yogi, na? Translator: French.

Shri Mataji: She's all right; she's got it. In the right hand? Are you feeling a little in the right hand? All right, now put your left hand towards Me and your right hand like that. This gentleman, has he got it on the hands? He got it on the left. Put his left hand on the stomach and right hand towards Me. Again, I see something from Christianity.

Translator: I, I saw Mathias and *[UNCLEAR* Arneau/Gounod] catching him on the other *[UNCLEAR]*.

***Contents:* 1983-08-2x Quote on a false Guru, after a Public Program, Lausanne, Switzerland**

[After the, Public Program, Shri Mataji works on one young lady about twenty-one years of age. Shri Mataji rubbs her forehead, holds her hand and talks to her. Then She moves away, but turns round, come back and works on her for a second time. As She moves away again, She mentions that this lady has been involved with a well known false Guru. Then Shri Mataji goes back a third time and works again on this lady, over a period of five minutes or more.] This false Guru! I cannot get her Kuṇḍalinī up. And she was born realised.

***Contents: 1983-08-27* Evening Program, the day before Śhrī Kṛiṣhṇa Pūjā, Garden, Ashram, Tannay, Switzerland**

Sahaja Yogis: *[UNCLEAR]*.

Shri Mataji: May God bless you! It's very nice. Thank you very much. The things you have said.

Before you start your chorus music I'll say a few words and then we can have *[UNCLEAR]*.

That's what I'm saying. Is a fact. And the street which has Cool Breeze is such a[n] expression of the Unconscious as to what we are going to do in this place. Even when you get your Realisation you're still sometimes in a growing stage, up to a point. Like you're nourished by the Mother Earth all the time, but you're not aware of it. In the same way the womb of Sahaja Yoga nourishes you to

grow up into beautiful beings. Still you have to come up to a point when it has to click in such a way that you start feeling the awareness of that unbounding love. In the small children it clicks very fast because they are so innocent and uncomplicated. And in some people also I have seen it clicks very fast as soon as they get their Realisation.

But in some people they have some more ego trips left to be finished.

So they come to Me, I find they are flying in the air like bubbles. And as if blown by their nourishing mother, blown out. Like the bubbles on the surface of the sea. And there are many who are suffering from superego. They get mixed up with the sand and become very heavy and all the time weeping, crying and making complaints about personal things.

But once this thing clicks, they become one with the Spirit of the ocean. Then they feel that deep joyous force of the sea, which nourishes them, guides them and elevates them every moment. Like deep down into the sea they go and there they find the beautiful pearls of eternal experiences. And when they find these pearls they bring to Me as poems, as dances, as smiles, as laughter, as enjoyment. These are all within you. And they lie there, away from your consciousness.

Though your consciousness is enlightened by Self-realisation, it is not yet enlightened by joy. That is something happens to all of you gradually, as I told you and should happen to all of you as soon as possible. What is there to surrender to a force that itself is flowing towards you and nourishing you. Do we say the lotus has

surrendered itself to its fragrance? Do we say that the sun has surrendered itself to its brilliance? Do we say that the moon has surrendered itself to its coolness? It would be absurd to say like that.

The word `surrender' sometimes can mean only at the most in the text of Sahaja Yoga that we surrender our egos, our limitations, our shallowness. And what we have achieved is our depth, our own. We have surrendered all that is useless for something that is so great and eternal. This weight of the ignorance has to drop out.

I don't know what I do. I don't think I do anything, because I'm really doing nothing.

Sometimes I think this is not My due to be placed like this. Because whatever is My nature, that is what I am and I haven't achieved anything. I just exist with My nature because I can't do anything else, while you have achieved. It is great credit to you, very great credit to you. Better say it. That you have achieved this enlightenment to see yourself, your true Self which is so joy-giving. Actually I should compose poems in praise of you. And I do My best to show by My own methods how the Divine is pleased and that you see everywhere, every time, every moment.

So tonight we [you] all should only say one thing in our hearts that this bountiful nature of motherhood should be brought into our consciousness, which I told you is called as Ṛitambhara Pragya. Means your consciousness when gets enlightened to that nature of this Mother Earth which fills it up with different seasons, that is pragya. That happens to everyone, I say it, but it happens more

to people who try to be in the center and don't go to ego trips.

Some Sahaja Yogis I have known have been boasting that, “I'm the one who is going to establish Sahaja Yoga here and I'm this and I'm that. I'm a special person and Mother has specially selected me." Anyone who thinks like that is no more a Sahaja Yogi.

It's like he is holding on to a tree and thinking that by holding on to one leaf he is going to dominate the whole tree. Such a person will just have that little leaf in his hand, which will also die out after some time. You have to run in the veins of the roots, of the branches, of the leaves, of the flowers and of the fruits. You have to be the essence of the tree that nourishes and not just the outward leaves with wrong ideas about yourself. And the people of superego who are limited by their small personal problems also must know that they will have the same fate in Sahaja Yoga. Put the problems of the tree always ahead of the problems of a leaf.

Now it is high time to jump from that little area to the vast area, which has no bounds. And once that happens you will be surprised that all these little petty problems will drop out in the ocean of greatness.

Don't indulge into them and leave them in the hands of the tree, so that all your family problems, all your small petty problems will be looked after by that nourishing force. Because you belong to a very great tree of wisdom, tree of great sustenance and religion and tree of great mastery. The mastery that you can never know how great it is. You belong to a tree that has complete security for you and you belong to a very great tree

which gives you complete witnessing of the drama. And which gives you understanding that the whole is a part and parcel of you and you are part and parcel of the whole.

So you belong to the great ocean of love and generosity.

So this great Tree of Life has everything integrated within itself. This is the Tree of Life that has been described in the bible, or Tree of Fire they call it. Now you have become one with it. You are blessed by it. You are loved by it. You are gently guided by it. It's so gentle that you do not even feel the guidance.

Like a leaf when it falls on the ground it doesn't make any sound. Try to become identified with that power that is what you are. Like the meaning of the word is identified with the word. Like the moonlight is identified with moon. The sunlight is identified with the sun. Let that identification be that. That oneness. That integration.

So that you become the lights of God's love. That people know God through your deeds and your fruits. It's the most fulfilling job, highest paid in every way, the most satisfying, energy-giving and dynamic. You don't have to give up anything, just reorganize in the light of your Spirit yourself.

I must thank you very much for the nice entertainment you had for Me. It was really a surprise, great surprise of tremendous joy. Thank you very much. Thank you.

What is poetry I don't know. You remember you always said that, “Mother, You are a poet", Kavi.

No I am all right.

We could have a little bonfire.

We must really dance. Yes you can go round and round and round and round and round. Rās, tomorrow Rās [circular dance performed by Śhrī Kṛiṣhṇa and the cowherdesses].

[Bhajans.]

Contents: 1983-08-28 **Śhrī Kṛiṣhṇa Pūjā, The Ultimate of the Fatherhood, Garden, Ashram, Tannay, Switzerland**

Today we are celebrating here in this holy land the birthday of Śhrī Kṛiṣhṇa.

Śhrī Kṛiṣhṇa is the ultimate of the fatherhood, that I described you before, who came on this Earth and illustrated the ultimate of that.

So on this Earth, the highest fatherhood is Śhrī Kṛiṣhṇa's awareness.

But in the Kingdom of God, we can say in Heavens, or even above everything else, resides Sadāśhiva who does not take incarnations. He is one of the aspects, Śhrī Kṛiṣhṇa is one of the aspects of Sadāśhiva which is the Father. And the Ādi Shakti or the Holy Ghost is the other aspect of Sadāśhiva which is His power.

So when Śhrī Kṛiṣhṇa incarnated on this Earth, an aspect of this Ādi Shakti came on this Earth as Rādhā.

She is the same who came as the Mother of Christ and She gave the name of Christ as the surname of Śhrī Kṛiṣhṇa, as if it is Kṛiṣhṇa's name, from Kṛiṣhṇa. He's called as `Kṛisht' in Indian languages, Kṛisht.

And I have told you before why he was called as Yeshu or Jesu.

So today we are going to see to the two aspects of Śhrī Kṛiṣhṇa, which were the manifestation of His Divine birth.

In Rāma's life they showed a man; man, a Purushottama, the best of the father in worldly affairs. And in Śhrī Kṛiṣhṇa's life they showed Him the highest fatherhood as in Yogeshwara or in Divine work.

So the first aspect of Śhrī Kṛiṣhṇa we have to understand is the Yogeshwara and the second aspect of him as the Virāta.

Yogeshwara means the Lord of the Yoga, or the Power of Yoga. He is called because He reached the optimum that one has to reach as a yogi. As if He is the ideal you have to reach.

Now as a yogi, He was born of a royal family but He lived in the jungles in the forest, with the cows, with ordinary people. He used to sleep on the ordinary places like sometimes on the stones, on the grass, when He would go with His cows for their feeding. He was very aware, very very aware, absolutely aware of His powers, without any ego. He had a special power called `Samhara Shakti' by which He could destroy all those people who tried to harm the Divine manifestation.

This `Samhara Shakti' is expressed as the Chakra [Sudarshan] in His hand. And another is the `Gada' [mace] in His hand.

These two powers were within Him and He acted according to the power of Rādhā, because She is the one who sustained the power of Śhrī Kṛiṣhṇa. The proof of

that is this that when He was in Gokul with Rādhā He did all His `samhara' work. And afterwards He just became a chariot driver for Arjuna.

So for His disciple Arjuna, He became even a chariot driver.

The another great quality of Yogeshwara was complete discretion power built-in.

So He knew who was a devil and who was not, who is good who is bad, who is possessed who is not possessed, who is innocent who is not. This was built-in within Him, this power of complete discrimination.

And He had a capacity more expressing His witness-hood, as a `Sākshī'. He had the capacity, I mean He was a Sākshī Himself. I should say this way is easier to understand. He was a Sākshī, He had the capacity of witnessing the whole world as a play.

At the time of Rāma, Rāma was one who got involved into his problems, to show as if he is a full human being so that human beings should not say that he was God so how could we accept God because `he was God after all'? Now this capacity in Him to witness has to be seen in every yogi.

The element He controls is ether. We call it `ākāsha' in Sanskrit. This ether now as you know, we are using for our television, for our radio, for every sort of a collective work.

So we have to be in charge of the ether element as yogis. And that is the subtlest of all, in the sense that you permeate everything with that and is above all. Like

plastic also permeates into everything into matter, into everything up to the air. But it cannot enter into ether.

So the negativity cannot enter into ether.

So when you enter into your ethereal zone, you actually enter into the area which is thoughtless awareness.

So to achieve your ethereal state, you have to expand your thoughtless awareness. And the sustenance of that is done by Christ, by the Spirit.

So you can realise now as a yogi, your state of mind should be ethereal.

And what should be the state of your superego? This is the ego part of it. That you should be in ethereal state.

And as a superego you should see it as a play, you should see the play of the negativity. Negativity will run away, but don't get involved into it, don't play into their hands. Then the negativity will separate from you.

So the ego and the superego both rise from the Viśhuddhi Chakra. They can be receded by the Āgñyā Chakra but have to be sucked into the Viśhuddhi. The greatest quality of Yogeshwara is that He is not at all involved into it, detached, absolutely.

If He eats His food, He does not eat it. If He speaks, He does not speak. If He sees, He does not see.

If He hears, He does not hear. It has no effect on Him, no retention on Him, no action on Him. Whatever He is, He is complete: sixteen petals is complete moon, sixteenth day of the moon is the Pūrnimā. That is how one has to be, complete in oneself, complete confidence in oneself. But confidence should not be confused with ego. But confidence is complete wisdom, it's complete Dharma, it

is complete love, complete beauty and is complete God. That's what it should be.

Now when He said that “you give up all your Dharmas and surrender to Me" in Gītā, what He was meaning is that all other things about which you are worried “You give up and become one with me, so I look after you." Give up the responsibility to Śhrī Kṛiṣhṇa, so the complete integrated Divinity will start expressing through you. Means if you say that you have to be responsible, then He says alright, go ahead, try! But if you say that `You are responsible, I'm just an institution or an instrument in Your hand,' then you start manifesting it well. And that is how your Viśhuddhi Chakra gets opened up.

This is some part of the Yogeshwara I have spoken to you. But as He is the brain within us, He becomes the brain within us.

We have to know that all the qualities of a Divine brain are within.

So whatever we do with our brain like intrigue, the deception, all which are bad things by your brain as they call it, are done by Him for the Divine purpose without getting any blemish upon himself.

And the other side of it, so-called positive, like politics like diplomacy, or like leadership, all that is His own doing, like even the thinking of the future and all that. He does planning, thinking, all those things, administration. As a play, everything is done as a play, because He's the Master, as we call, a `sutra dhara', the one who does the prologue in a drama. The one who plays with the strings with the pantomimes.

Now the other thing that we have to understand Śhrī Kṛiṣhṇa at this stage of Sahaja Yoga, that it is the Virāta Shakti that is manifesting at this time and not the Śhrī Kṛiṣhṇa Shakti which was at His time.

And the power that is working here is no more that of Rādhā or of Mary, but of Virāt-āñgana. That's why the knowledge of Sahaja Yogis is much wider than the knowledge of all the saints of ages. But it is not deeper than them. If you can deepen your knowledge, this wider knowledge will have proper roots within you.

So the brain are the roots, here are the roots of the whole tree of life. Actually Kuṇḍalinī comes up and waters the brain first, so that the whole tree of life is drenched in the Divine Bliss and Divine Knowledge.

So this Virāta Shakti that we have to work out gives us the sense of collective consciousness first. First we understand it through our brain power.

But the whole brain power is to be guided by the Heart, is to be watered; but in Sanskrit is a very beautiful word `sinchan', like dewdrops, spray, with the Love of God.

So the integration of this brain has to take with Heart and with your liver. Then only the Virāta-Shakti takes another form. The weapons of killing become the weapons of forgiveness. Every sort of destructive power is used for the construction.

As if it is tricked.

Like now I told them a trick, how to trick these Gurus. The power that they have can be tricked against them, as is said that their teeth must be put into their necks, into their throats, instead of taking out their teeth better

put them back into their throats. And if you can do that, then there is no problem as far as their effect on us is concerned, because you are more powerful and more tricky.

Because the Virāta Shakti has now taken that form, like the tree when it grows, it grows upward. But when it is leaden with fruit, it comes down. First it is attractive by its flowers, by its timber, by its...

the other parts of its body. And people try to destroy it for it. But when the fruits appear, they want to preserve it and the tree bends down, with humility, is very valuable.

So you are the fruits. That Virāt-āñgana Shakti, you are the fruits. Because you are so valuable that those people who wanted to ruin or to destroy the Divine power from this Earth will start thinking that they have to gain something out of these fruits.

So today the Virāta Shakti has given you a great value, because people see that by having one Sahaja Yogi with them it is so precious. Say one ordinary man gets his Realisation. Then he develops his value.

In that, his own values, he can be respected, loved and given the highest, if he's a proper Sahaja Yogi.

So you should understand today, that Virāta Shakti is: `We are going to worship that Virāta Shakti which has given fruits.' As a result of that, all these different churches and fanaticism and atheism and communism and all that `ism', all these will neutralise, because they will see their benefit in it. But you have to become that. That is the biggest thing one has to know is to bend down towards the Mother Earth, to be humble. Absolutely

the humility inside out, is really going to give you the complete value of Sahaja Yoga fruits.

Those Sahaja Yogis who boast about themselves are like the fruit which are getting ruined only on the tree. The only fruits that bend down are accepted as good and matured fruits and not those who assert that they are the highest. But some of the negative people should not by any chance take advantage of this and say that they are good because they are bending down. It's not the logic.

Some of them pose they are humble; even a rotten fruit bends down. But the mature fruit shows its humility by its weight.

That is the Guru Tattwa weight.

So from the Virāt-āñgana Power you get the power of maturity up to the fruit and then we become blessed by Guru principle. Those who are still involved in getting to better sunshine or getting to better water supply or all these things, are not yet matured, because the fruit doesn't need anything anymore. It doesn't need anything from the Mother Earth, nor from the elements. But it surrenders, bends, it bows to the Mother Earth.

So the Sahaja Yogi who goes on asking questions to Mother, bringing personal problems, stupid ideas, negativity, all those people are still not yet the fruits.

But the matured people are those who surrender, who bow to the Mother Earth.

So the capacity to bow is the best judgement of yourself. And leaving everything to the power of gravity of your Mother to do every work for you. And leaving all your small little worries behind, you have to rise above these

distracting powers and achieve the completion of this Virāta Shakti which ultimately becomes a `Madhurya Shakti'. `Madhurya'; there is no word in English language, but it means a `sweet power'. Like the fruit becomes sweet. That's how you all have to become very sweet. Kṛiṣhṇa tried to make everything very sweet in the sense it was all a Madhurya Shakti that was acting, all His play, all His dancing, all His stories if you read, is nothing but Madhurya Shakti, towards Gopas and Gopis, towards other Sahaja Yogis.

So you have to keep your Mother pleased by pleasing other Sahaja Yogis and not other people. They are not important.

So today we are going to shorten the Pūjā and that's why it took so much time upstairs, to shorten it! So the time lost is time gained for ever and ever.

May God bless you.

[Bolo Śhrī Rādhā Kṛiṣhṇa sākṣhāt Śhrī Virāta sākṣhāt Śhrī Yogeshwara sākṣhāt Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī ki Jai!] [During Śhrī Gaṇeśha Pūjā:]

Shri Mataji: A good speech, I think. It was a good speech. I hope you have recorded it.

Sahaja Yogis: Yes, Mother.

Gregoire: Gāyatrī Mantra, Mother.

Shri Mataji: All right, you tell them.

Gregoire [in French]: We are now going to say the Gāyatrī Mantra that I would like to explain to you.

First I will say it and then give you the meaning.

Shri Mataji: Read it loudly, they can't hear it. The Italians also can understand if somebody translates in Italian

language. Come along! Ruth?... All right anyone, anyone? But they can understand you? Italians can understand French? All right?

Gregoire [in French and Sanskrit]: The Mantra: Om bhūḥ Om bhuvaḥ Om svaḥ Om maḥ Om janaḥ Om tapah Om Satyam Om tat Savitru varenyam bhargo devasya dhīmahī dhiyo yo naḥ prachodayāt, Om apo jyoti raso-'mrutam Brahma Bhūr Bhuvaḥ swarom. Shri Mataji explained me...

Shri Mataji: This is a right-sided uh, thing, is right-sided.

Gregoire [in French]: Shri Mataji explained me that this invocation

Shri Mataji: Loudly.

Gregoire: Yes, Mother.

Shri Mataji: I think you get up and speak.

Gregoire: I was trying not to speak too loud, Mother, because of the neighbours have been complaining...

Gregoire [in French]: Shri Mataji explained me that this Mantra is an invocation to summon up first of all the power of the right side because it is addressed to the causal principles of all the elements.

Bhūr is the causal principle of the earth and expresses itself at the level of the Mūlādhāra Chakra.

Bhuvaḥ is the causal principle of cosmos expressing thus the creation and the Chakra to which this causal principle corresponds is Swādhiṣhṭhāna.

Swāhā, as you know, corresponds to the fire element that consumes, that has that power to consume as the Nābhī Chakra consumes the elements in the fire of digestion.

Mah is the causal principle of...

Shri Mataji: Tape him also. Are you taping him? Gregoire, you'd better tape it because this is for the first time. [Handing him the mike:] I don't need it now. Let us give it to him. From the very beginning, Gregoire...

Sahaja Yogi: It's picking it out from here, I'll make sure.

Shri Mataji: Is it? All right.

Gregoire: Mah is the causal principle of the almighty power of love and, as this power is almighty, Mahā expresses as well the greatness. Mahā is the causal principle of the air element. It corresponds to the Heart Chakra.

Jana is the causal principle of collective consciousness and it corresponds, as Shri Mataji has said, to the ether element. It is the principle which comes to its historical manifestation now with the age of the Aquarius. It is with this principle that Sahaja Yogis can come into relationship through their new collective consciousness.

Tapa is at the level of Āgñyā the principle of Light which as you know `Tapasya' expresses as well austerities. And it is what Christ has expressed in His life, a life full of extraordinary austerities in order to purify through his light. Tapa is purification.

What the Vedic sages were doing long time ago is to address those causal principles because they had yet no knowledge allowing them to get related to the deities at the level of each Chakra. Only Shri Mataji has brought this knowledge. Thus by addressing the causal principles they addressed the formless aspect of a God of which the formal aspect is the Chakra's deity.

Shri Mataji: So, Hiranyagarbha is the egg, you see, it is one after another. It starts exploding. The innermost core explodes first, you see like that, goes on exploding one after another. Till now, historically you have reached this stage where the Satyam is exposed.

Gregoire [in French]: All those egg shells *[UNCLEAR]* originate in the first. In a way they exploded one into the other until they had covered the totality of the created universe. Thus the universe in the beginning was called Hiranyagarbha, that is the Golden Egg and it is a name of Brahmadeva. If you take a longitudinal section you find all the universes like Bhuvar Loka, Swāhār Loka, Mahā Loka, Jana Loka, Tapar Loka et Satya Loka.

Those various universes are different parts of the three worlds: the terrestrial world, the celestial world... We have reached, as Shri Mataji says, where this process of progressive openings of the shells has lead us: at the level of Satyam that is the manifestation of Sahaja Yoga.

I'll repeat once more the mantra now that you have understood its meaning: Om bhūḥ Om bhuvaḥ Om svaḥ Om maḥ Om janaḥ Om tapah Om Satyam Om tat Savitru varenyam bhargo devasya dhīmahī dhiyo yo naḥ prachodayāt, Om apo jyoti raso-‘mrutam Brahma Bhūr Bhuvaḥ swarom.

Shri Mataji: Now you start Mahāgaṇapati because the thing is you have started now washing the feet.

Start Mahāgaṇapati.

***Contents: 1983-08-29*, Public Program, Day 1, Geneva, Switzerland**

I bow to all the seekers of Truth. Every moment has got a past and a future. Everything has got a history and a future that is going to follow. Today we are here at this moment and we have to look at every problem in relation to this time. The understanding of consciousness has to be understood in all its aspect and at this period of complete integration it is easy to relate it to every movement of our mind.

The evolutionary process has created a human consciousness within us and this human consciousness is a product of a living process and a living process is to be understood in its own nature. I was very happy to see the picture of these trees on these ags, because they denote or express the living process.

To understand the living process we can look at the trees. A seed sprouts into a plant by a living process.

If we want to do it, we cannot do it. The leaves burst out into flowers later and the flowers become the fruits because of the living force that is acting in it. We human beings cannot do anything like that.

We can't even produce one living thing, but we take everything for granted, as we are taking our human consciousness also for granted, but the living process, whatever it does, is spontaneous and cannot be done by us, the human beings who are the epitome of evolution.

Our evolution also is the evolution of the consciousness within. Now, this consciousness that we have today has a relationship to the past and to the future and if we have to go to the future consciousness, what should we expect? I am surprised in the name of truth so many spurious things and fake things have come.

I want to talk about it to you at the first beginning because we should not be confused about the reality and unreal things which are described as real.

So, whatever has to happen to us has to happen spontaneously, without much effort. It is very difficult for ego-oriented human beings to accept this.

Some people believe that if they stand on their heads for many days they will become higher people. All kinds of funny belief we have and we run towards them very fast because that satisfies our ego. Living force is not in the hands of ego at all.

You may be a king, you may be a governor, you may be anyone, but the living force acts the way it is.

So that is the word Sahaja is: Saha means with and ja means born with you and Yoga means the union with the Divine; so, the spontaneous union with the Divine.

So you cannot do anything about it.

The another point one must understand that when people start talking about the energy of evolution they can deceive us. In one of My programs I had about ten people sitting in the front seat and they started jumping without their control on it. I said, “What's the problem?" “Oh” they said, “now we are going to fly in the air." So I said, “All right, if you want to try to fly, at least just now you don't fly. Can you control your flying for the time being?" They said, “We cannot." They said, “It is spontaneous." Now, one must know that you can always jump if you want and if somebody else is making you jump, then it is not spontaneous; it is somebody else is doing it.

Now supposing this glass is kept here and if I have to remove it there I can do it with My hand, but supposing suddenly you find this glass moves there with an invisible hand.

So this is not the work of God, because God has no interest in moving this glass from here to there. He has no interest in giving you diamond and gold. If you rationally understand these things, then you will know so far energies that people described are not the energies of Divine.

Suddenly a mass a process takes place. I've seen people taking out their clothes and dancing like mad.

Then there are other people who just work like slaves without understanding. Like mad, they become some sort of abnormal docile, passive cabbage. To every intelligent man it should offer that, “I don't want to be like that." But human beings sometimes, in their ego, try to commit stupidity. They say, “If the other fellow is funny, not me." But here we have people who are seeking the truth.

So, all these cults and sects and all these are just money-making propositions. They cannot give anything to your consciousness. At the most they can't do one thing, is to take you from one extreme to another extreme. Work with opposites, like somebody who is a very, say, licentious man or something, suddenly thinks that, oh, he should have a proper family; because he makes some Guru or some organization which takes a lot of money from him, he becomes a good husband.

So one has to understand very clearly that when you are expecting an evolutionary process, then you must expect something to happen to your consciousness and

whatever happens to your consciousness has to be completely under your power and completely knowledgeable. I met one of the gentlemans of the flying squad academy. He had inspired and he was a director of that academy; a director having epilepsy, his wife has epilepsy and his child had epilepsy.

So they came to Me and people told Me that this man used to tell stories that he can pass through the walls and that he used to levitate himself and go through the roof and I asked him, “Why do you tell such lies?" He said, “Because a lot of my men were in the war and I thought that now if I don't tell lies I cannot get to levitate anymore” but as a result of that flying squad programming, he got epilepsy.

So one can see that how people can be confused who are true seekers, who are genuine seekers, by these tricks.

Now the power to become higher is with you. The Spirit resides within you, according to all the scriptures of the world. Now as in the Bible, it is said that you are to be born again.

So you very seriously dress up your child and very serious people go to the church and some priest puts his hand and you are born again. It is such an artificial thing, but we have accepted for thousands of years. Now if you just sit back and see, do you think Christ would have said that to be born again means this kind of a drama? Or there is something greater living in it because you always talked of a living God? So the consciousness has to move higher like a spiral and not like a pendulum.

So far, the progress of all the leaders has been like a pendulum. Like, in India we had a Catholic religion called

[UNCLEAR] which believe that there are different deities as the essence original Christians believed in and they are the ones who should be worshipped. Now, they have found that worshipping those deities is a very big thing and they forgot about the essence.

So another Protestant, like religion came to India called as [Marissa], which rationalised everything and said that, “These are blind faith people. We are rational people” and said that, “We have to worship the formless miracle." Actually, by worshipping the flower, you don't get the honey and also talking about the honey you don't get the honey. It's talk, talk, talk, talk, discussions, arguments; it's not going to give you the honey.

They talk nonsense of all the religions. Nothing comes out of it. This one says that, “My religion is such” and another one says, “My religion is such” another one says, “My religion is such” but all those the followers are just the same. It is you who talked against right and established that within us lies an area which is within us as the unconscious and the future of consciousness would be a consciousness. It would be a consciousness, again I say, of collective consciousness. Meaning, when the consciousness moves finally up, every human being starts feeling the other. It's an actualisation. It's a living process which makes you that. That is not a make-believe. That is on your central nervous system. You can feel the subtle centers of another person; that is the proof. You have to give your own certificate. You become your own Guru and you know everything rationally, emotionally and spiritually. Means it is logical. Once we understand this, let us see what was the past, what is the

present and what is the future of our consciousness. The past if you see in the expression of it that we, the human beings, try to find out about the elements. We have to go all out to discover about elements and the powers and how to do use it for our power. Like a tree grows above; as it is growing here above we show a tree but if this tree grows more than what it can, so you find in the consciousness of human beings there's a new awareness is coming. I am sorry, French language there is no word for awareness.

So you have to use the one word for both. Now, this awareness is felt global style. Very much this style is the awareness of nourishment you've felt of this one force. You see, so many feminine movements have started in this world. I have said that. I agreed that this style mostly a pendulum movement. It's men have dominated as we dominate them.

[UNCLEAR]. [In French Translation: This is not the feminine consciousness.]

Shri Mataji: Which makes the tree grow outward where the feminine consciousness is consciousness of rational of the Mother Earth. Like a tree had grown and the sources of light radiate outside the Mother Earth and then the Mother Earth has to come and give that nourishment to that tree. That doesn't mean that the human being has to become a figurehead, that they become passive of men. It means that men get the beauty of that nourishment, that they become compassionate, affectionate, loving, concerned about it. For example, in the history, you see, aggression was regarded as a humanoid thing. You can see the Father's

side was very much in exercised in the consciousness. That was very important to have a Father who was a virulent Father. Then the time of, say, Abraham and all those people, they talked of the Father. In India they talked of the Rādhā Kṛiṣhṇa.

Then came the Son's position in the consciousness. They became conscious of their children and now after the Son's expression and manifestation, now The Holy Ghost, The Mother has to manifest. Christ has talked about the Holy Ghost. He said She was going to come or He was going to come. He used the word anniversary because his Mother was the Holy Ghost in incarnated form. And He didn't want to talk about it, because if the people had directed their attention towards Her and tried to trouble Her and then he would have come out in a very destructive way. Perhaps they did not know that he had eleven powers of destruction, but he did not manifest those powers. On the contrary, he said that forgiveness is the greatest weapon, because He has started taking from that magnificent Father, to the affectionate nature of the Mother.

In Geneva, which is the center of so many international activities, the people, if you know, if you find them, they are weak towards the Holy Ghost. There is no aggression, but there is nourishment, nourishment of all who are deprived and inside yourself also this nourishment is given to us by this force of Kuṇḍalinī which resides in the triangular bone. She resides in the bone called sacrum and sacrum is sacred in Greek language. At least they knew about this sacred power of Kuṇḍalinī within us which was going to nourish us one day when we become

the Spirit. In Sanskrit language it is related to the Aquarius, the Holy Mother. They say it is the age of Aquarius. It is the age of the Holy Ghost. This Kuṇḍalinī is the reflection of the Holy Ghost. It's the Primordial Mother. It's the Power of God, His love. The Father has got no power because all His power is the Primordial Mother. But the Father and the Mother are not like modern father and mothers. The relationship is just like the moon has with moonlight, the sun has with sunlight. Complete control and complete oneness exists within them.

Now this Holy Ghost is represented within us as the Kuṇḍalinī, the Aquarius, which represents the Mother, in the universe, in the cosmos. And the Father is represented within us, reflected within us as the Spirit which is the Son.

So in Sahaja Yoga, first you have to go as a hypothesis of what I am saying. As you come to, say, a new college or a university, you try to understand the hypothesis and then, then you prove it. Then it becomes the law. In the same way then, actually, genuinely you get your Self-realisation or your second birth. You start feeling in your hand the Cool Breeze of the Holy Ghost. In many people who have problems you can even see the pulsation of the Kuṇḍalinī in the triangular bone and rising of the Kuṇḍalinī. And on top of your head where the fontanelle bone area is where you are given artificial baptism, you can feel first the pulsation and then the Cool Breeze starts coming out of your head.

The other day I talked on the radio with a lady and just after the program she got a Cool Breeze in the hands.

But after that it is necessary to learn what this Cool Breeze is, how to use it and what is this power of the Spirit, that is your own.

So this power which is the residual power, this power, because it has not yet manifested. It is the power of your desire which is not yet manifested and there is only one pure desire every human being has, is to become one with the Divine. This is the word, is Yoga, means where you unite with the Divine. Not the physical Yoga that we do sometimes to become cinema actors. It's a real happening. It is the actualisation of that auto which is the word in the autonomous nervous system within us. With this we have two types of people who escape: one are the people who are suffering from superego in the sense who are always taking and good for nothing. They are conditioned from childhood in such a manner that they feel all the time guilty about something, always unhappy and crying. These people come forward if they are not extreme types with the argument that, “Mother, I am no good for it." So why do you judge yourself? For such people, I would say they must count their blessings. Just think: to be born in this beautiful country of Switzerland itself should say that there is something about you. Such people should count their blessings and should know that this is the epitome of blessing that they have to have. It is their right. It's their own achievement. Those people who want to misguide you will always tell you that you are a sinner, or they would say your Karmas, you have to pay for it.

So why should you pay to these Gurus, then, if you have to pay for the Karmas? Then another type of people are

the people who are overeducated, futuristic, dominating. They don't want to listen to anything but to their rationality which is so limited, because this mind is a limited vehicle.

I am talking of the unlimited realm of Divine Bliss and how can this mind understand that? I came by car and I had to leave it outside even to enter into this hall.

So it is important to understand that we should keep an open mind.

I've seen the scientists who are supposed to be the most open-minded are really hypnotized by science.

They do not want to see something that is beyond. That is how a person who has over-read and overintelligent thinks no end of himself also escapes.

Both these extreme cases create imbalance in life and I will tell you tomorrow what happens to you, what diseases you get because of these imbalances. Now for the person who is overcovered by his ego is very insensitive. He cannot see the truth. Anybody who tries to pamper his ego is willing to share out any number of money or any number of yours.

So one has to be in the center and understand that argument about anything, it is not going to work out.

It will work out or may not work out. There is no guarantee that you can give.

So, one has to desire that, “I have to become the Spirit and I should be that. I should be my own power” because you are that; you are your own spirit. You cannot pay for it. Of course, it is ridiculous; it is absurd that one can pay to become the spirit. It is spontaneous, it is living and it

happens to thousands of people these days, more in the women's, much more in the children's consciousness, because they are less complicated. That's what Christ has said that, “You have to become like children to enter into the Kingdom of God” and if you cannot become that, then one has to work it out.

So we have to be fair to ourselves, because this is the last chance. If you are identified with, say, some other organization or some other thing, you can go ahead with it. I cannot force it on you. I cannot dominate you to do something. Only thing I would say that you have got that emancipating power within you which will manifest itself.

Now, one question everyone asks Me after My first lecture. I had better answer it just now. They say, “How do you do it?" It is very simple if you understand. A candle which is ready can be enlightened by any candle which is already enlightened and if that candle becomes steady and enlightened, that candle can also enlighten another person.

So, what do I do, then? Nothing. If I have the light, you get the light and you give it to others, but you don't see the light; you become the light and you give the light. This must be understood, that seeing light is a short-circuit. Those who see light like that ultimately have to end up in the mad asylum. As a Mother I have to tell you everything very frankly. I don't want to hide anything from you.

I am thankful to you that you all have managed to come today and I am very hopeful that today your consciousness will grow to that higher consciousness of collective consciousness and not the consciousness of

hypnosis where you don't know what you are doing. Here something really happens to you as a result of Self-realisation: you get physical, mental and emotional cures.

Yesterday we had a very big industrial from India who came and gave a big lecture to Sahaja Yogis, saying how I cured him in two minutes of his angina trouble. It is very easy, because if you know the source of everything, for example, in the same center sources which I will explain to you tomorrow, then only if you can nourish those centers, you get cured. Same thing about emotional problems and taboos from overthinking and speediness. Last of all, spiritual problems, if you are weak in a wrong way, living a religious life, with wrong type of advises you get into trouble, or the wrong type of methods, you could get into trouble and this can be also sorted out by the help of your Kuṇḍalinī and you become the master of yourself; you become your own Guru. I tell about that tomorrow again.

So thank you very much and because today is the first day I would like you to ask Me some questions which is related to Sahaja Yoga and not just a thing that because I read such and such a thing or I belong to such and such cult. You have to be kind to others. Yes, please? Lady: I want to say that you are a fraud *[UNCLEAR]*.

Shri Mataji: Thank you very much. Yes, yes, thank you very much.

Lady: That you have no value. Your words are empty. You're welcome. Your face is greedy and you have no spirituality.

Shri Mataji: Yes, well, thank you very much. It's all right. It's all right. Thank you. All right, you have spirituality, madam.

Lady: *[UNCLEAR]*.

Shri Mataji: Now I'll tell you one thing, be fair to us. We have paid for this hall. We've got people, not to listen to you. Nobody has to listen to you. You take another hall and you may lecture. Everybody can. But as long as we have paid for this hall, Lady: *[UNCLEAR]*.

Shri Mataji: All right, thank you very much. All right, now will you go? Thank you. Thank you very much. Now after all this, for you it is, Lady: Good night.

Shri Mataji: You can see before your eyes how it is. It's not proper. It is improper. It is impolite.

It's impolite answer, to come to somebody like this. No, it's not proper, all right. This is nothing. The other day the people came to My program to hit Me with a Bible. You should go now, please. Thank you.

Lady: *[UNCLEAR]*.

Shri Mataji: They have not come to listen to you, madam. They have not come to listen to you. No, nobody has come to listen to you. Can you please go now? Nobody wants to listen to you. They haven't come all the way to listen to you. [Voices of people trying to put this woman out.] Lady: *[UNCLEAR]*.

Shri Mataji: It is libelous to say like that. Hello, madam, it is libelous to say like that to Me. Now keep quiet.

[Everybody talking at once. Now, loud clapping for Shri Mataji.

All: Jay Ma.

Shri Mataji: Just see, look at that. Now what they can be the fraud. I am talking about the fraud.

What did I tell you fraudulent? I am telling you about the fraud people. Did I ask you for money? Why should I be fraud? What will I get out of being a fraud? I am not taking any money from you, am I? I have no organization, nothing. Why should I be a fraud? For what? In the first place, I don't need anything, but this is what it is. I am sorry for them. This is nothing last time; they came to Me to hit Me with the Bible. Imagine! *[UNCLEAR]*. Yeah! And I was just laughing, you know. She was on Me and I didn't know what to say. It's stupid. Only I can say that you must verify for yourself. What has she done for you so far? I have met people who can tell you their lives have been transformed. They have become good citizens and not only that, but they are cured of some horrible diseases. They have come out of alcoholism, out of drug situations, out of so many things. They are changed transformed, beautiful people and awareness of their understanding is so high that when they talk people ask them, “Are you a Guru yourself?" What I am saying, that you have these powers within you and you have it; that's all. Like a banker, saying you have to cash your cheques and what is there to get angry for that? If I say there is a diamond here, it's your own taking, you get angry with me for it. Human beings can't understand anyone who is direct. Why did they crucify Christ? These are the people. Actually, you can't call a human a fraud even if I wanted also. And with your laws you can, but the way people take liberties with Me because they think I am forgiving, but they should forgive themselves and they should

understand that God has created them as human beings with such great care and they have to achieve the purpose of their life.

All right, now if there is anybody who has any questions, ask Me *[UNCLEAR]*. Is it a sensible one, madam? Or you have another *[UNCLEAR]*. Is this the gentleman [we talked about]? Is this gentleman sure? Sahaja Yogini translator: Yes.

Sahaja Yogini [translating to Shri Mataji a question]: He has always heard that it is dangerous to awaken the Kuṇḍalinī.

Shri Mataji: Yes. That was another question I should have answered in the beginning. Yes, I should have answered this question, because this is the second question people ask. Now I have to say one thing, that Kuṇḍalinī is not dangerous at all. She is your Mother. These are some naive people who try certain things like [kinesis] trying to put their fingers into the plugs and say that electricity has given them a shock, but Kuṇḍalinī never gives even a shock like used to be done. But there is a protective force within us which is based in the last center there, as you see. It's called as the support of the Mūlādhāra and the support of the Kuṇḍalinī and it is the innocence of a human being.

So, when people try to exploit the innocence of the seeker, then this power of this center rises through the sympathetic nervous system and gives all kinds of manifestation, like people start shouting, some people start getting blisters and heat and all that. But the Kuṇḍalinī when awakened by Sahaja Yoga rises through the central path where it is good. You may feel a little bit

heat, little bit tolerable heat first, because if your body is a little bit in a turmoil or your mind is in a turmoil, then you might get a little bit of heat coming out of you head first. A little bit, like a ventilation and then you can feel the Cool Breeze. It is never the heat. That takes you towards construction. For example, if you experiment with helium gas and you heat it, you will find every molecule starts behaving in a funny manner. But when you cool it down, every molecule act in a collective way and that is what is to be seen when you get your realisation. You start feeling a Cool Breeze from your hand, but all these experiences that they have described and the people who have done it in an unauthorized manner, a man who leads an impure life, who has no compassion but greed in his mind, such a man cannot raise the Kuṇḍalinī. As she said before, the fraudulent man cannot raise the Kuṇḍalinī; only the anger of innocence comes forward and harms people. In Sahaja Yoga now we have had thousands of people all over the world who have been now benefited and nobody has felt any discomfort so far. Only I saw once or twice when a person is possessed by some black magic business, then they get a little sort of shivery or shaking, or rheumatic people get shaky, but it can be corrected.

Sahaja Yogini [translating the question]: So he has two questions. The first one, he says how come the power which has been sleeping for so long can be awakened in the fraction of a second? And the second question is that you said this is no organization. How come we have lots of material, video and so on and you make publicity in town?

Shri Mataji: Yes. Now, the first question is really relevant. It's this, that how can a Kuṇḍalinī that has been sleeping for so many years, suddenly rises? On a Tree of Life there can be only one flower, could be two flowers. For years together there could not be more than five, six flowers, but when the blossom time comes, there are many flowers. There are many seekers and the Divine is anxious now that Kuṇḍalinī should manifest because it is the time of Aquarius. The time has come to happen that way. All right? Now the second question is very interesting, that how is it there is no organization, yet there is so much published? It's a very interesting question. It is not an organization in the way you understand, that it is not a dead organization. It is minimum organization like a body. Now, for example, we have no membership. We have no membership fees. We have no list of people as such, but how it works out, when they knew that I am going to come to Geneva, those who have been awakened to this all over the world have sent something to give. There is no compulsion or anyone and I also don't know how spontaneously it worked out because some people said that the paper from Australia, some said that some other posters from other places, from India and there are Europeans who just spent some money to get this hall and to post all these things there.

So it has worked out on a very large scale. I don't know how they have done it. It's like a great festival of everybody spontaneously joining. As far as I am concerned I don't take any money at all. On the contrary, most of the travels are done by My husband's money. I

have so many other expenses also. My husband does because he also, as you know, is a Secretary General of one of the United Nations agencies and he thinks this is the solutions for many problems. Luckily it is so, I must say and actually if you ask Me, I really don't understand money at all.

So that's how it has worked out spontaneously. Now I am going to America. You will be surprised; people have got here already from India, from Australia, from Europe, from England to work it out. Actually, I was surprised Myself to see My photographs all over. I didn't know anything about it, how they did it and I ask them.

So they say, “It all works out, Mother, somehow." Actually, if you do not advertise people don't know about it, but how far one can go also you cannot know it, is a big problem. I don't know any other way of getting to the people for this. Mostly it has worked out by word of mouth so far, because we can't also manage too many people at a time and the quality is not good there. Like now we have established, some of them are well-established; now we can have some publicity like that.

Sahaja Yogini [rephrasing the question for Shri Mataji]: I have one question. As you said, we were seekers and that we want to awaken this Kuṇḍalinī. How can we be sure that we don't want just to achieve the power of Kuṇḍalinī? Is that correct, sir? Questioner: Instead of the new seekers looking for the spirit or...

Shri Mataji: I mean, I don't understand. He doesn't know how I know that he won't to...? Sahaja Yogini [rephrasing]: No, how can they know if they are true

seekers or if they just want to get the power of the Kuṇḍalinī?

Shri Mataji: You see, if you are a true seeker they don't care about the power of Kuṇḍalinī. It is not a power to kill somebody. It is a power of nourishment, My child, of your nourishment and nourishment of the whole universe through. These are not two things; this is one. He's a seeker, he's a special category of people and they get their realisation because we are seekers. If you are a hypocrite you cannot get your Kuṇḍalinī awakened. I am sorry that, it's a very innocent question.

[Aside:] Who is he?

Sahaja Yogini: *[UNCLEAR* Pere] William.

Shri Mataji: But don't judge yourself and as far as I'm concerned you are all true seekers. All right? Questioner: I find what you have said very interesting. I would like to know how did you come to this knowledge? How did you find out yourself?

Shri Mataji: I will ask you one question and you will have the answer. How did you find out you were a human being? Questioner: Pardon?

Shri Mataji: How did we find out that we are human beings? Like I do. I had to find out that way the first time. Just like that, I knew I was that. I knew that I was this. I had to do this job. As you know you are a human, just like that. That's what did it. Now you have expressed yourself. All right? I was born with this awareness.

Somebody has to be born, whether it's Me or you. Now this is My thankless job. What am I to do? If somebody can do it, I will be very happy to be done, but it's rather

difficult. It's like sometimes, it's sometimes like mountains, you know, but we have managed and we'll manage. But one thing, again I tell you, that after getting realisation you should not just say, `Now today I am realised.' You must know all about it. You must establish yourself, completely. You should be a master. Otherwise, you will be like the Bible of Christ, where He says that, “Some seeds just got sprouted and were ruined." For that we have luckily a center in Geneva and you can all take full advantage of that without paying any money.

So how do we do it? Now there is one simple thing I will ask you first, that you take off your shoes because we have to be in contact with the Mother Earth.

So people don't want to do even that. This is the little thing, I mean *[UNCLEAR* through Dharma you know the right]. You can take them off. Just take out your shoes. I think it is needed, that's all. Just take off your shoes. We have to be sensible and if it does not work out, not to get desperate. I am here for three days and I am going to tell you each and everything.

Now just close your eyes because there is no hypnosis here and put your hands just like this because as you see in there, these five fingers, six and seven are the centers on the left and right side of the sympathetic nervous system and through them the message goes. Now the left hand is for the desire and right hand is for your action.

So please now close your eyes.

[Aside:] Too much lights.

Some of them could be put off, please. That's it, thank you very much.

Now just close your eyes and just sit straight with both the feet parallel on the Mother Earth, comfortable.

Means don't push your head too much forward, backward, just in the center holding proper. If there is anything uncomfortable, tight, you can relieve it a little bit if you think something is uncomfortable.

Even spectacles could be removed because it also hurts eyesight.

So you can remove the spectacles.

As your eyes are closed you don't need spectacles. And now we have to be settled down for our higher consciousness, with the due respect to yourself, as you are the temple of the Spirit. First and foremost thing, I have to request you that you say within your heart, that you are not guilty. Please say, `I am not guilty.' Do not feel guilty at all. It's a damnation of the self. Let God judge you. Let your Kuṇḍalinī judge you. You just say, `I am not guilty.' Here I am talking to you about the force of compassion, ocean of love, ocean of forgiveness and what little guilt that you have there.

So please say, `I am not guilty.' Then, call Me Mother, or you can call Me Shri Mataji, if it is easier for you, that's My name, to say `I am not guilty.' `Mother, I am not guilty,' or `Shri Mataji, I am not guilty.' Now keep the left hand on your lap towards Me. Hands should not be towards your own hand but towards Me on the lap. And now you put your right hand on your heart, where resides the Spirit. On the heart, on the heart and with full faith in yourself, ask a question to Me thrice, `Mother, am I the Spirit?' Ask the question. Just ask the question, `Mother, am I the Spirit?' Now the second action is to awaken

within ourselves our principle of Guru, principle of mastery. Abraham and Moses were the incarnations of this principle of primordial mastery and there are many others.

So now, would you please put your right hand on the stomach on the left hand side and please say ten times, `Mother,' because you asked Me a question, `are you the Spirit?' and if you are the Spirit, the second question should be, `Mother, am I my own master?' because the Spirit is your master. `Am I my own master?' `Am I my own Guru?' `Am I my own guide?' Ask this question ten times because we have ten petals of sustenance. Now again you put the right hand on the heart and we say that, `Mother, I am the Spirit.' Now assert yourself, with all faith and confidence in yourself that you are the Spirit, without any fear. Say it twelve times, please. Sincerely say it, `Mother, I am the Spirit.' Now raise this hand at the left of your, at the shoulder where the neck meets the shoulder on that corner, from the front and say again for sixteen times because it's very common in the West to feel guilty.

Say, `Mother, I am not guilty' sixteen times and if you have done too affected, say it two times just to punish yourself. Please say it sincerely, `I am not guilty.' It's like a mountain of guilt.

Now put your same hand across your forehead and say with all generosity that, `Mother, I forgive everyone,' out loud, again, again. This is the last time [the people repeat in French for thirteen times `Mere, je pardonne a tous' which means: `Mother, I forgive everyone'].

Now, put the hand on top of your head. You will find it hot. Now just try to press it slowly with your palm on the fontanelle bone area. Press it seven times and by pressing it you must know that I cannot cross your freedom. I cannot force Realisation on you.

So you have to say seven times that, `Mother, I want my realisation. Please manifest my realisation. I want it.' You have to say it.

Now raise your hand quite high up and see if there is a Cool Breeze coming out. You can put your right hand done and instead use the left hand. Put it higher. You can change your hand and see. Don't open your eyes. See if there is a Cool Breeze coming out. Now I tell you how to raise your Kuṇḍalinī. You may open your eyes. Put your left hand in front of your Kuṇḍalinī here, sitting down, like this, left. Now with the right hand you start moving like this back, forward, upward, forward, backward like this, in a clockwise manner. Now while moving it you are giving realisation to yourself, not Me. Just move it properly; that's all. Take it on top of your head and turn it round and give it one twist. Now a second time, take it up full force. Just do it like this, second one, in the third one we have to give three knots. Take it up, one two and three. Now see if you are feeling the Cool Breeze in the hand. Feeling now? Something? Raise your hands now. Ask a question in your heart, `Mother, is this the breeze from the Holy Ghost?' So now you are feeling it? It has to start moving. Now just see if you are feeling it.

Now you see in your mind if you are thinking. Is there any thought? Are you relaxed? Are you feeling the cool on your head and in your hands? See for yourself. Judge

for yourself. Watch Me and see if you can do it without thinking. Those who have felt the Cool Breeze please raise your hands. All of them. All of them. Wow, most of you have felt it. Now, this has not happened by argument or thinking.

So I would request you to go home without thinking about it and sleep. Those who have not felt will feel it also.

Tomorrow again we'll be here and I will tell you how to manage it further. Did you feel the Cool Breeze? No? That doesn't mean you are not a seeker. Now put your hands like that. Let's see. Those who have not felt it, please raise your hands. Yes that's good, now. That's good. Now, all these people keep their hands like this. We have Sahaja Yogis; they will see you. Now come along. Those who have not felt the Cool Breeze. All right. Now those who give realisation to others, now come along, come along, just come along. Now be quiet. Nobody should talk. *[UNCLEAR]* too much. Those who have been smoking must tell that they have been smoking because, you see, that affect the center here. *[UNCLEAR]* just now, just relax, can you? *[UNCLEAR]*, no? Both of you? These three or four have felt? Sahaja Yogini [translating]: He did not feel anything. He says he has a question.

Shri Mataji: Really? All right, but you can ask questions tomorrow, better *[UNCLEAR]*. Come along. Now be sensible, [what about] these questions. *[UNCLEAR]* very few haven't got it. Be sensible.

Can we get some *[UNCLEAR]*.

[UNCLEAR]. Take it here.

All right, good, good, really! *[UNCLEAR]*.

Oh good, excellent.

Great, great, now you must learn everything about it *[UNCLEAR]*.

You must know about it.

***Contents: 1983-08-30*, Public Program, Day 2, The Truth Has to be Absolute, Geneva, Switzerland**

I bow to all the seekers of Truth. Yesterday we saw the general aspect of Sahaja Yoga and how these modern times are connected to the future and to the past, because if it is a living process of evolution then it is a continuous process intermittent with transformations. But we human beings believe that whatever we achieve through our mental projection is the transformation. For example, when we started to establish our kingdoms, we thought that monarchy will solve the problem and we adhered to it very much. Later on we thought it's better to have democracy, or some people thought we should have communism.

Some people thought that Christianity would work out. Others thought that Islam might work out.

Some thought it was Buddhism that is going to help us and some thought it is some other religion will help us, like Jainism or Zen. Now, if you really see all these human endeavours from a detached mind you will find that there is something missing in them. There are psychologists who said that it is the sex energy which is important and we should not be conditioned.

So they used their ego to express themselves without any conditioning. And the others who believed that it is the will power that is important and you must develop

your will power. But one should know that truth cannot be two. It has to be absolute. And the point at which we are today, we are absolutely diversified.

So, we developed a new, another system by which we say we should be tolerant of everyone.

We must tolerate everything; there should be coexistence of everyone. But it is a very vicarious imbalance. Any day it may blow off. Every moment there's a danger that the whole thing might blow off; this tolerance might just topple down from this side to that side. India is the greatest democracy, I have seen the democracy part of it. I have seen all the democracies of the world because I had a chance to visit most of them. I have seen all, most of the totalitarian governments, also the communist regimes all over the world. And I feel all of them have missed the point. In none of these organizations, people are happy.

We can see clearly that there is a kind of a dearth everyone feels. If somebody thinks that fire is too much to burn the body you jump in the frying pan, it's just the same.

So this so-called tolerance also has no basis.

On the contrary, in this tolerance we might even tolerate horrible people who are demonic.

So the modern times, as we see, are full of confusion. No one knows who is right, who is wrong. It is all a relative world we live in. Everyone thinks that they are the best and at the most they can tolerate each other. If it is truth, it is not to be tolerated; it is to be enjoyed.

So now what is the problem with the whole world today which is awaiting shocks after shocks? As I told you yesterday that we have developed our tree outward, very large in size, enormous, but we have not tried to find out our roots.

So there have been some people from thousands of years who have been trying to see the roots of human beings and every time there has been a problem with them, there has been some sort of a guide, an incarnation who came on this earth.

All over the world, we have got great prophets and great incarnations who came on this earth to enlighten human beings. But, as you know very well, all of them were tortured by human beings. The reason is we live with our mental projections which is all artificial. Not only artificial, it is also a thing by which we do not know where are we. It is a very relative plain we live in, like a balance going up and down. Now the trouble is that so far whatever development we have done through our mental projection thinking this is a good thing. For example, we said we should find out science everything, all right.

So, we found out science. And then you said, “There is no God. Let us find out the science” and what did you find out? The most advanced countries like Russia and America has found out bombs and missiles to kill each other. No animal can do such a nonsense and we justify all our stupidity! Now, if you see on the side of the religion, what have we achieved? Those people, say for example, believe in Hinduism, it is said that in everyone resides the spirit. Then how can you have a caste system? How can you condemn somebody as a schedule

caste and a higher caste? At the most you can say that a person has a aptitude for seeking God, some has an aptitude or liking or fondness for doing business or for politics. But how can you condemn someone from very childhood that you are a schedule caste, you are a higher caste. It is against the absolute basis of Hinduism. The basis of Indian should be to dedicate all his life to achieve his Self-realisation. But what are they doing? They are behaving now like developing countries, trying to be developed like you, producing plastics.

Then we have another religion, we can say, like Islam. The whole attitude towards Islam is extremely fanatic. How can you be fanatic when Mohammad Sahib fought the fanaticism? People are so fanatic that even Mohammed Sahib has got the colour as if he was a fanatic. But he was a great incarnation of the Primordial Master Principle. The namaz that He has taught was nothing but the Kuṇḍalinī awakening.

He has described Kuṇḍalinī as “Assas" in the triangular bone. He has. Not only that, but he has said about resurrection times so explicitly, so much that if you read it you will find it is nothing but Sahaja Yoga he has talked about. To such an extent that he said, “When the resurrection time will come", he has talked of future; definitely he has talked of future; so he was not the last who will do the job then, He said, “At that time your hands will speak." I don't know what credit we have given to him by just becoming mechanical fanatics.

We cannot establish any religion out of fear. Religion is within ourselves. It is to be awakened; it is the sustenance within us. If it is awakened we do not do

anything that is wrong. In darkness if we are, we may bang at each other; we may do anything. But in the light we know relatively how we stand to each other and there is no need to have toleration. Only the blind have to talk of toleration because they have to save themselves and save others because they are blind.

So there is this kind of a manifestation of such a great incarnation who came on this earth to guide us so well. Let us see what we have done to Christ. We have again made him a mental projection. The one side is the Catholicism which is just a blind faith and the right side is the Protestantism which is just rationality. One is blind and another is limited.

We must face it because if we go on like this mad, our forefathers have gone up like that; our generation is going up like that, tomorrow our children are going to refuse Christ completely. Now, some people who are saying that, “No, we have to have a second birth as Christ has said." So they are so stupid that they brand themselves, act to be realised Soul or as twice born or something higher, just brand themselves.

Of course, they try to lead a life of austerity but austerity gives you temper like the lady yesterday. She was in a temper for nothing at all with Me. It is artificial austerity, superimposed feeling that we have to be ascetics.

Like I had some hippies in the beginning and I asked them, “Why do you want to live like a primitive man?" So they said, “We want to be primitive because modern man is crazy. We want to have an anticulture." I said, “By changing your dress, your brain cannot change. It has become modern. How can you change your brain now?"

Some of them did understand that you cannot change your brain by changing your dress or by accepting a kind of a fashion of becoming a hippie.

So the true seekers must know that they should not live with artificiality about even thought. I mean, if you go and see the whole world, I was Myself born in a Christian Protestant family in India and when I travelled across I was amazed to see that those who call themselves Christians, who were saying that, “We are the true followers of Christians” whom Christ had told, “Thou shall not have adulterous eyes” have the most adulterous eyes and very immoral life.

So Christianity has failed to give you that power to be Christians because by artificial things you cannot transform a personality. When I went to England first, like yesterday there were people opposing Me saying I am Victorian, English language has a capacity to brand people like this, “You are Victorian, very old fashioned." This was about ten years back, I said, “Go ahead with your immorality but you will suffer." Today, now that America which rejected Me is suffering from a horrible disease called AIDS. No Christianity can cure it; no Bible reading and no lecturing and no sermoning and also no prayers are going to cure it. Only the awakening of the Kuṇḍalinī will do.

Now, so they have taken to another extreme of taking an austere life again.

So they are living with opposites, they are living once with a licentiousness and another with austerity.

So as I told you yesterday, they are moving in a pendulum, but as I told you again yesterday that the

consciousness, if it has to rise, it has to rise spirally so that you land up at a higher plane.

So what is the pinnacle of the whole thing? What is the absolute of everything? That is what we should try to find out sincerely and humbly.

But then the question comes that, “How can we find out?" Not in books, not in Churches, not in temple, so where? So I say, “It is within you." Then you would say, “But how to enter inside?" Your attention is towards Me; you are listening to Me. But if I say you have to enter inside yourself you cannot.

Under these circumstances, what should we do? So gradually we come to a Rock of Gibraltar; we don't know how to cross it. At this time so many people have come out with solutions in the market. And we also start seeking it in the market place. But again you cannot find that in the market, you can only find out in the temple of your heart.

So what should we do? Now we must think from other point of view that if God has created this Universe and if the whole human race is the epitome of evolution, He must have done something about it that we reach that pinnacle.

So, if we move with that understanding, we can refer to many scriptures about it. Still the words are words. We do not know, say in 14,000 years back, a poet has written about Sahaja Yoga in India.

In the Bible you read about the tree of fire. You read about say that, “I will appear before you like tongues of flames." In the Zen system also you read that you become a `Kaśhyapa'. But how? We believed in people

who claimed that we are the ones representatives of the religion.

Some of them shaved their heads, wore long robes and created a big image as if they were representatives. From one representative to another representative when you move, you should see what are their followers doing.

But even if you see that, still the Rock of Gibraltar has not melted away.

So, we have to understand that God has made some arrangements within you. Now, if I give you a hypothesis, it is not just My own. It is based on all the scriptures of the world, on all the incarnations, true incarnations of the world; that within us lies the power for you to get your second birth. No use getting angry with Me for that. I am giving you a very open proposition that such and such power lies with you so far, sleeping and the ascent must be understood, what should happen to us. As I told you yesterday, when it happens to you, it should happen in a living way so that you should understand that human beings cannot do it; it has happened spontaneously. And when it rises within you, you can see with your naked eyes in so many people the pulsation moving in your back and getting out of your fontanelle bone area as a Cool Breeze.

Also, you then find that a Cool Breeze starts flowing from your hands or you start feeling the Cool Breeze all around you. This happens to you and this cannot be mesmerized or pushed on to you. If it does not happen, it does not happen. You cannot have a false certificate that it has happened; it's of no use. You have to have the truthful experience. It has to happen, of course, but you

must know that if it has not happened, one has to work it out. And then when you start feeling this Cool Breeze around, this is the Cool Breeze of the power of God's love.

This is the first time you feel that subtle energy of God, real energy of God. Now this is the energy that does all the living work in this world. But we take everything for granted. Now see a tree comes before us from a little seed and an apple tree gives an apple fruit and a mango tree gives a mango fruit.

Who does the choice? Even medically I can talk to you about it very clearly. Within us there are two chemicals known as acetylcholine and adrenaline and one of them has to augment and another has to relax.

But in the human body, doctors cannot say why, the one which is supposed to augment, relaxes and which is supposed to relax, augments and how? Under what control? Very simple example I'll give you that in our human body anything that foreign matter goes is expelled out, or the body tries to expel it. But when a foetus is formed in the womb of a mother, it is not only retained, looked after, but nourished so well till it is ready to be expelled. Who does all that? We take so much for granted, everything. If we have risen in our consciousness say from amoeba to this stage, why shouldn't the doctors and the scientists think, “Why?" For example, if I try to assemble some parts like these, you will ask Me, “What are you making?" Then I would say, “All right, wait till I make it and I connect it to the mains." And then the instrument starts working in the real way.

So what is missing in all these enterprises, that we are not yet connected to the mains and that connection takes place when Kuṇḍalinī rises and the Yoga is manifested.

This is the spontaneous Yoga and that is what one has to understand that we should not ask for some sort of a hotchpotch or a potpourri but have the real thing. You don't know at what precarious point you all are born. If you are still running after the falsehood then who is going to save this world? People have their Gurus; they have their false guides and this and that and what will they achieve, I don't understand, except for becoming cabbages? Now the time has come for you to become the Guru. You to become the leaders so that you are able to save this world.

We are not any more needed to go through the horrible idea of penance. The Jews denied Christ and they said that we must suffer; so, they suffered nicely. Now do they want more suffering? But after that suffering they have become so ego-oriented. But what surprises Me that even after what Christ has suffered the Christians are saying that we must suffer. As if he has left something for you to suffer. There is no suffering needed any more. The time has come for you to enter into the Kingdom of God. I do not say that you believe Me, absolutely not blindly.

So what you have to do is to keep your mind open because you have to gain, not Me. You have to achieve your being, not Me. You have to receive your blessing. Yesterday many people got realisation and they felt extremely joyous. And many of them came and said,

“Mother what a blessing. This is the first time we can now prove the existence of God because this is the age of the Holy Ghost, age of the Aquarius, which is represented within us as the Kuṇḍalinī." Christ has said that, “I will send you the Holy Ghost." He has clearly said that it will redeem you; It will comfort you; It will counsel you. And what are we doing about it? Are we waiting for a Comforter to come in or not? Kuṇḍalinī is the Comforter within us. She is the Redeemer in us. And She is the guide within us because She makes us connected to the Spirit. As a result of your Self-realisation you become.

Again, I say, you actualise the consciousness.

It is social work. It is not God's work. Don't bring God on that level. Human beings have created problems for them and they are solving it, but why bring God in between? God's work is not of that low-level, shallow stuff. When you start doing God's work after Self-realisation, you actually don't do anything, but the love of God just flows to another person; a person gets completely cured. He gets absolutely peaceful, he gives up all his bad habits and become a master of himself and he becomes a very beautiful person residing in the bliss of God. Because in collective consciousness, who is the other? When you are part and parcel of My body, supposing if I have pain in this finger and I try to rub it, whom am I helping? I am helping Myself. There is no need to do all these huge, big advertisement and these presentations saying that person is doing such a helpful work and all these prizes to be given to such people.

Now we have here many Sahaja Yogis sitting among you. And they can tell you that since they have got their

realisation, they have never taken a pill, they have never fallen sick and all the bills of the doctors are saved! Now I have done nothing, I don't know why they want to thank Me! If the sun shines the rays work out his work. In the whole process, the sun is not conscious of it, is it? So there are no Karmas; there is no action. It is all inaction, akarma and it all works automatically. You don't have to do anything that has to be artificially accepted.

So, it is such a genuine thing and is the thing now that we all have to have.

This is the only way we can prove the existence of God. Correlation of the past, present and future. All the saints and all the great prophets and incarnations can be explained in the light of Self-realisation. It is the proof of all the manifestations so far which were above our brains.

Tomorrow, I hope I'll be able to tell you about the inside story of this mechanism. If there is darkness in this room and you come inside, you tell Me that you just switch on with one switch and all the lights come in. It is a very spontaneous happening and one wonders how it has happened. But one must know behind all this there is a very great organization which is working it out and for that you have to understand the laws of Divine and the mechanism of the Divine.

As this energy flows through you, it guides you, also to verify everything that is said. I thank you very much for giving your time today. But yesterday there was one very funny woman and five to six men who organize themselves and tried to be funny and just said I am a fraud and would not allow the proceedings to go further. I

had just asked her to ask Me questions, ask them. But I think she must be belonging to one of these artificial organizations which feels challenged.

But one must know you are the loser. All such organizations have given you nothing. Why do you slave for them? Why don't you take your realisation? And because of yesterday's happening, people don't want Me to answer your questions in the public but you can write your questions and give them to Me and I'll answer them tomorrow in My lecture, because I don't want the peace of this audience to be disturbed.

May God bless you all.

Please do not disturb others. If you want to go, if you are just fond of listening to a lecture you can go away but don't disturb others. It is not fair for yourself and to others. No, I am sorry, I am sorry, I am sorry, I am sorry. Please go away. Don't ask any questions. Please go away. Please, these are the people who have organized it. Please go away. No question. Please go away. No questions. No, please, question.

No questions. Go away. Please go away. Go away. No questions please. Go away. Go away, this is what they have learnt in their own sects! Go away. No questions. See! What have they got? Why are they missing the point? Chi... poor things are taken money off. They are going. They have no power of their own thinking. I have known so many who have come to Me after becoming just like cabbages, suffering from epilepsy, this disease, that disease. Their job is just to disturb, that's all. Is that the value of human life? Is it for that God has created you with such care and such love? Now I would request you

all to close your eyes. Just close your eyes. And put your hands towards Me like this. Then another request is that as we are going to use the Mother Earth, to suck our problems. We better take out at least our shoes, if not socks. It will help. Now you put your hands towards Me and close your eyes because in mesmerism they keep your eyes open. Now close your eyes. Just close your eyes.

Lights are too much.

Now, as I told your yesterday, your left hand is for the desire power and the right hand is for the action. Now, you just keep your eyes shut, that is very important. Don't open your eyes, because when the Kuṇḍalinī rises above the Optic Chiasma, if the eyes are open, it falls down.

So now, as you are the spirit, you have to put your right hand on your heart, it's very important. And keep the left hand very comfortably on your lap. One thing, you have to be comfortable.

Now, first thing you have to do is to forget that you have to be guilty for anything. You have to say that, a question to Me, that, `Mother, am I the Spirit?' You have a right to ask because you are that.

This is your right.

Now you have to establish your principle of mastery, because the spirit is the master and the master has to be recognized within us.

So please put your right hand on the left hand side of your stomach and say that, `I am the master. I am my

own master.' Say it ten times because we have ten petals of our sustainers.

Now you put again this hand on your heart and say, `Mother, I am the Spirit.' Assert it. Say it twelve times, please, `Mother, I am the Spirit.' Now, ask it genuinely, it's your right. Now raise the right hand on to the neck, the base of the neck.

Put it on the shoulder from front. Hold it tight. Do it from the front; cross over and do it from the front.

At this center, you have to say, `Mother, I am not guilty,' because if you are guilty, this center is caught up.

So you have to say it sixteen times. If you have been really very guilty all your life, it's better to say thirty-two times, as I told you, or maybe one hundred and eight times to punish yourself.

This center is catching the worst of all. It's a fashion also to feel guilty perhaps. I am talking here to you about the ocean of love, the ocean of compassion, the ocean of forgiveness. In that ocean please forget your small little mistakes. Now put the hand across on your forehead. At this point you have to forgive everyone, totally everyone. Just for My sake you forgive everyone. People always escape this. They say it is very difficult, but if you are not forgiving, it is a myth. With whom are you angry? You are not angry with yourself. But you are harming yourself.

So please forgive. This is the greatest weapons of weapons.

Unless and until you forgive others, God is not going to forgive you.

So that God should forgive you, when you cannot forgive others their small mistakes, how can God forgive you? Now, put your right hand on the top of your head on your fontanelle bone area where you got, you had a soft bone as a child and try to press it a little bit.

At this time I cannot cross your freedom. You have to be absolutely free to ascend to the complete freedom.

So you have to say, `Mother, I want my realisation. Please give me my realisation.' Say it seven times. Try to press every time you say it. At this time don't feel guilty again that, `How can I ask for realisation?' Please forgive yourself. Now try, just to put your attention towards your hand on your head.

And now raise your hand high and see if there is a Cool Breeze coming; or else you change your hand. Put your left hand on top of your head and see for yourself. You have to give yourself a certificate.

Be careful. Tell them not to block the way. Tell them not to block the way because everybody is feeling suffocated or inform the police if they are troubling you. That's the best. You can change your hand again and again and see for yourself.

With some people, it's hot and cold and hot and cold.

So, open your eyes watch Me and don't think.

It will steady. With both the hands towards Me just watch Me without thinking. It will steady.

Now, I'll tell you how to raise your own Kuṇḍalinī though it is sprouted but it has to be raised properly and is to be fixed on top of your head properly. Put your left hand in front of your Kuṇḍalinī like this. If you don't do it, you will

not feel it and then you'll blame Me and say all kinds of things; so, it is you are the loser. It happens to many people who just come to see the thing and they don't get anything out of it.

Now put your left hand straight like this. And now try to raise it by moving it in clockwise manner with right hand. In a clockwise manner. Going on top of your heads and give a twist. Now once more again. You have to do it thrice. Now give it another twist and tie it up. Now please give third twist with three knots. Slowly, slowly you raise it. Bring it to your head now, higher. Now give it one twist, second twist and a third twist. Now see in your hands. See if there's a Cool Breeze. You may put up your hands to see the Cool Breeze. Feel the Cool Breeze, the subtle energy of God's love.

Now put down and see are you feeling it in our hands.

Some people feel it in the hands but not in the head.

Some people feel it in the head but not in the hands. But some people feel it in both the things.

All this can be managed and worked out. We call such people as yogis, Sahaja Yogis who have mastered the art of giving realisation to others. At least there are twenty-five percent people sitting here who are Sahaja Yogis. They look like you but they are the masters and you can also become the master.

May God bless you.

Now those who have felt the Cool Breeze, please raise your hands. Either head or the hands, those who have felt it, raise your, both the hands. Both the hands. Practically everyone.

Some of them have not felt. Those who have not felt can go back and the Sahaja Yogis can work on them and get it right.

Don't condemn yourself for that. Don't think about it. Please come tomorrow and I will establish it fully.

Don't discuss it. Don't think about it.

You have not felt it, you said. There is this gentleman. She has not felt? You have not felt either? You have felt it yesterday? You are feeling all right now? Translator: She says that she doesn't feel it.

Shri Mataji: Doesn't feel it? You don't feel it at all? All right, you come along. Those who have not felt it also can come along to Me. What happened yesterday? You felt it?

Contents: 1983-08-31 **Havan, Śhrī Kṛiṣhṇa Jan.m'āṣhṭamī, Tannay, Switzerland**

Sahaja Yogi: Hundred and eight names of Viṣhṇu.

Shri Mataji: Where is it? That is the best, if you have *[UNCLEAR]*.

Sahaja Yogi: Should we give the translation in French and in English or in French?

Shri Mataji: French is all right.

So first you read the translation, then the name and then - Om Swāhā.

That would be better, understood better. First read the translation. Who will do the translation? Sahaja Yogi 2: I can do, Shri Mataji, but it is the other book.

Shri Mataji: You will do the English. You can do? Alexander? You can do English? Sahaja Yogi 2: I can read in English.

Shri Mataji: No, that would be in Sanskrit. What I am saying, you read French. [Mantra chanting starts.] Four times, Śhrī Gaṇeśha sākṣhāt. Four times, Śhrī Gaṇeśha Gaurī sākṣhāt.

[Aside remarks in Marathi:] [Monitors the decoration and other essentials required for the havan.] Agni Devita sākṣhāt, three times.

Sahaja Yogi: Shall I explain in English?

Shri Mataji: What I am saying, first you have to say it in French, the translation. Then you say in Sanskrit. Then you say, “Om Swāhā." [Hundred and Eight Names of Viṣhṇu are chanted.]

Shri Mataji: Now I would say that whatever badhas you have to say, you better say it.

Sahaja Yogi: I say it in English, Shri Mataji, against all the badhas, all the false Gurus who prevent the seekers from coming.

Shri Mataji: Also say it in English because I must know what's going on. If you say in Sanskrit I know, or in English, Marathi, it will be all right, but French I don't know. All right?

Sahaja Yogi: Yes, he says in French and I say in English.

Shri Mataji: Now come along. First you say in English and then in French.

Sahaja Yogi: Against all the badhas who prevent us from coming into Sahaja Yoga.

Shri Mataji: Badhas from the neighbours.

Sahaja Yogi: Against all the badhas of the neighbours.

Shri Mataji: Then about getting the house here, near *[UNCLEAR* Chadwick].

Sahaja Yogi: Against all the badhas who would prevent us from having the beautiful new ashram chosen by our Mother.

Sahaja Yogi: Against all the badhas of the super ego.

Shri Mataji: Now about all the centers in the world of Sahaja Yoga.

Sahaja Yogi: Against all the badhas who attacked the centers of the Sahaja Yogis in the world.

Shri Mataji: Badhas in America.

Sahaja Yogi: Against all the badhas in America.

Shri Mataji: For getting all the properties that we have to have.

Sahaja Yogi: Against all the badhas who prevent us from getting all the properties within Sahaja Yoga.

Shri Mataji: All personal badhas...

Sahaja Yogi: All the personal badhas.

Shri Mataji: *[UNCLEAR]* with which we torture our Mother.

Sahaja Yogi: All the badhas, our personal badhas with which we torture our Śhrī Mother.

Shri Mataji: For the sale of 48 Brompton Square. Badhas in the sale of Brompton Square because of the golden builders.

Sahaja Yogi: All the badhas who prevent from the sale, from the success of the selling of the house in Brompton Square.

Shri Mataji: By golden builders, for badhas in the material lives of Sahaja Yogis.

Sahaja Yogi: The badhas who prevent from getting the material wealth of the golden builders within Sahaja Yoga.

Shri Mataji: Badhas of all the Sahaja Yogis who are jobless.

Sahaja Yogi: Against all the badhas of the Sahaja Yogis who are jobless.

Shri Mataji: All the indisciplined Sahaja Yogis who do not meditate regularly.

Sahaja Yogi: Against all the badhas of the Sahaja Yogis who lacks in discipline and don't meditate regularly.

Shri Mataji: All the badhas of all the Sahaja Yogis who try to boss above each other, to boss, to dominate.

Sahaja Yogi: Against all the badhas of the Sahaja Yogis who want to dominate the other Sahaja Yogis.

Shri Mataji: Why do you say, “Nira badha?"

Sahaja Yogi: I don't know. In India you say, “Nira badha." That's what happens.

Shri Mataji: No, no.

Sahaja Yogi: “Om Swāhā" only. For the time say, “Om Swāhā." Nira badha means Mother's name.

Shri Mataji: You should not say, “Nira badha." Nira badha also means that all the badhas, but it's My name also. Better not take that. All right, so now you can say about the centers and the progress of spiritual quality.

Sahaja Yogi: Against all the badhas who prevent from growing within ourself in spirituality in the faith of Sahaja Yoga.

Shri Mataji: Now all the badhas of the audiences which come to Mother's program.

Sahaja Yogi: Against all the badhas of the audiences who come to the program and disturb the audience.

Shri Mataji: Badhas of the new people.

Now what you can do is to, all the badhas, whatever badhas are left out.

Sahaja Yogi: All the remaining badhas, knowingly and unknowingly.

Shri Mataji: Now this is the completion of the last. It's the final. Put everything first of all. Put it in the center. Take some grapes, I think. Good idea. Which is the one used for...

Sahaja Yogi: This one is for wine, Shri Mataji.

Shri Mataji: For all the wines, badhas of the wines. Let all the wines be ruined. Only the grape fruit should be there, only the grape juices but no wine fermentation. Apple, cider and also some barley if it was dried there. Barley. Scotch whisky for barley.

Sahaja Yogi: Shri Mataji, there is some prunes for alcohol of prunes.

Shri Mataji: Yes, - Om Swāhā.

Sahaja Yogi: They make alcohol with pears, very famous in Switzerland.

Shri Mataji: Yes, put it there. All the fruits can be put there, I think. To the fire, yes, put all the fruits.

Sahaja Yogi: Half of the Swiss economy will collapse, Shri Mataji.

Shri Mataji: Half will be bankrupt. Sahaja Yogis will have jobs.

[After the havan:] See, we need not have so much surplus money in one country. If you can drink, that means you have surplus money. Otherwise, a person who has limited money cannot drink. I knew a government servant. He said, “I cannot drink” he said, “because I cannot afford it." I said, “That's very true. How can you drink? As a government servant you can't drink, but if you are drinking that means you are dishonest." So that is what it is that when you have surplus money we think of licentiousness, we think of drinking, eating and ruining ourselves.

You see, whatever you give to human beings they know how to make a mess out of it. If you give them money they will destroy themselves. If you give them power they'll destroy others. In Marathi there's a saying, [Marathi]. This means that a burning wood, you call this wood burning given in the hands of a bhoot. It is like that. You give to human beings anything just to oblige, just to make him feel happy, he starts going amok. Even in Sahaja Yoga you try to be nice to someone, he thinks no end of himself. Like the other day I called somebody here, you see, so she thought she is a special person.

So at least in Sahaja Yoga one should not use a burning wood like a bhoot, but like a Sahaja Yogi for the yagñya.

So be on the lookout how you behave.

So may God bless you all. It was a wonderful time in Geneva.

Look after the new people and as Warren has told Me what they do in Australia, they give ten people to one person or twenty people to one person to handle so that that person guides.

So then you divide the names among ten, say, for ten persons. One person like that, whatever his division is and the persons must look after those ten persons, write letters to them, go to them, see them, talk to them, find out what's the problem is, how you can help them.

Now for tonight have you got photographs to be given to them?

Sahaja Yogi: All the time, yes.

Shri Mataji. All the time. You are giving them photographs and the books are there?

Sahaja Yogi: We are giving books. We are giving *[UNCLEAR]*. We are giving the address of the ashram and the address of the follow-up, which we have on Friday.

Shri Mataji: And the phone number.

Sahaja Yogi: The phone number and we give you photograph.

Shri Mataji: And do you tell them about the photograph? Is it written with the photograph?

Sahaja Yogi: Yes and as soon as the programs are over we invite them personally to a program and to follow-ups.

Shri Mataji: To a dinner. Better invite them first to dinner.

Sahaja Yogi: Yes.

Shri Mataji: Then to lunch.

Sahaja Yogi: Then to lunch.

Shri Mataji: Then to breakfast. Then to fasting.

Sometimes you should.

Sometimes no harm.

Sometimes it's all right.

Sahaja Yogi: Once a week is too much?

Shri Mataji: Now you just don't start that. Otherwise he'll just go on a fast! No, I'm saying I mean it's good to fast sometimes. There's no harm in fasting. It's a good idea but you shouldn't fast, say, on a Monday. You can fast on a Wednesday because that is the day one works very hard. Wednesday is Brahmadeva. Let him fast a little bit. That also is not to be done in the name of God, just for your body.

[Marathi.] You see, it is not in My name, at least. All right, let's have something interesting also.

So this is to wish Śhrī Kṛiṣhṇa a happy birthday.

So we will have some dance program now. We all can sit this side and we can see the dance that side.

***Contents: 1983-09-01*, Public Program, Mulhouse, France**

Shri Mataji: How is it that I am here in Mulhouse? It was not planned on the tour. It is the desire of one lady who told Me.....

Translator:... what we do?

Shri Mataji:... which represents the Mother Earth.

So far, whatever we have done is to exhaust the Mother Earth. She has been looking after us, but we have been exhausting Her.

So within us is also placed the representative of that Mother Earth in the triangular bone or sacrum. Or we can say that this bone represents the Mother Earth and the energy within us, that represents the Holy Ghost. Now if you notice that even outside, the feminine consciousness

is rising very high, though they are *[UNCLEAR* misusing that/misguided]. The feminists are trying to follow the men, [the father] and are competing with them and trying to become men. That is very unnatural. Actually, here you can see that the Kuṇḍalinī or the Mother Earth, which is represented as sacrum, is the power of the Holy Ghost which is the Mother, the Primordial Mother. For example, if the trees grows very big outside as our civilization has grown, it has to see its own source, source of vitality, of nourishment. Otherwise, the whole tree is going to collapse. In the same way, today human beings are standing at a point where they have to receive the nourishment from the Primordial Mother.

In the 13th century there was a great philosopher who said that first it was the reign of the Father, then of the Son and later on it *[UNCLEAR* will/would] be of the Mother, the Holy Ghost. That is the Age of Aquarius. We are fortunate that we are born in this great Age of Aquarius. Now when this Holy Ghost is going to come into play or manifest, She is going to work out that part of the remaining work of complete nourishment and by that complete nourishment you become the spirit, which is the Son aspect of Divinity.

This power resides in the sacrum and people knew about it long time back. Greeks called *[UNCLEAR* this/it] `sacrum bone' about two thousand years back, before Christ. The word, `sacrum', means `sacred'.

So why did they call this bone sacred? In the Book of Essenes it is clearly written that the Primordial Mother is the one who is the Holy Ghost. There have been *[UNCLEAR* jolts and jolts] against the truth in the history before and

people got lost in the words, which were not very clear-cut to people. But there are many words of Christ which we cannot explain in a normal way. Like He says that, “Those who are not against Me are with Me." Who are those people? Then He has said, “I will send you the Holy Ghost Who will comfort you, Who will redeem you and Who will counsel you." But human beings do not want to see that point at all.

One day I was walking to the roads of Paris and some people were sitting outside on the roads looking very, very sad and discussing something. I just thought these must be `les miserables'. And I asked them, “What is your misery?" They said “We are waiting for Doomsday when we will be doomed once for all, finish with this world." But I said, “Before the Doomsday there is a Resurrection Day because there will be a, ultimately, a judgment, a Last Judgment and then will be Resurrection after that. Why do you believe that you'll be judged as the worst people and you'll be doomed to death?" That's human nature, perhaps. It wants to enjoy the calamities better than something very elevating. They actually warned Me not to say that I'm a very joyous person because they think it could be a sign of My ignorance.

But the one who knows the spirit lives in joy. He neither has this happiness of the ego and unhappiness of the superego. Same things happened with the Jews. When Christ came in they said that, “We don't accept Christ because He said, `I have suffered for you.' " So they suffered. Still they don't want to accept that they should be resurrected. They have suffered sufficiently. Now I find the Christians also have a theory that, “We must all

suffer." Do you mean to say that Christ has not suffered sufficiently for you? That you can add more to that? But these invasions come into mind when we do not want to face the reality. But the reality is so beautiful because you are the Spirit. In this darkness you can't see it, but in the light of Spirit you will see that you are the source of joy and you are the source of all the compassion and love and you are the source of manifestation of that love. If I say, `I love the world,' has no meaning. Many have said like that.

But just My presence, if it can emit something that soothes you down, cures you or makes you joyous, then definitely I love you. Just like the sunshine. It does not say that, `I do any work,' does it? It does not do any work. If you ask the sun, but by its own nature it transforms a flower into a fruit. Now the time has come for the Mother Earth to nourish the fruit. Such a force of nourishment does not dominate.

When a foreign body goes into the human body the natural thing is that it is repelled out. The whole body tries to throw it away. But when the foetus is born in the womb, the womb retains the foetus. The whole body works for the proper growth of the foetus. Even the face of the mother starts looking very beautiful. And when the foetus is fully matured, then the birth of the child takes place. Who does this living work? We see so many living things, like we see flowers and trees. Who does all that living work? This is the power of the Holy Ghost. This is the power which is subtle power of God's love. But we don't feel it. We don't see it. We just see its work. We cannot *[UNCLEAR* build/do] those things. As we see, people

who go to cults and sects and all these things cannot do any work of God.

Some starts jumping, some starts singing, some starts becoming mad. That anybody can do.

Because there are so many seekers in this world at this great time, the Blossom Time, all the markets are filled with these sects. But if you give some money to the tree, will the tree give you fruits? What will you do to a seed to sprout? You put the seed into the Mother Earth and She, by Her own nature, transforms it into a flower. How can you pay for your transformation? And this transformation has to be a transformation by which you become at a higher level than what you are. But if you start jumping like frogs and creeping like earth worms or getting mesmerized and believing that you are *[UNCLEAR* seeking/looking] God, then you are sadly mistaken.

Some people believe that if they hear some sound in their ear or get some sort of a light in the head, then they have become enlightened.

Please be careful about these sensational movements in your head. This is the beginning of *[UNCLEAR* lunacy/lunatic]. It is another group of people who are telling you that you can fly in the air.

People have paid thousands and thousands of *[UNCLEAR* francs/pounds] to fly in the air. Why not ask the Guru to fly for a change? Let him go on top of the leaning tower of Pisa and he can show that if he can fly, [how] is that. But why are you so naive? You are intelligent people and you must understand that if anything has to happen as your spiritual elevation, it has to happen to your consciousness of which you should be the master.

Supposing you get a car and it takes you all over the places, it makes you jump in the ditches and this and that, that means you are not learning driving.

Christ has already talked of all these people and has said that, “Their fruits will tell you." Now you should go to their disciples and see what are they doing. Everyone, I would say, even those who believe that only way to do is this, to go to church. See, are they the people extremely moral, righteous, kind, generous people? I am not here to criticise the churches, but I said that they have not delivered any goods to you, except that you might become a good personality. You may at the most lead a balanced life. But why the balance? Your children will ask, “Why the balance? Why should we do but these things to keep the balance?" And you cannot give the logic to that. The balance is to ascend. Before making the plane ascend, you see the balance. And if you cannot ascend by balancing yourself, people will say, “What are you doing, all the time just balancing from here to there and there to there? No movement at all." Your children would say that, “You did this, your father did this, your great grandfather did this, but what now?" So now is the time to ascend.

This ascent takes place from this sacrum bone, as you can see in some people the ascent of the Kuṇḍalinī like a pulsation. It enters into the parasympathetic nervous system and on top of your head you can hear first the throbbing of that pulsation. And then the pulsation stops. And you start feeling the Cool Breeze coming out of your head. You feel the Cool Breeze even in your hand. The other day a young man came to Me and he says, “Lot of

[a] Cool Breeze flowing, but it could be air conditioner." But I said, “What about your head? It is coming out of your head. Do you mean to say it is also coming through air conditioner?" But when this Cool Breeze of the Holy Ghost manifests itself, still you have to understand. Like supposing I give you Indian money and you don't go to an Indian market, you will not understand how to use it.

So you have to use it and practice it and you'll be surprised that you'll become the master. You develop a higher consciousness of collective consciousness. Who is the other, then? Other day there was a lady who came to see Me, who was suffering from horrible incurable disease and she couldn't lift her legs at all. But she started walking nicely.

So she started thanking Me. I said, “Who *[UNCLEAR* am I to thank Me/are you thanking]? If this one finger is paining and the hand rubs it, then [do you] does this finger thank the hand?" So when you become collectively conscious, I again say, become, automatically this nourishing force flows through you, which you can manoeuvre. You can understand and you know how to administer it.

Now how do I come to Mulhouse? *[UNCLEAR* Willey] went to Lausanne on a holiday where she came to My program. She got the realisation in one day, in one city and she was surprised. And *[UNCLEAR* them/then] she started using them there and then. She came to Mulhouse and gave realisation to many.

And then she told Me that, “Mother..." Then My program was not scheduled to come to Mulhouse. I was to go to Austria where we have many Sahaja Yogis, where [there] are many people who are realised Souls. But she's told

Me that Mulhouse is the place where there are many true seekers. “And even if you can come for one day, you'll be very happy to meet them." Only one person can enlightened thousand people. What did I do? You were like a candle. I was like a candle that was enlightened. I just touched by My presence that candle that got enlightened. And the same candle enlightens many. It is so simple.

The human beings cannot accept that such a tremendous thing could be simple. But logically, all that it vital is simple. Imagine if we have to pay for our breathing or read some books for our breathing, how many of us would exist? In the same way, if we have, can pay for our evolution and can also make efforts for our evolution, or read books for our evolution, how many would evolve? That means only the people who are rich to feed these false Gurus, or those who can indulge into all kinds of these head-on-the-ground processes or those who can read can only get evolution.

But living process is available to everyone; you don't have to be a member, to be an organization, nothing. You just have to be a human being and your evolution is your right.

So this is what one has to understand as far as your evolution is concerned through your second birth, so that logically you can reach up to a point to understand that the time has come for you to evolve through the living process of evolution. But this mind is limited.

So you have to go into the unlimited and to enter into the unlimited you have to be triggered. The transformation has to take place. Not without, but within. Like an egg

doesn't change. It becomes a bird inside and when the top of the egg is broken, the bird comes out as a transformed being.

This second birth takes only split of a second, in simple people. But in complicated people it takes a *[UNCLEAR* long/more] time. Doesn't matter; you have to have patience with yourself. I hope you all will get your realisation today, tonight. But in any case, even if it fails, because I'm only here for one day and I'm very apologetic about it, you can, we have some here, very good people who can do the job for you. But first you must realise the importance of that. This is the only way we are going to solve all our human problems. And how we solve, you will see for yourselves.

I would like to have some questions from you before we start this thing, but don't try to be aggressive with Me. We can talk like sensible people. We have to be tolerant, no doubt, but how far one can go with the nonsense also one should see. Like some drunkard comes to the program and starts shouting that, “You must not say these things” and all that. It has no meaning. We must know, what do they have to offer? And even if they have to offer, they can hire a hall and offer to the audience. But if there is a genuine question, please ask Me. In any case, tomorrow a journalist [comes] from your place, is going to interview Me and he is going to ask Me many questions which you have asked on *[UNCLEAR* telephone/television].

But if you have any more questions, please ask Me peacefully. I will try to satisfy your curiosity. But by talking or by discussion or by argument you're not going

to get your realisation. This Mother Kuṇḍalinī has to rise. And She knows you very well. And She knows Me very well.

So if you want to have your realisation, if there is real problem, you ask Me a question. But I would say that you should pray that you get your realisation because that is what you have to evolve to find your absolute. May God bless you all.

I would like to have some questions from you.

Translator: *[UNCLEAR* He's/It is] the two questions you ask.

Shri Mataji: Please stand up so that the gentleman knows you are asking Me a question. You just stand up, because the others don't know you are asking.

[French.]

Shri Mataji: Loudly. And the second question also tell Me. Now, please be seated.

Translator: *[UNCLEAR* He says/This is] why is there contradiction between the different teachings of Yoga?

Shri Mataji: Just a minute, just a minute. Tell them in French. Tell them in French. What is he saying? Translator: He is saying why is there a contradiction?

Shri Mataji: Between who? Translator: Between different teachings of Yoga?

Shri Mataji: Yoga? Aha.

Translator: And it is said in different, in, in certain teachings that Kuṇḍalinī awakens from the bottom and Śhrī Aurobindo says that the Kuṇḍalinī does awaken from the bottom but it's necessary to open from the top so that the energy of the Divine Mother can come down.

Shri Mataji: The first question is very good and it means that he thinks that there is a contradiction in the word `Yoga', *[UNCLEAR* is/it] is not good. `Yoga' means `union with the Divine', with the Divine.

And the other meaning of the Yoga is that to know the *[UNCLEAR* dephtness/deftness] kaushana means the [utility] means the trick or the *[UNCLEAR* dephtness/deftness] of the manoeuvreing of the power of `Yoga Shakti', means the power. All right, this is the real meaning. Now, in the Patanjali Yoga, if you read, I mean people don't read Patanjali Yoga. The modern Yogas that are prevalent, last fifty years have been all a storytelling. Now, Patanjali Yoga was written thousands of years back. Of course, it requires explanation, but it's said there are ashtangas. There are eight *[UNCLEAR* poses/fold] things you have to do. Now, the first is Īshwara Pranidhana, means the establishment of God within you, means Self-realisation, the first is.

Now in the olden days in India we had schools for the children of five years to twenty-five years in the forest with the Gurus who were realised Souls.

So they used to select the boys or girls who were of depth or who could receive Self-realisation first. And then they used to do all the cleansing process through all the other seven methods. This is the traditional knowledge. All this about fifty years old knowledge has been meant for the Western people, which is untraditional, absolutely.

Some played with your ego, some with your thoughts and some with your superego, like mesmerism and all that. That is not the traditional meaning of Yoga at all, what these people are talking.

... knowledge is to be reflected in different various scriptures also. If it is True Knowledge, if Christ is truthful, then you must have meanings to what He said and it must also relate to Yoga, means the union with the Divine. Surprisingly, in the Yoga Shāstra the amount of pressure, I mean the amount of importance we have given to exercises is not even one thousandth of the whole book. But it's dealing all the time with the effects of realisation. The Ṛitambhara Pragñyā is the All-pervading gracious Knowledge of Love which nourishes the human beings with its beauty and joy. It's described at length. Patanjali Yoga is not physical Yoga or mental Yoga, but it is the spiritual Yoga.

But Sahaja Yoga that I call it, is also described by him. But the beauty of Sahaja Yoga today is that now you don't have to go to the forest. Sitting down here you can get en masse realisation.

So by mental projections, nowhere it is described that you can get Yoga at all. On the contrary, it's condemned altogether. Actually, there was a great poet in India called Kabīra, who was a great realised Soul. He said, [Hindi] “Even by reading too much, the learned have become stupid." So by playing tricks with the words, you cannot get the Yoga. It is a happening. As we came in, we had to leave our car. In the same way, we have to leave this brain outside for the time being. But once you get your realisation then everything becomes logical.

Now, the second question is that Kuṇḍalinī, some people say it's very dangerous. I always answer this question in My lectures, but today I forgot. Because all people who wrote these horrible books were so [on] like *[UNCLEAR*

cakes/fakes] all over, about Kuṇḍalinī, the books they wrote, you see. I've seen such a big book written about Kuṇḍalinī and I was really shocked. “What is this?" There is freedom for you to write anything and whatever is written, I don't know why people believe it. Anything written cannot be Scriptures, can it be? But when this is written, that the Kuṇḍalinī is dangerous, it is written by people who have not given realisation to anyone. Those who have talked also about Kuṇḍalinī, only by reading about them in the books. Nobody has given realisation to anyone, I don't see any one of these writers giving realisation to anyone. Except for warning.

Translator: Except for?

Shri Mataji: Warning.

Translator: *[UNCLEAR* Ah/Yeah], so warning them.

Shri Mataji: I told you, Kuṇḍalinī is your mother. She is the womb in which a foetus has to grow.

How can she be dangerous? Actually, everyone has talked about God and about Kuṇḍalinī without any authority *[UNCLEAR* or whatever/at all]. In My, I started My work in 1970 and since then, thousands of people have received awakening, but nobody is harmed at all. With due respect for *[UNCLEAR* Marion/Marine], say, you can ask her. She came to Me. She was in absolute coma. She couldn't even talk to Me. She couldn't even see Me. She came in that condition. And you can see her today, where she is. And you can ask her, if she's a realised Soul or not. Because she can feel it and she can manoeuvre it.

And in Paris she has given realisation to so many people. You may say that, doesn't matter.

So there are many like this.

So you, from the effects, from the fruits you should see.

Seeker [in French]: What is the difference between a realised Soul and a soul who is free and alive?

Shri Mataji: What is he saying? Translator: He wants to ask me a question.

Shri Mataji: Yes, ask.

Seeker: [French.]

Shri Mataji: What is he asking? Translator: He says what's...

Shri Mataji: In French you first tell.

Translator: What's the difference between a realised Soul and something who's freed, free and alive?

Shri Mataji: Why are you free? He's what? What is he saying? Translator: [French.]

Shri Mataji: Jīvanmukta.

So, see, means `the one who has got released from the worldly problems'.

That you have got already. Just the same. I'll explain how. When you become the spirit you start seeing the whole thing like a drama. You, as if when you are in the water, you are afraid of the waves. But if somehow you get into the boat, you start enjoying the waves, looking at the waves.

So you become a person who is released from the fear of water, like Jīvanmukta, just the same. But you have to grow. Because even if you are in the boat in the beginning when you see the waves you are afraid. You have to feel that you are in the boat now; no more in the water. Once that develops you jump into a consciousness

called as `doubtless awareness'. The first awareness you achieve is thoughtless awareness, called as `Nirvichara Samādhi'. But then you develop into doubtless awareness. And that is then only we call you a yogi, not before that. It is just a state you have to achieve. Like you will say “When do I run and when do I learn bicycle?" I would say, “When you learn." Yes, please...

Seeker: [asks a question in French].

Shri Mataji: Is [it] a question or a lecture? Translator: It's a long question.

Shri Mataji: What is he saying? Make it short. All right, all right, let's answer one by one. Sit down.

Sit down.

Translator: What is, he is asking by what process You get from this normal, daily awareness we have, to the higher awareness. Because by normal, we normally, we don't get any further in a very superficial thing.

Shri Mataji: All right, one thing is correct. That's all? In the whole thing you said only that much? Translator: No, then he was saying something about cults, but I didn't get to the end of the process.

Shri Mataji: What is a cult, he is saying? Translator: He says he is quite involved with something and he would like to explain something about cults.

Shri Mataji: No, you see for that, I mean, we don't want to have anything to be explained about cults here. But, but, because you can have another hall and you can do it. Because we have very little time.

But if you want to know what is the force, then I would say I have told the whole Rāmāyaṇa and you are asking

Me a simple question, who was Sītā to Rāma. Because I told you that it is the Kuṇḍalinī who does it. This is the effect of cult, because the mind is so much barrier that you can't hear anything. You can't understand anything. The whole time I was telling about something. Still you did not know how it happens. I told you it happens through the sprouting of the Kuṇḍalinī. And that is the force within us which is residual.

Now to understand what is the nature of that force is, I would say it is the unmanifested power of your desire. It is the pure desire and the pure desire is that you want to become one with the Divine.

Not one with the Guru or one with a cult or one with any book or any particular religion, but one with the All-pervading Divine. Because you get rid of all misidentifications and get identified with your Self, which is the reflection of God Almighty within you, as the Spirit. But when it manifests, the energy starts flowing through your hand as Cool Breeze, a soothing breeze. You automatically become a very healthy, wise, righteous, loving personality. Then you are a different person. Till the light is not enlightened you have to take another light to find it. But when the other light is enlightened it does the same work of the first light. Then it has no questions. The transformation comes in the nature that now it does not seek, but it gives. You become your own Guru. You become your own master.

This is what you must expect. There is no enslavement, but you receive the complete freedom of your being. You are free from all diseases, free from your habits, free from wrong ideas and you are on top of the world

because you are in a very joyous, healthy mood. And automatic detachment takes place. It does not matter if you are in the palace. It does not matter if you are on the road. Nothing is important; only thing you have to be. You enjoy the dynamism of the present. But this is all just talk. If you get realisation it will become reality; otherwise, it will not. You cannot pay Me anything. You cannot purchase Me. It should happen to all of you, but it cannot be a guarantee. It cannot be a guarantee. There are so many flowers on the tree and the blossom time has come. But how many will become fruits? That is to be seen. At least you should at least desire to become. If you do not desire, I cannot force it into you.

It cannot be forced. Now two more, that's all, eh? Because the explanations... Today I have very little time. Short question, a short question, please. Yes, thank you. Short. Can you write it down also? Better write it down. You write it down; would be better, so that there is no repetition. Write it down if possible.

Thank you. Tell here to write it down.

Translator: This gentleman?

Shri Mataji: Ha. It's a big lecture. We have little time and everyone wants their realisation.

Translator: He just wants to know the difference between ego and superego.

Shri Mataji: Oh, that's interesting. Now, that he will know after realisation, would be better, because it's a big thing, a big lecture needed, you see. I must have given at least thousand lectures in London itself. But still every time they say there's no, they enjoy every lecture as something new. I don't know how long am I to speak

now, but you will know each and every thing. We're not going to keep anything as a secret. Everything you're going to know. It's a very good question.

So [he was] a great seeker. It's a letter or a question? Translator: Well, it's a bit of both.

Shri Mataji: She's turning… Sweet, they are.

Translator: Since we're using Your photograph and [is] he wants to know if You Yourself have used Your own photograph.

Shri Mataji: Yes, sometimes I do, to know about you people. The photograph is such a great thing that has happened. Camera is such a marvelous thing that through photographs you can get vibrations.

Once I went to a village where I felt there was a great soul who died.

So they told Me there was a Muslim saint who died in that place and it's called as Myakitaki, that place is. And I was sitting in an open space, in a school, village school where there were thousands sitting in front of Me and the things I feel, I did not know that the camera will also catch. Normally, when I am lecturing I don't allow people to take My photograph. But there was an Australian girl who took My photograph and in that photograph seven times there are lights coming on Me, of different colours on My head. Then I put My hands like this to stop it, in a very joyous mood. That's the eighth photograph, where there are no [auras].

So now if I give you a photograph, on that photograph I get the reflection of what your problems are.

Like once I went to a house and their photograph in that house, My photograph had become absolutely black.

So I asked, “How this photograph has become black? Who came here?" So the lady who stayed there was the aunt who was *[UNCLEAR* being/doing] practicing black magic. That's what this lady told Me, *[UNCLEAR* the miss/means], that “This aunt of mine who came here, she was practicing black magic in this room." But from My photograph I know what problem you have.

So I do use My photograph.

Also I use your photograph, by caring for it. Your photographs also give vibrations. Any one of these yogis can tell what's wrong with you, only seeing the photograph. And if *[UNCLEAR]*. He's got one of them, he says. You can show it around.

All right, he seems to be a Sahaja Yogi.

So we can talk to him later on, all right? You meet Me tomorrow morning. *[UNCLEAR* He/You] should not waste the time of these people, because they are waiting for Self-realisation. All right, because the time is very short, so we should not waste time. Now just, now let... It's all right. It's all right. Now don't disturb, don't disturb others. Be kind. Most of them want their realisation, all right? They are seekers, you see. They are seekers.

So don't get upset. If you have anything to say you can write to Me. I will leave My address with some people here, or maybe if you can arrange tomorrow morning I would like to have a workshop, possibly. If you have any other troubles also I would like to give some time for curing or something like that. You see, it was a very ad hoc arrangement. Suddenly I came here and there is not

much time. But still we'll try. You can telephone to us and find out if we have been able to locate a place for a workshop. But I would love to do something because I can find you are, you are good seekers and true people. Let us find out; let us find out.

All right, so now simple things you have to do, without doubting. I don't want anything from you. I don't need anything. As, as *[UNCLEAR* of now/ever] you must be knowing that I don't take any money.

I don't need anything. And that, My husband himself, My family itself is very highly placed.

So I don't need even power or position. What I want that you should get what is yours. I'm like a banker and I have to cash *[UNCLEAR* your cheques/truth], but little bit cooperate with Me. All right.

First of all you have to know that you have to put our feet open to the Mother Earth as far as possible.

So just take out *[UNCLEAR* your/the] shoes if possible. Just a little bit it takes; shoes will be taken out, to be put it in contact with the Mother Earth. There is no *[UNCLEAR* misconception]. It is very logic.

But if you are obstinate and adamant, if you are obstinate and adamant you are the loser, not Me. Now, you please put your hands like this and close your eyes, that's all, because the fingertips are the subtle centers, representatives of the subtle centers within you. You just keep your left hand towards Me, which is the power of desire and the right hand you have to use as I tell you, touching your different centers.

And also I'll tell you how to raise your own Kuṇḍalinī.

So put the left hand towards Me like this. Sit very comfortably, straight. Even take out your spectacles, eyesight also improves and put the left hand on your lap very comfortably. Now if there is any obstructions, say might feel tight waist or something, [if you use some cordon or tie make it] little loose, that's all. Be relaxed; be relaxed. Now please keep your eyes shut till I tell you to open. Please keep them shut, because when the Kuṇḍalinī rises above this center, then if the eyes are not closed it does not rise.

So this is what happens, that when you close your eyes the Kuṇḍalinī rises above like that and just pierces through your fontanelle bone area and you start feeling the Cool Breeze on your head.

Now put your left hand towards Me. At least take out your shoes. I am not going to run away with them. Now sit with a happy mood. Don't have any fears. You have to enter into the kingdom of God.

Now, close your eyes and put your hand, right hand on the heart and let the left hand be all the time on your lap towards Me, *[UNCLEAR* little bit stretched fingers/if you could stretch the fingers]. Now in the heart resides the spirit.

So you have to ask Me a question, real question now. You can address Me as `Shri Mataji' or to make it simpler, `Mother, am I the Spirit?' Ask it in your heart. Ask it in your heart, not loudly, but ask sincerely, `Am I the Spirit? Mother, am I the Spirit?' or `Shri Mataji, am I the Spirit?' Now to establish your principle of mastery or Guru, as your Spirit is the Guru, is your guide, please put your right hand on the stomach on the left hand side. All of

you should do, whether you belong to cult or not. It will help you to understand. Be kind to yourself because this is the chance you have. We have to be fair.

So ask the question to Me again, `Shri Mataji, am I my own master? Am I my own guide? Am I my own Guru?' You have to ask this ten times because this center has got ten petals, without feeling guilty, without feeling *[UNCLEAR* defendant/deānt]. Please do not feel guilty. This is the biggest drawback in the Western mind. Don't feel guilty for anything whatsoever because your Spirit cannot commit guilt.

Now raise your hand higher again to the heart. Without counting your so-called sins or guilt, assert that, `Mother, I am the Spirit.' `Shri Mataji, I am the Spirit.' Accept; assume. Accept your true self without doubts, with full confidence in yourself. Please say it twelve times, `Mother, I am the Spirit,' `Shri Mataji, I am the Spirit.' [It seems that parts are missing at the beginning, in the middle and at the end.]

Contents: 1983-09-02 **Quote, Mulhouse, France**

[A handmade silk printed shawl is offered to Shri Mataji. Christine Hāge apologizes in her heart that, being busy with the, Public Program of the last night, she did not contribute to the shawl.] But you already gave Me the best present, with all these people who got realisation yesterday.

Contents: 1983-09-03 **Conversation with Sahaja Yogis, before and during the Lunch, Kegelgasse Ashram, Vienna, Austria**

Shri Mataji: A great Sahaja Yogi has come. He's a great Sahaja Yogi.

Gregoire: Would you like a cup of tea, Mother?

Shri Mataji: No, Water. Actually, you said you'll introduce them to Me.

Gregoire: Should I do it now, Mother?

Shri Mataji: Yes please.

Gregoire: So, this is Edith.

Shri Mataji: I know, I know.

Gregoire: We are in her house. Then we have among the Sahaja Yogis, who have been quite active.

When I say your name please get up, so that's the easiest thing. We have Herbert, we have Gunther, we have Zorana, Inge, Engelbert.

Shri Mataji: I don't know this one. [Laughter.] Gregoire: Jacqueline, Thomas; he is the brother of Gunther.

Shri Mataji: Oh, I see.

Gregoire: Camillo.

Shri Mataji: He is also from Spain or something.

Gregoire: No, he is from Austria.

Shri Mataji: Austria? [Laughter.] More Spanish sound.

Gregoire: Then you have Hamid that You have met.

Shri Mataji: Yes of course, he is around us.

Gregoire: And Wolfgang, Dorothea, Elisabeth, another Elisabeth, Sissi. What is the first name of yours friend? Werner. I forget him, Werner. I certainly forgot. Oh, Monica, I forgot Monica.

Shri Mataji: And the lady there sitting, the elder lady? Gregoire: The elder lady is the mother of Zorana. She is

the mother of Zorana, she comes from Ljubljana. She just came for the children.

Shri Mataji: Zorana. Oh, I see.

Gregoire: She is a pediatrist.

Shri Mataji: I see.

Gregoire: And from Yugoslavia also. Islia.

Shri Mataji: In the corner? Gregoire: Where is she, Islia? And the lady in the corner is also an Edith, but she came three days ago.

So she is quite welcome. And who did I forget? Edwin I said ah. Edwin, Edwin, Edwin, sorry.

Shri Mataji: Of course. You were the first whom I met.

Gregoire: And Gilde, Gilde. I said, whom did I forget, he said.

Shri Mataji: Gilde.

Gregoire: Herminegilde is her name. Mother, you won't recognize her, but one year ago she said, "Don't be a crying baby."

Shri Mataji: She said to Me? Gregoire: No, [Laughter.] You said to her. And Mother, also I forgot of course Djamel *[UNCLEAR* Beruka] from Algeria.

Shri Mataji: I remember. May God bless you, may God bless you! Yeah. We are getting Algerians everywhere, you see. And yes, the last was in Mulhouse, a gentleman called George. He is the journalist and he brought a gentleman who is a director of broadcasting with him for the radio program and he interviewed Me and I felt that could be something else but French you see, but kept quiet. Then he said that he is Algerian. I said, "All right,

let's try then some vibrations” and he readily accepted and he got his Realisation too.

Gregoire: Then this economist, Mother, who had problems with the eyes, *[UNCLEAR* Beashenu] or something like that. He also came with his wife in Paris.

Shri Mataji: Yeah, he came. Then there was one Haji who came, then of course we have these UNCLEAR [journalists] there so many, but Algeria is the first I think which is doing well in Sahaja Yoga among all the Muslim countries, but Tunisia is second. Tunisia is a free country. Not that they are not free, but these are more sort of a little controlled isn't it? The government is very controlled there. Thats why I can't go. Otherwise I would have gone to Algeria.

Gregoire: Do you have the songs? Did you take the songs with you? The German ones.

Shri Mataji: Take out your shoes, tell him.

Gregoire: I am sorry.

Shri Mataji: No, no let him, let him do it.

Gregoire: Take out your shoes Matt, take out your shoes.

Shri Mataji: Good. Pretty warm also for him.

So, better like that. It is nice that it is these days it is quite warm in those countries so people are really getting relief from the over clogging of clothes this that. Open the windows. All right.

Gregoire: Thats the wrong one. Hamid, how many do you have in your car? About 25.

Shri Mataji: You came with the?

Sahaja Yogini: [Patrick and Gerti].

Shri Mataji: Oh you came by car? Oh I see.

Gregoire: Yes, this year I took a car.

Shri Mataji: Ah that's good. I thought you came with *[UNCLEAR* Dhumal]. [Hindi.] Gregoire: So Mother, we have one rehearsal. With Your permission we would like to sing something, because we have the Italian singing and we all are very jealous because they sing so beautifully. [Laughter.] So we are not singing beautifully, but well try this one because it's in German and it is high time we sing something in German.

So please Inge. The meanings are: Come, oh come you comforter, come in my heart, oh Spirit from above, open my wisdom so that I can understand the counsel of God. Its to the Holy Spirit.

Shri Mataji: Oh, I see. Take out your shoe. Another poor fellow, better.

Gregoire: Poor fellow, has been struggling with his shoes.

Shri Mataji: It's all right. You come and sit here, come and sit here, come along Gregoire: First Inge will sing, then all the girls, then all of us.

[German Song `Komm, o komm, du Troster mein', Melodie Albert Kurtz and Text by Heinrich Bone.] [Chorus:] Komm, o komm Du Troster mein, Kehr in meinem Herzen ein, Komm, o Geist von oben.

[Stanza I:] Hauch uns deine Weisheit ein, Dass wir suchen Gott allein! Komm, o Geist von oben [Chorus.] [Stanza II:] Um Verstand und Licht wir ehn, Dass wir Gottes Wort verstehn.

Komm, o Geist von oben! [Chorus.] [Stanza III:] Steh uns bei mit deinem Rat, Dass wir gehen den rechten Pfad.

Komm, o Geist von oben! [Chorus.] [Stanza IV:] Mach uns stark in Leid und Streit, Salb uns mit Standhaftigkeit.

Komm, o Geist von oben! [Chorus.] [Stanza V:] Gib uns heilige Wissenschaft Aus dem Quell der Glaubenskraft.

Komm o, Geist von oben! [Chorus.] [Stanza VI:] Uns mit deiner Lieb entzund, Dass wir ganzgottselig sind.

Komm, o Geist von oben! [Chorus.] [Stanza VII:] Die Furcht Gottes uns erhalt, Denn der Himmel leid't Gewalt Komm, o Geist von oben! [Chorus.] Gregoire: Bolo Śhrī Jaganmātā Śhrī Ādi Shakti Bhagavati Mātājī Śhrī Nirmalā Devī Ki Jay!

Shri Mataji: Beautiful. Written so well, who has written it? Gregoire: Oh, that was done by seekers before us Mother. [Laughter.] 1674. Tomorrow we will have an old one. Tomorrow well have one that we have done ourselves.

Shri Mataji: Ah good, but this one he says councillor.

Gregoire: Yes Mother.

Shri Mataji: Does he? Gregoire: This is from 1647.

Shri Mataji: So he says that councillor? Gregoire: Should I tell You the [poem]? Oh come, oh come my comforter, come in my heart, oh Spirit from above, blow your wisdom so that we seek God alone. Come, oh come my councillor. We pray for understanding and light so that we can understand the word of God.

Shri Mataji: See.

Gregoire: Come, oh come my comforter, assist us with Thy counsel, so that we go on the right path.

Come, oh come, oh my comforter in our heart, so that you make us strong in difficulties and anoint us with steadiness.

Shri Mataji: See. [Laughter.] You see this is the first time I am hearing something sensible like that.

[Laughter.] Because they never talked of the councillor or of comforter or asking for it, nothing. It's so clearly said, sustenance.

Gregoire: Come oh come, oh my comforter in my heart, oh Spirit from above, give us the holy science from the source of strength of faith.

Shri Mataji: Just see.

Gregoire: Come, oh come my comforter, come in my heart, oh Spirit from above, enlighten our love, so that we can become absolutely Divine.

Shri Mataji: It's great. I think you should sing it in the beginning of the program.

Gregoire: Tomorrow, of the Pūjā?

Shri Mataji: Program, no, no, in the program. Yes, good idea, you see. It's a very good idea. I think this should be the national anthem for the Sahaja Yogis of Austria. It's so wonderful, I mean, it's so suggestive, I mean nowhere I have seen this, so clearly.

Sahaja Yogi: Fear of the Divine.

Gregoire: Meeting in us the awe of the Divine.

Shri Mataji: Oh.

So what should we do, what work should the councillor do? [Laughter.] Gregoire: I think, have a cup of tea, Mother.

Shri Mataji: No, you can have many forces, anti-God forces, that, isn't it?

Sahaja Yogini: The meaning is so many people think they are stronger than Heaven. May we be humble enough and have fear enough of God because nobody is stronger than Heaven. Only many people think they are stronger than Heaven.

Shri Mataji: Such a great thing it is.

Gregoire: We sing a short one.

Shri Mataji: Because there are so many here already, in Austria.

[German Song `Nun danket all und bringet Ehr'. Only three out of seven stanzas are sung.]

[Stanza I:] Nun danket all und bringet Ehr, ihr Menschen in der Welt, dem, dessen Lob der Engel Heer im Himmel stets vermeldt.

[Stanza II:] Ermuntert euch und singt mit Schall Gott, unserm hochsten Gut, der seine Wunder uberall und grosse Dinge tut; [Stanza V:] Er gebe uns ein frohlich Herz, erfrische Geist und Sinn und werf all Angst, Furcht, Sorg und Schmerz ins Meeres Tiefe hin.

Sahaja Yogis: Om Twameva sākṣhāt Śhrī Gaṇeśha sākṣhāt Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī namo namaḥ.

Shri Mataji: Beautiful. Germans are known for their music, Mozart, this that, I mean. The first opera I heard was in Germany. East Berlin. In West Berlin I heard musical concert, but opera was in East Berlin first one was, while Mozart only, this magic flute or something.

Gregoire: Yes Mother, would you like to...

Shri Mataji: Hear Mozart? Gregoire: May be this time, Engelbert, can you see something from Mozart is going? But we have, Public Programs every evening and it's in the evening, usually.

Shri Mataji: No, no, anytime. If you find it, otherwise forget it. I will take a record or something.

[Laughter.] When we were coming you'll be surprised when we got into the plane they played a Mozart at the background and in front some sort of a `dhau dhau dhau' going on. But if you don't listen to the modern stuff the Mozart was playing at the back.

Come in all, theres a lot of room, you come forward, they can also come in the same room.

Gregoire: Camillo, Hamid, come in the front. Mother, I have to go to the airport, I am sorry.

Shri Mataji: It's all right, go. But she can translate or somebody, German.

Gregoire: Zorana, can you translate? OK.

Shri Mataji: Come here.

Gregoire: Come, come here, sit here.

Shri Mataji: Are you taking this gentleman to the airport? Gregoire: I don't think I can take him with me, Mother.

Shri Mataji: All right, you stay. Daddy going to office? That they understand. I think hell sleep off now.

I'm very happy to come back to Austria, to Vienna. Also Im really so much surprised that in Vienna we have such good Sahaja Yogis and so many of them in such a short time. The whole thing shows that where we expect nothing as such, Austria I was thinking would be very much war torn and unhappy place and people will be now

go on the materialistic trip. But there I find the seekers so many of them, so it's surprising. And the greatest thing is that Austria is a center of so many things here, you had cultural thing, known for its music, apart from that sort of points, the other part of Europe, the rest of it in such a way, actually it is very close to Russian border side you can say.

So the whole of that continent is like a bridge in between, Austria is. And bridge is always a weaker thing than the streets, the roads are, but I find the bridge is stronger than roads. [Laughs.] So it is also another surprise for Me, because I had met in the U.N. with My husband many Austrians and I found them extremely shallow people. And I thought that they are more interested in all this kind of jokes of international organizations. [Laughter.] I never expected they would be really so deep as to look at the whole world from a deeper angle that it requires the enlightenment. And on these grounds to find such a surprise of beautiful seekers is really a very great present to the Divine, I think.

Now we have to understand that Sahaja Yoga is a very different style of spiritual fulfilment. Only this time after Guru Pūjā I have started telling all the Sahaja Yogis how this fulfilment is so enriching, nourishing and completing the whole understanding. The thing is, so far human beings have evolved either by physical process or by emotional process or by mental process. Now these are the work of the elements which are like the physical process when takes place uses the oxygen, or air element. And the emotional process also you use more of

water element for that. And for your mental process you use the ether.

So the human beings have grown on these three, four elements. And the light also, we have used quite a lot to see through our eyes and all that. Light we have used, like from the sun. All these elements we have used and we, actually even when we have not used they have manifested their blessings on us.

Now the last and the most important is the Mother Earth. She has to manifest Her own way to give a new dimension to our consciousness.

So the consciousness of a human being has been of a certain level so far with the boons of these other elements but the Mother Earth. I mean to say whatever you have to take from the Mother Earth you have to put in an effort and extract it from Her. It is not that She spontaneously has put into you something in your consciousness. Means whatever we have tried to get from the Mother Earth has been a gross taking in of Her qualities, or taking in Her manifestations, but actually She Herself has not manifested upon us. She has not added to our consciousness. Now say for example, if we eat a fruit from the Mother Earth we don't develop any consciousness out of it. But supposing, you see, we have to understand it in this way that whatever Mother Earth has given us actually we have snatched it from Her, we have dug it out ourselves, we have absorbed it by our efforts, not spontaneously.

But we breathe spontaneously, we breathe spontaneously. When we are emotionally disturbed we breathe spontaneously.

So one must understand that so far we have not been able to manifest the Mother Earth within us.

So in this new consciousness the Mother Earth is going to manifest. Like a tree has grown outside with all these elements supporting it, but it has not gone to its source on which it is living.

Now, the subtle side of Mother Earth is the Kuṇḍalinī. She is expressed within us as Kuṇḍalinī. And when She manifests She is the one who nourishes us, like the womb of the mother. She nourishes us and She makes us grow. She guides us, but Her subtle side has not yet been manifested in our being. Only when the Kuṇḍalinī awakens Her subtle side starts manifesting.

This is the Age of Aquarius. And this is the time, is the time that represents the Kuṇḍalinī. Aquarius is represented as Kuṇḍalinī. They call it in Sanskrit language Kumbha.

So this power is the power of Aquarius which nourishes, which gives you satisfaction. But the job of the other four elements is to make you more outward, extrovert, manly. Thats how when people saw the sea they wanted to cross it, overcome it and go and attack other people.

So the height of human evolution if it is, we can say Christ was, He was a complete man with the subtle qualities of a woman, that is compassion and love. The Christ, you see is the height of manliness with compassion which are the qualities of women. Like for Him, He said, “I will use the instrument of forgiveness” which is an instrument of women, Mother.

So the fathers job is to develop a person outside, if he say, then the mothers job is to nourish.

So this is a different role altogether which one must first understand. And without each other they cannot perform a complete duty.

They cannot perform a complete duty.

It's all right. Now, these days we find that there is a feminist nonsense coming out. [Laughter.] Now feminism is very misdirected consciousness of a woman. Because a woman tries to become a man, is not the way. We already have men, so we don't want more men. [Laughter.] And it would be like a pendulum, a woman was here and she becomes man, man becomes a woman, woman becomes a man and it's like a pendulum movement. But the consciousness has to rise in a spiral way at a higher level. Not in a pendulous way that you move from this end to that end.

So it has to go higher than what it was before in a spiral.

So then one has to understand that if anything has to happen to our consciousness which is important, we have to be at a higher point than where we are.

So to trigger that point Kuṇḍalinī is there and She pushes you at a higher consciousness by nourishing you to the consciousness of the Spirit.

Now we must understand that before this Kuṇḍalinī Yoga that started all the concept of God was created mentally on the ethereal level by all the great prophets to do the job of preparing an image first of all. And now the Kuṇḍalinī itself by its manifestation introduces you to the reality of them. She actualises them, all of them, all these principles of God and the Spirit.

So actually now you are introduced. First like you will tell your friends, “Now Mātājī is going to come, She is such and such, She is like this that” still it is a mental conception. Now, but when I come here it's a different thing altogether. Now it's an actual thing I am before you.

So the Kuṇḍalinī introduces you to actuality, to reality. All those mental pictures that we had get completely actualised by Kuṇḍalinī awakening.

So all these projections were created for us to be prepared for this last bit of jump by which we would be able to tell you. Like if they had not told you, “Mātājī is such and such” you would not recognize Me and My work. And moreover you would not have been prepared for Me. For example, Gregoire's wife must have telephoned to you that I was coming here, so you went downstairs to receive Me. [Laughs.] So that's the reason why these people all of them created a proper mental picture for you. All the prophets and all the people incarnations they created a proper picture for you to understand that you have to become this, you will become this, this is God, this is Spirit, this is the Son. And they said, “The Holy Ghost, the Mother has to be kept a mystery for the time being." Because when you have a surprise, as I had a surprise in Vienna, the joy would be greater. [Laughter.] So this is how it was beautifully arranged. But human beings in their own understanding thought that whatever mental projection is given, if they just start writing about it and talking about it they have achieved it. Like as many times I have told you that if a car is given to you they give you the key also with it and

say that, “Let the car start then everything will start moving." But supposing, you see, if you have the car and not the key, then you start moving the wheel, moving everything, but the car doesn't move.

But you have to be satisfied with yourself so you say, “Yes it moved, you see." [Laughter.] It's a mental faith.

So now what to do with this kind of an attitude that people have developed? That without getting the reality they wanted to believe in something that has not yet started.

So the whole thing looks like a myth then. They should have waited for the key to come in and the car to be started, actually. But in their myth they built all the big, big places, big, big organizations, so many dead dogmas to fight each other that when you come on this earth you just don't understand what has happened. [Laughter.] So you get a surprise which is shocking, not of joy. [Laughs and laughter.] And this is what it is, at this juncture when you see around with Me so many others have come here who have been doing this kind of stuff all their lives, you see those who are in charge of doing all this mythical stuff. They are here with Me standing with Me only.

False Gurus standing here with Me now at this time. But in a plastic flower, you put even one real flower, you see you can make it out. But if somebody is not very sensitive he might think all the flowers are real, inclusive of the also real one and the unreal ones. And another might say that all of them are unreal. Only those who are gifted with discretion will immediately say, “No, this one flower is real, the rest are plastic." So first few years of any establishment of Sahaja Yoga you have to get those

few who have got the discretion. It is not how many people you get for the program important. It is how many you get for Sahaja Yoga is important. Like a fisherman, you see, puts his thing in the water and gets a heavy load of fishes and all are dead fishes and smelling ones except for one living.

So he doesn't know what to say, he is quite upset and he throws all of them back.

So we should all pray that we should get living fishes, alert fishes, who have got discretion for our program as many as possible. And that is how it will work out.

Now, for the Sahaja Yogis who are here, who are already Sahaja Yogis, they have to know that the more they give Realisation the better they will improve inside. First there will be all the problems of the past life. Like a little chick is born out of the egg, it carries a little smell of the egg on the body. But the mother then cleanses them and clears them out and your Kuṇḍalinī looks after you, then you'll become pure personalities and you can spread your wings to fly.

So in the beginning we come from a competitive world so all the problems of competitive world little bit crawl with you. We can say like people try to pull each other, it can be jealousies or there could be heart burnings and there could be little bit setbacks, doesn't matter. But as you develop your responsibility and as you understand that now you've got free wings to fly out, then you understand that many birds have to put together to lift this world from this dangerous ignorance.

So we have to listen what others have to say, we have to develop a rapport between each other and a very loving

care should be there between Sahaja Yogis. Because all of you put together have to do this job. If I could alone do it, I would not have requested you to be Sahaja Yogis. You are My hands and you are My eyes. And it's only through your help Sahaja Yoga can be manifested and we can save the whole world. Of course I am here to give you all the counsel, all the comfort, all the redemption, all that you want I am here to give you. All My help, all My counsel, My redemption, My comfort I am here to give you.

So. Now, for you it is necessary to allow it to grow. The attention will have better light if you take out your attention from other small things. And watch your own growth, face yourself. And you'll be amazed then you can do wonders with your own growth. Of course these three days Im going to start on this topic and this country is very manly, because of the German influence also and Germans are all very manly.

They don't even call there country motherland but a fatherland. [Laughter.] But if you understand the complimentary nature of these two principles then you will not feel anyway hurt, because one is the one that manifests outside, the another one that nourishes it. Manifests outside and the one that nourishes it. You said it.

So one has not to have any conflict or inferiority or a superiority complex, these are all artificial things. And it is something to be accepted, because that's the reality is and it's so beautiful.

And at this point of our evolution even otherwise we want to have a human being not so aggressive, not so docile,

but gifted with the capacity of compassion. At this time of evolution now we have to understand that as the world is today we do not worship people or we do not call them heroes who are aggressive, but the person, the man who has got the great capacity of compassion. But of course it should not be confused with docile men, or passive men, it does not mean that. But crowned by the completion of their character as the compassionate man.

So this is how the new understanding of consciousness must move that new consciousness is a consciousness which has actualised the compassion.

For example in Sahaja Yoga I don't do anything but the compassion works, you see. You also don't do anything, you just raise the hand like this and that what flows works, manifests, actualises.

So this is what it is, like we can say the candle has been prepared, made ready by the manliness side and now enlightened by the Kuṇḍalinī, so both are complimentary. If you do not have the candle what will you light? So first the candle had to be made.

Because always people say that, “Then why not first God gave Realisation to everyone who was born from the very beginning?" [Laughter.] Also that was tried. It was tried for Adam and Eve, but they made all the mistake. Thats the original sin. But that was the original sin human beings committed that they wanted to have their own way.

So they developed into the candle without the light. They were developed into the candle without the light. And now the light has to go there. Does the candle feel inferior or is the candle inferior, because the light is on

the crown? Should the man feel inferior that the compassion is in the crown? On the contrary it has no purpose, then it is purposeless to have a candle if you cannot have a light. And if you do not have the candle what's the use having light? What will you do with the light? It is so complimentary, it is so important, it is only thing that the purpose of the whole thing is that this mental attitude of men and women is all absurd. It's so complimentary that this mental projection of men and women is absolutely absurd.

So it has gone up to such absurdity that they talked of the Father, of the Son and not of the Mother. You can't get a father and a son without a mother, can you? [Laughs.] Have you ever seen any man producing a son? [Laughs and laughter.] So this is what it is more in the West.

So we have to fight this deviation, that's all. Basically it's just the same everywhere that they know this was the truth, this is the truth, this will be the truth. And once we understand that the truth is now you are not bothered.

In the book of Essenes, if you read the Bible was described in the olden days, was the earliest Bible they write all these things. They write about Mother as the Holy Ghost. But now you see, now we have become so mentally absorbed that for us mental projection is everything. But Im sure Sahaja Yogis will understand this subtle point and they'll be able to use it to convince others.

Specially it is very important for Sahaja Yoginis to understand their role, not as a man but as the Kuṇḍalinī, the one that nourishes, that bears. Like the Mother Earth,

because She is so powerful. She bears all this because She is so powerful. And the whole thing will look so beautiful, the whole picture, that people will see a complete human being, as a woman, as a man. For the woman has to realise that she has to nourish the whole world, she has to bear their nonsense, she's the one who is the support, she's the one who gives them gravity, the dignity, the gravity. And the men have to realise that they have to be compassionate and affectionate and kind. And then you will find it's a beautiful Sahaja Yoga Unit or we can say a Universe.

All right, so on these lines I am going to speak this time. I hope the Germans will swallow it. [Laughs and laughter.] Thank you, thank you everyone! You should have the lunch and then I can rest for a while, because there is another interview.

Sahaja Yogi: Mother, is the interview here or is it?

Shri Mataji: In there, so that's why Im saying.

Sahaja Yogi: At Gregoire's.

So You will rest here or at Gregoire's?

Shri Mataji: No, I rest there and it will be better.

So if you can serve the lunch then immediately as soon as Gregoire comes here I may go. Or is there a place where I can rest here, where I could? Sahaja Yogis: Yes, there is.

Shri Mataji: Good. I will rest here. Will be better. All right?

Sahaja Yogi: Mother, also the left Viśhuddhi becomes better, when this relationship between.

Shri Mataji: Of course very much, yes very much. And it is such a funny thing this left Viśhuddhi, I must tell you.

[Laughter.] There was a lady who came to Me with her husband who might become very unhappy when she had come to Sahaja Yoga. Because her husband was carrying on with another woman, doing with another woman and saying, he had told her that he was very guilty about it, but he cannot help it and like that.

So she came to Me. Come here, can you translate it? Yes, there was a gentleman and a lady who came to Me and the lady was very unhappy because she told Me that he was carrying on with another woman and he always said that, yes he is feeling very guilty about it and this and that, you see.

So she was very unhappy and she came to Sahaja Yoga and she got her Realisation.

So he didn't come first time, he came recently but she improved in Sahaja Yoga, she felt very much better and she started facing life better. And he used to again come back to her and again go back to another woman and he was like this throughout. He was like this moving from one woman to another woman, you see and. No, no, no, he. She came to Sahaja Yoga and improved, but he was still just the same. [Laughter.] What did he translate? [Laughs and laughter.] He's good, he's good, he knows it, all right.

So you see he gets confused because he is a bachelor. He gets confused. [Laughs and laughter.] All right so you see, he told Me when he came to see Me, just see the stupidity of the left Viśhuddhi.

He said, “I feel very guilty, I am like this, oh I can't help it, I feel very guilty about it, I love her, I don't want to hurt her." No, no, no, you have to translate in German,

you are talking in English. [Laughter.] No, no, no, no, German, you say in German. Is it, is it German he says? [Laughs and laughter.] Goes on like that you see that, “I know I should not do like this, I know I am doing wrong but I am in love with my wife and if I have hurt her, I am sorry." Just imagine, what a drama.

So I said, “If you are guilty then you must be punished." [Laughter.] He was shocked. [Laughs.] He thought that if he declared he was guilty that was sufficient. He thought if he just said, “I am guilty” that was sufficient.

[Aside:] No, no, it's all right, you are doing it well, you see. You say in German that He said, you see these things to Me and he thought that if you say you are guilty then you can get away with any guilt, get away with any sin.

[Aside:] Margret should do it.

You see. Now, so I told him that you must go for a punishment otherwise how will you justify your guilt? So he said, “What sort of punishment?" I said, “You do not eat your food for eight days. [Laughs and laughter.] And go to your office walking, not in your car and don't wear your suits and don't try to look a smart man. Don't sign any checks, give all your checkbooks to your wife." The lady left him and ran away. Thats how the guilt can be taken out by punishment.

So those who think they are guilty should punish themselves. This is a new advancement in Sahaja Yoga. [Laughs and laughter.] Like Ill tell you another thing, [Laughs.] little, little punishments like that can help a person. [Laughs and laughter.] Ha, I will tell you about cigarettes, when they smoke cigarettes they feel guilty

and then they again smoke cigarettes, OK? So what My father did to one of his friends he said, “You can break the circle." He said, “How?" He said, “Before starting to smoke you just burn your hand." For some time hell get the pain, “And then when again you feel like smoking again burn your hand." Like in Switzerland it's very common, it's very fashionable to say that, “I feel very guilty because the people in Cambodia are very poor." Cambodia, in some place farfetched place. I mean I said, “You have no solution for it. Why are you feeling guilty? I mean, you are not doing it.

So why are you guilty? All right, you can send all your money to Cambodia and you will be rid of your guilt." Thats it.

So then, you see this is we are cheating ourselves. Intelligence has a capacity to cheat itself.

[Aside:] Loudly.

This is what intelligence is, it cheats itself. And you feel quite satisfied with it, with that cheating.

So one must understand that this intelligence is not your self, this is the cheater. He is keeping you out of the source of joy. But pure intelligence will take you down there, yes, pure intelligence. Thats what it is. Because it comes from the Spirit, from the innocence, from the innocence. And the other comes from cunningness.

Thank you very much now! So no more guilt also, finished. [Laughter.] Otherwise you'll be punished.

[Laughs and laughter.] Who aren't like that? My father did that once and the fellow gave up smoking.

You see, it's very simple, you better punish.

Sahaja Yogi: It's a great idea.

Shri Mataji: But it could be also with some people, you know they like to torture themselves also.

So for them the punishment should be the other way round, you see. Like a child who wants to scratch his nose all the time they tie up his hands, you see with something like that. See, it's a funny world and funny human beings. They want to destroy themselves. [Laughter.] Can't understand.

Sahaja Yogi: I remember, Mother, I said I never feel guilty, I never feel guilty. I was with you in Hong Kong and I kept saying to everybody I don't know what this guilt business is. I never feel guilty, ever.

And Shri Mataji said nothing to me, but She let me take vibrations from Her left Viśhuddhi one night.

And for three days I was in the hospital with acute tonsillitis. [Laughs and laughter.]

Shri Mataji: That's the punishment. [Laughs and laughter.] You see, Indians never feel guilty. I tell you, never. You tell them do not do like this, you shouldn't do like this. They will never feel that they have done anything wrong, again they will do it. They never feel guilty, so this is even worse, I think not to listen to anyone. Is arrogance, is arrogance and what should we say. [Adamance] is there and boasting as you said. It's boasting and they say, “Oh it's all right” anything they will do. Tell them, “All right, whatever done is done." Indians are typically like that. It's very bad, I don't understand. But here they reconcile with themselves by saying, “I am guilty, finished." That certificate they have, say, “I am guilty, finished." Both ways it's just the same.

Indians, you know, one of them robbed Me when I was in Poona, a very funny man. He came to Me and I told him that, “This is too much money you have robbed Me now." So he said, “I know Ive done it, what to do? You see, this happened, that happened and after all Im a poor man. I felt like making money, so what?" “It's a wonderful person” I said, “but why out of Me?" He said, “I had only this chance to make money out of You, so I made it, so what?" I said, “All right." Next time he had another punishment, [laughing] so that's how it is. [Hindi.] It's impossible to hear such a man. Hell always say an explanation. Indian will have always an explanation, “Oh this." Or hell divert, you see, if you are talking to him that, “You should not have done this” he is very cunning, Indians are very clever people.

So they will start another topic so that your attention is diverted. [Laughter.] But they'll never see that they have done something wrong and they should correct it, never. Thats typical.

So we have two types of people also. I think the people who are developing, still so-called developing people do not feel the guilt. Those who are developed feel the guilt. I mean they use the guilt and these people use the, what you call the kind of a barrier, “Oh what's wrong, you see, Ive done nothing wrong” that's it. Western people are more sensitive that way to develop a guilt about things but then becomes a lump in here, the Kuṇḍalinī does not rise. Whether it is here or here, for the Kuṇḍalinī rising both should dissolve.

You follow English all of you, I think? Who does not follow English among all of you? You better translate this. At all. Absolute.

I can't learn so many languages, [laughter] but German I may be able to learn. I think it's quite closer.

But this French [laughter] is something I just don't understand. You have to say every word away. I mean simple thing was daisy.

So they said daisy is marguerite.

So all right, now daisy is marguerite now. What is John, is Jeaṇ[What is George, is Jean]. Why not say George?

Sahaja Yogi: Mother, please say something in German.

Shri Mataji: What did he say?

Sahaja Yogi: They want you to say something in German.

Shri Mataji: German, My one, first German experience I must tell you. [Laughter.] Is the lunch ready? It's getting ready. Lunch is getting ready? Still time.

It's a very funny experience I had first when I came to Germany to Hamburg and then we went to a place called Bremen. And there was a German fellow. Please translate this much.

And in Bremen this fellow came to see Me and he saw Me and he said you see that his mother was Indian or grandmother, somebody was Indian, so now he called Me Mother. I said, “Very good idea." And he knew English very well and on the shipping people know English. I mean, it's more, maritime is more a English sort of a thing so everyone knows English, no problem. And you better translate that, he is good. [Laughter.] Now this

gentleman you see, we went to a place called Bremen where there is a very nice cathedral.

So you translate it is better, because it's very sweet thing and you should not miss the point. [Laughter.] And in that cathedral in the basement you see they said that, “There are lots of mummies, natural mummies." They said that, “When this cathedral was built one child fell down and died. And they found that the child was still living in the sense that there was no smell coming out of the body, you see, sort of decaying was not there." So must be the vibrations there.

So the people paid money and put their bodies in that vault after death. They paid money after death to be put their bodies in the vault. And there were lots of mummies.

So, this son of Mine, who took Me down, I had My two daughters and My nephew with Me, we all went in that place to see the church, the cathedral. And then they told us that, “The mummies are there.

Would you like to go and see?" So My both the daughters said, “Nothing doing, we are going to sit down here, we don't want to see any mummies." [Laughter.] Honorably they retreated. [Laughs and laughter.] Now, this gentleman said, “What is there to be afraid of see, look at me, you see I am not afraid, we are Germans, we are not afraid." [Laughter.] So we said, “All right, come along, let's go." This nephew of Mine was little frightened, you know so he was running away. [Laughs.] He was holding on to My sarī. He tugged him around and said, “You Indians are such cowards, come along." [Laughs.] And when we went in, you see the fellow was

the guide was telling us something in German, “Ischt, nischt, bischt, krischt." [Laughs and laughter.] And My nephew was just, you see tugging on to Me, because he could not bear to see those dead bodies. It was horrible looking, absolutely. [Laughs.] Because it was just bones and, its horrible bones and skin, Ive never seen such a sight. But I was just trying to feel the vibrations there, that's all. I was not disturbed at all. But this great German you see, when he saw this you know his face changed, lLaughs and laughter] and he was walking very fast with Me enter, but then he started walking, you know with pressing both the legs together. I said, “What is the matter?" I did not know what was happening.

So he went and told the gentleman who was guiding with the big stick, you see, something in his ears. [Laughs.] And that person threw that indicator, you see and got hold of him and took him back, took him away and both of them talking in German, “Stock, stock, stock." And I said, “What has happened?" And he rushed…

Sahaja Yogi translator: [Two daughters were sitting outside on the benches.]

Shri Mataji: They saw him rushing past there. [Laughter.] They said, “Where are you going?" In a very awkward running pose, you see. In a very awkward running pose, running condition, awkward.

So they asked, “Where are you going?" He said, “I am going to the toilet." [Laughs and laughter.] But you see, first he said it in only German. And they couldn't understand. He forgot English also.

So this is the first introduction to German [Laughs and laughter and applause.] I had seen pictures of, you see

Germany and German people and I said, “Now what sort of Germans these are; now poor things, you know, he was such a sweet man he was though." Because inside of every human being there is a sense, you see that after death this is what's going to happen to me, you see. And it really makes you frightened. One may be brave or anything but when you see that actually the whole thing puzzles out. But the other reality is of your Spirit, is so beautifying. That you feel so sure of yourself and so secure. That you do not aggress on anyone or you do not take aggression, you are not frightened, nor you frighten others. This is what it is, whether you aggress or take aggression is the same. Result of the same insecurity. If you are secure then you don't aggress or you don't take any aggression.

So if any of you have any chance sometimes to go to Bremen, please have a look at there. [Laughter.] Do you ever go to West Germany?

Sahaja Yogi: To make programs?

Shri Mataji: To make, Bremen is the best place for making program, very sensitive people.

Sahaja Yogi: Where?

Shri Mataji: Bremen.

Sahaja Yogi: Thats where Barbara comes from Mother. Barbaras home is Bremen.

Shri Mataji: Really. You have to go there. You see, to understand about vibrations, I mean the Divinity part of it is also remarkable, isn't it? And that place has vibrations. Thats a good idea. I didn't know. Then let her go to Bremen.

Sahaja Yogi: That was one of the places you put your feet to Mother, Bremen, Munich and Freiburg.

Shri Mataji: Freiburg? But what about I'm going to Hamburg, to Bremen?

Sahaja Yogi: And Hamburg, I beg your pardon.

Shri Mataji: Hamburg is,

Sahaja Yogi: It's a very sinful city.

Shri Mataji: Hamburg yeah. Hamburg is like London, same style, Hamburg is like London already.

Now, the same style, means a very materialistic, very business like, all the dirt and filth of everything there. Hamburg, but Bremen is very sweet. Beautiful place, Bremen. What is it? I can go there or you [want]? But the worst thing that I have heard about Germany now that Rajneesh is going down there.

Freiburg and all these places, you see. Because Rajneesh has now been ousted also from America, because he can't speak. Just translate it.

And Americans say the law is that if you have some special capacity or special talent then they give you, what you call a citizenship. But this fellow, the one who has gone there cannot speak at all much and cannot give speeches.

Some say he is paralyzed, some say, but some say, I mean more say that he is a person who is an impostor. And the real Rajneesh is already killed in India.

So now, this fellow, the new fellow is not the real Rajneesh. But the American authorities say that, “If he cannot teach then we can't have him here." So he will be very soon ousted from there and may come down to

Germany. He was about to go to Australia, but I think Australia is now neutralised.

So we have to work out in Germany about it. There is a private film about Rajneesh, The God who ran away.

Sahaja Yogi: Gregoire has arrived, Mother.

Shri Mataji: He has come. [Hindi.] Hello, may God bless you! If you could, come along, come along.

If you could see the film and publish it, because you see this film was later on purchased by Rajneesh and cannot be shown in public. But if some of the journalists can see it, they can write. Can they? Then it can be worked out.

Sahaja Yogi: It's copyright Mother, so it cannot be shown in public.

Shri Mataji: No, no, no, privately.

Sahaja Yogi: But it may be shown quite easily, privately.

Shri Mataji: You see and let the people, who see, then write, “That we saw it privately."

Sahaja Yogini: What is this movie all about?

Shri Mataji: About Rajneesh. All right. And then you should write like that about Rajneesh, to the judge it could be shown this privately, if there is any case. You can consult some lawyers about it. Well get you the film. All taken secretly, horrible! We can ask somebody to get you that one. Gregoire, did you follow My account? Gregoire: Yes Mother, I did.

Shri Mataji [aside]: Made especially for Me? There was no need. I can eat whatever they have cooked for Me.

Was a trick. No, no, it is all right. What is the thing like that and what is the trick [about the trick.] Gregoire: The

trick is that we should try to sell the film to them and get money out of it. [Laughter.]

Shri Mataji: Of course, everyone of them. But can tell what happened about Rajneesh in Australia, Warren can tell.

Sahaja Yogi: We have two journalists, who are Sahaja Yogis in Australia. And they wrote particularly about Rajneesh and the other Gurus.

Shri Mataji: Great, this is a German solution I think, isn't it? I have said many a times if the Germans take to Sahaja Yoga solutions will come, no doubt. They'll solve the problems, I am sure, with all their dynamism. They will solve the problem, I have no doubts about it.

So tell them.

Now you better translate him too. [Laughter.] Gregoire: I can do that, Mother. I said each people, each folk has a specific quality and here we don't speak about Austria or Germany, but generally those of the German world, if they can enter into Sahaja Yoga then their qualities will,

Shri Mataji: Adopt.

Gregoire: Be of great benefit to the whole.

Shri Mataji: Very much. And of that I am sure.

Gregoire: Thank you, Mother.

Shri Mataji: Of that I am sure. I am really sure. But he can't tell you what happened about Rajneesh, I tell you.

Sahaja Yogi: Gregoire you know, the story, that Shri Mataji mentioned.

Shri Mataji: You better tell.

Sahaja Yogi: They wrote a lot about false Gurus.

Gregoire: I already told the story Mother, just now, yes.

Shri Mataji: Then it's all right.

So we can have some people, being shown this. Will be a good idea, on private. This film can be shown on private. They'll come out of curiosity, all the journalists to see the secret.

Sahaja Yogi: We have already done it Mother and it does work. It's very good. They are very fascinated to see it.

Shri Mataji: Australia.

Sahaja Yogi: There is one journalist who wrote an article about Sahaja Yoga in Austria and he is working with the justice. The one who wrote an article in Proffle.

Shri Mataji: What is it? What is it, Gregoire?

Sahaja Yogi: Now he said, one journalist who has written an article on Sahaja Yoga has also connection with the justice department.

Shri Mataji: You can talk to him. Better talk to him, is a good idea, Gregoire it's a very good thing, you know if you have somebody in the justice.

So you know what becomes illegal, what becomes legal.

Very good idea. Well send you the, how can we send that, the copy of that?

Sahaja Yogi: I can get it sent, Mother, I can get one of our copies, copied.

Shri Mataji: From where?

Sahaja Yogi: We have two in Australia.

Shri Mataji: What is it? This is the first course now? Gregoire: Yes Mother certainly.

Shri Mataji: So this is going to be too much, then I will have a little more.

Sahaja Yogi: I think they [noises outside] are shooting a few at the moment, Mother. [Laughter.]

Sahaja Yogi: Mother, do You know this picture of Yours already?

Shri Mataji: Oh, where was this? Gregoire: *[UNCLEAR* Kovalam].

Shri Mataji: [Hindi.] Who took it, you? Gregoire is a great photographer, his brother, very great.

It really attracts you like that, good one. Very good. Absolutely perfect. The sarī folds and the folds of the sea, all go hand in hand. Who took, one you took Rajesh, sitting in the window, Gregoire took one.

Gregoire: Mother may we make one announcement? Those who come to the interview because it's 3 o'clock and at 4 o'clock is the interview so if you could please serve the food first to those who come with me to the interview. That means Herbert will come with his car and he can take Engelbert and you, OK.

And Zorana and Warren comes with me. And the visiting Sahaja Yogis if they have time and pleasure doing it so could perhaps.

Shri Mataji: Because they have to, how far is it the program from here, it's closer from your home? Gregoire: From here, it is much, the program, the interview is at my place.

Shri Mataji: No, that's all right.

Gregoire: The program is much closer from here.

Shri Mataji: Then it's better they stay on. They stay all here.

Gregoire: There is no program today, Mother.

Shri Mataji: There is no program, so it's all right.

Gregoire: No, we just have to be at home in one hour from my interview.

Shri Mataji: No, ours is all right, but what I am saying those who are not coming to the program can go out to visit the places, whatever.

Gregoire: Thats what I was thinking, yes.

Shri Mataji: What time they should arrive? Thats the point is, at your place? Gregoire: This evening Mother we don't meet.

Shri Mataji: No, but some have to come to your place also, no? Gregoire: They should come.

Shri Mataji: Like, I think Rajesh is staying with you, who else is staying with you? Your sister is staying with you, so they should be there for the interview? They need not.

Gregoire: Need not be, I think a couple of Austrians and perhaps Warren and that's enough.

So I would suggest perhaps Gunther and the other Sahaja Yogis could maybe take a round, a little bit show the Prater, do the visit, little bit sightseeing. And tomorrow, so this evening nothing happen at my place.

Tomorrow as [Śhrī Dhumal] and Warren stay at the ashram, I would like our first car with Engelbert, Sridumal and Warren to be at my place by 9 o'clock. With all the Pūjā things from the ashram and you can come.

Shri Mataji: I would like to hear Mozart if it is anywhere tonight. Mozart, if it's anywhere playing, tonight.

Gregoire: OK, let's see if there is a day concert.

Shri Mataji: I mean tonight we are doing nothing.

Gregoire: Tonight, yes. Can you, can you tell?

Shri Mataji: Tonight, I am saying, Gregoire.

Gregoire: Yes, yes, I understand.

Shri Mataji: [Hindi.] They are the best.

Sahaja Yogi: Śhrī Mother, when You arrived they played Mozart at the radio, because I was going to the railway station to pick up Dhumal and the others.

Gregoire: When You arrived in Vienna yesterday evening they were playing Mozart in the radio.

Shri Mataji: Not only that but when we got into the plane, in the plane they were playing Mozart.

[Laughter.] But with that little superimposition of the modern dhum dhum was there. But inside the flow was of Mozart and My ears [Hindi/Marathi].

So she told Me, “It's Mozart." Just see, how the attention is there, I hope it will work out. [Hindi.] He has not seen that palace and everything.

Gregoire: Schoenbrunn, but either today and Warren also, Schoenbrunn you have to go, he is a Sahaja Yogi, either today or tomorrow.

Shri Mataji: [Hindi.] All right? Gregoire: At what time should everybody at my place tomorrow 9:30, 10 o'clock?

Shri Mataji: 10 o'clock.

Gregoire: OK, so all those who are not with the first car, should be at 10 o'clock at my place and all those present here are invited to the Pūjā. Come also please at 9 o'clock.

Shri Mataji: [Hindi.] And wheres the little one gone? Ah, he is there. How are you *[UNCLEAR]*.

All right. Come for the weekend.

Sahaja Yogini: Im very happy to be able to come.

Shri Mataji: And the children are with the?

Sahaja Yogini: With the father.

Shri Mataji: Hell look after them. Did Arneau talk to you?

Sahaja Yogini: No, Shri Mataji.

Shri Mataji: Not yet?

Sahaja Yogini: Arneau, no.

Shri Mataji: I told him again. All right, Ill tell you what I told him. It was nice you've come, Im very happy. I think that can do for Me. It's quite a lot already. *[UNCLEAR* Jennifer] what do you have for Me, very little? [Hindi.]

Sahaja Yogini: It is not at all perfect, Mother.

Shri Mataji: Very nice, beautiful, what is that?

Sahaja Yogini: Lasagne.

Shri Mataji: Lasagne.

Sahaja Yogini: It is something Italian.

Shri Mataji: Yes, I know, it's nice. All over the world, I think, people love lasagne.

So how are you *[UNCLEAR* been], are you all right?

Sahaja Yogini: Is there any time, I could have a word with you, while.

Shri Mataji: Who?

Sahaja Yogini: Mother, is there any time I could talk to you for a few minutes?

Shri Mataji: Yes, yes, tomorrow can you come, tomorrow.

Sahaja Yogini: Tomorrow I am here, yes.

Shri Mataji: This is a good photograph, very good. This also Gregoire has taken, is it? This one? Remember?

Sahaja Yogi: I do not know, Mother.

Shri Mataji: This is also Gregoire has taken this photograph? Ask him.

Gregoire: It's possible Mother, yes, yes, yes. Why? Sorry.

Shri Mataji: I just want to explain [the place]. What about, she, what about, your sister has to come with us? Now the second group can go also.

[Hindi.] Rani was a realised Soul [Hindi.] Mozart [Hindi].

How many children the queen had? How many children this queen had?

Sahaja Yogi: Sixteen. Sixteen.

Shri Mataji: Must be a real mother. You see the problem was, one and two here and there. They could not assert themselves because only one person being realised, you can't talk, you see, because people wouldn't like. They never understand.

Your friend came, Rajesh. What about you? [Hindi.] Why don't you go? Rajesh is not going to come? Gregoire: Yes Mother, I mean, whatever you want.

Shri Mataji: Just have it, Rajesh.

Gregoire: We don't need being so many for the interview, Mother.

Shri Mataji: No, no, but after all they will be going back home, isn't it? Because he is a guest in your house, he has to go to your house.

Gregoire: He will be driven by Gunther.

Shri Mataji: All right, so that's about it. But in any case go and get it now solved. Matthias also is there. Are you tired now? I told him that Matthias is like Mister Hawk takes a vacation. Mister Hawk, have you see the picture, takes a vacation. Poor Mister Hawk took the vacation and

he had to do all the carrying of the boxes. [Laughs and laughter.] It's wonderful, but really I am *[UNCLEAR]* really, really very great and I have *[UNCLEAR]* with it. Just leave it, no, no, little bit out of it, all right? And then you all eat.

Gregoire: So Mother, we could all go and listen to some Mozart this evening.

Shri Mataji: What? Gregoire: We could all go and listen to some Mozart this evening.

Shri Mataji: It's possible? Im very happy. [Laughter.] Gregoire: It is possible. It will be possible. [Laughter.]

Shri Mataji: I think in My presence you people enjoy more.

Sahaja Yogi: Quite possible.

Shri Mataji: During all music programs. Even you see this great Amzad Ali came and I went for his program. That must be told, nobody is here from London. Where you in London at that time? You were there. When Amzad Ali came, when Amzad Ali came. The sarod player, you were not there? Sarod player came, we went to that Commonwealth Institute, she was there. She was there. Gregoire you wouldn't believe. That you see what happened that day as usual these people just went away and left Me in the lurch and I didn't know how to reach.

So I asked *[UNCLEAR* Bernard] to drive Me down.

So I was late about half an hour and he had played one raga. You should ask Rustom hell tell you. And he was absolutely boring and he bored himself and bored everyone else. And as soon as I went there you know, he touched such dimensions, Ive never heard him so good. Such dimensions he went into, he did not know what has

happening to him, such dimensions [he reached]. [Hindi.] And he played a raga which My husband doesn't like at all, but it was so tremendous and so dynamic that everybody got lost in it. [Hindi.] But next day I did not go, so he came to see Me two days later and he said, “I couldn't play as well as I could before and I missed Your company very much there." Is it her office this place? Is it your office here?

Sahaja Yogini: Yes.

Shri Mataji: My husband, My brother and another brother, two brothers had a company for income tax. They were *[UNCLEAR* practicians]. But they were chartered accountants to begin with and then they did also this. But now he's a steel minister, My brother. I don't meet them at all, because I have no income, so I don't pay any taxes. I have solved My problem. [Laughter.] Gregoire: Mother, the friend of Elisabeth, Werner, is he here? Mother, Werner after his Realisation started curing people. And I told him yesterday that it may be quite dangerous because I remembered what had happened to *[UNCLEAR* Devlin].

Shri Mataji: Now.

Gregoire: Would you like to speak.

Shri Mataji: Yes, but what sort of diseases? Gregoire: Pains in the head or in the back, in the joints.

Shri Mataji: Arthritis. No, arthritis is all right. But you use My photograph. But arthritis you shouldn't, because arthritis is due to too much of vibrations.

So if he just touch the thing, the place of arthritis and put your hand outside you can take it out. It's just taking out

of the vibrations. But give yourself a Bandhan, keep a photograph other way round in the pocket. But be careful.

Gregoire: He said, “I have done all this."

Shri Mataji: But be careful, because you see, one may develop a little Ekādaśha Rudra, might develop, be careful. Because these vibrations are there because of some sort of an obstruction and that obstruction may get you also, is possible, one has to be careful. But another thing is the vibrated kerosene oil, if you can get, the paraffn oil, which you can. And also sugar, salt, everything. But you must learn first of all, you know. I don't want you to be in trouble doing that. Because I am more worried about My children than about other people.

Gregoire: He says, “I am doing this above all in connection with giving Self-realisation, I don't do it just on its own."

Shri Mataji: So what I am saying that what you do is to ask them to put their hands towards the photograph and put it *[UNCLEAR* in the thing] with the photograph, is always better. But for arthritis they can do one thing is to put one hand outside and one hand towards the photograph, they can clear out that. But more, it will more, they'll develop more respect and Śhraddhā for Sahaja Yoga. But be careful, tell him to be careful. Because people have suffered so I am worried. And also he should clear out himself every night. No problem and he has little back Āgñyā, I think, because of eye sight.

So what he can do is to keep the light before him and watch My photo through the light and also he can put the sun on his back Āgñyā with the photograph in front. Take

the sun, its rays on the thing and have the thing on the photograph in the hand. Nowadays you can do, we have a nice sun. Also the flame. You can put flame, ask somebody to give a Bandhan and the flame in front. For you also it's good, you see. Yes, yes.

Sahaja Yogi: And also to sit on the Mother Earth is good, that it sucks.

Shri Mataji: Is very good. Good. But you see the problem is in this country the Mother Earth is very already wet, you see so She does not suck so much of the things like arthritis. Arthritis comes from more cold and humid air. Of course the Mother Earth is very good, but in India, not here that way. Because it's a hot country so the Mother Earth sucks much more. But this paraffn oil is all right because it comes also from Mother Earth.

So is all right, you can use it. Also get some oil for your hair also, Saturdays if you rub your hair with that oil. Get all these oils vibrated by Me is the best thing. Saturday night.

Let's go, Rajesh.

Rajesh: Sorry Mother?

Shri Mataji: Let's go. But he can be driven by somebody else. Let's go back why I am saying because I would like to rest for a while.

Thank you very much! It's wonderful! Wonderful the Italian food. [Laughter.] Because you see, Germans make everything all right, so even Italian food is made better than Italian. Yes very well, efficiency personified, Germans are. If they become efficient in Sahaja Yoga no one can beat them.

Sahaja Yogi: This is our all desire, Mother.

Shri Mataji: Just you can do it, I know that. As you have developed such a nice mechanism outside, the inside mechanism also you can manage. Isn't it? After all, you have the deftness, you can do it.

Very nice lunch, very nice meeting you all! May God bless you! Then hope to see you tomorrow to Pūjā. Before coming to the Pūjā don't talk to anyone, just take your bath, stay quiet, [coming off from office activities]. Thank you very much! My purse should be there. You come tomorrow there. Thank you!

Contents: 1983-09-04 **Śhrī Kṛiṣhṇa Pūjā, Viśhuddhi Chakra, Sternwarterstrasse, Vienna, Austria**

Before going to America I wanted to speak more about the Viśhuddhi Chakra and about Śhrī Kṛiṣhṇa's aspect within us. In the first Pūjā in Geneva I spoke quite a lot about it. There is no end to it, of course because it is the center of Virāt. But one has to realise that the message of Śhrī Kṛiṣhṇa was `to surrender'.

Now, the surrendering that we think in the gross way is like an enemy surrenders to another enemy.

So when the word `surrender' is spoken, we build up our barriers by thinking that now we have to surrender, leave something to the other party. But when Śhrī Kṛiṣhṇa talked about surrender He was saying that, “Surrender your enemies to Me so that I will get rid of them." Now, the worst enemy that we have is our ego. And with ego starts all kinds of other problems, because it is the biggest barrier for our growth. And the ego starts, as you know, from the Viśhuddhi Chakra and can be sucked into

Viśhuddhi Chakra away. Now let us see how this Viśhuddhi Chakra made is. All the vowels that we use come from Viśhuddhi Chakra. And like in Devanāgarī language it is a ā i ī u ū e ai o au ru ruu lu luu om ang āha, sixteen.

So as you know that you cannot compile a word without a vowel, is so important. A consonant is weak, without *[UNCLEAR* nirbal], without any strength, without the vowel.

So the strength of a person comes through the Viśhuddhi Chakra in his speech. But it can be absolutely stiff also, the strength could be absolutely stiff. Supposing you have a very strong weapon but you can't lift it, so what's the use of having a weapon like that? So, this Mr. Ego tries to make the weapon heavy and stiff like jammed machine guns. Now that is what He has said that, “Surrender your ego to Me." So that when you say a mantra or utter words they are effective as weapons, good weapons, effective good weapons, efficient.

Now when we talk, let us see how I see your ego expressed in your talk, so that you will understand how to address Me and to judge yourself. For example shaking your necks too much is a sign of a Mr. Ego shaking your head for nothing at all. Like many people have a habit “yes” they'll say and they'll go on like this for ten times, there is no need. Actually, you should move only once, with humility, the head, “Yes, Mother” is all right. You must move your neck with respect and with understanding that Śhrī Kṛiṣhṇa is sitting there. With dignity. But we forget it all the time and we start using it to assert ourselves when we talk to someone. And we

shake it too much or we push it in such a way that another person is sort of dominated by it.

Now, there is another method of when you talk to Me, like saying “No, Mother", it's very common. If I say anything, the first reaction of people could be “No, Mother." After all, you see there is a force going on, even when I'm speaking it is a mantra, when I'm not speaking, is a mantra flowing. And suddenly you come out with your “No, Mother", so you create a ripple back in the whole thing. Now, at that time, if you just listen to Me what I'm saying, the saying itself will work it out, you don't have to do anything.

Now the, another way of is the style in which you talk to Me, also I can see the right Viśhuddhi acting.

It is when we talk normally to each other, we'll say, if we have to say `yes,' we'll say “m-m” like that, is very common here “ha-a” is a style, they say, way, “hum-um" like that and “a-a", a special style and then on top of that to say “hmm-mh" is, if you see it clearly, it is: you are not receiving anything in it, but you are trying to sort of put equal pressure on the flow. The humility is the best way of conquering this ego of Viśhuddhi. And when talking to others, try to develop sweet methods, sweet ways unhurting other people. And you will be surprised that Viśhuddhi will immediately start behaving in such a sweet manner because the bhoots don't like sweetness, they are quarrelsome, they are harsh, they are always trying to say something curt.

Sahaja Yogini: Here is Mr. Srivastava.

Shri Mataji: See now, at the wrong time. All right, I'll better talk. One Minute.

Sahaja Yogi: Bolo Śhrī Jaganmātā Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī Ki, Jay!

Shri Mataji: So this Viśhuddhi on the right hand side is to be controlled by surrendering as it is said, actually you surrender your ego to begin with. And this ego when you surrender, it has to be done from you heart, it should not be a lip service. From your heart: “I don't want this ego any more, I want reality.

Let the reality be seen by me, felt by me, enjoyed by me." And once you start doing it from your heart you'll be amazed that your voice will become sweet. Apart from that it will have the Divine Power flowing through it. That is what we say that you have now got Vak Shakti, means `the power of speech'.

So when you surrender ego, what do you do actually is to say that, “I'm not doing anything, it is You who do everything." So that a little drop has now become an ocean. And so, your sound has got the power of the ocean.

Now, the second thing you have to surrender is the pride or vanity. Now, the vanity can be of many types which are artificial things, absolutely. Before God, what is your property? What is your money? What is your position? What is your family? What is your education? You see, everything has no value in the presence of God. The possessions that we value so much have no value.

So, one has to realise that if we are the possessions of God we should be proud on one thing only that His vibrations flow through us. That is: He is proud of us.

Like supposing you give Me a fruit or say a Gaṇeśh or anything, it gets very much valued because I have

touched it and the vibrations are there. Like this Gaṇeśh now, for example, if you see the value of this is zero as far as the metal is concerned, but when made into art it has some much more value. In this world the value increases with art, but in the realm of God or in the spiritual world or Divine world, the value of a Gaṇeśha, the same Gaṇeśha, could be thousand time more than what it is now as just an art piece.

So that is what is now given to you, a very high value.

So the pride and the vanity of artificiality, artificial things is all man-made, mythical and should be surrendered because it's a myth.

Then human mind has another capacity to be jealous, to be jealous of others. This also comes from unwise understanding. If you surrender your jealousies at the Lotus Feet of God, I mean, you are doing all rubbish to God, actually. These stupid jealousies that you have are, as you know, of no value, neither in this world nor in that world. The most surprising thing is that the Sahaja Yogis feel jealous of each other.

And I still can't understand, how can it be? If you are standing in the sunshine then you all are jealous of your shadows? [Laughter.] Somebody's shadows are big, somebody's shadows are small, so you are jealous of each other? [Laughs.] Sometimes I give a present to one person, can't give to others, then they get jealous. If I give more time to somebody then others are jealous! I only give more time, sometimes, to people who really are getting lost.

So, one has to understand that all our ideas about jealousies are stupid. And I can't understand those who

are not realised that they are jealous of Sahaja Yogis and they try to make them fall. Instead of being jealous you should become like Sahaja Yogis! In Sahaja Yoga also I've seen some very funny things happening, an incidence. Like a person came to Me and was very angry that, “Mother, see, You spent so much time with a particular person and I'm very jealous. And You said that I have to be like the people about whom I'm jealous.

So I would like to know how to be like the person who was with you for such a time?" So I said, “That fellow is really a lunatic! You want to become a lunatic? Have you no discretion?" Sahaja Yoga must have, a Sahaja Yogi must have discretion if his Viśhuddhi is all right to understand that what I'm saying has to be used discretely, not blindly.

So you can understand, without discretion, whatever I say, how funnily you can use it so detrimental to your growth.

So, another offshoot of ego is called as `hot temper'. Of course, it is there to be used against people who try to insult your Mother, you have to do that. That must be used for people who go against the Holy Ghost, as Christ has said. In the same way you should not tolerate any nonsense against Me from anyone whatsoever, not even this much. But you can tolerate other Sahaja Yogis in other matters.

Another enemy we have is the greed. I mean material greed and also human greed, like possessing your wife, possessing your children, possessing this, possessing Mātājī also. This also must be surrendered.

And this could be very dangerous that, “This is my child, this is my son, I must possess it” can be very dangerous in Sahaja Yoga also. “This is my carpet, this is my camera, this is my tape recorder." Once you start understanding what is mine is not a truth. Nothing is mine, that's the truth. Also some people, like I know of, they say that “my job” or “my business” or “my enterprise." We had the other day one gentleman in Geneva who was very troublesome because he is so conscious of all these things.

So the greed. Also the lust of other women and indulging into lust too much, giving too much importance to the agencies of lust. That creates great problems, for not only Sahaja Yogis but on the whole for Sahaja Yoga also. It is expressed in both types of people; those who are living in a very free world as well as people who are oversuppressed. I know of people, those who are supposed to be brought up in very religious, so-called, atmosphere, when exposed to women, suddenly get too much attracted towards them.

So, it's that maturity of your innocence must be developed that keeps you a very religious person, Dharmic person. And the innocence to know how far to go with men and women, that's the wisdom of innocence. Children, if you see, they know exactly, if there's a lady, if there's a man, how to behave.

So, the innocence is not stupidity. Is a complete wisdom and when matures in its full form, it just knows how to be with people without indulging into anyone of these enemies. Each enemy is sufficient to finish not only one person, but billions and billions.

So best way to develop that absolute nature of your Viśhuddhi Chakra is to witness the whole thing with a detached mind and to develop love for your Mother in your heart so that She cleanses all these enemies in such a way that when you are faced with them you are a powerful person.

Mentally, I think, most of the Sahaja Yogis understand that obedience to Divinity is the only way, mentally, rationally. Mentally. Now, even if you understand something mentally, it's not your innate nature.

So what I told you yesterday, is when you accept something mentally and you cannot do it you feel guilty about it. Then you become your own Guru and punish yourself and try to make this as your innate nature. It's a state, it clicks, once it clicks you can see immediately. I know who is surrendered.

So, as Śhrī Kṛiṣhṇa has said that “Sarva Dharmanam Parityajjya Ma mekam Sharanam vraja." He has said: “Give up all your Dharmas and surrender them to Me, surrender to My Dharma only." So the Dharmas we have in our country, as we say, is a pitru Dharma, what you flowe to your father, matru Dharma, what you flowe to your mother, then your desha Dharma, what you flowe to your country, then Vishwa Dharma, what you flowe to the whole universe, pati Dharma, what you flowe to your husband, patni Dharma, what you flowe to your patni, like all that, you see, that relationship in which you flowe to them, what you have to do. But when He says, “Surrender all these Dharmas” He is meaning to say, “You should only know what you flowe to Me” meaning the Divinity.

So now, Śhrī Kṛiṣhṇa is not there. It's Me who is Śhrī Kṛiṣhṇa, so you must know what you flowe to Me. I've only changed My language. He used to take out His finger and say that, “Give up everything and surrender everything to Me." I don't do that way, I give a big lecture and bring you to a point. [Laughs.] So, that should not divert your attention from the right goal that you have to achieve by surrendering.

And it is going to work out very well with you people here, I'm sure. And one day I'll find the whole Germans surrender at the Lotus Feet of the Divine.

***Contents: 1983-09-04*, Public Program, Day 1, Urania, Volksbildungshaus, Vienna, Austria**

I bow to all the seekers of Truth.

One has to know that truth can be only known through your consciousness. We can feel this thing as cold and hot through our central nervous system. We see the colour of this wall also through our nervous system. Whatever we have achieved in our consciousness is in our central nervous system.

So factually we must understand, or rationally, that we cannot know the truth through our mental projections. Like if you sit down here and start imagining that Vienna will be like this and like that, it may not be, it maybe. That means, when there are two possibilities, it is not the truth. Truth is when there are no other possibilities, but one that is what you feel it on your central nervous system. Every honest person must know that if he is trying to evade the truth, he is evading himself, because

truth is reality. It is not imagination or just a mental projection.

Now, let us see how we have our consciousness as a human being. Our consciousness as a human being has reached us to a point where we can see many things that are gross. But whatever are said in the metaphysics or in the scriptures, that there is an All-pervading Power, we cannot feel it. Even as you know, Jung has very clearly described the universal unconscious within us. That one is unconscious, because it is not conscious on our central nervous system.

So we have to understand that if anything has to happen in our search, it has to happen to our consciousness.

So far, whatever we have achieved in our consciousness, has been through evolutionary process, which is a living process of the living force. Like we see the flowers, we see the fruits, we don't know how to create fruits out of flowers. We cannot do living things.

So, the force of life that is manifesting everywhere, we cannot become a part and parcel of that. Apart from that, we cannot feel it. How does a flower become a fruit? We cannot feel the energy that does this job.

So we turned to many other things like religion, like philosophy.

Nowadays, as you must have heard, there are so many cries against the cults and sects. We must know that there must be some sort of a movement in the consciousness of human beings that they are taken up by these false faiths. Because we have a kind of an urge to know the truth, we face the possibilities in all these cults and sects. But first we must know that something has to

happen to our consciousness. That, through living process means spontaneously. That means, through some inward force within us. At these very unknown areas people play their cards very well.

Within us lies, as you see, in the central path of ascent which manifests the parasympathetic nervous system. And on the left hand side lies our subconscious area. And on our right hand side lies our supraconscious area, means our future.

So if our attention moves from left to the right, we might have an experience of the supraconscious. Or it moves towards the left then we'll have of the subconscious. Beyond which lies the area within us, is the collective subconscious which is all that is there within us since our creation. That is our past.

On the right hand side lies the area which is supraconscious and beyond which lies the area called collective supra conscious, means the area where all the ambitious, futuristic people have died.

If you start moving towards the left side, you get the experiences of the left side. It's not difficult to move to the left or to the right, because these two are actually manifesting our sympathetic nervous system, which is in our control in a way. When there is any emergency, the sympathetic comes into play.

For example, if you try very hard to run, then your heart starts pumping blood more, is the activity of the sympathetic. But it comes to control by itself, by itself, through the parasympathetic, the central path.

So now we must realise that whatever is in our control, whatever we do and what we can achieve through that,

is man-made. And thus, whatever we feel through these experiences are also artificial or superficial, because they are unreal. For example, if you try to be very melancholic and sad, or if you try to subjugate yourself with your Guru or somebody like that, make a complete slave of yourself, then you enter into the left side. That is where you get caught up and enslaved. You cannot think for yourself.

The other day I was in France in a place called Mulhouse and I spoke for one hour about the force that gives you your evolution and the fellow who got up, he said, “I belong to a sect” and he had done a lot of good; he was shaking. But he said that “What is the force that does this?" After one hour's lecture, nothing went into his head.

So this is exactly what happens when you get driven by these subconscious forces upon you. Then you start feeling as if you are an animal, or you are some sort of a subconscious personality. Like if you come to Vienna, you start speaking the language of this country.

Then, when you go to the right side your consciousness takes you where you try to be very futuristic.

At that time when you try so much to be futuristic, the people who are very ambitious and futuristic come into your own being.

So, you become overactive in one part of your life.

If you see a gentleman born as a prodigy, he'll always have a mental trouble, but he knows, say for example, he can calculate any mathematical thing up to any point, without understanding it. In both the cases you do not

know why you are doing it, what you are doing, you are not aware.

Some of them start seeing colours or hearing some music in their ear or start seeing some third eye, all these supra conscious experiences.

Some see light, some see auras, all kinds of things you start seeing.

But you have no control over the whole phenomena. On the contrary, you are under the control of the phenomena. And these things are very well known to Indians, how to achieve it.

We have on one side great saints and great incarnations and on the other side people who are anti-God, destructive, Satanic. It's a very good way of making money from people, when you want to entice them and enslave them. That is where so many people are lost today in the wilderness, with diseases and troubles and I'm not surprised that all the governments are now alerted about it. In Australia, the government officials invited Me and asked Me that “Why not the Indian government do something about it?" I said, “Your citizens are lost, your people are lost, it's your headache. How can Indian government take responsibility of anybody, who goes outside the country and loots you?" They never talk against each other, there's a fraternity of devils.

Christ has said, “The Satan doesn't talk against his own people." But as truthful seeker you must know that you have to become your Spirit. Your awareness has to be of a higher dimension. As Jung clearly has said it has to be collectively conscious. That means you must actualise

the experience of collectivity, you must feel the another person within you, it's an actualisation.

And that is what one has to expect, when you are seeking the truth. Of course you cannot pay for it, nor can you work for it, because it is so spontaneous.

Now let us see what happens when you really get the blessings of the Divine. Within us lies the power called the Kuṇḍalinī in the triangular bone. Now there have been lots of books, which when I saw them, even in My childhood I was so shocked how people could write such false books about Kuṇḍalinī. The falsehood is so much that every book has the location of also Kuṇḍalinī in different places. And they have frightened everyone by saying it's a very dangerous thing to get the Kuṇḍalinī awakened.

Now, the Kuṇḍalinī is the Mother principle within you, is the Holy Ghost in you. Now when we started developing in religious ideas, we first talked of the Father and then of the Son. And Holy Ghost has stayed an unconscious thing. Now, as you see today's situation is that a feminist consciousness is coming. But it is very wrongly directed. It is very misdirected.

The woman or the Mother's Principle is the principle of the womb. Is the principle of the Mother Earth who nourishes, who makes us grow, who guides us through her magnetic powers. But if the consciousness is to be arrived and has to be manly, we already have a lot of men. If women are trying to become the men it's a pendulum that is moving from this to that end, that to this end. But the consciousness is of the Mother, who has to come now to manifest. And that consciousness makes

a man compassionate, affectionate, nourishing, soothing. But we do not understand this simple thing, that unless and until this completion takes place in our consciousness, we are not yet absolute.

About one hundred years back, or even later up to fifty years back, you can say, an aggressor was regarded as a big hero. But today a man who does work for compassionate reasons, or who feels one with the whole and tries to nourish them, is regarded as the hero.

So when these two principles work out, then this Kuṇḍalinī rises to completely nourish you in a way that makes you really a complete personality.

I'll try to give a simple analogy to understand. Like in our car we have got an accelerator and a brake.

So, supposing the accelerator is the right side and the brake is the left side.

So, we start using both the forces to learn driving. When we understand the balance of these two, we become the drivers. Then we don't think, at that time we do not plan out, we know automatically how to drive. And that authority working within us makes us a spontaneous driving person. But still the master is sitting at the back watching you driving. When the ascent takes place, then this master becomes one with you. Then you become your own master, you become your own Guru, you don't need any guide anymore. This is what it means when Christ said that, “You are to be born again." In every scripture, in every religion, it is said that you are to be born again. Churches try to balance people or temples try to balance them, so that they can ascend. Without the ascent, there is no meaning to this balancing.

Because none of these try to ascend, all of them are today in a very shaky state. The reason is: they have failed to that achievement of ascent where a human being becomes the Spirit.

The message of Christ's life is His resurrection. Mohammed Sahib has said also that at the time of resurrection your hands will speak. Means at that time when your consciousness will be at a collective level, your hands will show, indicate just like a computer.

In our evolutionary process, we have also evolved many machines and things. They are coming along with our evolution, too. Now the latest one we have parallel to us is the computer. And the computer does what your brain has put into it. And our brain is so limited that it, whatever it has put is also limited.

But we are a computer ourselves. Of such a tremendous nature that thousands and thousands of years one may try, you cannot get near the intelligence of man.

Mostly we do things without thinking about them. For example, I see a flower. I see it, I know it's a flower, I don't think about it, I know it's a flower. Or I have some fragrance. I know it's a fragrance, I don't have to think about it. Because on the central nervous system it works so spontaneously that it need not go into the circle of thinking.

But when I see something, I cannot act upon it without thinking. Now, I look, just seeing it, I am not acting on it. In the evolutionary process when you become the Spirit, whatever you do, it acts. You don't have to think about it, it just acts. You enter into a very subtle energy area, where you can communicate without thinking, without

saying anything. You can, just have to pay attention and it acts. Is the action of fulfilment, of soothing and of nourishing. That is the need of today. Because a tree has grown too big and it has to have its own source to fulfil it. We have made the instrument all right, but it has to be put to the mains to work.

So, now we are at a point where we have to touch the source, so that our consciousness becomes one with the whole, that we start feeling this All-pervading Power of God, the Holy Ghost. Unless and until this happens, you cannot prove the existence of God or existence of any one of these scriptures which are saying that there are the blessings of God available. This over developed civilization has to find out its nourishment. They have to find their Mother.

We are under a shock these days in the modern times, when we feel that “God knows what's going to happen to the world." All the philosophers are printing books after books to shock you, without giving any solution. And you read them and you become more and more melancholic. But actually, the One Who has created this creation is responsible for it. He is anxious that you all should get your reality. He wants you to enter into His Kingdom, to have your right, to enjoy the beauty of reality.

So, it does not matter if we have made some mistake, because of our ignorance. The sun of knowledge is within us and once it is risen you'll be amazed that all those farcical things of which we are afraid, will turn out to be absolutely mythical. Because we become part and parcel of the whole. We are, but we are not aware, so we become aware. As if a drop becomes the ocean and the

powers of ocean start manifesting through that drop. This should happen to everyone who is seeking the truth.

Those who are not seeking will seek later, when they will find the benefits people have received. Now, those who are lost and do not want to come to the right path, you cannot beg of them. There is complete freedom for you to get lost, to go to hell or to heaven. Your freedom is to be really respected so that you get the ultimate freedom.

Today I have just given you the introduction to Sahaja Yoga, but tomorrow and day after I will tell you all the details of how it works out. Like the lights in this room can be lighted with one switch. And also your Realisation may be achieved today. But to explain all the mechanism behind it, the history of electricity will be a headache for you and Me.

So best thing is to get the light of bliss and in that light of bliss, enjoy the deeper side of Sahaja Yoga.

Thank you very much.

I would, of course, like you to ask Me questions, no doubt. But I have to tell you that there is no need to be aggressive with Me. Or shout at Me. If you are identified with any other group or any other thing whatever you think proper, you can go ahead with it, but you should not try to disturb the other people who are seeking the truth. You have to be fair to others and to Me.

Thank you very much.

Please ask Me the questions.

[Aside:] I'm all right. It's very hot.

Question: It is normally said that Yoga is something where the individual has to work very hard collecting

experiences by personal efforts and merits. How can it be that one can get a higher awareness just given in one moment?

Shri Mataji: His question is Sahaj. That is true. But the Patanjali Yoga was written fourteen thousand years back. You have already gained your merits. And I have to just judge them, that's all. And another thing is that there must be something about Me, that I can do it. And thirdly, if I can do it, why not have it? Question: How has one identified this system of inward energy [nervous system] which is represented here?

Shri Mataji: You cannot identify, but you should take it as a hypothesis, like an open-minded scientist.

And that you will identify as soon as you get your Realisation. But you can also, in so many cases, see the pulsation of the Kuṇḍalinī at the base, rising of the Kuṇḍalinī. If you use a stethoscope you can feel the throb going up. You can feel the throbbing on the head here. Then you can feel the Cool Breeze coming out of your head like an air conditioner and from your hands also you start feeling the Cool Breeze.

But first of all you should get it, is the point. In some people the Kuṇḍalinī rises just like a jet, you don't feel anything. Only you start feeling the Cool Breeze over your head and then the Cool Breeze in your hands. It should happen, but one cannot guarantee it. But that should not make you in anyway nervous. You all have got it.

Now, three more questions, then tomorrow.

Question: In your lecture, Mother, you said that in India the false prophets master the art of giving cheap

parapsychological experiences and then for us it's difficult to distinguish in what way the experiences You talk about is deep and in which way the other ones are not.

Shri Mataji: Now you see first of all, superficially also, logically you should understand. God has given us brains, nobody's brainless.

So logically we should understand, anybody who is interested in your money and lives and thrives on your money, is a parasite. Now secondly, that supposing you take LSD you can start seeing sounds and you can hear all kinds of things, you start seeing colours and all that. There are many of these people, it's very common. Even if some people start just jumping on their seats. You see, I have seen people jumping on the seats, suddenly, in My programs.

So I said, “What are you?" They said, “We are Siddhas." Siddhas means realised Souls.

So I said, “How?" So I said, “You are jumping like a frog and what makes you think you are Siddhas?" So they said, “Our Guru, we paid three thousand pounds and he taught us how to jump like a frog." So I said, “Now, does your Guru y? Ask him to go to the leaning tower of Pisa, drop him from there, see if he can fly." Now I'm talking about the living process. And as I said, human beings cannot do living process.

So if you can jump, if you can take out your clothes, if you can shout, if you can make all kinds of funny actions and things like that, any human being can do.

Somebody says that he can hear some sounds in his head.

If, supposing, you take ten antibiotics without B complex, you get it. When your nerves get dried up you can hear all kinds of things in your ear, in your head. Even you can have a thumping headache. And when these people suffer, then they say that it is your sin for which you have to pay, you don't have the merits, they don't take any responsibility.

So you come out with a headache, or with epilepsy or some sort of a disease, without any money, without any house.

It is as a by-product of Kuṇḍalinī awakening, cancer can be cured.

So many diseases are cured by Sahaja Yoga. Our President Sanjiva Reddy was cured of his cancer. He's in Sahaja Yoga, you can write to him and find out. Then many people who were mad, who were schizophrenic, who were disturbed, got all right. They are so many; they gave up all their bad habits. I don't tell you anything, but as soon as you become the Spirit, it automatically happens, I don't have to tell you anything, because you become your Self, the glory.

So only to hop and to do all these things which you can do, you don't need a Guru for that. But you cannot get Cool Breeze out of your head, can you manage? So, whatever you cannot do is done by God's power, by Divine power.

Question: Do You think You are more than Jesus, more powerful or something like this?

Shri Mataji: What do you think? Don't create problems. There's no difference between Him and Me.

There's nothing like that, there's no competition. There is no competition. This question is relevant also, because at the time of Christ there were no Realisation, all right. It's a relevant question. That was the time He had to establish the great truth that the Divine life, the eternal life, does not perish, through His resurrection. That was His job.

So, as I said, first the Father, then the Son and now the Mother. There is no feminist movement in the heaven. Everyone is in complete concord.

Very relevant otherwise, but he didn't follow what he really meant. Thank you.

Question: Where is actually the seat of the Spirit?

Shri Mataji: The seat of the Spirit is actually on top of your head here. But the reflection of that, what is the Spirit in a human being, you can say, is in the heart.

Question: Every ten seconds one child is dying of hunger. Whether we are responsible for this?

Shri Mataji: Human beings are, not God. It is human beings. Now I'll tell you what is the solution.

Only by worrying about it or talking about it you don't solve. The thing is, when you people get these cool vibrations in the hand and if you give back to the Mother Earth, now you can give back. We have experimented that the food grows ten times more, without putting any horrible manure in it. Cows if they take vibrated water start giving such a lot of milk to the children. Moreover the health improves so much that you don't need any doctor to pay bills to the doctor. The greed with which we are sucking out our Motherland also vanishes. We

become very satisfied. Then the Mother Earth herself comes up in new forms, to help the human kind. The whole atmosphere changes, all the elements help you and you are blessed by God.

All right, one more. After all, I am the Mother, I said.

Question: What is the reason why we forgot this primordial force?

Shri Mataji: Very good question. Firstly, we should ask human beings about it. But the first one was at the time of Christ. In India they have not. At the time of Christ, His Mother was the Primordial Force. At that time He had to play this tremendous role of resurrection. And His Mother was the Holy Ghost. And He has got eleven powers of destruction. If He had directed His attention to the Mother, they would have done something insulting to Her. And then destruction would have been very premature.

So He tried to keep it in a very camouflaged way.

Still in the books of Essenes they said that the Holy Ghost was the Mother. Martin Luther, who was a realised Soul himself, had to act according to the times. That he thought that if he talked of the Mother at that time, the Muslims, who are against such a preposition, will go away from Christianity and more people will become Christians, because that was a time of men. That means that time there was no feminist movement. It was only the men who mattered.

So he played it down, just to suit the time.

When a tree has to grow, it has to see what kind of atmosphere, what kind of soil it has to face and

accordingly it imbeds itself. But we can prove it now. This is the only time really we can prove it. They didn't have the power to prove it, so they had to take little adjustment. As it is, you know, people tortured all the saints and philosophers. It was not possible to have a lecture like this without being beaten up.

Now, there is a lady... you must ask.

Now, how long will it go on? People are getting exhausted, so let us have the experience.

[A lady insists on asking her question.] All right. Don't get angry, what do you want? Question: The *[UNCLEAR* apparitions/appearance] of the Virgin Mary. Today one hears a lot about the Virgin Mary which seems to prove, as You say, that the feminine principle will be more expressed now.

Shri Mataji: I understand. Thank you. Where is it now? What's asked? So let us have it now. All right? There is nothing to be afraid of, nothing to worry. It's your own, which you should have. I don't want anything from you, nor can you give Me anything. You have to enjoy yourself. Please close your eyes, the happening is within yourself.

So, please keep your eyes shut, because the Kuṇḍalinī doesn't rise if your eyes are not shut. Also take out your spectacles will be better idea, good for the eyesight. Anything if there is tight on your waist. Be comfortable and sit in a straight way, not pushing your head backward or forward, but no strain.

Now, just close your eyes.

Your left hand, as I told you, is the power of your desire, so please keep it on your lap comfortably with your stretched fingers towards Me.

And the right hand is the power of action. Now, only thing you have to move the right hand and keep the left hand steady. And I will tell you how to do it.

Now, put the right hand on your heart and sincerely ask a question now, addressing Me as either `Mother' or `Shri Mataji', if you can say: `Am I the Spirit?' This is a fundamental question and you are the Spirit.

So, ask a question as you would ask in a computer, that `Mother, am I the Spirit?' Now, put this right hand lower on your stomach on the left hand side, where there is the principle of your mastery, of your Guru. Press it. On the left hand side. Press it hard a little. And now ask a question ten times: `Mother, am I my own Guru?' Because you are the Spirit now and Spirit is the Guru.

So ask a question: `Mother, am I my own Guru?' Without feeling guilty, with full confidence. Not to feel guilty at all at this moment, please.

Now, please, ask this question ten times: `Mother, am I my own master?' Now, again raise your hand, on the left hand side on the heart. Is a very good thing, because heart has to be first relaxed. Now, you can assert by saying: `Mother, I am the Spirit' twelve times, because this center has got twelve petals.

Don't feel guilty, please, don't feel guilty, it's very common practice. I'm talking of the Force which is the Ocean of Love, Ocean of Compassion and Ocean of Forgiveness. And what can you have a guilt for? How much guilt can you have? So, please, don't feel any guilt.

Raise your right hand onto the left hand side of your neck, at the base, from the front. No, the right hand, I'm sorry. Left hand you put it towards Me. And right hand to be taken on the left hand side of the neck, at the base. This is the center, at which, when you feel guilty there is a block. Hold it tight.

And say sixteen times: `Mother, I am not guilty.' [Aside:] Such guilt they have.

Now, put this right hand on top of your forehead across. At this stage you have to forgive everyone.

This is the greatest weapon we have.

Just say: `Mother, I forgive everyone.' Sincere.

Believe Me, it is a myth not to forgive. When you don't forgive others, you are playing into the hands of others and torturing yourself.

Now, put your hand on top of your head and also press it a little bit with your palm and move it in clockwise manner.

At this point I cannot cross your freedom. You have to ask for your Realisation.

So, please say: `Mother, I want my Realisation, please give me Realisation.' Seven times.

[Shri Mataji blows into the microphone.] Now, you can raise your hand and see if there is a Cool Breeze coming or you may use another hand.

Raise it higher, more, more, little higher. Also you can change hands and see, if you don't feel in this hand then in the other hand. You go on changing.

Now, those who are feeling it in the head should try to feel it in their hands by putting both their hands towards

Me. Even if it has started one has to know, it's just the sprouting and it has to be established and these three days I'll try to establish it.

Now, please open your eyes and watch Me without thinking. I'll also tell you how to raise your Kuṇḍalinī.

So, when you go home tonight you can try to raise it thrice and then sleep off without talking too much. And please, watch Me without thinking.

Now, this left hand you have to put it in front of the Kuṇḍalinī while you are sitting down. Put both the legs straight on the ground. And now start moving your right hand from upward, forward, downward, upward. And take it on top of your head and give it a twist and tie up. We have to do it three times.

Again, please put the hand, left hand, try to raise it. Tie it up and give it a knot. Let's do once more, three knots we'll have to put: one, two, three.

Now, see in the hands. Now, believe it if you are feeling it.

You can put your hands and ask a question: `Is this the power of the All-pervading Holy Ghost?' Put your hands up. Ask three times.

So, for the first time you have felt the All-pervading Power. Now, just see.

Enjoy yourself! Before leaving the hall you give yourself a protection. With your own hands. Put the left hand towards Me and one, two, three, four, five, six, seven.

Now, see again, the vibrations will improve.

How many of you have felt the Cool Breeze? Raise your hands. On the head or in the hands, both the hands, both the hands.

It's great, so many of you have.

It's like some fruits are formed from the flower and then some more and then some more. If it has happened not today, it will happen tomorrow, but one should not get desperate. Those who have got it, have got it. It is beyond thinking. And don't start thinking about it, otherwise you will always lose the vibrations. You'll feel very relaxed and tonight you'll sleep very well. I hope to see you tomorrow again, with all your other friends. Telephone to them and tell them. That's the best way.

Sahaja Yogi: Mother, Can we distribute the picture?

Shri Mataji: Tomorrow. Also [sell the] book tomorrow, because we start tomorrow.

Thank you very much.

***Contents: 1983-09-05*, Public Program, Day 2, Urania, Volksbildungshaus, Vienna, Austria**

To all the seekers of reality, I bow.

Yesterday I talked to you about the development of consciousness within us and the transformation we have to accept as a result of this primal force within us. We are living in a world which is full of confusion.

We see no solution to our problems. Today only when I went to the radio, he asked Me a question: “What is the solution for the poverty of this world?" Then for the political crisis. There are so many problems, that it is better to talk about the solution.

By changing your political systems, economic systems, social systems, you have achieved nothing. From going from one extreme to another extreme you have achieved nothing.

Some people are poor in money, some are in Spirit. The countries which we, like India, we can say, is a very poor country but people are happier, much more generous and much more hospitable. And very much more secured. While the people in the West, where they are supposed to be developed, the problems are much more acute because you are sensitive to them. And they are of a very different nature.

So what is the basic reason for the problems to come up? As I told you, the masculine growth of our consciousness has taken us to analysis of everything: to the differentiation of different countries and different races and different communities and different castes.

But in the eye of the Divine all are human beings. Like leaves on one tree. They are different in sizes, in colour and tunes, but they are fed by the same sap of life. But like a river, which has many branches, it can dry out and all the branches can become secluded from others. Or, if the people pluck out some flowers as their own from the living tree, can dry out those flowers, it will look ugly and you might be surprised at their ugliness.

The problem which show as if the whole thing is dried out and separated, disintegrated. All this development has led to our internal disintegration also. For example, we want to do something from our mind, but the heart doesn't accept. If the heart wants to do something, the body doesn't do it. Like some small thing like this: I want

to pick up this piece of metal here. Like I think about the poverty.

So I just go on thinking about it, that I have to pick up that. But my hand doesn't move that side. And my heart doesn't move that side.

So I am just thinking that still it is there and I have to remove it.

All our problems are on a mental level and that's why the solution is not there. We have to now seek a solution that we actualise the real benefit of the happening of actualisation. Now, as we are outside changing so much, we have to change within. Like many young people who came to see Me were hippies and I said, “Why do you take a hippie's dress?" So they said, of course, very logically, that “We are fed up of all these suits and rules and all this nonsense that was on our head and we want to give it up completely.

This military thing we want to give up and we want to become natural people. And we want to become a primitive type of people." I said, “You cannot. Because your brain is modern, your whole attitude is modern. You are over-developed.

Like a fully-baked egg you are. No, you cannot become like a, like a newly born egg, you cannot.

You may believe that you can by changing outside you cannot." Of course, what they are trying to do is the right thing, is to become a simple person, who doesn't think. But they are seeds. The solution that has come to them from unconscious is correct, but is misled.

So we have to think how we have to bring forth the inner change. Now, I must confess that the developed countries I know of, is ruled by very dishonest people. The whole ruling class is so dishonest everywhere, that you cannot change a lot of those countries because they are so dishonest.

Whatever age you may send, whatever one may try to solve the problem, simple problem of poverty, you cannot.

So what do you do? For the developing countries, what can we do, is to just send some aid, some material, something, but it doesn't reach the point.

So these people have to be honest. How can they be honest? By giving them lectures, nothing works out. If they see a saint, they'll touch My feet also, to humble down themselves, but they are thieves.

So, how to change the heart of a thief? Of course, some of them have also come here, exported and imported as Gurus who are also looting you.

Now, we have other problem in the West. Is the family relationships, is the children, is the whole society is in a turmoil.

So in the East, if you have the problems of economics, you have here the problem of society. No use telling people to have good married lives, to be sincere, it's all useless talking to them. They cannot be controlled, because they don't like any control and they are so tempted, they are so weak, weak minded. They know they are doing wrong, but still they cannot control themselves. I met one gentleman, he came with his wife and he said, “Oh, I love my wife very much, I like her, but

I can't control, I have to stay with other woman." And he says that “I feel very guilty about it. But I cannot control myself." Another fellow comes to Me, says, “I'm alcoholic, I'm badly off, I know I should control, but I cannot control." There is no control in themselves, that means they have become slaves to everything. That's why nobody seems to be happy.

So we have problems of two types. We can call it in Sahaja Yoga language, the first one is the sin against the Father; the other is sin against the Mother.

Now, what is to be done, to transform human beings? We can talk about, this is the problem and that is the problem. Like somebody showed a film about Indian widows suffering in India. And in England, I was surprised that every week two children are killed by parents. See the cruelty.

So, we have a very big problem of human beings themselves.

So, there has to be transformation, en masse transformation of human beings. Luckily this is the time of transformation, of resurrection.

There are so many seekers who are born on this earth who are thinking of this transformation. But they get so enticed by the superficial things that people are doing, that they just get lost, into completely, into complete redundancy. Those who want to transform others become transformed into epileptic patients, cancer patients, all kinds of patients, or recluses or abnormal people.

So if you realise, a transformation has to take within us, we have to know that this whole world is created by God

Almighty, or a greater force than human beings. And when you are made a human being, there must be some element within you to transform you as well. Otherwise there is no purpose of making this beautiful instrument of human beings.

So you turn to religion. There you are supposed to have a blind faith. But when you people, who follow religion go to churches and temples, in India those who go to temples are equally dishonest, it makes no difference.

Those who go to churches are equally hot tempered. Very rigid. Nobody has become more righteous, more honourable, more noble or more religious.

So you say that “Discard all this again.

So now, don't believe in God. Nothing higher than man. Man is the highest." But even with that faith, can you save the world? Even with that faith, can you transform yourself? So, your discarding is as good as your accepting.

You have done no good by doing all these trips. It has been a wasteful, joyless journey. But there is another journey you have to now do internally.

[Aside:] Did you tell them about Chakras? You told them about Chakras? Yes.

As she has already told you that within us are placed these centers. And this force of Kuṇḍalinī which resides in the triangular bone has to be awakened.

Fortunately or unfortunately I have discovered a method by en masse this process can take place. Then people ask Me, “Why You?" So I say, “Why not you, good idea, come along now. I would love to retire. Can you do it? If

you can do it, nothing like it, I am already sixty years of age, I would like to retire now." But I must say, that there is no need to bring forth your ego. This force is to enrich you. This force is to make you grow into your maturity. This is to transform you into a new personality, which is one with the Absolute. No more to live with confusions and relative values. Once this happens to you, you will enter into that realm where you don't have to worry about confusions of the world, the whole thing looks like a joke, a drama.

And you start seeing those people so seriously doing stupid things. The more stupid they are, the more serious they are. And they think they are the wisest people going round. You have to get out of the lunatic asylum, to understand the condition of lunatics.

So, the world that looks so mad, is superficially mad and can be completely made a very sane place today. And a very beautiful realm of bliss we can enjoy. It is within you, it is within you. As the hell resides within you, the heaven resides within you. It is your own power which has to manifest.

Now today, as I was requested, I have to tell you about how Sahaja Yoga helps to correct the psychological and physical problems.

Now to understand the problem first, then the solution: the physical problem according to Sahaja Yoga is on the right hand side. And also not the mental as you call it, but the problems of the intelligence. But the problems of emotions are caused by the left side. Now, what you have to do is to come in the center.

Now the physical problems are caused by extreme movement of your attention, either to the left or to the right. For example, a person who is very right-sided, means futuristic. He goes on thinking of the future, which doesn't exist, is a myth. And he plans about the future. That is one of the problem that people have planned of the future, the future never existed and all plans are never real.

So, when you plan for the future, you forget the past, so much so that your memory becomes very weak. I know of a gentleman who even forgot his name and his wife's name also. This is the minimum. But when you become very right-sided, the first trouble starts coming to you is of the liver. Because the second center that you call as the Swādhiṣhṭhāna center has to look after the transformation of your fat cells into proper cells, brain cells for the brain, from the stomach to the brain.

Now when you think, think like mad, this center has to work very hard to do the supply. And when he does this work, he does that work, it neglects the other organs it has to attend too. And the other things, it has to attend to are the liver and the pancreas, the spleen, the kidneys and some part of uterus in women.

So, as a result of that, you are vulnerable to get any one of the organs out of order.

So, doctors don't know much about liver, I must say. Because I have done medicine, I know that.

Alcohol comes to you because you want to compensate for your over-activity. But actually as a result of that, you get even worse liver, so it's a vicious circle. You get a bad liver, so you take alcohol, you spoil it more, then you get

bad liver again. Then you take more alcohol, till you get cirrhosis of liver or something horrid.

In a subtler way the liver looks after your attention. A person who has a bad liver always is a very hot tempered man. He may control his liver problem in the office, before the bosses and things like that, but his wife will have a bad time. And if wife is the boss, then the boss will have a bad time.

So, this liver problem is the first blessing of our imbalanced thinking. If you can drink without thinking, then it won't be so bad. But it's not possible because with drinking you must have thinking of something, very imaginary, romantic stuff. And that means additional problems.

Now, it goes against our awareness, because it goes against our attention.

So the whole system goes into a vicious circle of having an attention, which is very wobbly. I don't find so much that in Vienna, but if you go to London, I used to first came, I thought they are all barking at each other. And then in France is even worse, they are roaring. You talk to anyone, they just jump on you, don't know what has happened.

They are so developed, but no sophistication, no mannerism how to talk to anyone you meet. But as soon as they see a person which is having a very special ring or a very beautiful necklace, they are very kind. It's very surprising that something like that should impress people so much that they are kind. I am not going to give them, nobody is going to give them, but if they see something like that then they are very kind.

Now then the people who have a bad pancreas suffer from diabetes. Diabetes is not a disease of simple people, like farmers. They take even one kilo of sugar every day, they never get diabetes. It's only the thinking people on their chairs, get it. Then the diabetes acts on the back side of your head because here is the same Swādhiṣhṭhāna acting. The seat of the Swādhiṣhṭhāna is here, so you get eye sight affected.

Many people become even blind. If the parents are like that, then the children get it from their very birth.

So, you can imagine how dangerous it is to have this wasteful thinking on the future.

Now, the worst is the spleen. Now, spleen is the speedometer within us. In the West when people speak, they speak actually telescopically. They are so fast, you don't know where to catch which word.

And they run so fast that if they have to catch the train, they'll catch it at the next station. They cannot control their speed, they are very speedy people. Now, this poor speedometer has to keep to your speed.

Now what happens that you are getting up in the morning, first of all, an emergency is created as soon as you see the newspaper. Newspapers believe in giving only disasters. They would never write about something nice, because if you tell them to write about Sahaja Yoga, they are not interested. They think they will not earn any money if they give up their disasters, their disaster descriptions.

So early in the morning you see the newspaper, your stomach goes wobbly. And then the emergency starts. The speedometer starts working. Then you look at the

watch. Rush up to have your morning ablutions and then you are in the car. Thinking about the boss, who is going to scold you for getting late. There's a jam on the road and you have not taken any breakfast. The wife has given you breakfast to chew on the road. Poor this spleen has to adjust, all the time you have an emergency, see, like that.

It starts producing more and more blood cells to cope with the emergency.

So it becomes vulnerable to a very serious disease called leukemia. And the parents, the parents of this nature also create children suffering from leukemia. Kidneys also get neglected and start acting in a very funny manner, so that the blood pressure goes up.

So these are some of the troubles of the modern man.

Now, the problems of the left-sided person. Now, the left-sided person is the person who is lethargic.

With alcohol and drugs he is turning to the left side also. And the ones who go on all the time weeping and crying and complaining, they also go to the left side. And to top, all these Gurus also do the same job.

Any kind of, any kind of any enticement or hypnosis or domination takes you to the left side. People going to spiritualists, charismatic or going to women who are going into trances, the cards they use or they have, what you call, a session of planchette [a board on wheels with pencil attached that writes messages under supposed spirit guidance]; all they go to the left side and once they go to the left side they are placed very dangerously, vulnerable to very, very serious diseases.

The other day, I saw in London a very good film, made by some specialist on cancer. And they said that the cancer is caused by triggering of the system by proteins, which they call as 52, proteins 58, if the system is vulnerable.

Now here, I would say, the left and the right side, the sympathetic nervous system and center is the parasympathetic. Now what happens that when you start exhausting too much any one of your centers through your sympathetic activity, then these centers start moving like this and the control of the whole is lost.

This kind of emergency is the vulnerable position. Now, when you are in that state, the cancer is triggered by those proteins, which they call as 52 and 58. Because doctors just know how to give names like protein 52, protein 58, autonomous, but if you ask them, “Who is auto?" they don't know.

[Aside:] You shouldn't tape Me, sir, without permission, you are not allowed to tape Me without permission. All right, thank you; you can take a tape from them. All right.

The protein 52 and protein 58, these two are, they are describing, reside in that area, which is being built within us since our creation. Now what is that area? That is the collective subconscious. That is the collective subconscious on the left hand side. I've seen so many cancer patients, myelitis patients, so many types of these incurable, even the AIDS. All of them are attacked on the left. And these proteins are nothing, but are dead souls, which are possessing you. No wonder those people who go to fake Gurus and sects and cults end up with

such diseases. It could be caused by permutations and combinations of these various centers.

So now, what is the solution? First of all we must keep a balance, lead a temperate life. But now you cannot. And many people are like this, vulnerable to this attack.

So, what do we do? We raise the Kuṇḍalinī and give some vibrations to that center. And now the Kuṇḍalinī starts nourishing this center. When She nourishes that center, then what happens is that the cells which are acting on their own so far in cancer and all these things come in control of the center. And now, then you find the person gets cured of cancer. In the same way every disease can be cured. But of course, supposing you have cut your leg and put an iron bar in there, then you cannot make that iron bar into a living bone. But you have to religiously follow the instructions of Sahaja Yoga, which is a doctor, till you get completely cured. And as you get cured, you achieve the mastery and then you start curing others. Because you have suffered with that disease, you develop a more compassionate nature and greater patience.

Now, the physical problems that we have are many, like we have the problem, many of the problems of the ladies these days is of breast cancer. This arises from the center, you see, of the heart in the center.

In front of this center is the sternum bone. The Mother of the Universe resides in this center.

Until the age of twelve years, She creates the antibodies in the sternum. They are like soldiers. And these soldiers can disperse into the whole body and wait for a message from the sternum bone.

So when an attack comes on the body, these fight and call all the others to attend to that attack and to repel. Now if somebody's motherhood is not all right, in the sense that she has had a bad mother or she herself is a bad mother, or her husband doesn't respect her motherhood, he is a flirt, he is going about with other women, then she develops a defect in this center, because he fills her with the sense of insecurity. And as a result of that she develops this disease.

Whatever women may try to become men, they are women.

So one must accept naturally whatever we are and in no way women are less than men. They are like this Mother Earth, who can bear everything because She's so powerful. She nourishes everyone. Everything depends on Her.

So if women understand that their job is not to become men, but to be mature women who will be responsible for the nourishment of the whole family.

It is a rebellion if you fight, but I am talking about revolution. And in revolution the nourishing quality is going to help. And the soothing and constructive growing qualities are going to help men as well as women.

Now, so this, on the right hand side of the heart, you have got another center as you call the right Heart, is the father's center and the left is actually your mother's center. If the right side is affected, your father's side, means your father has been bad to you, you have lost your father early or you are a bad father or your son is a bad son, anything like that, the fatherhood, then you'll develop this problem. Even women who have lost their

father or they have had no fatherhood, can also have this problem. As a result of that you develop asthma. Asthma is hundred percent curable through Sahaja Yoga.

The left side heart, those people who catch, suffer from inferiority complexes because of their mother.

They are frightened people. They are not the people who come forward, they recede back in fear. They become recluses, they become a sort of people who cannot communicate with others.

Now the center here, which is a very important center, has two types of problems again. In Sahaja Yoga we also have a hot and a cold liver. The person who is overactive has a hot liver and the one who is inactive has a cold liver and the cold liver people suffer from allergies. Also from arthritis and all these troubles.

Now this [Viśhuddhi Chakra] is very important because it has sixteen sub-plexuses, this looks after the cervical plexus. This looks after the eye, the eyeballs and the face and the neck and the tongue, ears, nose.

So, the troubles that are caused by right side problems are the people who are very aggressively talking.

They shout at the top of their voices on people. And as a result might break one cord. They may also have very bad throats and all kinds of problems with it.

So to compensate for that ego, they take to smoking sometimes and the smoking gives you the left side problem. With this is combined the heart trouble also. The left-sided people have a lethargic heart, plus if they have the left Viśhuddhi catching this side, then they develop anginas.

And the right-sided people who are overactive, all the time thinking of the future and are extroverts who do not think of their Spirit, get a heart attack. All of them have only one solution for us: to awaken your Kuṇḍalinī and to make you what you are: the master of yourself and the source of all the energies.

There are others also, like from the Sahasrāra so many diseases, but I think for the time being I've quite given a little idea as to how physically we try to help people. Now those people who go too much to the left are also given the same treatment. Only the right-sided people have to put the right hand and forgive everyone. And the left hand outside like this or like this. And the left-sided people have to put the left hand and the right hand like this. And to say, `I am.' One says to God, `Please, forgive me,' or `I forgive everyone,' and the other one says, `I am,' because he is the one who is dominated. On your vibrations you will see. The ones who are right-sided will not get vibrations on the right, those who are left-sided will not get vibrations on the left. There is another category who do not get on both the hands. They have both the systems out of gear. But it can be worked out by soothing the sympathetic nervous completely both like this.

So when you start from the source, the whole thing is simple. But when you go further with it, then it becomes a *[UNCLEAR* permutations/combinations] of simple things. But for instance, if there is something wrong with one leaf, you cannot cure it from outside, you have to go to the roots of that tree.

And the sap in the tree can only cure the whole tree.

So we have to go to the source, to the roots of our being.

So this is the tree of fire, described in the Bible.

Now, we have to see yesterday many people touched their Realisation; today I'll try to establish them and those who did not get Realisation, I'll try to give it. As a result of that, I can assure you one thing: that it is difficult to get a disease. Also if there is a disease as I told you, if you practice it, as a authentic medicine, the Sahaja Yoga, for some time you can be completely cured.

But people just don't do it, I've seen them and they are back again with another trouble.

So please, understand that you are created with very great love, affection and delicacy. And you must respect your being because this is the being which is the epitome of evolution. You are going to be elevated into the Kingdom of God, not the mosquitoes and bugs and chickens.

So have that respect for yourself and understanding. And work it out. It is all within you.

May God bless you! If you have any questions you may ask Me. But last time I found those who've asked the questions were the first to leave.

So it is not proper to disturb others with your questions and then just to leave, I mean, it's a very nuisance right.

So those who want to ask questions should ask, no doubt, but not just to create a problem or create some sort of a hero image of himself.

Like in Geneva we had one gentleman who came and troubled Me so much and ultimately we found him like a hawker in a train. And some of the people were so

sympathetic with him that “Oh, after all, he wants to say something” and this and that. I am here only for tomorrow, so make use of it as much as you can, I'm available for you. But all the noisy people are available all the time.

So, may God bless you! Question: Can we also help a mad man?

Shri Mataji: Of course. Everybody is partly mad. Everybody. Mad men can be helped, yes, very much, very much, yes.

Question: What is the meaning of this flower on top of the head?

Shri Mataji: It's symbolic. To show that there are ten thousand petals in the brain which get enlightened and you start seeing them like flames of very silent colours. But actually you enter through all these, so you don't see anything, actually you get out without seeing anything, you go to the, from the innermost core.

Question: He wonders also what is the meaning of this flame where the heart is?

Shri Mataji: It's there just to show a heart, you see, at different fashion, that's all. This is an artist idea.

Question: This lady says: Since the meditation from yesterday I have a very, very, very big heat on top of my head. Is this going to go or is it bad?

Shri Mataji: It's all coming from inside, here. It will be cooling down, I'll cool it down Myself. But all the heat is coming from your body now, let it go out, it's a chimney now.

She has got? After all you've collected it all your life. But, I'll help you today only, I'll help you today, specially, all right? Anybody like that with too much heat coming out? It's easy, easy to solve the problem. But better allow it to go out.

Question: It is said that the Kuṇḍalinī is in the sacrum bone. What does this really mean, if this person has an accident and this bone is broken or something like that what happens to the Kuṇḍalinī then?

Shri Mataji: You see, normally it doesn't break easily, the sacrum bone, but if it is broken also, Kuṇḍalinī is such a power that it doesn't get destroyed, normally. I have not seen one case even in accidents has been destroyed.

So far, I mean. And we should not worry about somebody who is an exceptional, far fetched thing, so far I have not seen even one. It's a Divine force so it cannot be destroyed.

But one thing I have seen, though, that Kuṇḍalinī of many people is very wounded. Not by any accidents, but by the wrong things they have done to themselves and to others. I have seen it sometimes helplessly limping, just cannot rise and just, poor thing, tries to come up. It's like a wounded animal, something like that or a reptile. But still you can raise it and adjust it.

Question: How can we awaken the Kuṇḍalinī of small children, before they are out of balance?

Shri Mataji: Oh, most of them these days are born realised. And they have a knowledge of Kuṇḍalinī also. But children are the best to awaken Kuṇḍalinī, they are the ideal. You ask them when they come here, how quietly they listen and they just get it in a second. I

mean, you have to become like children, like that. Now you have asked your question, next one please, it's all right.

Question: Mother, he says as it is important that the Kuṇḍalinī stays in the seventh Chakra, but the question is how to maintain it over there, because if it goes up then it falls down, it doesn't fulfil the purpose.

Shri Mataji: You are correct, sir, absolutely. You have to keep it there. And you have to, that's why I say, you have to attend some more programs so that they tell you how to maintain it. Then you also become an expert and then you can help others. You can learn it very fast, because it is in your hand how to do it but only the technique is the Pure Knowledge, you have to learn.

But some people, when they get Realisation, they'll just get it, they don't lose it at all, some people, there are many like that. But still you must know, it's the knowledge of the Divine, you have to know it.

It is all free available and intelligible. And there is no mystery about it. But if you are, if you have, you have to give some time to it. That's all, little bit, not much. You have to, you don't have to give up any life, nothing, you have to be a normal person. I'm Myself a grandmother.

Now, how many? Three, now this lady here.

Question: How long should I touch my hand to help Kuṇḍalinī, but that's not the way it happens.

Shri Mataji: No, no, no. You see, as soon as You get your Realisation, gradually you start feeling the Cool Breezes in your hand. Then you know what is happening to you. And then you have to learn where is the problem, by

decoding it. Then you should know how to remove the problem. And then you have to raise the Kuṇḍalinī, which they will teach you, it's hardly anything. Children can do it, little.

Now you come along for the program again. All right, tomorrow also I am here, all right? Now because of, you see, there are people anxious for it, all right? Tomorrow, all right, all right.

Now, you are very a great seeker, I must say. But take, have patience. There is no physical tension in Sahaja Yoga, nothing. It's spontaneous. It's done by God, we really don't do much.

All right? Take it easy. Relax. Come and sit this side. Come along here. Now, who else? Yes, there. Yes, please.

Question: What is the difference between Sahaja Yoga and Rāja Yoga?

Shri Mataji: All right. Sahaja Yoga is a method which is a living method of the Kuṇḍalinī awakening. And a Rāja Yoga is what happens within.

[Aside:] You just tell him.

In the sense, that when you digest your food, the parasympathetic movements that take place, in the same way, when the Kuṇḍalinī rises, all the Chakras go into expansion and augmentation and they try to support the Kuṇḍalinī to stay there. This is the internal happening of Rāja Yoga. It is, Rāja Yoga means the action that takes place in the body. But the confusion is like this: that if I say, if the car starts then the wheel starts moving automatically, isn't it? But the Rāja Yogis, what they do, they start moving the wheels to start the car, in Rāja

Yoga. And they call it Kriya Yoga. Even they used to cut the tongue, imagine and put it back into the throat for an action that takes place automatically, called Kecharī.

But when the Kuṇḍalinī rises, automatically the tongue is little bit pulled inside, the pupils are dilated automatically, but you don't feel anything. To My amazement in California I've seen some people with wagging tongues, you know they were doing Kriya Yoga with shaven heads and wearing robes like that and tongues wagging down.

Question: Is the Kuṇḍalinī a spiritual or a material power?

Shri Mataji: It is spiritual, but in the sense, the Spirit is in the heart. Now, the Kuṇḍalinī is the pure desire. The pure desire to become one with the Divine.

So it is a pure desire power within us.

So by that we become connected with the Spirit. Like a cord here, will you call it an electrical thing? It is in a way, because electricity flows through it. Because it connects to the electricity. All right? So also it gives you material benefits. Because it rises through different layers. You can say the wick in the candle is material, but when it is enlightened, it is light. And even the wax which is material, burns as light.

All right? One more question.

Question: How do you with the awakening of Kuṇḍalinī, how do you realise that this Power is from God? In what way do you see God?

Shri Mataji: It's rather futuristic. All right. You see, what happened that Buddha said, “First of all get your Realisation, don't talk of God." Because without getting

Realisation you cannot understand God, whatever you understand is blind faith, whatever I say to you is a blind thing.

So much so that people say that He even He was an atheist. But you get your Self-realisation, moreover we have got books about Sahaja Yoga in which we have clearly explained and which can be verified with your vibrations. But these books we don't give to people who have not achieved a certain height of understanding which we call as doubtless awareness, where they are in Nirvikalpa, because unless and until that maturity comes in, this kind of knowledge will give you another ego trip.

So it is better first we become the Spirit and then we will know all about the God Almighty of Whom is the reflection, the Spirit.

Now, we are entering into a new realm and a new realm is to be, first of all, settled down. Like if you are entering into this room, then you know this room very well, then you know the whole building. You have to have that gravity, gradually developing in you.

This time won't be very fruitful, I think.

Now, roses must be understood in the right perspective. That you all are seeking your Spirit and there is this force within you.

Now, the first thing is to raise the Kuṇḍalinī.

Sometimes it feels like a mountain, but if it is raised then it is to be established. What to bring it in the balance. Then you start understanding the whole knowledge much better. And also you can find out that whatever is said is proved.

Gregoire speaks about the proceedings and asks people who don't want to have the experience to leave the hall. He also mentions that the room is so warm and maybe they won't feel the cool.

Shri Mataji: All right, they will.

They are all air-conditioned. It's the heat coming out of you.

All right. For all of them, I would say, they should just put the right hand towards Me and the left hand up for ventilation. Only the ones that are feeling heat now. Those who are feeling heat, those who are not should not.

Now, be comfortable.

Now, close your eyes. I hope you have taken out your shoes. It's nice this hall is inside the Mother Earth.

Now, please close your eyes. You may take out your spectacles because the eyesight is helped by this.

Be just comfortable.

All right.

Now, put your right hand towards Me, if you are feeling the heat and left hand like this or on the sides.

Just close your eyes.

Gradually you will start feeling cool in the right hand.

Put your left hand on your head and see if there is a Cool Breeze coming, or if the heat is coming. A little higher if you take it you will feel cool, little nearer it will be hot.

Little higher would be better.

Om sākṣhāt Shivoham [several times].

Is there Cool Breeze coming? If so put your hands down. Has it cooled down? Better. All right.

Better. Now, put both hands towards Me and close your eyes, close your eyes, please. Put your hands towards Me now. Now, the left hand is the power of desire. Is the power of desire. The right hand is the action, right hand is the action. Put it like this, the hand should be like this towards Me. And close your eyes, please.

Those, who don't want to do it should go away. Don't disturb.

Now, put the right hand, don't open your eyes, please. Put the right hand on your heart. Now, on your heart, exactly on your heart. And now say, `Mother, I am the Spirit.' Say it thrice.

Now, put your right hand on your stomach, on the left hand side to establish your Guru principle, your mastery.

Say ten times, please that `Mother, I am my own master, I am my own Guru.' Remember, you are not feeling guilty at all, when you say that, not at all. But say that you are, after all, the Spirit.

So, just you have to assert.

Now, raise the same hand on the heart. On the heart and say it again with full, profound faith in yourself that `Mother, I am the Spirit.' Anybody who is not doing it should please go, because it disturbs. Anyone, who is not doing this.

Please. They should have left earlier.

Now, better? Haṁsa. Please say it twelve times, please. Now, better. Now, ask them to put the right hands across

on the forehead. And now say that `Mother, I forgive everyone.' Please say it with all sincerity.

Mahat'ahaṁkāra Sākshāt [nine times]. Ha! Better.

Now, put this hand on top of your head, please. Just touch your head. It is the center you feel the heat there.

Ah, better. Now, raise your hand and see, if you are feeling the Cool Breeze. You have to ask for your Realisation at this point, seven times.

Better? Right Heart. Right there.

Mahat'ahaṁkāra Sākshāt [three times].

Now, change your hands. Put your right towards Me and left ventilating.

[Shri Mataji blows into the microphone several times.] It's better now. Just, now are you feeling it from your head, just see. Hands towards Me. Now, just see, from your head it is coming, now it must come from your hands also. Right.

Some are feeling on the right, some are feeling on the left. Those who are feeling on the right should put their left towards Me.

Now, towards Me, like this, parallel to the ground.

The one that is not getting the vibrations should be towards Me, the one which is getting the vibrations should be up.

Sahasrāra. You have to say, `Mother, please, give me my Realisation. I want my Realisation.' You have to say that because your freedom I cannot cross.

Now, better, it's in the center more now. Right.

More relaxed.

Let's see how many of you are feeling the Cool Breeze? Raise your both the hands. Raise it higher.

This lady, did you feel it? No? Should feel it, you are a seeker. Just put your hands towards Me. Can you feel it? You see? You felt it, you felt it? No, all right, all right. All right. Now, let's put it down.

Please, raise your hands who have not felt it.

Those who have come for the first time should put down their hands. Those only who came since yesterday and did not feel the Cool Breeze.

All right, now there are very few who have not felt it, you have been here for the first time and tomorrow most of you should feel it. And tomorrow, I'm seeking those who have not felt, I will try to handle it.

Luckily, My photograph has vibrations. You can take it with you tonight and put a light before it. You sit before the photo with hands towards Me, put your feet into water and the first hand towards the photograph, the left hand outside and the left hand towards the photograph.

Because you're established, then you can do it without any help. All those who have not felt or those who have felt, all of them should do it.

Ultimately both the hands. And then put your attention to your head and sleep off. Just before sleeping.

I thank you very much.

***Contents: 1983-09-06*, Public Program, Day 3, Urania, Volksbildungshaus, Vienna, Austria**

I bow to all the seekers of Spirit. We have already heard about the Kuṇḍalinī, the Chakras, the balancing process

in our body. Now, when the Kuṇḍalinī rises and when She crosses this center called as Āgñyā Chakra, then you become thoughtlessly aware, called as Nirvichara Samādhi.

A thought rises and falls off, another thought comes and falls off; it disappears into the past. It may come from future or from past, but in between these two thoughts there is a gap and this gap is the present.

So when you become thoughtlessly aware, you become present in the present, because there are no thoughts coming from the past or from the future. See, as I see you just now as you are, I don't have to think about, I know you are there. And if this state exists for everything, that you don't have to think about it, the knowledge is absolutely identified with your mind.

So this process of thinking cannot be stopped by any other method but Kuṇḍalinī awakening.

But sometimes, if you get possessed by something, then maybe you just don't know what you are doing, you are just confused. That's a state where you are not yourself, you are not aware. But this I'm telling you about thoughtless awareness. At this stage also you start manifesting certain powers of that stage.

Like as if you become governor, then you get the powers of the governorship. At this stage you can cure people, all right. And you can also raise the Kuṇḍalinī up to below the Āgñyā Chakra. You start enjoying a new dimension in creativity.

For example there is a beautiful flower arrangement before Me and if I'm looking at it with thinking, I'll think, `From where did they get such nice flowers, how much

they must have paid, what is the shop they must have gone and how did they get this colour?' But if I'm in thoughtless awareness, then I just see it and get all the joy of what has made these flowers so or what was putting into its creation. It starts flowing through you, you feel it flowing through you like that, just the joy, the soothing joy, sometimes when you see something that is really beautiful.

Like I would say Michelangelo was a realised Soul, Mozart was a realised Soul. When I listen to music of Mozart, I cannot think. I feel only the joy of its creation that's flowing in My being and enriching Me.

Or else, when I see the Sistine Chapel in Rome, I don't start seeing in a way normally people see it, but what I just see the joy of the artist as well as the great artist behind him who has created that beautiful painting in this Sistine Chapel.

So joy of matter, which the creator has put in it, manifests within our mind, when we are thoughtless. You forget what race you come from or what education you have had, it's pure joy that is within you, which starts flowing within you. Like now many Sahaja Yogis do not know even ABC of Indian music and the Indian music mostly is based on the Spirit enjoyment and it is constructed and originated by great saints. And they enjoy very difficult melodies, which even Indians could not sit for five minutes. The new dimensions of the beauty start coming into your consciousness and such a state is very creative.

I know of a gentleman who had no job when he came to Me and I said that “Why don't you start doing interior

decoration?" He said, “I cannot pick up one book from another book, how can I be an interior decorator?" I told him, “Do what gives you joy, that is the criteria." And today he is a very rich man.

So the category of our style of judgment completely changes into another category which is absolute.

There it does not matter from what country you come or what kind of art you have appreciated, what kind of education you have had. A musician becomes a greater musician, but who has never been singing, starts singing with melodious voices. Because of the temperament also changes, a person becomes extremely full of poise and that's whatever he creates is so balanced and so penetrative that people are amazed how suddenly he has changed.

We had one great artist called Amzad Ali from India and he came to London and they have invited Me for the program. Amzad-Ali. I didn't know the way to the place and we were lost for about half an hour or so and we were late about half an hour. And the music was very boring that he himself got bored. I came in the room and just raised his Kuṇḍalinī, the dynamism of the music changed so drastically that he could feel himself gone into the seventh heaven. Many hard working, dry people start enjoying music and smiling. But above that, when you pierce through the fontanelle bone area, which is called as Brahmarandhra, then you start getting the Cool Breeze. This thoughtless awareness increases; the gap between the two thoughts increases tremendously. You can see there the two balloon-like structures, one is the Ego, another, the Superego. Both of them get sucked in

and the area in between starts expanding and you find a soft bone just like as you had in your childhood.

So you'll remain in a state of witness. The whole cosmos looks like a stage and every incident like a drama, a play. You are not worried any more about what is going on, you just watch it like a witness.

When you start watching it like a witness, you enjoy it like a drama. If it's a tragedy you may cry, if it's a comedy you may laugh, but inside you know that you are just the spectator. Despite all the tempest around, inside you stand still with peace. This peace has to be achieved today, this peace within.

Everybody gives a big lecture that we must have peace. By changing the suprastructure you cannot get that peace that is within. These superficial things are not going to help anyone, leave alone the whole world. That peace is to be established within you. And once that happens, we don't have to worry about peace making organizations.

After that, when you have matured slightly more, then there is a state which we call as Nirvikalpa Samādhi, is called as doubtless awareness. This is a state in which you can give Realisation to others in en masse way. And you do not start getting affected by anybody else disturbing you, as far as their bad vibrations are concerned.

As if first the light is enlightened and it gives a little light around itself, it cures itself, it helps itself.

Then it cures the lamp, means it cures the being itself, in the sense that you become more aware. Then this

spreads little more, so you start curing. Say in Austria, you'll start improving the lot of Austrians.

Your attention is more there, but as soon as you establish your doubtless awareness, you rise into a position where you have no doubts that you are the Spirit, that you are the light and you have to give the light.

Christ has said, “You don't put enlightened light under the table." Such people don't run away to play, hide themselves into, they don't become recluses, but they become manifesting wonderful Sahaja Yogis.

At this stage we call them Sahaja Yogi, because Yoga is complete.

Now, there's one side or the highest thing that we have to understand is about the Spirit: First, the nature of Spirit is felt in the attention, means in your central nervous system. You start feeling the flow from your brain and from your hands on the central nervous system. It is no more a story that you are a Spirit. You can put your hand like this and ask a question, `Am I the Spirit?' You'll be surprised, the flow will be great. Ask any such fundamental question, `Is there God?' You start feeling tremendous Cool Breeze in the hand to prove the existence of God. Now if you want to know about any Guru, whether he is a realised Soul or not, you just ask the question. If he is a bad Guru, you get burning, sometimes even a blister. And if it is a real one you start feeling the Cool Breeze.

In India we have many places which, we say, are created by the Mother Earth; we call it as Swayambhū.

It's written in the Bible in the Ten Commandments that whatever is created by Mother Earth or by the sky should

not be reproduced and should not be worshipped. But the first part we forget, what is produced by the Mother Earth? Because only after Realisation you will know what is produced by Mother Earth, which is Divine; the Mother Earth Herself has produced things which have produced vibrations.

So the attention becomes a full machine of discretion. If you become really sensitive on your fingertips, then as Mohammed Sahib has said, your hands will speak. You'll be amazed, sitting down here you can find out the vibrations of any person.

Like in London, I had a bad time. It is difficult to crack English nuts, sorry, minding the English. But one of them who got Realisation, he said, “How do You say that we can feel the vibrations of somebody who is not here?" I said, “All right. You just feel the vibrations of anyone you feel like." So he said, “All right, I'll feel the vibrations of my father who is in Scotland." He just put his attention and put his hand and suddenly he said, “Oh bah, it's burning here!" Now these are all the centers of the father and these are of the mother. And this is the center of this Chakra, Viśhuddhi, this is the finger.

So I told him, “That means, he must be down with very bad bronchitis." He rang up immediately to find out. And the mother came on the phone and said, “He is down with very bad bronchitis." So one must know that God Almighty means He has all the telecommunications, all the computer systems, much, much, much more advanced that what you can produce. But to feel that, you have to come up to a particular maturity of your

awareness, which is described in the Patanjali Yoga as Rutambhara Pragñyā.

So the first thing that happens that your attention gets enlightened. In the beginning, as the Western people are, they start testing whether it is true or not, because they are to be convinced logically, very important. They try on this and try on that and ultimately the same fellow about whom I'm telling you, Doctor Brown, he told Me that, “It works." And if you are honest, you accept it. And then you go further.

Now, once the attention is enlightened, gradually you start accepting it.

So there is no more blind faith needed in Sahaja Yoga, no mysteries, but is absolutely open page for everyone to see for themselves in the laboratory of the Divine.

Through vibrations you can recognize so many things that you'll be amazed. Before the right doctor can find out that the person has cancer, you can find it out.

So many things you can find out that in this short lecture I cannot tell you. Thus you know the truth, because you become the absolute. There is no two ways about truth. You cannot say, “It may be, it may not be." It is, or it is not.

Somebody is a realised Soul, is a realised Soul. Who is not a realised Soul, is not a realised Soul. The vibrations don't compromise as we do. It's absolutely straightforward, that's how you know the truth, the subtle, about everything: about God, about human beings, about human problems. And a new door to knowledge opens within you when the knowledge is this.

If the knowledge is the Spirit, through this knowledge you know the whole knowledge.

In India we have had great saints who never went to university. Even Christ never went to any university. But we cannot really go up to that level of understanding as they had. This comes, this whole thing, through knowledge, comes to you like the whole library opens.

Now you saw Mister Engelbert is a student still, he is a young boy and he has been to Sahaja Yoga, I think, hardly one and a half year or two years, maybe.

“Less than one year." Ah, less than one year. But see the amount of knowledge he has about Sahaja Yoga. To be very frank, I have never had a talk with him or any interview with him so, for more than five minutes. He was never a speaker, but see how he has managed the introduction by himself. People start talking just like great saints.

I mostly work in the villages of India, not in the cities. And I've seen, I was one day going with a gentleman who was driving My bullock cart. And when I started talking to him, I felt a great saint is driving this cart, absolutely uneducated, but what knowledge, what authority and so humble. Whatever is this knowledge we have is all mythical. Only the knowledge of the All-pervading Power, which is called as Brahma, is the truth, which you will gradually discover.

So, when you find the truth, you stand on it with pride, with your glory.

You have your humility and compassion. Like Christ, when He saw a prostitute being stoned, He stood up. He had nothing to do with the prostitute and with courage

He said, “Those who have not sinned, can stone Me." And everyone receded. That's what happens, when you become realised and you become the Spirit.

So, all the truth of the Divine starts dawning upon you, you start seeing it. The more you use your vibrations, the better it happens. The more you use this instrument, the more you will know about it. That's the nature of Spirit, which is truth, dawns upon you.

So, the first nature is enlightened attention and the second one is the truth. Now, this enlightened attention becomes very much developed when you have the third manifestation of the Spirit. When you start feeling the joy, you do not get involved into happiness and sorrow. If somebody pampers your ego, then you are very happy and somebody acts on your superego, you are unhappy. But joy has no duality, it is just sheer joy. And this joy starts pouring into you; you feel sometimes the whole torrential rain of joy soothing down whole of your being. This is the nature of Spirit. Your heart opens and you see every human being as a part and parcel of your being. You feel this. Like, you see, when somebody gets cured with Sahaja Yoga, they try to thank Me. I say that “If this finger is sick and the other fingers just rub it and get it well, does this finger thank the hand?" Who is the other you can thank? And with this complete joy, which Buddha has described as Saṅgham Sharanam Gacchāmi, you develop such a collectivity of complete security and joy. You must see how the Sahaja Yogis, when they meet each other, the joy is much, much, much more than they would meet their own kith and kin.

When they go to India, into poor villages, where the people are living in the huts, you must see the people embracing each other with such joy and jubilation.

So, a new world is established of people who believe that we are the part and parcel of the whole, with that awareness and enlightenment. It's not just a mental conception that we are brothers and sisters. But as you know, all mental conceptions fall down in no time. There is no truth in establishing your mental conceptions.

So, please, take to reality and gradually you'll be so identified that the bliss of God's creation will be upon you. You don't have to go anywhere, you do not have to give up anything, it is all within you and it works out beautifully. This many must have said, but now the time has come to fulfil those prophecies and to fulfil all the promises that were given by the great incarnations.

May God bless you all! I would request you to ask Me questions relevant to the subject and, as I told you yesterday, there is no need to be aggressive with Me. Ask sensible questions and not some questions which are absolutely stupid.

Question: Does the system for left handed people work the same way?

Shri Mataji: Yes, yes, makes no difference.

Gregoire: She says with autogenous training they are taught that if you are left handed it mixes the brain function.

Shri Mataji: [Laughs.] This system corrects everything. This is for the correction of everything that is in you not proper shaped.

I can't see the person. Can you get up, please? Gregoire: She is asking: is there a contradiction with the teaching of the Catholic Church?

Shri Mataji: Please be seated, I'll tell you, I'll tell you. [Laughs.] All right, so they'll have it.

Catholic Church believes in Christ. What Christ has said that “You are to be born again." Not by some artificial method of putting the hand on the head and say that now you have become a Christian.

There is no true baptism in Christianity left now. Formerly, at least, it catered to the balancing of human beings. But that was the job of Moses and not of Christ. To us both are very important.

But one has to ask: “Why the balance?" In England, you'll be surprised, most of the churches are sold out to pubs. And young people are revolting, with a reason, because they think about it.

So many mysteries have been kept in the Catholic Church like Holy Ghost. Like the Essenes, if you have read the book of Essenes, which were the early Christians have talked of Holy Ghost as the Mother. But these people say that Holy Ghost is a mystery.

So now, the only job they could do was to compromise with the surroundings, how to keep this Christian faith somehow or other not dwindling. I know of many young people who were priests, who were nuns, have become communists. They have become atheists by going to churches.

So, one must find out what's gone wrong. That one must ascend. They must preach that you have to become the

Spirit, that's the thing we have to achieve, which we have not achieved so far, they must confess it.

And if you go to the countries where they are following Catholicism like South America, you'll be aghast, people are extremely poor there. I went to Peru and Colombia, all absolutely poor. The reason is, it must deliver the goods that Christ has promised, is to give Realisation, to give you the Spirit.

Politics has nothing to do with God; God doesn't understand politics. This is stupidity these politics.

It is not only stupidity, also hypocrisy. Now, as you see, I'll tell you that supposing I have all the powers, so I'm a capitalist. And if I cannot distribute it, I do not feel happy, so I'm the greatest communist. We can say Christ was the greatest capitalist and the greatest communist. But in the Divine way you can be.

And whatever you are without that, you are artificial in there, you are artificial being, it's just mental projection.

In Switzerland I found the Catholics are the greatest drunkards, I really tell you, I'm sorry to say, but horrible condition. They drink. I really tell you, because I happened to meet some of them and I was amazed that Catholics, they will drink on Christmas Day, they will drink on Easter Day; somebody dies they will drink and somebody is born they will drink at the least, you see.

Some of them start drinking since morning till evening. Surprising, I can't understand. If you follow Christianity, how can you take to such an alternative to escape life? Their religion is alcoholism, not Christianity by any chance and that can be in any religion. And they gossip,

there is no righteousness, there is no nobility, very miserly people.

They are equally immoral as Jews are or anybody else is. The Christian Church or the Catholic Church has become like a club as any other religion has become, every religion is like that. If you want to know about Christians, ask the Muslims. If you want to know about the Muslims, ask the Jews. And if you want to know about Jews, you can again ask the Muslims. You can ask about the Hindus to anyone of them and they will tell you that they are another condemned. They are all going against what was preached to them, exactly against.

Now, Christ has said, “You have nothing to do with the dead spirits." But all dead spirits are buried in the church, Catholic Church, all of them, the bishops, this, that. You don't know how to walk in that cemetrey.

Then the others are the Protestants. They are more, sort of, rationalistic type. Christ has said, “Thou shall not have adulterous eyes." Let Me know which Christian doesn't have.

Now, we go to Jews. They didn't believe in Christ because they said that “We have to still suffer, because Christ didn't suffer for us." Christ was nothing for them.

So they suffered nicely. Now, they are making others suffer.

There are many Christians who believe that they have to still suffer as if Christ has not sufficiently suffered.

So this is the problem is: that people have just the other way round ideas, I don't know how they stand in juxtaposition to what they are told precisely.

Now, for the Muslims, the Shariat Laws were in the Old Testa^ament, as you know, for the Jews.

Mohammed Sahib never referred to them in His Koran. But what they are following is Shariat, that means they are Jews. And Mohammed Sahib has talked so much about the resurrection, they want to talk about the doomsday.

So, whatever is written in the whole of Koran is all neglected, only one doomsday they take up, just to slash people down.

Now, come to Hindus. The basic life principle of every Hindu is to seek Spirit, Ātmā sākṣhātkar.

But what are they doing? They are seeking everything else but their Ātmā. Now, there is another thing is said very clearly that “In everyone resides the Spirit." Then how can you have a caste system? The caste system never started with the birth of a person, it started with the Karmas, the way he worked, because some were interested in God, were called as Brahmins; who were interested in, say, power were called Kṣhatriyas and so on and so forth. But now we have `born untouchables' and we fight our elections on caste system. It's something so surprising that everywhere people have taken to something that was told not to be done.

Same about Buddhism, all kinds of nonsense. First is Buddham Sharanam Gacchāmi, means you should surrender to the Enlightened One, to the person who is enlightened, not somebody who claims himself to be some Lama, Namas, Thamā, or who lives like a parasite on the poor Tibetans and drink the water from the golden cups. Christ had the crown of thorns and what are these

people wearing crowns from? Of diamonds? That's what we gave to Christ.

Buddha said Dharmam Sharanam Gacchāmi, stand in the Dharma, stand in the balance. To Buddhist, I don't know what sort of a Dharma they are following, very absurd austerity or a Japanese style of domination.

Where is the religion? Where is God? Where is spirituality? It's all a money-oriented, politics-oriented nonsense. They want to build big palaces for themselves, while every human being is a temple of God. Only the light has to be enlightened, which must work out. Thousands of seekers must get their Realisation, the time has come.

May God bless you! So, now we'll have the session of Realisation.

[Gregoire explains about the exercise and asks people, who are not interested, to leave.]

Shri Mataji: This is the condition. And then people tell Me, “Why don't you give Realisation to so many?" I mean, who is interested? I asked one gentleman who was going away, I said, “Why are you going home?" And he said, “This is my drinking time." I said, “Better go." [Laughs.] That's the level of people. What can you do? It takes hardly half an hour to complete the whole process.

All right.

So, now let's start.

Sahaja Yogi: Someone asks to sing a song.

Shri Mataji: All right, before we start our Realisation they want to sing a song to you which was written long time

back and I hope this will bring some peaceful feeling in your minds.

Some of you can also sing with them.

It's in German language.

It was written by whom?

Sahaja Yogi: It was written in 1647 by Gerhard [unknown].

Shri Mataji: You start it, may God bless you, she'll start it, somebody, someone, anyone that you have decided on.

[German Song `Komm, o komm, du Troster mein', Melodie Albert Kurtz and Text by Heinrich Bone.] [Chorus:] Komm, o komm Du Troster mein, Kehr in meinem Herzen ein, Komm, o Geist von oben.

[Stanza I:] Hauch uns Deine Weisheit ein, Dass wir suchen Gott allein! Komm, o Geist von oben [Chorus.] [Stanza II:] Um Verstand und Licht wir ehen, Dass wir Gottes Wort verstehen.

Komm, o Geist von oben! [Chorus.] [Stanza III:] Steh uns bei mit Deinem Rat, Dass wir gehen den rechten Pfad.

Komm, o Geist von oben! [Chorus.] [Stanza IV:] Mach uns stark in Leid und Streit, Salb uns mit Standhaftigkeit.

Komm, o Geist von oben! [Chorus.] [Stanza V:] Gib uns heilige Wissenschaft Aus dem Quell der Glaubenskraft.

Komm o, Geist von oben! [Chorus.] [Stanza VI:] Uns mit deiner Lieb entzund, Dass wir ganzgottselig sind.

Komm, o Geist von oben! [Chorus.] [Stanza VII:] Die Furcht Gottes uns erhalt, Denn der Himmel leid't Gewalt Komm, o Geist von oben! [Chorus.] Gregoire: Bolo Śhrī Jaganmātā Śhrī Ādi Shakti Bhagavati Mātājī Śhrī Nirmalā Devī Ki Jay!

Shri Mataji: All right, to be seated.

You have to put your hands towards Me and close your eyes and take out your shoes, that's all.

Please keep your eyes shut. You can take out your spectacles, because your eyesight also improves with vibrations. Put both the hands towards Me, sit in a very comfortable position, not putting your head forward or backward, but in a straight way.

Now, the left hand is the power of desire, as I told you and now you have to have the power of action, which is to be used as I'll tell you. Now, please keep your eyes shut, because the Kuṇḍalinī doesn't rise if your eyes get opened up and also it doesn't cross the Āgñyā Chakra.

So, just to cooperate keep the eyes shut.

Now, please put your right hand on your heart, without opening the eyes. The first thing I have to request you all: not to feel guilty and count your sins, so-called. You must know that God has created you in His love and it is His love that is going to bestow the bliss of Self-realisation to you.

Now, just say that `I am the Spirit.' You can address Me as `Mother' or `Shri Mataji' in your heart.

Say it sincerely and believe it that you are the Spirit. Say it three times. Please, say it three times. But don't feel guilty.

Now, put this right hand on the left hand side of your stomach, where is the center of your master or your Guru. That is your Self, your Spirit. On the left hand side of your stomach in the center and press it a little hard.

At this point, as you are the Spirit, you have to say that `Mother, I am my own master, I am my own Guru, I am my own guide.' Please, say this ten times.

[Aside:] Left is so bad that I can't even feel the heat.

Better.

Now, please raise your hand again back to your heart, right hand and without feeling guilty say twelve times, assert that `Mother, I am the Spirit,' which you are. Please say it twelve times.

[Aside:] Better.

With full confidence.

Now raise, if somebody is not doing this, please go away, it disturbs the whole vibration, I'll be thankful. Please go away, out of the hall, please. Very humbly we have requested you.

Don't open your eyes, don't pay attention to others.

Now, raise your right hand on the base of your neck on the left hand side, from the front and hold it tight, pressing it down. Pressing it down. Just holding it tight, take it little on the back side so that you can hold it better.

At this point you have to say that you are not guilty, because you are the Spirit, how can you be guilty? So, you have to say, `Mother, I am not guilty,' sixteen times.

Now, raise the hand from there, right hand, on top of your head. Put your palm on the fontanelle bone area, where you had a very soft bone as a child. At this point you have to ask for your Realisation. You cannot be forced into.

So, without feeling guilty, again I say. You people are feeling guilty for nothing at all. Without feeling guilty, just ask. You are all just absolutely, beautifully meant to get the Realisation, you have a right to get it.

So, don't have any guilt in your mind.

Ask seven times that `Mother, please give me Realisation, I want my Realisation, please give me.' There's one thing we have to do at this stage: to say that `I forgive everyone.' Please forgive everyone.

You have not forgiven.

Now, you can change your hand and see if there's a Cool Breeze coming out of your head. Put your right hand towards Me. In the same as your left hand was. Please, don't open your eyes.

At this stage you must say again that `I forgive everyone.' So, say again and again: `I forgive, I forgive everyone.' Go on saying: `I forgive, I forgive.' You get the Cool Breeze now. If you start getting the Cool Breeze in your head, you can change hand again and put it down and see with the other hand.

Raise your hands and see, little raise and then see, you can't see it at very close to your head.

You may ask the question, `Is this the Cool Breeze of the Holy Ghost, of the Ādi Shakti?' [Aside:] Better? Back Āgñyā.

You can change hands and see for yourself. And don't think.

Now, you may open your eyes and put both the hands towards Me.

Now, put both the hands and ask a question, `Is this the Cool Breeze of the Holy Ghost?' Just, keep it steady.

`Is this the Chaitanya Lahari?' Now, see for yourself, are you feeling it or not? Don't think. Watching Me, don't think.

How many of you are feeling the Cool Breeze, either in the head or in the hand? Raise both the hands, please.

Most of them have felt it.

Those who have come for the first time today, some of them may not feel it, but doesn't matter, they all have a right to feel it.

Now, you have to, first of all establish it and then to learn how to master it. For which you cannot pay, it's all absolutely free for you. Try to come to the program in this hall, when you can ask also personal questions and we'll be much closer.

Gregoire: [motivates seekers to attend follow-ups.]

Shri Mataji: Nobody should be disappointed in any way, because as on the tree we have some flowers become fruits, next day some more become, but it is a blossom time and all of you have to become the Spirit. It takes no time for you.

Please take the books and the photograph and practice it for a week and you'll be surprised how much you'll be changed, if you really do it religiously.

You, for yourself, can work it out.

I want to say goodbye to all of you as now I'm going to Italy tomorrow and then I'll be going to America; and pray that people from America also can see the point of Spirit.

Thank you very much.

Contents: 1983-09-07 **Conversation with Sahaja Yogis, About Indian Projects, Vienna, Austria**

[Part 1:]

Sahaja Yogi: [asking about taking drugs and punishment.]

Shri Mataji: So I think, when they come outside, they do it. He was outside in London, in Brighton he met Me, this boy. And then he was better, but again he took to it, I don't know why. You see, for that you must keep the company of Sahaja Yogis to get rid of your bad habits to, see, if you keep their company then in collectivity it washes off and you'll feel better. But if do not keep the company of the collective then what happens, your individual habits just crawl up again and take charge.

I give the analogy of a butter and butter milk, you see, but when you are churning, what happens? Part of the butter sometimes sticks here and there, little little stops, though it is a butter, but still it sticks here. Doesn't go with the whole, so it is left in the buttermilk and it's thrown away.

So, like that, you see one should not stray out of the collectivity, it's a very big force in collectivity, also where there is collectivity I remain. One should not go out from collectivity. Whatever work you are doing, take three, four Sahaja Yogis also with you to be together, because negativity is very cunning and it will attack a person who is a little bits. And also other things like, you see, the social customs and social methods like, we had a very good Sahaja Yogi in London first and he belonged to a

more, sort of a, we should say an official class of *[UNCLEAR* anything] and then he went back, you see, to his life but he would not mix up with the Sahaja Yogis, so he was sucked in again into that horrible society.

Like we had this Philippa, it's a horrible woman, you see, she came with us, she came to India, I mean, that time we were not charging any money, stayed with us, did everything for her and then she went back and she had a contract with some man who was to write a book, she was to write a book about all the Gurus and all that.

So about Me she didn't write that I was a bad Guru or I was taking money or anything, not that kind. But she wrote that, “Mother says that you can't have funny relations for sex” and this and that, all those things, you see, so rather against Me. She says, “I sleep even with bus conductors, nothing happens to me, even now I am feeling the vibrations." But where is she now? She is a lost person I see, she was lying somewhere, it was very [deceiving]. Six months she is no, she was seen, she is finished! So, collectivity gives you strength, you see, to stand together and to correct yourself, to get yourself all right, to be cleansed out, so the spiritual ascent is faster. Otherwise, if you get mixed up with the other people, you see, they influence you so much that you get sucked back into them and then again it is difficult to bring you back from there. And unless and until your Ego or Superego is dissolved into collectivity, you can never enjoy the bliss of your Spirit. This is one of the things people do not understand because they think we have to be individuals, we have to have our individual privacy, your this and that. But actually, there is complete

individual privacy you have, because you are Master of yourself. But externally you are not so much attached to things which were so important before.

Best thing is to go to India, you will find that it's absolutely Spartan living and, because I can't make it very much better, because even if you pay money you can't get everything in a village, we go to the villages so it's a Spartan living, but you enjoy everything because you are in collective, you don't mind, everybody is in a very joyous mood, you can ask him. [Laughs.] I was rather worried about *[UNCLEAR* Guinevere], I mean she is quite *[UNCLEAR* aged], she had had her worries, things were swollen and all her legs were swollen, specially her ankle joints were so swollen, so big and she just arrived there. And I was wondering, now what's going to happen to Guinevere? And, but she was so joyous about the whole thing, she started walking about, her legs opened out, her feet swollen gone, she was just walking like normal person, no botheration at all of any kind to her.

So, then we learned the beauty of collectivity, the social aspect of human beings where a man, how, when he is realised, enjoys the social atmosphere. And that is to be, really to be experienced, I cannot explain what it is.

Gradually you'll find Sahaja Yogis become very adaptable to their circumstances, very simple to adapt.

Like, I must say I have a very overcomfortable house in London, it is too much. [Laughs.] And when Dhumal saw My bathroom he got really so frightened, he said “Your bathroom is so big. How do You go into my dirty bathroom, I can't understand?" [Laughs.] But I forget, I don't remember what bathroom I had, this supposed to

be in London, what bathroom is, just to Me it's just a bathroom, have your bath and come out. [Laughs.] So, gradually this idea of comfort doesn't trouble you. This idea of comfort drops out, I mean you are comfortable within yourself and you are comfortable outside.

So many mythical things drop out.

In this new awareness you must know that the enjoyment is really shared when you have Sahaja Yogis around you; otherwise you cannot enjoy. Even small children, see when the Sahaja Yogis come they just start jumping. Like this one, when the Sahaja Yogis come he is very happy. Or that little girl, how she was dancing when she saw you were here. When My granddaughter, you see, she was five years, her birthday fell in London.

So we had a small little, we said, “We'll have a small little party." So she said, “But what about my friends?" So we said, “Who are your friends?" She said, “All the Sahaja Yogis in London, they are all my friends! Won't you call them for the party?" [Laughter.] And then she said, “Would you call them earlier? Because first I'll clean them and then we'll have the party!" [Laughs.] And I think there were about fourteen of them there and she went and brought a small bucket and, you see, filled it in the bathroom and brought it and asked everybody to put their feet in that. She washed their feet and then put the bucket back again, the water in the WC, she pulled it. She did it for all the fourteen.

Sahaja Yogi: Really?

Shri Mataji: Yes, ask *[UNCLEAR* Govind]. And after doing that, you see, then she went and washed her feet and hands in the tub. She came, she fell on My feet and said,

“I am going numb, I am not going to see anyone." [Laughs and laughter.] And then she went and dressed herself up and came down for her birthday and then she called everyone, “Now let's have the birthday!" [Laughs.] So, that is what you will also feel, very much. Another example I'll give you: There is one great Sahaja Yogini who will tell about you and *[UNCLEAR* came at the meeting].

Sahaja Yogi: Yes, Mother, Marie-Laure muss das Gebuck machen, Catherine muss die Kinder versorgen, wir brauchen drei Madchen, um den Tee und Kuchen und alles das zu servieren.

Sonst geht das nicht.

Shri Mataji hat die Geschichte von Ruth erwahnt. Ruth hat ihre Selbstverwirklichung in Rom gekriegt.

Ein pār Tage spater ist sie nach Sizilien in die Ferien gefahren.

[About a Sahaja Yogini:] Mother, she has to go now and,

Shri Mataji: Really? I think it's all right. May God bless you! What's your name?

Sahaja Yogini: Edith.

Shri Mataji: Also, we have two Ediths. [Laughter.] Thank you very much! May God bless you! Hope to see you and in a much higher state! [Laughter.]

Sahaja Yogi: She says I hope so also and I hope that I will see you in India. I wish this very much.

Shri Mataji: Good! Good idea, very good idea! But be prepared for a Spartan life! [Laughs and laughter.]

Sahaja Yogi: Ruth ist nach Sizilien gereist und war ein bisschen neugierig und auch ein bisschen angstlich, weil

sie hat gedacht, jetzt habe ich drei Wochen Ferien dort und vor drei Tagen habe ich meine Selbstverwirklichung gekriegt und was werde ich damit machen? Und es war eine Party in Sizilien, und dort war ein franzosisches Madchen, und dann haben sie von Sachen gesprochen, und nach einiger Zeit hat das franzosische Madchen gesagt: “Was machen Sie eigentlich?" Und das ist die erste sonderbare Sache, weil die Ruth ist eine Diplomatin, und sie sagt nie, weil diese Freunde in Sizilien sind irgendwie Marxisten und Kommunen und so sagt sie nie, dass sie in einer Botschaft arbeitet. Aber diesmal, sie weiss nicht warum, sie hat gesagt: “Ich arbeite an der franzosischen Botschaft in Rom." Da guckt das franzosische Madchen und sagt: “Aber dann kennen Sie Gregoire? Aber dann sind Sie eine Sahaja Yogini?" [Laughs and laughter.] Shri Mataji [laughing]: And tears started rolling! And tears started coming, they just disappeared.

[There was no translation into English, but Shri Mataji got the story exactly!]

Sahaja Yogi: Und dann, die Kuṇḍalinī went up, und sie waren so froh, und sie haben gesagt: “Und jetzt mussen wir etwas machen!" Und sie haben Selbstverwirklichung 10 Sizilianern gegeben.

Shri Mataji [laughing]: Such a joy!

Sahaja Yogi: Das war die Party in Sizilien.

Shri Mataji: It happens like that, you know, so many, like these, somebody was coming by plane and they were delayed, you see, because everybody came by big groups and somebody came...

So I sent one of the Sahaja Yogis. I said, “You go and get them!" He never asked Me, `How will I find out?' You see, he was just looking like vibrations and suddenly the fellow came from that... He just asked him, he said, “Are you a Sahaja Yogi?", He said, “I am. How do you know?" He said, “I got your vibrations!" And they just met. [Laughs.] It's something great, isn't it? We have brothers and sisters all over.

Child [joyfully comes close to the microphone]: Dadadada, dadada.

Shri Mataji [to the child]: Right, you sit down now, sit down! [Aside:] Ahh! We were showing magic in the morning.

So, that is the joy of being with other Sahaja Yogis because you are all saints now, you are saints and seers. [Laughs.] Yeah! When I was a little girl, about seven years, I used to write poetry, as you do. And I wrote a series of poems called `On the bank of Nira river'. My name is Mātājī Nirmalā Devī, but in the family I am called as Nīra, in My family., `On the bank of Nira River'.

So, actually I did not know, so there was a river with that name in, I mean, I knew in a way, but that's not known in India that there's a river called Nira. Then it happened that there was Dhumal and he told Me that there's a gentleman, his brother-in-law, who has got lot of land and he would like to sell it.

So, I said, “That's a good idea.

Where is it?" He said, “On the bank of Nira river." [Laughter.] So he said he wants to sell it to Me alone.

I mean he wanted to give Me actually free before, but then we said, “We'll buy it." He just wanted to give Me in person that land.

So I said, “Why? What is it?" He said that since he came to Sahaja Yoga he has been so much blessed and this land was taken by government, you see, in the sealing. But they returned it saying that, “This is a *[UNCLEAR* saporous] land we have taken, we want to return it." So he wants to give that land to You.

So, I went to see the land and I found the vibrations were tremendous and now we have got the land.

And it is the river flows like this, you see, in the same way as we have the bandhan and inside that is the land, about twenty-five to thirty acres of land. And later on, you see, we found out that the family, every family in India has got a Gotra, means the University of the enlightened teachers, who were there for families, you see, for 14,000 years now we had this one, Shandilya as our Gotra, Shandilya. He was a muni, he was a rishi, see it. And then we discovered that that was the land of his Ashram. And that he looked after Prahlad in his childhood, by whose effort the, you don't know all these stories? I must tell you the whole thing in a big way, oh, I didn't know. You see, this Prahlad. Prahlad's mother was pregnant, 14,000 years back, it's the story is. And the lady's husband was a Rākshasa, *[UNCLEAR* Hiranyakashipu], when this Narasimha Avatāra took place.

Sahaja Yogi: Vielleicht erzahle ich weiter. Shri Mataji sagt, auf diesem Land, das jetzt unser Land geworden ist fur unser Hauptquartier hat dieser Heilige Prahlad

erzogen. Prahlad ist ein Bursche, vor 14000 Jahren, der durch seine Dedication die Inkarnation von Śhrī Viṣhṇu als Narasimha provoziert hat.

Shri Mataji: Yeah. And he lived very near Lahore, you see at that time, the father, Hiranyakashipu.

And this boy was not born, but Indra, you see, Indra, the, what you call, the `King of the Gods', you see, brought this lady to Shandilya Muni on his way, he just brought her there. He was thinking that because her husband was a demon, so it is better that he marries her.

So, this boy was born in that Ashram of Shandilya. And the Shandilya Muni told this Indra not to worry about this lady because this boy will be responsible for the advent of Narasimha Avatār [of Śhrī Viṣhṇu].

Now, this boy grew there till five years of age. Then he was sent back to the father and you know the story of Prahlad. This river, Nira, flows like this, you see and another river called Hima meets it there and in the triangle is a big temple built about 300 years back, of Narasimha; by one of the Peshawas, one of the kings of Maharashtra. And then, I mean, after that some people also helped him, because it took some years to build it. And you see, when the thing was built and when the statue was installed of Śhrī Viṣhṇu, you see, Prahlada appeared in the dream of the person who had taken up the responsibility of doing that. And he said, “I have already made the statue of Narasimha in sand and you should go and pick it up and build it up [here], I have already made it for you." At the age of five years, he had already made the future statue of Narasimha.

So, they brought the statue, I mean, imagine, made out of, they saw the statue on the bank made out of sand and they brought it and nothing broke. And they brought it and kept it in the temple, you can see it, it is there still, just the same. Did you see it? You saw that temple?

Sahaja Yogi: Wo wir gebadet haben.

Another Sahaja Yogi: Ah, yes, yes, I remember.

Sahaja Yogi [to Shri Mataji]: I said, where we took a bath.

Shri Mataji: The river you all jumped, I was close [laughing], very clean river, isn't it? That's the Nira river.

Sahaja Yogi: Near the temple, there was a place, it was very deep, the whole river is not very deep, but near the temple it was deep.

Shri Mataji: The temple was a deep river. You jumped into it. Yes, that's the place! And on top of the, one of the pinnacles you get a little flow of water, all the time, don't know from where it comes. And it is such a nice place now we have got land for all of you and we'll be making nice huts for you and we will all meet there, I am sure, very soon in that area. This is the year of getting lands everywhere.

Sahaja Yogi: Last year, Mother, or this year?

Shri Mataji: This year, altogether, I mean, this will be completion. Last year was promises, this year the execution.

Sahaja Yogi: Then we'll have to build something.

Shri Mataji: Yes, that's the next year.

So, now tell them how many lands we are getting. Now also this barren land is probably in the hand now, absolutely, today's letter has come.

Sahaja Yogi: I am also lost, Mother, without these propositions, so let perhaps...

Shri Mataji: No, I think you better tell [Hindi]. We have got land in allotted in Delhi, first of all, which he doesn't know. Then *[UNCLEAR* this foreign] land, today we have received a letter, saying that the Deputy Chief Minister has said that, “I will give you *[UNCLEAR* writing] now that this land is yours." So we are getting a beautiful land on top of a mountain from where you can see three lakes and it is very near an airport, International Airport Bombay [Mumbai].

Then there is another one, which is about fifteen or twenty miles, for the children, a seven acres of land, where we'll have the school for these children. That's called a *[UNCLEAR* chow] where there's a little river flowing and lots of mountains. And the mountains look as if Dattātreya is sleeping. And the land is so, I mean, it's in a different levels and, from this side, if you see, it is a beautiful hill there, will be a split level, you see, one of the steps, steps, you can say the steps.

Sahaja Yogi: Buildings as terraced up the side of the hillside.

Shri Mataji: And we'll be having one side for the girls, one side for the boys. This is an International School with English media. Now, there's another land, we have got called *[UNCLEAR* Sitko] that, of course, we got it in the hand. That is very near the Sea, about one acre. That will be used, so far we have not thought of any use, so you tell us what should we do. [Laughs.] So much land!

Sahaja Yogi: When we got the land, are we going to have a research station?

Shri Mataji: That's different, now this is only near Bombay [Mumbai]. All right. Then now, after that, My forefathers' land, which is now reallocated in two ways: one is a land in My mother's place and one in My father's place. In My mother's place we have a big prospect of starting a, have you got it in writing? A prospect, there is a proposal. And one in My father's place, I'm thinking of starting a Academy for Art, Music, everything, Indian art, music. For the villagers also, if the foreigners want to go, they can also go and learn at a very cheap. With library on Sahaja Yoga, on the theory of Sahaja Yoga. Libraries on theory of Sahaja Yoga.

Sahaja Yogi: Really Mother? The theory of Sahaja Yoga?

Shri Mataji: Now, I mean, Advent is the first theory. [Everybody's laughing.]

Sahaja Yogi: I thought it was going to fall in oblivion, Mother.

Shri Mataji: You see, all My lectures are theories. Then they are hypothesis. Then they become the law.

So, that's the beginning of theories. And many books will be coming now, I'm sure!

Sahaja Yogi: Will it become the archives of Sahaja Yoga?

Shri Mataji: That will be the archives of Sahaja Yoga. All right. Now, the another big project is about the...

Sahaja Yogi: 35 acres...

Shri Mataji: [Hindi.] All right, we have two: one 35 acres and one is willing to give us 176 acres. I said, “Just give us 211 acres." [Laughs.] So now. And there's one more, near a big lake, for the school of the children, for the

villages. Through the basic education and through the Sahaja Yoga system, Sahaja Yoga basically.

You see, in this when we talk of the archives, I would like some people to go and sit down and compile all the Sahaja Yoga methods we know of, how to use them, how to use for children, to write about books.

It's a very secluded and nice place where people can go and sit along the river and write it very well. All right! And the children school I've told you, now we have got this teaching them in things My father's *[UNCLEAR* restitute], can you write it down? [Hindi.]

Sahaja Yogi: [asks if in the West we can also build schools for children].

Shri Mataji: Yes, you can build kindergarten but after a certain age they [the children] must be away from certain countries for some time, because the atmosphere is very bad for them and what's the use of spoiling them?

Sahaja Yogi: What is the mantra for a hysteric woman?

Shri Mataji: For a hystery woman? *[UNCLEAR* Pratika] [laughing].

Sahaja Yogi: Fu diejenigen, die irgendwie hysterische Frauen in ihrer Umwelt haben: Shri Mataji hat ein Mantra geschaffen, ich glaube, das ist sehr praktisch, und das heisst Pratika. [Shri Mataji is laughing.]

Shri Mataji: There was a rākshasi, which we call the female demon who was called as `Pratika'. And her style was like this: is to, sort of make, some sort of a fuss, a drama, make everything tense, make the husband absolutely nervous all the time and go on a big pitch, you see and then start to becoming Tantranish or hysterical.

So, that woman she was ultimately killed by the Goddess.

So, we are going to speak there to people. This is meant for more for the foreigners to come down, the art, Indian art, Indian music and dance, Indian dance and then fabric, weaving and, what you call designing and pottery works, ceramic work, then stone, stone carving, stone tiles, all hand-made things, you see.

So if you people come for three-months course or something, you can learn there for a very cheap prize all these things, if you want to take it.

Sahaja Yogi: Cooking?

Shri Mataji: Yes, cooking; [laughter] and, what else is, embroidery, with someone.

Yeah then. All this handicrafts, you see, like, anything that you want, you can arrange it, no problem.

Now see, for one point this is made out of shunka, it is made. What is shunka, is conch. And 1001 things can be made like this, out of conch, out of shells. This kind of silver work, this kind, gold ornaments, at a very cheap price. What is it? Any kind of hand-made things we can teach you, but you have to teach them, they can teach you hut-making also, how to make a hut. And Indian architecture. Indian history, Indian architecture, history, Indian art, all those things, whatever you want to know. And you can also teach us about your architecture, your music, your art, just the other way. Technique, technology of the computer, this that, we don't know. You people can teach this to the villagers there, while we can teach you the things that we know, all right? So practically, you may have to pay nothing, except for your food and your stay.

So, that's the idea.

[Part 2, Version 1:] Now, at the other Nandran, another place where is My mother's place is, where Jankini *[UNCLEAR* want] there six acres of land. I just said, “Six, no I said three." You said, “What is three, Mother?" I said, “All right, let's have it five; then seven." They said, “At least ask for eleven." I said, “All right, eleven, whatever you say." He is about to give Me and carry Me and stamp it in. And I am such an ascetic that I didn't even take the eleven, I just went, walked off [laughing] and sat in the car and they all saying, “Look at Mother!" [Aside:] [Hindi.] [Laughs.] All right.

[Hindi.] [Laughis.] They said, “He is a Sannyāsi” because going in bullock-cart and all that, ape-cart and being with Me all the time here and with Me, just to sign and take it. I just got into the car and told him, “Drive off." And they all started looking at Me, going off without taking the land. But of course, it is there.

So, then we have a idea of using the solar energy, that is, the Australians are going to teach us in India, to help them. And there are small-scale industries we are starting, for making fuel, simple fuel out of the wastage, badhas and all that. And our country is very poor in drinks, you see, though it's such a hot country and we don't get proper drinks, like orange and everything, though we have fruits, we can grow fruits, you see.

So we want to develop fruits and their juices, so that we can give very cheaply to the villagers, the fruit juices and other to quench their thirst. And the molasses are so much wasted there, we can make biscuits out of them, chew for children's sweets, so much can be done, but our

children don't get good sweets and they don't get good biscuits, so that's what we have to teach them how to make cakes, biscuits, you don't make cakes so well. That's what you people will have to teach.

And there is lot of possibility of making hand-made paper. But what you can guide us there is to what sort of paper you would like or this kind of a thing, because so much is wasted there. They can't do it.

And then extraction of oils for different things, antiseptic oils, other oils, we can have so many of them.

And also to teach them the well technology, to the villagers, you see, how to dig a well, how to keep it clean, how to maintain it.

So many things you can do, like paints, we can do *[UNCLEAR* moves], you don't get good *[UNCLEAR* moves] in India, then we can have a bone industry, all sort of things, you know, so much there is wasted, because we don't know how to use it. We have raw materials, but if we make a small scale industry, then you can help them very much.

Like your cleaning agents and all these things, we don't have, so we don't have that kind of an idea.

And also tinning, tinning of food and all that, you see. In India, now today, for example, I had this, what do you call, that corn. Now in a village, you can get in one pound about a hundred corns. But we give it to the animals, can you imagine? [Laughs.] Corn, hardly human beings eat in India, is one of these for a joke, but in the villages, no-one.

So that can be utilized, you see, to teach them how to eat it. Then the other day we ate cotton seed, I mean, it's impossible, [laughs] you can't even think of cotton seed being eaten in the bread, you know, Gregoire, have you eaten that? Cotton seed in the bread?

Sahaja Yogi: I don't know, Mother.

Shri Mataji: Never, no, could not have in India. But here I ate in Switzerland, in the most sophisticated place, cotton seed in bread. Actually, cotton seed is just given to animals, absolutely, no question.

This should be utilized, we are such wasters, I tell you.

So, now what we have here, all these things we are going to do in that area [Nankau] and one more land.

I'm reading this out to you because you should also think about it and let us know what sort of thing you would like to learn. For example, wood work, you see, wood work. You can have short courses for three months, six months, whatever you want. But whatever you do, just let us know because we have got all kinds of teachers in India and we can get those teachers. And as long as we give them the pay they are all right and they'll teach us.

So, whatever you want to know, you must let Me know. And then it will be a nice idea to have accordingly the thing arranged, you see. This could be done within two years time, we can start it, no problem.

[Part 2, Version 2:] Now, at the other Nandran, another place, where My mother's place is, we have 176 acres of land, I just said six, no I said three, he said “`What is 3? What are you asking?" I said “alright, but let's have it five, no seven." He said “at least ask for eleven” I said,

“Alright eleven whatever you say." He was about to give Me this stamp with it. Now I am such an ascet[ic] that I didn't even take the lesson, I just went, walked out and went to the car and they were all saying look at Mother. [Laughs.] So there we have an idea of using the solar energy that the Australians are going to teach us and there are small scale industries. We are starting for making fuel, simple fuel out of the wastage. And our country is importing drinks you see it's such a hot country and we don't get proper drinks like orange and everything, though we have fruits.

So we want to develop fruits and their juices so that we can give very cheap to the villagers, the juices and other things to ban their thirst.

And the molasses are so much wasted there we can make biscuits out of them, things for children, sweets, there is so much which can be done. But consider they don't get good sweets and they don't get good biscuits. You don't make cakes, alright, that's what you people will have to teach.

And there is a lot of possibility of making hand-made paper. But what you can tell them there is to what sort of a paper is used and some kind of a thing because so much is wasted there.

And then extraction of oils for different things, antiseptic oils other oils you can have so many of that.

And also to teach them the well-technologies to the villages. How to dig a well how to keep it clean, how to maintain it.

So many things we can do like paints. We can do glues. We don't get good glues in India.

Then we can have a board industry, all sorts of things, so much there is wasted because we don't know how to use it. We have raw materials. But if we make a small-scale industry, then you can help them very much. Like a cleaning agency we don't have so we don't have that kind of an idea, also tinning of food and all that, you see.

In India now today for example I had these cob things. Now in the village you can get in one pound about a hundred cobs, a hundred cobs. We give it to the animals, can you imagine? Hardly human beings use it in India, none knows this, they thought a joke but in the villages no one that can be utilized. If you teach them how to eat it. When the other Lady ate cotton seed... mains it's impossible all would think that cotton seed is weakening the brain you know, have you eaten that? Cotton seed in the bread, never have we should not have in India, but here I ate in Switzerland, in the most sophisticated place, cotton seed in bread. Actually cotton seed is just given to animals, absolute no question.

We should utilize and not waste such things. Now what we have here all these things we are going to do in that area, Nandam, one more land and bringing this out to you, because you should also think about it and let us know what sort of thing you would like to learn, for example woodwork, you see woodwork you can have short courses for three two months, whatever you want, whatever. You just let us know, because we have got all kinds of teachers in India and we can get those teachers, as long as we give them the pay they are alright and they'll teach us.

All you want to know, you must let Me know and it will be a nice idea to have accordingly things arranged. This could be done within two years.

[Part 3:]

Sahaja Yogi: I would like to ask you a question which may clarify some thoughts which are in some minds here. I feel the vibrations when I think of asking you the question that's why I am doing. What such activities, what relationship do they have with our spiritual work?

Shri Mataji: That's what I am coming to, that's we are coming to now, you see, that's what we are coming to. Now, what is the thing in this one, is: All these things are, that first of all, among Sahaja Yoga is not something that hangs in the air, you see. Now you have seen, everywhere we go, people ask us question: “What are you doing about the poverty of any country?" So, how we are through our energies and through our love, how we propagate things which are made of hand. Because the one thing is very important that we have given up the power of making things with our hand, which is very important. Our hands have lost the capacity to make things with hands.

So, Sahaja Yoga believes that people should take to genuine things made with hands as far as possible.

Because the genuine things have vibrations. And we, Sahaja Yoga is, of course against plastic and nylons, in a way. Because we stand for reality, so we should use real things. And the secondly, the advantage of this will be that once you make these things, you are Saints and whatever you may, say, you make biscuits, those biscuits will be eaten by general public, they will feel better.

Like a painting made by the we can say by the realised Souls has vibrations, you see.

So the vibrations will spill more. Everything out of the art that you produce the music, the dance.

So you will give hand to that big, what you can say reservoir of vibrations which is locked in the matter.

So through matter also you can produce vibrations, so we increase our speed, see, a salvation will take place. Just now your activities are only limited to giving vibrations to human beings then to inanimate things and then also to the living things we can come to next.

So you see what happens that the language of vibrations starts becoming eloquent to all these things which you make.

And the attention of people is brought out from the machinery to hands, because machines are like devils. They want to take everything from the Mother Earth all the time and sort of produce lots of nonsensical things. And the artistic things which are created by saints, will be very attractive and also to do the sales so for example if you make a simple thing without knowing the technique about something it will be alright but it won't be selling in the market it won't be attractive but if you know how to do it and if you make it attractive to itself, it will learn it will secretly carry on with vibrations.

And when you learn these things in India you can start a center here doing the same way that could be the `mar' we can say a mother-institution. From there you can come and teach people here how to do it. And you have so many good things to give them if you can teach them

let's say cleaning-agence and things like that after all we need cleanliness.

I mean there you can think of many things, you see but think of that which you can make out of small industry. Now what I'm saying is that you all understand the general principle.

Now the another thing we have is the thing called... Now there's another place which I've called as `Avagh' meaning `The village I like'. Aradha was there because when Rahu, a horrible demon, was killed by the Goddess. He screamed and Arad means scream.

So changed it to Avagh.

I don't know what Western astrology is but Indian astrology has got two stars very famous known as `Rahu and Gibhu'. Now as we have all our centers with some planet the planet of the Kuṇḍalinī is Rahu.

Now and this is Rahuri. Rahu means energy, so the energy of the Kuṇḍalinī is there, acts, activates.

So this area Rahuginagao is actually, historically belongs to My forefathers who were the kings in that area who had a calendar also. It has many permutations, combinations.

Why I'm telling you this that whatever ideas you get out of listening to Me you should write it down and you send this file then to Me, you may write to Me or you may tell Gregoire or send it over, so we get ideas from everyone of you. Now there is another place called Avankar where we are going to experiment with the animals husbands and also we are going to experiment with the vegetables and plants and trees and all that with vibrations, crops

also. What is the effect on crops from particular type of crops of vibration on crops.

And Vibrations on different trees or what sort of vibrations they should have because there are some who are hot, some are cold, just like human beings.

So we have to also alter our hands and things like that.

So it will be a nursery sort of a place.

Also there where we have this thing and also we'll have animal-husbandry who we'll vibrate, we'll have milk out of them, so the whole area which receives the milk, there's vibrations in the stomachs.

So the basic thing is to give vibrations in everything that you get.

This is now the I don't know which number it is. Then comes to Musalwari. It is a place we have already seen where the vibrations are coming out of the Mother Earth, I told you the story. You know the story about Musalwari. Where there is a lake and near... They don't know? There is a lake and when this lake was built, you see they had to put a dam and while extending the dam about a hundred years back or 60 years back an Englishman, found it difficult to complete it because at the point when they went on that point it did all collapse, the wall, it didn't stay.

So one saint came along and he said you can never build here, because here the Mother Earth is giving vibrations.

So what they did was to have a dam like this and then it was round like that and then like that, you never find a dam of this kind.

So he has also written, the Englishman has written that there was something wrong with this land, so I had to go around.

So I went to see the place and it is Sahasrāra, simply Sahasrāra. It was a very hot day, but from there the Cool Breeze was flowing so tremendously, especially when I put My foot there.

So they said that now on this Sahasrāra we should build a temple around so people do not step on top of that.

So we have built a temple now there. Near that place they are getting about three acres of land.

So in that lake we can have fishery and in these three acres of land we can have a school for Indian children there in the villages, here they'll educate them according to Sahaja Yoga system.

As we've got international school near Bombay we'll have one school for children in India in Maharashtra in their own language, original language. And there we'll also meet the parents of the children and talk to them about what are the problems of children and parents' relationships.

So that, altogether so many plans we have.

Bolo Jaganmate Śhrī Nirmalā Devī Ki, Jai! And now questions, now good idea, come along!

Sahaja Yogi: Hamid is because he is working in agriculture on University and he hopes he could help.

Shri Mataji: Oh, great! And there is an agricultural university in Rahuri itself a good University.

So many of Sahaja Yogis are professors there so they will join you in and these professors have already experimented with Sahaja Yoga on the crops and things.

So you will be of a great help to them and in all these things children will be given the theoretic and they will be given the knowledge about all the religions of the world to understand how we'll be able to fight the fanaticism from very childhood.

So it is now clear out to you. Now put your minds to it how you can do it. There is another way of expediting the truth. Of course we can only work out things which grow in that particular district to begin with, then in another district the way it is. We have to take one district first, to see how the vibrations help.

So the government itself in India will help us a lot later on. And if we create one district like that all over the world you see people come to the truth. You see this, what this Lady did was nothing: this Mme Theresa. But how she became famous for doing nothing. Compared to that it will be a solid work and then the whole world can come to the logic that through Sahaja Yoga these things can work. We have to have experimental area where we show and proof it actually what happens in Sahaja Yoga.

***Contents: 1983-09-08*, Public Program, Day 1, You Are the Spirit, Sala Borromini, Rome, Italy**

I bow to all the seekers of Truth.

Today is a great auspicious day where I'm here on the birthday of Mother Mary, but today I am going to talk to you about reality and about truth. Whatever is the truth is to be known through the light of your Spirit.

You can see in this world, in these modern times, we have developed so many sorts of things which proclaim that they know the truth. There are institutions who say that they are the ones who are agencies of truth, but we must understand that truth is something that has to be known through your consciousness.

You must know it through your central nervous system.

When we evolve to be a human being whatever we could know through our central nervous system is the real truth and once you know the truth, you reach the source of joy that is your Spirit.

Now, to know the truth, people have gone to various type of enterprises and also to feel joy they have tried all kind of alternatives which now so many realise was not alright because they have landed now in a very precarious position; any day it might explode to ruin this world.

For example, first man thought that if he was a powerful country, or a powerful human being he can overpower others and can grab them and by that can enjoy the power, but somehow at present time we don't think much of such people who are aggressive.

Then people started thinking that joy lies in accumulating lot of possessions, money, wealth and ultimately people found out that that's not really giving joy at all, on the contrary it is headache to have money.

So, some of them thought of having a political change in the structure, but that also has limitations, because something else has to happen within us, in our consciousness, so that we achieve our Spirit first.

That means truth lies much beyond these enterprises.

So far whatever we have worked out, our solutions, are on mental level and even the religion has become a, just a mental projection of human beings. They believe in something blindly and it is just an artificial sort of ritualism to which we go and we are quite surprised how can it be like that. And the mental projection always makes a man extremist and the only alternative they can cling on to fanaticism of the worst kind, where people do not want to even listen to something that is sensible, so running away from these religions is also not a problem... not a solution, or alternative.

So what is the alternative left for the whole human beings? Perhaps the awakening, the awareness that we have to find the real alternative is very, very much allowed everywhere in the whole world. That shows that so many people who are thinking, who are of a higher evolution, a special category, are seeking solutions beyond what they have so far tried. As I've told you that whatever is the truth has to come on your central nervous system, has to be in your consciousness.

So let us see what should happen to a person when he rises higher than human awareness. As you have become a human being, you have to become a super human being, but what are we to get out of it? What will become of us? If we are resurrected, if this is the resurrection time, then what should happen to us? Jung, who was a great philosopher and a psychologist, said that “if man has to rise above in a new evolutionary status, he should become collectively conscious; he should become, is actualisation." When Mohammed Sahib said that “resurrection time will be coming and at that time your

hands will speak about others." When Christ said, “Love thy neighbours, as thyself” He was not meaning mentally, because this mental projection drop out in no time, because if you love your neighbour on some mental basis, suddenly he becomes funny or something goes wrong with him so the all the relationship drops out.

Still, if you say, “I forgive the person” and I can have good relationship with that person or from with that nation, still it is all a mental projection.

Whatever is artificial can not be eternal.

So whatever we have to receive has to be of eternal nature.

Now when we say that we have to be `collectively conscious', that means something has to happen to our consciousness, to our being, to feel others on our hands, on our being.

So it is an actual happening when we see, say that you are to be baptized it's not an artificial thing like some priest putting water on your head and saying, “You are baptized." It's an actualisation of something happening in you.

Now I have to tell you that all that is available to us in our consciousness, is not God. Whatever is unknown is not God, I tell you. The first criteria of this happening is that you cannot pay for God. God doesn't understand money and you can not organize God either.

Secondly, you have become a human being without doing anything, spontaneously, as a living process.

So those who are, those who are now trying to live in the name of God on the money of the people are really

parasites. Christ, for example, did not take any money from anyone, did He? He lived like an ordinary carpenter. He didn't have big crowns on His head, did He? On the contrary, He had a crown of thorns.

So one has to understand that if anything has to happen, has to happen in our subtle being and not in a gross way that believe, we believe that we have been very close to God.

So whatever is there within you has to be understood that the things that exist within you has to work out your ascent. Of course within us also there are other areas where we can enter into like our subconscious or our supraconscious, by which we can get possessed and we start doing things which are not under our control.

When you become something, actually you are in control of it.

Like some people came to My program and started jumping in their seats like frogs. And I asked them, “Why are you jumping like these frogs?" So they said, “We paid to our Guru three thousand pounds to do this jump." I said, “To jump like a frog, why did you pay three thousand pounds? You are stupid." You can always jump like a frog, what is so great? But they said, “In this case it is spontaneous because we aren't jumping, but still we are jumping." So the word `spontaneous' can be quite confusing. If you are jumping, that means you are not under control. And you must also understand: what is the interest of the Divine to make you jump like a frog? Are you going to become a frog in your evolution? So when we go to a naive sort of an attempt, we may fall a trap to this kind of nonsensical idea that if you pay some money

to some false person or to some organization, you will become Divine. Then some other people start hearing some noises, or some sounds in the ears and say that, “We have got a light, we have reborn, we are reborn." I mean this can happen to you if you take any antibiotics or something, you might get this kind of a feeling in your head.

What is so special if you see some lights? If you take LSD or all these drugs you also can see the lights and things in your head.

So reality should not be confused with these sensations and these hallucinations.

Be very careful, that you may end up with some horrible diseases, if you get into these practices.

But now the time has come for you to become definitely a higher personality. As Mister Eduardo has already explained to you that within us lies a power called Kuṇḍalinī in the triangular bone. It is in the sacrum bone and `sacrum' in Greek language means `sacred.' That means the Greeks knew that there is something sacred in it.

So in this sacred bone lies the sacred power of your pure desire, pure desire. This pure desire has not yet manifested, that's why they say it is a sleeping desire. And this has to be awakened. And this power is the pure desire of becoming one with the Divine. And this power can be awakened, but for that you have to be true seekers. If you believe in hypocrisy, carrying on with mythical things, all your intelligence is trying to cheat you. Then the truth won't be given to you. That means this Kuṇḍalinī won't be awakened.

So, Sahaja Yoga means, Sahaja means, `born with you'. Sahaja: `Born with you' and it is `Yoga' means the `Union with the Divine'. The idea of Yoga that you have of bending your body and all that is also very superficial because in that there is no union with anything, so why should you call it `Yoga'? Yoga has another meaning also. Means `deftness', is *[UNCLEAR]* is called as `deftness'. `Deftness, deftness.' Translator: Deafness? Sahaja Yogi [to translator]: Dexterity, dexterity.

Shri Mataji: No, no, no, deftness. What word is that for...? You are deft *[UNCLEAR]*. You see, an expertise. Expertise.

So, once you get this union, you have to become an expert in handling this All-pervading Power.

Now we see the flowers, we take them for granted. We see the flowers becoming the fruits, we take them for granted. All living work we take for granted. We take it for granted, because we cannot do it.

Human beings can't do it. It's the living power that does it.

So as a result of this awakening within us, a new awakening, you become one with that Divine Power, which is All Pervading, which we call as the Cool Breeze of the Holy Ghost. We start feeling, actually, in our fingers, the Cool Breeze and also from our head, a Cool Breeze coming up.

We can do all kinds of manipulation like jumping, dancing, but we can't take out Cool Breeze from our head, can we? This is real baptism. This is what was said, that you are to be born again, not just by taking a certificate that you are born again. Christ has clearly said, “You'll be calling Me, `Christ, Christ,' I won't

recognize you." In the Koran, this Kuṇḍalinī is called as “Assas" and the All-pervading Power is called as “Ruh." In the Indian scriptures, it is called as “Chaitanya Lahari." In Zen or any kind of real religion there is the mention of this. The Tree of Fire described is the same and that “I will appear before you like tongues of flames" also are the Chakras, the centers.

But all those who say that they are responsible for religion have not been able to do exactly what has to be done, because one should have Divine authority to give you the second birth and unless and until there is Divine Authority, the Kuṇḍalinī knows the person who has to do the job and otherwise She never rises.

On the contrary I've read some books about Kuṇḍalinī with very confused people who say that if you have Kuṇḍalinī awakening it is very dangerous. Kuṇḍalinī is the reflection of the Holy Ghost and who is Holy Ghost? Holy Ghost has to be the Mother, the Primordial Mother. For example, you can not have a Father and a Son without a Mother. Can you have such an absurd thing? The Holy Ghost has to manifest now, the time has come.

There was a philosopher in the 13th century who said that, that the time of Holy Ghost has come and She has to manifest. Even the early, very early Christians wrote books like Essenes and they have described Holy Ghost as the Primordial Mother.

That one has to understand that by just stopping one thing completely or calling it a mystery, we have really missed the point but not in India; people know about it, that She is the Ādi Shakti, the Primordial Mother.

So now you have the reflection of the Primordial Mother within you as the Kuṇḍalinī and the reflection of God Almighty in your heart as the Spirit. Spirit that representing the sun element.

So now when this manifestation of the Holy Ghost will take place it will, it is the moon, like the moon it acts.

So the consciousness itself gets nourished.

So far all our development have been extrovert developments, outside, like a big tree growing, but we have to go deep down to our source to get this great tree nourished.

So the new awareness of nourishment has to come.

Today if you see in the world, in the consciousness, I'll talk about it tomorrow, that people are now finding many feminist organizations but they are going in the wrong direction, absolutely, because if the women have to become men, it is a pendulum moving from one to another so that your consciousness doesn't rise, it just moves from men to women, women to men, like fighting going on; a rebellion.

Rebellion is not the word that will result into something great, it is the revolution, so that it moves finally upward, so your consciousness become a higher consciousness with nourishment. Just like the Mother Earth nourishes us, the Kuṇḍalinī nourishes us completely. And you are born, reborn, with a new consciousness which has compassion, which has love, which has forbearing and which has beautifying power. That is the point where we are born, luckily, we are very fortunate.

So this nourishment has to work out and is working out, in many countries wherever Sahaja Yoga is manifested. It manifests in so many ways that in one lecture I cannot tell you all about it, but few things I'll tell you.

Now the greatest problem of this world today is poverty. Disparities. Now when awakening takes place within a human being the, the power starts flowing from his hand, he is empowered with a special power. Now we have done experiments in an agricultural university through some professors who have been awakened. They found out that if you use vibrated water, with these vibrations, then the yield of wheat or anything is about six to ten times more. The production of all natural things multiplies, but not artificially by hybrid or manure, which is dangerous for human body. Thus food problem can be solved.

Now these vibrated yields itself are very nourishing and energy-giving. They are very satisfying. Even if you eat a little of that you feel oversatisfied and very energetic. Now then we have the other greatest advantage is that your health, physical health, gets completely cured. Sahaja Yoga has cured diseases like cancer, myelitis, all these incurable diseases, diabetes, innumerable diseases. For that no medicine is to be given and no expense is needed. Nobody has to pay for it, it's all free.

Especially people in Italy are very melancholy type, melancholy. That's what I learned from Shakespeare; that this Merchant of Venice was Italian and was melancholy. They want to suffer and this is a very wrong attitude towards life. Because like Jews, who denied Christ and said that “We want to suffer” so they suffered

nicely and now they have become aggressive and make others suffer. And the Christians are, have no right to say that they have to suffer, because Christ has already suffered for you sufficiently.

So one has to understand this theory of suffering is not a very healthy thing.

It takes you to the subconscious where you are pestered into a melancholy state and then even worse and this state, I must tell you, that in all My experiments I have seen, is vulnerable to cancer. Parkinson's Disease and myelitis and all sorts of these modern diseases like AIDS are all come from that kind of tendency of man. I have seen it in all my work that all those people who suffer from all such diseases are actually left-sided people who go for melancholy very much.

You should seek joy instead of melancholy and joy is the nature of your Spirit. Tomorrow I hope or day after I will be able to talk about the Spirit, the nature of Spirit and I'll tell you how great it is to be the Spirit.

Extreme of melancholy can take you to another realm also where people suffer from diseases like epilepsy, or they become recluses or they become lunatic. Also people who take too much drugs can go to the left side and too much alcohol also can go to the left side and if they go too much to the left side, they just become abnormal people.

But when the Kuṇḍalinī is awakened, your attention is brought in the center and if it is on the left or the right is pulled to the center automatically and you become a normal, balanced personality for your ascent.

Now there are other side also, to us in the right side where the person is dominating others. Extreme of that we can say are sadist. These people dominate others, trouble others, but they are, they, they are not troubled themselves much. But they get some other type of correcting influences upon them like heart attacks, paralyses.

Such people believe in wars, in quarrels, so they disturb the peace of the world. They are always trying to keep under shock and they frighten people with their ideologies. Like one would say that, “If you don't love me like this, then Christ will punish." Or else if you say to them under complete domination by saying that the doomsday is going to come.

But before the doomsday there has to be resurrection. Before the doomsday there has to be Last Judgement and what is going to happen people who are talking of doomsday? Will they not be judged also? Judgement takes place through your Kuṇḍalinī awakening. That's the only way you can judge yourself.

You don't need anyone else to judge you, because you become your own master and guide.

So your Spirit, your Spirit is the master within you and you have to become that master.

We can understand it through a, an analogy, but don't take it too far: if the left side is the brake, the right side is the accelerator in a car. You try to balance both of them and when you know how to do it, you become a driver. And when you become the driver, you do it spontaneously. You don't have to ask anybody; you know you are driving. It is a state you achieve. But even now

the master is sitting behind, master of the car and your master is sitting behind, is the Spirit. When that Spirit becomes one with the driver, then you start seeing within you the driver, the brake and the accelerator. You start seeing it and commanding it.

As a result of that you drop all your enslaving habits and also the habits of enslaving others, that is making like accidents and you become a free guide of your own being. This is a simple thing which happens because all that is vital is extremely simple. In Austria, seven percent people got their realisation by the end of third lecture, they were about the same number, maybe little more. In every country practically we have people who are realised Souls. It's your own. It's like your own check to be cashed. It's like your check to be cashed.

So we have to see that we all get that Supreme Consciousness within us.

May God bless you.

Now, I would like to have some questions where they should be related to the topic I've dealt with, but not, there's no need to be aggressive with Me. If you are already belonging to any group or anything, you can go ahead with it. I cannot force you to get this. You have to ask for it. If it works out, it's, you are very fortunate. You have to just desire for it. You can ask Me the questions, for about five, six questions and then we will do the process of enlightenment that will take hardly about fifteen to twenty minutes.

That gentleman...

Sahaja Yogini Translator: The question was, do we need exercise Yoga, was necessary to obtain realisation?

Shri Mataji: No, not at all. On the contrary, sometimes it goes against Sahaja Yoga, because we do exercises before starting the Kuṇḍalinī, so it is indiscriminate. In Sahaja Yoga, we may do little exercises, whichever are needed to clear the Chakras, but modern Haṭha Yoga is neither Haṭha Yoga nor Yoga.

Yes.

Sahaja Yogini Translator: The question, the question was if vibrations increase so much agricultural production, how come they are not used on a high scale to resolve the hunger in the world? May I say it in Italian too?

Shri Mataji: I'll answer. You see, it is not easy for people to take to truth. Especially. And especially the people at the helm of affairs. It's very difficult for them to accept anything like that easily. I cured the President of India of his cancer and he sent, he asked the Secretary of Health to come and see Me to do this work for the people in India. But My first of all, it's not a job of curing people; it is giving realisation.

But if you go to the government, their styles are very different. They would like to keep file on everything, put Me through the parliament, ask questions. I am a free bird; I don't want all this nonsense.

But I told them if they want, they can send doctors to Me, I can teach them, I can make them, these things I will teach them everything if they are willing to do. But now, after five years, the land that was allotted to us, they have now got it, now. Can you imagine; five years it took for the red tape to get that land in the hand, to do this work, so I don't know. At this pace, when are we going to really start that kind of a work at that level? But already

we are doing tremendous work, without any interference. Naturally I cannot become an agent into the hands of these people but I'm doing My level best and I would like to know how much you are going to help Me. You, yourself, personally. Let us see. If you get realised then you can cure people also. You can see for yourself if you get realised, but you must first get your realisation. Then you can do it.

[Interruption from the audience, interaction between Shri Mataji and member of the audience:] She's aggressive I think, she's aggressive. She's an aggressive woman! Be quiet Miss. Let others talk now. Let her come and see Me now. I see, let others asks the questions now. Madam? You come and see Me.

Sahaja Yogini Translator: She's asking, I did not understand the question, so she wanted to repeat the question.

Shri Mataji: All right. Now I would say, that you are nice lady, you are concerned about everyone, I'm very happy to know that. Now I would say that I'll be happy to meet you, otherwise, but let others also ask the question, because she didn't understand the question.

Second Sahaja Yogini Translator: My question is, is it a critique of the people who jump like frogs? Is it a critique of the people who jump like frogs?

Shri Mataji: Is it a...? Lady: Of the people who jump like frogs. My question is whether their mistake, because they're taking *[UNCLEAR* siddies], is going too deeply into the consciousness?

Shri Mataji: No one has gone. Madam? If you want to know about it, I'll tell you very frankly, that the director of

this Siddhi course in Scotland, his wife and his child, three of them, became bankrupt and epileptic on the street. Three of them, for your information. And they came to Sahaja Yoga. I have come to know about these things only through people who come to Me and if you want to know more about it I'll tell you. Nobody is deeper.

Sahaja Yogini Translator: She got her realisation, she wasn't there, she left it and she's again here.

She's again new.

Shri Mataji: Huh? What does she say? Sahaja Yogini Translator: She was asking the question about if they went too deep into consciousness, those people who did...

Shri Mataji: No, no, no, no. They became possessed. They became absolutely possessed.

So much so that they had epilepsy. You see, he was the director. The main man of this Siddhi course in Scotland, in Ronan *[UNCLEAR]*. And now, poor fellow, he's bankrupt. He's gone to East, to South Africa, his wife has now gone to India, in a big mess and this fellow, you should read the articles she has given about this man. How characterless is, horrible. His name was Mister Peter Pierce. His wife is there, you can write to her, you can write to him. It's a horrible condition. Yes? Sahaja Yogini Translator: So the first question if there is a relationship between sexual life and Kuṇḍalinī?

Shri Mataji: No, not at all. Kuṇḍalinī is above the sex energy. Of course, if you lead a sane, married life and a good life, it's perfectly alright. You should. You should have children.

And here it is, while Christ has said, “Thou shalt not even have adulterous eyes." To that extent He went. But the Kuṇḍalinī rises above the center. At that time a person becomes like a child; innocent.

Actually his innocence is awakened and that is how the diseases connected with sex and all that get cured.

But that is done automatically, we don't worry about what it is today, but after realisation you just become like that.

We don't tell: “Don't do this, don't do that", automatically you become like that, a great person.

Because you are a glorious personality, you are not a human being, a slave of all this lust and greed.

This one. Yes, please.

Sahaja Yogini Translator: “When we speak of Self-realisation, if we mean an image of the own I, if it is the same..."

Shri Mataji: Ah, I followed. No, no, no, no. Ah. No. There is no image that you see. Please sit down, I'll tell you. No, you become. Like you see the light, so you are away from the light. But when you become the light, you see through the light everything.

So you become. That's an experience to be understood that when you become, that it starts flowing through you, you start feeling it and you just become the knowledge.

[Aside to Sahaja Yogini Translator:] Ruth, how long has been Eduardo, the Eduardo, there? How long Eduardo... no, no, no, no. How long has he been in Sahaja Yoga?

Sahaja Yogini: One year and five...

Now, the Mister Eduardo whom you have seen, has been hardly for a year with Sahaja Yoga, but see how knowledgeable he has become. He didn't know even anything about the Divine! And he himself has given realisation to so many people now.

Yes please.

Sahaja Yogini Translator: “From where comes your security to say that Haṭha Yoga is not a good thing?"

Shri Mataji: No, no, no, no. You didn't hear Me, sir. I didn't say Haṭha Yoga is not good, but the modern Yoga that people are following is not Haṭha Yoga. Didn't hear Me. Now, I'll tell you that Patanjali Shāstra, which was written by Patanjali thousands of years back in India, says that there are Ashtangas, eight-fold. And the first foremost thing is Īshwara Pranidhana, means the establishment of God. And with other eight folds were subsidiary to that, were subsidiary, helpful to that, the seven others. When it was practiced, we had a very different system of education in India, that all young people used to go and live with a realised Soul, as a Guru, realised Soul, who was very learned man and also realised. And if you read the book of Patanjali Yoga which is so big, the exercises, is `Yama Niyama', is a little bit like that, in that, little bit. Original.

But this has happened, these things have happened only last fifty-sixty years, when some people went to some Gurus in Himālayas and were discarded as useless; and they came to know about these few methods of exercises and they came and they started teaching people without any Divine authority.

Now, the thing is, one must understand through an analogy, I'll tell you. Say for example, if you have got a car, it must start, otherwise the machinery won't move. And when the machinery starts moving, you see the defects in the machine, where it is the machine, where it has gone wrong. Now, when the Kuṇḍalinī is awakened, listen to Me, when the Kuṇḍalinī is awakened, then you see which Chakra is out of gear, which Chakra is out of gear.

So accordingly you have to do the exercise whichever is wrong; you cannot take the whole medicine box indiscriminately.

[Aside:] Let Me finish.

But if you do indiscriminate exercises, what happens you become right-sided and you become, emotions become less, your emotions start phasing out, you become right-sided person. Because you just worry about the physical side, there is no love in it, no love, no balance.

And we are not only the physical being, we are also emotional being, we are mental being and we are spiritual being.

So My authority comes from Patanjali himself. I'll tell you all about it if you come and see Me, sir.

Gentleman: [continues to discuss.]

Shri Mataji: All right. No, come and see Me; I'll tell you all about it, it is that only, is the one that is Yoga. Come and see. I am very happy. Now, we should stop at one more, that's all, finished now.

Gentleman [raises the voice and discusses vividly]: [He is saying that Sahaja Yogi Eduardo who most likely spoke

the introduction had `espresso idee piū avanzate della signora' (expressed the most advanced ideas of Mrs.).] Shri Mataji [laughs]: I'm happy you enjoyed him more than Me, I'm very happy to know that ride.

All right. Now, it's all right. Now, let him be. Let him...

Wait, wait tomorrow Madam, you write it down *[UNCLEAR]*. [Tomorrow at] nine o'clock. No, no, no, no, no. Now. No, so many are there.

So many people, you see, so many.

[To the translator:] Now ask them to... Don't... Hello, now nine o'clock I'll put the time. Please, there are so many at the back, so many, alright? Please. I'll tell you one thing. By these mental projections you are not going to get anything. By arguments you are not going to get anything. By lecturing it's not going to happen. Now only thing that is going to work out is your desire and pray for it, it may work, it may not work. There cannot be any guarantee. I'll just try to neutralise your thinking, but actually the Kuṇḍalinī has to come up from here [points to Sahasrāra], that's the main point. We cannot debate with the Divine. Whatever has to work out has to be worked out. If they want to go away, they should go, but you should not disturb in the... [Some people get up to leave.] That's now, let us everyone have. Then you can come and see Me, sir.

Sometime, why don't you come and see? He's a seeker. Why don't you come and see Me? You should come and see Me.

Gentleman [approaches Shri Mataji and says that]: [he wants to know if he can get the realisation, having already received another type of initiation].

Shri Mataji: You see, initiation, whatever you have had, is not our concern. What is our concern is that you get your realisation, you must feel the Cool Breeze...

Gentleman [gets up and say something like]: Respect.

Shri Mataji: Yes, it's alright. Why don't you sit down? Let's try, let's try, must try! [To the translator:] Firstly, let them be comfortable and quiet. And also, if you can take out your spectacles, because eyesight may be better with this, you know... And take out your shoes, also. Anything tight here can be loosened, here [neck] or here [stomach] at the Nābhī. Now please put your hands towards Me just like this, because these [fingertips] are the five centers, this is the sixth [base of the palm], this is the seventh [center of the palm].

So, of the two sympathetic nervous systems [shows the two open hands], these are ten centers [five on the right and five on the left] we have got. Just now, but this is actually fourteen, because it is five, sixth and seventh.

Now, you have to keep your eyes shut, all the time, because the Kuṇḍalinī has to rise and for that you must keep your eyes shut, because attention will be fully inside. But if your eyes are open, the Kuṇḍalinī may not rise, even.

What is it? What's happening there? Yes.

Someone: [is about to speak].

Shri Mataji: Those who don't want to do it should go away, because they disturb the others and you should be kind. It will just take ten to twenty minutes, but if there are people who just don't want to do it and are *[UNCLEAR]*, it troubles Me, it troubles everyone. Please close your

eyes [presses the Sahasrāra]. Now, you have to do the way I tell you, that you put the left hand towards Me which is the power of desire, on your lap, very comfortably.

[Presses the Sahasrāra once more]: Better.

And the right hand is the power of action, so we have to use the right hand to channelize our Kuṇḍalinī and our Chakras.

Now you put your right hand on your heart. At this point you have to say, call Me Shri Mataji or Mother, whatever you like, `Mother, I am the Spirit.' Now, put this right hand on the stomach on the left hand side and press it little hard with your fingers.

[Shri Mataji rubs the base of Her left palm, which corresponds to the left Mūlādhāra, against the microphone. Then She looks at that point and blows on it.] Now you say, because you are the Spirit, you have to assert that: `Mother, I am my own master, I am my own Guru.' You have to say it ten times.

Now please raise your hand to your heart, again. Right hand. And now say twelve times that: `Mother, I am the Spirit.' But one thing is I am finding that you people are feeling guilty for nothing at all. Please do not condemn yourself or try to count your so-called sins, nothing of the kind. We have to come into the present. At this time you are not guilty at all. Because you are the Spirit, how can you be guilty? Now please, try to say twelve times, `Mother, I am the Spirit.' [Shri Mataji blows into the microphone three times.] Now raise this right hand at the base of your neck from front and press it, hold it, on the

left hand side. This center is blocked by people who think they are guilty, or all those who want to suffer.

So you have to say: `Mother, I'm not guilty,' sixteen times. And if you have been always feeling guilty, you should say, I think, thirty-two times.

[Aside:] Very strong. It is a very strong block there. [Long pause.] Better.

Please, don't feel guilty. Say sixteen times: `Mother, I'm not guilty.' You have to be in a happy mood. You must make fun of all this melancholy problem. No confessions in Sahaja Yoga needed. Sahaja Yoga is not worried what you have done so far. Sahaja Yoga is not worried as to what you have done so far.

[Conversation with the translator.] You must tell there are no confessions in Sahaja Yoga at all.

It is for nourishment and for curing everything that is wrong.

[Aside:] Better now.

[Shri Mataji begins to repeat the following mantra:] Nirmalā Vidyā Aham sākṣhāt, Shuddha Vidyā Aham sākṣhāt, Viṣhṇumāyā Aham sākṣhāt.

Today specially, on the special day of Christ's Mother's birthday, you should not feel guilty and unhappy, or melancholic.

[While the translation is done Shri Mataji continues to repeat with the Viśhuddhi finger in Her left ear:] Viṣhṇumāyā Aham sākṣhāt.

Ah! [Shri Mataji makes a gesture indicating that something went away.] Now, put this right hand on top of your head, across your forehead. Hold it. At this point

you have to forgive everyone. By saying: `Mother, I forgive everyone.' Ah, better.

Also, forgive yourself, that is very important. Ah, better.

Just hold it. Now put your right hand on top of your head, at the fontanelle bone area, where you had a soft bone in your childhood. And try to press it. And move it clockwise seven times. At this point I cannot cross your freedom.

[A Sahaja Yogi gives a bandhan with the candle to the back Āgñyā of Shri Mataji.] And you have to say that you want your realisation, you really want your realisation, by saying: `Mother, we want our realisation, so please give us realisation.' Please say it seven times.

[Aside:] Better.

Now, raise your hand higher and see if you are getting the Cool Breeze. Higher, higher. Little higher, about five-six inches higher. Five inches. Now you change your *[UNCLEAR]* to the other side and put your right hand in front, like the left hand and feel with your left hand. See if there is Cool Breeze coming in. Don't think, just now.

[Shri Mataji blows into the microphone.] You can change your hand and see again with the another hand.

[Blows again.] You can go on changing your hands and seeing for yourself. You can see on each other's hands also, heads, if there is a Cool Breeze. Without touching them. See in your hands if you are feeling the Cool Breeze, now. That's good.

You may open your hands clearly and also your eyes. Hands, full hands. Now, I will also tell you how to raise your own Kuṇḍalinī. Try that. If that works out, you might feel strong wind in your hands.

So put this left hand, as it is you see, in front of the Kuṇḍalinī while sitting down. The left hand, all of you.

And now, with the right hand, you start moving your right hand, action, like this, upward, forward, downward. Just try. Not the other way round. Just see how I move it: forward, downward, upward. Take it on your head. Take it on your head and tie it up. This will do, now three times you have to do it. I hope you have followed: forward, downward, backward, upward, like that, clockwise.

Now, start again now, three times. Go up on your head, quite high and just tie it up and put a knot.

Again. Take it up, high up. Tie it up. This is the third time, when you have to put three knots. Put your head up and tie up: one, two and three. Now, see in your hands. Now put your hands up and see if you can feel it on top coming, something in your hands, the Cool Breeze. And ask: `Is this the breeze of the Holy Ghost?' Ask in your heart. Good.

So many of you have felt it. Now put your hands again.

You'll feel very peaceful, after this. As it is, you're not thinking much. There is no thought in your mind, you're beyond.

So when you go home today, tonight, don't talk too much, have your food and sleep off. Within three days I'm sure we'll be able to establish it, your Self-realisation.

***Contents: 1983-09-09*, Public Program, Day 2, Talk about Christ, Sala Borromini, Rome, Italy**

I bow to all the seekers of reality. To know the reality is only possible if you're connected with your spirit.

Without that, whatever you know is all on human level.

Now, somebody asked Me a question, that if you just say, “ `Hail Mary' or if you say `Lord's Prayer', then will it not also allow the plants to grow?" Now it is our experience that it did not do anything by saying, `Hail Mary' or `Lord's Prayer', so far. By chance, something has happened, but it was not definite, that it will happen, when you said all these things. It is very simple to understand, that without the connection with the Divine, how can we communicate? For example, if this instrument is made, it also has got with it, the wire, to connect itself to the mains.

So, if you do not connect this instrument to the mains, it doesn't work, the instrument is artificial.

So when you say `Hail Mary' or you say `Lord's Prayer', you are telephoning to God without the connection within. This has given two kinds of reactions to people. First of all, to say that there must be something wrong with us.

So God did not listen to us or to say that there is no God and this is all not true. It is today, at this time, the whole world is on the brink of giving up the faith in God. Because it is a blind faith. You are told that this is the faith you have to take without asking any questions.

You may call it any `ism', like the question was that, “What is the difference between Christianism, Christ and Self-realisation?" Any `ism' is not a free thing.

So I would say that Christ is the truth. But whatever we have built up with our projections, if it is Christianism, then it is not true. If it was the reality, we should logically approach the subject, then, we would have become different people, being Christians.

Now let us see, how Christ's life is not depicted in the so-called, Christian religious people. Of course, it is true, that this happens with every religion, because every religion has become a `ism' now. But as the question is about Christianism, then I would like to deal with it as it is.

So we must find out, logically, what we have achieved through believing into things like this. Now, just see Christ on the cross forgave the people who crucified Him. What compassion and what love, that He was worried about the people who crucified Him. But if you see the Christian nations, say Europeans, as you can call them, I mean, they have been one of the most aggressive races. You have to admit it. I went to South America, to Chile and to Argentina and I couldn't find one aboriginal there, not one soul left there. “What has happened to them?" I asked. They said you can just meet them in some museum, as a picture.

So, despite all Christianism, what we have been are, we are aggressive nations.

So one has to realise that this doesn't give us what Christ wanted us to be, to forgive those who aggress against us. That these nations thought them to be superior nations, higher nation, that they had right to suppress everybody else around.

The second thing Christ has said, that “it is said in the Ten Commandments that `Thou shall not commit adultery,' but I say verily to you `Thou shalt not have adulterous eyes.' " It is hard to find a person without adulterous eyes in the West, I must confess it.

So this has not made us more righteous, more compassionate, more loving towards the whole humanity.

The third thing, which is even more dangerous, is that Christ has said that you have nothing to do with dead spirits. Today, all the Christian religions or all the Christian nations are indulging into some kind of this pursuit. The first basic thing, most surprising is that all dead bodies are in the church, of these bishops or somebody, who are not even realised Souls.

So these are not churches but like cemetreies. We Indians feel frightened to step on them because we know that you are not supposed to walk on the dead bodies like that.

So, that is not Christ at all. None of His qualities, you find, being imbibed by following Christianism.

Now, the other teachings which are out of Christ's life is that His message of His life is resurrection.

But not His cross. He suffered for us and it's the end of all our sufferings.

Now, on a subtler way, try to understand where is Christ positioned within us and then you will understand what I am trying to tell you. In this picture, if you see, the two sides, the left and the right side cross at a point where you see this red mark on My head, inside the brain. Where there is the Optic Chiasma, where it crosses, near the pituitary and the pineal body. There lies the principle of Christ. Now, if you see that the Kuṇḍalinī's door to pass through is that one, is the constricted part, is the door, that's why it is said that Christ is the door and everyone has to pass through that. Because over-activity

of the sympathetic nervous system has created this kind of a very, very solid type of attachment which cannot be crossed easily. Because of the ego and superego crossing over each other, they press on each other like two very hard balloons. This is the cross.

Now, what Christ has shown by His life, that eternal life is not killed by anything, by His resurrection.

This was the greatest job, is to pass through that very narrow space, crucifying Himself, He proved it that life has to be resurrected.

On the Easter day, we give everyone an egg. But we don't know why we do it. Now, this egg represents our state, of human state and from the egg, with transformation, you come out as the bird, as the second birth.

So you have to become the bird after this egg stage because your ego and superego press you here and you get your own `I'-ness, like an egg.

So this is actually the second birth which Christ has said that you are to be born again. But we just believe that we are born again and we just live in this faith which is dangerous.

By ascending through this door, which is the Christ, you reach into the area called limbic area in human beings, which is the Kingdom of God. But this portion also has to be pierced through to get out of it completely to feel the source that is around it. This is the reality of baptism. You can see with your naked eyes, in many people the pulsation of the Kuṇḍalinī. If it is pulsating, that means there is some sort of an obstruction in the being. But if it is a normal body and a normal personality, then

Kuṇḍalinī shoots off just like a jet and comes up. This is what has to happen in reality if you want to have your second birth.

It's the subtler awareness that comes into you. You start feeling in your hands, the subtle All-pervading Power around you.

So, as I told you yesterday, no use giving a sermon, talking about you, talking is not going to create the reality. We can talk anything we want to. Does it become reality? And He has predicted that “I'll send you the Holy Ghost; I'll send you the counselor; I will send you the redeemer; I'll send you the comforter." If there were two disciples of Christ, they would have waited for this time to come. But somehow or other, anybody who put forward the idea of Holy Ghost, they shunned it, they never talked about it. Of course, it did introduce Christ to people, also told what is the righteous life is. But gradually it started losing that effect upon itself, as we had at the time of *[UNCLEAR]* and started becoming more a sort of a political institution that deals with politics. Christ was never a politician, was He? He was a carpenter's son and He lived like a carpenter's son. Did He live in big palaces? Whatever is His status of life, He lived with it.

So one has to realise that God's work does not need any money. All the God's work is free.

And whatever is vital is the simplest of all. Look at a tree. How it grows from a little seed into such a big tree and then how it flowers and then after the bloom, how does it become the fruits? Who does all that difficult work? Now, when you're raising the Kuṇḍalinī, many a times, I have seen, it stops at this center. If you're too much futuristic,

if you think too much, if you plan too much, then this center catches.

Or else, at the back side, because it has two petals, so at the back side of it, if you are a person, get dominated too much by the spiritualists, or the charismatics and all this kind of thing, then the left side catches at the back.

So what you have to do at that time is to take the name of Christ, not the person who is not connected, but the one who is connected. You can say Lord's Prayer. You say thrice, the Lord's Prayer and the Kuṇḍalinī rises up there. But not the person who is not yet realised and who does not know exactly how to say the Lord's Prayer. But the one who has realisation and who is a twice-born real Christian can say that. All these years, all these Christianisms have created an army of haters of Christ.

It is very surprising. When you talk to some of them, they say that we believed in Christ. Still we suffered so much. Like I found it in Argentina, people said that “He was poor, He has made us poor also." Apart from that, when people find out that there is no truth in all these things, they form groups against the God's own principle that is Christ. You'll be surprised, in London so many churches are sold as pubs.

So we have two groups of people, those who have denied Christ and those who are blindly supposed to be with Him.

But reality is in the center. Not in denying nor in accepting. Because if He is the truth, then one has to get to know through the spirit.

Enlightenment that they call it Self-realisation or they call it the second birth or baptism, is all just the same and in

Quran, it is called as to be the peer are all the same things, are done by only one thing, is the awakening of the Kuṇḍalinī.

Actually, as soon as you cross this point through your Kuṇḍalinī, you get certain powers. You get the power to cure others. You can raise the power of other people up to this point and so up to the Sahasrāra, up to the epitome of this, you can take it out from there, what we call the Brahmarandhra is there, whole of the Brahma, is the All-pervading Power.

So the Kuṇḍalinī is the spiritual power of the primordial mother. As she rises, one by one, by the centers, she nourishes them, as the womb does nourishment. First thing that happens to you, that you feel good health.

So many diseases can be cured only if Kuṇḍalinī can come up to your Nābhī Chakra.

But subtle ways happen to you when she crosses over from this center. You become thoughtlessly, aware, you become.

So you find there is no thought. But you're aware. If you want to think, you can think.

Otherwise, you are in silence.

So one has to understand that it is not possible to stop our thoughts by ourselves.

Now, when the thought is stopped, what happens is that now, see for example, I see this beautiful painting on top of this nice ceiling and I see it without thinking, I do not think who has made it, how much time he must have taken, how did he go up, how much it must have cost... There is no thought at all.

So, like a lake, which has no ripple in it, all that is created around it reacts completely into that. Now, that joy, the joy of the creator, which came through the artist, is all there and I just feel the joy pouring down my head like that.

So, a thought rises and falls off and another thought rises and falls off. Now, there is a space in between these two thoughts. Thought may come either from the past or from the future. When it comes, we see but we don't see where it disappears. In between that, is a very small space of present.

But we live either in the past or in the future. But if I say that you have to be in the present, absolutely then you can't do it. It's not possible because always there are thoughts, pushing you either to the present [past] or to the future. But when you become thoughtless, then you are in the present.

So one has to realise that the first consciousness you develop is called as thoughtless awareness. In the `Patanjali Yoga Shāstra', it's called “Nirvichar Samādhi." Now, once you have this, you have to go to the second stage, when you rise above this and pierce through this, then this state starts settling down and the gap starts increasing in size.

So that's how your spiritual growth starts now.

Then you start using this power which flows through your hand and you reach a state where you become, we call it as `Nirvikalpa Samādhi', where there is no doubt.

All the knowledge dawns upon you. As you have seen Eduardo or any one of them, they now know the knowledge.

So knowledge can be only known through the spirit and that is why we have to be the spirit.

Before that, it is darkness, like the story of the elephant, everybody reaches some mental conclusions.

Like, there were nine blind people and they wanted to feel the elephant.

So somebody felt the leg and he said the elephant is like a big pillar. Another quarreled with him, he said no, when he felt the tail, it is like a rope.

And somebody felt his ears, he said no, it is like a fan. And they were all fighting with each other, thinking that they were absolutely correct.

But when their eyes will open they'll say that everything is correct and elephant is something different.

Like that, happens to human beings when there is light. When you enter in the room, I've to just tell you that there's a switch and when you put on the switch and the lights will come in. Otherwise, there's darkness. And you just switch on and you're amazed to see that the whole room is enlightened. But behind this procedure, there's a big history of electricity, there's a big force working, there's a big organization.

Like one gentleman in London got his realisation and he was little bit skeptical about it. And he said that in collective consciousness you can feel another person, isn't it? He said that I'm worried about my father. I want to find out what's the matter with my father.

So I said, “Alright! You just feel with your hands, find out." His father was in Scotland. He telephoned to him and first he felt it and he said that Mother, I'm catching

here on this Chakra, a very tremendous heat and burning. Now, these centers are all for the father and these, for the mother. And this finger is for the Viśhuddhi Chakra.

So I told him he must be down with severe bronchitis. He telephoned to his father. His mother came on the phone and she said he's down with very severe bronchitis. Exactly, the same words as I said.

So when the Kuṇḍalinī comes above this, you become collectively conscious. And when you start establishing yourself, then you also become doubtlessly aware.

Now another lady has asked Me a question that you become a superior man and another, better man than others. But in a way that we understand superior is like somebody who is like Hitler. It is not like that you become. But you become a person who can witness the whole thing as a drama. You're not involved in the whole game. Like if you're in the water, you have fear of the water, but if you're taken in the boat, you can see the water very well. You're in no way superior or you have a superior complex than the man who's drowning. On the contrary, you have such compassion and such power that you can save that man who's drowning. Actually, when a man is the super-conscious, then he is beyond any domination from any habits. He's a man of great courage also. But not for domination but for protection of the ones who are suffering.

Like Christ, when He saw Mary Magdalene was stoned, He stood up and said those who have not committed any sin, can throw the stone at Me. But, He has nothing to do with prostitution.

So people try to confuse everything and call it religion. Like our Church of England owns the *[UNCLEAR]* which is the property lived by prostitutes. And when they were asked, “Why do you do it?" they said we are protecting them like Mary Magdalene, you see, living on their earnings. When Mary Magdalene came to Christ, she was transformed completely into a beautiful, sinless person.

So, one has to understand, in this ascent, you do not dominate others, nor you take domination from anyone. Christ crucified Himself. He need not have done that. It was a drama He had to play. I told you why. Because He had to cross through that gate. He deliberately did not tell that His mother was the Holy Ghost, the power behind Him, because He didn't want to direct the attention of the other people on Her. Otherwise, He would have come out in His true self. And the whole drama would have been finished.

Christ has got eleven powers of destruction, the highest. And when He will come on His white horse He is just going to destroy all those who have denied the Divine. Michelangelo, who was a realised Soul and Sistine chapel, is a very good example to understand what is going to happen to us. He has not shown Christ as a hanky-panky fellow, with only bones hanging down, miserable, but a robust young person, throwing people, right and left. If you go and see Sistine chapel, you'll realise what I'm saying, that He's standing at the Āgñyā, the whole of the Kuṇḍalinī's shown. The Āgñyā Chakra and on top is the Kingdom of God. While I was so surprised that at the table there, was kept another miserable picture of Christ, with all the bones showing. I

don't know why they want Christ to look like that. He carried such a big cross on His shoulders. Let all these people try once. With that tubercular-like looking body, do you think He could have taken that cross across? I don't know how they can represent God like that. To Me, it all again a kind of a play on your mind.

Now it is for you to understand that you first get your realisation. That's your second birth. And then you become your own guide. These vibrations that will flow from your hand and from your head will guide you. Now, if you ask a question, `Is there God?' tremendous vibrations will flow. When it is positive, then tremendous vibration will flow. But if it is negative, then the vibrations will stop. Maybe also get some burning. I'll tell all about it tomorrow again, in complete details. But to end up, I'll tell you how relatively you can decide that vibrations are true.

In India also, we have great fanatics. And once, My program was arranged in their hall. They call themselves Brahmins. Brahmins are the one who are called Dvijah, means twice-born. And Brahmins means, the one who knows the All-pervading Power that is Brahma. But they are self-certified people.

And I did not know that they opposed My going there in the hall because I was not a Brahmin, according to them. And they came and sat in front row with a very aggressive mood before Me. I just said, “Who are the Brahmins among you. Come forward. Who think they are Brahmins should come forward." They all said we are Brahmins and their hands were shaking like this before Me. I said “Then why your hands are shaking?" So they

said, “You are Shakti, myself, the power. That's why they're shaking." So they said, “Look at these others, they're also shaking, few." I said, “Go and ask them." The man who brought them, he said “They're all certified lunatics and I have brought them here to get realisation so that they get well." So all this kind of faith, blind faith and believing that you are on top of the world is another kind of a lunacy or beginning of a lunacy.

When you rise in your ascent, when you receive the blessings of your spirit, you become a wise, kind, compassionate personality. You're fearless and you speak everything through your heart. You cannot purchase such a person. You cannot give him anything whatsoever. If you give him one flower, he gives you ten flowers. He cannot live on you as parasites. Such a person has no interest in your position, your purse, in your wives. Such a person has to be above everything else, so the bliss of God flows, so that you're blessed.

May God bless you! I have tried to cover most of the answers to your questions that you gave Me in writing, except for you asked Me how to fight the negative forces, about which I'll tell you tomorrow. And if you have any other questions you can describe them now. I'll answer them. Thank you. Now, tomorrow we are having a program in another hall. I know where. You all know about it, I hope so, which is a bigger hall and hope to see you there. Now you please be seated. I want to give you realisation.

Contents: 1983-09-10 **Talk to the New People, Ruth's Flat, Via Mercalli, Rome, Italy**

... we go to the essence of *[UNCLEAR]* everything, to the root of everything.

Gregoire: [translates into Italian].

Shri Mataji [interrupts]: Now...

Gregoire: [completes the translation].

Now if, if there is a disease on a leaf, if there is a disease on a leaf you cannot throw out the leaf. We have to go to the roots to find out how the diseases is showing out.

Sahaja Yogini: [translates into Italian.] So the... we have to go to the roots.....

***Contents: 1983-09-10*, Public Program, Day 3, To All the Seekers of Joy, Auditorium of the National TV Studios, Rome, Italy**

I bow to all the seekers of joy. I've had many, many questions from the last lecture. And gradually in My own lecture you will find, I have tried to answer some of them. But only possible to divert all My today's lecture on those, because I want to tell you about the spirit. It seems there is someone who is a learned man about Indian philosophy and I was happy to know that he has also studied that. Because all that is not so known to the Western world, I didn't want to bring it in.

[Aside:] Will you please sit down in your place and don't disturb everyone, this gentleman I don't know why he wants to disturb. Why don't you go? Yesterday he was misbehaving also for nothing at all.

This gentleman has asked a question about spandakarika, is a word which is used for Kuṇḍalinī which creates the spanda. Spanda is the pulsation. Whether

this is the same? Yes, it is absolutely the same, but it is not any ism, like what you called as shaibaism.

In the sixth century we had a very great saint in India or you can call him a incarnation or a great master, called Ādi Shañkarāchārya, who has very clearly said that Kuṇḍalinī has to be awakened Sahaja. He wrote many treaties like Viveka Chūḍāmaṇi and all those. And then he got fed-up with the intellectuals.

And he got so fed-up, he wrote his last book as Soundarya Lahari. And in this he describes that the Mother's powers, the power of the Primordial Mother, the Holy Ghost, the Ādi Shakti. And just he has sung the praises of the Mother. And people said that, “Why are you wasting your intelligence in this?" So he said, “All these thinking and reading has made human beings absolutely mad." Because too much reading, thinking creates dogmas. And once you start reading too much about something, you just form your own ideas. And by that you really become a stupid person, in the sense that you start forming `isms'.

But He has clearly said the “ `Yogen', `Sankhena', by all these philosophies you are not going to get there.

It is the Mother's grace that is going to work it out." So those who have read a lot about philosophy, any philosophy, must know by reading you do not reach there. For example we were coming from Tivoli and we saw a sign to Rome. And if we had stuck up there and at the sign only saying, “This what is written in and start reading it” we would have never reached Rome.

Like another great personality in India, Guru Nanaka. He says that, “Unless and until you know yourself, unless

and until there is Self-knowledge, your confusion cannot disappear." But those who follow Guru Nanak, go on reading the book that He has described of the poems of realised Souls, to read. They go on saying that, “Unless and until you know yourself, you can not get out of the confusion” they go on remembering it by heart, saying for hours together, like this. But this is not the way, because if somebody gives you a prescription saying that, “You should take this medicine” and if you just go on remembering, “I should take this medicine. I should take this medicine” how will you treat yourself? So by reading too much you condition yourself and form an ism. And you get identified with that knowledge. And once you are identified with that knowledge, so-called, you do not get to the point what is described.

So by reading at the most you can get the idea or a logical conclusion you might arrive at: what to do; how to achieve; what to expect. Like Christ had said, “You are to be born again." So in the church we get up and say, “All right, let us sing the hymn, a number so and so. We have to be born again." And we go on singing this song again and again. Then we start believing that we are already born again. In Geneva I met some people who came themselves, called themselves born again and they brought a Bible to hit Me.

So this kind of development that is within us must be seen and faced if you are a true seeker.

There were many other questions about Me also. Whether I was a spiritual master or I am an Avatāra or who was My Guru, all sorts of things. I would say, you

better find out yourself. Christ said that, “I am the path. I am the light” which He was.

So people crucified Him.

So it is wise not to say anything about yourself in these days, because the ego is so developed in human beings that they don't see that they are the losers. Anyone who pampers their ego, is a very great man. But anyone who makes them the Self, the Spirit, is not liked so much. In all the countries, in the whole world you will find all the people who propounded truth were tortured completely. Nobody wanted to listen to them. This is the problem.

When they die then we build up big organizations in their name but when they live, we never listen to them.

So now it is time that we should seek our spirit and the reality. That is very important.

Now today I have decided to speak of the reality. The reality is that you are the spirit. The rest is a myth. Shañkarāchārya called it as Adyavtya. He says that, “The Brahma is the only truth. The rest is all myth." Like Christ has said that, “Seek your eternal life." So this All-pervading Power of God, which is a subtle power, is the only truth. And the spirit is the only way we can know it.

Now what is the spirit? The nature of spirit is three-fold. When our Kuṇḍalinī is awakened and we cross through this fontanelle bone area, it touches the seat of the spirit. But the spirit resides in your heart.

As soon as it touches the seat, you start feeling a Cool Breeze from your head. One gentleman today came and told Me that he saw one Sahaja Yogi emitting silver thread-like lights from his head. And I told him that is

nothing to be afraid of. But if you are not normal, your prism-like perception starts seeing it, either as a gold colour or as silver colour. If you are a left-sided person, you see a silverfish light. If you are a right-sided person then you see a golden colour. But if you are in the center you don't see anything, because when you are there, you don't see anything.

So the spirit when it manifests itself within us, it first enlightens our attention. That means it makes our attention collectively conscious. It makes it. It actualises. You become collectively conscious. Like we say that we are very great friends, but as soon as there is a quarrel we drop out our friendship. But when you are collectively conscious you start feeling another person on your fingertips. This is what Mohammed Sahib has said that, “At the time of resurrection your hands will speak." He has written so much about resurrection, but no one wants to talk about it. All of them are talking about the dooms day to frighten everyone, so that they can take full advantage of that fright and dominate with intimidation.

So one has to understand that when you become collectively conscious you start feeling another person on your fingertips. Even sitting down here you can find out about someone, what's wrong with that person.

So the messages come on your fingertips. Your fingertips have got all the sympathetic nervous system endings. For example, a person who is overactive, thinks too much and he is a futuristic, you will find his right hand side might start shaking or may, you might get warm from that person.

Such a person can suffer from liver, from diabetes, from all diseases which are caused by futuristic life.

Such a person gets a very active heart and such a person can die of heart attack also. Then on the left hand side, a person who is a lethargic person and always worries about his past and is in a very unhappy mood, gets a heart called `lethargic heart'. Now such a person if you feel about his vibration, you will have a left hand absolutely not giving vibrations or may be there is some sort of a burning or could be some numbness on the hand. If the heart is catching of someone, you get a burning sensation on this finger here, left Heart. There are many other causes which bring forth this heart trouble. You don't have to go to a laboratory to find out, to diagnose a person. By fingertips only you can find out what's the problem of the patient is.

It is very surprising that Sahaja Yoga has been predicted about fourteen thousand years back by the greatest originator of Indian horoscope method, called Bhrigu muni. And about 300 years back a gentleman called Vagandar who tried to bring it up-to-date, predicted that according to this Nādi Granth, this should start in 1970. And we started Sahaja Yoga in 1970. But the most interesting thing he has said that if people take to Sahaja Yoga, there will be no need to have any hospitals or any doctors. Kuṇḍalinī is not a new name, for Indians. And it has been described in the same prediction that the Kuṇḍalinī will raise spontaneously, Sahaja.

There are many people who have predicted about this happening, specially a great seer called William Blake from England, about hundred years back. He has been

extremely precise. He even said about the house where the first ashram will start, the exact place. Even My houses, two houses, He described exactly, exact spots. He calls the seekers as “Men of God." And He says, “Men of God will become prophets and these prophets will have power to make others prophets." That is exactly what is happening now. Those Sahaja Yogis who have got realisation, can make others realised and can make prophets. And that is how Sahaja Yoga is spreading so fast all over the world in a proper way.

But not like a fake Guru where you have to make plastic. It is very easy to make plastic flowers. But if you have to have a real flower, it has to become.

So in Sahaja Yoga you have to become. If you are very well read, if you are a very rich man, you may be a powerful person, makes no difference. Like this man who came like a lunatic, believes that he has got the key to finish all the problems.

So whatever funny conceptions you may have, is the main thing, is what do you become, is the point in Sahaja Yoga. We have to become collectively conscious. You cannot have a certificate. You cannot have an organization.

You can not say that, `I am a realised Soul.' But it is the growth in you that has taken place that you have ascended to be the spirit, is the becoming that is important.

So Sahaja Yoga is not meant for people who are shallow by nature, or not meant for people who are not deep enough to seek. It's a special category of people who are seekers. They are the only ones who can really become

Sahaja Yogis. You cannot force it. You cannot pay for it. It's a living process of the living God of the living evolution. Like a seed which is good, if you put it in the Mother Earth, it sprouts by itself. A person supposing gets cured through Sahaja Yoga, he thanks Me for that.

So I tell him that, “I have not cured you." Because if you are part and parcel of Me, say this is My finger is sick and if I rub it and cure it, will I thank these hands? If you are not the other, how can you thank Me? You are part and parcel of Me. But this is not only talking. It is there in the central nervous system.

So your attention when enlightened by spirit becomes collectively conscious. Then you find that your own understanding about life starts changing into new understanding. You find completely integrated within yourself and watch the whole thing as a drama. You become a witness of the whole behaviour. It happens to you.

Now a question was asked whether you become an ascetic or you become detached. Now there is a confusion on this, very much. You think the one who wears a dress like a saint or an ascetic and who gives up his wife, family and runs away in the Himālayas, a ascetic, he is not. Because if goes and builds there a compound for himself with lock and key, then he is not an ascetic. He is ascetic from outside. But you become ascetic from inside. You are not attached to anything. Everything is there but you don't get attached. I will tell you a story of Rāja Janaka who was a great king in India. He was called as Bidehi, means an ascetic. And He was a

king and whenever He went to any Ashram the saints used to get up and touch His feet.

So one disciple of a Guru got very angry, his name was Nachiketa and he said, “How can you all touch His feet when He is a king and enjoying the life like a king, living like a king, wearing a crown? How can you touch His feet?" So the Guru said that. “He is the primordial master." To Him it does not matter whether He lives in a palace or on the street.

So this Nachiketa went to Him to see.

And he was very bold and he told him that, “How can you call yourself a king and also an ascetic, allow people to call you an ascetic?" So He told that, “All right, tomorrow we will go to the bath together in a river." And He told him now you go into meditation. I am going into meditation.

So the people came and told that, “Your palace is on fire." Still He was meditating. Then they said that, “All your things are being burnt. Your children and families are running away." Still He was meditating. Then they came and shouted, “Now the fire is coming here and all your clothes will be burnt." So Nachiketa ran out of the water to catch hold of his clothes and to look after it. But He was still meditating. After sometime He came out and Nachiketa said, “Aren't you worried about your palace being burnt, everything being burnt?" So He said that, “When you live in the realm of Divine Power, the Brahma, that looks after you." After realisation you start feeling the blessings of the Brahma Shakti of that All-pervading Power which is called as Ṛitambhara Pragñyā by the Patanjali Yoga Shāstra.

So this is what you have to feel the blessings. It has many folds. But you can see as I told you the other day, how our Ricardo [She may mean Eduardo, because in the program two days before She mentioned Eduardo] came only a year back and has become such a learned man today.

So how suddenly a person becomes so much knowledgeable.

Because the second nature of the Spirit is Truth. Truth is absolute. There is no compromise into, there can not be any. Supposing you want to find out about someone, who is a true Guru or a fake Guru. If he is a true Guru, you start getting a cool vibration in your hand. If he is fake, you may not get vibrations at all. And if he is a devil, you might even get blisters.

So to find out about absolute things also like a computer, you get your computer started. All absolute questions are answered. If there is a mad man, you will start shaking. If there is a saint, you will start getting Cool Breeze in your hand. There are so many things one can tell about, the truth that you are.

So you become the truth.

The third nature of your spirit is joy. Many people confused the joy with happiness. If somebody is given a very big send-off and there is a party in his name and a big pronouncement is made that he was such a great man, he did such a good work and all that, the fellow feels very, you see, attered. And then when he is attered, he thinks he is very happy. This is the ego part. But if somebody punctures the ego somehow, then he goes absolutely useless. And you, of many people like this.

Supposing today somebody is a big man, a minister. He walks with a nose upward. But when he loses that power, he looks on the ground only. When he is something great, so-called, he wants to see how many people are appreciating him, around him. But when he is nothing he starts feeling so low that he doesn't want anybody to see him.

Now another question was about ego and superego, if we develop both of them highest, then what can we achieve? One would become a lunatic, because these are like two cuckoos. The ego when it develops too much, he is a sadist. And when the superego develops, he is a masochist.

So one develops at the cost of other. How can you develop both of them and even if you develop, it will collide. You are not to be your ego or superego. You have to be your self. And the journey is very short. And if that happens, if you get all these blessings, why not have it? So in that swing of ego and superego, we should not move like a pendulum but we should move in a spiral way for our evolution. It's a spiral movement, to jump onto a higher level where you become the spirit. It is as parallel as we have had those spacecrafts. The evolution has been like this, that as we have one container, then another container in charge, another container, another container, like that. Like, first the physical containing everything rose high, then blasted off and gave an acceleration for the second one with the mental container.

Then it blasted off, came another push to the emotional one. And the last one came out as the spiritual container.

And ultimately it shot up into the space. Actually this is the way Kuṇḍalinī starts triggering you inside.

So one has to understand that to evolve yourself you have to become something more.

So now you become the joy. You start enjoying everything. I find sometimes very difficult to walk with anyone who is not a realised Soul to a beautiful place. Because I am enjoying the beauty of the place and this fellow is on how much it must have cost and it must have been very dangerous and it may even fall down and all those nonsensical ideas. These are all joy-killers. They make you so unhappy and so miserable. Like you meet someone, immediately he starts telling you, “Oh! That man is not good. That fellow is very bad. That man has done this” like that. And they would be very happy with a devil because they have no sense of joy. A very simple man can be also very joy giving. A little child could be joy giving.

A flower could be joy giving. But to this man, it is his ego that gives him happiness.

This is what Zen has done. But those who study Zen are very difficult people. Without realisation how can you do Zen? Zen is the same as meditation and you cannot do meditation. You have to be in meditation. Now you are paying attention to Me and I say, “You pay attention to yourself” how can you do it? When you are in meditation your attention is inside. But how can you do it? Only when the Kuṇḍalinī rises. Her movement upward, catches your attention inside.

So you know about your centers as a Selfknowledge and you know about others' centers.

Like you know who is a realised Soul, who is not. The person who is a realised Soul will give you joy. The joy starts coming on your head all the time like that, pouring down in your being, making you absolutely calm and beautiful. But the ego locks off your heart. It does not allow you to laugh and to enjoy. It makes you serious. But this is all the play, the leelā of God, to be enjoyed in its complete purity.

And it's so great that you cannot describe it but you feel it within yourself.

I give you an example of a... *[UNCLEAR* her] once She met a Sahaj Yogini suddenly in Sicily. And by vibrations they felt that they were Sahaja Yogis. And they embraced each other with such joy, with such happiness, “Oh God, you are here. I am here too." You must see the Sahaja Yogis from the West, when they go to East, in the villages, in simple places where there are a very simple Sahaja Yogi is living, the way they embrace each other, feel happy, the tears start flowing their eyes. “Oh, we have met another saint. Another saint is there, sitting here. We have met him." So the Sahaja Yogis are that special race of evolved people. They do not dominate anyone. They love everyone. This love is without lust and greed.

It is pure love and it is pure joy. May God give you that blessing to be the Joy. Don't be identified with anything else. There was a great poet called Surdasa, in India. After writing a very big book, known as Sukh-sagar, He says, “Surdasa ki savi Avidyā dur karo Nandalal." “Oh Kṛiṣhṇa, please remove all these non-knowledge from me." That is what is also in the Vedas. The first verse is

that, “If by reading this if you are not to be thee, means if you not become the knowledge, it is useless." In this short time whatever was possible for Me, talk about Christ, other things I have talked. But this talking has no end, I tell you.

In London at least I must have given thousand lectures and they have got tapes.

If you want, you can have from them and listen to them, on various subjects. And still they always say, “Mother you always say something new." So much so, now I want Sahaja Yogis to speak instead of Me speaking, because it is too much. And I am sure a day will come when they will speak instead of Me and I just give realisation sitting down nicely.

Because this is the nourishing power. It nourishes you in everything. Like a mother sees her children growing up and nourishing themselves and becoming great, that's her achievement. As I told you for the first day that now the new type of awareness has to work out.

So far the masculine movement was there.

People wrote about God, talked about God, preached about God, did a lot on the manly side. And the tree of life grew too much outside. But now the time has come for the Mother Earth to nourish, the Kuṇḍalinī to nourish. She is the Aquarius and this is the age of the Aquarius. In Sanskrit language called as Kumbha, which means they worship before every Pūjā.

So it is the feminine qualities that have to nourish. Of course, as I told you, it is not feminist, which is absolutely another `ism'. Women trying to become men, that's ridiculous. Again the pendulum. But now when all this

growth has taken place, like this instrument is made, now let it go to the mains.

So men these modern times, who are compassionate, who are forbearing, who are nourishing, will be worshipped. And not men who try to aggress others. Like I would say Abraham Lincoln, Mahatma Gandhi. All these men are of a different quality altogether.

So this new type of fulfilment has to come. This womb that represents the Kuṇḍalinī has to nourish us and take us to that beautiful… If there is one enlightened candle it enlightens another candle. The same way you get your enlightenment. Once you your enlightenment, you can give other's enlightenment too. And as I told you, you cannot pay for it. It is invaluable. It is so invaluable you cannot pay for it.

It is so dynamic you cannot organize. It makes you an ascetic who is a dynamic person. And that should happen to all of you, because you are seekers.

May God bless you.

***Contents: 1983-09-11* Śhrī Gaṇeśha Pūjā, Tivoli, Italy**

Today we are celebrating the Birthday of Śhrī Gaṇeśha, because it is a very important thing for all of us that we should celebrate His Birthday; and yesterday we did the Havana. But yesterday we had many new people so I could not talk to you very clearly about Śhrī Gaṇeśha's deeper manifestations. You know that He resides within us. We have a very great asset within us that we know about Śhrī Gaṇeśha and that we can excite His powers.

To manifest Śhrī Gaṇeśha, we have to do certain amount of Tapasya, Penance. First we have to say, when we sit

for meditation, that, `I am going to be worthy of Your appreciation. Make me humble, so that I am appreciated by You and my only desire is to please You.' Then you sit down in complete preparedness, meditating over your Mūlādhāra, putting your attention to it with absolute purity. Now you have My photograph before you and you tell the photograph, `Mother, You are Śhrī Gaṇeśha. You give me wisdom and discretion.' So, attention at the Mūlādhāra Chakra, which is actually below the sacrum bone. You put your right hand towards the photograph and left hand on the Mother Earth. Now this will tell you that your mind, or your brain which is full of confusion, which has no discretion, which is complicated, which does the same mistakes again and again, which does not understand how to cure the ills of bad feelings, all that can be cured if you put your right hand towards Me and the left hand to the Mother Earth.

So, in action you do like that.

Now as He is the `essence' of `everything' that is material, that has bhava, that has been created. He is the essence of everything that has been created. `Through Him' everything has been created. When you develop that, you develop your sense of subtle creativity and the sense of subtle appreciation of creativity.

Then you develop your discretion of how to behave with others, in a beautiful manner, so that your ego is controlled. The behaviour should be such that there should be no expression of ego in your behaviour. Your Mother is a good example.

I think you know that I know quite a lot of things, but I never show off, nor ever assert that I am so

knowledgeable. I live like a very very ordinary person with you and I do not in any way assert My personality that gives you a shock.

So, with your intelligence or with your other powers, like if you are a moneyed man or if you are more efficient, or anything, you should not try to impress on others. But you must deal with it beautifully.

So the beauty comes when you are efficient `and' you are loving. That is the central point, that is the result. That you are knowledgeable and you are humble. That you know everything about everyone but you are discreet.

So in effect it is a complete personality that can only give that kind of a very soothing effect.

So the soothing effect comes as a result of beauty.

So to develop it you have to meditate on your Mūlādhāra Chakra.

I have seen many people get fanatic about Sahaja Yoga also. They think they are the real Napoleons or Shivaji! In Marathi we call him Shivaji, but Shivaji was a much better person than Napoleon, better to call him Napoleon. Then they start guiding you in everything, “This is not good, that is not good. Tam a very great Sahaja Yogi! You are like this” and all that and very hot tempered because they are fanatics.

Fanaticism and temper goes together. There is no love in fanaticism. If you tell them don't be a fanatic, they will start crying.

So the fanaticism of Sahaja Yoga is most blinding. It is something like, in front of the Temple of God you beg

from other people for money. Sahaja Yoga is one thing which should not lead you to `any' fanaticism. You have to be prasanna-Chitta, which means you should be a very happy, joyous personality; and not a tense, abrupt person. But this only achieves it's maximum result when everything is done in complete innocence.

But many people confuse innocence with stupidity. They think, to be stupid is innocent. And a stupid man gets into an ego trip in no time. Innocence is the wisest thing. You `cannot' befool innocence, that's the main thing. No one can befool Me, I am very innocent. Innocence is that which does not harm anyone, that does not think that it can solve the problems, but, it leaves everything for God to solve. It is just existence itself, in the blessings of your Mother, as Gaṇeśha was, just living on the complete blessings of His Mother. It gives you concentration.

Have you seen a child being nursed by mother, how concentrated the child is. Suck ing everything! It doesn't bother who is who, where he is sitting, what is it, what is catching. It doesn't bother as to who is next to you, what is your relationship with others. Or it doesn't bother, at all, as to the future, as to what he is to do next.

So innocence keeps you in the present. Innocent man is permanently relaxed. Supposing I have to go today. Alright, so I'll go at the time when I have to go; what's the use of getting agitated about it? People get even ten days ahead agitated if they have to go after ten days. And when it really comes to going, they have forgotten everything. Because they are not in the present.

So to develop your innocence also is a very good idea `to be in the present.' At the most what's going to happen? I mean whatever has to happen will happen in any case.

So why worry? I am one person who is least worried and nothing has gone wrong with me so far. On the contrary I play tricks that everything goes wrong with people like that! And I want them to learn that this is not so important. To keep yourself in the present is your job and leave everything to God Because you don't know that when you are in the present you are in contact with the Divine power, but when you get out of the present you are not there: you are under your ego or superego.

So for all of you I may try just to show that I am also playing with you to prepare you. I am least bothered about anything whatsoever. What is such a disaster you have seen in your life, just tell Me. I have seen the last dissolution of the whole universe. What can I fear anymore? So when you get upset, think of something very serious that has happened to you before and then you will not be so much worried about the non sensical little things here and there.

So miraculous things will happen, through your innocence. The more innocent you are the more blissful you will be.

Now, many people should try this thing: sitting in a group together, meditating, saying the mantra of Śhrī Gaṇeśha, to try to build up. Those who think too much, they should also try to say `Not this, not this, not this...' Even the superego when it gives you thoughts, you should say `not this, not this, not this...' So you will develop that state where you stand yourself: and nothing else.

So the innocence plays, but it is not involved. It sees the play. Just sees. It enjoys the play. Just enjoys.

So today when we are thinking of Śhrī Gaṇeśha, let us desire that, `Within us His great power of innocence be enlightened.' And He is, on the other side, the source of love. The source of emotional security. He's like a child, a very charming, beautiful child and people feel extremely enchanted.

A motherly enchantment. Because `charming' also is a very funny word. Because in the West people don't understand even innocence towards children.

So you have to be childlike, not childish, confusion must not be there. But some people confuse it. They think it should be like a big baby, you see; and that you have to be treated like a big baby all the time, from bottle feeding to nappy changing, in Marathi it is called `Motha Bal'. And there's no end to it.

So this kind of thing, if it is done to someone, that really will become a stupid fellow in no time.

But Gaṇeśha's enchantment has dignity. He may look like a child, but He is an old man. He is the eldest of all. And despite all these years, he has kept His innocence intact.

So sometimes people confuse it with over doing or caring too much and the innocent person doesn't like it much. Even if somebody does it, He does not mind, because it pleases the other person. But it does not go to his head or anything. On the contrary, when you are doting on such a person, you start learning.

There was somebody like that, this was an expert on massaging the feet.

So she said “Mother, just you give me one hour one day and I will come and massage your Feet, because I have known that art." I said alright, come such and such day. And when she started massaging My feet, you see, she said, “What is happening! It is me who is relaxing." So, that is the beauty of innocence, that when you try to pamper the innocence, when you try to dote on the innocence, it emits the beauty. It relaxes. If there is a little child and you want to kiss the child and you want to embrace the child and you want to love the child, it is `you' who is wanting, not the child.

If you do not want it, you are abnormal. But if you want to dote on some one, then that should `relax' that person, the one who does that. But if it is the other way round, that the other person gets tensed up and the person whom you dote, gets ego-oriented, then it is all wrong, absolutely it is upside down. You get tensed up because you think nothing should displease the person, you think the person needs it. You try to dote on the child thinking that the child needs it. It is `you' who need it. If you remember that, that `you' need it then why should you worry that you should not do this particular thing the person will be displeased.

So just by pleasing yourself you are really pleasing the other person, one has to see it that way.

So this is wisdom: To see things in right perspective. And that is what should come into everyone spontaneously. When that comes in, you become a complete personality. Gaṇeśha is sufficient to make you complete, because He is complete. And as it is, for you people to do it, it is easier, because you are already at a point where

Gaṇeśha is pleased. Or we can say that you are pleased with yourself.

So one should not feel that, or should not feel bad. If someone feels hurt or something, that means there is something lacking in that person.

Complete personality is the personality where we can say that Śhrī Gaṇeśha is residing with all His powers. But some people have the right Gaṇeśha and some people have the left Gaṇeśha powers. Both the types of powers much developed. If a man has been licentious and very fond of the other sex and all that, he gets such a rebound that he be comes an `absolutely' left side character. Supposing before realisation he is mining after women, or the girl is mining after the men, all that, gets such a rebound that, he just doesn't want to do that thing, as a filth, he thinks its filth, that is one of the feelings that come in the mind of a person, when he doesn't hanker after this kind of nonsense. Like we have horrible names like heterosexuals and homosexuals and all sexual sorts. When you keep a healthy company of your' type, of your sex, company healthy and pure. It is very natural. And the another extreme nature should not be followed. Like, I have seen among some Muslims, a habit, that they are more attached to their daughters than to their wives. Funny thing. It is absurd. They pay more importance to the daughters than to the wife, it is something very absurd, it is not good. It's again perversion. Or the women, they love their son more than their husband. It is absurd. And once it starts working like that, it can go to any absurd limit, which is not in the `Maryādās' in the boundaries of Sahaja Yoga. There has to be very healthy

relationship. Friendship, but not attachment which looks funny and absurd.

So nothing absurd should be done. No thing overly should be done. Because there will be remorse and unnecessary heart burning for nothing at all, it is useless.

Now, in Sahaja Yoga another very important point I have to tell you today, which is not so much besides Śhrī Gaṇeśha's point, regarding which we always make mistakes. Certainly in India there have been lots of Mistakes like that: Now I give you one example of Mister X who is a great Sahaja Yogi, in the sense that he is a great organizer he has done this, he has done that and we start adoring him. Or we may be jealous. One of the two things happen, either we adore or we are jealous. Now, if you adore that person, then you should follow his footsteps. And if you are jealous, then it is more reason that you follow his footsteps so you become like him. I am talking of wisdom. Now, but instead of that when you adore, even whether you are a boy or a girl, you will jump on him, you will hug him and kiss him, you do all kinds of non sensical things. Which is `not needed' to express that way.

Like it happened with Me that I was in London for the first time. I'd never known all this and somebody who was quite hefty just came and hugged Me and I didn't know what was the word in this language.

So I told him in Marathi “Put Me down." So it is quite funny. I am not used to kissing at all, `at all.' Anybody kisses Me, I get a fright you know. I can kiss a lady or a little boy that is all right, that is done, but not every man, I cannot kiss, it's very funny, isn't it? So this kind of

adoration is not very wise. Adoration is to be felt in your heart. Like yesterday one of the gentlemen put his hand so strong on Me, that for two minutes I was just trying to put it right. And this shaking hands is a very horrible thing.

Sometimes they cannot feel alright unless and until they have taken about a kilo of Meat out.... And this is how sometimes, there are no Maryādās' left, even among ourselves.

So there should be Maryādās.

Now feeling jealousy is another thing. I have seen that when people feel jealous, they start coming and complaining against this person or that person, I know it is. Jealousy is the worst curse ever we can have, I think, because then you can't see anything that is good. Because you see a person is normal, you feel jealous of such a person. Then you feel, you are jealous so you have every right to do what you like.

You just say” I am jealous of you, because you are so good.

So, now I can be very bad. I mean at first it started with people telling that this is jealousy which is a bad thing; it was all right. But now the bad thing is taken as blackmail, you see, you use it for blackmailing others, that, “Oh, alright! I am a bad man, so I am a bad man. You are a good man, alright, So what?" Just like that. To use it as a power.

Like yesterday one madman came, a lunatic. Now when this lunatic came, he wanted to sit in the front. And he just started taking advantage of his lunacy! That if he is a lunatic, he can behave the way he likes. Because you are

a drunkard you can behave the way you like. Now, what is the wisdom? Where is it lost? It is ridiculous.

So, one has to be wise. When you are dealing with it, the wisdom is your glory. By wisdom you will be fair to yourself and fair to others. Wisdom is like an ocean, one can not describe it in one lecture. Just try to enjoy your wisdom. And the greatest wisdom of Śhrī Gaṇeśha was that he was surrendered to his Mother, that is all; he is not bothered. And when you are surrendered then you just understand that you give up your ego and your superego to your Mother to bother about it and you live with your innocence.

And to understand also in a very gross way, we can say, to have Gaṇeśha Tattwa [Principle] developed in you, you must eat things which are emitting Gaṇeśha Principle. Like the Chana, like, I have found out, the Hazelnut. Then you can see that you should use a lot of these lemons, is a good idea. All these give you a good Gaṇeśha Tattwa.

So all these things should be used and there are many other things one can see that, which help you to develop your Gaṇeśha Tattwa.

But the highest of all is to control your eyes. Not to see anything that is tempting.

So put your eyes on the ground. Just watch your eyes when another sex arrives, how do you look at that person, with greed, with lust. And if you understand that then you will start clearing your eyes very well. Another thing is physically you should try to do one or two exercises to be able to put yourself at on the Mother Earth, because that helps.

So before doing the meditation to Śhrī Gaṇeśha, you must first do that exercise, to loosen the muscles so that you should touch the Mother Earth in a more at way. It will help.

So for today I think I have said sufficiently.

May God bless you.

Contents: **1983-09-1x Baptizing the Baby of Guillemette Metouri, Ashram, former Hotel, Bramham Gardens, Earl's Court, Kensington, London, UK**

[Metouris receive a pram which had been around for a few babies before theirs. When Djamel is to bring the pram down from the top of a cupboard, he feels a terrible pain in the left Nābhī. Metouri's baby girl, who had been OK since coming back from the hospital, starts crying a lot, despite the fact that she receives vibrations regularly. Djamel mentions that the pram originally belonged to someone who is not all right, but Guillemette says it did not matter.] [Then, one evening around midnight, when the baby is three weeks old, Shri Mataji comes to see her.

Warm up some olive oil, I'll baptize her! As soon as the little girl was in Shri Mataji's arms, she starts crying and crying. Metouris are embarrassed. Shri Mataji applies the oil on her head and shows how to do massage, by filling the Sahasrāra:] Like a cup [bringing the oil from the down side to the top of the head, all around again and again.] [Yet, after such a treatment, the baby is still screaming.] Djamel Metouri: Mother, may be this is because of the pram! [Then he explains what he had felt

and gives the name of the owner. Shri Mataji's reaction is very swift. She scolds them for having accepted a pram from such a caught up person and tells them to throw it away immediately.] Look, I send you realised Souls and see the way you treat them! The poor child is suffering now; her Back Āgñyā is caught up. [After a while:] Anyway, you don't have to worry any more now, for I have Myself ordered a new cot for her. You will get it tomorrow. But from now on, you must never accept second hand things or clothes from other people unless they come from Me.

So, I have vibrated this new cot and after you finish using it for your daughter, pass it to the yogini mothers who will need it for their babies. It should be passed on because it comes from Me and it is vibrated!

Contents: **1983-09-1x Conversation with the Boy Scott Vijay Gaddy, Judy Gaddy's Apartment, 215, West 92nd Street, Manhattan, New York, USA (year not sure)**

Scott Vijay Gaddy [at the age of eight years from the back of the room with crossed arms]: Mother, how come you only bring gifts for the girls?

Shri Mataji: You hear that, how come I don't bring gifts for the boys? [Everyone looks around, not knowing what to say]. He is correct, from now on we will bring gifts for the boys as well. Alright?

Contents: 1983-09-16**, Public Program, C.G. Jung Society's Hall, New York, USA**

At the very outset I have to confess that I have no academic interest in philosophy and I don't know anything academically. Neither have I known much of Jung till he died and there was a report about him in one of the Indian journals and I felt that there was a great soul who has gone away. Now you are all great scholars and great intellectuals, while I'm a simple housewife and all that is simple is reality. Reality is not complicated. One must know it's the most simple thing is reality and the more simple we become the easier it is for us to grasp the reality. Now to understand Jung's problem, I have no way out because I was not a student of psychology, but I got hold of some dictionary to know what he was meaning by saying “unconscious" and “collective unconscious” and all these words. Then later on in London I met a Indian, an Indian boy, studied in Oxford and all that, then he became a psychiatrist also he did his M.B.B.S. and then he became a psychiatrist. A very clever, intelligent person and I found that because he had an Indian background he could integrate properly and he related to Me all the beautiful things about Jung. Of course he also brought Doctor Adler to meet Me, who got somehow cured of his trouble, I think. And Doctor Adler gave Me a book as a present. It was so complicated that I gave up. But he was a very nice man I should say and I found it difficult to explain to him. Because first of all there are certain presumptions in our mind and certain conditionings, for which we must really thank Freud also, because he is the one who could see that we have conditionings. That's one point about it.

But he also could not go too far with him because he could only see one side of the human being which he has described here, the left side. Now if you see the left side, is there as is shown, is the power of your desire. And the power of desire, naturally he felt comes from sex, because the last Chakra as you see, this red one, is the Chakra called Mūlādhāra Chakra, is the center of Mūlādhāra and is the one that looks after the excretion of the body. It deals with the pelvic plexus. Now, whatever I'm telling you today, you should listen to it with an open mind, that's one request I have to make; as a scientist. And secondly, that it is a hypothesis, which I'm putting before you, as far as you are concerned, you need not take it for granted at all, but keep your mind open. And secondly that when you find that it has been proved now, whatever Jung has said can be proved, then you have to accept him as a person who knew quite a lot about Self and about the collectivity.

Now you can see here very clearly, that the one force that acts in us is the power of desire, left side.

The right side one is the one that acts, the power of action. Now in the center, [Aside:] Can you see? Which one is the left? Left is this side, is the blue. [Goes on to point out which is the left side.] Now the right side you see, is the yellow coloured one, is the one that is the power of action.

So now you may ask, “What is Kuṇḍalinī then?" Kuṇḍalinī is the pure desire. Now what is lacked in Freud's writing, anything about purity. What is pure desire? Is a desire like we want to have a house, is not pure, because it doesn't give you full satisfaction. For example if you,

even economics has described that wants in general are not satiable. In particular we think that, all right, I'll have a house, then you have a house, then you want to have a car, then you want to have a helicopter. God knows how it moves.

So any desire we have at human awareness is not pure desire. But this Kuṇḍalinī is the pure desire.

So the sense of purity, if it is missing we cannot talk. Now this desire is put there as you see at the triangular bone and this is there at three and a half coils. Coils in Sanskrit is Kundala, that's why it is called Kuṇḍalinī. Now this pure desire is kept in the bone called sacrum. Now it is very significant, sacrum in Greek language means sacred. That means Greek people also knew about this, that there is something sacred here.

So that part of sacredness and auspiciousness is also missing.

Now you clearly see here, there are three compartments I've seen, one on the left, one on the right and one in the center.

So it is not placed one on top of another, this is another mistake. It is vertical. This is one big mistake that these are vertical, so for your ascent you have got a clear-cut passage, this one point.

Second point is, that when you say, “unconscious” means whatever is not conscious, whatever is not felt on your central nervous system is unconscious, all right. But it's a very mixed up box, I mean everything mixed up together. But what is the purity about it? If you say that the left side, according to Sahaja Yoga, the left side represents the desire. I would say Freud, though he was

not so clear-cut, libido and beyond that is the subconscious and the collective subconscious.

So the subconscious is not unconscious.

Subconscious is unconscious because of the language problem. It's a language problem; unconscious is such a big word because it is not conscious on our central nervous system. But that's not we are bothered about, subconscious is on one side, we can leave it on one side, all right.

Now on the other side if you see, what we call as the power of action is the futuristic thing, so this side lies the future. We have first the supraconscious area and then the collective supraconscious. See the difference is, that if you say these things are one top of another; we make a very big mistake. That means that if we have to rise to our unconscious, of course rising is also not there, for them it's to go down, the rising is not described, but what I've seen a picture of it, is that the unconscious is below, the unconscious which will never become conscious, then the unconscious and then the subconscious and then the ego, is rather confusing. Now you see that here, that one is the subconscious and the collective subconscious and one is the supraconscious and the collective supraconscious. Now the top thing, there where you see these petals and all these things, is a lotus, is the super consciousness. That is the evolutionary ascent we have to achieve, is to become conscious of the super consciousness, which is really the collective consciousness. Now this has two aspects. To say Patanjali did not say about Kuṇḍalinī because at the time of

Patanjali it was kept a secret, but he did write about, after the ascent what happens, very clearly.

So the representation of the motherhood is here, this Kuṇḍalinī is the Mother, which he could see. And the Father, Father is the one who rests on top of your head, so that is super consciousness. You have to become one with the whole, so that means you're aware of your Self as I, becomes the whole. This has to happen, what is called as the second birth.

Now you might say that, “Why Moses didn't talk about it, or Abraham didn't talk about it?" Because their job was, you see, they are all connected with each other, only we are fighting, they are not, they are all together. But the trouble is when people do not have eyes to see, one might say, “The elephant is just a tail” or somebody might say that, “It's just the leg” but they are all one together. But this integration only takes place after you have got realisation, to understand that they say the same thing, they have done the same job. In a living process of a seed you can see first, the seed becomes the trunk, it has to become the trunk, that doesn't mean trunk is less important than the flower.

So this is the trunk we can call it here, all these great prophets like Moses and Abraham and all those people were born here, establish the sustenance within us. It started from, also in India, we had people Janaka, Nanaka and the end was the Shirdi Sāi Nāth. There were ten main incarnations of these people, who came in this part and they reside within us to give us the religion.

Now the religion we talk of is outside religion, is myth, is mythical. But inside religion is like a valency.

As we have a valency for carbon, four valences, in the same way human beings have ten valences and that's how we have got Ten Commandments. And these Ten Commandments relate to our ten valences within us and that's how we do it, that you maintain the balance. Because if you go too much to this side then you go to the left side, then you fall a prey to subconscious to collective subconscious, if you go too much to this side, it's all into the supraconscious and to the collective supraconscious. That's why the balance has to be maintained. Any vehicle, which has to ascend, like say an aeroplane, if it is not in balance it cannot ascend. To ascend one has to maintain the balance and that's why the religion, which is nothing but consciousness regulated by super-consciousness. Because these people came, according to us, they were incarnations of the Primordial Master. They didn't say so, because to say this is very dangerous. Anybody says, “I'm the incarnation of Primordial Master” immediately either they'll poison you or they'll hang you by the nearest tree. You see that's what has been, I mean, nobody wants to listen to anyone who says something sensible or truthful. We have been doing that throughout and, of course you cannot crucify Me this time, but there are lots of problems I face because I tell the truth. And the truth is, that all of them who were born at this stage within us, are looking after our religion, means our valences, means our sustenance by which we are human beings.

If we go beyond this, that side or this side, then we become either subnormal or abnormal. Now the subnormal people are the ones who go to the left side.

Now I would like to say that another mistake was committed because of the idea of this unconscious. That way the findings of the Indian seers, because in India there is nothing like religion is just a seeking, a true seeking of a person, is neither a Hindu, Muslim, Christian, those who are seers; you see they say, “There is no caste for a seer." A person who's a seer has no caste, he has no religion, he's nothing, because he's a human being. He doesn't belong to any conditioning of the kind, but to the truth itself.

So they found out through meditative method, not through reading, through mental projections or through imaginations or anything, but through meditative method. First they had to become realised Souls. Like in Patanjali as she said it, it's not written clearly but it is said, “First you have to have Īshwar Pranidhan” means you must get your realisation first, the God must be established within you. Before that, anything else you do is just artificial. For example now, this thing they have put it here for Me to speak, supposing it was not connected to the mains, it would not work, is a very simple thing again I say. Any machinery, this one, if it is not put to the mains it doesn't work. In the same way human beings, who are not connected to the mains, if they start working out they either go to the left or to the right.

Now also we see very clearly, medically we can see this, what happens? That we have an autonomous nervous system within us. If you ask the doctors, “Who's this auto?" they don't know. They just say, “Auto" because it works by itself. Who is the auto they cannot say. But in

the autonomous nervous system in Sahaja Yoga, you see branding is the way people just shut you out, you don't know what to say that you are autonomous nervous system. Now you ask them, “Who is auto?" Because I did medicine I was surprised the way they were going about with all the blindness, doesn't matter. This autonomous nervous system has got two groups of nervous systems, one is sympathetic another is parasympathetic.

Now the sympathetic nervous system, though they call it autonomous, but it is under our control, because in sympathetic nervous system in any emergency it comes into play. Like supposing I'm frightened, then I start running; then when I start running the sympathetic goes into action and when sympathetic goes into action the parasympathetic brings it back to the norm. Means, supposing you are running very fast, your heart starts pulsating very fast, but then it comes to normal by the action of the parasympathetic.

So we have two types of left and right sympathetic nervous systems, both can be activated by our own emergency created by us. Now see the left and right according to the doctors is all just the same, for them it's quite a blind alley.

So parasympathetic, they don't want to talk, they're honest people because they don't want to talk parasympathetic. But sympathetic also what they understand is that the left and right are just the same, but it is not so. Left looks after the emotional or the desires as you say, the emotional side, the conditioning side and also the subconscious, because it creates the

subconscious within us. The present subconscious is created by this Nāḍī or the channel.

Now the right side one, as I told you, is for the action, it creates the supra conscious side. Means a person is say is a very, very futuristic person. I mean Americans are very futuristic and very speedy people, so what happens they start moving to the right, too much of action, very speedy, very fast. You see everything is for the future, I mean you are sitting here and may be we are thinking of tomorrow, `What I am going to cook?' sort of thing.

So this is what happens to us when we start thinking about the future.

And then we create a realm as the present supraconscious within us. But beyond that lies the realm called as the collective supra conscious.

So as I told you, there is collective supra conscious and collective subconscious and a collective super-consciousness. Then we have another collective hell we can call it.

So we have four types of collective consciousness. But it is not conscious in our central nervous system, that's why we call it unconscious, is a general name, English language unconscious, which is general name. But actually we have four types of unconscious and all of them are collective.

Now what happens to the collective subconscious? Collective subconscious is the area where all that is dead since our creation, resides. All that is dead resides in that area. Recently I saw a very interesting documentary on cancer cure or cancer.

Some doctors had given a very good report, saying that, “That if the body is vulnerable for cancer” according to Sahaja Yoga when you have too much in a sympathetic activity then you are vulnerable for cancer, then an attack comes to you from the area which is built since our creation. They are very near us. And they call that, as the name is given again as protein fifty-eight, you can call it the street number sixty-eight as well, I mean you can call it anything.

So they call it protein fifty-eight and protein fifty-two, that's what I gathered in that thing they call it like that. But now what are these things that trigger? They are the ones who trigger cancer. This is one point we have to find out, what happens if you go to the collective subconscious. Because of this complete jumble of for collective consciousness, we can say, because of not understanding that these are four areas kept like this, separately that way, this way and downward and upward, absolutely nicely compartmented. The problem came, that they thought that we have to go into these areas first to understand about the depth of our being.

Now as you see, there is a clear-cut path in the center, here, according to Sahaja Yoga, there is a and another thing is, Sahaja Yoga does it, it works out, it's an actualisation, it is not just talking or theories.

Actually you can see the Kuṇḍalinī pulsating in the triangular bone, not in everyone, but on the people who have some problems on the Nābhī Chakra, this center or that center if there is an obstruction, then the Kuṇḍalinī really pulsates and you can see with your naked eye. We have some of the photographs taken by them, but we

cannot say that definitely in this person it will pulsate like that. With a stethoscope you can feel the pulsation rising and when you bring it to the top of your head you can feel the pulsation rising here. And when it stops you'll feel the Cool Breeze coming out of your head, actually Cool Breeze. This is actualisation. Now what happens actually is that this Kuṇḍalinī is the one who is the Mother principal within us, reflected as the Primordial Mother. It was so great and courageous of Jung to talk about this when Freud was so much accepted by everyone. Even now in London there are only twelve Jungians, you'll be surprised, I'm so happy to see so many of you are here.

So he is the one who very courageously put forward this idea that there is the Mother's force within us, which is a fact and which can be proved.

If you see historically now, at the time of Moses and Abraham, you see, Moses crossing the bridge, you see this is significant here. This is the void, we call it the void, but Zen for them void is different.

So we cross this. In the same way Moses crossed, through the bridging he did it and this bridging takes place when the Kuṇḍalinī rises from that triangular bone and crosses over, then the first bridging takes place.

Now one may ask the question there, “Then why did they think like that? Why is it they did not have the right idea about it? Why these mistakes were created, if they were realised Souls?" No doubt they were realised Souls. But here the problem was in this country, all these Western countries, is that it's a very individual effort of a person and traditionally it was not known so much about it. Though Christ has openly said, “That you are to be born

again and that a transformation must take place." But then again we started an artificial type of a baptism, that you put some hand on somebody's head, anybody putting hand and saying, “Now you are baptized." But there are people like Blake, who said, “A priest cursed on my head” he said so.

So the thing is that because it is not a knowledge of the ancient times in the Western area, people took an individual probe into the thing. Naturally whatever they found out was not supported, something was supported by their experiences whatever he had from the dreams and all that, so he established it. But another problem is, a person who suddenly, through spontaneity only, through Kuṇḍalinī awakening only, jumps on the stage, then he starts seeking about stage, about the frame work, how it is made, how it is done. But because it is an individual approach it is very linear, it is not going from one point to many points but is linear. For example, he would go on this point to find out, then onto that point to find out and then onto that point. But supposing somebody who knows about the framework and also about the stage can tell you about everything and that is what is needed today.

Historically it was, I would say the Dharma, the religion was established, historically, for our consciousness, everybody has contributed. Then it came further onto this point where another center is very important; these are all the milestones of our evolution, mile stones. At this point, the advent of the Motherhood came, just to protect, for protection, because that time ascent was not so much needed, but the protection of the seekers and

She came as the Mother of the seekers to protect them from evil forces.

Now the evil forces were from the left and from the right. The left side people also are sly; those who invade, those who torture are what you call the masochist sort of people and the right side as the sadist people. Then when they die also, they do not leave their habits and they then possess people and try to torture. For example Hitler, Hitler used Lamas for this and he got the supraconscious ideas from them.

Lamas are known for their supraconscious ideas, that they can tell you where the Lama is going to be born and where such and such person, all the futuristic things. And he had a training with them and they went down there, some of the people went and told him how to use the supraconscious spirits to impress or to possess the Germans and he managed that very well. Because of that, they lost their consciousness; they didn't know what they were doing. In possession one doesn't know what he's doing. And that's how these possessed people did such work that even animals can not do, worse than animals, without any sense of shame without any sense of decency, without any sense of love or compassion.

So the whole development came up like that and surprisingly they also called it as a Fatherland.

Fatherland, the right-sided, the right-sided manifestation you can say, the manifestation of the action.

So that's how we grew up with our action, developing our ego, as she told you, first we had just the part which was the pituitary within us at an animal stage, but then pituitary was pushed down, our ego came up as the

action took place on the right hand side we developed this yellow stuff you see, it's like a bile colour and all these people have bile trouble and liver trouble. Those who are over active are aggressive people and they tend to aggress others. Now the problem was, that India was dominated for three hundred years by English people and the seers and all were ridiculed and laughed at, nobody even bothered to look at them.

So they disappeared into their caves and disappeared into places where they could not be located. It was such an aggression of ego on them. And later on they made our people to learn more about science and more about their culture and their achievements, they impressed so much on the Indian people that we took to your styles. All these seers got lost.

So fourteen thousand years back you'll be surprised, there was a great seer called Mārkandeya who has written all about Kuṇḍalinī, about the ascent of the Kuṇḍalinī and everything. There was a great astrologer, I should say, he was the person who started astrology in India about sixteen or seventeen thousand years back, you cannot really say when he started it. He wrote one great book called Bhrigu Sangeeta. But before writing that he wrote another one called NĀdi Grantha. Of course this is written on the lotus leaves and this voluminous thing was later on completely depicted and brought to, up-to-date level by another person about three hundred years back whose name was Bhujander.

Can you imagine that this man thousands of years back predicted clearly that the Sahaja Yoga will start in 1970.

And that in that way the Kuṇḍalinī will rise spontaneously and people will get their realisation.

Because for an Indian, I mean for an Indian I say, not the westernized but the real Indian, the highest goal in life is to get Self-realisation. When My grandchild was born, you see, her horoscope was cast and when the horoscope was cast, they sent a telegram for My family, the astrologers, “The great thing is her Guru is in her own family, she's a born realised." But they said, but for them this was the greatest,...

[This paragraph not recorded on the copy of the tape.] I have to send a telegram to her family saying, “It is the greatest thing that she has her Guru in her family so that she can get her realisation." So this is what it is. The whole attention of the people in India should be, if they follow their traditions, is to get Self-realisation. But as the Western people impressed them so much you see, so much of impression came from them, we had to learn about your sciences, your all these things and we just forgot. Not easy to talk to Indian doctors about how parasympathic [parasympathetic], if it is mastered, you can cure any diseases whatsoever, because they learn only from you. Now even if some people want to talk what happens that they think we are sort of challenging their ego? The problem is, even about religion or God, one cannot talk. In the meanwhile I'm very happy that Jung had warned that, “Be careful about India” that was a very big thing he said. Because Jung came to know about India through people, some German writers who went to India. Now their main interest is to find support of the Freudian theory that what is sex, this thing, that thing,

only that. Even though you'll be surprised Japanese have the same interest about India. They want to come and see what is Tantrism and how these erotic things are there and they take zoom lens you see and go on top of the these old temples to take a photograph of erotic things. It is so surprising for us; we never see these things, why they are doing that. Because when in the sixth century after the advent of Ādi Shañkarāchārya who also propounded that, “It is the Kuṇḍalinī who has to be awakened."... and unless and until you get your Realisation you are nowhere near religion. These people came up just to attack, the negative attack. And all of them formed a very big belt, starting from Bengal going round through the middle of India going towards Gujarat. And there they propounded that it is through sex you can achieve your realisation. Because a sort of a, that was the only way they could make some money out of it also, by helping the very licentious and permissive rulers in those days, by telling them that the sex is the way you can achieve God.

Now here you can see very clearly that the center, which is supporting or which looks after the sex activities below the Kuṇḍalinī. In Sanskrit it also is written, shata Chakra bhedan, means six, six centers are to be pierced through. Shata Chakra, six not the seventh. But these people said that, “This is the Kuṇḍalinī is in this center which looks after the sex." Now I as a Mother, I don't want to condemn them so much so I would say that may be a mistake also. Because here resides the Deity, a symbol as you call it, which has got the head of an elephant, because elephant is the wisest animal and the head of an

animal signiffes, that such a person never gets ego. It's the human beings only; the human animal only gets the ego part of it.

So to suggest that it is the pituitary only acting and that it is an innocent. To represent the innocence in us this symbol they must have seen, but not the whole of it, must have seen a part of that trunk and they must have thought that this must be the Kuṇḍalinī.

So to give them a full benefit of the doubt, I would say like that, but people took too much advantage of it.

So they started big competitions, that those people who can produce such erotic art and all that will be given so much money and this can happen, that can happen. Artists would not take to it, so they gave them lots of temptations that so they should accept. Like in Nepal they gave another temptation by saying that, supposing, you see, if you make the temples out of the wood they can be destroyed. But the Virgin who is, according to Indian mythology, is the thunderbolt and the thunderbolt if you want to keep it out, better make things that she won't come near them. Just to make it repulsive they made it. They gave all kinds of arguments. Like they told the ministers, you see, were very austere people and they wanted to have their own temples, so they told the king, “All right to please you we'll have some licentious thing outside but inside we'll keep very pure." Because that is light, that is fertility, this and that, all kinds of stories and theories they made up, just to create this kind of a new cult there.

Now what happened? Why they did it? Is a very important point one should note why these people tried

to bring down divinity, purity to that level. The reason was, that when you start insulting divinity or purity, then that area becomes absolutely horrid. When the purity is removed then you can do whatever you like in that area. You can get possessions there, you can get all kinds of spirits there, you can do all kinds of witchcraft and all those things, if you somehow or other create an area where divinity doesn't want to go, this was the principle. And that's what exactly they used to create an area of this kind. Like there's a very great temple in India called Kamakhya Devī's temple and all these Tāntrikas went there and tried to do that, like having sex relationship in the temples and things like that. And by that they saw to it that whatever is Divine that is showing there, should be removed and all the negativity could be brought in. Now in the Ten Commandments it is said, “Whatever is created by the Mother Earth should not be reproduced and should not be worshipped." Now we should find out what hat is created by Mother Earth? This point we miss. Whatever is created by Mother Earth, that Mother Earth Herself has produced something Divine. Now in India people know about it, that it is so. I went to a place called Musalwadi, in a village, because I work more in the villages and there they told Me a story, that, “Mother there's place here where an Englishman came about a hundred years back, an engineer and he tried to build a *[UNCLEAR* bhand] for creating a nice tank there. And what happened that at a particular point about 20-30 metres, he could not build it. Whenever he tried to build it, next day it used to be finished off." So he was quite surprised and he's written down in his own diary and all that, they

have published the diary also. He had to make a bhand like this and go round and then make it further.

So I wanted to go and see the place. When I saw the place I knew this is something created by the Mother Earth. Now how do you know it is created by the Mother Earth is the point to which I'll come later on.

So there are places created by the Mother Earth, already, to vibrate the divinity, the purity, the whole expression of Her compassion and love for human beings. But unless and until you are a realised Soul you cannot feel them and understand them. Only a realised Soul can feel them and understand them. For example Stonehenge, I went there, Stonehenge is the same story. But the problem with them is that the people who are Druids who are doing all this worship don't know what it is, they don't know how to use it.

So in this way the Mother Earth has also created so many such places, which have come out of the Mother Earth and they are there. In India there are many places like that, like in Maharashtra we have Ashtavinayakas, eight of the symbols of the innocence Deity as you say.

Now because people are not realised Souls, one cannot talk to them. Because if I say they've reached the thing, how will you know? So when the Kuṇḍalinī ascends through the central, you see the subject is so great that even if I give thousand lectures I cannot cover it, so the thing is I'll try to cover every point little bit here and there. When the Kuṇḍalinī ascends, I told you the Cool Breeze starts coming out of your head.

So what happens to you? For the first time you feel the Cool Breeze of the Holy Ghost.

Now some may deny Christ, that was wrong thing to deny Christ, I must tell you very frankly. It's a conditioning, it's a conditioning to deny him, because you see, by denial what you have done, you have denied an Incarnation who came at that point. But the way they have made out of Christ, naturally anybody would deny. The way they made Him an Incarnation anybody would deny. I mean I got My birth, I mean I should say I got it because I deliberately got born into a family which was a Protestant Christian, because they are the most sophisticated fanatics. Absolutely, because it's such a rational thing they have made out of Christ, that I thought this is the place I should be born so that I would be able to tell them that this is not Christianity, this is not Christ.

So the way they made Christ naturally people denied Him but He is the one who has suffered for us, definitely.

So there is no suffering needed for us at all, if you ask for suffering you'll suffer. Only thing, He is to be awakened here. Now if I say about Christ or anyone, it should not be taken for granted at all, nobody should take it for granted.

What happens when the Kuṇḍalinī rises? Say, it is here in the stomach. Many people who have been to wrong Gurus, who have been following wrong things or those who think, “I'm the Guru, I know how to do it and I'm the one who has done it” they have to take the name of Moses. Unless and until you take His name it won't rise, the Kuṇḍalinī won't rise. Now when it reaches this point you have to take the name of Christ. Here you have to take the name of Mohammad. Who was Mohammad?

Nobody else but Moses Himself was born. You'll be surprised the Islamic people today are following Shariat. What is Shariat? If you have read Bible, is the same as written for the Jews. Same thing they are following what is written in the Bible, they are following. We are not following it, but they are following it. Which shows that because when Moses came down be found these people in such a big mess and such a big hell, that he had to make a very, very strict law to pull them out of that hell and that's why he gave such strict laws. Actually if you have read the books of the Essenes, I was surprised that many people who have read it showed it to Me, that they really, clearly said that the laws were not so strong, but Moses had to make them so strong because people were absolutely hellish and they were going down so rapidly that he made those laws. But surprisingly, they are more followed by the Muslims and imposed on them.

Now if you want to know what you are, say a Muslim wants to know about himself he should go and ask a Jew. And if you want to know about the Jew you should go and ask a Christian. And if you want to know about a Christian you can ask an Indian.

So it is the opinion of others will correct your conditioning in the mind, because you are born in one religion, it's a conditioning. It's absolute conditioning and this is the worst conditioning that people have. Then how will you accept the truth? If you are conditioned you can never accept truth. And that's why the Indian fake Gurus have accepted the advantage, you see they are very clever, cunning, absolutely cunningness personified. They all

came down here first, with the idea we don't talk about religion, finished.

So they suit us very well, if they don't talk about religion, about God then they're the best because it doesn't come in conflict with our conditioning that we have.

So they talk about flying in the air, for which people have paid six thousand pounds each, for flying in the air. I am the one, in 1970 I openly took their names and denounced them and told the people who they were in previous lives. At that time you see, so many of My disciples started shaking, they said, “Mother what are You doing? They are going to kill You." I said, “Let them try, try their level best." So these fake Gurus came here, started the cult and started all kinds of these things. First of all don't talk of God and if you talk of God, then just make the person such a slave that he cannot get out of it. They use the supraconscious, or they use the left-sided subconscious. And that's how they have attacked your people.

Now the people who have no idea as to what should happen they think they have to go through this suffering. There is no need to go through the suffering at all. When Christ has gone for you, finished.

There is no need for you to go through any suffering any more, just you have to awaken Christ within you.

Just count your blessings one by one. It's a very cheerful thing, it's not such a serious stuff, you see. Like in Paris I went they said, “Mother never say you are the happiest person." I said, “Why, I am enjoying completely." They said, “No, you must say you are very serious and that you are suffering very much." I said, “I'm not, how can I

tell them a lie?" They all say, “You'll have to suffer." I said, “Why?" They said, “Because here everybody believes that we all have to suffer." `Les miserables' you see. I said, “All right these `les miserables' are sitting on the streets of Paris, drunk completely and prostitutes at every lamp post, are the `les miserables', they are the ones who have created their miseries like this." This is how our mental projection has taken us, to this kind of a hell, from which to come out only Kuṇḍalinī can help you.

Now this is the Mother's thing, is the, so we can say that first is the Father's manifestation came, then the Son, now the Holy Ghost has to come. Now people, Christianity is another absurd thing they teach, that there is the Father and the Son and the Holy Ghost but not the Mother. How can you have a Son and a Father without the Mother, can you? It is absurd, but all intelligent people accept it and seriously talk about it. And Holy Ghost is a mystery, don't talk about Holy Ghost, it's a mystery. Because to say that Mother has a part to play, is too much for them. Because in Christian religion, so-called, they don't have any place for the women to become the priest or anything.

My father was a great, learned man who was the master of fourteen languages and he translated Qurane Shareef into Hindi and very learned. I should say he was the one who told Me about human beings and how their permutations and combinations work. And I asked him, “But why this Martin Luther, who was a realised Soul, put away the Mother's position that way?" He said, “That time” you see, we call it Samayāchār, “According to the timing, the Muslims were very powerful” and he said

that, “If he talks of the Mother he'll be hit hard." So he took a course where he said, “She's the one who's there, who gave the birth to Her child and all that” but he wouldn't call Her as a Primordial thing or a Primordial Power.

But the truth has to show itself.

So in recent times you have seen how the women have become very conscious of themselves. Of course they are absolutely misled, absolutely misled. Because they think if they become like men, then they solve the problem, it's not true. It's a pendulum you see, you move like a woman to a man, man to a woman, it's a pendulous movement. What you have to do is to rise in a spiral way, otherwise evolution is not there.

Evolution is the spiral movement and it's not shown here how the Kuṇḍalinī moves, but maybe later on I may be able to tell you in details how the movement of the Kuṇḍalinī takes place and how the spiral movement of the consciousness has taken place so far. In the same way the spiral movement has to take place, that in your evolutionary process you must come above the man and the woman part of it.

So this is completely misled business that we dominate the men. And when I say this many ladies left you see, the hall, they were very angry with Me that I was saying so, but it's a fact.

And the woman is the mother; she's in a way higher than man, I think. She's the mother she has to nourish. She's here for nourishment.

So the new awareness has to be that of nourishment, of compassion and love. For example, in the olden days, for

us Napoleon was a vintage hero and now if you call any Frenchman a Napoleon he'll hit you back, he can't stand it, because according to him, he was very egoistical.

So who is the hero today? Somebody like King, like Mahatma Gandhi, somebody who is the manifestation of the womanly qualities, of the Mother's qualities of compassion, love, of nourishment of this Mother Earth.

Now very interesting it is to see that this Kuṇḍalinī is the one, which is called as the kumbha, in Sanskrit language, means the Aquarius. We call it Aquarius, as one of the signs and is the same as kumbha in Sanskrit language.

So it is the Age of the Aquarius, is the age of the Kuṇḍalinī. Secondly is the age of the Kuṇḍalinī which will nourish, which is the Mother within, which will rise, will give you the completeness of it and which will connect you with your Spirit which ultimately gives you the enlightenment by which you become collectively conscious. You become, again I say, it's not just telling stories, you just become.

Today we had a lady, I came a little earlier, she came to see Me and apologized that, “Mother I went to this Muktananda and got very badly hurt and I'm in terrible pain and I have to get up every moment and I hope You don't mind." I said, “All right you come up and I'll cure you." She came up, she's better now, but only thing her Kuṇḍalinī rose and she felt the Cool Breeze coming out of her head and she felt the Cool Breeze coming out of her hands.

Now what is this Cool Breeze that is coming out of your hands? For the first time you feel the subtle All-pervading Power about which, everyone has talked. The Rueh, as

they call it, they call it, as the Brahma Tattwa, they call it by various names is the All-pervading Power of God's love.

So we come back to the origin, that first the God Almighty, the Father and Mother is His power and He's the spectator and She's the play. That's how it works and the Son is created to lead the people through this problem of ego and superego, because it is so much tight that someone of a very great nature had to take up the resurrection as a drama. Now Christ actually is described in Indian scriptures, but Christians won't go beyond Bible, they cannot, they're so bound they will not go beyond Bible to see, to them Bible is the last and the first and everything. It's surprising in everything they cross limits, but in understanding you must go to other scriptures. That's why I really respect and appreciate Jung because he went out of the way to find out about everything with a very open scientific mind. Now, in the Indian scripture, in the Devī Māhātmyam where they have described the Goddess, they have very clearly described Christ, absolutely, all His life, but He is called as Mahāviṣhṇu. Viṣhṇu is the Deity at this point, which is responsible for our evolution. But He's at Mahāviṣhṇu point and His description if you read to the last bit of it, is so good and He is the Incarnation of the same innocence born on this earth. It's so clearly described. Why do we have an egg for Easter? Egg represents a human being, who has not got realisation as yet, because egg has to become the bird. And in Sanskrit language a realised Soul is called as Dvijaḥ born again, twice born.

But in America I came in 1973 [1972], of course I was a big failure because they told Me, “Mother, without money nobody is going to listen to you, you must charge some money." They cannot understand anything that can be had without money. I said, “But how much are you going to pay, it's invaluable.

You cannot pay for this realisation. It is your right to have this and you will have it. And how can I take money for it?" So I was a big failure, but many people came here. But out of that came out a cult called `Twice born' and one of them walked up to Me with a Bible in her hand to hit Me, in one of the programs and every body was upset but I was just laughing and we have a big film about it. Because I said, “Look at this one, the twice born walking with a Bible just to hit Me." Bible to hit, I mean I've never heard that. I had heard that people used to walk with a Bible and a gun in another hand, but the Bible to be used as a gun was the first time I saw such a fantastic thing.

So it can happen! You see, the people get so much possessed by the ideas and by the conditioning that they can go to any limit of accepting something as truthful, without finding out, what did I achieve out of it, or what did my forefathers achieve out of it? Why not the Christians or Jews or anyone find out, what did they achieve? Now, they'll say it is postponed for, say ten thousand years. Why? Supposing I say to anyone, `There's a diamond available for you here, just now,' will you wait? I tell you, people from Australia will come down.

But if I say your Realisation just there, you must understand that all systems and all that will work out.

Comes from the unconscious, which is God Almighty and in us He has worked out the system so beautifully, so delicately. Did you become a human being by any effort? From an amoeba stage He has made you a human being without giving you any trouble whatsoever. What trouble did you take? What did you do? Did you stand on your head or did you pay for it? You just got it spontaneously.

So if you believe in that force that is there, of compassion and love, why should you not believe that if you have to get your realisation, it would work out spontaneously? It has to work out spontaneously.

So this Mother force, that is there, the age of the Aquarius as you call it, this has to come up and nourish you and it does.

It has worked out wonders in India, because Indian villagers are still very simple, thank God. They're not educated, they're not complicated, they just start feeling the Cool Breeze and enjoying it, that's all. They give up all habits, they give up all wrong ideas, their all customs of caste and all those things they give up and they become extremely joyous. But that's not the end of it. When you get your realisation, your material problems are solved, surprisingly, even material problems are solved, but to that extent that you do not become Mister Ford, to have a headache. But you become a person who is satisfied and you get a balanced amount of comfort and a balanced amount of living. Actually you'll be surprised that comfort is also a myth. Because see look at Me, for Me I don't know what is comfort is. I don't understand that why should people worry so much about comfort. If you make Me sleep on the street, I'll sleep like

a log of wood. If you make Me sleep in a palace, I'll be there. After all you don't carry anything with you at all. I mean nothing sticks to you, does it? I mean once you have to sleep, you just sleep off.

Now another point I would like to point out from Jung's point of view that he took to dreams as one of the very big, big experimental truthful manifestation of the unconscious. But what happens, how do you get dreams, let's see. The dreams come to you from the Kuṇḍalinī itself, in a way.

So what happens the Kuṇḍalinī is not connected on the central path, but it is the record, is all our past, all our record is in there, like a tape recorder has a tape, it is there. And what happens, that when you go very deep into Sushupti that's the stage they call it, very deep into you, then the symbolism comes through that down below and passes through that blue line into your brain and that's how you start seeing the dreams. But when you are passing through that you see you pass through your all subconscious area, so the dreams get distorted, they get a funny symbolism.

Sometimes you don't understand what's happening, it becomes a sort of a mixed up expression and on that to depend may not be so much good. Instead of that we must get the reality. The reality is that you become collectively conscious and you develop this vibratory awareness by which you can feel the All-pervading Power. But this is just what you get as far as your conscious mind is concerned, as far as your central nervous system is concerned. But actually what does it do, is the point? When it happens, what happens? First of

all when the Kuṇḍalinī rises above this center Āgñyā Chakra, then the suction takes place of the ego and superego, so the space is created. Actually you can feel the soft bone like a child, when it comes up, actually you can see. First of all the eyes dilate and then it comes out from here and you start feeling the Cool Breeze, actually here coming out. Now this is what you feel, but it acts in this way that these vibrations, are the vital forces we can say, not libido only, but all these things mixed together which are in pure form, which are for your Hita. Hita means, which is for your Spirit, we can say and when you want to give vibrations to someone like that with your hand at the most, the person can be cured. You can cure cancer patients.

Now there's one gentleman who has come here luckily. I mean it's all Sahaja again I say, spontaneous, that I met him and he was a person suffering from angina a very serious type of thing had happened, because they said, He has to go to Houston and he had booked his seats, everything and was about to go.

And then he came to Delhi, just to meet his friends because he thought here something might happen so it's better to go and see them. And there they had the Rotarians you see, they called Me for a lecture and I was speaking. There must be a lot of people there and he came out with the question that, “What about the heart?" I said, “Heart is completely under control with Sahaja Yoga." So he found it very difficult to find Me out in Poona, but he just came to Me and I think I must have treated him for about ten or fifteen minutes and I said, “Now you are all right." But first he had a big, you can

say, a big convulsion sort of a thing because the force was there and then suddenly he got rid of it and he's perfectly all right, he's normal. He went back to the doctors and they said, “What have you, this is not your X-rays, these are not your reports, these are too different." And luckily this gentleman happens to be here in America, but this is only one of the cases. I would say that luckily it so happened that Sahaja Yoga has cured people like we can say the President of India, who was suffering, who came here for an operation for his cancer of the lungs. And when he was going I just went to see him, because My husband knew him very well and the High Commissioner just said that, “You know She's such and such, but also She's Mātājī Nirmalā Devī” and I'm known in India for this kind of things.

So the wife of the President said, “Then Mother, please cure my husband." And he was very much suffering, he could not sleep and people were worried that he may not survive up to Delhi airport. Then I treated him for ten to fifteen minutes only and he felt now I'm feeling relaxed, I'm going to sleep. And next day when they reached Delhi, he walked down and everybody was surprised. They had taken a stretcher, this thing. And he told Me, after that he went straight for a tour. And he then later on, his wife showed Me that even the mark of his operation has disappeared.

So you can write to him and find out about it if you want to find, but it's nothing important, it was just a by product.

So I must warn you that I'm not here to cure anyone, or to do anything but if the Kuṇḍalinī rises, She nourishes.

It's your own, it's your own Kuṇḍalinī, it's your own Spirit, it works.

Now what am I doing here? People might say that, “Why You?" I mean it's very common question in the all Western countries then, “Why of all the persons you should do it?" I said, “You better to do it, I'll be very happy, I would like to retire with My husband with My grandchildren." But the thing is I have to do, what can I do about it? I mean, say you are intellectuals I'm not, you can drive a car, I cannot, I cannot operate a bank, I cannot do many things. Supposing I know how to do Kuṇḍalinī why should you feel so hurt about it? And it's a thankless job, you have to work really very hard, 24 hours job it is, you see and everybody wants to gain out of it.

So I don't understand that why should the ego come in between? But doesn't matter, I'm like a bank; I have to just cash your cheques, that's all I'm here for. I've nothing to gain out of it, in the sense, that of course I feel very joyous, many people get their realisation and really get their own, because this is your own thing. It is within you it is nothing to be paid for nothing to be worked out; it's just within you. But supposing one person gets it, he can give it to others also. Like one candle, which is not enlightened, can be enlightened by another enlightened candle. Now this candle doesn't do anything except that it enlightens that candle and that candle has to be enlightened another candle. It is as simple as that, is nothing very serious. You don't have to go into, see they had told Me, I was really thinking Jungians how will I address them, you see, they're already moving like that,

like that and I'm such a simple person. How will I tell them what I have to tell them? But it is such a simple thing I tell you, it's even simpler than cooking.

So one should not think that God could have made anything very complicated. See we breathe without even reading a book. Supposing you have to read a book and then breathe, how many of us would survive? Is as simple as that. Now if you have to go up, if God has created this universe and if He wants to save His universe and His creation, He has to jolly well do something about it. If He has made us like this, He has to give us realisation too. And it is so surprising that I find it is working out.

Of course we cannot have fifty million disciples like that, as these fake Gurus have, because to create a plastic flower is very easy. You just give somebody a name, go on repeating his name. Now they give a name, repeat the name of Rāma. Now there is no connection, you go on pressing on your sympathetic nervous system. Now Rāma could be a servant dead somewhere, he just enters into you and you start jumping. You start jumping like a frog.

Some people came to My program they were jumping like a frog.

So I said, “Why are you jumping like a frog?" They said, “Our Guru said, `When the Kuṇḍalinī rises then you jump like a frog.' " I said, “Now are you going to become a frog or an earthworm?" Use your brain.

That's the problem, you see, with all intelligence when it comes to their evolution, to the living process, they just don't want to use their brains. Whatever these Gurus tell

them they are willing to do it and do whatever they like. Like another Guru is there who brings out diamonds, this, that from the air and it's all jugglery, it's absolutely jugglery. Now what I'm saying, “What is the interest of God in diamonds? What is His interest? Why would He give you diamonds?" You see diamonds you can always go and buy from somewhere. But people don't think, you know he's very popular, he's very popular with affluent people.

Why should they ask for diamonds? I can understand Indians, but he's not bothered about Indians so much. But he gave a diamond ring to a gentleman who was a very, very rich man.

So I said, “Why did he give you a diamond ring? He should have given it to your driver. And if he's such a diamond ring fellow, why doesn't he solve our problems in India, our poverty, completely?" So this is what one has to think openly, with open mind and you can save all these people from these cults and sects.

Now the best of part of it, that I'm also called as a sect, that's the best part of it. From the year 1970 I'm the lone person who's been fighting and fighting these people, clearing people who have suffered from it, I'm the person who has been telling everyone about them, their nature, what they have been, how they practice this, how they have managed you, what has happened to you, everything. Despite that, the shallowness, or the naivety we can say of the Western people, now they call Me also a sect. Now this is the limit. I said, “Now to call Me as a sect, would be something like calling Christ as Hitler." I mean I can't understand how these two things can go

together, a person who has been fighting them lonely, all these things.

So this is what it is and I'm very happy that you have given Me your precious time today and listened to Me. Now I would like to have workshop because I know it would work out very fast with Jungians, because it has worked out always, all those Jungians I have met have been wonderful people. Because they are not so one-sided as Freudians are because you see, Freud reduced us to a sex point. Absolutely are we sex points now? I mean this is too much, very ridiculous. I mean it doesn't behoove anyone to say that about a human being, that you are nothing but a sex point. But you live without the sex also, so are we not living, are we not existing? I can't understand how people accepted Freud so much. At least Jung at that time could see this point clearly, that it is not something that has to do with one human being, it's collective and this is a happening that is collective.

You'll be surprised that people, when they get realisation, they can give it to thousands. In India in thousands they get realisation, in thousands. And also should happen here in America if our Chakras are all right. Because the Chakras here are very haywire, I must tell you the vibrations here are not good.

Because you have witchcraft, you have all the Gurus settled down in America, imagine how they all felt so attracted. All of them horrible people are down here and one better than the other. And I don't know how they have been able to manage your intelligence. What has happened to your brains? I can't understand how they have dominated you so much, that one fellow just he

wants you to learn flying. Why not ask him to fly himself? Put him on that Pisa, what you call that Leaning Tower of Pisa and let him fall down and let's see if he can fly. What I'm saying, “Why not use your brains for these things?" That's what it is, that's how you are going to find them out. But what happens, when they suffer. Like this Muktananda, somebody asked Me, “Why is he a dangerous man?" Somebody asked Me a question, is one of the questions is there. Now before I came here, there was a lady sitting who has been to Muktananda. To Me he's not only dangerous, but he's sinister, absolutely sinister. And do you know his children, so-called, if they are his own children, two of them and are now fighting for the diamonds that he has created out of this stupid people here. And the diamonds are worth six thousand; I don't understand the money part. Six thousand.

[In Hindi:] Something like that, you see I don't understand, million-billions, something like that.

[In English:] You see he's made out of you people here, all these diamonds. What is the interest of a Divine person in diamonds? What can you give? This is what one should understand, that you cannot understand, that you can get your knowledge without paying for it, you must accept. Is the ego of money, is the ego of money, cut it out.

You have to humble down yourself. If you humble down then it's yours, is there, it's just in your heart.

There's a saying that “whenever I want to see my God, I have to just bend my head towards my heart that's all." That's what it is, it's so simple, it's very simple. We have to humble down, that money cannot purchase God,

because all religions are based on that. Everybody, Mr. Pope is having what you call that hat, donkey hat on the head with all the diamonds in it and like *[UNCLEAR]*, what a crown he has.

What a crown he has, think of it. And now like a pop star he is waving to all the people, creating problems for these Polish people and the political stunts he's creating. Why don't you think about this? All these things that condition people and making money out of it and seminars and this and that. I really am surprised! Where are you lost? What are you doing? Why don't you come to reality? That the Spirit is within, it is such a simple thing and that Kuṇḍalinī is your own Mother, She has only one child, that's you.

And She's so anxious to give you realisation, so very anxious that it will just work in a split of a second.

So why, why go to these false things and false ideas and false conditioning, having big, big seminars and big, big things? There's no need to, actually for Me it's not necessary even to talk, but without talking who will come to Sahaja Yoga, nobody.

So I have to talk, I've talked and talked and talked.

So much talk, you can't imagine. I've got about at least thousand lectures in London and they all feel that it's something great.

I don't know, but I wished I could stop now talking.

The other day somebody was talking, I was so happy that that person can talk very well. I said, “Now I will retire from talking, I will just do the raising of the Kuṇḍalinī, you better see to the talking." And I'm quite happy, she also

said in a quite good way whatever it is, you people all enjoyed it.

So maybe that some of you might come up as great speakers in Sahaja Yoga and you might be able to relieve Me of this too much talking. Thank you very much.

May God bless you.

Now if you have any questions I would like to answer them. But it should not be, it need not be aggressive with Me. There's no need to be aggressive, there's no political stand going on. It's just I want you to get your realisation; it's a simple offer.

So for that you may not hit Me with a bible, all right.

Question: I understand that to raise the Kuṇḍalinī you should have a master to guide you.

Shri Mataji: She's asking Me if, that she's read, that you have to have a master, no doubt you have to have a master, no doubt. Meaning the person who is an enlightened soul. A person who is a realised Soul can only do. I wish Jung knew how to do it; he would have done it himself.

So you have to have a master who is called as a Sat Guru, the one who has achieved the truth and who is a master. Now I'm not a master, thank God, I am not a master at all I am a Mother. And Mother is always a master in a way.

So that's what it is. But as far as I'm concerned, I am too soft to be a master, I think, because I cannot be hard with people. But masters are horribly hard and I would like to tell you about a master. There was a great realised Soul living in a forest on top of a mountain which

is not easy to climb down, near Kolophur, he's known as *[UNCLEAR* Ragan Bourha]. Ragan Bourha is the name of the mountain.

So he sent some people to Me saying that, “Mother has come so why do you want to bother me?" So I went down to see him there *[UNCLEAR* and when he's going to climb] and I went up and of course he was very, he had a power to control the rain.

So that day it started raining very heavy, very heavy.

So when I went up I got completely drenched and he was so angry like this. He was moving his head up and down and then he came to Me and said, “Mother why was it raining so much and you controlled the rain and you allowed the rain to drench my Mother like this? And this is it to kill my ego?" I said, “No, that's not the point. The thing is you are an ascetic and you are a Sannyāsī and normally I would not take anything form a Sannyāsī because I'm a householder. But you have bought a sarī for Me so unless and until My sarī gets drenched how will I wear the sarī you have got?" The whole thing became such a poetry you see; he forgot his temper, everything and he said, “Yes Mother, how did you know I've got a sarī?" I said, “I know, in love you know everything." And that's how he gave Me the sarī to wear.

But then he told Me, “Any body who troubles you better send him over to me." So I said, “All right if anybody troubles Me I will send him over." So a gentleman was very torturous you see, over learned, this that, used to eat My head morning till evening.

So I said, “Now what to do?" I said, “All right, you go and see the master, this one Ragan Bourha he never meets

anyone." So this fellow felt so attered that he called Me there and have Me meet the great master and all that.

So he reached there. Next time about a month later what I find I'm in a meeting and this fellow is brought with broken legs around his neck and dangling like that you see. And really tears came into My eyes, I said, “What has happened? What has happened to you? What did he do to you?" He said, “Mother never send me to that Guru." I said, “What happened?" He said, “I didn't say anything I just said one thing to him against You." I said, “What did you say against Me?" So I said that, “This Mother, you see, She has no discretion She wants to give realisation to everyone and She makes everyone equal level and all that and I said some things like that." So I said, “Then what happened?" So this Guru has got broken, you see legs are broken by other people, because anybody who is realised I told you, they must break your nose or break they can break you legs or something like that.

So his legs are broken so he goes on a tiger, you see, there's a tiger with him.

So this tiger came and he said that, “All right, now you sleep here tonight and tomorrow you go down that's very late." So I was sleeping and a tiger came and it threw me in a *[UNCLEAR]* I fell down about fourteen fifteen feet down and I broke my legs.

So I said, “Then after three, four days I'm lying there calling for people. He brought some bread tied to a rope and he put it down and said, `Now eat and lie down there. And now if you say anything against Mother I'm going to put you right.' " For three, four days he did like

this. After that he brought him up and he said, “Now you put your legs round your neck, go to Mother, she'll cure you I'm not going to cure you. If you say a word against Mother I'm going to break your hands now." I said, “Why should you do such a thing? Why did you do like that?" I asked him, “Why did you do?" He said, “To the donkeys you must give the treatment of the donkey and to the cruel people you must be with them as they are, I'm not a mother." But I cured the fellow and I was really very sorry.

So it's a fact, you know, they are very hard taskmasters. They are not here for in the market or anything they are sitting somewhere. I asked one fellow who was a, in a that place, *[UNCLEAR* kardi center] and I told him that, “Why don't you go and see some of your people? You see I won't be able to go this year, why don't you go and see them because I've not been there from 1972." He came here for three days he stayed and then back. He said, “I cannot manage it, people are absolutely no good for realisation." *[UNCLEAR]* that's what it is. You have to have a master. But to get a master rather difficult, better get a Mother.

[Additional Quote:] These two areas [the Collective Subconscious and the Collective Supraconscious] are to be avoided. For example, if you see some Gods and Goddesses around Me, that is not good, because you are seeing the left side, the past. What you have to be is in the centre, in the present.

So all these things come to you from some busy bodies that they enter into your being, even [from] these people who cure, these Spiritualists, that's very dangerous. All

these are taking you to a realm which is not your own, it is somebody else who is acting. Even a thing like acupuncture can be very dangerous because acupuncture uses whatever energy is within you, of the sympathetics, this is the energy which is all the time flowing, when you get connected to the mains, all the time it's flowing within you.

So there are three areas, which are very dangerous where we should not enter into: the Supraconscious, the Subconscious and down below is the Hell.

Contents: 1983-09-17 **Śhrī Ekādaśha Rudra Pūjā (Parivartini Ekadashi Day), Living Room, Judy Gaddy's Apartment, 215, West 92nd Street, Manhattan, New York, USA**

So today is a day, according to the Indian calendar, called as Parivartini Ekadashi. Now, today is the 11th day of the moon. 11th day is Ekadeshi. Also, in Sahaja Yoga, you know about Ekādaśha Rudra, which is here [forehead], which will ultimately destroy all those things which are not required anymore. That is Ekādaśha here, that is the 11th. But today is a special day where we are going to use the power of Ekādaśha to do the `parivartan' means `the transformation'. It is not for destruction but for transformation. Is such a day to be here in New York where we use the destructive powers for the transformation of the universe.

So it's a very great day today that we are going to transform people by the manifestation of the Ekādaśha's powers. And they are 11 placed over your forehead here and you know how they work out.

So that these ten come out of the destructive powers of the Void. Void has got ten destructive powers also. Out of those 10, the destructive part settles down here.

So when a person is on his destruction, say for example a cancer has set in, then you might feel a throb, here at the apex of your Void, the throb.

And it doesn't logically mean that, if there's a throb there's a cancer, but if there's a cancer there'll be a throb in here going on. That means the force of life is trying to push it. But the obstruction there starts accumulating on both the sides and in the center is the center of Viśhuddhi, of the Virāt, where Śhrī Kṛiṣhṇa has become the Virāt, the Great Primordial Being.

So this is the 11th power of destruction [points above Āgñyā in center of forehead]. He has the power called `Samhara Shakti' by which he kills people.

So before killing them and finishing them off, in the compassion of your Mother, we have to first try to transform them. If they cannot be transformed then it's alright, then Ekādaśha takes over.

So these eleven very great destructive powers will be used by the Kalki, the One who is going to manifest on a white horse. Before that, today is a very great day that these powers we are going to use for transformation.

Now how can destructive powers be used for transformation? First of all, when people know that there are destructive powers manifesting, they start fearing. They get afraid that we'll be destroyed so we must take to God. That's one of the ways.

Secondly, if a person comes to know about any destructive disease like cancer, he wants to find out a method and there is no method available on a human level, so then he thinks of God and wants to come nearer to God. The fear brings him closer to God. He depends on God more than on his rationality, than on his ego, or superego. And he wants to depend on God's powers to cure him or to save him from this destruction. Because he is now on the brink of destruction. As soon as cancer is set in he knows that theres no end to it and he has to be destroyed.

So, this is another way the people take to transformation, change their attitudes, change their value systems. I have known of many husbands or wives who got cancer and their counterparts became very mild, gentle, kindly, romantic.

They tried to give all the love, all the protection, all the good things to a person who is going to die now of Ekādaśha.

So a kind of a transforming temperament starts coming in a man, that he sees that the person with whom he has lived all his life is now going to be no more.

So a kind of beautiful feelings towards the person, of giving whatever you have beautiful within you, starts. And that's how people develop another kind of personality which was never apparent before.

So all the harshness and the aggressiveness drops out and all the sweetness starts pouring in.

So the compassion in a man is awakened, by which he gets transformed.

Many people who lost their relations, kith and kin, become much more gentle, kindly-er people, because Ekādaśha has expressed its awe. And also another kind of a fear comes into the mind of the people that “Tomorrow this can happen to me also! So I must do something about it." So at this time Sahaja Yoga helps them a lot. They come to Sahaja Yoga because such an emergency is created within themselves and thus they are rushed for their transformation to Sahaja Yoga.

But there's another subtler way this destructive force helps them, by destroying all that is negative within us. Because unless and until that negative is destroyed within us, we cannot become people who can enter into the kingdom of God. We have our ego, we have our super ego and both can be represented here. When you have your ego, very much great ego, then you'll find a big blob-like ego coming out on this [left] side, a very big one, here. Or if you have a superego you can see another big thing jutting out on the brain here [on the right side].

So on both the sides you might get both the things if both the sympathetic are overactive. If you are not a very collective person also you might get a blob here [above Āgñyā].

So you might get all the thing filled up with your ego, superego and this Virāta's center again blown up in a way that a person develops a face like a monster sometimes! This portion becomes too big, thick, jutting out. There's a character I've seen like that, I think it is Frankenstein or someone. Is it? Frankenstein; yes, that has come from the Unconscious; Frankenstein character. Is all this is swollen up, jutting out and this place like

that. That's really the one that happens to human beings, when he becomes a devil himself.

So this is how the Ekādaśha works within us, to destroy our negativity within us.

In India, so many people fast on this day, for atonement, on 11th day is very common: “You must do Ekadashi." All the Hindus and all these people do Ekadashi. That is, the 11th day they don't eat anything at all. But you shouldn't do it after the Advent of your Mother, because, I'm the Ekādaśha Myself! So why should you do it now when I've come? It was done when I was not here, just to call Me, so now I'm back here, you need not do this anymore, the penance of Ekādaśha. But you have to be careful.

Now Ekādaśha comes, as I told you, from the Void.

So firstly, it comes when you accept someone as your Guru, say, who are false, who are anti-God, anti-Christ.

So you developed a kind of a thickness on this [right] side, when it is the person whom you are worshipping as a Guru, or respecting as a Guru, as a Guru to you who is not really a Guru, so you develop a superego which shows on this [right] side, this part.

Now the other side of it shows when a person says “I'm my own Guru, I'm practicing my own meditation, I've nothing to do with anybody's guidance, I'm quite alright as I am." Such a person develops the other [left] half.

So you have this half developed because of that and this half developed because of the superego that you get from these false and fake Gurus. Now what happens sometimes that when you get involved into this kind of superego behaviour, at that time, it so happens that you

might take over from there and start using it for your ego. That's the worst time for you. At that time what you do is to act like the devils yourself. And once you start doing that, your Ekādaśha is completely finished. And then I don't think it's easy to get rid of it. It's very difficult. But if it is one-sided it's much easier.

So today is the day which is called as the Ekādaśha which is going to bring the transformation. When you are transformed, so many things are automatically destroyed within you. As you can see very clearly that all your misidentifications drop out. The misidentification that “I'm an American, that I'm a Christian or I'm a Jew, I'm this, I'm that” all these false misidentifications drop out and you become a naked human being; first of all you are a Human Being. And then a super human being, without the ego, without the ego.

So your ego is destroyed, your superego is destroyed, your conditionings are destroyed and all your false ideas about knowledge are destroyed.

So what remains and emerges out is the reality. Now see when a flower becomes the fruit, everything, practically, drops out of the flower, we can say. Like the calyx is dropped out, then the petals are dropped out and then the epicalyx is there, that is also dropped out.

But what remains is the seed, actually if you see. Around the seed all these things develop and the fruit remains, the rest of it drops out. In some fruits some part is used, in some fruits nothing is used, a very little growth comes out as fruit and becomes the fruit while the flowers are there.

So in us also whatever becomes Spirit remains, the rest drops out. And that is what it is when we call it the Ekādaśha which brings forth the transformation. And one has to understand we have to drop out many things.

Some people I've seen they say, “What's wrong? I'm smoking, still my vibrations are alright." Some say, “What's wrong? I'm drinking, still my vibrations are there. I'm going to this Guru, still my vibrations are there, I'm having the same type of licentious life, still my vibrations are there." Now it goes a very long way, the vibrations are still there. But suddenly they stop and you find you're out of the bounds.

You're thrown out completely. But you do not feel how you are thrown out. Gradually you find, like a tangent you go out. And so one has to be careful about it.

So within us lies a force which is centrifugal and a force that is centripetal.

So Ekādaśha's force is centrifugal, by which you are thrown out. Sahaja Yoga doesn't fall onto anybody's feet. It doesn't request anyone, doesn't atter anyone. If you want to be there you have to be positively there and if you don't want to be there it throws you much faster than what you want. That's the trouble with Sahaja Yoga is and this is the loophole of the Sahaja Yoga which I must tell you as a Mother, that it's very anxious to throw you out.

I'll tell you when Christine, just now she told Me also, got engaged to Michael, half of them were thrown out. Because they had a conception that you must have a romance before marriage. Without a romance, if you have a marriage, then there should be no marriage. I

don't know on what conception it is based. But if you have the romance before the marriage, what's the fun of having the marriage? I mean it's like, if you have to give somebody a present, you hide it, you see, keep it to that date and give the surprise to the children! In the same way if you have the romance already done, what's the marriage? What's the celebration for? It's absolutely illogical. There is no romance in such cases.

Actually you have seen that after the romance, the marriage, then the divorce. It's always like that.

Because you become stale and you find that the romance you had before marriage was something, a fantasy that has dropped out and now after marriage there is nothing left to enjoy so you are fed up and next month you are now in the divorce court. But the marriages that take place without the romance, kept all reserve for a particular day, just for that day when you are going to have the real romance and real feeling of oneness, everything. In India it's a very big thing, you see, the first night of the married people.

And that's why our marriage is lost. You know, I would say I'm an old woman of 60 years My husband is 63 years and you can see how romantic he is still. You see the romance never finishes. Because it starts on an auspicious day with the sanction of the collectivity everybody taking interest in that romance. It is such a big thing to be married, all the people enjoying the marriage and enjoying.

Sahaja Yogini: Would you like some fruit Mother?

Shri Mataji: No, thank you that's ok.

So now, this kind of thing when happens to the people who are Western people think romance is very important. But I don't think one can learn anything from the marriage system of the Western people.

Because all their marriage system is absolutely in a dwindle down. There is nothing to be learned from them as far as that is concerned.

We can learn many other things, for example we can learn how to operate a camera. But to operate a marriage is better you learn from Indians. They have a very solid system of marriage. First of all the way they are trained from childhood how to make a marriage successful, such a lot of importance is given.

Then without the horoscope they will not marry, without the auspicious day they won't marry. Everything they work out in such details so that the marriage cannot puzzle out.

Moreover it is worked in such a collective way. For example, supposing My husband wants to trouble Me. Say for example.

So the sister of My husband will take him to task. Everybody can interfere if they try to do anything against the marriage. Everyone in the family will be after the person who tries to break the marriage. And so everyone knows that I'll be left high and dry, you see, if I have a divorce. Nobody has place in the society. But in England when we went first we were shocked! They had no shame about this, they said” I'm already divorced thrice and this is the fourth woman I'm living with." So shocking for us! Oh God! To us a divorce means worse than leprosy! Why are you divorced? What's the problem?

How can you be divorced? Such an auspicious thing is the marriage! Such a blessing it is. It is God blessed.

How can you do it? Is such a big fall! And that's how it works out. And in no way we are less than you people as marriage because we can produce much more children than you can produce. And children only want to be born in India not anywhere else. You'll be surprised. That's the problem we are facing. Our population problem comes from the point that the marriages are so successful, the people are so peaceful that children hate to be born in nightmares of New York. Naturally, because you don't know where will be the mother tomorrow and where will be the father. Now we are blamed for a high rate of fertility, but what to do? Children don't listen! They don't want to go to all such places where there's no stability for them to exist. Especially the realised children, if they are of a very high quality, they do; I mean, they have to be like daredevils to get into this thing so they may try. Or maybe real devils to take advantage of it. But normally, people who want peace in life, who want joy in life and the love of their parents, want to be born in India. And that's why recently we find that India is growing so fast in population that we don't know what to do.

So this marriage system came in which shocked them because they couldn't understand, “There has to be a romance and this and that." Now the more understanding of Ekādaśha that should be there that we should not allow it to be built within us in any way, because these are self destroying things. It starts with doubting. When you start doubting Sahaja Yoga, the build-up starts. And

the doubting starts building up throughout the `medha', is this the plate here, you see. And it can become a thick big plate there. Like today I saw that lady saying “touch wood” you see `touch wood' means this wood [touches Her Ekādaśha]. `Touch wood' means there should be no wood here any more, you see. Or you can say `touch stone.' If you say something like a bragging you can say `no, no, touch wood. I am not meaning that.' I mean, people are quite conscious, unconsciously they say it, but they are quite conscious not to say something that would sort of give an idea of boastful nature, or something bragging, or something big so that it may go wrong.

So they say “touch wood." This is the wood. This Ekādaśha they mean.

So we are quite conscious of this force building within us. And now we have to be conscious that this force is going to transform people.

So today we are going to pray that this force has to transform America through its capacity to frighten people so that they come to Sahaja Yoga. Because when things have reached this stage of ego, then when people say “What's wrong?" Like in England when I started talking first, they said “This is Victorian woman, out of date, absolutely useless!" I said “Alright, I don't say anything. But you'll have such diseases that you'll have to come back." That was the time [that] they passed the law that homosexuality should be allowed, permissiveness should be allowed and all these things should be allowed. And now you have AIDS. You have AIDS now here already operating. Now the AIDS has given the fear of the Ekādaśha. Now have it! What's wrong? What about that?

So this awe and this fear is very important. Is an extremely important thing that you must have the awe and the fear that God is Almighty and we are nothing before him. Here we have to remember that we are part and parcel of that God and that we have to awaken ourselves to the consciousness that He is the Whole and we have become one with the Whole. That's how we are going to overcome our Ekādaśha.

So today I bless you all with the power of Ekādaśha which is going to transform.

May God bless you all, in your work which you are trying to do for the good of Americans. It is a responsibility to save America. You know it is a Viśhuddhi Chakra and all the responsibility of Sahaja Yoga rests on Viśhuddhi Chakra.

So how important it is that this transformation is to take place. Unless and until the transformation comes in, you will see it will not work out. You cannot talk to people, you cannot communicate with them.

So you must pray that transformation process must start, must trigger and must gallop and must go on spreading like wildfire. This should be our prayer today.

May God bless you. May God bless you.

[Brings Her hands up to the heart level while holding a cup of tea and starts drinking.] May God bless you.

[Shri Mataji speaks to Sahaja Yogis in Marathi to start the Pūjā.] Ha and this sets in when Shiva is angry because Shiva is the real Rudra and His powers are given to Ekādaśha. Shiva is the real ultimate dissolution. He's the one who will dissolve the whole world, but He gives these

eleven powers of destruction. He has twelve powers, out of which one he keeps to himself for the ultimate [destruction] and eleven he gives to Ekādaśha and when that happens the Ekādaśha starts acting in human beings.

So today I was thinking that today we'll have first Gaṇeśh Pūjā and then we'll have... Rudra Pūjā.

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: Marathi...

Sahaja Yogis: [Śhrī Gaṇeśha's mantra three times.]

Shri Mataji: So as I told this power creates the awe among people, to take to God. This is very important. Already I told you we had a big hurricane here and many trees were uprooted. Let's see what other things happen to create the awe.

Sahaja Yogi: *[UNCLEAR]*.

Sahaja Yogini: Would you like some more tea, Mother?

Shri Mataji: That will do, I think, for the time being.

Now... [Marathi].

Now if you are sitting this side, better is, you see, that side, because you have... [Marathi.]... All right, the children can move this side a little, both of you should sit there, both of you. [Marathi.] Ah, better now? [Shri Mataji saying mantras while working on somebody.] You understood yesterday what I said about these, that you see the psychologists created the first mistake that it is in layers. The advantage was taken by these groups that you have to go through all this nonsense but it is not in layers it is vertically placed and your path is absolutely kept properly there.

Because you must understand that God is the Greatest Organizer, the Greatest Engineer. How can he make you in layers like this, that you have to go back into your unconscious? So these Gurus have taken, these horrible fellows, have taken the advantage of this, you see.

Aside: *[UNCLEAR]*.

Now better. Good? All right. Now.

The little boys, children have to do the first Gaṇeśha and *[UNCLEAR]*. And *[UNCLEAR* this] is to be translated.

[Pūjā begins.] The only difference between you and Me physically s that My heart is here [pointing to the V in Her hairline along Her forehead].

[After the Pūjā, Shri Mataji withdraws into Her room. Sahaja Yogis start watching the Pūjā which was just recorded.] What are you watching out there? Sahaja Yogis: The Pūjā, Mother.

Shri Mataji: Well turn it off [on]. You didn't absorb it the first time.

Contents: 1983-09-18 **Śhrī Kṛiṣhṇa Pūjā, Los Angeles, CA, U.S.A.**

First time when I came to United States, I came to Los Angeles first. Because it's a place of angels.

Actually, I thought it must be a very holy place to come down. First of all in this great land of United States.

Contents: 1983-09-20 **Guru Pūjā, Houston, TX, U.S.A.**

[Shri Mataji talks aside to a Sahaja Yogi and asks him if he has got the 108 Names of the Guru to read them during the Pūjā.] Alright.

So today first we have Gaṇeśh Pūjā because Gaṇeśha is innocence and we have to establish Him in any place where we want to start a work or do anything about it, because He is innocence and innocence was created before everything else was created. Is the most powerful power, I should say, innocence. And then we'll do the Guru Pūjā which is actually the Ādi Guru, the Primordial Master, who incarnated on this Earth many a times. And, as you know, as Dattātreya He was born, as Janaka, Nanaka and many others. That principle is within us and that is very important that we should develop the principle of Guru Nanak or Janak or anyone of these primordial masters. Because if the Spirit is the master, we have to become the master of ourselves. And the power of the masters are that they are essences of the innocence, of the creator, of the sustainer and the destroyer. They are the innocence of all these. Out of them, this great personality, innocence of these three personalities was created this great incarnation.

And their innocence is shown by their detachment to things, they live everywhere just like other human beings, married, living in the families, but absolutely detached. Unless and until this principle is awakened in you, you cannot do Sahaja Yoga. First of all, this principle of Guru must be awakened in you which gives you balance and then the ascent has to be brought in through the Spirit, the Ātmā.

That is done by the Shakti, by the Kuṇḍalinī Herself. She's the Shakti, She's the womb. She's the one Who nourishes, first of all. She nourishes that power within us, nourishes us, nourishes all our Chakras.

By which She cures our mental, emotional, physical, spiritual being. Because sometimes we bow to wrong type of people, our spiritual being is also very much hurt. And after that, after She has achieved that, then She ascends through your fontanelle bone and gives you the Self-realisation.

So it is She who is the giver of your Moksha. She is the one who is the giver of the peace, of the joy and this Mother of yours resides in you and She gives you the realisation.

So we worship Her as the power within you, so that you are empowered, you become powerful. But this power makes you the master. When She comes in the Void area, She makes you the Master because She enlightens that Guru principle within you and you become the Master, you become the master of yourself and by that you become the Master of others also.

The one who is not the Master of oneself cannot be the Master of others.

So it works out, first of all, on you and then it radiates. And that radiation makes others also accept you as the Guru. The dynamism and that compassionate attitude all develops through this Guru principle. But this is the blessing of the Kuṇḍalinī, the Womb, the Mother, the one who we call as Aquarius.

This is residing within us and we have to just accept Her manifestation and welcome Her with open heart. And know that today is the day when we are expecting human beings to rise to that level where they become compassion, love, affection. This is the new awareness with which we are going to be, completely fulfilled and

unless and until that happens there's no chance for the emancipation, no doubt about it.

We have worked out so many things in so many places and every place, I find, has a different problem.

The most difficult, I find, is America it's likeMathura where Śhrī Kṛiṣhṇa had to go and establish Himself, that was the Kingdom of Śhrī Kṛiṣhṇa and where Kamsa was ruling.

So the people in Mathura were the most difficult people because they were governed by devils and the devils have a capacity to dominate good people. They're all so dominated that even where Śhrī Kṛiṣhṇa lived, they tried to go and harm Him and kill Him and all that. And all the dynamism of these people from Mathura was killed by Kamsa who was to be killed by Śhrī Kṛiṣhṇa.

Surprisingly, the first day I came to New York for the Pūjā, the first day it was written `Parivartani Ekadashi'.

Now `Ekādaśha' is the power with which the people are going to be destroyed. Now that is `Parivartani' means the one by which you are going to be transformed.

So, how is it the power that is going to destroy is going to transform you.

Firstly, it will destroy all that is oppressive, all that kills your dynamism, all that makes you slave, that is going to be destroyed.

Secondly, people will be frightened, the half baked ones who are neither here nor there, that we'll be destroyed and that awe will change them.

Thirdly, when you see that your kith and kin are going to be destroyed, then you'll have much more compassion,

much more tolerance for them and you'll try to save them all.

So that is what it is, where Śhrī Kṛiṣhṇa had to raise a complete mountain on His fingertip, you see like this, to the right side, `Govardhandhari' He was called.

That is what is My job here, is to raise the mountain again and raise it on My finger tip like that.

But this finger has to be strong and this finger is nothing but the Sahaja Yogis of America and they have to help by their dynamic behaviour and by their proper understanding, responsibility as the people belonging to this great nation of Fatherhood.

This is the finger of the Father and that Fatherhood has to be dynamic, has to be overpowering and has to be very responsible. And in that responsibility you learn so many things, so that's My job is, that's My goal is. She [anchor] asked Me in the TV “what is your goal, Mother?" I didn't tell her that I have to raise the mountain on My finger you see she would never have understood that. But that is what one has to do here. To raise the mountain and I find it's like that, Mountainous.

And base of the mountain seems to be Houston which is the most difficult part of it, they just don't move, they just don't move, its Jaḍa it is very very `tamasik', it's so full of ignorance and so full of heaviness.

That is the most difficult part and that's why, for Houston specially, we should do a nice Pūjā to the Kuṇḍalinī that She rises in Houston.

May God bless you all.

Shri Mataji: Can you give Me the handkerchief.

Sahaja Yogi: Today it's said it's Anant Chaturdashi.

Shri Mataji: Uh?

Sahaja Yogi: Anant Chaturdashi.

Shri Mataji: Today? Ah-ah! That's great! Yes must be. I was wondering Anant Chaturdashi. Anant Chaturdashi is the day when we `visarjan', dissolve Śhrī Gaṇeśha in the water.

Gaṇeśh ji ko chodte hai na pani mein, it's that day we put the Gaṇeśha in to the water.

Because He's established for ten days and after ten days, He's born on the fourth, after ten days He's dissolved in the water so that everywhere His Power is spread through the water.

That's why no wonder there was a Pūjā.

Gaṇeśha settled down into the water. That is Ananta Chaturdashi. Ananta is the, is Śhrī Gaṇeśha.

Ananta means which cannot be destroyed. Innocence cannot be destroyed. And that is why is the Gaṇeśh Chaturdashi means the day when Gaṇeśha is dissolved in the water, in the ocean or He is created, worshipped for ten days and again given back.

So it's a very great day today, I should say, like the resurrection of Christ that you are, you had Christ here, He lived with you and then went back to His Father. Father is the ocean and that's what in India they do, establish Him on the fourth day and on the tenth day they put Him back to the ocean.

Sahaja Yogi: We used to do the same thing in our school.

Shri Mataji: Beg your pardon?

Sahaja Yogi: I said we used to do the same thing in our school.

Shri Mataji: Eh?

Sahaja Yogi: We used to do the same thing in our school.

Other

Sahaja Yogi: He says that he did the same in his school, they used to make the Gaṇeśha.

Shri Mataji: Really? What school?

Sahaja Yogi: *[UNCLEAR]*.

So we used to have a statue and four of the guys used to carry them on.

Shri Mataji: But no one understands. They just do it without understanding what they are doing about it.

So it's a thing, even in India how many people know about Gaṇeśha, no one knows.

A

Sahaja Yogini: In Maharashtra...

Shri Mataji: In Maharashtra, they worship Him a lot but they don't know much about it. They don't know how much He's important, about what He represents, how did He came on this earth, nothing they know. We have become very superficial that way. But at least it keeps your attention by doing all these things, `there'.

You see this is the advantage of in India, the children have to be little bit pinned down to a thing they, by festivals and all that they try to then find out what is this, what is that. Their attention is more there, not outside so much, you see, that's the thing is.

***Contents: 1983-09-22*, Public Program, Day 3, Ramada Inn, Houston, TX, U.S.A.**

But today I met a gentleman, he told Me, he is an Indian, that “as far as Indians are concerned they have came here to make money not to know God, so they are not interested in you. And the other people here they won't listen to you: they'll come to your program and go away." I said, “Why?" “Because you cannot pin them down without you gets [getting] some money out of them.".....

***Contents: 1983-09-23* TV Interview, Los Angeles, CA, U.S.A. (date not sure)**

Interviewer: .....

Shri Mataji: Actually you cannot certify yourself, isn't it as anything? The quality of a saint is that he can make others saints. If he can make others saints, then he is a saint. Otherwise it's just self-certification.

Interviewer: Can you make other people saints?

Shri Mataji: I think so.

Interviewer: Yes. How would you define a saint so?.....

(date not sure)

[Shri Mataji mentions the ***1982-10-07*** incident with a boy in Bedford, UK.]

Sahaja Yogi: Shri Mataji were you conscious of that? Were you conscious of being with that boy at the accident?

Shri Mataji: [The Divine is always transmitting. The message is always going out from the Divine.

Whether it is picked up or not depends on the quality of the receiver. If the receiver is good, then the Divine message is picked up.]

Contents: 1983-09-25 **Radio KFI Interview, Streetside, Los Angeles, CA, U.S.A.**

Broadcaster: Good morning. We hear a lot about Gurus and various spiritual leaders these days and a lot of times it's hard to tell real ones from phony ones. And recently there was a segment on a news program, Sixty Minutes, talking about some false Guru and today, to talk about that and a lot of other things, we have a woman who has many names and You'll have to let me know which, what You prefer to be called. But You've been called Holy Mother, Founder of the Sahaja Yogi Movement, is that the right way to say it? Anyway, You've also been called a faith healer, a saint, a Goddess, so many different names! Anyway, I'd like to welcome Shri Mataji. I'm not very good at Indian names. But anyway, You were born in India, were active in India's struggle for independence from England and personally knew...

Shri Mataji: No, not from England, in India only.

Broadcaster: OK. And personally knew Mahatma Gandhi and now You're a grandmother and married to a United Nations diplomat in London, so many different roles. Welcome to Los Angeles.

Shri Mataji: Thank you.

Broadcaster: I can't wait to hear a little bit more about what You're doing and how You feel about things. Well, with so many descriptions of Yourself, how do You prefer to be known to Americans? Do You have a... particularly, like, how would You prefer I addressed You, let's say?

Shri Mataji: As you said, Shri Mataji's a good name: it means The Divine Mother, or a Holy Mother.

Now, the thing is, we have to understand that, at this point of history, we are standing at a very precipice of our... either a complete destruction or a complete ascent. And at this time only, as you said before, there are many fake Gurus and fake people who come and say that they are here to save you. Now, this emergency has been created because we have developed ourselves into a huge, big tree and the tree has to find its own source of nourishment. And, unless and until that is done, there will be always a fear that all this tree is going to collapse. The history has shown us, so far, that the God the Father, because, at the time of Abraham and Moses, they talked about Him and then about the Son of God, but they never talked about the Mother part of it. Because Mother is very important: how can you have a father and a son without a mother, is an absurd thing? Broadcaster: Right.

Shri Mataji: And they just wanted to say about Holy Ghost that it's a mystery; they never wanted to say that it is the Mother. If you see in the consciousness of people today, they are very conscious of the feminine side of the women. Of course, I am against feminism, because that's not the way: we are not to become men. It's not the question of men becoming women, women becoming men, because it is a pendulous movement. You see, you

move from one to another. But, if it is a living, evolutionary process, then you have to move spirally and reach at a higher point than what you are.

So, the nourishment comes to you from the Mother Earth, represented within you as the Holy Ghost, is the power that we call as Kuṇḍalinī, in the ancient times; this is the most ancient knowledge of our country, traditionally accepted.

Even in Greece, it was accepted because it is placed in the sacrum bone and the sacrum means `sacred', means the Greeks knew that the bone is sacred and has something sacred in it.

Now, this was also known to Mohammed Sahib, because He called it “Assas." In the bible, it is described as the Tree of Life and also it is said that, “I will appear before you like tongues of flames." And these are the subtle centers within us, but in those days it had to be ambiguous. The whole system was not to develop the nourishment: it was to develop the Father and the Son. But at this juncture of the history, we have to have our nourishing, soothing Power awakened within us, so that we completely get drenched into it and fulfilled. By this Power, we become the Spirit that is described by Christ. Christ didn't say that, `I am the destination,' He said, “I'll send you the Holy Ghost. I'll send you a Comforter, I'll send you a Redeemer, I'll send you a Counselor." He talked of the future; even Mohammed Sahib said that, “At the time of resurrection, your hands will speak." So nobody can say that it's all over with Christ, all over with Mohammed Sahib. Or nobody can say that we have to wait for two thousand years, because if you see that if

someone is there, present, who can do this nourishment, you have to accept the fact. And we never accepted any one of Them. When They died, of course we had big temples and churches all over the world.

Now, this nourishing force was known to very great seers of India, about fourteen to sixteen thousand years back. The reason is that India has no organized religion. It has all freedom for people to go into meditative understanding of the whole subject. Moreover, all such people had no interest in money, no interest in talking to others and finding out or reading books, but they wanted to find it within themselves.

And they found out that there is a power within us which can give us this new ascent in our evolution.

So this is the real breakthrough time. Naturally people, when they came to know that `the time has come,' there are many false things for sale in the market.

Broadcaster: Well, how can one tell the difference? I mean, how could I see that You are any different from someone else who keeps saying the same things?

Shri Mataji: That's correct. I am happy that you at least think about it. We must use our brains and if you don't use your brains then you can fall prey, because you are naive about it, so it's better to keep yourself open and understand that a person who is really going to do something Divine will not take any money from you. Cannot: such a person is a parasite and a parasite cannot give you anything. First and foremost thing people don't understand. Then the second things I realised, when I saw some of the psychologists, that the problem with the intellectuals here was that they started exploring

everything through their mental projections. And the idea they have about reality's rather confused; to them, `unconscious' means whatever is unconscious is a mixed bag. You see, whatever you don't feel on the central nervous system, for them is an `unconscious'. But everything is not unconscious. For example, somebody makes you jump on your seat, they say, “Oh, the sensation is Divine." What is the interest of the Divine to make you jump? Or somebody gives you a diamond, you say, “Oh, it is Godly." What is the interest of God in giving you diamonds? So, before us, we have Christ, we have so many other people to understand, that They did not do all these things and if these people from the last sixty years, they have started doing some sort of a jugglery like that, you should not go in for that.

Broadcaster: Now, you talk about Christ, but we don't usually think of Indian culture as thinking very much about Jesus Christ, what is the relation here? I mean, You believe in Jesus Christ?

Shri Mataji: Very much, very much, because Christ is described about fourteen thousand years back in India: we never went out to the bible to find out about Him. You are so much bound by bible that we do not even realise that Christ was such a great character, that thousands of bibles cannot contain Him and there must have been some revelation about Him in some other scriptures also. And in Indian books, if you see the scriptures, the description of the Mother Goddess, He is described as Mahāviṣhṇu and all His description tallies with Christ and He's called as the Support of the world. And so, Christ has been described in Indian scriptures, because there is

no organized religion. Moreover, all these ancient books were never translated; those people went from here to study Indian scriptures were just to find out how they could justify Freud, to use Indian scriptures to justify Freud.

So they went into the loopholes of the whole scripture, took out few things here and there, not into the depth of it and they wrote books which are really shocking to Indians. I mean, if any Indian who is a scholar would say that, “What sort of a thing; it is never written, we have never seen!" So like that, all the negative things they have picked up and published these things, saying that, “Even in the olden times, you see, people used to do these things and that thing." So, everything that is published is not scripture and to understand scripture, you have to become a higher personality.

Broadcaster: OK, well how does one become a `Higher Personality'? How did You become a Higher Personality?

Shri Mataji: I was born; My thing is that I was born like that, but you can become higher because within you, God has placed all the arrangements, all the mechanism. Only thing, you have to be connected.

The mechanism is called as the Kuṇḍalinī, which is placed in the triangular bone and when it ascends, just like a living thing, like a seed being sprouted when you place it in the Mother Earth. Now you don't read about, do you, you don't sort of pay for it, just you have to place it there; the Mother has the capacity to nourish the seed and to sprout it. And the seed has everything in it, that's how it works.

So it is spontaneous happening within yourself. But the another misunderstanding people have, that anything, unconscious thing, that happens to you, for that you have to go to your subconscious and these stratas is all absolutely wrong: this will make the whole nation mad. I really tell you, this is what people are doing, this parapsychology and all that, it's a very dangerous stuff. Actually, God is the greatest organizer; He's not going to put you in such a way that you have to go through your subconscious and then your unconscious and all that. The unconscious, if it is the Kuṇḍalinī, is part of it. It ascends through the central path, they are not placed on top of each other, but they are placed vertically. On the left hand side, we have the Subconscious and the Collective Subconscious; on the right hand side, we have the Supraconscious and the Collective Supraconscious, meaning the Future side. And in the center is the Present, where the Parasympathetic lies. And, when this Kuṇḍalinī rises, this is the actual Baptism, where the Kuṇḍalinī rises, passes through these subtle centers and comes out of your fontanelle bone area, where you really feel the Cool Breeze of the Holy Ghost coming out of it.

So the Holy Ghost, according to Sahaja Yoga, is the Mother and that is placed within you, is your own; that's your Mother. And She's the one who nourishes you.

Broadcaster: Well, You talk a lot about the Mother and I'm not sure I understand exactly what You're getting at all the time, but usually, when people think of Gurus and such, they think of men. But from what You're saying, it seems more natural even that it would be a woman than a man.

Shri Mataji: Yes, of course. You see, the Gurus were there before and there are also today many Gurus who are, who are good Gurus in India, but they don't want to go out anywhere and they also call Me Mother, you'll be surprised. They also, all of them; one of them is about hundred and eight years of age, he also calls Me a Mother.

So, the Mother is the representation of that power within you which is waiting to nourish you, first of all and then to take you to your second birth, by which you become the Spirit.

Broadcaster: So, if I wanted to do that, what would I do? I mean, I've talked to other people who say meditation is the way, but, from what You say, that sounds like you'd be just going too far inside yourself, digging for something that it might not just miraculously appear...

Shri Mataji: Yes, it is, it is, it looks miraculous when I say that, but see how many things are miraculous. The way we breathe is so simple, the way we have become human beings: so simple. We take everything for granted; everything that is done by the living force are all miraculous things to look at, but it is not, because it is all built within you. Just like this instrument now you have, supposing I don't know what it's supposed to be...

Broadcaster: The microphone?

Shri Mataji: All right, I know, but supposing I'm a villager and I don't know what is a television, I have never seen a television and you show Me that this box will show you now a big drama, or something, so I will not believe it. And you put it to the plug and immediately you'll start seeing it and say, “How? It's miraculous!" You see, it's

like that: if you are put to the mains, whatever you are, you are a computer yourself, you'll start working it out.

Broadcaster: Hmm. Well, let's talk a little bit about the faith healing aspect of Yourself, because I think this, what You're mentioning, may touch on that. We say, “Oh, that's miraculous, how can You do that? How can You cure someone who's been in a terrible accident?" Or something like that. Well, how does that work?

Shri Mataji: Now, we have to understand that there is no faith healing, it's not faith healing. It is whether you have faith or not I have... people can get cured even when they are under comas, so they don't even know if somebody's going to heal them or not. It is the same nourishing quality of your own; it is within you, it's your own, not Mine. Only thing, I know how to handle it and awaken it, is a different point. But if you are awakening it, you can do it.

So, in, medically, you should say, in a simple way, that we have an autonomous nervous system within us, all right? Now, what is this `auto'? Who is this `auto'? They just brand it `autonomous'. We don't want to find out who is this `auto'. Now, this `auto' is the Spirit within us and the Kuṇḍalinī is the force that is within us, unconscious, that gets awakened and enlightens our parasympathetic nervous system. Now, I'll explain to you what is a sympathetic and a parasympathetic a little bit, all right? Broadcaster: OK.

Shri Mataji: Sympathetical nervous system is, supposing you want to run fast, you run fast and your heart goes into a palpitation; this is done by sympathetic because it attends to your emergencies. It attends so you can work

it out: sympathetic nervous system. Left and right: according to Sahaja Yoga, left is for your emotional side and right is for your physical and mental side. Now what happens that, when you stop, the heart is brought to normal automatically and that automatic happening takes place because of the parasympathetic, which is in the center. But this parasympathetic is not yet fully developed and not at all can be governed by our attention, in the sense that we cannot manage it: it happens automatically.

So, when you get this awakening in the center, it nourishes that parasympathetic, to begin with. By the nourishment of the parasympathetic, all your centers get nourished and your diseases get cured and it's automatic; it's so simple.

Broadcaster: It's so simple, but it sounds so hard.

Shri Mataji: Hard to understand, but to work out is the simplest. As I told you now, supposing I come into this room and you tell Me that, “All right, if you want to have the light, you put on the switch” and all the lights come out. It's miraculous to see but there is a mechanism behind it, there's a huge, big organization behind it and a very great history behind it, no doubt. All this is evolutionary history and mechanism is there, but better get your light first and then talk about it. It's a headache!
Broadcaster: OK.

So, how do we get the light that You're talking about?

Shri Mataji: The light is the Spirit within you, and, when the Kuṇḍalinī rises, this force rises, you can actually feel it rising, you can see it with naked eye sometimes. You can even hear it with your stethoscope. When it pierces

through here, then you start feeling the Cool Breeze through your hand, so, for the first time, you start feeling the All-pervading Power. And you become, again, I say, it is actualisation, it is not giving lectures or anything like that, it's an actualisation. When it actualises the experience, then you become collectively conscious. Like I said that, “Have you got pain in your lower foot?" because I could feel a little pain Myself. Because who is `the other'? There's nobody who is the other, everybody becomes part and parcel of you. You can feel others on your fingertips.

Broadcaster: Well, like I can feel a Cool Breeze in here, but I couldn't say for sure whether it was the air conditioning or...

Shri Mataji: It is so, it is so because, correct, you should not say that it is that. Also is correct.

But, if you see the Cool Breeze now, you use it and, by this, you can cure people, then, won't you believe it? Supposing I give some Indian money and you don't know what it is. Unless and until you spend it, how will you know? Once you start spending it, you'll be amazed and just now, if you see, there is no thought in your mind; you are relaxed.

Broadcaster [after a short pause and then laughing:] For people just tuning in, we have about ten minutes left here and I want to mention again, Shri Mataji, here from India and You're going to be in the Los Angeles area again soon, at the end of the show, I want to make sure that we find out what Your schedule is and what not, so people can come hear You in person.

Shri Mataji: Thank you very much.

Broadcaster: You came to America with a goal in mind: what would You like to accomplish? At the very beginning of the show, we talked about there are a lot of false Gurus and sects and things like that and I think You want to help...

Shri Mataji: Yes, I fought all of them from1970, I've been telling about them and I've been talking about them and against them and everything; I have done all that is possible under the sun. And I want to warn people, you have to be very careful, you see, you have to be absolutely a free person; you cannot bound yourself by anything. You have to be a free person to receive your ultimate freedom; that one must understand. You cannot be bound by this, that nonsense, of wearing this kind of a dress and that kind of a thing, it cannot be. If it has to happen, it should be happen in complete freedom; your freedom is to be respected, that's first thing. Secondly, you can't pay for it and, thirdly, you must see the person who lives on your money, what is the style of his life is? Broadcaster: If he's driving around a fleet of Cadillacs, there might be something wrong.

Shri Mataji: You see, for a person who is a saintly person, never bothers about comfort. I don't know, but I have been, somehow or other born in a rich family, I could have been born in a poor family, makes no difference and we are very well-off people, whatever it is. But if you ask Me, I can sleep on the street. I have no idea of comfort at all, no idea of comfort and all this misidentifications of prestige and all that, nothing at all.

So, because you are above all these things, you see it's such a joke going on.

So that's what at least should be in a person; if he's interested in buying cars and this and that, you should know he's a person of the same type as you are, or maybe, of a much lower type, to take money from others, cheat them and then enjoy.

Broadcaster: Is this the same way with Gurus in India? There must be many, many of them.

Shri Mataji: Not in India: people are wiser. They are not so naive and they don't have money, thank God.

[All laugh.] Broadcaster: Now, You're spending a lot of time now trying to tell people about the evils of false sects and what not, how to make their life better, but You hadn't done this all of Your life, I understand You raised a family and such before, if You still had children, would You not be out here doing this right now?

Shri Mataji: Actually, everything is managed so well, that I didn't have to think of all these things; I never plan out thing[s]. What happened that, first I wanted to study human beings as they are, their permutations and combinations, their problems, what they are and why they cannot get en masse Realisation. It should happen en masse and it is happening; thousands of people can get it at a time. If they are simple people, they get it so fast. And I tried to study them, by My own meditative method, what is the problem? So first I studied the Indian people and their style and everything and I mastered that. And then I studied the Eastern and the Western and all sorts of people, otherwise, to know what's the problem is with them: why can't they `become' en masse? Like, when there's a blossom time, so many flowers suddenly become the fruits so, what is the thing

to be done? And I found out a method within Myself and I worked it out. And in 1970, first time, I, sort of, opened out the last bit of it and that's how I could do it.

So, it was when I was, that time, about 47 years of age and then for three years I worked and then I came to your country, when, it was '73, to tell them about all these false Gurus: this thing, that thing. But they started teaching Me wisdom that, “If You don't talk about money, nobody will look at You. Everybody understands money here, You must ask for dollars, dollars, dollars." Broadcaster: Yeah, very capitalistic here.

Shri Mataji: Yeah I know, but you cannot capitalise God; you cannot organize Him, you cannot purchase Him. We have to humble down. We cannot purchase everything. Can we purchase everything? Broadcaster: No.

Shri Mataji: That's what it is: we have to humble down and that's how I had to go away. And I didn't come here for some time, because I was sure that they have to learn it; unless and until they learn it, that money's not everything, they are not going to listen to Me. And they were quite rude to Me about it, you see and I was surprised they couldn't understand love.

Broadcaster: Do You think that Americans are any different now, do You think it'll be easier?

Shri Mataji: Oh, they are much better, they are much better...

Broadcaster: Why?

Shri Mataji: Because they have learned from these Gurus that they are hopeless people, that they have troubled them so much. Also, now there are some diseases that

have come to frighten them. Otherwise, they used to brand Me as Victorian and all sorts of things; when I told them, “We must have sanity about our life, our sex life” they were very angry with Me in the beginning.

Broadcaster: Well, when You were here before, it was in the middle of the sexual revolution and the feminist movement and so I can see how You would face some...

Shri Mataji: Yes, they all were quite aggressive with Me, I must say. But it's all right, I don't mind because the right time has to come and it has come today and My children are now married and My two daughters, they have children and My husband himself is a very busy man, he has to travel a lot and he himself understands that this is the only solution for the whole world. Because transformation must take place, that's the point is.

Broadcaster: Well, women are still feeling rather feministic, I mean, they... you know, it's... there hasn't been a real trend that I can see toward mothers staying in the home and everything, for one thing, because of the economic situation; it's very hard for families to have just one breadwinner...

Shri Mataji: I know but it is to be understood in a very subtler way and a very wider way also, that I do not mean by making women feminine: I'm meaning the feminist qualities, means of compassion, of love, of nourishment, of soothing. Once upon a time, say, Napoleon was a hero, all right? But today, it is not: it is Mahatma Gandhi today is a hero, who was a man of compassion.

So I'm saying the qualities of femininity; it's not the woman or a man, it's not the point. Even the man has to

get that quality by which he nourishes; he doesn't destroy, but he nourishes people, he soothes them and he fulfils their complete attainment.

Broadcaster: Do You think that the Western way of life, the Western family life, is all wrong, or do You think, with just some minor modiffications, that it can still work? I mean, it's very hard for the mother to stay home with the children these days and the father to be out working and that kind of thing.

Shri Mataji: No, no, not necessarily, you see, the father and mother, as I said, both have to be more feminine towards life. Not to be masculine. Masculine is to dominate, to compete and to try to develop in a relation to each other. That's a different thing, but this is a temperament where you just nourish people. And it flows, you don't have to do anything; it just flows, it emits. You don't have to do anything about it, it just flows and you don't have to tell anyone about it, you can just work it out.

Broadcaster: OK, so You aren't necessarily for the real, set roles for men and women...

Shri Mataji: No, no, no, not at all, not at all. Any man could be that; as I said, Mahatma Gandhi was like that or, you had Mister King who was like that, so many people...

Broadcaster: Martin Luther King...

Shri Mataji: Yes, all of them were like that, I would say Abraham Lincoln very much was like that.

He was a realised Soul and he was a great person.

Broadcaster: Well, You mentioned Mahatma Gandhi, we have a couple of minutes left, what was it like being around him?

Shri Mataji: Oh, he was a very sweet person because, I was a child when I joined, he used to call Me Nepali because My face has little Nepali features and you see, he was very strict, with everybody else, I should say, with all elders and all that, but with children, he was very sweet, extremely sweet person.

And he would sit down with Me, very seriously ask Me very sweet questions and things. It fills Me with great pride and happiness that we had such a great man in our country, who delivered us from the bondage of slavery, which is the worst thing that one can have. And I Myself took a very dynamic role for that; Myself, I went to jail and they gave Me electric shocks and put Me on the ice and all sorts of things they did to Me...

Broadcaster: How terrible!

Shri Mataji: Yeah, horrible, I was about eighteen years of age, that time and... but doesn't matter; My father himself was sent to jail and My mother, she was sent to jail and quite problems. But then My father was the member of parliament and all that. Whatever has happened has happened; we should forget about it.

Broadcaster: It's in the past.

Shri Mataji: All in the past...

Broadcaster: Do You think that movie `Gandhi' was a realistic portrayal?

Shri Mataji: Yes, it was quite realistic, in the sense, whatever was shown was realistic and it was nice they

didn't show much of it because it doesn't look gracious. I think it was all very nicely done. But one thing is there, after all, you see, Gandhiji had his own style of talking and Indians don't talk that way, you see, in that sharp, brilliant manner; they talk in a very... I should say, very persuasive, sweet manner.

So, I think that actor was good but little bit sharp in his answers and rather overbrilliant.

Broadcaster: OK, well we have about a minute left and any final words that You'd like to close with?

Shri Mataji: I have to just say that we have to know ourselves; it's all our own and the time has come. This is the blossom time and America has the greatest responsibility to do it, because so many great saints are born here; they are seekers, they should not be lost and I'll give My last breath to save them.

Broadcaster: So You think America is a real important place for the world?

Shri Mataji: Very, very important place for the whole world, because they are placed at the Viśhuddhi Chakra, as we call it in our Sahaja Yoga language, is a very... they have the responsibility and they have to understand that this is how they have to find themselves. That's very important.

Broadcaster: Well, best of luck with Your tour here, I hope You have an enjoyable visit, more enjoyable than the last one.

Shri Mataji: Thank you very much.

Broadcaster: Well, thank you very much for joining us and let me mention that Shri Mataji will be giving

programs at the First United Church of Hollywood and that's at 6817 Franklin Avenue. That's at Franklin at Highland and that will be tomorrow, Monday and also Tuesday at 7 p.m. That is free, and, if you'd like more information, you can call 487 5104. My name is Sharon Dale, thanks for listening.

[Introduction by Warren.]

I bow to all the seekers of Truth. This is a special time in the history of creation that so many seekers have ben born on this Earth. They have realised that.....

[A person from the audience, who met Shri Mataji in 1972, came to return the $11 he had borrowed from Her in 1972.]

***Contents: 1983-09-25* Dinner, after, Public Program, San Diego, CA, U.S.A.**

[After, Public Program Shri Mataji took all Sahaj Yogis for dinner:] We must go and celebrate now.

***Contents: 1983-09-26*, Public Program, Day 2, How to Save Attention, First United Church of Hollywood, 69817 Franklin Avenue, Los Angeles, CA, U.S.A.**

I bow to all the seekers of Spirit. The seeking of Spirit has been described by so many people from ancient times. It is nothing new that I am telling you that a human awareness reaches a point where it starts seeing that there has to be something beyond. And at that time the

seeking starts and the person start[s] looking forward to something that would make that person the Spirit.

.....

***Contents: 1983-09-27*, Public Program, Day 3, First United Church of Hollywood, 69817 Franklin Avenue, Los Angeles, CA, U.S.A.**

Doctor Warren has already talked to you about the different centers that we have within ourselves and you can see how beautifully they are placed and how gradually when the Kuṇḍalinī rises, how She enlightens the innermost core of the centers. There are three channels in the central channel and the innermost channel is used by Kuṇḍalinī to pierce through for the first time. You can imagine Kuṇḍalinī to be made of many strands of energy tied together just like a rope and as the Chakras start opening more strands start getting awakened and they pierce through these six centers; but if a person after Realisation just thinks that he has got the Realisation, then he doesn't have to bother about it, may lose it for the time being, for quite some time I should say and he'll have to work much harder to re-establish his Self-realisation.

I've seen many a times when we give Realisation to people they say, “Yes, we have felt it." They did feel it, everything happens and then they loose it because they have not established their Realisation properly, for which luckily in every place wherever I go I see to it that we already have a center established, then you can go to that center and you can learn from them how to establish

your Realisation. That is a very, very important time which must be taken into consideration.

There was a lady who had cancer, she was cured of her cancer, she was perfectly all right and she went back to her family, she was doing very well and after some time, a year or so, she came back with another disease of a very serious nature.

So I asked her, “How is it that you are cured of cancer, now you get another disease? Did you do anything about it?" “No, Mother, I went back from here, everybody says, `You are looking very fine.' They are all right, they were all quite surprised how I was cured and I never bothered to do anything about it." So she got another trouble. You go on like this, you cure one thing then you again cure another thing.

Like little children, you clean them, then again they get out and soil their clothes, again they are back in the bathroom, then again you clean them, again they do the same thing.

So you have to mature, after Realisation you must in all wisdom and sensible behaviour, you must mature of it, otherwise it is a big headache to Me and big headache to you and you can be quite lost also with it, because if a seed is half-sprouted it is of no use at all.

So if you want that you should really have the complete bliss of Self-realisation, you have to become a little serious person about it. Shallow temperament is not going to help you, or looking at it as if like another Guru shopping business it is not going to work out. You have to work to see that you establish yourself, till you have established you are not to work on other people but once

you are established you can start working on other people, giving them Realisation. There is no need then for you to bother that you will catch from others, or anything; but before that you should not try to help others. First help yourself, selfishness to begin with. Unless and until you are all right and you know all the methods of protecting yourself, you are not to indulge into Sahaja Yoga practices which helps others. But when you become an expert, when you have an expertise then you should do it. Like a mechanic who doesn't know how to repair a car, they spoil it more.

So better become an expert for which you don't have to pay anything, you don't have to do much about it but only to understand how you have to move the Kuṇḍalinī within you, how you have to establish it back, what problems you have and how you have to cure. You will be surprised you won't be aware of problems that you have.

One gentleman came and told Me, “Mother everyone is coming and asking me, `What about your father, what's the problem?' " I said, “Everybody said the same?" He said, “Yes." I said, “I also want to know, what about your father?" He said, “My father died very early in life and I always had a feeling that I had no father." That can be cured and he developed asthma with it, so everybody knows, those who know one thing that is the truth about you. All of them will say the same thing, even if it is a small child, he will also come and ask you that “Is your father all right?" Because if he knows that this center, this center on the right hand side means the father.

So he will also say the same and then he will come and ask you, “What about your father?" It is so remarkable

sometimes the way people see these things that they can't believe it, but this is nothing, what you get is just a wee bit of it.

But as Kuṇḍalinī rises, on every center you start getting the light of that center. At the first center you get back your innocence, your eyes become innocent, your behaviour becomes innocent, you are not filled with lust and greed, you don't look at things with lust and greed, but you look at things with innocence, which is a very big thing that people have lost and that you get back and such a person develops many qualities. One of them is that such a person is full of fragrance, such a person has a tremendous gravity, tremendous gravity and such a person has tremendous dynamism and attraction is a bad word so I don't want to use it, but magnetical.

His magnets is awakened within him, this is the center of your magnet of the earth. Such a person develops a tremendous sense of roots and sense of direction, you place him anywhere he will know where to go. Like birds, you place birds anywhere they know which side is north, south, east, west. In the same way you also develop your lost innocence and your magnet within you by which you have proper direction; but the highest of all you develop the proper direction to wisdom which is the wise thing to do. You just don't do stupid things, you just don't do, even if you ever try to do it, you will not do it, because you know it is so stupid, just you don't do it. I mean it is so simple to be wise than to be stupid, because if you have to be stupid you have to go out of the way to be stupid and idiotic; but if you want to be normal and wise is the easiest thing to do. But what people do is to do

things that would make them more and more stupid, nonsensical, because also some people told Me they do it, the reason being they think they have a nuisance value.

Like in London now we have one funny stuff going on, they call it what? `Punk rock'. You see, it's a funny stuff. Now poor kids they don't know what they are doing it and I think the only value of that punk rock system is this: that they try to sort of make a nuisance out of them so that people feel attracted towards them or sort of a significance out of them. But when you become a realised Soul you realise your significance, because you understand you are part and parcel of the whole and that your significance is to give Realisation to others, the highest of highest, that's what you have to do now you are a saint and that's how the whole attitude of cheapiness, of outward shallowness finishes and you become a serene, dignified personality. This is not possible through any sermon, any lecture, it's only possible when the Kuṇḍalinī rises you become like a very dignified child, very dignified child.

I've seen one beautiful painting done of Mother Mary being taught first time. You see Her as a child, She is a very dignified personality, as a child, She is about ten years of age. I've seen My own grandchildren who are not very old but extremely dignified. They walk like kings, behave like kings. In every behaviour you find there's such a dignity, they'll never do something shallow, they never ask for anything, they never weep for anything, they never cry for anything, they are so dignified and they understand it so well what is dignity is. I don't have

to tell them, because they are born realised, in the same way you become, nobody has to tell you that `do this, or do that,' but you understand that you must have self-respect. This happens to you automatically, this is actualisation, nobody has to tell you that `you be dignified,' you just become.

I've seen people who were absolutely absurd, even from this punk rock we got some people and they were so changed that people could not recognize them, but one thing bad has happened with this punk rock that they put some sort of dye in their head and since then their eyes became very weak, because these dyes I think made the optic globe covered with some sort of a colour and you can't see properly and the eyes became very weak and it took some time for us to remove the effect of those dyes from their head.

We go headlong, “What's wrong?" There is nothing wrong in this world if it is a stupid fool, but for a wise man there are very many things which are absolutely wrong and there are very many things which are absolutely correct, so you develop your wisdom by this first center.

Now as the Kuṇḍalinī rises She enlightens your second center which we can call as the Swādhiṣhṭhān Chakra for the time being, though it is the third center. But second center, you become extremely creative, extremely creative. I know of a gentleman who came to Me, he had no job.

And he said, “Mother, I have no job and what should I do?" I said, “All right, what do you want to do?" He said, “Whatever you say." I said, “All right, why don't you become an interior decorator?" He said, “Me? I don't

know what is a teak wood, I don't know what is a rose wood, how am I to become an interior decorator?" I said, “You just use your vibrations." And you'll be surprised he earned million of rupees out of that profession because you become extremely creative, your sense of creation becomes so subtle and so beautiful that you start understanding art at such a high level that people don't know how, when you are not educated in art, how you can do it. I went to Japan once and they were having an Ikebana competition or something, so I went to see the Ikebana class and they requested Me, “Why don't you do some flower arrangements?" I said, “All right, I'll do." I did it and I got the highest marks without knowing a word about Ikebana, just surprise Me, I got the highest mark. I can do lots of things which I've never done before like architecture. I have built houses without doing any architecture, I've done decorations of the houses, I've done all kinds of things without knowing how to it, because you become you so creative.

Music you start understanding so much better. There are people now in America, there's a girl, she had a horrible hoarse voice, absolutely hoarse voice and she always used to go out of tune.

So I told her, “You shouldn't sing songs before Me because it's rather funny." She said, “Mother, why don't You give me a good voice?" I said, “You just try your Viśhuddhi Chakra, if your Viśhuddhi Chakra is corrected you'll be all right." [Aside:] Why don't you sit down.

So the Viśhuddhi Chakra was... she tried on Viśhuddhi Chakra giving vibrations and she sings so melodiously now that I tell you she can be a great singer.

So the creativity, that also is a blessing of your power of the Goddess of learning. Boys who could not study in the schools were absolutely duffers.

Some people brought this boy, recently I've received a letter from him.

When he came to Me, his father said that “He is going to be taken out of school because he's good for nothing, he can not remember anything, he's absolutely finished." I said, “All right, doesn't matter, let him take to Sahaja Yoga." He got his Realisation. Not only that he passed with first class, but he got a scholarship. Then he passed another exam, he got a scholarship. Now he's got a very big job, at a very young age. He wrote to Me, “Mother no one can believe that a duffer like me has been so much highly placed." All the boys who got scholarships in Maharashtra in schools, in colleges and universities are Sahaja Yogis.

It is such a tremendous force that starts working in you, if you try to give vibrations say to fruits or to trees or to say wheat and such things which are very important for life, any food, you will be amazed that the food also grows so much more and the taste is so good and it lasts you so longer. Like one gentleman tried, a university professor in agricultural college on some wheat, some vibrations and he was amazed that when they collected this wheat it was at least six times more than normal and when this wheat was stored in a big hall like this, there were so many other things, the rats who are always a menace in India never touched that wheat. They ate all the rest of it but never touched the wheat.

Even the animals, the snails, even the tigers, of course the dogs and the cats, understand it much more, they understand you, they know that you are a saint. They'll never touch you, they will never trouble you. Even a tiger sees a saint, he never attacks. You can handle a tiger very easily; this is the power of a saint.

So you develop a tremendous capacity of creativity. The greatest capacity you have then is of creating a new human being out of a ordinary human being. This is the greatest blessing that you have, that you transform an egg into a bird and that is the epitome, that is the spiritual power you have, by which you can transform the whole human race into a new race which has this fifth dimension within yourself.

You can start talking on science now, we have a scientist here and he's a done his science, he is a Doctor of Science in this and that, in chemistry and I explained to him about this, where is the hydrogen and oxygen and nitrogen and all that within us and he was amazed.

He said, “Mother, how do you know all these things?" I said, “I don't know how I know, but I know. That's what it is, you just have a look at this." And he was amazed how I was telling him about spiral movement and linear movement of peptose.

He said that “For this I had to study so much." I said, “For Sahaja Yog you don't have to study." A little bit you know and immediately you click the point. Now this is the second thing that you know in your learnings, in your education you are all right, but the mastery of this center comes, the mastery of this center comes when you know the Pure Knowledge, the Pure Knowledge of handling the

Kuṇḍalinī, the Pure Knowledge of Spirit, the Pure Knowledge of the blessings of God, of Ṛitambhara Pragñyā. If you know that, that is the highest that you achieve gradually as you grow, because when these centers starts expanding on the sides, you start expanding in your personality, in your sensitivity and in your evolutionary ascent, so that is how you start growing from one to another to another to another.

Now the third center that we have actually, this is the second center because the third center arises, this Swādhiṣhṭhāna arises out of the Nābhī, is a very, very important center, is the center of your seeking as he has told you. Your compete priorities change, complete priorities change, because the joy that you get out of Sahaja Yoga, the joy you get out of this meditation, out of the feeling that grows in you all the time, like a beautiful torrential rain of joy that fills you, your life and everybody's life, you don't care for cheap type of entertainment. You feel, you seek other Sahaja Yogi, you want to meet another Sahaja Yogi, you don't want to meet anybody else. If there is an actor coming, or some big man is coming, “All right, let him come, I'm going to see such and such person." It is such a different personality that one day, I will tell you how it happens, there was a girl, a diplomat, she's a diplomat who is a realised Soul and she happened to go to Sicily. And she was eating her food, suddenly she felt there is some vibrations coming down, she looked around, the other one was also looking at her, she said, “Are you Mātājī's disciple?" And she said, “Yes, I am Mātājī's child." They both got up and just hugged and said, “Such joy Mother

in that far-fetched place of Sicily to find a Sahaja Yogi." And then they stayed together and they wouldn't go anywhere else but they said, “Now this is the enjoyment." Just the company of a Sahaja Yogi is such an enjoyment.

I've seen these people when they go to India, the people are not so rich, poor people, they have little, little huts, but when they go they go there, you should see the love, the rapport and that makes Me so happy, so happy, the way they love each other, the way they understand each other, the way they help each other and the only the company, for the first time they start enjoying. We were once in a hotel staying in Calcutta and with two Sahaja Yogi with Me [in 1972 before departure to U.S.A.]. They were in the other room, quite far away, they could not get a room close to Me and one gentleman came for his Realisation, he came to My feet, when he got his Realisation it was a tremendous happening and they came rushing from there.

I said, “What happened?" They said, “We felt the vibrations, we felt the vibrations from there, Mother, so we have come to receive the vibrations." And they came and they felt the vibrations.

So this man was so great that his vibrations attracted them and they came down. They were just enjoying that as if they were enjoying a big flower with lots of fragrance. What vibrations, what vibrations! The fellow got up and said, “Very nice. They are enjoying my vibrations. Now I'm going to enjoy your vibrations." For the first time you start enjoying your fellow man because everyone is a beautiful personality, a glorious, fragrant,

joyful personality; but because you cannot feel the other person and because the other person does not emit, you are all the time quarreling. Even husband-wife quarreling, father-mother quarreling, this one quarreling, that quarreling. In Sahaja Yoga there is hardly any time for people to quarrel. The other day I had a lady who came to see Me and she was trying to put her point and there were about five-six Sahaja Yogis and everybody was putting the same point and she was amazed.

She said, “I've never seen such concord, such friendship, such understanding, all of them supporting each other, nobody is cutting anyone." Such a society has to develop. It's such a nourishing, soothing, invigorating society and you forget about getting bored, boredom goes out of life, you never get bored, you enjoy yourself or you enjoy the company of Sahaja Yogis and it is very different level that you come of, that is what, that land you have to reach within yourself.

Now the greatest thing that happens as a result of this center seeking, that you start seeking other seekers, you try to find out “where is the seeker?" If you hear somebody is a seeker, you go and see. If you hear about someone that some people are lost there, they were seekers, but they went there lost, you all rush there. It is like a person who is like a, what you call a guard on the seashore you know, there are guards kept for salvaging people and that is how you become. You suddenly see somebody sinking, you just go. In Bombay [Mumbai] there was a case they announce that “there's a lady who is going to die, if somebody can come and help her, it will be a great thing." They all rushed there; they saved her.

Now the interests changes completely and you start really helping people and not feeling that you are helping them, not at all. But the surrounding portion of that, which is the void, is the best, which is affected by your awakening, that you become the virtue itself. Nobody has to tell you that you be virtuous, when you are awakened you become a virtuous person, you enjoy your virtues, you enjoy being good, you enjoy being nice, you really enjoy it. And that enjoyment comes to you as a blessing because the virtue itself is so strengthening, so powerful that anyone who is harmed or troubled or tortured or put down, you stand up, you are not afraid of anyone, you are not afraid of any one of them.

Now about these people who have been troubling you as fake Gurus, I told about them in 1970. I'm just a lady and single-handed I told them who these people are, how they are going to loot you and what they are going to do; but in this country nobody can think of one genuine person who could be really genuine.

It was the problem that time, but with this awakening within you of the virtuous nature, you just know what is virtue and what is not virtue. I don't have to tell you; I don't say `don't do this, don't do that.' I never say that, it just happens, because when the virtue starts developing, the vibrations improve and you feel extremely joyous. We have lost our virtues because there is no joy out of it, no reward. If somebody is honest, he has to suffer; if somebody's good, he has to suffer; is somebody's kind, he thinks he has to suffer; but after getting Realisation you are rewarded for your virtues.

You are amazed how you are paid for it, it's so surprising, like once there was a lady who came to see Me, she was a refugee and I had a big house.

So I said, “All right come and stay with Me." So My husband, My brother they came, they said, “What's this? You don't know her, who she is, her husband, whether he is her husband or not, just given her two rooms. It's not good!" I said, “Let it be, doesn't matter. I know for nothing is going to happen, let her be here." So they wouldn't also go against Me. They said, “All right, if you say so." This lady stayed for ten days and went away. Then she become a very well-known actress in India, I didn't know she was the same lady, but somebody told Me that she is the same lady. I said, “Maybe." Then one day you see, they wanted to make a film for our Sahaja Yoga, so they said, “We can ask this lady to act, because she is a good actress." I said, “All right, you can go ask but don't tell her I am here, otherwise she will have no choice. I will not go and see her. You just ask her." They went and ask her, they said, “Will you be actress?" and all that.

She said, “I'll try." This, that she was saying.

But on the day on when they were going to open the film I went there, she saw Me, she was so amazed, she said, “Oh God, You are the One, You are the One Who is sponsoring this, Oh, I'll give my life for Her!" She just came forward, she said, “Have anything you like, I have nothing to say, I am so sorry that you never told me that She's there." Thousand times more she rewarded a little thing I did for her.

No more cheating, no more troubling, you become a wonderful person and so many people become your friends in this world. Your have to just tell you are coming, there will hundred people at the airport to receive you. There will be so many friends all over the world for you, you will be amazed. It's such a tremendous thing happens, because now you all are awakened in that Primordial Being and you have become one with each other. You can feel it, that oneness, that unison that we are all not only human beings but we are yogis, we are super human beings and we have to look after the whole world. That feeling of compassion is so overwhelming that all little, little stupid things just fall off, there's no place for that. This actually happens and has happened with many.

Doctor Warren, whom you have seen here, can tell you as I have told you lots of stories, but there are many, some of them were so hot tempered, some of them were so quarrelsome, some them used to fight so much in the beginning that I thought, “How are they going to be all right?" But today I find them as great friends and very great yogis.

So this is the center where your religion is awakened. And what is a religion? Word comes from `religo', in Sanskrit it means Dharma, “Dhariyatisa Dharma” the sustenance, your sustenance, your valances is your religion. As every atom, carbon has four valances and in the same way you have ten valances, these are the ten commandments that were told to you and you become that, you just become. I don't have to tell you as commandments but they become your beautiful

ornaments within yourself. This happens automatically, so spontaneously you become that.

A bishop came to see Me the other day, he is a relation of Mine, My brother. He came to see Me and he was rather adamant and little angry when he came to see Me because he thought, “Why am I trying to do this kind of thing?" But when he saw the Sahaja Yogis he said, “I'm amazed, you know, I've been giving lectures in the church for years together, but I could not achieve anything. How have You transformed these people? The drug addicts have suddenly become such good people that they have given up drugs, alcoholics have given up alcohol. How is it without telling them anything?" I said, “Everything is within them. As soon as the light comes you can see everything. You know that this is on your way, this is against your progress, this is anti-life, you just give up. Only thing you have to have the light within you." So he himself was surprised at this and then he said, “Really, that should be done, is to transform them." But I said, “You do not transform them by giving them big sermons, you transform them by giving them the real second birth, real baptism." And I must say that Calvinist, of all the persons, Calvinist in Geneva have accepted Me and they think that this is the only way they can transform you.

You will be amazed the Calvinist of all the persons who are such I should say one-sided people, they have accepted to see the result of everybody who is open-minded person, who thinks for the good of others and not for money-making and for selfish ends. We'll see one day that this is the way it has to be. God has given us this

power, we have got a Spirit within us, we should try to awaken that and we should accept it, not because I'm doing it, you can do it also.

So this thing happens to you with this Chakra.

Now with the another Chakra on top, that is one, as he has told the diseases, I'm telling you the positive side of it, when this Chakra is caught up he must have told you, you develop breast cancer and all that. But when it is awakened, you get all the security of the world, you are never insecure, you are never bothered, you have no fear of anyone. You do not have to suggest yourself that `you should not have fear or anything,' you just become fearless, there is no nothing like fear, there's no reaction to any threat or anything. Like the gentleman who came here, just to beat Me now, I was just looking at the drum and the fellow was getting frightened of Me, he was going backwards, backwards, he would not come forward.

But you don't develop any fear of at all about anyone, because you are standing on truth, like Christ. At the time when He was challenged, you must know when Mary Magdalene was beaten up, He stood up. He had nothing to do with the prostitute, such a virtuous man, He was virtue personified, He stood up, He said, “Those who have not committed any sin, can throw a stone at Me." He was sure nobody can do it because He was an authority of virtue.

I, as I told you, I am just a woman and I spoke openly with the names of these people and told of what they are going to do and how they are going to possess you. And people came, they were frightened, they said, “What are

You doing?" So you get rid of all your fear, but you do not dominate anyone, you love, in your love you are secured.

It is not by domination but the security that you are love, you are compassion. And the power of love is the highest of all, that you stand in complete peace and bliss. This happens to you when the central thing comes up. There are many other things happen, you can become a poet, I mean so many things happen with this, because you become such a compassion, such a compassion. And when this compassion starts working you are given all the help that is needed.

Then the another Chakra, I am going a little fast because after all you understand that there isn't much time today, I've been speaking and speaking every day, it's a marathon race for Me, so I'll try to make it short now, it's the Viśhuddhi Chakra as he told you is very important, this is America. Viśhuddhi Chakra is America in the Universe. America is the Viśhuddhi Chakra and the star is the Saturn. There are seventeen of them, sixteen is the planet moving round, there are sixteen centers there and the seventeenth is the Viśhuddhi itself. Is a very important thing that this center is America, so America has the responsibility of transformation. They have to take up the responsibility of transforming the whole world. Instead of that they themselves are getting ruined, they are killing themselves. There is no fear from outside I tell you, we are going to be ruined from inside. What a responsibility you have and what we are doing you should see to that. That's why so many seekers are born here, but they do not feel the responsibility of transformation. They will, one day it will come, they will

have to feel it, once they are awakened I'm sure they will feel that responsibility.

This very important center as he must have told you, by the virtue of this on the gross we develop a face which is very relaxed and attractive and good looking. We develop eyes which are full of compassion; we develop a face which is innocent, which is very smooth and which has got a capacity to express its feeling. The smallest of feelings can be expressed through this center. It looks after your nose, yours ears, everything improves with this. You develop, now I can't hear anything if a non-Sahaja Yogi speaks to Me. It is a very funny thing, unless and until that person is very close I just can't hear what he is saying, to Me, it is all what you call `blah, blah, blah'. But a Sahaja Yogi, if he speaks to Me I can hear very well.

The whole thing changes, the whole sensitivity changes, you start understanding what music is good for your Spirit; you start understanding what is good for your eyes to see, because you don't want like to see that is something that is horrid, you just don't enjoy it. You feel like vomiting, you see something horrid, you just feel like vomiting. You become so sensitive you can't imagine, to virtue and to goodness.

Automatically it happens to you, I don't have to tell you. I've seen people have changed overnight.

The whole idea is that the light has to be brought in for you to see for yourself and when it happens you'll be amazed, you become such a different, wonderful person. There's everyone in America has Abraham Lincoln within them, which has to be just awakened and you'll find that

that great personality can be shown in you, when it happens to you. It has to happen to all of you to feel that greatness that lies hidden within.

I cannot elaborately tell you about Viśhuddhi Chakra what they call the Kṛiṣhṇa consciousness, but not this Kṛiṣhṇa consciousness which has made people actual beggars, they are begging on the streets. You go in India in the villages, about they were going to beat these people. They thought they are Kṛiṣhṇa consciousness, they wouldn't get places in the hotels because they thought they are Kṛiṣhṇa consciousness, because these people were lost, they had no money left with them. Now they are begging in India, imagine.

How can we afford to have these beggars there? They have no money with them, they can not come back, they don't know what to do with them, so many you will find in the villages just begging.

So this kind of thing that, imagine a person who is being blessed by Śhrī Kṛiṣhṇa Who is the Deity on this center, should beg! He's the One Who is the giver of complete wealth, why should we beg? This is the thing they don't understand, just the opposite of what they are suppose to be. There are lots of stories of Kṛiṣhṇa how He blessed people with wealth. It is to be seen sometimes, if you have time, I may have time then we might be able to see all those beautiful things that He did.

So the other Chakra is important, is the Chakra of Christ. This center is very important because this is the gate through this you have to pass to your destination which is the limbic area.

So Christ is the gate, many people are shouting, “It's only He can save." Where is He now? Is He here? When He was living, they talked of Ibrahim, when He came then they said, “You are not the One. It was Moses. You are not the One." They denied Him, defied Him. Now when He's dead, then we think, “It is Christ." Now I have come, He's talked about Me, if you read Bible you'll find He's talked about Me very clearly there and I have to do My job and I have come. You are going to say that it was Christ Who has to do it. If Christ could do it, why did He say that “I'm going to send you a comforter"? He talked of future, didn't He? Why did He say such a thing? We should find out why did He say that “I will send you the Holy Ghost and the Comforter and the Redeemer and a Counselor"? Why did He say that? Why not look forward to that? Because we are today after Christ. People don't want to see this point, they want to depend on Christ because He's in their pocket, they can use Him the way they like.

When He has talked, He has said, “Why not see the point?" If this is what Christ is, then it is such a bad thing because people say, “Christ was no good." They say, “What has Christ given us?" Christians nations, what have they done, what have they achieved? It's a bad name to Him if you do not see completion of His work. I'm here to complete His work and when you do not complete His work, His half work done in a very half way will bring bad name to Him.

Why not people who claim about Christ understand that what others have to say about it? If you want to know about Christians, go and ask the Jews; and if you want to

know about the Jews, go and ask the Muslims; and if you want to know about the Muslims, go and ask the Hindus. There are all in a doldrum. Nobody has any understanding that they are worshiping or they are admiring or advocating a flower which belongs to one tree of life. They have all plucked those flowers, “This is mine, this is mine, in my pocket” and fighting. If religion means fighting and quarreling, it is not a religion at all. If it is integration, then it is a religion.

In Sahaja Yoga you'll find that they are all together. Christ has said, very clearly, “Those who are not against Me are with Me." Who are those people? Try to find out. For that you have to little bit go out of Bible. In the Bible how much do you have Christ there, for three years? Nobody allowed Him to live for three years and if they could, they would also kill Me.

Not easy, He wanted to play the drama, otherwise He would have finished all of them, in no time.

So He has said that “You are to be resurrected first and then that's how you will be judged." And the Day of Judgment is today, this is the Day of Judgment, that's why you are confused, this is the Day of Judgment where you will be judged and how are you going to be judged? Through your Kuṇḍalinī. Your Kuṇḍalinī is going to be awakened and you'll be judged where you are. That's what it is and “those who will be calling Me, `Christ, Christ' I will not look at them” that's what it is. By calling Him “Christ, Christ" you do not become Christians, you have to get your Realisation, your baptism in the actual sense.

It has to be an actualisation. I'm telling you that if you miss the point, you have missed it for ever and ever. Be careful on that point. It's very important. Don't run after things which have no meaning to your consciousness. Try to raise yourself up to this point and understand that the time has come for you to transform, this is the time of your judgment and you have to get to it in a very big way. The shallow things and all this will be finished. What is America or what is any country in the eyes of God? Nothing.

If they do not take to His ways, all will be treated like waste, thoroughly waste, it's a wasteland. But if you rise, thousands and thousands and millions and millions can be saved. Try to rise, try to understand your own responsibilities, that is very important.

Today is the last day and the last center which is the Sahasrāra, is the integration, integration of your being, of physical, mental, emotional being, it takes place. Is integration of all the Deities, of all the Prophets, all the great works that they have done, integration of all the scriptures, everything takes places when this Sahasrāra is opened out, when you become the Spirit.

This is a much more difficult job, I know, because if you don't have to transform people it is very easy to talk about it and get away. But I have to transform, not only transform but you have to become, you cannot become a Sahaji Yogi by paying Me, by saying things, by arguing, by showing up, you can only become Sahaji Yogi by going within yourself, face up to it, see for yourself. I am here to help you in every way possible. Whatever is

possible we'll try to do it, but you all should also understand your responsibility.

It is not a joke now, it's no more a joke. It's not like Sunday morning you get up and go to church, or Monday morning you go somewhere else in the temple and Tuesday morning you go to see Siddhivinayaka [Temple of Śhrī Gaṇeśha] and another day you go to a mosque. It is not like that. It is a very serious thing which we must understand. We are at the brink of destruction, be careful about it. We must do things so that the blessings of God comes to upon us and that we are saved. It is a very serious thing and the responsibility is much more on all the people who are getting Realisation, so do not treat it lightly. You all, I hope, will take it seriously.

Thank God there is a nice seminar we are having after this for three days, you can come down there, they have charged you very little, we don't have to make any profit of out you, the only profit I can make is that you get your profits, that's all.

So please take it up seriously, work it out seriously and I tell you, out of you will come out those people who will build that foundations of that construction which is going to come. Please don't waste your time in useless things, get to it.

Any one of you can do it. I bless you with My whole heart and know that I love you very much. If you have any problems, you can write to Me, but don't write to Me about your family problems and this and that, it's a headache to Me, there is no need to write. Of course I'm a mother, if you have problems you can write but some people write ten pages saying, “My wife is fighting me."

It's bit too much. You should write to Me about the problems which concern the whole country, concern the whole world. Widen yourself and that's how, though you may think that you are very unassuming simple people, you are the ones who are going to be, not those who are successful, they are blinded by their success; not those who are rich, they are not going to enter into the Kingdom of God; not those who have a big name, no. It's you, you are going to enter into the Kingdom of God.

May God bless you.

[Self-realisation.] Now, all the angels have a seat, now, put your hands towards Me like this and close your eyes, the vibrations are so much today, nothing to do. Just so much vibrations tonight, it's tremendous. Just close your eyes, you'll feel the Cool Breeze, most of you, close your eyes please.

You just put your right hand on the head and see if there is a Cool Breeze coming out, little higher, on top of your head.

Hmm, it's there. Now put your right hand towards Me and put the left hand and see, little higher, about six inches higher, six inches higher, change over, again, now put your hands up like this absolutely, close the eyes and ask, `Is this the breeze of the Holy Ghost?' or ask the question `Mother, are You the Holy Ghost?' You feel the Cool Breeze? Good, it's tremendous today.

May God bless you all.

Those who have not felt any Cool Breeze, please raise your hands. One, two and three. Are keeping all right? You are not well? All right, doesn't matter, if you are not well maybe you may not feel today but you'll get well

and then you'll feel it, so it doesn't matter. There's one or two persons who have not felt it, it's so tremendous today, May God bless you.

You may give your addresses to these people, let them know where you are, also you can take address for the seminar, if you want to come, they are going to arrange a transport for you to go to Santa Cruz.

Thank you very much.

I say goodbye to you, after a year I'll definitely will come to Los Angeles again, those who haven't Cool Breeze should keep their hands raised. These boys will come and see you. All right, those people who haven't got it, please keep your hands slightly raised so some people will come and see you, little higher so that they'll come and see you. Here just have a look.

Gentleman: I didn't hear Your last question. I didn't understand what You asked about the Holy Ghost.

Shri Mataji: Just to know that I am the Holy Ghost.

Gentleman: You are Holy Ghost?

Shri Mataji: Yes. Otherwise how will you recognize? Gentleman: The Bible says that God is the Holy Ghost.

Shri Mataji: Bible never says that. You don't understand that. You don't teach Me Bible.

Gentleman: [Keeps interrupting.]

Shri Mataji: It doesn't say. You don't tell Me. You have no knowledge. Don't disturb others. If you are such a good person you...

Integration Center, Sausalito, San Francisco, CA, U.S.A.

When you concentrate on your Āgñyā, you move to the left or right. If you put a hole in a cardboard and put a candle there, your attention moves to the right because of the light. But then as a pendulum, it moves to the left. If you concentrate on Śhrī Rāma, you will begin seeing Śhrī Rāma. If some one puts his eyes on your eyes, the negativity accumulated in his eyes moves to your eyes. It can work like that through T.V. and also flirtation.

Contents: 1983-09-29 **Śhrī Gaṇeśha Pūjā, The Significance of Pūjā, Home, Mill Valley (6 miles N of Sausalito), CA, U.S.A.**

Today I just thought that there are quite a lot of people who come for the first time. And I should tell them about the significance of Pūjā. Because as the Western style of life is that meant to be like this.

To seek something outside, to go outside, find out new ways and methods to grow outside. Now this is the knowledge of your roots. Knowledge, through which you receive your nourishment, is not known to you before. This knowledge was not known to you before and was not deliberately told because you are supposed to grow outside. Now when you have to go inside then you have to understand the Divine laws and Divine methods how it works out. The Pūjān has the significance from ancient times, the saints described them. Because in India the whole climate is such that you can live under a tree, live in a forest no problem, then eat fruits and very happily you could be in a forest. There is no need to have bed or

anything; it is so warm and nice and then always enjoy the bliss of a forest and thus many people went to live in forest and started thinking, looking at whole world from that solitude, what is the problem with human being? Why are we here? What should we do? What is the purpose of this human life? Why God have given us this beautiful human life? This time there where thinking about it. That is how they went to meditative position, meditative entry within themselves. And when they started meditating they found out, all about Kuṇḍalinī, about Chakras and deities that resided on them. These deities have resided from eternal times; we can say in the abode of God, they have all resided there and then they were reflected on this earth and they incarnated just to give us a better and better awareness.

We could have avoided all this. It could have been very easy if we had listened to God at the time of Adam and Eve. At the time of Adam and Eve, it was told that you should not eat the fruit of knowledge.

Now, that was not the fruit of the True Knowledge, but the fruit of knowledge was the knowledge about the matter, knowledge about things.

So, as you know, the story is, Satanic forces worked, they nude both of them and they started developing themselves on the other side. That is how you made a mistake. That is why it is called as original sin. And that original sin has brought us to this brain. Now and we have to go back. We have to go back within ourselves to find our roots. And that is why to improve on their mistakes and to improve on their ignorance that is how the first ignorance was setting. The darkness of

ignorance was setting because of that mistake. And then from darkness we need to come to human stage.

And when we need to come to human stage we have to pass through all that different various stage of life where incarnations have to take place.

So, as now as you know very well, we have incarnation placed in our centers which are not yet awakened. That means they are not in our attention. They are not to be felt in our central nervous system or we cannot fill them on our finger tips, to be very very simple.

So they are there but they are not acting according to our desire. We do not know them and they do not listen to us.

They do what is right for them or what they think is proper. You do not have any connection with them so far.

So the first thing is to connect yourself with those different stages through which you have passed.

First as you know is the Gaṇeśha's stage, is the innocence. Innocence, the formless of innocence was made into Śhrī Gaṇeśha because some nucleus has to emit that innocence. In the whole world there are eight such creations of the Mother Earth and luckily they are in Maharashtra. You will find Maharashtrian people on the whole are innocent compared to others, they are rather innocent in nature because the reason is from Mother Earth innocence is emitted.

So the first thing is that within us to establish innocence we have to worship Śhrī Gaṇeśha. When you worship Me as Śhrī Gaṇeśha, Gaṇeśha within you is awakened.

You see the result of that.

So the people, who are suffering, say from the trouble all these perversions, these modern diseases that have come, must establish their Śhrī Gaṇeśha. If they can not establish their Śhrī Gaṇeśha they cannot be cured.

So their innocence has to be first established. If he can not establish their innocence we cannot cure them. First and foremost thing is to establish Śhrī Gaṇeśha. And Śhrī Gaṇeśha is made out of the Mother Earth element.

So by praying to Śhrī Gaṇeśha we also establish it in a sitting in a place like this place now is San Francisco where I came here first we had no Pūjā, nothing and that is why the whole thing was just touch and go. I can not go deep into people; I could not go deep into the place and so the I did not know how I will able to mange because, there is no education on this.

People are not educated about. But in India immediately the first thing is Pūjā. They will not come to My lecture, they will not come to anything, first is Pūjā. If there is a Pūjā everybody is getting up at 4 o'clock, having a bath, getting ready for Pūjā. Because they know the importance of it that you does just.

Your essence is awakened by it, essence is awakened. And to awaken the essence you have to be there at a place where this is done so that your essence is awakened.

But the trouble is with ego-oriented society is very difficult to tell them about Pūjā. We find it difficult.

So that is why we don't allow everybody to come for Pūjā for one reason because as soon as they see something happening, their ego comes up, you see, instead of doing anything to them Barrier is so much I cannot just do

anything about. But barrier is too much in their ego, they have their own idea, their own conception, their own filthy game and it is impossible to penetrate deep into them, so it is a waste. And if you cannot receive the vibration I feel the pain in My own centers. Because the deities you see get so annoyed they don't like it and they think that why mother should waste their energy with this people who do not understand about Pūjā.

So I want to prepare you before hand that you keep yourself open. Don't allow your ego to come up. It is nothing for Me to gain. It is for you to gain. Keep your minds open. The Trouble is that at the time of Sahasrāra opening is everybody's brain is upside down. It is impossible, you try to tell it and they will jump on you. It is the big problem for Me; it is the biggest problem for Me. Because, all other incarnations came they did not have to do this difficult work of making you something. Just it was to awaken within you a awareness, like Christ had to awaken your Āgñyā Chakra. Alright, he crucified himself for the same reason, he resurrected for the same reason. It was a very hard life for him and for the mother it was even worse, No doubt. But still, one should know that this is a very hazardous thing to transform people and then to established them and create out of this little seeds a huge big tree of a saint. Now, in the same way, we got Moses, we got Abraham all these great saints are within our, are in our void. They are the Gurus. And on a Guru Pūjā, you worship Me on the Guru Pūjā day that time these are awakened within you and you become a master, you become yourself a Guru. You yourself know so much even I do not have to tell you, I do not think I

have talked to people very much in private, or explain to things but some how they become so much full of knowledge that is rather surprising how they understand like I was talking to Yogi Mahajan and he was telling Me what is the problem is with human being and a you see, he was telling Me how we cannot relate to them and know it was very interesting. Because My father did same to Me. I said that he is My first Guru and all of you My second Guru. Because I do not understand human beings, see for example, this homo sexual business, when Gregoire, with very great reluctance you see, told Me through somebody else, I was fainted I could not understand what is happened to them, now what I have to do and I could not eat My food for one week. I felts so bad about the whole thing like My own children *[UNCLEAR]*. If you have a heart of intense mother you can understand what you feel about it. And I knew they are in trouble, I knew is going to be very very hazardous but does not matter. By God's grace everything will work out. I am sure it will work out.

So first we have to establish Śhrī Gaṇeśha. First of all we have to establish Śhrī Gaṇeśha within ourselves and Śhrī Gaṇeśha in this place called San Francisco, alright. That is why we have to first do Śhrī Gaṇeśha's Pūjā and then secondly I told him that if possible we should do little bit of Śhrī Viṣhṇu's because he is a one who gives us the evolutionary power by which we can evolve ourselves and evolve others.

So we have a little time for Śhrī Viṣhṇu's Pūjā. Also they do Havanas and all that for Śhrī Viṣhṇu's Pūjā which is very good to clear the atmosphere sort of thing. But we

will do next year only all this thing perhaps may be as we do not have this arrangements, but that should be very good idea too. And Then the thirdly they want to do the Pūjā of Shakti, the Mother Earth. Because unless and until you have power, even if all the deities are there you will be exhausted you would not able to work it out.

So the third is of your own power, of your Kuṇḍalinī, of the power that is going to work out this Divine work. That is how we have three Pūjās.

But none of you should get in to an ego trip. Please keep your ego on one side. Just now see for yourself how it works within your self. You start feeling good, you start feeling better vibrations and you start feeling much better and healthier within yourself.

So, just keep your self open. It is you who has to achieve something, not Me! I do not have to achieve anything.

So you better make use of Me. Because I am here only for today and then I will go away.

So make best use of Me and that is why I said as many as possible try to call people over here will be a good idea.

May God bless you all.

So the first is, the Gaṇeśha Pūjā at that time they wash My feet, you see. Gaṇeśha is the devotee only of mother not of father. He is only worried about his mother and he will worship the mother and once the mother said, alright. He had another brother, who was Kārttikeya, who was a, one who was created specially to kill one Rākshasa and who goes on a peacock while Gaṇeśha has got a simple little mouse as his conveyance to shows that he has no ego, he does not need any *[UNCLEAR]*. He need

just a little mouse, the smallest animal that he is uses for. There are very symbolic things. There are many lectures of Mine in which you will learn about him.

So this Śhrī Gaṇeśha, you see, when you respect, when we are worshipping, him we have to be very humble He has just very ordinary mouse as his conveyance. And his mother was told that anyone who goes round the world and comes first, we have to give them a present.

And the both of them thought it is good idea. But Śhrī Gaṇeśha thought then this one Kārttikeya is very fast one. He will go on his peacock, flying all over and I can not compete with him and he is a, he is the embodiment of wisdom. He said who is greater then my Mother? So he went around his Mother only three times and he got the prize. Still the other fellow going round somewhere else because that is the fact and she gave him a prize. That is what it is. That one has to understand that mother's dedication is much more benefficial than any other dedication because she does not want anything. Because she is so dedicated to you that you achieve the best from her only. She will go on giving giving giving giving giving. The more you ask the more you will have more the more you wanted that more she will give you.

So it is better to depend on a source which is all the time available to you and it is very gentle and kind and affectionate and loving.

So it is better to depend on some one like that then to depend on any Guru who might hit you hard or do something or make you stand upside down and the father who can be very wrathful, sometimes you know, the father is all the time waiting just to destroy the world.

And you have to ask him just wait, just wait just wait. [All laughing.] Is a Father can be very wrathful, very wrathful, destroy.

[Shri Mataji talks to Sahaja Yogis.] So now, some thing I got for your. I hope you have shown them, a presents for the center, I brought this one for the center here and I hope, this also, this one. As a present I will give it to someone for *[UNCLEAR]*, you can take it.

May God bless you.

In India, I can get many more things better suited for Pūjā. But, when you come next time you can get real silver. *[UNCLEAR]*.

This is a nice thing you got from India. But this you must get for every center. Now they are carrying all over, you all can get it and we should send them, to all centers. It is every easy from Delhi we got it. Now, those who have never washed My feet should wash My feet today and those who have washed for many times should not wash. [All laughing:] *[UNCLEAR]* He very nicely asked Me, “Should we all wash?" I said, “No" [all laughing]. Alright. There is a competition in India you see and some people try to cheat.

Sahaja Yogi: We say the Mantras, Shri Mataji?

Shri Mataji: Sindoor lagao.

Now, this is, this one is something now very red, you know enhance the wavelength which can be seen by anyone, fastest as it has such a short wavelength. They say it can pass through *[UNCLEAR]*. That is why this red mark they have described in bible. This red marked, it is made out of a very auspicious thing and then burnt into

this colour. This is the colour of Śhrī Gaṇeśha. And if you put it in night before sleeping on your forehead, if you are possessed, the possession will leave you. But it should be vibrated, it should be vibrated. Once it is vibrated it has that power. And it really clears; I will try today on some of you because it clears completely your head, makes it properly.

Because he is going to say mantra, [I am putting this for you]. All this have significance only if it is vibrated. Without vibration it is empty rituals.

[To Yogi Mahajan:] See, lag raha hai na, just screw, you know the screw, tight one is loosened and if it loose, tight it. You all will feel it also.

Contents: 1983-10-01 **Kazu Radio Interview, Kennolyn Campgrounds, Santa Cruz, CA, U.S.A.**

Barbara: Thank you, Mother.

Shri Mataji: May God bless you.

Barbara: Before we begin, I would like to introduce myself to those of you in the room. My name is Barbara Schuler and I do a radio program on a station from Monterey called Discovery which is usually on Wednesdays from 1 to 2:30. And, is going to be now on Thursdays from 11 to, 11:30 to 1 o'clock.

And, it's my privilege to be here to do a taped interview for my listeners.

So, for the listeners I would like to say that we are at the Kennolyn Campgrounds in Santa Cruz and this is an interview with Her Holiness Mātājī.

Mother, today there are many, many things said about Sahaja Yoga, about Your philosophy and very little is said

about who You are as a person. [Laughs.] And, I thought it would be good to start out with some, some questions about who You are; who were You as a child; what people influenced You; what brought You to the place You are today as a Luminous Being sitting before me and before us.

Shri Mataji: I am a very ancient being, that problem is like this. [Laughter.] I had to... what can I tell you about Myself? I just don't know what part will interest you, but only thing I can say that I was born with this understanding and awareness that I have to find out a method by which I could give en masse Realisation to people. I was a realised Soul, of course. I knew all about it from My very childhood.

But the problem was that how to make many people get it, because if one person gets it or one person has it; if one person is an incarnation, people don't understand it. Not only that but they may even try to destroy such a person. That's what happened to all the saints who came on this earth. Christ was crucified; Mohammed Sahib was given poison, because they were ignorant. They did not know what it was, what was He saying.

So, it was important first of all to find out a method how to give them en masse Realisation and from that angle I just thought that “this is why I am on this earth and I have to do this job" for which I wanted to study about human beings. I took My birth in a Christian family and that too a family which was Protestant family, because I felt that Protestants are fanatics but very sophisticated. [Laughter.] And, they rationalise everything to such an extent that nobody can see beyond it.

So, I better take My birth in them and My father and mother had already taken birth whom I had chosen as My parents. They were great people, realised Souls and specially My father was a person who knew why I was on this earth. Even My mother knew about it.

So, a special rapport was between them and Me and they could understand why I was busy meditating or finding out about how to give realisation to others. Then, I would say My father was a very learned man, who knew about fourteen languages, who translated Quran-e-Sharif into Hindi, who was a member of the Constituent Assembly. He made our Constitution. Also, he was the only Christian to be elected in those days. And, then My mother was a honours in Mathematics. All very well-educated and nice people! They dedicated their life to the cause of freedom of India. And, I also felt that that was very important, because if we are not free we cannot do anything on religious basis. There's one thing is to be free from this level. And, that's how I also helped them a lot and our whole family suffered a lot. And, I went through terrible times, terrible times since very young age.

I was with Mahatma Gandhi also because he liked Me very much as a child.

So, I stayed on with him then I used to come back to study again, go back to him. He used to call Me “Nepali" because My face is a Nepali face. And, he used to talk to Me as if he is talking to his grandmother sometimes. [Laughter.] It was very sweet and he was a very sweet man, extremely sweet person to children. Very strict with himself and strict with others, elderly people, but with children he was very, very sweet and kind and would try

to learn from children lot of things. It was surprising how he understood that there's lot of wisdom with the children sometimes than with the older people who are mixed up.

Now, we got our independence and we had a very bad setback because of the partition we had in our country. And, I was studying in Lahore Medical College there because I wanted to know about medicine, what these people call such and such thing. Because I knew all this but... I knew about the body, I knew about everything, what you call the complete nervous system, but I did not know what was the vocabulary attached to it, so I studied there for two years. Now after that, this war broke out.

So, I had to discontinue with My studies and My parents wanted Me to get married. And, then I found that My marriage was important, I agreed to marry and I married this gentleman, Mister C.P. Srivastava.

Then during all that time, My only pastime or the full-time work was to find out about human beings, what's the problem they have. How they avoid reality? How they shun it? How they run away from it? What are their problems? How are they seeking? What do they have to offer? What will they accept? How to handle them? It was quite a intricate question. Every person provided a new sample of problems and I had to fight it out. In a way that it was a system which I knew how to do it, because to enter into somebody subtly, to understand the problems of the Kuṇḍalinī, you can go into the journey and find out about a person.

And, then I found out the permutations and combinations of their problems.

So, like it is like, you can say that like periodic tables. You had to divide them into three, then into seven, then into their permutations and combinations.

So, you can imagine, three into seven, raised to power eternity, it was like that. But doesn't matter! It worked out and in the year 1970 on the fifth of May. I was little bit hesitant at that time. I thought I should wait but certain circumstances made Me to open the last center.

And, when I opened the last center, it started working with others on en masse scale. But still I gave Realisation only to one lady who came to My house. I tried if it works out with her and she... I gave her Realisation by touching her centers one by one, six centers and then bringing out the Kuṇḍalinī on top of the head.

Barbara: What does it mean to open the last center?

Shri Mataji: The Sahasrāra. Last center is the center which is the limbic area where is the seat of all the seven centers. It's all integration there.

So far, everybody who has come, like, Christ has come on this center what you call the Āgñyā Chakra. Or, Kṛiṣhṇa has come on this center which is the Viśhuddhi Chakra. Like that, they have been appearing on every center of ours, giving us a new dimension to our awareness. And, that's how our awareness has improved to this extent and now the time is for you to get your Absolute; to get your Spirit, that your Spirit must shine into your attention, that you should have your Self-realisation, that you should have your second birth. That's the time! And, that is only possible if baptism, the real baptism works out, real. Not artificial, somebody coming and putting the hand on your head and saying,

“Now, you are baptized." That's not the way. But it is a real thing that happens that you start feeling the Cool Breeze of the Holy Ghost coming out.

So, then I started giving first of all Realisation without confronting any kind of a position or anything.

I started with one lady. Then I went ahead with it. Then the first twelve people got Realisation. Then I was very happy because en masse Realisation has started. Then gradually it started working out. I went to Indian villages. I thought they are better simple people. First work on the simpler people and they got Realisation. Now, we have thousands of people in the villages who have got Realisation. They have dropped out all their bad habits. They have become very creative. They are doing very well. They are very happy. And, they are experts.

So many of them are experts, I can say, in India now whom we call as Sahaja Yogi, maybe in thousands.

Some are working in the villages; some are working in some cities.

So, we have lots of people now in India who can do this job.

Barbara: This all happened since 1970?

Shri Mataji: I started it.

Barbara: You started?

Shri Mataji: Yeah.

Barbara: I have a question that's important to me and to many people who are searching for something or seeking perhaps, what you call, Self-realisation or Sahaja Yoga or something.

Some of us don't know exactly what it is. But we find that there are many teachers. How do we recognize those teachers that you might call fraudulent from the real ones? It's so difficult because they all seem to be able to inspire us in certain ways and give us experiences. How do we know who is teaching something that's true or who is being deceptive?

Shri Mataji: First and foremost thing is, anybody who lives on your earnings is not a Guru. A Guru will never live on the earnings of his disciples. But here there are people who have built palaces, bought aircrafts and cars and this. I mean, this is something one should understand. It's so, so open to you to understand. I mean, I cannot understand more obvious thing that this one is that it's a parasitic living.

And, you cannot have a parasites as your Gurus. They can be parasites but not your Gurus. That's one of the things. And if you... [Laughter.] I mean, you can retain some people, you know. If you want because you are rich people, you can retain some. That's a different point but you cannot have them as Gurus. Guru has to be a higher personality, you see. Now, you have seen Christ was such a great incarnation. He didn't take any money from anyone. He was a carpenter's son and He used to do carpentry Himself and He lived like a modest man. He never lived with big cars and big houses. It's not necessary because such a person is Himself is a very big king, you see, like a big emperor. He doesn't need anything. An emperor doesn't need anything because nothing can give him comfort except that he himself is in complete comfort.

So, such a person doesn't want anything.

So, you must see that such a person has no needs of comfort at all. He can sleep on the grounds, he can sleep anywhere.

Now, in this life, I should say I come from a quite a wealthy family or married to another wealthy man, you can say that way according to your own relative ideas. But to Me, I can sleep anywhere. I have no problem. I have no problem of food, no problem of sleeping anywhere, no comfort. And, I find it is beyond My self-respect to live on the earnings of others. It's not proper. But you are My children. Supposing now you bring a flower to Me or something, it's all right but I can't have a palace out of your money and all those things. It's absurd. Absolutely absurd! So, this is one thing one should know that it pampers our ego that we can purchase our Guru. We can purchase our Self-realisation. You see, this is a very subtle pampering. And, that's how people accept, you see. They don't want to accept a person who says, “You cannot offer anything." It's too much for them.

Or maybe that, secondly, could be that people think that if you pay something then you get attached to it, you go through it whatever it is. Say, you have paid for a ticket and you find that the whole play is horrid, you can't bear it but you have to go through it because you have paid for it. That's the human nature, you see.

Barbara: Yeah.

Shri Mataji: That's the human nature. I have seen that. They do it. And that's what it works out. But this is very gross level, I'm telling you. But another should be that in

these modern times, it is promised that you will become prophets. You have to become prophets.

So, you must see have you become prophets out of these? Easiest is to see the disciples of this man.

Any XYZ who says he is a Guru, now what is happening to the disciple? Is he a free person? Has he got any knowledge? Has he got any mastery? What has he achieved by being with that person? Now, you have seen here there are Sahaja Yogis. One better than the other! You talk to them, they are knowledge.

Some of them have met Me only for a say, eight day or so. They have become knowledge.

So, what have they achieved you should see. What is their style of life, their pattern of life, how they behave? And, there cannot be any privacy about it, you see, like Mafiā, you don't tell that and you don't say that and you shouldn't do that. Of course, in Sahaja Yoga, the truth is exposed gradually, but it is not like this that if you give some money, nobody knows. Everybody knows everything in Sahaja Yoga, you see.

Now, supposing we have to build an ashram, say for example. All right, you build your ashram; you collect your money, do what you like and know about it. I have nothing to do with it. Also, among yourself you should know how you got the money, how you spent it, what is the expense and all that. Because ashram you can pay for but not for your Realisation. This is one thing is very important that what you get out of it is important that you should become a prophet.

Have you become a prophet? Then, thirdly, you must know that if you are going from one to another, what we

call Guru shopping business, that means you have not found it. Otherwise, you would just settle down. But some people are so weak that they do settle down with one and are finished with them. You must always see the people who go to these Gurus, what have they got. Have they got their transformation? Because this is the age of transformation.

Barbara: Mātājī, what about teachers or Gurus who produce miracles. You go to a Guru who will materialise something out of the air and say, “This is Divine." That's a...

Shri Mataji: This is all jugglery. It's all jugglery. And also, you see, now supposing somebody says, “I produce a diamond." Now, these people come from India, why don't they solve the financial problem of India? [Laughter and applause.] Secondly, you see, at every point they can be challenged. You should say that... then all right, one gentleman came to Me and said that, “He gave me a diamond." I said, “Why you? How many diamonds you have?" He said, “Hundreds." Then I said, “Why did he give you? He should give to your driver who hasn't got a diamond." You see, that is what it is.

So, it is all jugglery. You should see those who materialise, what have they given you? They have to give you something eternal. If they talk about God, God is not going to give you diamond. Which God has given diamonds to people? Have you heard of anyone giving diamonds? No! [Laughter.] So, you should ask for something which is the highest, which is the supreme most.

Now, the fourth thing which is very important that whatever experiences you get, for example, some people start just like jumping, some start shouting, some start behaving like animals. And, they say, “Oh, that's what is coming out. We are taking out, you see." They feel very bad, they get horrible diseases, they get into troubles and they get into pains and all sorts of things and contortions. They say, “Now your subconscious is coming out." Nothing has to be brought out. That's one thing you must know. The subconscious, as I told you, is on the left hand side and the supraconscious on the right hand side. What you have to do is to ascend in the center and come up. Above your head is the super-consciousness and when you become that, then you develop collective consciousness.

So, those who want you to become like frogs again, you must know that you are not going to become frogs anymore. That's not anyway evolution. The evolution has to go higher, not becoming frogs or earthworms, you see. And if you start crawling, it is simple mesmerism. Anybody mesmerizes can do these tricks, you see. It's simple mesmerism. And, then to believe that now you are surrendered and all that is all nonsense, you see. It has no meaning to Realisation. In Realisation, you just become the master. You become the master of it.

There are many people in this country who came and lured you by their talks also. Talking big about Brahma, Ātmā Tattwa, this that and everything, that is not the way you can... That is what is just the pendulum moving from Christian sermon to Hindu sermon and from Hindu sermon to Islamic sermon, from there to the Rabbi

sermon. It goes on like that, you see. That's not the way. You have to rise higher within yourself. And, that's why those who lecture about these things are really sometimes can be very, very dangerous. And, so many have died of cancer, this, that. I don't know what to say that people who go to these people get into very bad troubles and suffer so much. And, then on top of that when all this happens, they say that, “You must suffer." That's a very good excuse. [Laughter.] “You must suffer." You must pay to suffer. Pay money to suffer. [Laughter.] And, then people go on suffering.

Now, one thing I have to tell you that Christ has suffered for us. We don't have to suffer anymore.

Those who deny His sufferings will have to go for suffering. All right, have it! But He suffered for us.

There is no need for us to suffer anymore. When He is awakened within us, He takes away all that is our ego means our Karmas, our superego, that is our conditioning completely removed and you become one with the Divine. There is no need for anybody to suffer and this idea of suffering is all nonsensical. You should not suffer at all.

Barbara: Good! [Laughter.] I'm glad it's over. Mātājī, You are called “Mother." And, it seems in the Hindu tradition there's a special context or meaning of the word `Mother'. What is this meaning?

Shri Mataji: You see, in the Indian philosophy, even in the Christian philosophy it is so, but it has been little bit changed. If you read the books of Essene[s], you will find they have described the “Mother." You see, the Holy Ghost is the Mother. When they say about the Holy

Ghost, She is the Mother. But how can you have... You must reason it out. How can you have a father and a son without a mother? [Laughter.] It's a, you see, simple thing like that. You see, so it's the Mother only. Holy Ghost is very important.

So, Holy Ghost is the Mother, you see. It's absurd thing, I mean, to have such a thing. Even homosexuals cannot have children. It's funny thing, isn't it. Absolutely absurd! But Christians accepted this. I don't know why. Why didn't they go into find out what is this Holy Ghost business is? They said, “It's a mystery." How can you say it's a mystery? When you cannot explain then better not say anything about it.

So, Holy Ghost is something hanging in the air. No one knows; it's a mystery and the rest of it is the father and the son. It's absurd! Now, the principle of Mother is in every, every scripture, has to be there. Now, the Mother's character is that She is the One Who is the Womb, She is the One Who is the Mother Earth and She is the One Who nourishes you. She nourishes us, you know that. And, this feminine thing in every human being resides as this Kuṇḍalinī, as you have seen. And, when She rises, She gives you this new awareness which becomes compassion, which is flowing, which becomes soothing, nourishing energy of love. And, that's what today people are saying feminist this thing and all that. That's again a pendulum, a man becoming a woman, woman becoming man, all this problem there are because of this. But when you move spirally upward, then where do you move? You become a personality full of compassion, of love, of universal understanding through collective

consciousness. And, then you rise up to a position where you become universally conscious.

So, that is what should happen to you and if that happens then we should say that your motherly qualities within you have risen and that's what we have so far neglected. You do not become a woman but you become motherly. First the father, then the son and now the mother! All right? Barbara: What is the role of woman in this world, the role of the feminine principle?

Shri Mataji: I would say... I don't say that women as women who are born as women only have the role, even the men have, everyone has because everyone has Kuṇḍalinī within them. But the women must know that if they are women, they have a greater responsibility. Not that they should sit at home and only look after children and brood and then nag the husbands when they come home. [Laughter.] That's not their role. The role is such that they have to be forbearing. Any person who is the mother has to be like the Mother Earth, how much She is forbearing, how much She suffers! We dig Her out, we torture Her life. Still, She is giving all the time; She is soothing, forgiving, bearing it out. We are doing so many sinful things, I mean, She should explode real with anger, the way it is but She does not. She is very careful.

She slowly, slowly informs that `Now get out of this place, it's rumbling.' She is so kind, you see, that all should come to us.

So, it's not that it is only the women who should settle down with these qualities, but the time has come that men have to have these qualities. Otherwise, there will be always an imbalance.

So, now the men have to become extremely kind, affectionate, compassionate. Give up that competitive spirit, that fighting spirit like Napoleon had, all those ideas are outdated. Now, whom do you respect? People like Mahatma Gandhi or Abraham Lincoln. Everyone, an American should think of Abraham Lincoln.

Barbara: Yes, indeed. Mother, what are we doing here? What is the purpose of life on earth? What are human beings walking around on this planet for?

Shri Mataji: You are specially made by God. You are specially chosen by God to be human beings and you are here with a very great purpose. The first purpose of God is that you should become the vehicle of God's powers, completely.

So that He flows through you, He flows into this atmosphere, into this universe, to make it a Divine place. When you get Realisation, what happens? These, all your abnormalities drop out and you become very normal person and these vibrations of Cool Breeze start flowing. With this now you can give it to Mother Earth, you can give it to the plants, you can give it to the trees. The whole thing becomes a `Garden of Allah' where you reside in complete joy and happiness.

The second purpose is that God has prepared you now to settle into His Kingdom. That's your throne.

That's your right to be there. It could have been short circuited at a time when Adam and Eve were called and told not to go into this so-called `book of knowledge' or the “fruit of knowledge." But they didn't listen, you see. If you give freedom to someone then, “What's wrong?" So,

they started doing things which were brought to them by a Satanic force and they accepted it.

So, that was the original sin we have committed.

So, they had to take incarnations, do all those things and now brought it to this level where human beings have to be brought again back to the position where they were to go.

Barbara: Mother, what is the true nature of death? Is it possible that you can choose not to die? What's the purpose of death?

Shri Mataji: See, death is just like changing your clothes.

So sometimes when you use too much of your clothes you get tired. You want to change it. Like that death is. Nobody dies, there's nothing that dies except that the part that is the Mother Earth and the part that is the water falls off and you remain as you are. But if you are a realised Soul, then you have a choice. If you want to be born again, you would like to be born. If you don't want to be born, you will not be born. But after Realisation, it becomes your choice. If you want to die, you can die. If you don't want to die, you need not die. But you want because you think that “Let us die and come back as new people again to help Mother." Barbara: Many of us have heard discussions or read in books about the evolution of matter, the evolution of substance. What are Your views on evolving matter and how does this relate to our own physical matter in our bodies, in our cells?

Shri Mataji: For the matter did go into evolution, you know that and when the carbon was established, actually our first Chakra was established. That's carbon which is tetravalent and carbon is the one which started

producing amino acids, you see. When amino acid started manifesting itself this, then the other processes took place by which the evolution of, say, from amoeba to human stage took place. That also we understand very well after getting Realisation, how we became from amoeba to human stage; and after human stage we have to achieve our Self-realisation, means the Spirit which is in our heart has to manifest in our attention, or we have to feel it on central nervous system. But what is the relationship between matter and this? We should see that point. It's important.

Now, through the matter all our centers are made. For example, the two centers that are down below are made of the Mother Earth principle. And, then another one and another one like that. All these elements have contributed to make the centers. And, these centers are just like mirrors made and the reflection of the Divine falls on them. Then, at a human level the matter improves so much, goes into such evolutionary processes, that the reflection at the heart level improves so much that the Spirit shines there and the Kuṇḍalinī is properly set for your evolution which is the epitome of evolution. Like this instrument that is made one by one first collecting this part, that part, that part then put together. Now the time has come for you to be put to the mains. Now, this has nothing to do with the electricity if you see. It exists without electricity but it can carry the electricity. In the same way, we become the lamp and when we become the lamp, the light can be brought in and we become enlightened.

So, there is a big relationship between the lamp and the light but light cannot exist without the lamp, so lamp has to be there.

Barbara: Mother, can I ask you a question about sex?

Shri Mataji: Yes please. [Laughter.] Barbara: It was stated today that sex has nothing to do with evolution the way it's been described in Sahaja Yoga. What does this mean?

Shri Mataji: You see the thing is that we think that by doing sex or by going into sex we can evolve.

It's absolutely falsehood. You have not become a human being from amoeba to this stage by doing sex.

Because animals all do sex; everybody does sex. If they do it or not, makes no difference! The thing is the evolution takes place only through your seeking. When you start seeking something then only you evolve.

And, the seeking first was for food. If you see in the animals was for food. You see, sex was spontaneous, they don't think about it, they don't read about it, they don't have any education about it, nothing. Sex comes out spontaneously, just like your breathing you see. You don't have to have as you have in your schools now teaching sex. What is there to teach I don't understand, I mean? It is such a spontaneous thing. On the contrary, the more you talk about it, the worst it becomes, you see. And, the more it becomes the brain thing, you cannot do sex with your brain, you see. [Laughter.] So, it's all a nonsensical thing. All these things have added to your problems of impotency and all sorts of things in this country.

Too much thinking about sex, at the time of sex you are nowhere, you are lost.

So, what's the use of such a life, you see? So, the people who think about sex too much are really very unnatural people, they are very unnatural.

To be natural is to keep it spontaneous, to live very spontaneously. Of course, as an Indian lady it is too much to speak on details but I would say that... [Laughter.] We are not supposed to even say the word `sex' in Indian life, you see, it's like that, you see, but I think we are very potent people. The amount of children we are producing, you can never produce even if you want to. [Laughter.] So, now the thing is that as a Mother I give all sort of grace to these people, grace marks I should say, when they said that the sex can take you to Kuṇḍalinī. Because you know, in the beginning they must have tried something like that and they must have seen the expression of the deity which has got a trunk, you see, which is settled on this center. We call it as Gaṇapati who actually incarnated as Christ on this earth later on. But He is the Gaṇapati. And, there you see just the trunk and they must have misunderstood that this trunk is the Kuṇḍalinī because it has a shape like that. And, that's why they might have said it, but it's the most dangerous thing. If you go through sex, then you are open yourself absolutely to hell. If you go towards sex and try to come to God, it's absolutely wrong, you see.

Christ has gone to such a limit because Christ was born here and He looks after our all optic lobes and all this part of the eyes. And, what He said, “Thou shalt not have adulterous eyes." Just see. What does that mean? That

means you have innocent eyes. He was innocence. He was the embodiment of innocence. “Thou shalt not have adulterous eyes." No lust and no greed in your eyes.

Now, is only possible is if Christ is awakened within you. Once He is awakened within you, then you will have your innocence and you will also lose the lust from your eyes. Eyes will be absolutely looking, but not getting involved. That sort of a thing will happen to you.

So, the sex which is a normal thing to do has to be sanctified by collective people. Should be done in a proper way so that you get good children. The marriage should be sanctified collectively and should be done in a proper way and should be looked after. Because now of course people are on a different line but when I had come ten years back, when I told them that you have to have sanity about sex, they were very angry and they said, “You are Victorian." They called Me Queen Victoria. [Laughter.] But now I think they have learnt a lesson because I had told them, I had told them that “You will get a disease which you will not be able to work on. Don't do all this nonsense of perversion. It's very nonsensical." But even now they are trying to evade the issue. Don't try to evade the issue. You can be cured of that disease if you can awaken your innocence within yourself. Through the grace of Christ only we can do it.

Barbara: Mother, we have learned, heard that when we learn love then we shall have will. What is the relationship between love and will?

Shri Mataji: When we'll have love, then we'll have will. Good! Love is when you become the Spirit, because Spirit is nothing but God's love, is All-pervading Power, is Spirit.

So, when you know that love which is not attachment, it's not attachment, you see, like a sap rises in the tree, it goes even to the trunk and then to the branches, to the leaves, to the flowers, to everyone. It doesn't settle down into one flower. If it does, then the flower dies and the tree also dies.

So, it is not attached, but it is nourishing.

It does what it has to do. That kind of a love which is absolutely without any conditions, unconditional, without any lust, without any greed, that kind of a love when you will know. That is only possible when you will become the Spirit. Then you will know the Will of God. The Will of God, what is to be done, because you don't know.

When you get your Realisation what happens is this Cool Breeze is like a computer working.

You ask the computer, “Now, should I do this work?" If it is yes, you will have cool vibrations. If not, no vibrations.

So, you will know His Will. Thy Will be done, you see. How do you know His Will? Then you just know. You become the knowledge. When you become the knowledge, when you become the love, then you become the knowledge also. Even in everyday life, if you love somebody you know a lot about that person.

Barbara: Mother, this afternoon You said something very interesting in response to a question by a woman. And, the response that You gave was, “Service and sacrifice are a myth, or is a myth." Can you describe what You meant by that?

Shri Mataji: Yah. You see, when I said that, when you become a saint, in the sense when you become a

realised Soul, you find that you are collectively conscious. Then what happens that if somebody has got a problem you feel it on your fingertips. Now, you rub your fingertips and the person feels all right.

Now, you have done no service, you have done no sacrifice. It's your finger that is in trouble. Now, if you rub your finger, who is the other? You see this comes out of ignorance and those... in India actually, they knew it so well that those people who talked of sacrifice and service were called as Shudras, means untouchables. That means they had no knowledge about it. Those people who talked that, “We'll serve you; we'll do this dirty work of yours, that dirty work of yours", they were called as Shudras. They are not the people who should be touched because they have no awareness that the All-pervading Power of God is there which does everything. What you have to do is to just become one with It.

And, once you are one with the whole Primordial Being, say, on your body if there is a pain somewhere, you just rub it. All right, you rub it and it's all right. There's no obligation on it. In anyway you have not served anyone, you have not obliged anyone.

So, the concept that you are one with the Whole itself is the noble's concept. And, those people who do not have that concept cannot understand.

They think, “We are serving others; we are looking after others." “Who is the other?" I ask them. Who is the other?" That is why this is the concept with which Indians have always lived. And, that's something good they have. But they also picked up, you see, when your missionaries

went there they also started their missions, this, that, serving and serving and all that.

Now, to the poor people, now how do we serve? We serve in this way in Sahaja Yoga that once they get their Realisation they don't remain so poor at all. You see because first of all the poor people have bad habits of drinking, all those things drop out.

So, all that money doesn't go into nonsensical thing.

Secondly, they get those vibrations. Now, whatever work they are in they become dynamic. They have no health problem. They don't have to go to the doctors. They become healthy people. Mentally, they are so alert that they do better than any other.

We have seen people who came to Me and said that, “Our children are very bad at school. Must do something about them." When they got their Realisation, now they stood first. They got all the scholarships, everything. They are doing so well.

So, such people become also materially better off. They don't become extraordinarily rich but they become materially well-off, satisfied people. You see, also dissatisfaction is another poverty because you are dissatisfied. I think those are the greatest poor people because they are never satisfied.

But the people who are realised Souls are satisfied souls. They know how to live well and they are helped.

Like Kṛiṣhṇa has said it, “Yogakshemam vahāmyaham." He said, “I'll give you Kshema after Yoga." First He said “Yog." `Kshema' means your well-being.

So, well-being acts after Yoga, not before.

Barbara: Mother, in the West there is a great, especially I would say in this part of the West, in the West Coast, there is a great interest in subjects such as kabala, tarot, astrology, spiritual alchemy. How does Sahaja Yoga relate to these? What are Your views?

Shri Mataji: I can't understand. That means they are not seekers those who have such interest, you see, because these things relate to a material life.

Barbara: How do they relate to material life?

Shri Mataji: You see, because kabala will tell you when will you get married, or how much money you'll have, what race you'll win. All those things, you see. God has no interest in these things, you see. All these things are... spiritual alchemy, how will you change this into gold. And, what does it matter? Gold and all those things, what are so important? Isn't it? The most important thing is to be your Spirit. And, those who are seeking the Spirit are real seekers. All others are seeking money in some other form, you see and then when they go to these people, actually these are nothing but spirits and they get possessed by spirits and they have horrible time, you see. One should never indulge into these things. Christ has warned the most of all and we are doing it.

So often, it's very wrong to ask for anything material like that. Why should we have easy money like that? It's not good I think, through some spirit helping you or something. I don't know if it really helps. It may little bit help but give you later trouble.

Like, one lady had a problem with her husband, you see. She said that, “He is a bad man; he's a flirt and all that." She went to such a women and he became as far as she

is concerned, he gave up flirting, but he started racing. And, he got lost in racing. Then she went there and she said that, “Now, he should be all right from racing. He should get out." So, he started drinking. And, after sometime he started doing all the three things, you see.

So, it was too much.

So, this kind of a nonsense you should not indulge into if you are seekers. But there are category of people who are seekers. That's what I feel and those who are seekers are getting into it should get out of it and get to your Spirit.

Barbara: What's the role of the artist in this work, this Sahaja Yoga?

Shri Mataji: Who? Barbara: An artist, artistic work like music...

Shri Mataji: Oh, great, great! Tremendous it is! You see, those people who have been realised Souls have created eternal art. Like we can say, Michelangelo was a realised Soul.

So his work is eternal art.

And, they produce art which creates vibrations. You can feel vibrations from him. In the whole church if you go you feel horrid, but when you go to Sistine Chapel and see his work, the whole thing fills you up with vibrations. They are creators of vibrations. Imagine! The musicians like Mozart, Mozart creates vibrations but Wagner... [Laughter.] You see.

So, they are the people who are realised Souls. You have some tennis players who are realised Souls also, perhaps you...

Barbara: Tennis players?

Shri Mataji: Yah! McEnroe is a realised Soul and Borg is also. And, My grandchild told Me, “You know, why Borg has retired? Because another Sahaja Yogi has come now, the younger one, so give chance to him and that's why he is very honourably retired." [Laughter.] Is because when McEnroe speaks, you must have seen, he tells himself “John, now behave yourself." They are in the third person. And, that's why people don't understand him and he doesn't like to be insulted. And, that's very true. Anybody who is a saint doesn't like him to be insulted.

So, like that you have so many people who are realised Souls, we can say. Even the Princess of Wales is a realised Soul and the new child is a realised Soul.

So, there are so many people like that who are realised Souls.

Barbara: The listeners who will be tuning in to this program on the radio won't have had the experience of being in Your presence.

Some of them may have who were in this room. What can you say to them about how to become a realised Soul, how to achieve this Cool Breeze that comes from...

Shri Mataji: At the beginning of My lecture, if you tell them that they should put their hands towards the radio. Just on the radio. They might feel the Cool Breeze. If they don't feel it, then tell them to put the right hand first till they feel the Cool Breeze and left hand up as if ventilating out. And, then the left hand towards the radio and the right hand up. It might work out because it has worked in Hong Kong.

[Laughter.] Barbara: I'll tell You something interesting. I interviewed Danny and Doug before You came so that listeners would have a chance to come here. And, one of them called me and said that he went into meditation in the afternoon and felt the Cool Breeze just by hearing them talk.

Shri Mataji: See, if Sahaja Yogis can do it then when I'm talking it should happen. [Laughter.] Barbara: We are about at the end of the interview and what I want to do now, Mother, is give You a chance to say what's in Your heart to say. What is there that You wish to share that has not been said this evening?

Shri Mataji: I have to say that America is a great country in the universe. It has the place of the Viśhuddhi Chakra, which is the center of responsibility and discretion. And, they have been so responsible.

So far they have given such noble ideas of democracy and of freedom and all those things which are really all belonging to God's ideas. And, when they talk of all these things, we must know that there is something much more that they can give to the whole world.

So many saints are born in this country because they realise that this is the country where they'll be able to prosper better into their spirituality.

So, it is a very great responsibility of Americans to understand that we have had great leaders, we have had great noble ideals, we have had got great saints living here.

So many are anxious to come down here. Only thing what we have to do is to establish within ourselves our Spirit and to be ready and prepared for this great,

tremendous work that is going to come now. And, this is what the world has to do. If emancipation of the humanity has to take place, it has to take place only from inside out and not outside in.

Another thing, I would like to tell that the danger is not from outside for America, not from anywhere else. It is from within themselves.

So be careful. We have to be careful about ourselves, the way we are destroying. When we say, “What's wrong?" we go head long into our destructions. Human beings should not take freedom as abandonment, but freedom to enjoy completely and fully. The freedom that takes you to a destruction is not freedom. The right idea of freedom must be taken. And, people should know that freedom, ultimate freedom, is when you become your own master, when there are no habits, when you cannot be dominated by anything. You are above everything. That's the freedom you have to achieve and that is why people talked long time back in this country about freedom. They helped all the countries to get their freedom and now it is their job to get them their own freedom within themselves so that others will also follow.

May God bless you all.

Barbara: Thank you, Mother.

Contents: 1983-10-01 **Talk to Sahaja Yogis, Seminar, Day 1, Kennolyn Campgrounds, Santa Cruz, CA, U.S.A.**

I am really enamoured to see so many of My children. I have been able to find them back, it is such a great thing to see them, after such a long time, while I came here

ten years back and none of them could feel the importance of Mother's love. And now it has worked, such a tremendous thing has happened that it has worked and that people are feeling that great thing called, this subtle energy of Mother's love. Now in these ten years I have been all over the world, Australia, Europe, England, India, but I must tell you, My attention was in America all the time. I was longing for the day when I would feel like coming back to this country because I thought ten years back, it was too early.

They have to learn it, what truth is, they have to go through it, they had been too *[UNCLEAR* cockshell].

Unless and until it works out that way, they are not going to accept Sahaja Yoga but what do you accept in Sahaja Yoga is yourself, is your spirit, is your power of Kuṇḍalinī and by which the responsibility that, when you get this Realisation, you have to settle down with it, know all about it, you have to become a Guru, a pure Sattva and the Guru of others. In short Sahaja Yoga is the epitome of our evolution, that is what we are made human beings. All these scientific methods that are caught on this earth, all these explorations that are there are to communicate about Sahaja Yoga, nothing else, they are not going to be used for anything else. If you use them for anything else they will have no impact, no achievement and everything will be wasted. As I was talking to Doctor...

“Doctor did you talk to them about the peptones and all that?" “No." All right I asked him to talk to you, that the human mechanism is the highest of all, we have now created the highest thing, we call it as the computer, it goes alongside with our our own building inside.

Now the computer has to think, it just can't do anything without thinking. Now when you see Me you are not thinking, you just see Me, you see this, you see that, you don't have to think, going to the process of thinking. Spontaneously you know what it is and they will take thousands of years, they will never be able to produce a computer like that. Then the computer when it starts working, the human computer, is going even ahead of it. When you become the computer, when you get connected with the mains, you know everything because the mechanism within you is the absolute mechanism, the perfect mechanism, it has no defect except that you have misused it, you have almost pressed it or you have taken it to a junk shop for nothing at all. But you will be amazed that you can repair it yourself. The mighty power within you has repaired it, so this power which is within us can repair it, repair. That is the first thing it does is to repair us. We should accept that there is some repair needed in ourselves that is one thing one has to accept, otherwise you cannot go very far with it.

Supposing you buy a fifth hand ship, then you better repair it before putting it to the sea. Like some ladies came to see Me off and on from France, so My husband said “What's this? She must have given you realisation, then why are you bothered?" He is dealing with shipping, you see, so the lady answered “Sir, supposing you buy a fifth hand ship, what will you do?" He said “In all wisdom I will never buy it." “And even if I buy, after using it for a while if it does not work out we'll throw it in the sea. We have no patience." So one has to know that You have to work it out, you have to understand your value and your

problem, but you have to work it out, it is very easy to work out yourself.

Like there was one Sahaja Yogi, he has written this book Advent. One day he came very disturbed, he said Mother, “I'll ask you a question, if it is yes, you just keep quiet because I will be really blasted, if it is no, it is alright." I said “What is your question?" He said “Was I Napoleon in last life?" I said “What makes you think that?" He said “Because I have a very big ego, I have discovered such a big ego I float suddenly, see, the slightest jump I go floating, that is why. And the second thing is that I can draw very well from My childhood, I have a very strong hand for lines, that he too had. That is why I am rather worried if I was Napoleon." I said “Non at all, don't you worry." Then he was settled down because he said that would be really an abuse of you to give realisation to Napoleon, a person like Napoleon. Now look at that, once upon a time Napoleon was the hero, I mean, as we were young children in India we had to learn about the greatness of Napoleon, how his childhood was spent and how he conquered countries after countries and his words were used just like some scriptural saying. But now today the same country does not want to accept him as a hero, on the contrary they think he was an idiot to do such things.

So the situation has changed now, people have learnt their lessons and they think this is not the way the hero should be.

So now today the hero is say, someone like Mahatma Gandhi or you had Mr. King here, all such people, or I would say Abraham Lincoln, he is coming up as a hero.

What is so special about these people, we have to see. They were all realised Souls no doubt but one thing more they had was that they imbibed in them the capacity to emit compassion, love, nourishment and soothing capacity of the Mother Earth.

Because of that only they were today respected, they are today respected as great heroes. And that is what Sahaja Yogis have to be now. They have done all competition, all nonsense, I mean so many have turned back from that, like they started anti-culture saying, Oh it is too much, it is sooth and good, it is too much for us, we don't want to have it.

So they turned their back to that and they started seeking, but by seeking also, they went to the other side of it and got lost. Like one fellow came to Me, all stinking, his hair was stinking, he never had bath for a year he said and I said “What is the matter, you're smelling like a dog." So he said “I want to be a dog” I said “But why?" Then said “I like it" but I said “Why are you troubling everybody else you see?" So he says “Mother, but I want to be primitive." I said “With this brain you can never be primitive. You may change your hat, you may change everything, you may change your hairstyle anything, you cannot become primitive. You are a modern man, accept it.

So why trouble others for nothing at all?" And this is how that we think by our mental projections, by our mental conceptions, we can do something. You can not do anything. Whatever you do becomes absolutely useless. Why? Because as Doctor will explain to you later on, that within us now there is something called peptones you

see, which work out for the neutralizing of our problems with the sugar. Now they have a built-in capacity to be in a spiral shape, they are in a spiral shape and once they become linear, they lose their biological effect. Now, according to him that we put in all amino acids, everything together, we can only create 5% of all that is created by Nature within us. You can imagine how far they have reached with all that advancement, everything: only 5%. Now these peptones, as they are spiral, everything within us is like that in the sense that our evolution has to take place spirally, it has to move in a spiral way, not linear way like a pendulum.

Like men are becoming women, women becoming men, they are homosexual bisexual that sexual, is all mental projection, is joyless, it doesn't give you anything at all. All your ideas of democracy, capitalism, communism, all isms that are nothing but mental projections. They are not reality because you have no capital, what will you distribute? Your capital is your Spirit and when you get that capital within you, distribute, you cannot live without it.

Like Me you see, for all practical purposes I am a happily married woman, our friends do not understand what is wrong with this woman, why is she going around, talk to people, what is she doing? Such a big capitalist what is the need for her to go round? But I am a capitalist inside and I must spread this, I must give this, I am the greatest communist I should say that, because I must give it.

So the communism, or capitalism, or all these political ideas are absolutely parallel to what is inside, but it is not the inside, is not the genuine thing inside. All these

mental projections I have told you, people just start believing. Like people believe that we are twice born. If you want to believe, you can believe you are a dog or an elephant, you can believe whatever you like. But that belief has no meaning, at all, because it is not so. Supposing I believe I am the governor of Los Angeles they will say “you are mad." That is what it is because if you believe into something and you start acting, it is always a falsehood, isn't it? Now Christ also or anyone of them came they said “you believe in that” what they were saying? What Christ said? that you believe that there is God, that he is the son of God, is a fact but you are not become the son of God. When you start believing that we have Christ in our pocket, then you are sadly mistaken.

Christ is very far away from you, just now.

So mentally if you accept any situation like that, then you become a complete barrier to truth, then nothing can go into your head because you think “Oh what? I go to church all right, I pay money for the church." Church is not Christ.

So now churches are selling in England and they are making pubs out of it, actually pubs and people will be even worse there because all dead bodies are lying down below and here they are going for drinking. What is going to happen to their [being]? It is a serious matter for Me.

So this is what it is, that when we start believing into something, we also believe we are that.

Some people read Gītā and when they read Gītā they believe they are Vyāsa themselves, the one who wrote it. But some of them believe they are Śhrī Kṛiṣhṇa

themselves, to this extent people go to believe that they themselves are Śhrī Kṛiṣhṇa, they talk like Śhrī Kṛiṣhṇa. Now the Śhrī Kṛiṣhṇa's qualities are there. If I say I am Christ all right, you should say that if you are Christ, walk on the water. And if I say I am I am the Holy Ghost, then you should say, all right raise our Kuṇḍalinī.

It is said. If you can raise our Kuṇḍalinī then you are the Holy Ghost, otherwise you cannot and en masse. That is the point and if that is so, then you should accept someone as something, it is already written down. But on the contrary people start believing they are the Holy Ghost. I met people like that, they said we are the Holy Ghost, we are Christ, we have to just keep it. What an ego. And that is what makes people absolutely closed to truth. They cannot seek truth because they want to believe that they are already there, they have got it, only they have to keep it. It is a wrong thing, you still have to have it. But in our practical life, you don't do that, you see in practical life supposing we just believe that this is mine, it does not become mine. And if I go and say, no this is mine, I will be put into jail. Anything like that you don't believe unless and until you have it. Supposing I say, alright sit down here, there is a chair, will you sit? You first see, it is there. In the same way in our spirituality we are just the opposite, we want to believe because we know that nothing is going to be challenged.

And that is how we close ourself to reality. We have to be, we have to become and that is the problem of Sahaja Yoga that you cannot become a Sahaja Yogi, unless and until you become. There is no certificate.

There is no payment. Thus we cannot say. It has to become. Unless and until you are a tree, we cannot call a seed a tree. That cannot be done. Nor you would like to call.

So that is how it is, we have to humbly accept that we have to become. If we really humble down on that point that we have to become, that all our knowledge has been of no use it is non knowledge, then only it happens. There was a great poet in India called Surdas, he was a blind poet, he has written lots of poems describing his agony to meet God and such poems people like because they too have the same agony, so they like to sing “When will I meet you, when will it happen?" and all that.

So he sang all this, but after all that the last thing he wrote was very beautiful...

.....

That O lord Śhrī Kṛiṣhṇa please remove my non-knowledge, so far I have written `susadaka', oceans of his poems, he says, is nothing but non-knowledge, so just remove it. The knowledge has to be felt on your consciousness, on your central nervous system, so all other things like people start jumping, going under the blanket, saying that our Guru is great. You cannot even make out whether he is a true or non Guru, how can you say that he is your Guru? A Guru has to be a person who knows everything about it and he is above money, above all these material things and he creates nothing but compassion.

I agree many can say that Mother, because you were not here, we went to other people. But it is not true. I was the first to come here. Ten years back I came here but

you were not happy with Me at that time, you did not like Me very much, because I had no Rolls-Royces. Oh they actually asked Me, “Mother how many Rolls-Royces have you got?" I said “Rolls-Royce, for what?" They said “You see they all collect Rolls-Royces here." I said “I have come to collect My own children, I have not come to collect Rolls-Royces." So they asked Me “Then how do you explain these people who come here in the name of God try to collect Rolls-Royces?" I said “I cannot explain because I can stoop down to their level, I cannot understand their level because to take even a little bit from someone free itself is parasitic, I mean if someone gives Me a present even materially I think I should be paying back, somehow or another, I must return. It is very hard for Me to a accept even a little thing from you people whom I am giving this, because I have to give, it is to be given, it is your own, I am like a banker, I have to, it is your right to have it, so I have to give it and in return to take Rolls-Royce is so parasitic and is so below level, there is no self-respect." So I asked the gentleman who was asking Me a question “Supposing I tell you come in My house and live freely, will you do that?" he said “No!" I said “Then, to take a Rolls-Royce free from someone on other people's money, is it not parasitic, what are they doing to get the Rolls-Royce, what work have they put in, what material things they are doing that they should ask for Rolls-Royce." Like that, you see and people get enamoured by these Rolls-Royces. I tell you the gentleman who has Rolls-Royce here, I met him before. And he told Me unless and until I, he did not know that I know all these things very well, I just can

camouflage Myself quite a lot and I wanted to know what he is doing to the people and he said “You know what is going to impress the people in the West, big big houses and great big cars." He himself wanted to buy a Mercedes at that time and we had a Mercedes, then he wanted to talk to Me about it if I would sell the Mercedes to him. Just imagine, he knew at that time that you people would be more impressed by Rolls-Royces, just imagine such a thing to happen.

So we have many contentious and many ideas about things. In Sahaja Yoga gradually they drop out.

I don't want to shock you because you will think “Oh mother this is also in-born." Like an homosexual came to Me and he asked “Mother what do you think of homosexual?" I would touch him, I said “All right I will explain to you, sit down." I took about half an hour to explain to him how he became homosexual and how it is enslaving him, it is a joyless pursuit, he will never have joy and moreover those who are today born have a greater responsibility because they should have sane marriages to allow the great saints to be born in this country. Only devils will be born under such circumstances, only devils, who can face a circumstance when mother is marrying ten times, father is marrying twelve times and the child, his innocence is all the time attacked.

So we have to have sane good marriages if you want the saints to be born here and without their births we cannot see the saving of this madness that is going on.

So but I told him very clearly how it has come. Because yesterday also the day before yesterday I spoke of that,

how the homosexual were created in this country or in any country in the West. In India we did not know all this, what is supposed, it is so unnatural and we must have been primitive people because you are so advanced you know and we do not know about these things, actually I could not eat My food for eight days thinking that now they are doing this, it is too much. But actually what has happened is your laws, your laws are very funny, the laws are such that if a man marries a woman then he is in for trouble because he loses half of his money with the first wife, then half of it with the second, then half of it with the third. By the time he is third time married he is just broke you see, this is the law. I have seen women very rich, very well-off and the husbands absolutely paupers. Same lady marrying one husband looking like a pauper absolutely has no money so this is one of the law which is very very I think imbalanced and creates a problem between husband and wife quite a lot, because the whole thing becomes money oriented. And I know of somebody who is a great Sahaja Yogini in America, her mother has married now ten times, she is all the time and now this is her 11th marriage she is arranging.

So that is what she is doing and that is how she is quite a moneyed lady and I don't know how she manages that, how she is befooling so many men and marries them so the marriage becomes just a joke. Secondly this is one of the reasons why men don't want to marry women, because there is no equality of sharing and that is why, one of the reasons why, they thought it is better to have a man as a companion or a spouse.

Then the second thing which is very wrong within us is that the women don't understand their responsibility and because men oppressed them so much. At the time of Abraham Lincoln, if you see the men were horrid, absolutely much worse than Indian men, much worse, they used to oppress women, they used to do all kinds of things and women were denying all kinds of vice.

So as a result of that, now women have become men you see and they have tried to dominate. I mean, when I see an American women, I am quite surprised how they treat their husbands. Now you see that is a trick they must know of the woman how to treat the husband to put him right, you see, she is the mother and the trick you don't know. Me of course, I mean, our husbands are just with us throughout, but we know the trick and you don't know the trick, you are trying something, which you, which which is, which, won't work out because you are not an instrument for that. For supposing, this is an instrument for emitting My voice and if I start using it for playing a tape recorder it can't.

So a woman is a woman and a man is a man and if a man tries to be a woman and a woman tries to be a man, there is going to be a problem. But that does not mean that a woman should sit at home and look after the children, it does not mean that at all, but the woman's qualities are of nourishment, are of soothing, are of compassion, they are such powerful qualities you don't know. Your compassion is so great that your children cannot go anywhere. Anything happens they must come to you, the husband cannot go anywhere he has to come, compassion is so pure and so great that the power of

compassion you have never realised. This is the power of compassion of God, is his feminine, the mother that is working it out, he is just the witness of the whole show, he is not bothered, if you people don't behave alright, he just switch off everything. The switch off is very anxious because he is just a spectator, he is the only spectator of the whole spectacle and he can just switch off the whole spectacle if he does not like it.

So the mother has to play a very beautiful role, very carefully she has to nourish her children, she has to look after them, she has to bring them up and should be then entering into the Kingdom of God. Then only you can enter into the Kingdom of God and that is a thing of great patience, love and tremendous power. If you don't have power, say if this Mother Earth did not have power, she could not have born us, with all the kinds of horrible things going on, the way we are digging her, the way we are torturing her, she would have collapsed long time back. But she has such a tremendous power of forgiveness, of compassion, love and nourishment that she is activated and your Kuṇḍalinī is the same Mother Earth, she is the representation of the same Mother Earth, the same Holy ghost, of the same kumbha, as you call it the Aquarius, that is the Aquarius, this is the Aquarian Age they call it because this is the Age when you will get your nourishment. Your own Kuṇḍalinī is going to nourish you, she is going to soothe you, she is going to guide you properly, the Mother is the greatest Guru. I mean even the Gurus have their mother. A Guru has to be a mother otherwise how will they come and the whole absurdity has come to us also in the West from

many religions especially we should say Christianity and Judaism, where they did not talk of the Mother at all, that was the time to talk, because at the time of Abraham, they had to talk of the Father, then at the time of Christ they had to talk of the Son, that was the time because if he had talked about his own mother's stay they would have killed her and then he would have come out with his eleven destroying powers, he would have finished the whole show once for all.

So he never talked about the Mother power.

Now the time has come for the Mother power and I was told that 13, in the 13th century somebody, what was his name? Joachim de Fiore he talked about this, that, because I don't read books you see, he talked that it was the time of the Father, then the manifestation of the Son and the manifestation of the Mother is awaiting. And when this manifestation takes place, as a result of that only, you get your Self-realisation. But those people who want to take advantage, only talk of the doomsday, they don't talk of the resurrection day. Now if you read Koran, any one of you who has read Koran, I deliberately tried to understand it, because My father translated it into Hindi language, that it mostly describes the resurrection times and very little of the dooms-times but the doom is described more because they want to frighten everybody, “The doomsday is coming, better get converted, you see doomsday is coming” just to frighten people and in that, he has very clearly said that at the time of resurrection your hands will speak, they have all talked of the future, Christ has talked about the future that he'll send you a comforter and he'll send you the

Holy Ghost, he has talked about it, everyone of them has talked about.

Fourteen thousand years back in India, a great astrologer, he is we should say the father of astrology, he is the originator of astrology, Brighu muni has written a book NĀdi Granth, in which he has clearly said that this age will come when the Mother, the Parabrahma, the Mother, Parabrahma is the Ādi Shakti, we call it Primordial mother's power, will come and in 1970 this will start as Sahaja the Kuṇḍalinī will rise and there will be no need for hospitals and all that. If it works out, we can avoid the third world war he's clearly said fourteen thousand years back. And if it is not working, then there will be a problem, most of the people will be destroyed and then only the yogis will take over. Means these yogis are Sahaja Yogis. This is very clearly said in that, so it was already been prophecized so many years back for us.

And William Blake has prophecized that men of God will become prophets and then have power to make others prophets. The amount of details William Blake has written I don't think even Mārkandeya has done that, he of course Mārkandeya has described even the shape of My knees and all that, but this one has described even the exact house where I live, all the house and even the ashram where we are going to live, imagine, to that extent this William Blake has written.

So you can understand how far he has gone deep into the whole thing and he was such a great seer born in England which is the heart of the universe.

So now as they must have told you that this is the Viśhuddhi Chakra of the universe. Did you tell them that? Not yet. Alright so I leave it to them to tell you. And what are the responsibilities, I mean the responsibility lies here and how the Americans have responsibility. I mean you are very noble people throughout your talk of such noble things and I believe in you, believed in it and you always fought for the noble side of life. But now if one by one if you start destroying yourself from within, the whole thing can fritter out.

So we have no right to destroy ourselves because we cannot create even a hair. We have no business to say, what is wrong? Whatever is wrong against life, whatever is anti-life is anti-God. God has created you, you have not created it yourself, so don't take up responsibility to ruin yourself. Only thing what you can do is to cure yourself, you have to soothe yourself, respect yourself even when you do something, know that, Are you doing out of respect for yourself or you are just doing because our ego is saying `what's wrong?' like these punk rocks you see, going on with that kind of absurd things on the road, like a clown they are moving making themselves such a nuisance while it *[UNCLEAR]*. And in England it is very common to see these people but when they come to Me after that I find their eyes are becoming blind. And it's become a great strain for Me to clear that because these dyes you see, they make your eyes, these horrible dyes make your optic globe so heavy that your eyes become blind. These things have very serious effects. You must know that and you must learn all about it, how this affects you.

Also you must learn as Sahaja Yogis, how to talk to others. First of all, among the Sahaja Yogis you are all one. You are part and parcel of the whole which is awakened in you, all should keep together as one and gradually you will understand how beautiful you all are because you are all saints, respect each other, you are saints, how can you insult anyone who are saints.

So first of all give up those bad habits of talking and barking at others, try to love each other, respect each other, be very very kind to each other and if possible try to express it through some material gifts or through some material help in the sense not that you give money or all that, but we *[UNCLEAR]* some little presents sometimes or we can just try to look after the comfort of the other person, put our attention to them, how you could be nice to them.

There is no need to be slavish, there is no need to be pampering their ego but know that as I am the saint, he is the saint. If you see the real saints when they meet, they meet in such a big way, you see that as if the two hands are rising, the five fingers are rising all unison, in concord. Imagine one hand is going like this, another like this you can't do any work.

So you belong to one collective being and all of you should understand and establish complete concord among yourselves.

As far as the others are concerned, there are others, so when they are the others, then you have to talk to them very sweetly, quietly, gradually opening the truth about Sahaja Yoga because Sahaja Yoga is a very great truth and not easy to *[UNCLEAR* guessing] it, not easy it is a very

great thing, it is impossible especially for ego-oriented people because they have like a snake all the time beyond sitting and just refuses to see things you see and that is how it is very difficult, so gradually open out one by one every thing. Unless and until you find them alright, don't tell them because they'll shun up. Of course it does not matter, they are the losers, but as we have to be compassionate towards them, we have to save them, we have to be careful not to tell them. Like a person's getting drowned and you are a swimmer so you tell that person, “Keep quiet, don't pull your hands, be careful." Sometimes they might answer, “Why not I am also going to do it." So if they do it they'll fall, so then you have to tell down, “If you do like that you are going to fall out" and you just release your hands for a while and let them see for themselves and then they'll know “Oh God, I am going down” so they'll come down.

So to give them a lesson also a little bit is important, but in such a gentle way that they understand that if you have to go ahead you have to learn about it gradually, calmly and do not blast them suddenly, if you blast them, then they will be all shattered, you see, they are already in pieces, the whole world is in a big turmoil, in a big tension and whatever we have to do, we have to do it with great care and love and affection and understanding.

So with others you have to be Gurus and to understand not like the other Gurus are and the real Gurus are just the opposite of these Gurus who are taking money from you. I mean better keep off from the real ones because they can hit you very hard. I know of someone, you see

once it happened that he told Me that Mother if somebody troubles you, you better send him over to Me, I said alright. I did not know he was such a harsh man and this gentleman was troubling Me too much. I said “Alright you go and see that Guru once" he was so elated because this Guru does not see people normally, so he went all the way, he climbed on the mountains, reached him, you see and he started talking about Me “Oh Mother has become so generous she gives us *[UNCLEAR]*, she should not do this, it is not proper, she is cheapening Sahaja Yoga in all these years." He said “Really you think so, you are higher than that, isn't it” and then he made him sleep there and then next time I see him was when he came with both the legs broken and put around his neck and dandling like that you see, in the hall. I was sitting and tears started rolling in My eyes, I said “What is this, who has done this to you?" he said “The Guru has done this." I said “How?" He said “I was sleeping and..." this Guru has, his hands and feet are broken by people, so he uses a tiger to move about, “so the tiger came and he threw me in a cot and I fell down and it was about twelve, fifteen feet down. I fell down and I broke my both the sides here and then this Guru after three days, you see, I called and called nobody came and then after three days he put some chapatis" as you call like your pitta bread “down saying that `Eat that now.' I was there, I was urinating, doing everything there, in that filth I was there. After five days he picked me up, when I went up he said `How dare you talk about Mother? Now you put this feet legs around your neck and go to her dandling like this and she will cure you, not me, so go and tell her

all about it.' " I said “What are you doing one way around such Guru why should you do like that?" Another fellow doctor I sent him who had gone very much wrong, so he made him carry two buckets of water all the way to the mountain and clean one Shiva temple which is all neglected you see. Poor fellow when he came, he was thin, just bones I asked “What happened Doctor?" He said “You see I was told these exercise for a month." So when I met him, I asked him “What do you mean by treating them like this, it was too much" and he said “they are donkeys and donkeys must be treated like donkeys. That is my principle. You go ahead, you want to convert donkeys into good men, alright you try it, but I am not going to do that." He told Me very frankly.

So the real Gurus don't take any money but they really take you to task so. And anybody who takes money, be sure that he is not a Guru at all, by anything you cannot take any money from the people. Now supposing if they have to pay, say these people want to pay some sort of an ashram, all right go ahead I have nothing to do, I don't want to see accounts or anything, you do among yourselves. I have nothing to do and everyone should know how the money is spent, where they have spent it, how it has happened.

Everyone should know but I don't want to have the money because I don't understand money.

So better not have it then.

So this is what an attitude should be for you people also that in money matters also we should be very straight forward.

Now the point that I want to tell you is that as Daniel has told Me that people in Santa Cruz don't have the sustenance to stay in Sahaja Yoga this is very surprising that they don't have sustenance but to Me Americans seem to be Guru shopping all the time, you see they go here here here here all over and this is a temple where you are entering, you settle down. If you go on digging everywhere for the well, what do you get, nothing.

So wherever you get little water go and dig in more then even if you get little bit you go on digging it more and more and that is how you'll settle down as real Sahaja Yogis.

So as you know that, Sahaja Yoga is not a thing that we have any organization as such, or we have any granting of diplomas, degrees, or courses, nothing like that. It is some they can go just like that, some people go so fast, surprising and some people are so slow, that I don't know what category I should put them, they can't go, you see, like we used to read in our mathematics before a man came for five days worked ran away and then another man came who worked for two days ran away, all of them are runaways you see, so if that type of people are there in Sahaja Yoga nothing will work out you see, this work nor any answer to that mathematic will never be done, you see.

That is what it is so for you people it is important to know that you have to sustain yourself in Sahaja Yoga. It is very important because there is a drag, first it is a material drag, matter always drags you, comfort, this, that, whatever you may say that you are a non materialistic, it will drag you down; and that another

thing like intellectuals feats that you have gone through and the mental conception, you must see the truth and accept it. Don't accept anything even when I am telling you because it is not proper. You must have a open attitude but you'll find gradually that if you find about nine points true then you must believe in a hundred points because it is so and go ahead with it. This is what belief means, it does not mean that we should believe that now you have become like primordial masters. That is a wrong attitude so I would say that gradually you are all going to grow into great people, you have before you some people sitting here who have grown like that and some people have grown suddenly like that, I would say some of them were following so many other things, then they dropped it in a second, they dropped it in such a quick understanding but some are very slow people and Sahaja Yoga has a double type of a force, one is centripetal and the other is centrifugal and through that another type of a thing you go round and just you are thrown out at the tangent.

So be careful, try to remain in Sahaja Yoga and it is within yourself that you have to remain, Sahaja Yoga is all within yourself.

So try to remain within yourself and follow the methods of Sahaja Yoga which are actually the true, what we call the Shudda Vidyā, is the Pure Knowledge, the Pure Knowledge, how to handle your powers, how to cure your Chakras, how to nourish yourself and how to reach the state where you just become joy, all those things you have to understand and do it for yourself and you have to do it for others also in the same way, but if you are not

established you yourself are still lingering with other things, then this transformation is not established then people are not going to believe. Like an egg you were, now you become like a bird but the bird has to come out of the shell completely, has to be a clean bird, has to know how to fly out properly, then only you'll be called as really transformed bird because bird in Sanskrit language is called `bīja', means twice born and that happens to human beings also that, that's why on a Christmas day we give eggs because we are eggs and with Christ resurrection we have to become the bird. And that is why we have to learn, so many things you will know which you have not known before, all the symbols, all the things that we have known from outside, you will know from inside and the whole thing will be integrated, completely integrated.

I hope I have one more chance to see you again and meet you again. But in any case I would like to have questions from you if possible but there is no need for Sahaja Yogis to be aggressive with Me. But be careful about murmuring souls as Christ has said, you see there are some people who are half-baked, they play into the hands of negativity and they go on murmuring at the back you see, they won't allow you to progress. We have someone, some people even now after ten years, they continue slowly slyly working out at the back range you see and try murmuring and put you down.

So you go according to your own understanding and don't according to the other understanding but gradually you'll find you'll come to the open space of complete reality.

May God bless you.

I would like to have questions.

[Someone asks a question, then everybody in the room settles down closer to Shri Mataji.] Very good you have said the right thing at the right time which I wanted to tell you about. Very much.

Have you got the chart?

Sahaja Yogi: Yes it is here, Mother.

Shri Mataji: Now you see the chart that is here. Can you remove this one a little bit. Now the whole thing is that the naiveness of the Western people has been exploited by the people who wanted to really take advantage of you. Now how they discovered the naiveness you see, the naiveness that you are very naive at things. Most is that so many people, even you, now you are realised Souls no doubt but you, even you were misled there. Of course Freud was very much misled and so many of them. And when they read their books, they said this is the chance.

So when I saw one of the, as I said I don't read much but I had to talk to Jungians so I saw there some of their diagrams and I was shocked, you see, because what was there was they showed the human being as such, the unconscious first, a layer, then the unconscious that will manifest, then the subconscious, then the conscious mind on top of the ego. Such a jumble box, I tell you really and this must have given a key to this people to come down here. That means that if you have to go, see how it is, layer by layer, they have put in, it is a self-conviction I tell you, so if you have to go to unconscious

down below, as it is said, then you have to go to subconscious.

So when they knew that this people are willing to go to the subconscious, they came here and they started to talk about it.

Now actually it is not like this, they are not placed one on top of another. They are vertically placed, that is a clear part here. You see it, God is the greatest organizer. See now if I have to come inside, you won't keep all the people there and all these things there for Me to cross through it, will you. I mean you'll organize in a way that there should be movement. Isn't it. Even in an airport if you go you won't put all the *[UNCLEAR]* thing between where all other people have to pass through. I mean, He is a great organizer so he organized it this way, beautifully done that the path in the center is kept open for you to ascend ultimately. Alright? Now the subconscious is on the left hand side, the supraconscious the future side is on the right hand side, so you don't have to go to these places. Those people who take LSD or all that go to the right side, those people who go to these some of Gurus, I mean some Gurus are also right-sided like Hitler used that supraconscious he used that from lamas, he got it from lamas, so what happens that when without realisation you try to push your attention to the left or the right you go into these things where you get caught up into the collective subconscious on the left and the collective supraconscious on the right and you start getting all these nonsense. And by that, you can be anything, I mean, see people in the left side can suffer from all these diseases, see all your incurable diseases

like cancer, aids, myelitis, all these diseases, they come from left side entry. If you go, even doctors have accepted, doctors have accepted, because I saw there one film where they said that the triggering, first of all they say it has to be vulnerable, means too much of sympathetic activities. Supposing you have this Chakra here like this and this is the vertebra left and right. Now if there is too much sympathetic means left or right activity, then it opens out and the connection with the whole is lost you see, now what happens you start moving towards the left, once you start moving towards the left, you enter into the subconscious area and there you enter into the collective subconscious where you are catching from other people, collective subconscious, it is not consciousness but subconscious you are touching there, you see.

Now for example I'll tell you a simple thing like flirting is also the same thing, you'll be amazed, flirting is, we can't flirt I mean we can't, our eyes are too simple to flirt you know, there is nothing inside to flirt with, it is a joyless pursuit but this, what happens that is the spirit you see that guides the flirting. And I was amazed when somebody told Me this I said why is this, but I saw people getting the spirits from one eye to another but I don't know how it works out but once somebody told Me, he was standing with Me, on the platform and suddenly he turned round, he said, see there is a woman standing there. And I said, but you never saw her, but her spirit collectively as you said behind, behind the gentleman, so he caught it, collectively you see suggested. And this spirit informs that spirit and the thing worked out and it

turned round. See because eyes are not innocent, the eyes have the spirits in them, you see, there is lust and greed and if you have lust and greed in your eyes, then these spirits come to help you down, they also enjoy their lust and greed through your eyes or through your behaviour, so then you are *[UNCLEAR* there... things of the body is of troubles sometimes] because the doctors said that when it is vulnerable for cancer, means there is too much right and left side activity, then triggering takes place by the attack from the area that is built within us since our creation and they call it, the attacks are called as protein 52 and protein 58, just imagine, they give them the name 52 and 58, but I told them these are nothing but spirits.

Why these infections? is nothing but the dead vegetables and animals which are born out of circulation of you know of your evolution. Whatever goes out of circulation goes in certain stand there and whatever is in the future a futuristic man who lives in future, most of the Western people live in future, they go to the supraconscious area.

I mean there are cases like somebody started suddenly painting like Gauguin, I know Gauguin, he is a great painter he did the same strong lines, the colours and things and he has some very beautiful painting like he has done a sunower beautifully, yellow is his favourite colour and one tape just in front of everyone on the television you could see it and he said I am possessed by Gauguin. And Gauguin started talking “yea I have possessed you" because he was mad, he died he possessed him but it was for a short time and then

Gauguin went away, it is perhaps maybe that I gave it a bandhan perhaps maybe. But that is what it is.

So you see, whatever is happening into you is not siddhis. Siddhi is this when you become `siddha', means proved to be a realised Soul. These are called shuddras, `shuddra' in English means what?... what? `untouchable', shuddra untouchable, it should not be touched, one should not touch them, this is very low and that is what people think to be advancement like people start jumping you know these Maheśh yogis people when they came to Me, they were jumping on the first seat, I said now what is happening here? They said, Now we are flying in the air. I said, “Where? You are just jumping there like frogs you see.

Where is the air. And put your Guru to fly, let us see if he can fly. Why not ask them to y?" You see you should find out also the life of Guru, how he is. Like the one who is supposed to be here, Bhagwan he calls himself God. He cannot smell a flower, I mean imagine there are at least, if there are a thousand names of God, there are at least thirty names which say you are so fond of this flower, you are so fond of that flower, I mean if he cannot smell flower, then how can he be God, I mean flower is the most beautiful thing in the creation, isn't it? And he cannot smell flowers, such a man should be something, put him in some filthy place then he will be happy there I think. That is what it is. You must understand if he does not like the fragrance of the flower, how can it be? And all of them are so gross, I tell you. They do not know any sophistication of life, nothing. The aesthetics, if you see the way they live, it is horrible, if you see the carpets

they use, the amount of things they have, it is all nonsensical, see that even they are not rustic there, I don't know what to call them, they are very cheap type of people, very cheap, they can't talk to you about your philosophies, your music, they don't know about Indian music, leave any other music. They don't know about Indian dancing, they don't know about Indian traditions. Ask them why this is put, or why this is what, why this is what, they won't be able to tell you.

What are they talking about Brahma and this and that? Read some few books here and there and just started talking, some of them have come direct from jail. But they are so confusing, I can understand they can confuse you because they talk another language, which you have never heard before, but it is like going from five to five, this day, you see, it is not proper. You must understand that something must happen to you of which you should be the master. Simple. Supposing I'll say I am such and such. Alright, so what? What did I give you? What did you get? I am not surprised My child that you've got these things.

I have seen people who have ended up into complete recluses, absolutely horrible things have happened to them. But if you tell them also, they don't want to hear. It is such a possession, they say let us go to hell, does not matter, our Guru will go to hell, we'll go with him. Really. They are so identified, I mean you can't tell them. You just can't talk to them, if you talk to them, they feel very hurt, they don't know what harm it has done to them, they just don't know.

Question: Should we have compassion for such teachers and such people that are affliated with them.

Shri Mataji: First of all you develop your compassion, secondly discretion. You see it is a wasted compassion. What is the use of having compassion for Hitler? It is wasted, absolutely wasted. I have been to most of them, talked to them, told them, What are you doing? You've come out of the hell, now you are again going to go back permanently there. They won't listen to Me. It is wasted.

Question: What about the people that are associated with them, she said.

Shri Mataji: Associated? Question: The disciples?

Shri Mataji: Try but very difficult you know. Very difficult. Like one of the persons we had John in London who was very much, you see, worried about his friend who was really lost to this fellow, this fourteen year old fellow. And he talked to him about it and they were driving in a car and he just went havoc like this, like that and he had to jump out of the car, you see, the fellow they could not bear it. Yogi had compassion for three people from Rajneesh, you see. I told him, “You bring them alone separately to Me, not in the big crowd"; because in India we have really very big crowds you see. Now I said, There will be problem; but he had compassion, you see, I told him, Just don't bring here; but you see that time he did not understand what I was saying, but they brought them and they must be about 60 feet away from Me, not very close, as soon as they stood up and saw Me, they just collapsed, you see, no energy in their body. People tried to lift them, their hands would slip just like a fish. You see they didn't know what to do, five, six people had

to literally lift that type of a molasses, you see, from there and put them out. It was such a problem.

So it is not easy but gradually if they discover it, come to right conclusion and they are still, something is there [points to the brain] left, then you can manage.

Question: About TM meditation.

Shri Mataji: Everybody does till you discover. I must tell you about TM horrid things about that.

What happens actually.

Question: the lady says she comes from TM, her husband is still in in, can she help him out.

Shri Mataji: You can manage it, I'll tell you. He formed a big organization in Scotland. There is a lake called Ronoch lake. And there was a gentleman who was a diamond merchant. You see and his wife was the granddaughter of a duke of England. She always tried, you see, to find all the rich people of the world and he said you start this organization there and it was called as the Academy of Flying. The Academy of Flying. You see they used to pay six thousand pounds to go and do these things. They were, this girl was with him for eighteen years and they married about, I think, twelve years or so. And then this gentleman has been for twelve years. And this lady got a horrible type of epilepsy which I have never seen. For three hours she used to go into that thing and used to shout and neck used to be pulled on and `ahahar' and from the mouth you see all funny types of things used to fall out, she used to vomit, a terrible condition, nobody could control it, nobody could do anything. The daughter also got it, the husband got it, all of them got it and the deputy director who also had

inherited a lot of money from his mother also got it. All of them, four of them got it.

So one of their friends, you see they all started wondering what's happening to this people and they had become bankrupt because the money was not paid to them at all after three four years. They were spending all the money and they said yes we are going to send you accounts and this and that and money was quite finished.

So what happened, some people who knew them, who were under them, who worked under them, I mean, in the sense that they went and so-called they learnt the siddha movements and all that, you see one of them had gone to a barber shop and they are not allowed to read anything you see, it is such a Mafiā stuff. There was one book kept as Yoga Today and an article by David Baxter and he somehow he felt like reading and in that My photograph was there and David had said, “You can put your hands on this and see for yourself if you have got realisation or not." And when he put it, he went into contortions, he had such a fright you see, he closed the book you see and he telephoned. We have a very simple man called Douglas who was on the phone and he said “have you been to TM?" he said, “Yes"; he said “are you boiling?", he said, “I am perspiring"; he said “alright come and see us." So he went there. And I was in the house, you see, eating My food, suddenly a SOS came from the ashram, “Mother somebody has come called David Frawl you see and we just told him your name and he's going into contortions he cannot stop it. Better come here it is just an SOS." I said “let him go into contortions for a while and work it out." Then I gave a bandhan and

all that and then when he went back he saw that it was stopped.

Then this David Frawl you see called these people, they came, they were so frightened of this Maheśh yogi they came to see Me in a very far fetched place, you see, somewhere outside London and there they told Me that this is all that has happened to them and all that. They had no money even to come to that. I brought them in My car, they stayed in My house, imagine, these rich people lost everything and then I cured all of them.

Now they are alright but the husband became such a bankrupt he had to go away to South Africa, his wife was so frightened and all that she is cured now, she is with the yogi there now she is a normal person. Still she gets lots of problems. And then, she told Me that this man had raped her when she was seventeen years of age. This is when she was thirty five this has happened. And she had conceived a child from him and then she had an abortion and since then she is under trance, absolutely under his control even when she came to Me she used to go into trance, “I love him, I love him” this old gentle fellow you see, four feet two inches, I don't know what made her love him. And he is very romantic, all that she used to say all those things really, but what happened before coming to Me she went to News of the world and she had told them that “I want to give this about Maheśh yogi." Everything she told and it was all published, everything was done and then she came to Me. I told her “you should not have told this, this is a stigma for your children” but she said “Mother, I have done it, they'll sue

me for this" and all that, I said alright go ahead. And nobody bothered.

So many people have written about TM but they go to it again and again, I don't know how to bring them round. He is a very powerful force that way because he really somehow or another traps people. And his main organizer, I know him very well he is a very capable man and a big man in the government of India and I know him because after all My husband was also in the government and he told Me that Maheśh yogi says that unless and until you involve them through money, these Americans can never be put round. And to such an extent he thinks that they have a right to extract money from you people.

***Contents: 1983-10-03*, Public Program, Day 1, Vancouver, Canada**

[Introduction by Mr. Graham.]

I bow to all the seekers of Truth. The Seekers of Truth are a special category of people.

[UNCLEAR As] just now Mr. Graham has told you that we have a center within us which is called as Nābhī center or the navel center which gives us the capacity to seek. First we seek in money, power, all ego stuff and then ultimately we find that all these things do not give us the joy that we are trying to find out.

So in al the affluent countries.....

***Contents: 1983-10-04* CBC Radio Interview, Vancouver, Canada**

Presenter: [MISSING] come to Vancouver. But unlike some others this one is not after your money. As a

matter of fact, She brands those Gurus or teachers that are after your money as fakes. Shri Mataji Devī lives in London with Her husband, the United Nations diplomat. As a child in India She knew She was different and Her character trait Mahatma Gandhi also recognized when he asked Her to stay and worked with him. In 1970 Shri Mataji began Her mission in bringing peace and enlightenment to the world's people and She is here in Vancouver, this week.

You don't take money or ask for it?

Shri Mataji: No, no. You can't pay for it. It is God's love. How can you pay? How much do you have to pay for it? Presenter: How do you finance Your projects?

Shri Mataji: You see, I travel by Myself because My husband can afford it. And the people who have their own centers, they manage their own, because they live there. They pay for the rent and they manage their own. I don't take any money from them at all for My own maintenance or anything.

Sometimes they do pay Me for My travels.

Sometimes. Not to Me but to the, I should say, to the travel agent.

Presenter: So they pay Your travelling expenses.

Shri Mataji: Sometimes. Very rarely.

Presenter: Gurus that do ask for money then, You say, are automatically fakes.

Shri Mataji: Of course. They are not Gurus, you see. The, you cannot ask for money from your disciple for God's work. This is God's work and God gives you everything free, doesn't He? You breathe freely, you see freely; all

these capacities are given to you by God, absolutely free. The sun is free to you; the Mother Earth is free to you. How can you pay for it? It's only human beings have created these economic wants and things like that.

Presenter: I called you a Guru. I called you a teacher. What do You call yourself?

Shri Mataji: I'm a Mother, I should say. I'm a Mother like Mother Earth is. I'm here to nourish people, to soothe them, to give them what they have within themselves. I'm not a Guru in the sense that I don't have that strictness of a Guru. I have tremendous patience and love for all those who are seekers.

Presenter: What do you have or who do you have to be, to be a seeker?

Shri Mataji: To be a seeker it's a special category of people, who feel that they haven't got the joy of life. They feel that whatever they have got is in duality, like happiness-unhappiness-sorrow and they have to seek something higher in their awareness by which they will get joy in their life.

Presenter: But what You've just told me is a universal truth. It's like saying, “Nogg is good if you drink. Nogg it is; it's good for you."

Shri Mataji: Yeah, of course, it is all universal. Yeah.

Presenter: We are all seekers.

Shri Mataji: Yes, of course, you are all seekers.

Presenter: We are all trying to find something.

Shri Mataji: Yes, that's true. But some people try to first seek, I mean, in this country people are much more aware, but normally people try to seek in money, in

possessions, in power, in politics. They think by doing that, they'll find joy. But those people [who] have crossed all those things in their previous lives or maybe in this life, turn to something that is beyond all these. They realise that there is no joy in economic wants because economics itself says that wants in general are not satiable.

So there's some sort of a want within us which is genuine, which is pure, which is to be satisfied. Presenter: Do You find a great deal of cynicism in, in people? You are here talking to Me today this afternoon, but here, in North America the, the person that's getting a, a lot of, of news is, is a man named Bhagwan Rajneesh. Have You heard of him?

Shri Mataji: Ha. Very much. I know him well. Presenter: He's taken over a small Oregon town and makes some people, a lot of people very suspicious [in leering] of...

Shri Mataji: Thank God, thank God for that they are suspicious, but it's rather late now. It's very sensible to be suspicious of such people, but I don't know how they never were suspicious before. It's very late.

Presenter: People seem to be searching. They are looking for answers and they are very quick to believe.

Shri Mataji: They are. That's the trouble. They don't use their brains. God has given you brains, you must understand. Also you must verify the people who go to them, what happens to them. They become recluses, they become mentally deranged, they get epilepsies, they get cancers, they get heart attacks.

So many Gurus die of massive heart attacks. You cannot die of massive heart attack if you are a person from

God's own blessing [is]. Very rare, very rarely you hear such a thing.

And the people who go to them do not want to see what their disciples have achieved, if they have achieved mastery over themselves, if they are transformed. Transformation is the whole motivating force in this. If you are not transformed you should not accept such a Guru or anyone. That is something I should say what happens to your intelligence. How do you manage? These Indians won't have them.

So they are all here because Indians are, though not so intellectual, I think they are wiser people. They are more to the ground.

Presenter: Do Your followers, what do they do? Do they worship You or do they follow Your way of life?

Shri Mataji: No, they follow themselves because they awaken their own Kuṇḍalinī and they know how to guide it and how to use it, how to develop and how to grow into it and when they become masters they can give it to others and there are many who are doing like that.

Presenter: I, I ask You that because in one of the press reports that I read about You it's said that Your followers sit in front of a picture of You.

Shri Mataji: Yes, My picture has luckily got vibrations as I have got. It's something a miracle, I should say. There are many pictures quite, quite fantastic for human, human understanding. Like there's one picture you can see maybe here, in Vancouver we have got, in which there was light falling on Me, on My head. Seven times the light came on Me. But the people don't see with naked eyes but the camera caught it. There were lights

of different colours falling on Me in a village where there is no question of any chemic or anything.

Presenter: Why do You think that He has chosen You?

Shri Mataji: That better ask Him.

Presenter: You don't know.

Shri Mataji: I know but I don't want to say. You see, it is not better to say. It's much better these days to be tactful, not to say about yourself, because Christ said what He was and He was crucified. I have to be tactful with people, you see. If I say anything they'll just come on Me and just try to destroy unnecessarily. There are already people come and hit Me with Bible and things like that. Can you believe it? I am doing good to people and here they are.

Presenter: Who is, who is hitting You with Bibles?

Shri Mataji: Oh, all these people.

Presenter: Here, in Vancouver?

Shri Mataji: No, no, not here. Thank God, the people here are much more sensible. But in LA [Los Angeles] some people...

Presenter: In Los Angeles?

Shri Mataji: Mmmmm, they are paid for it, by some organizations who think now they are challenged because I say, “You cannot take money for God's work." That's one of the greatest hit on their stomach, I think.

Presenter: It all comes down to faith, faith in You, faith in God...

Shri Mataji: No, no, no, no, no, not at all. There's no...

Presenter: Faith in... Belief.

Shri Mataji: No, no, not at all. Presenter: Some beliefs of some kind...

Shri Mataji: Those who are atheist also can get realisation. There is Spirit is within you, just like you have got your eyes set inside you. In the same way there is Spirit and there is the Kuṇḍalinī. You don't have to have any faith. There's no need to have faith. Faith on the contrary can be very dangerous.

If you have blind faith, you sometimes start thinking you are Christ. Faith can be very dangerous and you have to have an open mind of a scientist.

Presenter: Thank You for talking with us.

Shri Mataji: Thank you.

Presenter: Thank You.

Shri Mataji Devī will be conducting a public meeting here in Vancouver at Center Robson Square Media Center. It happens tomorrow night, the 5th of October at seven o'clock and if you'd like more information give this number a call: 9225430, 9225430.

Contents: 1983-10-04 **TV Interview with CBC, The Planet, Vancouver, Canada**

Lady Interviewer: [asks Shri Mataji who She is].

Shri Mataji: The comforter and counselor promised by Christ and the manifestation of the Holy Ghost.

Contents: 1983-10-05**, Public Program, Day 2, Robson Square Media Center, Vancouver, Canada**

I bow to all the seekers of Truth.

I knew that in Vancouver there are many real seekers seeking the Truth. But the time is so short and the world is so large, I've been travelling and travelling and I am here only for tomorrow. Doesn't matter whatever might be the span of time, awakening of Kuṇḍalinī just takes split of a second, if you are ready to get it. If there are obstructions, if there are barriers, if there are already preconceptions about things, then your minds sticks [stick] to them and the ascent does not take place.

.....

Contents: 1983-10-06 **Śhrī Gaṇeśha Pūjā (1st Day of Navarātri), Ashram, West Vancouver, Canada**

[All people who attended the last night meeting were invited for the Pūjā and lunch.] Now raise your Kuṇḍalinī. All of you raise your Kuṇḍalinī and tie it up so that it's up there. Just raise it like that. No. This way. This way you should do it. This way. It's good. Once more.

In the West, you have grown very big outside, like a tree has grown very big. But it must find its roots, otherwise the whole tree can fall off, without nutrition.

So you must know the knowledge of the roots.

Without the knowledge of the roots, the tree has no meaning.

So this may be a little new thing for you to understand, but you must know... to know the knowledge of the roots you have to become subtle.

If you are not a subtle personality you cannot enter into your roots and you cannot understand what lies in there.

So, first of all, I said yesterday, you all should get your Realisation and after your Realisation you can understand this better than anything else.

Christ came on this earth, but he was only allowed to preach and talk for three and a half years of his life time. And in tree and a half years is nothing. In that, whatever was possible he said positively, he told about the future, all that was to happen. He didn't talk much about the Holy Ghost. The reason was His Mother was the Holy Ghost at that time and He didn't want to talk about Her because the attention of the people would be on Her and they would have killed Her.

And then he has got eleven destroying powers. And he would have used those eleven destroying powers and everything would have been finished, the whole drama would have been finished.

So He did not mention much about the Holy Ghost and did not *[UNCLEAR* expect/express/explain].

But logically we must understand that we talk of the Father and of the Son but not of the Mother.

How can you have a father and a son and no mother? That's an impossibility.

So, Holy Ghost is the Primordial Mother.

In the sanskrit language if you go, because in the Bible you cannot find everything about Christ, it's very *[UNCLEAR* little/literal], but you have to go back about 1400 years back, back in India people have prophesied about Him, how He will be coming. And about the Primordial Mother who was called as Ādi Shakti who was the Holy Ghost.

All description was given and when Her advent will come what will happen and how to recognize her.

All this is described very well so many years back, even about Christ, quite a lot to described and also we are going to read it out to you, the translation of what is written about Christ and then there is a complete description about His origin, how He came on this earth and what was the purpose of His life.

[Aside:] Ask that gentlemen to come inside. Can you? This gentlemen, come inside. You sit comfortably.

And what was the purpose of His life and how He has to establish in this center here [pointing to the Āgñyā Chakra] and that by establishing there he can suck the ego and superego in you and how He takes you away, or He washes off your Karmas and your conditionings.

All that has been described very well in the Devī Māhātmyam book out of which we are just going to read a little bit to you about the adoration.

So Bible cannot contain Christ, because Christ is Chaitanya, He is Omkāra, He is the Logos as we call Him. He is the Power and you cannot describe Him in one little book, when He was here only for three and a half years and the people who saw him also were his disciples, they did not know much about Him. Until he was resurrected they did not believe Him and even after His death, I mean His resurrection, Matthew and all these people were quite disturbed and upset because you know they were all persecuted and they, somehow or the other, wanted to continue the message of Christ in a very secretive manner.

So today the time has come for you to know about Him, about what He was, in the Heaven and how He came on this Earth. All that we don't have time today but we'll be just telling you about a little passage that is written about him.

So first, He is the one who is innocence, who is an eternal child and He appears first on the first Chakra of Mūlādhāra and there He's called as Śhrī Gaṇeśh. Where the carbon atom was made. Carbon. And that is very important to understand that Gaṇeśha is the symbol of innocence and Mother Earth is the power of that deity, Gaṇeśha.

So it was Gaṇeśha, later on incarnated on this Earth as Christ and He will be incarnated again as eleven Rudras, means Ekādaśhas, or we can call him as Nishkalaṅka deity, when He will just sort out things in a sense that He will just cut the people out who are not realised, who are no good and the rest of them will ascend in the Kingdom of Heaven, this is what is the last Ascent.

Now, for this...

Please sit down, please. Please be seated, give him a chair or something. You have to sit down comfortably. You see, it is a thing that makes... happen something within you, so you have to be very much restful, that's very important. Give him a chair if he cannot sit on the ground. Give him a chair, but be comfortable otherwise it won't work out, you see, it is not something that will go into your mind, it's something that will go to your being, so you have to be very receptive.

Another thing I'll tell you, yesterday also I saw and today also, you should not move your neck by eating

something or chewing something because this Viśhuddhi Chakra gets upset at that time.

So keep still, unless and until you are still it cannot work out.

So please keep still.

So this is the nourishment of the roots of which we are going to work out, which you will feel it, very nicely within yourself.

Contents: 1983-10-10 **Śhrī Gaṇeśha Pūjā for New Sahaja Yogis (5th Day of Navarātri and Canadian Thanksgiving Day), Toronto, ON, Canada**

Shri Mataji: Now Śhrī Gaṇeśha prayer first, just the names, just the prayer will do, just tell them that we have to first establish the innocence and innocence is Śhrī Gaṇeśh who incarnated on the earth as Jesus Christ.

Sahaja Yogi: Perhaps you would like to tell them Mother.

Shri Mataji: āh

Sahaja Yogi: Maybe you would like to tell them.

Shri Mataji: Alright, we do two things today only because there is short of time.

First we have to establish the innocence and to establish the innocence the deity is called as Śhrī Gaṇeśh and you will know about him much more, but you know him as Jesus Christ because he incarnated on this earth as Jesus Christ. Now this prayer that he is going to read to you was written about 14,000 years back and see how detailed it is described about Christ and it is described in a book called Devī Purāna by Mārkandeya and is called as Devī Bhagavat.

So you can see all these things written there.

So to know about Christ we cannot limit ourselves to Bible, because he was such a great personality that you cannot contain him in a little book like Bible you see, so you have to go to other scriptures also and keep your mid open about it, so now he will read it out to you and with that they will wash My feet so this water will be vibrated and this water can be used for purposes like if you want to say use it for your baptism its very good because it works out faster if you put it on your head, on your hands, the vibrations start flowing. See it's a simple method that you get the vibrated water. And then another thing we'll do is to establish the power, the Shakti, what you call the Goddess and for that they will be washing My hands with some things that are prescribed...

[Aside:] He should not be kept on a thing like that, it isn't proper, have you got another yoghurt? Don't use this.

Sahaja Yogi: Get some fresh yoghurt and put it into even a porcelain or something.

Shri Mataji: Not in this, never use in a brass.

So these things are, then the hands are washed and then the hands also have got vibrations so this water can be used for the clearing of the stomach and the stomach centers and all the problems of the stomach. Also if you have been to a wrong Guru or anything, that clears it out. Alright, this is the two things we can do today because there is shortage of time. Then we will do a little fire ceremony in which we will burn off all the problems that are within us by evoking the ascendants, power within us, the powers of ascendants you will know. He'll

translate it to you so you will know in English its not kept in Sanskrit language, so let's wash.

Sahaja Yogi: So we begin with reading its called the Divine Essence of the Prayer. This is the prayer about which Shri Mataji spoke when she was talking about Lord Gaṇeśh.

Let our ears hear that which is true; let our eyes see that which is pure; let our beings praise that which is Divine; and let those who listen hear not my voice but the wisdom of God.

Shri Mataji: Why don't you stand up?

Sahaja Yogi: Let us worship with the same song, the same strength and the same knowledge.

Shri Mataji: Listen with concentration.

Sahaja Yogi: Let our meditation enlighten and enrich. Let there be amongst us compassion and peace.

Now the prayer: Salutation Śhrī Gaṇeśh, sākṣhāt Śhrī Jesus.

Shri Mataji: sākṣhāt meaning in reality.

Sahaja Yogi: sākṣhāt Śhrī Jesus, sākṣhāt Shri Mataji Nirmalā Devī Devyai namo namaḥ..

It is You who is the beginning of all the beginnings.

It is You who is the doer of all deeds which have been done, are being done and will be done.

It is You who supports all things that are supported.

It is You who protects all things that are protected.

It is You who is the complete, all-pervading Spirit, God's Divine energy.

Think clearly brain; speak only the truth.

Let Your presence, awakened in us by Kuṇḍalinī, speak.

Let Your presence, awakened in us by Kuṇḍalinī, listen.

Let Your presence, awakened in us by Kuṇḍalinī, bless.

Shri Mataji: Is a divinity should be awakened so that you listen through your divinity and not through your ego and superego, your conditionings.

Sahaja Yogi: let Your presence, awakened in us by Kuṇḍalinī, protect.

Let Your presence, awakened by Kuṇḍalinī in us, Your disciples, be the disciple.

You are the essence of all the sacred literature and holy words and You are the energy that understands the holy words.

You are the Divine combination of complete truth, complete happiness and complete energy; and You are beyond.

You are all knowledge and You are the use to which the knowledge is put.

You exist until the end of all things and after the end of all things You are.

Shri Mataji: Don't touch the water.

Sahaja Yogi: You create the end of all things and after the end of all things, You remain indifferent.

You are the earth, You are the water, You are the fire, You are the air and You are the space above the air.

Shri Mataji: because he is the essence of everything.

Sahaja Yogi: You are the Guṇas You are beyond the Guṇas.

You are the body and You are beyond the body.

You are the essence of time and You are beyond time.

You and only You exist at the Mūlādhāra Chakra.

You are the Spirit and You are beyond the Spirit; and those who would join God meditate upon You.

You are Brahman, Viṣhṇu and Shiva.

Shri Mataji: The three principles, by one you create then another you sustain and third one you desire, that is Gods desire

Sahaja Yogi: You are Indra, Agni and Vāyu; You are the sun at noon, You are the full moon; through all of these and more, You are the All-pervading Energy of innocence and wisdom.

You are the Divine servant who stoops to wash the feet of saints.

You are the tiny core of all things, without which the larger have no purpose.

You are the key to the libraries of all the scriptures, without which the truth is hidden.

You are the full stop which completes the sentence and without which the sentence loses its meaning.

You are the crescent moon, You are the stars and You are beyond the stars; all things, from tiny dot to universe, is You.

You are the future and beyond the future; You are in all forms; You are where the sounds combine; You are the silence between the sounds; You are the rhythm of all music and all prayers.

This is the knowledge of Nirmal Gaṇeśh and You, Nirmal Gaṇeśh, are the master of that knowledge and all knowledge.

You are the God and You are the Goddess.

Om Gam Nirmal Gaṇapataye.

To Your powers, Gaṇeśha, let all surrender; let the left side of memory and the right side of action surrender to You and let Your enlightenment prevail.

Your first tooth You have and four hands: one holding a rope, the second a goad, the third is raised in blessing and the fourth offers sustenance.

Your banner is that of a humble mouse. You have long ears and are clothed in red; red decorates You and You are worshipped with red flowers.

You have compassion for those who love You and it is for those who love You that You have come to this Earth.

You are the force that creates, the energy that pervades and the Spirit that protects.

Those who seek union with God pray through You; those who seek union with God worship You.

To Your powers, Om Jesus, let all surrender; let the left side of memory and the right side of action surrender to You and let Your enlightenment prevail.

You are the Word that was the beginning; You are the Word that will be the ending.

Shri Mataji: Omega and Alpha, you see Alpha and Omega is written down.

Sahaja Yogi: You are He who was born of a virgin and died on the cross; You are He who absorbs all sins and who died to live again; You are God and man and You are worshipped with red flowers.

You have compassion for those who love You and it is for those who love You that You came to this Earth.

You are the force that creates, the energy that pervades and the Spirit that protects.

Those who seek union with God pray through You; those who seek union with God worship You.

Śhrī Gaṇeśha, salutation to You.

Śhrī Jesus, salutation to You.

He who is the beginning of all worship, salutation to You.

He who destroys all the powers of evil, salutation to You.

sākṣhāt son of Lord Shiva, who is unending blessings, salutations to You. sākṣhāt son of Mary Mātājī.

She emerges for a Divine purpose.

She appears in her great splendor when all the Divine forces are helpless and unable to eradicate wickedness.

Om sākṣhāt Śhrī Akula namaḥ she is one who is beyond Kula, that is measurable dimensionality. She therefore resides in the head in the Sahasrāra.

Om sākṣhāt Śhrī Nitya namaḥ she is eternal.

Om sākṣhāt Śhrī Bhavāṇī namaḥ she is Queen of Bhāva, that is she is Shiva, she is giver of life to the whole universe.

Om sākṣhāt Śhrī Viṣhṇu Granthi Vibhedini namaḥ she cuts the knot of illusion of Śhrī Viṣhṇu. Then the devotees perceive the unreality of this individuality as body, mind and present incarnation. He loses the consciousness of the limited I ness.

Om sākṣhāt Śhrī Bhakti priya namaḥ she is fond of devotees.

Om sākṣhāt Śhrī Bhakti gamya namaḥ she is realised by devotion.

Om sākṣhāt Śhrī Nirlepa namaḥ she is untouched by various Karmas and dualism.

Om sākṣhāt Śhrī Sharma Dayani namaḥ she is the giver of happiness including Divine bliss.

Om sākṣhāt Śhrī Niradhara namaḥ she is unsupported. She is the support of the universe. She is pure consciousness, unformulated and undifferentiated.

Om sākṣhāt Śhrī Niranjana namaḥ she is unstained by any limitations.

Om sākṣhāt Śhrī Mahā Pataka Nashine nano namaḥ She destroys the greatest of sin.

Om sākṣhāt Shri Mataji Nirmalā Devī namo namaḥ - She is pure, unstained.

Om sākṣhāt Śhrī Nirahaṁkāra namo namaḥ, she is without any ego.

Om sākṣhāt Śhrī Nishkalaṅka namo namaḥ - She is hopeless brilliance.

Om sākṣhāt Śhrī Nirākāra namo namaḥ - She is Formless.

Om sākṣhāt Śhrī Nirakula namo namaḥ.

Shri Mataji: Just a minute, is there any unmarried ladies here?

Sahaja Yogi: Unmarried ladies? Come forward.

Om sākṣhāt Śhrī Nirvikara namo namaḥ - She is Changeless and the unchanging basis of all changes.

Om sākṣhāt Śhrī Nirvikara namo namaḥ.

Om sākṣhāt Śhrī Nirgun.

a namo namaḥ - She is attributeless, beyond the three Guṇas and Nāḍī's, Iḍā Piñgalā and Suṣhumnā, she is

consciousness devoid of the qualities and attributes of the mind.

Om sākṣhāt Śhrī Nirupaplava namo namaḥ - She is Indestructible.

Om sākṣhāt Śhrī Nishkala namo namaḥ - She is Indivisible, she is complete.

Om sākṣhāt Śhrī Nishkama namo namaḥ - She has nothing to Desire having everything.

Om sākṣhāt Śhrī Nitya mukta namo namaḥ - She is Ever free and her devotees are ever free.

Om sākṣhāt Śhrī Leelā-vinodini namo namaḥ - She is the one whose sport is the universe, the entire act of creation is her play.

Om sākṣhāt Śhrī Nishraya namo namaḥ.

Shri Mataji: Nirashraya.

Om sākṣhāt Śhrī Nirashraya namo namaḥ - She has no basis and she is everything.

Om sākṣhāt Śhrī Nirantara namo namaḥ.

Om sākṣhāt Śhrī Nishkarana namo namaḥ - She is Causeless, the cause of all causes.

Om sākṣhāt Śhrī Nirupadhi namo namaḥ - She is alone without māyā without illusion which is the basis of all plurality.

Om sākṣhāt Śhrī Nirishwara namo namaḥ - She is Supreme.

Om sākṣhāt Śhrī Niraga namo namaḥ - She is Unattached.

Om sākṣhāt Śhrī Nirmada namo namaḥ - She is Prideless.

Om sākṣhāt Śhrī Nistula namo namaḥ - She is Unequal.

Om sākṣhāt Śhrī Gambhira namo namaḥ - She is she is a bottomless depth in the scriptures, the great mother is visualised as a great and bottomless lake of consciousness, uncomprehended by space and time.

Om sākṣhāt Śhrī Nishchinta namo namaḥ - She is Without any anxiety.

Om sākṣhāt Śhrī Nirmoha namo namaḥ - She is without any illusions such as mistaking the real for the unreal.

Om sākṣhāt Śhrī Nirmama namo namaḥ - She is Without selfishness.

Om sākṣhāt Śhrī Nishpapa namo namaḥ, Nishpapa means ignorance or Avidyā, she is devoid of that.

Om sākṣhāt Śhrī Nisaṁshayā namo namaḥ - She is having no doubts.

Om sākṣhāt Śhrī Nirbhava namo namaḥ - She is Unborn.

Om sākṣhāt Śhrī Nirabadha namo namaḥ - She is Untroubled.

Om sākṣhāt Śhrī Nirvikalpa namo namaḥ - She has no mental activity.

Om sākṣhāt Śhrī Nishparigraha namo namaḥ - She takes nothing since she needs nothing as she is the pūrnakarma or has everything, devotees also become Nishparigraha.

Om sākṣhāt Śhrī Nirnasha namo namaḥ - She is Deathless.

Om sākṣhāt Śhrī Nirapaya namo namaḥ - She is Beyond dangers.

Om sākṣhāt Śhrī Nishkriya namo namaḥ - She is Beyond all actions, not involved in any action.

Om sākṣhāt Śhrī Nilachikura namo namaḥ - She is Dark-haired.

Om sākṣhāt Śhrī Niratyaya namo namaḥ - It is Impossible to cross or transgress her.

Om sākṣhāt Śhrī Mahāmāyā namo namaḥ - She is The supreme creator of illusion and confusion even to the greatest of Gods.

Om sākṣhāt Śhrī Vijaya namo namaḥ - She is the element of success in all actions.

Om sākṣhāt Śhrī Sandra-karuna namo namaḥ - She is Intensely compassionate to her devotees.

Om sākṣhāt Śhrī Mahā Shakti namo namaḥ - She is The Great Power.

Om sākṣhāt Śhrī Bhagavatī namo namaḥ - She is the matrix of the universe, worshipped by all including God's themselves.

Om sākṣhāt Śhrī Sukha-prada namo namaḥ - She is confers happiness or bliss or moksha which is the bliss of liberation.

Om sākṣhāt Śhrī Padm'asana namo namaḥ - She is Seated in the lotuses that is the Chakras.

Om sākṣhāt Śhrī Lokatita namo namaḥ - She transcends all created universes also it means she is seated above the Sahasrāra.

Om sākṣhāt Śhrī Mahā-rati namo namaḥ - She is the greatest bliss that is beyond all sense pleasures.

Om sākṣhāt Śhrī Viṣhwa-rūpa namo namaḥ - The entire universe is her form and also the individual self or viṣhwa is the wakeful state is her form.

Om sākṣhāt Śhrī Raksha-kari namo namaḥ - She is the saviour.

Om sākṣhāt Śhrī Rākshasa-ghni namo namaḥ.

Om sākṣhāt Śhrī Śhrī Rākshasa-ghni namo namaḥ - She is she is The slayer of evil forces who are the demons.

Om sākṣhāt Śhrī ParaShakti namo namaḥ - She is the ultimate power, the energy unmanifested in every particle as well as the primordial vibration is she.

Om sākṣhāt Śhrī Yogada namo namaḥ - She is the one who gives Yoga or union of the individual soul with the Param'ātmā or the cosmic spirit.

Om sākṣhāt Śhrī Puṇya-labhya namo namaḥ.

Shri Mataji: this is the reason why the Indians know, who is the true person you see, what is the quality of a true person, like somebody says is Christ then ask him to walk on the water and you will know whether he is Christ or not. You see if somebody says she is holy ghost ask her to give realisation, all the powers are described so they know, there's no problem with Indians.

Om sākṣhāt Śhrī Puṇya-labhya namo namaḥ - She is attained by the meritorious, the seekers and the ones who have been righteous, she is worshipped as a result of good actions in your previous lives.

Om sākṣhāt Śhrī Sukh'aradhya namo namaḥ - She can be worshipped comfortably by Antar Yoga or inner Yoga without putting the body to any great strain.

Om sākṣhāt Śhrī Achintya-rūpa namo namaḥ - She is inaccessible to thought, since mind the instrument of thought, is her creation.

Om sākṣhāt Śhrī Ekakini namo namaḥ - She is alone, the unity basis of the plurality of this universe.

Om sākṣhāt Śhrī Ādi Shakti namo namaḥ - She is the primal power being the first cause.

Om sākṣhāt Śhrī Guru-murti namo namaḥ - She is of the form of the Guru, every Guru is the Goddess herself.

Om sākṣhāt Śhrī Shobhana-sulabha-gati namo namaḥ - She is the easiest path to Self-realisation.

Om sākṣhāt Śhrī Chandika namo namaḥ - She is angry with evil forces.

Om sākṣhāt Śhrī Trigunātmika namo namaḥ - When she becomes the creation she assumes the form of the three Guṇas or moods, Sattva Guṇa, raja Guṇa, tama Guṇa which correspond in the chart which you have seen to the three channels in the human body which are the channels of the autonomic nervous system.

Om sākṣhāt Śhrī Mahati namo namaḥ - She is the great immeasurable supreme object of attention and worship.

Om sākṣhāt Śhrī Prana-rupini namo namaḥ - She is of the form of the Divine breath of life.

Om sākṣhāt Śhrī Shubha-kari namo namaḥ - She is the benefficent one, the greatest good is the realisation of the ultimate and she grants that to devotees.

Om sākṣhāt Śhrī Sham'atmika namo namaḥ.

a peace is her essence, devotees with their minds at peace are her abode.

Om sākṣhāt Śhrī Sat-chid'ānanda-rupini namo namaḥ.

a sat is absolute truth, chit is the consciousness, Ānanda is the bliss.

Shri Mataji: This is the character, this is the nature of the spirit satchidānand.

Sahaja Yogi: These are the three components as Mother said.

Shri Mataji: The nature.

Sahaja Yogi: The nature of the Sahasrāra the spirit itself, they are therefore her forms.

Om sākṣhāt Śhrī Vira-mātā namo namaḥ - Vira means devotees who are competent and who can lead the battle against the evil forces, she is their mother.

Shri Mataji: Married women.

Sahaja Yogi: Married women step forward.

Om sākṣhāt Śhrī Garvita namo namaḥ - She is proud as the creatrix of this universe.

Om sākṣhāt Śhrī Paramanu namo namaḥ - She is the ultimate atom, too minute to be comprehended.

Om sākṣhāt Śhrī Kshipra-prasadini namo namaḥ - It is she who showers grace on her devotees very quickly.

Om sākṣhāt Śhrī Sadāśhiva namo namaḥ.

Om sākṣhāt Śhrī Viṣhwa-garbha namo namaḥ - She is the sacred spouse of Sadāśhiva and the entire universe is within her as she is the mother of the universe.

Om sākṣhāt Śhrī Svabhava-madhura namo namaḥ - She is natural sweetness or Ānanda, she resides in the.

Shri Mataji: Sarī from India to the, sarī we have? Nice sarī.

Sahaja Yogi: Stand up and open the sarī Om sākṣhāt Śhrī Pushti namo namaḥ - She is nourishment, it is she who nourishes the spirit by Divine vibrations.

Om sākṣhāt Śhrī Dhira-samarchita namo namaḥ - She is Worshipped by the wise and by the brave meaning she cannot be worshipped by the cowardly and the stupid.

Om sākṣhāt Śhrī Nitya-yauvana namo namaḥ - She is Ever young, untouched by time as it is her creation.

Om sākṣhāt Śhrī Viṣhwa-Sākshīni namo namaḥ - She is the silent witness as the action of the universe.

Om sākṣhāt Śhrī Viṣhwa-grasa namo namaḥ - She devours the universe at the time of pralaya, or ultimate dissolution.

Om sākṣhāt Śhrī Sudhā-sṛuti namo namaḥ - She is The ambrosial stream or flow or bliss resulting from the meditation on the great Goddess in the Sahasrāra.

Om sākṣhāt Śhrī Shashwati namo namaḥ - She is Ever-present and continuous.

Om sākṣhāt Śhrī Param'odara namo namaḥ - She is Supreme generosity who readily responds to the prayer of her devotees.

Om sākṣhāt Śhrī Dharm'ādhāra namo namaḥ - Dharma is the code of right conduct handed down by tradition in each age, she is the support of right conduct.

Om sākṣhāt Śhrī Svasthā namo namaḥ - Sva means self, swa means established, she is established in herself; also, she establishes the Self or the spirit in devotees.

Om sākṣhāt Śhrī Pasha-hantri namo namaḥ - She is the one who destroys Herself or bonds and gives liberation or moksha.

Om sākṣhāt Śhrī Pavan'akṛuti namo namaḥ - She is in the sacred form, the purest, which washes away all our sins and all our Karmas.

Om sākṣhāt Śhrī Chandra-nibha namo namaḥ - She is Luminous like the moon.

Om sākṣhāt Śhrī Ravi-prakhya namo namaḥ.

a.

Om sākṣhāt Śhrī Mahā-pujya namo namaḥ - She is eūlgent like the sun.

Om sākṣhāt Śhrī Mahā-pujya namo namaḥ - She is Worshipped by the highest, by the three Gods [the Trimurtis: Śhrī Brahmā, Viṣhṇu and Shiva].

Om sākṣhāt Śhrī Chit-Shakti namo namaḥ - She is the power of consciousness that dispels ignorance and confusion.

Om sākṣhāt Śhrī Lajja namo namaḥ - She is Bashful modesty she resides in all beings as modest chastity.

Om sākṣhāt Śhrī Vimala namo namaḥ - She is clean pure and untouched.

Om sākṣhāt Śhrī Varada namo namaḥ - She is the giver of boons.

Om sākṣhāt Śhrī Mahādevī namo namaḥ.

Shri Mataji: Some Canadian young people can come and give this.

Sahaja Yogi: Young people can come out, all the children or younger people.

Shri Mataji: No not children but young people.

Sahaja Yogi: Teenagers?

Shri Mataji: He has to give Me this mangal sutra.

Om sākṣhāt Śhrī Varada namo namaḥ - She is the one who gives boons.

Om sākṣhāt Śhrī Mahādevī namo namaḥ - She is the greatest of Goddesses or is infinite.

Om sākṣhāt Śhrī Vilasini namo namaḥ - The universe is for Her pleasure or she at Her pleasure either opens or closes the way to Self-realisation.

Om sākṣhāt Śhrī Vandaru-jana-vatsala namo namaḥ - She loves Her devotees as Her children.

Om sākṣhāt Śhrī Sahaja Yoga dāyinī namo namaḥ - She is The one who grants spontaneous Selfrealisation.

Shri Mataji: It's all described.

Sahaja Yogi: This is all written thousands of years ago.

Shri Mataji: See thousands of years ago, now you verify it and there are 1,000 things, now this is only we are doing 108 but there are 1,000 powers which you should know about your mother and once if you know that your mother is so powerful you should have no fear, no scare, nothing and she loves you very much.

Sahaja Yogi: sākṣhāt Shri Mataji Śhrī Nirmalā Devī namo namaḥ.

Shri Mataji: Now some young people can lift this and just give it to Me because today is a thanksgiving day so your giving.

Sahaja Yogi: Any of single ladies who didn't attend Mother's feet.

Shri Mataji: Men, men.

Sahaja Yogi: Men as well? Men and women.

Shri Mataji: Canadian. Remove the water buckets.

Sahaja Yogi: You just all of you have to make an offering and touch it, bring it around and put it at Her feet.

Shri Mataji: Today's your thanksgiving day. Finished with Devī Pūjā. See the swastika became cross at the time of Christ, swastika is symbol of Gaṇeśh but the Hitler used it the other way round, this is for construction and if you use it the other way round it is for destruction, then they got confused, later on and they started using in the right way and thats how they got destruction. They always get confused these people thats the advantage of reality. At all these people get confused they don't know what to do.

Sahaja Yogi: Normally all of these functions are performed by a Pūjāri but today mother is doing it for us. Normally its all done in a very beautiful way.

Shri Mataji: But you will learn it next time then I won't help you. All the Chakras are to be adorned.

We finished with the Devī Pūjā and if you want we can have the Ār.ti now.

Sahaja Yogi: We are going to do what is called Ār.ti now which means we simply sing a very simple.

Shri Mataji: Indian song.

Sahaja Yogi: Indian song which I will just read you the English poem so you know what we are singing, a few of us here who know it will sing, very few of us..

Mother give blessings to all, Mother give blessings to all, Jai Mātājī Nirmalā Devī Mātājī, Always dwell in our hearts, Mother give blessings to all, whenever the world was in danger mother, you always incarnated on this earth in different forms, your grace is all over the world, you are the Ganga which is the river Ganga, you are the Yamuna,

the other great river of India which is symbolic. Mother give blessings to all

Shri Mataji: This is written in India so that's really tells all the names but you can use your rivers *[UNCLEAR]*.

Sahaja Yogi: We can have our own rivers for that matter. Whoever surrenders to you, mother gets complete satisfaction, once you've entered our hearts, don't go away mother, mother give blessings to all, by incarnating in human form you've enlightened our lives, mother, in spite of the illusions of this Kali Yuga or the age of darkness, we have been able to recognize you mother, give blessings to all. The land of all saints is Mother India. As you have incarnated on this land, please take away our sorrows, mother give blessings.

[Singing `Sub ko dua dena' and reciting the Three Great Mantras.]

Sahaja Yogi: We just go down to the earth.

Shri Mataji: Just see if the Cool Breeze is coming, I am going to watch your Kuṇḍalinī, on your back so just bend down, May God Bless You all.

Sahaja Yogi: Can they just take a photograph Mother?

Shri Mataji: Yes.

Sahaja Yogi: Anybody who wants to take the photograph take it, take full length from feet to head.

Shri Mataji: Just of the face also. Thank you very much. What we can is to arrange the havan, there's still time.

Sahaja Yogi: We can put the chair behind havan.

Shri Mataji: So you go and arrange it put some flowers first of all.

Contents: 1983-10-10 **Havan, right after Śhrī Gaṇeśha Pūjā for New Sahaja Yogis (5th Day of Navarātri and Canadian Thanksgiving Day), Toronto, ON, Canada**

Shri Mataji: Let's say Lord's Prayer.

Sahaja Yogi: As we are waiting for the fire to be established let's say the Lord's prayer together.

[Lord's prayer.]

Shri Mataji: What's your name.

Sahaja Yogi: Chandrika.

Shri Mataji: That's My husband's *[UNCLEAR]*.

Who are going to do it, 3-4 persons can come join here.

Sahaja Yogi: Just three persons that haven't participated yet.

Shri Mataji: 4-5 persons can take this in the hand.

Sahaja Yogi: You open your left hand and first take it in your right hand like this place it into your left hand and your going to use it and throw it to the fire, so take it.

Shri Mataji: Keep it in the left hand.

Sahaja Yogi: Put it into the left hand. Now what we are doing here is we are making an offering to the fire. As we are performing this ceremony I'll be reading 108 names of Lord Viṣhṇu.

Shri Mataji: Take it in your hands like this all of you should think that you are also doing it, put it like this and `Om Swāhā', you should put it.

Sahaja Yogi: Around the head and offer it to the fire. Everybody should symbolically do it. Only take few grains of rice.

(the names of Shri Vishnu are taken from the 1000 names)

Om sākṣhāt Śhrī Bhuddi namo namaḥ - He is the source of all splendor.

Shri Mataji: - Om Swāhā.

Sahaja Yogi: Remember these are the names of Lord Viṣhṇu Om Twameva sākṣhāt Śhrī Mahāsiddhi namo namaḥ - Om Swāhā his glory is great.

Om Twameva sākṣhāt Śhrī Pararuddhi namo namaḥ - Om Swāhā his glory is supreme.

Om Twameva sākṣhāt Śhrī Amita-vikrama namo namaḥ - Om Swāhā his powers are immeasurable.

Om Twameva sākṣhāt Śhrī *[UNCLEAR* sahashramudha] namo namaḥ - Om Swāhā he is the one with 1,000 heads.

Om Twameva sākṣhāt Śhrī sahasraksha namo namaḥ - Om Swāhā he is the one with 1,000 eyes.

Om Twameva sākṣhāt Śhrī Ananta-rūpa namo namaḥ - Om Swāhā he is the one whose form is endless.

Om Twameva sākṣhāt Śhrī Anandinidhaha namo namaḥ - Om Swāhā he is without birth or death.

Om Twameva sākṣhāt Śhrī Anadhi namo namaḥ - Om Swāhā he is without beginning.

Om Twameva sākṣhāt Śhrī Ananta namo namaḥ - Om Swāhā he is without end.

Om Twameva sākṣhāt Śhrī Atula namo namaḥ - He is without an equal - Om Swāhā.

Om Twameva sākṣhāt Śhrī Ishana namo namaḥ - He who controls all beings - Om Swāhā.

Om Twameva sākṣhāt Śhrī Bhudamaheshwara namo namaḥ - The great lord of all beings - Om Swāhā.

Om Twameva sākṣhāt Śhrī Shrirha namo namaḥ - He who is always of one nature - Om Swāhā.

Om Twameva sākṣhāt Śhrī Swathum namo namaḥ - He is the one who is firm - Om Swāhā.

Om Twameva sākṣhāt Śhrī Rudra namo namaḥ - He who confers the good or destroys sorrows and it's cause - Om Swāhā.

Om Twameva sākṣhāt Śhrī Yogi namo namaḥ - The one who is realised through Yoga or knowledge or he who is perfect.

Shri Mataji: He is called as Yogeshwara.

Sahaja Yogi: Śhrī Yogeshwara namo namaḥ - - Om Swāhā.

Om Twameva sākṣhāt Śhrī Chamindnavaira namo namaḥ - He is chief among the Yogans who have forbearance - Om Swāhā.

Om Twameva sākṣhāt Śhrī Mahatnama namo namaḥ - He is the greatest ascetic, the great knower - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sada yogi namo namaḥ - He is the eternal yogin - Om Swāhā.

Om Twameva sākṣhāt Śhrī Durgā namo namaḥ - He who is gained with difficulty - Om Swāhā.

Om Twameva sākṣhāt Śhrī Suyaya bhudi namo namaḥ - She is the one who is self born - Om Swāhā.

Om Twameva sākṣhāt Śhrī Mahādeva namo namaḥ - He is the great God - Om Swāhā.

Om Twameva sākṣhāt Śhrī Ughra namo namaḥ - He is the terrible one - Om Swāhā.

Om Twameva sākṣhāt Śhrī Kamaha namo namaḥ - He is the destroyer of desire - Om Swāhā.

Om Twameva sākṣhāt Śhrī Antaka namo namaḥ - He is the death of all beings - Om Swāhā.

Om Twameva sākṣhāt Śhrī *[UNCLEAR* Kranthkrat] namo namaḥ - He is the destroyer of all that is made of the God of death himself - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sarva namo namaḥ - He who destroys all beings at the time of Pralaya - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sheshaya namo namaḥ - He is the lord of all senses Om Swāhā, the supreme self in whose control the senses are.

Om Twameva sākṣhāt Śhrī Yama namo namaḥ - He is the inner controller of all beings - Om Swāhā.

Om Twameva sākṣhāt Śhrī Vasu namo namaḥ - He is the one who exists in all beings without any distinction - Om Swāhā.

Om Twameva sākṣhāt Śhrī Achtuya namo namaḥ - He who is not, is not and will not be shaken from his own glory - Om Swāhā.

Om Twameva sākṣhāt Śhrī Hiranya Garbha namo namaḥ - He is the golden egg where upon all things emanate - Om Swāhā.

Om Twameva sākṣhāt Śhrī Viṣhṇu namo namaḥ - He whose radiance pervades the firmament and transcends it, the all pervading being not conditioned by space, time and things - Om Swāhā.

Om Twameva sākṣhāt Śhrī Purush'ottama namo namaḥ - He is the supreme person - Om Swāhā.

Om Twameva sākṣhāt Śhrī Prajapati namo namaḥ - He is the lord of beings, father of all - Om Swāhā.

Om Twameva sākṣhāt Śhrī Padma-nabha namo namaḥ - He who has the lotus symbolizing the source of the universe in his navel - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sarva-dña *[UNCLEAR]* namo namaḥ - He is Omniscient and eūlgent son - Om Swāhā.

Om Twameva sākṣhāt Śhrī Jyoti Adiata namo namaḥ.a he is the eūlgent being of the disc *[UNCLEAR]* of the sun - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sūrya namo namaḥ - He is the one who generates all things - Om Swāhā.

Om Twameva sākṣhāt Śhrī Savita namo namaḥ - He is the one who brings forth all the worlds - Om Swāhā.

Om Twameva sākṣhāt Śhrī Vasu namo namaḥ - The wind God who is in the interspace - Om Swāhā.

Om Twameva sākṣhāt Śhrī Skanda namo namaḥ - He who flows as nectar, dries up all things as wind and dries up the demons - Om Swāhā.

Om Twameva sākṣhāt Śhrī Adida Deva namo namaḥ - He is all the Gods, the first God - Om Swāhā.

Om Twameva sākṣhāt Śhrī Amara-prabhootana namo namaḥ - He is the lord of the immortals - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sur'ānanda namo namaḥ - He is the delight of the Gods - Om Swāhā.

Om Twameva sākṣhāt Śhrī Deva Guru namo namaḥ - He is the preceptor of the Gods - Om Swāhā.

Om Twameva sākṣhāt Śhrī Manohara namo namaḥ - He is charming, being of infinite bliss - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sumukha namo namaḥ - He has a fine face - Om Swāhā.

Om Twameva sākṣhāt Śhrī Avadhindaksha namo namaḥ - His eyes are like lotuses - Om Swāhā.

Om Twameva sākṣhāt Śhrī *[UNCLEAR* Sugana] namo namaḥ - He has a beautiful voice - Om Swāhā.

Om Twameva sākṣhāt Śhrī Himanga namo namaḥ - His limbs are golden in colour - Om Swāhā.

Om Twameva sākṣhāt Śhrī Katubhuja namo namaḥ - He is endowed with four hands - Om Swāhā.

Om Twameva sākṣhāt Śhrī Sankha Bhruti namo namaḥ - He who holds the shunk or conch in one hand - Om Swāhā.

Om Twameva sākṣhāt Śhrī Kakri namo namaḥ - He who bears the discus in one hand - Om Swāhā.

Om Twameva sākṣhāt Śhrī Gada-dhara namo namaḥ - He who carries the club called Kaumodaki in one hand - Om Swāhā.

Om Twameva sākṣhāt Śhrī Padmi namo namaḥ - He who holds the lotus in one hand - Om Swāhā.

Om Twameva sākṣhāt Śhrī Garuḍa Dwaja namo namaḥ - His flag bears the Garuḍa emblem - Om Swāhā.

Om Twameva sākṣhāt Śhrī Vanamali namo namaḥ - He wears the garland named Vaijayanti which stands for the subtle elements - Om Swāhā.

Om Twameva sākṣhāt Śhrī Bhagwan namo namaḥ - He who has the beatitude, splendor, goodness, fame, auspiciousness, dispassion and freedom, he knows the origin of things and their dissolution, he knows the coming of beings and their going too, he knows knowledge and nescience *[UNCLEAR]* as well - Om Swāhā.

Om Twameva sākṣhāt Śhrī Pati namo namaḥ - He who is Śhrī itself, who chose as her consort when she arose out of the ocean which was being churned for obtaining nectar - Om Swāhā.

Om Twameva sākṣhāt Śhrī Nirvasa namo namaḥ - He in whom Śhrī resides - Om Swāhā.

Shri Mataji: Śhrī Nivasa.

Sahaja Yogi: He is in whom Śhrī abodes.

Om Twameva sākṣhāt Śhrī Vasa namo namaḥ - He is the lord of Śhrī - Om Swāhā.

Om Twameva sākṣhāt Śhrī Katurugia namo namaḥ - He is of the four grouped forms, Vasudeva, Samkarasana, Prajumuna and Anirudha - Om Swāhā.

Om Twameva sākṣhāt Śhrī Vasudeva namo namaḥ - He dwells in and covers all beings, his forts wishes to conquer, operates and shines and produces and moves - Om Swāhā.

Om Twameva sākṣhāt Śhrī Samka Sanochutia namo namaḥ - He withdraws all souls at the time of pralaya and is unswerving - Om Swāhā.

Om Twameva sākṣhāt Śhrī Pradyumna namo namaḥ - He has immense wealth - Om Swāhā.

Om Twameva sākṣhāt Śhrī Anirudha namo namaḥ - He is unobstructed in his manifestations by anyone - Om Swāhā.

Om Twameva sākṣhāt Śhrī Shringi namo namaḥ - The horned fish which was in the waters of the deluge - Om Swāhā.

Om Twameva sākṣhāt Śhrī Mahāvaraha namo namaḥ - He is the great boar incarnation - Om Swāhā.

Om Twameva sākṣhāt Śhrī Vruskapati namo namaḥ - He is the nature of Dharma and the boar itself - Om Swāhā.

Om Twameva sākṣhāt Śhrī Narasimabapu namo namaḥ - The one whose form is partly that of a man and partly that of a lion, he is known as the Narasimha incarnation of Lord Viṣhṇu - Om Swāhā.

Om Twameva sākṣhāt Śhrī Vamana namo namaḥ - Om Swāhā this is the dwarf incarnation who asked for a gift of land from King Bali and checked his pride.

Om Twameva sākṣhāt Śhrī Tri-vikrama namo namaḥ - He who pervaded the three worlds with three steps - Om Swāhā.

Om Twameva sākṣhāt Śhrī Kandatarashuhu namo namaḥ - Parushama the son of Jamagdagani and he is carrying a punishing axe, he is the incarnation of Parusharama - Om Swāhā.

Om Twameva sākṣhāt Śhrī Ramha namo namaḥ - He is the son of Sasarata, he in whom the Yogins find constant delight, the supreme Brahmin of nature of eternal bliss and pure consciousness in whom Yogins revel, this is Śhrī Rāma - Om Swāhā.

Om Twameva sākṣhāt Śhrī Dhavni namo namaḥ - He is the bow man - Om Swāhā.

Om Twameva sākṣhāt Śhrī Maheśhwari namo namaḥ - Om Swāhā he is the one who carried the mighty bow of Lord Rāma.

Om Twameva sākṣhāt Śhrī Samukha namo namaḥ - He is the one who has a beautiful face, whose face remained calm and cheerful even when on the occasion of the

announced coronation as Crown Prince, he banished to the forest for fourteen years as Lord Rāma - Om Swāhā.

Om Twameva sākṣhāt Śhrī Suvraka namo namaḥ - He whose vow is glorious.

Om Twameva sākṣhāt Śhrī Shikandhi namo namaḥ - The one with a peacock feather in his head Om Swāhā, so this is the incarnation of Viṣhṇu as Lord Kṛiṣhṇa - Om Swāhā.

Om Twameva sākṣhāt Śhrī Yadhushrishta namo namaḥ - He is the chief of the Yadus - Om Swāhā.

Om Twameva sākṣhāt Śhrī Kṛiṣhṇa namo namaḥ - He is the one who has dark blue complexion, he it is whose supreme Brahman which is existence, consciousness and bliss - Om Swāhā.

Om Twameva sākṣhāt Śhrī Govinda namo namaḥ - He is the one who has redeemed the earth, the lord over the cows, over the devas, over speech, over the one who is known through the Vedas and the Vedānta - Om Swāhā.

Om Twameva sākṣhāt Śhrī Dharmadhara namo namaḥ - He who as a boy was tied with a cord around his waist by Śhrī Yashodā to trees - Om Swāhā.

Om Twameva sākṣhāt Śhrī Janadana namo namaḥ - He who punishes the wicked, he who is prayed to by men - Om Swāhā.

Om Twameva sākṣhāt Śhrī Trilokatma namo namaḥ - He is the soul of the three worlds - Om Swāhā.

Om Twameva sākṣhāt Śhrī Burbhava namo namaḥ - He is the support of the earth - Om Swāhā.

Om Twameva sākṣhāt Śhrī Bhuddavasa namo namaḥ - He is the bode of all beings - Om Swāhā.

Om Twameva sākṣhāt Śhrī Rutu namo namaḥ - He is the seasons - Om Swāhā.

Om Twameva sākṣhāt Śhrī Mahibarata namo namaḥ - He is the consort of Mother Earth, the lord of the earth - Om Swāhā.

Om Twameva sākṣhāt Śhrī Suma namo namaḥ - He is the Moon God who nourishes the planets or Shiva with Pārvatī - Om Swāhā.

Om Twameva sākṣhāt Śhrī Beshajam namo namaḥ - He is the medicine for all diseases - Om Swāhā.

Om Twameva sākṣhāt Śhrī Bishak namo namaḥ - He is the prescriber of all the medicine - Om Swāhā.

Om Twameva sākṣhāt Śhrī Mahindra namo namaḥ - He is Indra the chief of the Gods - Om Swāhā.

Om Twameva sākṣhāt Śhrī Kala namo namaḥ - He is time that measures all things - Om Swāhā.

Om Twameva sākṣhāt Śhrī Yugaditi namo namaḥ - He who makes the yugas - Om Swāhā.

Om Twameva sākṣhāt Śhrī Yugavarta namo namaḥ - He is the one who makes the yugas turn - Om Swāhā.

Om Twameva sākṣhāt Śhrī Lokadyaksha namo namaḥ - He is the witness of the world - Om Swāhā.

Om Twameva sākṣhāt Śhrī Devaki Nandana namo namaḥ - He is the delight of Devaki who is mother of the luminaries in the universe, the three worlds, the protector of the worlds, the three vedas and the sacred fires which are three, the five oblations and all the devas - Om Swāhā.

Om Twameva sākṣhāt Śhrī Vedhya namo namaḥ - He is the master of knowledge and disciplines - Om Swāhā.

Om Twameva sākṣhāt Śhrī Yagana namo namaḥ - In the form of the yagana sacrifice, he affords joy to all the Gods, he is the one who leads the sacrifices to the fruits of their sacrifices - Om Swāhā.

Om Twameva sākṣhāt Śhrī Stava priya namo namaḥ - Lord Viṣhṇu is the font of the praise chanting - Om Swāhā.

Om Twameva sākṣhāt Śhrī Stuti namo namaḥ - He is the act of chanting which is Lord Viṣhṇu himself - Om Swāhā.

Om Twameva sākṣhāt Śhrī Swasthi namo namaḥ - He is the auspiciousness - Om Swāhā.

Om Twameva sākṣhāt Śhrī Purna namo namaḥ - He is the plentitude of being and value - Om Swāhā.

Om Twameva sākṣhāt Śhrī Mukunda namo namaḥ - He is the one who grants release - Om Swāhā.

Om Twameva sākṣhāt Śhrī Nandi namo namaḥ - He is of the nature of the supreme bliss - Om Swāhā.

Śhrī Mahal Śhrī Lakṣhmīviṣhṇu sākṣhāt Śhrī Ādi Shakti Śhrī Nirmalā Devī namo namaḥ.

All ghee and all samagri has to go in.

Sahaja Yogi: Should we make offerings of the other badhas of Toronto?

Shri Mataji: Just a minute.

Sahaja Yogi: All the bhadhas of Toronto - Om Swāhā.

All the bhadhas of Ontario - Om Swāhā.

Shri Mataji: Of Canada.

Sahaja Yogi: All the bhadhas of Canada - Om Swāhā.

Shri Mataji: All the bhadhas of all the centers.

Sahaja Yogi: All the bhadhas of all the centers of Canada - Om Swāhā.

All the bhadhas of all the centers of the world - Om Swāhā.

Shri Mataji: All the bhadhas of the seekers.

Sahaja Yogi: All the bhadhas in the seekers - Om Swāhā.

Shri Mataji: All the political and economic bhadhas.

Sahaja Yogi: All the political and economic bhadhas - Om Swāhā.

Sahaja Yogi: All the bhadhas which stop us getting to the opportunity of getting our Self-realisation - Om Swāhā.

Shri Mataji: All the bhadhas in Sahaja Yoga.

Sahaja Yogi: All the bhadhas in Sahaja Yoga.

Shri Mataji: Bhadha means obstruction.

Om Swāhā.

All the bhadhas of negative people who oppose Sahaja Yoga - Om Swāhā.

Shri Mataji: All the bhadhas of fake Gurus and cults - Om Swāhā. All the bhadhas which have been left out.

Sahaja Yogi: All the bhadhas which have been left out - Om Swāhā.

Shri Mataji: Any others which you want to say.

Sahaja Yogi: Any others which you want to say.

All the bhadhas of marriages - Om Swāhā.

All the bhadhas of limitations - Om Swāhā.

All the bhadhas of bitterness - Om Swāhā.

All the bhadhas of fear and insecurity - Om Swāhā.

Shri Mataji: Materialism.

Sahaja Yogi: All the bhadhas of materialism - Om Swāhā.

Shri Mataji: In children.

Sahaja Yogi: All the bhadhas in children - Om Swāhā.

All the bhadhas in guilt - Om Swāhā.

All the bhadhas of bad luck - Om Swāhā.

All the bhadhas in Boston - Om Swāhā.

All the bhadhas that keep people from developing their Self-realisation - Om Swāhā.

All the bhadhas of falsehood - Om Swāhā.

Sahaja Yogi: Put your hands to the fire and you will feel the cool vibrations.

Shri Mataji: From the fire that's the best part of it.

Sahaja Yogi: Going to say the mantra which is of the fire itself of Agni Devatā. What we are actually doing is we saying that in worshipping the fire we are worshipping the fire element which of course is contained as all the elements are contained in Shri Mataji and its through the fire that we are able to worship her because she is here in the present right now, so all the things that we worshipped in the past now can be worshipped in her, so if in the past the fire was worshipped, the earth was worshipped, the sun was worshipped, the Lord Jesus Christ, Mohammad, Kṛiṣhṇa, all of these incarnations and all of these aspects of God were worshipped in the past now we have an incarnation here who is all of those things and we can worship all of them through her, so in saying the mantra of the fire element which resides in Shri Mataji Nirmalā Devī we are simply stating a fact which has been established.

Om Twameva sākṣhāt Śhrī Agni Devatā sākṣhāt Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī namo namaḥ. Wwe should do three times.

Om Twameva sākṣhāt Śhrī Agni Devatā sākṣhāt Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī namo namaḥ.

Om Twameva sākṣhāt Śhrī Agni Devatā sākṣhāt Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī namo namaḥ.

Symbolically we offer a piece of fruit now to the fire and that's the completion of the yagñya of the havan.

Shri Mataji: May God Bless you all.

Sahaja Yogi: May we sing your three mantras again now mother or is that the finish?

Shri Mataji: Alright.

Sahaja Yogi: The three great mantras which have been established now during this incarnation of Shri Mataji. We'll sing and you just put your attention on Sahasrāra and feel the vibrations.

Om Twameva sākṣhāt Śhrī Mahālakṣhmī, Mahāsaraswatī, Mahākālī, Trigunātmika, Kuṇḍalinī sākṣhāt Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī namo namaḥ.

Om Twameva sākṣhāt Śhrī Kalki sākṣhāt Śhrī Ādi Shakti Mātājī Śhrī Nirmalā Devī namo namaḥ.

Om Twameva sākṣhāt Śhrī Kalki sākṣhāt Śhrī Sahasrāra Swāminī sākṣhāt Moksha pradāyinī Mātājī, Śhrī Nirmalā Devī namo namaḥ - Śhrī Nirmalā Devī namo namaḥ - Śhrī Nirmalā Devī namo namaḥ - Śhrī Nirmalā Devī namo namaḥ.

Shri Mataji: May God bless you all, may God bless you all, may God bless you all.

***Contents: 1983-10-11*, Public Program (6th Day of Navarātri), Day 1, Boston, MA, U.S.A.**

[UNCLEAR.] [Aside:] If you find anything missing [related to the sound system] you can come back here and see it.

I bow to all the seekers of Truth. And the Truth that we are seeking has to be achieved, understood and felt through a very opened mind. You can not conceive the Truth with your mental activity. And you cannot form your own ideas and convictions about it. Like a scientist you have to keep your mind.....

***Contents: 1983-10-12*, Public Program (7th Day of Navarātri), Day 2, Boston, MA, U.S.A.**

I bow to all the seekers of Truth. Definitely it is evident today that you have come here all the way in the rain to seek the truth, that you are real seekers. And the real seekers will find the real way, whatever they may do, whatever wrong path they may take, they may identify themselves with wrong things also and may oppose in the beginning the truth, but ultimately they will all find the real path as long as they do not try to deceive themselves.

The awakening of the Kuṇḍalinī is not a new thing as you people may be thinking. It has been done since sixteenth century back, when it is said Indra, the God King, was given Realisation.

So you can imagine, that is called as Siddhendra means the Indra first made a hole here and there's a place where it was done in India. It's a very ancient thing and at the time of Rāma also, there was a fellow called

Nachiketa who came to Rāma's father-in-law, Janaka and asked Him if he could get his Self-realisation.

And the father-in-law said that “You can ask anything but not for your Realisation." He said, “No, I don't want anything else but Realisation." And they say that He put him to test, many a times, for years and then he was the first who got Realisation, at the time of Śhrī Rāma.

It is very interesting that how this system of Self-realisation was kept more or less exclusive and rather secretive, because the people would like always to use this method to make some money out of it, that they would not respect the reality and would learn, say about your Chakras, Kuṇḍalinī, this, that, few words and start selling books or posing that they are born again and impressing others with it and try to make some cults or some sort of groups, just forming into some falsehood and that is the reason this was kept quite a secret.

But on the right hand side of the seeking, they tried to find out the ways and methods how to initiate the elements, the casual of elements, first to initiate the causal of the elements by which we could control the elements for our own purpose. This was one way where they called it as the Yagñya and all that and that's how the Vedas were written. Veda means vidd, means to know.

These were written to say that you have to know. And at the very beginning of the Vedas, it is written that after reading this book, throughout, if you have not known the truth, it is of no use to you. The very first stanza says so, so the whole thing was done with that idea and in the ancient country of India they started working on the right

side to know this subtle body or the subtle Deities of all the elements so that they could master the elements, this was first time. On the left hand side, they started another kind of a search in believing that there is God and we have to ask the help of God. And they started praying, first to Primordial Mother, because in every religion there is a place for the Mother, there's no religion which does not believe in the Primordial Mother.

You can say that at the time of Mohammed Sahib, He didn't talk much about it, because the time was such. But His own daughter was an incarnation of the Primordial Mother, whose name was Fātima and the two sons that were born to Her are the sons who came on this earth also as Mahāvīra and Buddha and they were born even earlier. Like that, they were born again and again, as these two elements as the disciples, as two disciples. And you can see if you read their life, their character, their behaviour, you'll be surprised, how these two characters have been born again and again, in different times. To suggest two personalities, of two types, who have been seeking God and who have been trying to understand God through their personality as disciples and how they reached a conclusion after taking a kind of a position in life.

Now for example Buddha preached that there should be complete non-violence and also Mahāvīra said so, there should be non-violence, but they carried it to such an extent that Mahāvīra's disciples started saving the bugs. They would get some bugs from the village, put them in a hut and put a Brahmin inside that, fanaticism at that stage and the bugs would eat, or take out the blood of

that poor Brahmin and when they would be all filled with blood, then they would give money to this Brahmin, such extreme vegetarianism or extreme type of ahinsa! Or another type of Buddha's ahinsa that started that Buddha was not the one who was a vegetarian, because He died, at the end you know that He ate the meat of a boar which was not properly cooked.

So this kind of extreme type of food-oriented religions started out of them, so they got themselves born again, as Hassan and Hussein and [GAP]... righteousness, when it comes to the, not a person who is a religious person, so the idea of all these people was in such a way that the time at that period was such and such and at that period this was the proper thing to be done.

Now we can see the example of Christ is. Christ came at the time where the Son of God had to manifest and He came at a time where He had to forgive and He had to show to people how stupid they were, to crucify, so that they could repent for what stupidity they have done and that's how He came on this earth.

But when He will come again, He's not going to come in that way. The Second Advent of Christ is going to be a very serious one. When He will come, He will have eleven destroying powers. With that He will destroy all that is useless, all that has gone wasted, all those fanatics or whom they call Christ, “Christ, I won't know” He's told that very well. All these things He's going to absolutely finish off. And those who are realised Souls who have entered into the Kingdom of God will be only saved and this is what is described in all the Scriptures, of course somebody calls them, say Islam calls it `Mahdi', in India

He is called as `Kalaki', in the Bible He is called as “the Christ on the white horse." He is called by various names but it is definite that He is going to come and when He comes, then He's not going to bother as to tell you and convince you and to counsel you or to redeem you and give you Realisation.

That time, He's not going to bother about it. He is going to come in pure destructive form, where He will destroy all that is useless and to understand this, if you see the Sistine Chapel of Michelangelo, you can see Him clearly standing, at the Āgñyā Chakra, with a glorious body, throwing people up and down, those who call, “Christ, Christ” He throws them down, because they did not do anything what Christ has asked for.

Now the people should know what we have got out of anything whatsoever. You may be identified with any cult, with any idea, with any group, or anything, but always must know what you have you got out of it. For example, I would say for Christians it is necessary to know that Christ has said a very strong thing, “Thou shalt not have adulterous eyes." Let us find out do we have innocent eyes. If we don't, we are not Christians. How do we have innocent eyes? How do we develop our innocence is the problem. And to develop our innocence we have to awaken the Kuṇḍalinī. When the Kuṇḍalinī is awakened, the first center of innocence is awakened. At that time all the excretion work of the body just stops and this center of Mūlādhāra informs the Kuṇḍalinī that “There is somebody who knows the job and You can rise." Then only the Kuṇḍalinī rises, this center of innocence is first awakened within us, if this center finds

that the person is anti-God, he's anti-Christ, he's a man who is a devil, or any sort of a thing, it just does not allow the Kuṇḍalinī to rise.

I have seen people with absolute frozen Kuṇḍalinī; I have seen people who have nothing to do with Kuṇḍalinī, we can say they are just like devils and they have no way that they can be realised, but ninety-nine percent people in this world are excellent people, good people and out of them I think at least thirty to forty percent people are seeking God. Not all, some are seeking money, some are seeking power and some are seeking some personal indulgences, but there are definitely true seekers on this earth and this thirty percent people, or forty percent people, are the most important people from the God's point of view.

You might be anything. You might be having any organization, you might be having any position in life, you might be any great personality, makes no difference to God. What is important is that: are you seeking? If you're not, the door will be opened has been promised. But if you think you have already achieved it and that you are there, how can it be worked out? So one has to be humble about it and allow the Kuṇḍalinī to rise in Its own glory, giving you your real beauty.

Now the thing we have to know that as the Kuṇḍalinī ascends, we also start getting powers. The first power is that of innocence. Innocence has a power above all other powers. It's the most powerful thing, but in the human beings it takes time for innocence to be awakened in the full way, it takes time. As a child they have the innocence; and in childhood, if they get their awakening

that's the best thing that can happen to human beings that in the childhood only they get their Realisation, but as soon as you start growing your attention starts going either to the left or to the right. You start indulging into all kinds of things as far as your sex is concerned, as far as your seeking is concerned and you then jump on to some sort of a wrong thing which you should not have done. And that's how the first center gets lost.

An innocent person is looked after by angels. Such a person has no fear of anything. He's not bothered, he's never violent, he's never hasty, he's never in a temper. He's so peaceful and he knows that what he is doing is the right thing. Such a person stands by righteousness, like you can see in the life of Christ is a very good example that when Mary Magdalene was stoned by people, He stood up and He said, “Among you who has done no sin can throw the stone at her." Actually Christ had nothing to do with the prostitute. He had no relationship of any kind with her.

She's a prostitute and He's the Son of God, but at that time He did feel that she has a right to exist, because those who are stoning her are the people who have committed also sins. Only she is a person who's exposed and He stood by her and that is what happens to a person who is innocent, he's fearless.

He has no fear of anything, because he knows that he stands on truth and on innocence. Such a person also has a capacity to bear up lots of nonsense. To laugh at lots of tortures and troubles people bestow upon him and the greatest thing of innocence is that it gives you discretion. Such a person is immensely discreet. He's so wise, he

may be a little child, he may be a grown-up person, he may be a villager, he might be educated, he might be uneducated, but he's so wise that he sees what is right and what is righteous. And this is the greatest quality of an innocent person, that he's very discreet about everything.

His discretion is just like a straight forward hit. He doesn't have to think, he doesn't have to bother, whatever he decides is absolute discreet and he doesn't have to have choices. He doesn't go on choosing people, he doesn't go on choosing things. He said, “This is the thing", finished.

So, such a person becomes absolutely dynamic because he doesn't waste any energy, he doesn't waste his brains, he doesn't waste his arguments with anyone. If he thinks the person is worth arguing, he'll argue, otherwise he'll say, “All right, you are clever. Go ahead." This is the understanding of a person who is completely discreet. Like there was a very big joke about it, that there was a man who was going up the stairs and another one was coming downstairs. The one who was going up the road was a wise man and the one who was coming down was not a wise man.

So he tried to be aggressive, so and he told him that “I will not move for you, because I don't move for fools." So the other one moved on one side and he said, “I do." Meaning, “I move out for fools” you see. But he said, “I do." And he moved out, so he has such a discretion, how far to go and how far not to go.

Now, I will give an example how in nature you can find this very easily. See the root has a little root cap, it's a very, very small minute thing. You have to see through

the microscope. Now this root cap is a wise thing. It goes in the soil, it sees there are some stones, so it goes around the stones. Then it finds there are boulders. It goes around the boulders. It has to find its way, does not bother. `You are a boulder? All right, doesn't matter, I am not going to fight with you.' It passes through that, it goes directly to that place where it has to arrive. And when he reaches that place, when he arrives that place, what happens, he finds that he has tied up these boulders around himself to support the whole tree. This is the wisdom of a little bit, small little cell which is the root-end so you can imagine how much there is wisdom in a little cell like that and God has given us such a good brain and if we do not have discretion we are like people who are blind, who walk without knowing where they have to go.

So the first power of your innocence is awakened. Innocent man cannot be harmed. Those who try to harm the innocent man are harmed ultimately. They are very severely harmed and it is amazing sometimes that the harm can be too much, too severe and that's why the compassion of Christ thought of it and He said, “Oh God, please forgive them, for they do not know what they are doing." Because it could have been that with the Father Who is so wrathful, they would have been all destroyed completely.

So the way He said, “Forgive them, because I do not want that these people, who are ignorant people, who have tortured Me like this, should be destroyed." This is the sign of innocence.

Then the second Chakra, when it is awaken within you, you have a special quality of creativity. Because when the second Chakra is awaken, you are actually thoughtless. There's no thought in your mind, so you start looking at anything without thinking. You start looking at anything that is created without any ripple of thought in your mind. Like all that is created round the lake of your mind is completely reflected in that rippleless lake and you see the complete reflection of that creation as well as the joy that is bubbling in that creation.

So your creativity becomes tremendous, you start seeing things but not thinking about it.

Now, see if you come to this hall and you start seeing something, you like it, then you start thinking, “Oh God, this is a beautiful thing, but how much it must have cost and now how old it is? Is it going to last or not? Is it insured or not?" All sorts of funny ideas will come to you and you'll never enjoy watching it. But supposing you have no thought about it, you just watch it, you just see. What happens? The creation that of the artist who has created this beautiful thing, the joy of that creation that the artist had, who might be dead now, you start enjoying that joy. The whole thing can be filled in you with that bubbling joy that he wanted to put there with his own heart. And that's what happens because there is no thought, so the creativity becomes tremendous. But it's not only that the creativity is tremendous, but your techniques even. For example, a musician can become a tremendous musician. People who have never done any work can become extremely powerful.

We have somebody here from India. The other day he was telling people, because he gave one of the lectures, that “I had never seen what is wood is, I did not know what was teak, what was other wood and all that." And he had no job when he came to Me. And he said, “Now, after Realisation what job should I take?" I said, “You take to interior decoration." And he got a shock. He said, “I don't know what to do. How am I to take to interior decoration?" I said, “You can start feeling the vibrations. You just do it on the basis on vibrations." And he did it and he made a big money out of it, because as I told you the other day, whatever is absolutely beautiful you think, has nothing in it but has vibrations. It has the coefficients which gives you vibrations.

Like Mona Lisa now. We like her, Mona Lisa. According to modern standards she cannot be a beauty because she was a very plump lady, an elderly lady. But today also, if you go there, you cannot see her painting. It's so crowded, everybody's anxious to see Mona Lisa. And if you go and feel the vibrations, from distance you'll get vibrations, because the coefficients of her body, face and everything is made so well, that you get the vibrations.

Now people are very anxious to create new ideas, new type of things and this, but these things do not sell and even if they sell temporarily, they have no eternal value.

So the people with this Chakra enlightened, start creating things of very eternal values, of universal values. Anywhere you take such a thing, you'll take it to India, you take it to China, you take it to Japan or you take it to America, anywhere, any human being who sees that,

sees the beauty of the Spirit, because it gives you joy in your Spirit.

So the pure art is produced too. That's the purity, or I would say the holy art is produced too. When you start producing that holy art, then you should believe that you have got an enlightenment on that Chakra.

This Chakra has another capacity: to transform your fat for the use of your brain and it works very hard for that when you start thinking too much. And by that over thinking, what happens? That you develop all the diseases of the organs which it has to look after. Like, it has to look after the liver, it has to look after the pancreas, it has to look after the spleen, it has to look after the parts of the intestine and the uterus.

So what happens that when you use this Chakra only for the use of thinking and thinking and thinking, all these things go out of order. And one by one you start developing diseases like diabetes and then you start developing diseases of the stomach and sometimes this spleen and all other diseases which are very dangerous, as you can call the blood cancer and all those things, out of this kind of mad thinking.

Now to tell you that you shouldn't think too much, you shouldn't bother too much, you should not be wobbly, you should take things easy, be light-hearted, is not possible in the modern times because we are slaves of the watch. But what happens, that when you get Realisation, your thinking process becomes regulated. You only think when you have to think, you just don't go around thinking, thinking, like horns coming out. You don't think like that. You only think when you have to

think. And whatever you think comes from you inspiration as such.

Now for time, you see, My watch is always out of order. I deliberately keep it out of order, because the time is in your hands. Supposing these people will hurry Me up too much, “Mother we have go now, we'll miss the plane, this thing, that thing." I said, “All right, if you say I'll go." I go to the airport and there they find the plane is three hours late. Then they said, “Mother, why didn't you tell us?" I said, “I was telling you, no need to hurry up. Why didn't you telephone and find out? If you had telephoned, we would not have been there early." So you see, you start seeing that this time is best for this, this time is best for that, you don't have to become a slave of the watch. Like this, people become such slaves that they arrive at a point where there can be some sort of a wrong thing happening or maybe that you reach the place and you have to wait for four hours, you have to do all kinds of arrangements to make yourself comfortable.

Or sometimes it so happens that you quarrel with your wife, quarrel with your husband, quarrel with your children, “Oh, we are getting late, we are getting late, we have to be on the time." All this madness comes to people because they have not got their Realisation. Once you get Realisation, you station down, you are very much at ease with yourself. You don't hurry others and you don't trouble others. Like small, small things, how much we trouble by our worries. You see, human beings will go on saying, “I'm worried." But what's the use of worrying? Now if I tell you, `don't worry' you cannot stop it, but once the hole is made here, which we call the

Brahmarandhra is open, then there's a hole out of which the worry comes out and then you just cannot worry. Even if you want to worry, you won't worry; because somehow or other you go beyond that nonsense of worrying.

In any way, mentally I cannot convince you that you don't worry. But once you get Realisation, you'll be amazed, you'll be just enjoying yourself. Even if you are late, you are not going to bother about or trouble about and you'll find that you'll be are always in time for things, because there is a force, this All-pervading Power of God looks after you. You start believing in it, how it works out. You won't believe how much it helps, how much it works out, how it can operate just beyond description. I mean, I'll tell you a story which you won't believe.

[To someone:] Did I tell them yesterday about the boy who fainted?

Sahaja Yogi: I don't think so.

Shri Mataji: No? A story about Myself and then a story about [laughs]. It's in the newspaper, so you can believe it. I was giving a lecture in Bedford and that was from seven to ten and about eight o'clock a boy fell down somewhere, about I don't know ten-fifteen miles from a bridge. Very deep down he fell down from his motorbike and they sent for an ambulance. They were all frightened; they thought this boy must be dead, to fall down to this extent.

So the ambulance came in and when the ambulance came in, this boy just walked up and he came up and he sat in the ambulance.

So they said, “How are you?" He said “I'm all right, nothing wrong with me." So they said, “But nothing happened to you?" He said, “No, I broke lots of things but a Lady came in a white clothes, in a white Mercedes", that's My car, “and She walked down, up to me and She cured me. And only She left the lower portion of my bone and She said that `you come for this to Me' and the rest is I'm perfectly all right, see." They couldn't believe it, you see and the police was there and everybody was there. And the next day he saw My photograph in the newspaper and he informed them, he informed the police, “This is the Lady Who came and cured me." So they telephoned our people and ask them, “Did She pass this way that day?" They said, “That time She was just giving lecture before six hundred people, She was not there." So they were quite amazed, how it has happened, but it can happen, it's nothing new. I mean it has happened many a times. But one of these that has appeared in the newspaper is like that.

Now, how does this happen? God has got wonderful television also, perfect, it's so systematic, it's so scientific, how it works, that for that you have to just see and wonder. He has got telecommunication, He has got computers, He has got everything that you have created, but extremely efficient and methodical.

You don't have to worry. It just works out. There are so many things that have happened, like you have heard that Christ gave bread, five bread and fishes to so many people. It's nothing new to now Sahaja Yogis. They have seen this many a times happening, in our groups and in our camps. But another thing which is not believable but

it has happened to one Mister Warren, Doctor Warren, who is here from Australia.

When he came to India and he got his Realisation and when he went back he said, “I must now start talking about Sahaja Yoga and giving Realisation to people." And when he went back to Australia there was a petrol crisis. And there was no petrol in his car, about to finish, so they thought, “Now, what to do? We'll not have any petrol, how to do Mother's work?" So they said, “Let's try, we'll just go wherever we want, we'll not look at the petrol." And they did this for twenty-one days, continuously and when they went to the petrol pump, after twenty-one days because the petrol pumps had opened out, the petrol pump fellow said that, “There is hardly one liter space there, what am I to fill in?" And they were amazed, they did it twenty-one days. It can happen. You do not know when you say God is Almighty, when we say that He can do whatever He wants to do, He does everything.

When we say that we are not aware that what He can do, we just think that at the most He can make flowers into fruits, at the most He can make our heart beat, at the most He can make us from amoeba to human being. But just think of it, how far He can go and how capable He is and how full of compassion He is for His own creation. Now you have to enter into that area. First of all, unless and until you are there, you are really blessed by God, you cannot believe it how it happens.

Thirdly, in the third center, is the center of your seeking, as he has told you, is the center of your seeking. Now the seeking gets satisfied in the sense that you feel you are

no more to seek, now you have to give. You are asking for the light, you have got the light and you have to give the light, but you do not develop the fanatic attitude that, `I am the right person and you are the wrong person' and that kind of a violent nature, but you develop a very gentle and a kindly and affectionate nature towards that person.

Because you have gone through that kind of an experience, so you know that this person is ignorant.

Gradually when he will see the light, he will understand.

So you don't force your way onto him, at all, on the contrary you allow that person to slowly take to it and awaken his Kuṇḍalinī and see for himself so that he should certify himself. You don't force him to say things, you do not organize him, you do not make him a member, you do not take money from him, nothing. You leave him alone. If he wants to come, he can come. If he does not want to come, he need not come.

In Sahaja Yoga, we have made it compulsory that all the centers we are running, no young boys should come who are below age without the permission of their parents, even to visit, leave alone living there.

So that, that's how we allow only those people who are grown up, adults, to come with their own wishes. They are not to be forced. If they want to go today we'll say, “All right, go just now." There is no compulsion on anyone, because one thing you must know, that you cannot compel as far as your Self-realisation is concerned, because it is of no use. It has to come through your freedom, through your asking, otherwise we

cannot work it out. Unless and until you ask for it, we cannot do it, it is an impossibility.

So you must understand that I cannot force you to get Realisation, it has to work out. If it works out, you are a lucky person. I cannot guarantee it. If it is works out that means it is your own and if it has not worked out and if you want to work it out or anybody to work it out, they'll work it out. But it cannot be guaranteed, it cannot be promised.

So your seeking stops and what happens that you start looking at yourself and seeing your own glory and understanding your own powers.

Get yourself cleaned out and you want to give others that solace that you have got, that Realisation that you have got.

So, I always say that I'm the greatest capitalist, because if I have all the powers I'm the greatest capitalist and I'm the greatest communist because I cannot live without distributing. I must distribute. When we talk of capitalism, what do you have? These stones. What do you have? What do you distribute? The stones? And what are you a communist? What are you distributing? Only stones.

So there is nothing to be proud of these worldly possessions. What you are to be proud of, or to be conscious of is your Spirit. Spirit is the only thing that can kindle another Spirit. I have not seen any matter can kindle that joy in anyone. At the most if you give some matter to somebody, at the most, that is the only advantage of having some material thing is that you can give away. That you can express your love through some

material things, but otherwise the matter has no value of any kind. But Spirit has absolute value, because it can kindle light into another's life and there cannot be anything better than to be given to anyone else. No amount of money, no amount of empires, nothing can give that which is the Spirit, because the Spirit is the ultimate. After that you don't seek any more. That's what is the Kuṇḍalinī is the true desire which wants to become the reality, which wants to become the divinity. To get divinity within you is the highest thing and that's what once you get you don't want anything else, so the seeking starts improving.

Around the seeking are the Ten Commandments you can say, or the ten primordial masters. There are many others, but the primordial masters, the ten, who came on this earth, one after another, to teach us how to balance ourselves. After Realisation I've seen people automatically balanced. I don't tell them anything about Ten Commandments. I don't say `don't,' I never say. I say, “You get your Realisation." Once they get Realisation they just start behaving in such a manner that is extremely righteous, extremely balanced, extremely holy.

Such a person becomes immediately rid of all the horrible habits they have, all the enslavement of passion and lust and greed. Everything drops out just like that and like a beautiful lotus they come out of that Rāmāyaṇa, that darkness, into light. And then in the light they see it so clearly, that this is not the thing that I can have, this is not the thing that I can wear and

immediately they give it up. That's how you become a new personality.

This religion is born within. Now we talk of religion, this religion, that religion, that religion. Everybody is talking of different religions and dogmas and this and that and only fighting everywhere you go. They are fighting among each other, it's still going on. It's endless; they are all fighting morning till evening.

Then I have seen also some people who try to unite religions and there also they have nothing but all the devils put together, all devils joined together to unite. There is nothing of reality in them, so the people are puzzled, “What is happening to religion?" These organized religions also can be very dangerous. They can put you into such norms that they you can really get absolutely brain-washed and you start believing that what you are doing is correct, without understanding why are you doing it. Most of the things they're, “This is a mystery, that is a mystery." Then why, what are you doing there? If it is a mystery, then you better give up, but they'll just brand you that “This is mystery, that is mystery." You have to accept. But what is the advantage of that kind of a life, nobody wants to see.

As I told that Christ has asked for one thing, “Thou shalt not have adulterous eyes” and let us see which religious organization has granted that to people. It's only your Spirit, when It is awakened and reborn, you can have that innocence within you. As it is today, it's getting late, but I have to tell you that the Chakras as he explained, I am just giving you the powers of every Chakra.

And the power of the Chakra of Heart is tremendous, it gives you the fearlessness. When the child is about twelve years of age, in this sternum bone the antibodies are created by this Chakra. And they are sent all over the body to fight the disease or any kind of an attack on the personality. Now, these are actually looked after by the Deity in that center and this Deity, when gets the message, She informs all the antibodies that `You have to fight.' And all of them will go at that point, join together to fight the enemy of life, enemy of God.

Like now we are having, now I'm here and Americans are to be realised and we have to do something about America. Knowing that how America is important, I'll tell you where America is in this body.

People from Australia, from India, from France, from all over, have come down here. All the way they have come, just to give Realisation to Americans, all of them. I never forced anybody, I never asked anybody, they just came forward, “Mother, we are going to go with You and we are going to do this great work of Realisation to people of America who are seekers." They all have come on their own, spending their own money and they are doing this work with Me.

So you can image what a great attraction it must be, what a great attachment it must be, for the seekers of America, that they have come all the way. They are all people on big jobs, one is a doctor, another is an architect, another is this, all of them sacrificing their money, everything, time, have come down here to be with Me for these two months to work for America. From

all over, we have some people who are actresses in the English drama or some are directors and things like that.

They all have come here. In your Boston we have at least, I think, ten people from ten countries, so you can imagine how is the whole attention, the priority. This is the important thing: they must get Realisation. They do not get any money out of it; they do not get any reward out of it, only the satisfaction that so many have got Realisation. The more, the merrier. When they see more people coming getting Realisation, you must see their faces, they lit up. This kind of a personality people have not seen.

I had one Bishop who came to stay with Me in My house in London and when he saw Sahaja Yogis, he said, “This is a rare caste and community. I have never seen such a...

So I've been telling people to do little things in life, they cannot do it and look at these people, how beautiful they are. I can't believe how can they be so nice." Because your Spirit is beautiful, the Spirit is glorious and when you become that, automatically it starts manifesting its beauty. You don't have to tell yourself, you'll be amazed at yourself how you have become so beautiful and so good and so nice.

So this quality of fearlessness comes to you because your antibodies are completely charged with the power of the Spirit and you start understanding what sort of a disease is coming, what sort of a attack is coming and your body knows how to fight it. You know how to fight it and when you know that, you are not afraid of any

disease whatsoever, even it is cancer, anything, people know how to fight it themselves and for others.

Now the higher Chakra is of Viśhuddhi Chakra and this Chakra is what America is. In the Universe this is the Chakra, Viśhuddhi Chakra, is what America represents. Because America has a responsibility, this center has the responsibility. When they raise the head, human beings, then this center developed the responsibility to be human beings. And the responsibility of spirituality lies on the shoulders of America.

You had great people like Abraham Lincoln, very great people here professing about freedom of your country and big ideal things, but to My dismay I find: where are those gone? Where are those people who will take the responsibility of spirituality? They are lost with fake Gurus, they are lost with cults, they are lost with all kinds of things and where are they? It's such a sad thing that the responsibility which was on the shoulders of Americans has been not properly tackled at all. But now the time is, though we start slowly, l us take up the responsibility and see for ourselves, what we can do for our countrymen, for our people and on the whole, for the whole world. You can do a lot, because that is your specialty that is your job, which has to be done.

Now this Chakra gives you the power to be the witness. First power you get that you become the witness, witness of everything. The whole thing becomes like a drama, like you are in the water and then you suddenly come in a boat and you start seeing the play of all these waves. You are no more afraid, you just start seeing it as a drama; you become a witness. The second thing that

happens to you with this, that you become collectively conscious. Your hands, if this Chakra is good, start feeling the Cool Breeze, start feeling the Chakras of yourself and Chakras of other people. With your hands you can cure people, with your hands you can raise the Kuṇḍalinī, with your hands you can give Realisation.

These hands become powerful things. Even the movement of these hands has a meaning; everything has a meaning, whatever it does. Little fingers, they all have a meaning and because they get enlightened.

Mohammed Sahib has said very clearly, “At the time of resurrection your hands will speak." Now if you talk to any Muslims, they will say, “We have never heard of resurrection day." Find in the Koran, if you see, most of it is dealt with the resurrection day and the doomsday is very little. But people will talk about the doomsday because they can frighten others with that and have their own cults and own things. But actually the resurrection day is the most important thing. And for which Mohammed Sahib has clearly said the future. He didn't say that, “I'm the last, now nothing is going to happen." He said, “At the time of resurrection, your hands will speak." And that's exactly what happens, that you start feeling others on your fingertips. You know through your fingertips what centers are catching in another person or in yourself also and immediately you start improving it if you know how to do it.

And that's what you have to learn: is the Divine technique, the True Knowledge, of how to handle this power of Divine Love that is flowing through you.

So this center is very important, I think, for Americans. It has one side by which people are aggressive.

When they talk they're bumptious, they are ego-oriented, they try to suppress others by their speeches and try to dominate others when they talk, these are the right-sided people. The other side are the left-sided people when they feel guilty, they think they have done this wrong and that wrong, they should not have done this wrong.

Actually I've seen that in America most of the people have problems here. Most surprising, they are all the time shaking their neck like this, all the time, in My program also I've seen. They have always a problem here, the thing is that they have a greater responsibility to keep this center the best, by keeping the responsibility of spirituality quite the highest priority, they should have the highest priority. But what you find that all the people are coming from all over the world to help the Americans. And they should come. When the Americans should go all over the world to give Realisation and I'm sure that day will come one day when you will grow up to that sense of responsibility when this center will really stand up, as a spiritual personality.

Now, the higher center is of Āgñyā Chakra which he has told you about, is the center when you get Realisation and when the Kuṇḍalinī rises above that, you become thoughtlessly aware. Now, at this time you'll get the power first of all of curing people. If you touch somebody, he's cured. If you say something, that happens. If you go in the house, something good comes in that house. Auspiciousness starts working through you, when this center is open. But one should not leave at that center,

because if you start moving onto the left, or to the right, you get into problems.

If the center starts moving onto the right, then you start seeing visions, which is a very wrong thing.

You go into the realm of supraconscious or into the collective supraconscious, by you can become a very ego-oriented person, you can be a very violent, hot tempered, quarrelsome person.

Actually, Hitler used this. Hitler used this method from the lamas he learnt and he put people onto the right side of the supra conscious, into collective supra conscious and put the spirits, dead spirits, who were of the people who were extremely ambitious and cruel. That's how this cruelty came into the Germans and they forgot what they were. They forgot they were human beings, the way they killed, the way they behaved. It's impossible for any human being to do that but he managed this and is written down that he got all this from lamas from Tibet. From there he got the knowledge how to put people onto the collective supraconscious.

Now the people who can go to the left side, also start curing people, they start. In such a company you might just get stunned. If you face such a person you might just get stunned. Or you might get a kind of a complete attraction for such a person. You might get completely under the domination of such a person. Yu might surrender completely to such a person and you will not know what you are doing, till that person has completely destroyed you. This type of people have these horrible powers because they enter into the collective

subconscious and when they enter into the collective subconscious, they gather those spirits, which they use.

But the people, who as it is, move to the left side, who cry, weep, emotional, feel guilty all the time, miserable people, they jump onto the left side. Now, all the diseases, practically most of them, like AIDS, like cancer, like mellitus. All these diseases come from the left-sided entry and is accepted by the doctors, because I've seen a very good film made by the doctors who are researching on cancer. That when the body is vulnerable to these diseases, means when you are overexerting yourself, when there is too much of sympathetic activity in a person and when a person is absolutely fagged out with it, at that time, they say, that these diseases are triggered into him, that somebody triggers it. And what is this they call is the protein 52 and protein 58 and all these names they give. Because doctors don't know that they are dead spirits. And these are the things when they enter into you then they trigger it. But they say something very right and that is that these things come from the area built in you since your creation, means your collective subconscious and that I have been saying for so many years. Now recently I saw this film.

So they are coming to the same point, but after such a long time, that it is triggered by that.

So those people who go too much to the left get this trouble. Those who go too much to the right get heart trouble, heart attacks, but not the slow attack, because heart has double type of attacks. It can a be slow heart or it can be a fast heart. The people who go on the right side have everything fast, liver is moving fast, everything

moving fast, it's such a speedy temperament. Because they are so speedy. In the morning they'll get up, “Now I have to go to the office." And they'll be taking the breakfast in one hand, putting one foot in the trousers and another hand into the coat, running to the car and there's another jam coming up and then swearing at everything and it's a mess throughout. And the whole body gets messed up and when the whole body gets messed up, then what happens? That your speedometer, which is the spleen, also goes out of order and you develop a funny type of temperament.

If you say them that “We have to go now to the airport." You see them, they are absolutely gone, they are wobbly, whole machine goes off, you don't know why, if you ask them, “What's the...?" “Oh! I have to go to the airport." So what? Even the name of the airport can put people like that.

So they become absolutely uneasy people and this kind of thing when happens, you see, you are in for trouble, you are very much in for trouble. And this is to be balanced and put right through your Kuṇḍalinī awakening.

Now this center as you know, is the most important center because this is the gate to the Kingdom of God and is governed by our Lord Jesus Christ, Who is the embodiment of innocence. Here He does not incarnate, there He incarnates on this earth. Now, His crucifixion was fixed and He was to be crucified to show that He is eternal life, which does not die. He's Chaitanya; He is made of all these vibrations.

So He could walk on the water also and He could pass through that tight closeness of these two balloon-like structures, ego and super ego and could settle there to establish that center for us, which is called as the Āgñyā Chakra, which controls your ego and super ego, both. But most surprising, the people who are, say, Catholics are the people who use their super ego.

They get conditioned very much, this should not be done, confessions, weeping, crying, unhappy, we have to be miserable... why? Christ has been crucified for us. He has suffered for you, why, if you have accepted Christ, you should be joyous, only to be awakened Christ, so that you get your Realisation, that's all.

What is there to cry? If they are, say Protestants and all that. I took My birth in Protestant religion and many Hindus and Muslims ask Me, “Mother, why did You take Your birth in Protestant religion?" So I said, “They are very sophisticated fanatics, because they rationalise everything. They rationalise God, they rationalise every dogma, everything." There's such a thinking going on there, so it is very difficult to push them back. That God is not thinking, God is beyond, God is beyond your mind. Mind is limited, you have to go beyond that and that's why Christ crossed that limit by His resurrection.

So His message is His resurrection and His resurrection has given us a special quality that once He is awakened within us, both these ego and super ego are sucked in by Him. That means He died for our sins.

So that He sucked our sins, our Karmas, everything, sucked in and this opens out. Once this opens out, the Kuṇḍalinī comes out and this is what He has done such a

great work that He has died for our sins and when He is awakened, both these institutions are sucked in and you become egoless, super egoless, you become deconditioned automatically.

Now this great Incarnation was called as `Mahāviṣhṇu' and is described in the ancient books about fourteen thousand years back by Mārkandeya, but people could not relate it to that, because when Chris tians went from here, they went in a different mode, it was a political stunt. You see, they called it a gun in one hand and a Bible in another hand. Such people could not communicate with other people, who had everything with them and they never read those books to them, it was all prohibited. Bible is too small a book to contain a character like Christ. He was too great a man and we should have gone all out to see what He's described in other scriptures, how He's talked about it, let us find out. We should have been open minded about it. Instead of that people just laughed and mocked at all these old books, the scriptures and they thought they are the wisest.

This is the worst part is that the ego thinks they are the highest, they are the best, they can do what they like and that is how they lived. But thank God now people are realizing that we have missed the point, we have definitely missed the point, so we have to see what He was before He came on this earth, in the heaven. How He was created? How He was Alpha and Omega. What was His own nature, for what purpose He came and why He died, why He was resurrected, why this drama was to be carried out? For this, only three and a half years of Christ

cannot explain and people cannot tell us why all these things happened. We have to keep a very open mind about Christ and we have to see with our own eyes how it works out. In Kuṇḍalinī awakening you'll be surprised, when the Kuṇḍalinī stops here and this Chakra is closed, then you have to say the Lord's prayer, everywhere, whether you are a Jew, you are a Muslim, you are a Hindu or a Christian. From whatever community you become a yogi, you become a realised Soul, you have to say the Lord's Prayer. Because the Kuṇḍalinī won't rise and that is the one of the greatest proof that Christ resides here. If you do not say the Lord's Prayer, it doesn't work out.

So Lord's Prayer is a mantra, is a chanting, but is to be said by a person who is a realised Soul, who is authorized for you. Otherwise it is called as anadhikar cheshta [unauthorized effort]. Means, the person who has no right is trying to do something, is doing a wrong thing.

So those who are realised Souls, when they say this mantra, then this center is opened up, Christ is awakened and you are allowed to see, allow your Kuṇḍalinī to pass through it and enter into the realm of this limbic area, where is one thousand petaled Lotus remains.

Now this petal then opens up, because of the pressure being reduced of the ego and super ego and they are in different beautiful coloured flames. The outside starts with a just like from VIBGYOR [acronym for the colours of a rainbow: violet, indigo, blue, gold, yellow, orange and red] if you take it from VIBGYOR in the same way they start. But very slowly moving and the end ones are like crystal, crystal. Absolutely like crystal they're shinning

and when the Kuṇḍalinī comes out of it you see the whole thing opened out, the whole Chakra opens out. This is a very important center which has to be opened out because here all the seven centers are there.

For example, we have got here at the back, if you start here, from here if you start is the Mūlādhāra and then around it is the Swādhiṣhṭhāna and here is the Nābhī and then it is the Heart, see now. This is the hole which has to open and this is the Heart and if there's a dirty Heart, if there is a closed Heart, if it is a tired Heart, if there is a sick Heart, then this doesn't open.

So in the Heart resides the Spirit and that's why this is the seat of the Spirit, but it resides in the Heart.

So when this opens out, this flower-like Lotus opens out, then the Kuṇḍalinī rises in Her own glory and you get your Realisation, as you got it.

Now as I told you, it is the beginning. In the Bible it is said, “I will appear before you like tongues of flames” and you can see It. I see it every day, the beautiful tongues of flames, but you can't see It because you are in It. Whatever you see you are not, so you have to first become. Once you become and you grow into that, then you can also start seeing, but just now you have to become. Supposing you see the light, means you are not the light. If you see anything, you are not that.

So the question is of becoming, of actualizing and growing into it and knowing about everything that you do, everything should be knowledgeable and should be understood, should be logical.

I hope it works out in this place. I've told you all about Chakras. Tomorrow what to do after Selfrealisation I'll tell

you and luckily you have got it. And we have decided to have one more program.

Tomorrow I hope it will be nice tomorrow and it won't rain so much.

So call all your friends. I will tell you what's to be done after Realisation, what is the situation.

So, may God bless you.

Thank you.

Contents: 1983-10-13 **Musical Evening (8th Day of Navarātri), Living Room, Ashram, Boston, MA, U.S.A. (date not sure)**

[About eleven Sahaja Yogis with Shri Mataji.] Let us have some nice music.

[The tape of a jazz artist who Kristine Kirby thought might be a realised doesn't start. Finally the tape with flute music by Vijay Raghav Rao starts.] Ah yes! This is beautiful music. This is wonderful music.

[Sahaja Yogis sit in a semicircle around Her.] Whatever is happening in the atmosphere, whatever is happening in the universe is reflected in My body. And even the rhythm of this is happening in My body.

[Shri Mataji asks Kristine to put her left hand under Her Foot and a very complicated rhythm pulsates on the sole of Her Foot that corresponds to the rhythm of the tabla that was playing with the flute music.] Now everybody can feel it.

See, feel the vibrations flow around the circle [We could feel the vibrations flow around the circle and there was a pregnant lady and she could feel the baby dancing to the

rhythm.] [Shri Mataji asks Sahaja Yogis to link hands in such a fashion so that Kristine's right hand is into the left hand of the person sitting next to her, whose hand is facing up and then they take their right hand and put it into the left hand of the person next to them. In this way, in this semicircle, the linked hands stay for five minutes and feel the rhythm of the music.]

Contents: **1983-10-1x Shopping, Bloomingdales, Chestnut Hill (10 kms W of Boston), MA, U.S.A.**

[Shri Mataji is particularly interested in freshwater pearls and home goods and cutlery. Seiji Ozawa, the director of the Boston Symphony Orchestra, passes by.] Kristine Kirby [recognized him]: Shri Mataji, that is the conductor of the Boston Symphony Orchestra.

Shri Mataji: I think that one is a realised Soul. He must be a realised Soul, born realised.

Kristne Kirby: Really, Shri Mataji?

Shri Mataji: Yes, because his pupils dilated when he saw Me, when he walked past.

Contents: 1983-10-15 **Lunch, before Navarātri Pūjā (10th Day), Ashram, Boston, MA, U.S.A.**

[Everyone attending the last night, Public Program was invited for both Lunch and Pūjā.] [Mary Heaton struggles with some onions and Shri Mataji comes into the kitchen.] Are you chopping the onions? Let Me show you. [Shri Mataji takes the blunt knife from Mary and slices half onion in the thinnest and most delicate little slices Mary had ever seen, in two seconds and then She gives back the knife and the other half of the onion].

You cut them like you like to cut them because that's good, too.

***Contents: 1983-10-19*, Public Program, Day 2, The Community Church, 40 East and 35th Street, Manhattan, New York, USA**

[Mr. Modi's talk:]……

Sahaja Yoga teaches you how you can enjoy the peace and the bliss...

[Shri Mataji talks:] To all the seekers of Truth I bow. People are seeking today everywhere. The seeking is there.

Sort of an up-search of seeking. People are talking about seeking, they are writing about seeking……

***Contents: 1983-10-20*, Public Program, Day 3, The Community Church, 40 East and 35th Street, Manhattan, New York, USA**

[Introduction by Warren.]

I bow to all the seekers of Truth.

As Warren has told you that the Blossom Time has come. You could never have found so many seekers on this Earth say even before fifty years. Suddenly so many seekers have been born who are seeking something beyond. They are not satisfied with rationality, with materialism, with all the ideologies given by the people who talk that we should be satisfied with ourselves as far as matter goes or as far as mental projection is concern. They want to know that there must be something beyond……

Contents: 1983-10-22 **Talk to Sahaja Yogis, Seminar, Day 1, Deer Park Farm, Up-state NY, NY, U.S.A.**

Shri Mataji: You must put some heated butter in the nose, all of you.

Sahaja Yogi: Inside?

Shri Mataji: Inside, with a dropper, alright? Heat butter and fill it up. And then, when it is slightly warm, not very warm, absolutely slightly warm, then put it in your nose, very important, because the, I don't know in this country, people, it's a very simple thing to be done once in a while, about say two or three days later or even every day you do, doesn't matter. It's like putting cream on your hands, you see, because the cold weather also chaps inside the lining of the nose. And when you put this, it makes the nose smooth and you don't get troubles of it. It's very simple. All of you should do, all the Sahaja Yogis are supposed to do.

There are so many things that a Sahaja Yogi is supposed to do, one of them is this, that try to keep you Haṁsa Chakra alright.

By keeping your nose alright you are keeping your Haṁsa Chakra better.

So better use this simple method of heating some ghee, we call it. You see, you can prepare it, heat the butter, keep it in a bottle with a dropper and heat it the hot water and then put it in the nose, just like that, in the night, before sleeping.

Even in the ears, you must put olive oil, it's very important. For the teeth also, you must take some salt,

put some olive oil and rub your gums. With that, you won't have to go to the dentist anymore.

Sahaja Yogi: Hum.

Shri Mataji: That's the best, I've never been to a dentist all My life and I don't want you to go to the dentist anymore.

So that's a very good way of rubbing your gums with vibrated salt and what you call the olive oil. Also you must oil your heads, every Saturday, with so much of oil, nicely, oil it and massage your head and sleep off and next day wash up your hair. You'll feel very much better. If any of you cannot give olive oil the best is almond oil for the head.

You'll keep very peaceful. Specially your children, you must massage them till they're five years of age, every night, when they go out to sleep in the night, nicely very, before sleeping. And then put some powder, clean it out, let them sleep. Then the children won't be running and upset and all that. They'll become very quiet children, well behave children. Because you people don't massage the children, all their lives they are jumping. All their lives they are slightly violent, you see, the nose must be smooth out. It's a very simple method and as you are realised people you'll *[UNCLEAR]* them much more... All these *[UNCLEAR]* must be taken care of, you see.

Now if you have too much of cold, if you have too much of cold, then you can mix up with a bit of camphor, with oil and put that the nose, little actually, not much, that also is very good, that also smooth your cold and puts you right. This country has one big problem with Viśhuddhi Chakra every where, because of the cold.

And in Sahaja Yoga, it is compulsory that you must wear an undershirt. It is compulsory. Whatever may be, it is hot, cold, in India when it's steaming hot, you must wear an undershirt, because, when it is very hot you start perspiring and that perspiration causes problems.

So, always wear an undershirt, whether you are in a hot season or in a cold season. That's a compulsion for Sahaja Yogis, that they must wear. And for all of them, also is compulsory that they should always wear a muffer when they go out in the winter time this is an important thing. And also put some this, cotton woods, in the ears as I put it. For your sake I've to you put it cause you are careless, so I look after you but putting it to My ears like this. You all should put it before going out.

And keep your head covered in the night. When you sleep, cover your head with something and then sleep. Because most of the time, your body is all covered, but the head is not covered. Because now you are realised Souls and your Sahasrāra is free *[UNCLEAR]*, so you must look after your Sahasrāra. Cover your head so that you won't have any problem.

Also you must verify what sort of a person you are. If you have a liver problem, you must get a diet for that, which is here, people will tell you. If you are left-sided person, if you have left-sided problems, then you must know about the diet that you have to take. For example, a person who is a left-sided should not take carbohydrates at all, on the contrary should eat proteins, in whatever form it is possible. In Sahaja Yoga you know we don't believe in materialism *[UNCLEAR]* or anything, but we do believe that the muscles of bigger animals than us, are not good for

our teeth, or for our body also because the structure of a muscular cell of a bigger animal is much bigger than ours. And that's how they heat up [the liver] I mean even by mistake if I eat some beef, or anybody ask Me the other day *[UNCLEAR]* so that's why it happens it done automatically I think.

And we are not supposed to use plastics in our clothes, also try to avoid.

Some person can use plastic *[UNCLEAR]* but not all the time plastics and nylons. And also food should not be eaten in plastic.

You can eat it in paper, paper is alright because it is, what you call, it's wood *[UNCLEAR]*. But you shouldn't eat in plastic food with fourth and spoon of plastic and it's too much plastic in this country, be careful because plastic is anti-God. It is anti-human life, it is anti-biological processes, so avoid plastic as far as possible, be careful on that. Also don't use, I mean, something out of absolute plastic like, I've seen I wanted to buy one pair of slippers for Myself, I couldn't get one in the all of New York. Because I didn't want a plastic. And if you wear that then you develop all kinds of skin problems and diseases so be careful on that. There are so many other things we have to be careful about. And because we have found out that these things are harmful, that's why we have made it compulsory that every one of you must be careful. Because now you have become the temple of God and the temple of God should be healthy. We don't want tubercular patients to go around as saints nobody is going to believe.

Sahaja Yogi: you just tell them about sugar.

Shri Mataji: Ah. Now there is another falsehood about, that now is now broken: the sugar is against our growth and all that. Sugar is very important for attention, specially people who suffer from liver. For example, people who are thin, mostly, suffer from liver problem. For them, sugar is so important, that if they don't take sugar, they'll become like the sugar cane which is, comes out of the machine, pressing machine [laughs], they'd better take some sugar.

Sugar is very important for your liver! Best carbohydrate is the white sugar, not the red sugar; red sugar is not good because it has got molasses, it's very heating.

Some people have funny ideas here, also about food. Like, some of them believe, that if you eat natural food, once I got something from natural store and I got diarrhea for five days! Because it was meant for animals not for human beings. [Laughs.] Like some people eat, what you say [Hindi] cotton seed. Now cotton seeds we give only to animals. I can't believe it. But I've seen in Switzerland, they give cotton seed in the bread. There was cotton seeds in the bread, one or two is alright, but imagine [Hindi.] [Laughter.] I mean it has to be given to buffalos only [laughs] and that was given in *[UNCLEAR* new...]. You see, these are very strong things. In the same way, very strong food is also not good, we have to be in the center in everything. Don't eat very raw food you see like some of the bread in France, even in England we find, called complete, so that kind of a crispy stuff is not needed. It should be such that your gums are looked after, there are delicate things and have food which is good for you. Don't go with rationality, don't go

with the fashion, but whatever is good for you that should be done. And you find out about yourself, what is your temperament, what sort of food will suit you and accordingly you should eat.

Of course, every body is free to do what they like but we can only advise them that this will suit you and you find out it will be very useful to all of you, it will help you.

For your hair, also you should get vibrated oil and use it. Now, you'll be surprised that day, somebody saw Warren and he said: he is the same fellow? He looks much younger.

So I said yes, he had a bald head from here to here like that and now he has grown hair. With proper care, you can have you hair quite intact, for quite some time. You should look after your hair.

But hair is very important is not so with the look, but the Sahasrāra. And if you put oil in your Sahasrāra every week, you will have a smooth personality, a smooth behaviour, a smooth movement, you'll deal with other people in a gentle manner.

So this is very necessary.

In India we actually have a big masseur attached to a family, you see, he's a very hefty fellow and he comes to masseur [massage] the men, you see and he just sits on their body and really finishes them off completely! [Laughs.] At the first shot, they're dead. Then he uses their body fully and pushes them, *[UNCLEAR* them] rub them. One clap, you see, five six of them will be jumping on five, six people, with clap, they go round.

By the time the second clap comes in, the person is finished. [Laughs.] That's how, that's how they manage.

But there is no importance on massaging here, you see. And don't ask a non Sahaja Yogi to massage you, never, don't allow anybody to touch you that way because, you see, these people carry all bad vibrations and you may suffer. You must allow only the realised Souls to massage you, if possible, or you yourself should massage yourself. But don't go to these masseurs or same people who are massaging all kind of people and they might be giving you some troubles.

So one has to be very careful about certain things and certain personal habits also which we have discussed. And you can ask Warren, he'll tell you about it, which are very important for Mūlādhāra and all those things, which must be followed, whether you are in England, America, anywhere. These must be followed to keep yourself clean outside and inside.

Now if you have any question.

Sahaja Yogi: I was only wondering about...

Shri Mataji: Right?

Sahaja Yogi:... about the kind of techniques that we should use when massaging the children. But I guess we can talk about that another time.

Shri Mataji: I mean anyway you use is alright but always *[UNCLEAR* to put] it upwards, you see, the movement should be upwards, but use oil otherwise you pull up, you pull up their hair.

So use oil to put it upwards.

Sahaja Yogi: and don't forget the Sahasrāra.

Shri Mataji: Sahasrāra, don't forget. Sahasrāra you must put lot of oil on children.

Sahaja Yogi: Mother we're gone need more hairdressers, people who can cut hair, who are realised Souls, `cause they are touching our Sahasrāra.

Shri Mataji: Yes. Otherwise you can grow *[UNCLEAR]*.

Sahaja Yogi: We can grow our hair Mother?

Shri Mataji: Yes here, up to here [below the ears] you can grow and turn them round. [Laughs.] [Sahaja Yogis speaking at the same time.]

Shri Mataji: You see, you'll look like a philosopher, quite impressive. [Laughs.]

Shri Mataji: But you should not be a funny looking person. [Laughs.] [Sahaja Yogis speaking at the same time.] That's very important you see. You have to... not to adopt some funny methods you see, like people have. Specially now there is a fashion, is to disable your hair and keep them absolutely disabled, there's no need.

Sahaja Yogi:... The hair must be up there... the forehead.

Shri Mataji: It should be keep back over the forehead, don't cover your forehead or your eyes, never.

Sahaja Yogis [speaking at the same time]: Āgñyā Chakra.

Shri Mataji: Āgñyā Chakra. You must keep it open, you see, always open. You must have a center path if possible, but keep the forehead open, this is important. You keep the forehead open, it's very good for others you see and don't cover your eyes with any hair. Many people have a habit of allowing the hair to come in the eyes and you'll have *[UNCLEAR* pills]. Children also, never allow hair to come on their eyes.

Then we have something for the eyes also, what you call nitranjan, I don't have now anything, but it's a very good, simple thing, cots you nothing about. [Aside.] Alright, they have some, they'll give you, which is to be applied first very carefully. [Laughs.] Because if you are not used to it, it will a little bit burn and the tears will start coming out of your eyes, it will clear your eyes. And you'll be surprised, with that, if you use it, you don't develop these bags [under the eyes] and things like that. And the water flows out. It's a very simple thing.

And for soap also, try to use natural soaps, better use, because here the soaps are such that I don't know what to say.

Sahaja Yogi: *[UNCLEAR* palmolive/paramolove]. Mother I think here you said we can get here.

Shri Mataji: Yes that is good, *[UNCLEAR* palmolive/paramolove] is good. It's very good.

[GAP]

Shri Mataji: what to do is to take a little oil and heat with some clove, Cloves.

Sahaja Yogi: cloves or cloves?

Shri Mataji: cloves. And let the oil a little bit cool down, when it is quite cooled down, nor burning out at all, but just warm, you can feel it [shows Her hand], then put it in the ears.

Sahaja Yogini: Olive oil is better?

Shri Mataji: Olive oil is alright.

[GAP]

Sahaja Yogi: Mother can you explain the techniques of vibrated sugar and vibrated salt, by giving vibrations...

Shri Mataji: You see, because God has given you vibrations, the power is flowing through you now, the vibrations are there.

So whatever you get from outside is touched by so many people, so many people have created it and they have got a good mind or may be something's wrong with them, best thing is to give them a bandhan [turns Her hand tree times], before eating, any food you eat you must give it a bandhan like this three times, so your vibrations flow into the food and you get it sanctified. Or else, you can also use your hands for eating if you have washed your hands, then it's alright. Or else, if you are taking the water, you can just put your hands there, it's vibrated, then drink it. Because, the thing is, the vibrations have started flowing through your hands, but still are not spread to your body fully. See My point?

Contents: 1983-10-23 **Talk to Sahaja Yogis, Seminar, Day 2, Session 1, Deer Park Farm, Up-state NY, NY, U.S.A.**

... That's a good idea. But you should have some company.....

Contents: 1983-10-23 **Talk to Sahaja Yogis, Seminar, Day 2, Session 2 (Farewell Talk), Deer Park Farm, Up-state NY, NY, U.S.A.**

So I have attended to some people individually but not to all and I would like to attend to some of them later on once we have...

Please be seated.

Hello. I didn't see you last night. Ha.

So now the time has come for us to say goodbye to all of you and you have to realise how important it is for us to get Sahaja Yoga settled in America. And that is is why from everywhere people have arrived to work it out. Now the Americans have to realise the responsibility.

I think they have a problem like this. If they have not been to any Guru, *[UNCLEAR* they've nor] been anywhere.....

Contents: 1983-10-23 **Quote, Seminar, Day 2, Deer Park Farm, Upstate NY, NY, U.S.A.**

I faced many people who came to listen to My lectures and that's all. They would not take realisation and some of them who did, got lost.

Somehow this was such a funny story for Me that I am giving them realisation, I am taking no money for it and I travel at My own expense. I was thinking how these people who were lost here and there under some sort of seeking, how will I be able to give them Self-realisation.

[Suddenly Shri Mataji turns sharply towards the clouded sky:] Lord Kṛiṣhṇa must stop playing His games! [The rain stops.]

Contents: 1983-11-00 **Two Quotes, 48 Brompton Square, Knightsbridge, London, UK (month not sure)**

You see the glass from one side and I see it from the other [referring to reality].

[In Her bedroom to the Sahaja Yoginis:] You must keep saying to yourself, `I am the Spirit, I am the Spirit,'

whereas I have to keep saying to Myself, “I am a human being, I am a human being."

Contents: 1983-11-00 **Furniture Story, Brompton Square, London, UK (month not sure)**

[To six young Sahaja Yogis:] The vibrations in this room are not alright, let us turn them around.

[Shri Mataji asks them to move furniture in all directions.] No, it's not working [keeps saying].

[Sahaja Yogis are still rather serious and worried that they might have to make a few extra changes to the room before the vibrations would lift up. Shri Mataji suggests we bring in additional furniture from the upstairs rooms. This is turning into a serious hard work and they start to feel a bit tired and worried, but acceded. Nothing works, the furniture is too big to fit in and has to be taken back upstairs and still the vibrations are not alright according to Shri Mataji.] [They all feel responsible for fixing this and jump out of their inertia and start grabbing whatever furniture they feel might be the right size and colour from the adjacent rooms. Then they realise how much energy they have if only they put their hearts into solving this problem. But the vibrations are still not right! They are on the verge of bursting into arguments and are all full of intelligent suggestions, offering them to Shri Mataji, but nothing works. At one point they all fell to the ground having a good laugh and after a few more attempts Shri Mataji takes charge:] Just put this one here and push that one a little bit there.

[Lo and behold everything falls into place and it is incredibly beautiful and different from anything they had

ever seen. Now they are elated and sit down again in front of Shri Mataji's seat expecting Her usual address and comforting words. They are all rather red and sweaty, yet feeling very happy that they have earned the right to sit down.] Sometimes it is alright to experiment a little bit, isn't it? Can someone please open this window for Me? [One of out of six stands up and does so.] Truly you should all have got up at the same time to open the window.

[Then they realise that they are still not quite yet there as a group, though they made some progress from sheer lethargy into action. Deep meditation follows.]

Contents: 1983-11-00 **Quote, 48 Brompton Square, Knightsbridge, London, UK (month not sure)**

Luis Garrido: Shri Mataji, this place is looking more beautiful every day!

Shri Mataji: What I enjoy most is seeing, for instance how this lady is looking so well now that her vibrations have improved. It's one thing to make a place look nice, but to redecorate human beings is only possible if they cooperate. I cannot do it against their will. What pleases Me most is seeing people who at one time were not well and now are progressing well and I never forget how much they have changed.

Contents: 1983-11-01**, Public Program, What Is the Purpose of Our Life, Hampstead Town Hall, London, UK**

I bow to all the seekers of Truth.

As doctor Reeves has told you, you have to become something. What do we have to become? We are born as human beings and we take it for granted that we are human beings. [Smiles.] We have to ask a question to ourselves: why are we human beings? What is the purpose of our life. Is it that the whole evolution is purposeless, that there is no Divine play in it? And why it was done with such care and why we have become human beings? So first, we have to come to right conclusions, that is the counseling you can call it, we have come, we have to understand, that we have not become what we are supposed to be. That's why we are in confusion. We do not have answers for these fundamental questions.

Some believe in God, some don't believe in God.

Some believe in Christ, some believe in Mohammed.

Some believe in Kṛiṣhṇa, some say that it's all science. We are so confused and there is no answer to it. The reason is we are not that what we have to be.

Supposing an instrument is given to you and you don't know anything about that. Then you don't know what is the purpose of that instrument and for which it was created and to what use it has to be put. Thus, there's a confusion and the confusion is to such an extent, that in that confusion we have formed, from ideas, mental projections, artificial, without any biological basis for it. There is no biological basis for our mental projections. Just sit down here and think now, that see, this kind of a government if you make, then people will be alright. This is your own mental projection. It has nothing living behind it; it's all dead thought. By changing the

governments, have you been able to transform the people? I have been to Russia, I have been to China, I have been to America, to all these places. Human beings are just the same; there is no difference whatsoever. Maybe some are more honest, some are more dishonest, some are more immoral, some are less immoral, but, on the balance, if you see you find any kind of person everywhere.

So one has to understand that this kind of mental projection that we were having about other things like social work, people think that being social work and all that, our ego can be conquered. The greatest egoistical people are the social workers.

Now these mental projections have created also lots of norms for us. Like, I sit down here and decide I'll give a title to someone. Now he becomes a title-hood. Then he's off, finished, once for all he's dead now to anything that is reality because he's living with something so unreal, which was given to him by somebody which is so unreal. There's nothing living force behind it. Have you seen any man changing by getting some sort of a title or lot of money? On the contrary he becomes worse, never improves.

So what is the reason? Why is it that when we go into an enterprise of this kind, why is it, we find, that everything fails? You talk of democracy, it becomes demono-cracy. You talk of communism, you find it is another headache. You talk of anything, it all becomes such a funny thing and it recoils back on you. Whatever you try, any enterprise, it recoils back.

Science, what is science now has become nothing but atomic war. How is it, science coming *[UNCLEAR* running] to atomic war, no one knows, but suddenly it has become a great threat to the whole world. Computers, tomorrow computers will start dominating us. We see those things clearly happening to us and we are worried, we are shocked. But we don't know why is it, whatever we try to do, why, it recoils on us and entangles us and enslaves us.

The reason is it's, it has no living force behind it. It's only mental, at mental level and human beings live only on mental level.

So there has to be another higher level which is generated when you get in contact with a living force. Now let us see what is the living force. The living force is that which sprouts the seed. The Mother Earth sprouts the seed. If you see the Mother Earth as it is, you don't find anything in it, nothing. There's just clay. But you put some seed and that wasteful thing that you think of no use, this mud, that gives that life to the seed and you find that the flowers become fruits, automatically. It's a wondrous world, if you start looking at the living work of the living force, because we are not in connection with that, whatever we do, we go into problems, but the nature does not, while we do. The reason is we have lost our biological sustainers, or process. We are not biologically acting: it's all dead action.

What we do is all dead. For example, as I told you before also that something is dead, a tree is dead and you make a chair, then you think, `I have made this thing.' From dead to dead to dead to dead and this dead sits on our

head. You make a chair, you cannot sit on the ground. Then we start another thing like anti-culture business. That also just the same. Like pendulum we may move. Now, we don't like democracy, to have communism. From communism to democracy, democracy to communism, there's no movement! Now what is the biological movement? Within us, as you know, there are peptides [amino acids linked together] in our body and the biological movement of peptides is shown when the movement is spiral.

When it is spiral then it's biological and when it is linear then it is said that they have lost their biological sustainers. They have no biological quality in them. They have become linear.

So that sustainers within us, that spiral movement within us is existing in our nerves, but can become absolutely linear, leading to death. All of our mental projections are linear, because we cannot, with that, in our own awareness, in our own awareness, jump higher. It is so outside.

For a man might say, think: `Ah, I must try to improve the whole world, I must do this thing.' There was a gentleman I met who is in charge of the peace of the world and the most disturbed personality I have ever come across, you see. He was jumping this way, he was jumping this way, every sort of disturbance was in his mind and he's supposed to be in charge of the peace of the world; imagine.

Now what's the matter with the gentleman? Though he thinks of peace, he thinks of such big things, he talks of higher ideals, everything. What is it inside? There is

nothing, no peace. He's just talking outside. What is the reason? The reason is it's only linear. He has accepted that he is in charge of the peace, he must talk of big things, he must talk of ideal things and then the whole thing drops out. We had League of Nations, now we have United Nations: all ops.

So to make it spirally activated, what have we to do? First of all we have to come to the right conclusion, understanding, that whatever we have done so far has been linear in its action. It's not biological. We cannot transform a flower into a fruit. No living action we can take. We cannot perform any living action. Once we understand that, then we have to know that we have to become more to be in connection with that living force, that All-pervading Force. And to get to that All-pervading Force, what have we to do? Actually what did we do to become human beings? Nothing. We just became, spontaneously, Sahaja. Sahaj: spontaneously. It was just some force within us which worked it out, that made us human beings. We didn't do anything.

So one has to understand that if it is a living process, then you don't have to do anything about it. It is effortless. This is very difficult for human beings to understand. It is very difficult, because they live with their ego and they cannot accept that you cannot do it yourself. They think, `We can do it ourselves,' which is not possible. It cannot be done.

You have to go to the Mother Earth to ask the seed to be sprouted. You cannot sprout it. You may try to dissect it, analyze it, put it under microscope, but you cannot sprout it. For sprouting, you have to surrender yourself to

that Mother Earth who does the job. To begin with, we have to understand that we are not capable of doing any living work whatsoever. Once we have that humility within us, then we start seeing what can happen to us by which we can become the masters of that living force.

To become something you have not done anything and to become higher you don't have to do anything.

That means there is, built in within you, the complete mechanism which is going to work it out. Now before you, I would say, it's like a hypothesis for you and you have to understand it as a scientist would understand, with an opened mind, because this is the science of the Divine. It's not known so far. This is the knowledge of the roots, not known to anyone so far, I can say. But to [be] known to some people who have evolved themselves, they have gone above that state that is just mental and these are the very few people who know what it is. This knowledge is not of today; is of thousands of years, but, is not the knowledge of the tree, as I told you, which we have, but is the knowledge of the roots, which we have to understand. The knowledge of the roots is that, within you is placed the root, is called...

[Aside to the Sahaja Yogis present:] Is it here? No, ah.

Somebody can come up, please.

Here, in the triangular bone is placed the thing called Kuṇḍalinī. It is a Sanskrit word. One should not be so frightened of Sanskrit. I was surprised, when I went to America, the first question they asked Me: “Why should you come and teach us about these things which were in your country?" I said: “To Me, it is just the same whether it is America or India. Why did you come to India to teach

us about science?" Why this kind of an attitude people have? Wherever there is knowledge, a humble person must go and see it. This was discovered about 14,000 years back, where, in England, I don't think people lived here, in this country.

So why should anybody feel humiliated? When you think you are English, or you are American, you are wrong. You are a human being. God never made a world like that. We are all one and everybody has to support each other. Like a flower thinks, I am a flower, a leaf thinks, I am a leaf and the roots think they are roots, then how the whole tree is going to manifest, just think? We are one, there's nothing that you are the tree and you are the leaf and you are the flower and we are everything.

So to think like that if that, is another mental projection we have, that `I am this' and `I am that.' You are just a human being, which has been created by God's grace, to this level, as the most beautiful thing, the epitome, of His creation. I would say that, in the West, there are more seekers, perhaps, than we have in the East, perhaps, but that doesn't mean that it is only because it is England, or America, but it is only that all over the world, God has this blessing and the message for everyone.

So first of all we must understand that this is the knowledge of the roots and this knowledge of the roots, unless and until we know about it, we have no right to criticise it. Moreover, by criticising you are not the gainer, you are the loser.

So with complete openness of a student we have to see to this, that this great force is placed within us, in a triangular bone, whether you are an Australian,

American, English, Indian, or coming from Timbuktu. All of you, if you are human beings, God has placed this force within.

He doesn't understand these differences, actually. It's only we do understand. For Him it's the one world, that beautiful world He has created and all the human beings are His children.

So in this triangular bone, is placed this beautiful thing called the Kuṇḍalinī and this Kuṇḍalinī is the motherhood within you. It's a quality. It has nothing to do with a woman or a man. It's a quality, is a type, a personality. For example, I would say today, Mahatma Gandhi, people accept him as a great man, because he had the quality of compassion. He had the quality of giving, of nourishing. In the same way all the saints of the world had this quality. They were motherly, full of compassion, love. Christ had the same. He was so full of compassion that you cannot call him, in the worldly way, a man, because man means he must hate, he must aggress, he must do all kinds of things to show his ego. No. He was a personality who had compassion, who had nourishment.

Now to become that personality, what have we to do? Again, say I, nothing, because it is all placed within you. The expression of Kuṇḍalinī within you is the expression of that great personality. When that happens to you, you yourself become like the Mother Earth, that you can give, you can project yourself, that you become compassion yourself and your compassion acts. These days, Kali Yuga is the modern times, what was the Kali Yuga, the days of confusion, is over and is called as Krita Yuga, means where this living force will act and this living force has to

act through you. You become the medium of that living force. Actually you become the master of that. But the beauty of this is that it manifests within you also.

For example, the electricity is flowing through this; it doesn't do anything to this instrument. But when this force starts flowing through you, you get completely transformed into a new personality and a personality that Christ had described that you are to be born again. Again, linear way, is that artificially people can brand themselves `born again'. But when it happens to [you] are completely transformed from within and the transformation is so visible and so active, as Krita Yuga has started, that you are amazed.

You cannot believe, it is fantastic, because you are fantastically made, extremely fantastically made and that all things starts expressing itself as soon as it manifests.

So a human being should know that he's made with great care, great love and for a very great thing: is to enjoy the love of his Father.

When this Kuṇḍalinī rises within you, passes through six Chakras, the seventh it does not cross; the seventh is the guard [Mūlādhāra Chakra], then it creates that spiral movement within our awareness.

The awareness itself gets spirally formed and instead of moving in a pendulum you move in such a way that you jump higher. Your awareness becomes higher than what it used to be.

So the human awareness becomes higher. There are lots of misunderstandings about this and it comes from the ignorance, because when you start seeking something

from ignorance, what happens that whatever you find, is a partial truth or could be something not the truth. For example, in the darkness, you might see this and think it's a snake. A wire might look like a snake to you. But supposing you suddenly become enlightened. Of course, in the beginning, light may not be that strong. In some people it could be little bit, just a flicker. But you start seeing then and gradually, if the light improves and the lantern improves, I can say, then you start seeing it, very clearly, what has gone wrong with you and you start correcting it.

Now the new awareness that comes into you is not something that can be just certified that, `Alright, now you are realised Souls, have a brand and go ahead.' It is not that way. But you become conscious of that awareness, because for the first time, when the Kuṇḍalinī pierces through this Fontanelle bone area, then you feel the Cool Breeze of the Holy Ghost coming in. In the Sanskrit language, Holy Ghost is called as Ādi Shakti. Most surprising is that, I don't know why, but in the Bible, Holy Ghost was not discussed much. Ādi Shakti is the Holy Ghost and about Ādi Shakti if you have to learn, you have to go to Indian Scriptures. Even in the Old Testament they say Jews know about it.

Now this power, which is the All-pervading power of God, the power of His Love, becomes evident, because you start feeling it on your fingers. And as you say in the English language, you know, on your fingertips. Your hands start speaking. You can feel another personality, you can put the hand towards another person and you can see what are the centers catching, because they are

shown on this five, six and seven on the right, five, six and seven on the left. This is the emotional side and the right is the physical and the mental side.

Now the doctors cannot deal with the psychosomatic, or psychological things and it's a very big problem because there is only analysis for you. Now, for a doctor it is important to know both the sides of human beings, or I would say the three sides: the physical, the mental and the emotional. But it is not so, he just knows part of it, while a psychologist knows a part of it and that's how we cannot find out the reason for the problems that exist within us. But when this Kuṇḍalinī rises, She passes through these six centers which are the milestones of our evolution and thus integrates you completely.

So the first thing you receive is the integration. By that integration you are amazed that physically you get cured. There has been a criticism about us in the newspaper, that we have started curing people. Thank God we are not in America; there we would have been arrested, because the doctors there do not allow anybody to cure anyone. But we do not cure. Automatically it happens: when the Kuṇḍalinī will rise, automatically it will happen that your whole being itself will become integrated by which you will be healed. You will heal yourself, nobody else is going to heal you. I don't *[UNCLEAR* know] under law if you can charge a person if he heals himself, but this will exactly happen that you will heal yourself and you will know how to heal yourself. But this is nothing. Is not only the physical side of it that happens to you. Is just the minimum of

minimums. But those people who *[UNCLEAR* are] suffering from mental trouble also get healed.

The third side of it is that physically you are alright, mentally you are alright and emotionally also, you are alright. Now there's a very big confusion about mental and emotional in English language.

So if you have to say `mental' as the brain is concerned, then they mean to say that person who is mad is a mental case. Actually he's a heart case, because he's working with his heart. He weeps, cries, but his head goes off, it's a balance. When he's working with his head too much, his heart goes off. That's another balance of the nature.

So if you have even the problem if you think too much, some people are so mad that they go on thinking like mad, they cannot stop their thinking, they think, think, think, think and they're thinking madness there, but they cannot stop it.

So here, when the Kuṇḍalinī rises, onto this point, you become thoughtlessly aware. You don't have to think; you can stop your thoughts. If you want to think you can think, if you want to stop, you can stop. It is not necessary for you to think and that's exactly what happens when the Kuṇḍalinī rises here, that mentally you become absolutely comfortable.

Now this business of raising the Kuṇḍalinī is a business of God and which cannot be sold. You cannot have a business on the human level. You cannot sell it. You just cannot do it. How it happens is automatically. By the grace of God it works out. You cannot sell anything that is the grace of God.

What is the value of that? On this point only many people discard Sahaja Yoga because they think that it cannot be sold so it must be useless. It is so invaluable that you cannot pay for it.

Now the rising of the Kuṇḍalinī has to take place, first of all. [GAP]... the Spirit. The Spirit is the one who is the master in you.

So you become your own master, you become your own Guru. Nobody has to tell you `do this' or `do that'; you are guided, because as soon as the Kuṇḍalinī rises, you start feeling the Cool Breeze in your hands. And these are giving you a new vibrations, a new dimension by which you know whether to do this or not.

For example, you want to do something; you want to buy a book. You don't have to decide about it: as soon as you go near the book either it will give you Cool Breeze, or it may make you hot, or it may little bit burn also if it's a horrid one and you don't want to have that at any cost, you want to have the Cool Breeze because you enjoy it.

So you just give up. You just give up things without anybody telling you, because your vibrations tell you. The spirit that has now shine in your attention, tells you and you start understanding, that now I have become my own Guru, because your Guru is sitting inside you as the Spirit. It has not yet manifested in your attention and that's why you're worried. But just it manifests and once it manifests you are amazed, that you yourself may have become a Guru of yourself. You don't need anybody else to tell you, but you can do it yourself. You can find out yourself. Nobody has to give any explanation, or correction, or anything, you just start improving yourself.

Automatically it works and little bit, if you know, how to decode it and how to work it out, your problems, you just manage it. You become yourself a Guru. That's the thing you have to be.

Of course I told you, you cannot pay for it. It's an insult even to think that you can pay for it. Nobody can understand this; that this is complete benevolence, is complete. It's not mercenary act of benevolence, but it is a complete, absolute benevolence and for this benevolence you cannot pay. As soon as you pay for it, it is no more of benevolence. And that's why you cannot pay for it. You cannot work it out, it has to just work out. Now, especially in the West, there is a problem with people that they think, `Why should Mother do it?' I tell you, it's a thankless job. You cannot do it. If you can do it, I'll be happy to retire.

But you cannot do it. That's the point *[UNCLEAR]*. This is My job, what am I to do? Supposing I am that, what am I to do now? If I have to do it, if I am supposed to do it, then what should I do? I mean supposing you are posted as something; you are a policeman, you have to do the policeman's job. Now, how can you challenge it? He has to do it. As if you can say, I'm paid for it, or you can say that this is My job. This I have to do, though I know it is very, very troublesome. To get it done is not easy, it's not very easy. Everyone may not get realisation, I cannot guarantee that. I cannot say that you all will get the realisation, it's a very difficult thing.

Some people will just miss it for some time. There's nothing to be worried about it; it has to be corrected. It has to be redeemed, as they say. The Kuṇḍalinī has to be

brought up, if there are centers catching they have to be cleared out, they have to be brought up and we have to have complete understanding and compassion about ourselves and love for ourself and respect for ourself. That if you have to become the light, then we have to adjust and cooperate.

Now the thing is that the ego part of it is the strongest enemy of realisation. I. I like it. I am this, I am that. When you say of `I', it is not yourself, your spirit, but it is your ego that's saying `I'. When you become the spirit you don't say `I', but you say “it." You talk in the third person. You say, “It is not coming up, it is not working out, it is not” in a third way. You never say, `I will raise the Kuṇḍalinī.' What you will say: “The Kuṇḍalinī is not coming up. The Kuṇḍalinī is not there." In a third person you start talking, so that you do not take any credit or discredit for it.

Now, it is for you to observe it and see for yourself. It depends on your power of observation. Whatever doctors may tell you, or anything, you don't have to believe those, because it depends on your own observation and sense of penetration.

Like I would say, I went to the Union Society and the Chairman of the Union Society was 82-year-old man. And he got his realisation. And I told about Jung's mistake why he missed the point, which they understood very well. But then he got up, very humbly and he says, “Mother, now you have learned our language, let us talk your language, let us learn your language." And then at the second meeting he says, “Now I have observed, it's not a question, but my observation, if it is true, that you

don't believe in time. There's no time." Just you give it like that. That depends on your own observation. But I would not like to accept any ideas about Me because I know it is terrible; sometimes it can act against. I mean, some people may just leave, you know, they can't bear it anymore.

So that's not the point. You have to see for yourself, observe yourself. There's nothing to gain from you, at all for Me, you cannot give Me anything, whatever you may try. There's nothing to ask for. It is you who have to take something from Me which you better have it. I'm like a cashier on the bank, see? You have got your cheques. Now, I have nothing to get from you. The cashier is paid for, alright, that's one point, is different, from the employer, but not by you. And what I have to do is to take your cheques and cash it. Now, when you are in that position, will you be angry with Me for that? Will you say to your cashier, “Why are you doing this to me? Why should I take money from you?" If that is intelligible, then we can see there is some meeting point between us and we can talk of realisation then in a way that it has to be done. You all have to have your key, your spirit, that is within you. Perhaps I know that better than you. You know many things better than Me.

I don't know even how to use a plastic bag, but I know how to open the Kuṇḍalinī. I am so hopelessly bad at so many things which are so trivial and simple which you can do just like that, I cannot do it.

So it's alright, so, I am also quite humble about it, I don't mind. I don't know many things, but I know one thing, is that you are the Spirit and you have to become the Spirit,

through the awakening of your Kuṇḍalinī. This is what a Mother can do, is to explain to you, that come to the right conclusion, that you have to have it, it is within you and you have to get it. But I cannot force it on you. I cannot make you take it. Or else if you do not want to have it I just can't do it. It's impossible. There's no *[UNCLEAR* hypnosis] in it. It's a happening that has to take place with complete understanding of your freedom.

I hope you will understand this new method, that if you have to go to the roots, you have to become subtler than what you are and to become that subtler being, you have to become the Spirit, your Kuṇḍalinī has to be awakened. Now, if you have any questions, you can ask Me and there's no need to be aggressive with Me, because I have not come here to take anything from you. But if you have any questions you can ask Me. One thing I must tell you: if you are going to some other Guru, or something, because I have seen also these people are going to other Gurus and I think these Gurus feel threatened because I don't take any money and they feel threatened about it, whatever it is. If you are *[UNCLEAR* registered/adjusted] with any Guru or still attached to someone, you may go away, because I am not here to quarrel with you for that. You can go away; it's all your free choice. But if you want to become the Spirit, if you want to have your realisation, you're welcome; I'll be very happy to work it out. Now, let Me have some questions if you have. Yes? Question: *[UNCLEAR]*.

Sahaja Yogi: What happens to your Self-realisation when the body dies? What happens to your Kuṇḍalinī and Spirit?

Shri Mataji: That is again futuristic. You be in the present, My child, alright? Now this is a very futuristic question. Now you're not going to die, I can assure you, for some time.

So we'll do it later on.

Because why should you worry about your death just now? I am talking of eternal life. Let's *[UNCLEAR* take] it, be in the present, alright? It's a good question, but why should you worry about death? Question: *[UNCLEAR]*.

Sahaja Yogi: Just, Mother's given you the answer. Just leave it.

Shri Mataji: I have given you the answer. This is not the time to talk about it, it requires a complete lecture, alright? I'll tell you later on. I'll write to you. You give Me your address, I'll write to you.

[Further inaudible discussion in the audience.]

Sahaja Yogi: Next question, please.

Shri Mataji: Now don't take others' time, because I'm not interested, now. Don't be interested what happens to your death and what happens. That is not to be seen just now. Just now you get your realisation; the first step. That's why Buddha did not talk of God, even, because he thought, he talks of God then people ask, “What is God? Where is He? Well, can I see Him? Can I meet Him?" So he said, “Alright. Just take your Self-realisation” finished. Nothing more than that.

Audience [discuses]: *[UNCLEAR]*.

Shri Mataji: No, no, no, please sit down. You are from some other group, I think. Do you belong to some other group? Response: *[UNCLEAR]*.

Shri Mataji: I know, I know that. No, please sit down. We don't want you here. Please sit down.

Now this is not the way to behave. We don't go to your group, why don't you take your own hall and give a lecture there? If you belong to another group you don't come here. These people have been always troubling us like this. This is too much. Why are you troubling us? What have we done to you? Why do you come here and trouble us? Response: *[UNCLEAR]*.

Shri Mataji: No, that's not good, that's not being kind and civil. You better learn these things, first of all. Please sit down. Please sit down. This is not the way to behave, to go to somebody's groups and, you see, “I don't go to these people, I don't talk about these people, why should you go to other peoples?" Go and learn from your Guru and become whatever you want to become, it's alright. I've already told you, we shouldn't trouble somebody like this all the time. It's not good. That's why realisation is needed; then you'll understand how to be gentle. They give big ideas; you become mokshas, you become this, you have become this and you, you go with those ideas. You don't even have vibrations to feel what you are; what your Guru is. You don't have any understanding, no discretion; nothing. You go to a Guru and he says, “Alright. Now you, you are going to go beyond everything." You believe it. This is all ego pampering. If you want to live with it, go ahead.

Audience [discuses]: *[UNCLEAR]*.

Shri Mataji: You believe into whatever you believe it in your own way, but whatever you believe has done no good to anyone. Has it done any good to anyone? You

may believe into anything, so what? It's not important. What have you done so far? What good have you done to anyone so far? Audience [discuses]: *[UNCLEAR]*.

Shri Mataji: What's he saying?

Sahaja Yogi: Let's leave it, please.

Shri Mataji: No, don't do like that.

Sahaja Yogi: Next question.

Shri Mataji: It's not good. It's not civil. No, no, no, no, no, no. You better join some politics, you'll be better there. [Audience laughter.] You are not meant for spiritual life. You go into some politics; you'll be better off. Now, let us have some other questions.

Sahaja Yogi: If there are no questions, those few people who want...

Shri Mataji: These are stupid people wasting their time, I tell you, really, wasting their time, wasting our time. Done no good to anyone...

Question: *[UNCLEAR]*.

Sahaja Yogi: If he gets Self-realisation, will it interfere in any way with his normal functioning?

Shri Mataji: No, no, you will be very normal. [Shri Mataji and audience laugh.] You become extremely normal. You become so normal that you are amazed at yourself. You see, all abnormalities drop out, first of all. And secondly, you become so dynamic, absolutely dynamic. We have people here who couldn't do any jobs, or they were depressed, this, that, but apart from that when they started doing jobs they were surprised. The students who could not pass their exams took first in the class, they had the highest marks. The people who could not

concentrate become well-known artists, well-known architects.

We have so many Indian artists in India, especially, who are very well-known artists but they had fallen prey to, say, alcohol, or something, they have become great artists and now when they sing, you see, it's so melodious, they themselves now feel it that way. And on My birthday they came to sing, because they said, “Mother, You have given us this new dimension in our music." You become extremely creative and very dynamic and you are not tired, because you get connected with the whole.

Sahaja Yogi: Yes.

Question: *[UNCLEAR]*.

Shri Mataji [chuckles as She listens]: Thank you.

Same [doctor] questioner: *[UNCLEAR]*.

Yes, doctor, I'm sorry to say it is so. It's so many diseases can be cured, so many. I would not say all I would cover, like supposing you have a cata, cataract, in the eye and we cannot cure that, we have seen that. And also, things where something is dead in the body, then you have to remove it, you see and things like that. But I think if it is not in a very galloping state, if it is still there and if you do not interfere too much with it and do proper meditation the way it is to be done, you see these are only permutations and combinations of these centers that we get into trouble. If you are in the center, you see, if you are in the center, I mean, no less than Guru Nanak, Himself, has talked about it, absolutely and this is what work He has done. I'm doing His work, only, only thing is

that today is the time for, to give you the proof of what he said.

So if these centers are kept normal and if the Kuṇḍalinī starts flowing properly, then what happens is that you get connected with that All-pervading Power which is the life force itself. It's not only Prāṇa. It's not only the right-sided thing which we call the Prāṇa, the white thing is, but also the emotional and also the evolutionary process, the sustenance.

So it gives all the three forces within us and if you know how to manipulate it and manifest it, you can work it out. And for you, especially, I would say, that it is your heritage, itself, so for you it should be a great thing to understand it. But of course the patients who are absolutely gone cases and some patients, I would say, I must admit this, like Hitler, now, Hitler I wouldn't be able to cure, I'm sorry, because you must have some catch there also, isn't it? *[UNCLEAR]* with God. If you ask Me to cure Hitler or somebody like that, it's going to be difficult.

But, people are normally good people and those who are good people, who lead a righteous life, not an aggressive life and are of good nature, can be easily cured.

Once it happened that there was one doctor Daetey; he brought Me a lady to be cured of her heart ailment and she was very serious and he thought he, she, she may not be alright with Sahaja Yoga. But I cured her, but I told him that this lady would not survive, within three days she is going to die. She was so much cured that he could not believe, because every heartbeat was alright, everything was alright. He was surprised: I was saying that she is going to die after three days.

So he said, “How do you know, Mother?" I said “I don't know how do I know but I know she is going to die." Then I told him, “Doctor, you go and find out the history of this woman, what sort of a woman she is, so then you will know what I am saying." And he found out that she's the woman because of her, her daughter-in-law committed suicide and her husband had become really mad; an extremely aggressive woman and she has tortured all the people in the family. She had no love at all and there was no need for her to be blessed to that extent that she should get completely cured. Perhaps, I think her life was cut short was good and that's how she could not survive, after that and she died really after three days. And the doctor Daetey was himself surprised.

I told him himself, that, “You will get a heart attack too, if you don't take to Sahaja Yoga” and he died of heart, because his heart was catching, he wouldn't believe, because he said, “It's showing alright, my X-ray's alright." I said, “It is not." It is such a subtle thing. Before the disease starts, you see, you cannot make out, but the disease starts at a point, when it is so subtle, that doctors also cannot make it out. But in Sahaja Yoga you can. You catch on this finger. If you catch on this finger, that means there's some pressure on your heart. And if you're catching on this finger it's better to pay attention to your heart immediately and you carry the very simple thing, very simple, the mantra for heart attack is: `Mother I am the Spirit.' Just *[UNCLEAR* say/do] it. `Mother I am the Spirit.' [Hindi translation], that's all. If you say it three times you can get rid of it. But, this mantra has to be siddh. Every Dick, Tom and Harry cannot give you the

mantra. Any person who is a realised Soul can only give you that. That is one thing very important. And Nanaka himself always talked about SatGuru, you see, because he found out that people used to talk about Guru like Swāmī Rāmdās and all those talk of Guru. But then he thought that it's better to call SatGuru and Guru as two things. SatGuru is the one who has got realisation and the one who calls himself as Guru without realisation talks big, “I, you, I'll give you this and I'll give you that” and just makes a big organization out of that, is not a Guru.

So that is what it is, a person has to be a realised Soul and he must know all the details about how to do it.

Now, as if you are interested, I would like to meet some of you doctors here and I tell you all about it, details and I can make you master in no time, there's no problem. But a Sahaja Yogi is a person who knows all about Kuṇḍalinī, he knows how to deal with it, how to work it out. Now he himself is a doctor and he has cured many people with Sahaja Yoga and is a very simple thing and which can work out. Thank God this country is a free country in this respect and that they have asked us to write to them about this method of Sahaja Yoga; how we cure people. But that's just the basics. That's not so important. What is important is to become the spirit.

Question [from the same audience member]: *[UNCLEAR]*.

Shri Mataji: Yes, by all means. Why not? I would love to have you for tea at My residence. You give your name and address and I'll, I'll let you know. I thank you very much. Thank you very much doctor.

Yes.

Sahaja Yogi: Any more? Yes.

Question: *[UNCLEAR]*.

Shri Mataji: What did he say?

Sahaja Yogi: Sorry, could you say again? Ah. And you're asking will it help.

Shri Mataji: Yes.

Sahaja Yogi: His son has been very depressed.

Shri Mataji: Where do you live, in what part? Response: *[UNCLEAR]*.

Shri Mataji: Alright. It's not difficult; we have a center here.

Same questioner: *[UNCLEAR]*.

Sahaja Yogi: So, medication doesn't help, is that what you're saying? Response: *[UNCLEAR]*.

Sahaja Yogi: Ah. No medication is required at the moment but they as parents are very worried about him.

Shri Mataji: No, I know, depression is also to be understood in its full, full extent. How people get depressed, you see? And how people get into problems on depression. It's very simple and it can be cured.

He can be cured. We have people here who were very depressed and now today they have become dynamic people, so it's alright. You can, you can go to the center, you take the address of the center and you, you take the photograph and they, we'll manage. You just don't worry, they'll tell you how to do it, but do it religiously. The way they are telling you if you do it. It's very simple methods, they will tell you; you have to have faith in yourself and you have to do it religiously, it will work out. I promise it can be worked out. Now, behind you is sitting there some

Mohan, is sitting, just see that boy, sitting behind you and he had been to some Guru like that, who just ruined his awareness completely. He was really, absolutely, out of mind. And now you won't believe, he writes poetry so beautifully, like, when I read it I think of Kabīr, like that. He's writing poetry now.

So it's something so different, you know? So, it can happen. You just bring the, you take the address and bring the photograph of the boy, with his birth date and all that and give it to them, we'll work it out.

Comment from the same man: *[UNCLEAR]*.

Shri Mataji: He's an artist? Then it's alright. He'll become a greater artist. [Laugher from audience.]

Sahaja Yogi: Yes? Question [about special diet, the difficulty of meditation]: *[UNCLEAR]*.

Shri Mataji: It was not hard at all! [Laughs.] Audience member: Laughs. It wasn't hard! *[UNCLEAR]*.

No, no, no. You see, it is Sahaja Samādhi. It is Sahaja. Sahaja has another meaning also; easy. That's the quality of your mother, I should say, has to be *[UNCLEAR* easier/easiest]. Mother gives you birth, does she give you any trouble? Nothing. She takes all the trouble, so you don't have to worry. Kuṇḍalinī takes all the trouble within you, you don't have to do anything.

So it's very Sahaj, is absolutely Sahaj. It is absolutely spontaneous. It doesn't give you trouble at all. It is absolutely easy, easy as possible. Has to be, because it is so vital. Whatever is not vital is like this, that Guru says, “Don't eat this, don't do that, stand on your heads, do this, do that." That's not the mother's style. But the real

Gurus, also, they're very strict, no doubt, but the real Gurus give you realisation. That's the first thing they do. They don't tell you that, “I'll take you to mokshas, I'll do this” nothing of these big talks. They say that, “First of all you get your realisation." Any other question, please.

Question: *[UNCLEAR]*. [General laughter.]

Sahaja Yogi: Can you give some evidence of Your own enlightenment? [Shri Mataji laughs, more audience laughter.]

Shri Mataji: What evidence you want? What evidence you understand? You see, the evidence is if your Kuṇḍalinī is awakened, then only you will understand. What Christ could not give evidence *[UNCLEAR* so/to] you crucified him nicely. But I am going to give you the evidence, you the evidence.

I will give you. You sit down, you get your realisation, then you'll get the evidence, alright? Once you get your realisation you'll get the evidence, isn't it? What is the evidence that the candle is enlightened? That it when you take it near an unlit, unlit... supposing this is an enlightened candle, the evidence is that it can enlighten another candle, isn't it? That is the evidence. Now you sit down, first you, let's see if you get realisation. That's the evidence, alright? If you don't get the realisation, then the evidence is that something wrong with you, because many will get it. It's you who has to give Me the evidence, not Me, because I don't have, you see, these questions are alright for a person who's taking money from you, or taking anything from you, or I'm telling you anything, nothing, I'm just saying, you take it. These questions are just other way around, should be, isn't it? It

is you who has to give the evidence that you have got it, not Me. Here at least there are 60% people who have got it. 60% people.

So if you get it, thank your stars that you've got it. If you don't get it I'll have to work hard with you.

Sahaja Yogi: Why don't we all ask for it now. Just slip your shoes off and put your hands on your lap, put your hands out and ask for it. Ask for it in your heart, that is.

Shri Mataji: I think all of you should get seated down, first of all, properly. You see? There should be no *[UNCLEAR]*. Please be seated. There are some seats here. Come along. There are some seats here, also.

There's one thing I have to tell you, that it is something that happens within yourself and it is a very quick thing; it's the split of a second, when the Kuṇḍalinī rises, just split of a second. But, if there is any obstruction, then it takes some time and I have seen, that say, in an Indian village, I have seen 6,000 people just get realisation in the split of a second, but, the more we get sophisticated and modernized, we get complicated.

So, we have to, little bit, give some energy to our different centers and try to nourish it, so that the Kuṇḍalinī is moving faster, without any obstruction. To remove the obstruction, we have to work it out in a very simple way, which I'll tell you, that left hand you have to put like this, which is the power of desire.

So put the left hand like this. All these things I cannot explain in one, one lecture and it's too much, also, like I would say that if you had to switch on then you just pull the switch and the lights will be on. In the same way we can say put this left hand straight like this, just like this,

on your lap, very comfortably and with the right hand, I will say where to go.

Now first of all, you must close your eyes and don't open your eyes till I tell you. Take out your spectacles if possible and... it's already going to deep I can't keep My eyes open... now put the left hand towards Me and with the right hand you have to move, so keep your eyes shut and also, if you can take out your spectacles it's better because you don't have to see anything. Better, it's good for the eyesight.

So better take out your spectacles and be comfortable. There should be nothing tight anywhere in the body, anywhere.

Now, what you put your left hand towards Me and with the right hand, right hand, you put it on your heart on the left hand side, to begin with. It's very important. Now, on the heart, we are putting it, first of all, because we have to say that `Mother, I am the Spirit.' You can address Me as Shri Mataji, as Mother, whatever. If it is easier for you to say Shri Mataji, is alright, otherwise to make it easier you can call Me Mother. I am the Spirit. Everyone should try. Everyone should try. Or you can ask a question: `Am I the Spirit?' Now, slowly take this side down on the left hand side of your stomach, left hand side of your stomach and press it hard. Left-hand side of your stomach. Don't open your eyes. Put this right hand on the left hand side of your stomach, because there resides the principle of the Primordial master, of your mastery.

So here, you have to say, ten times, because you have ten valencies. As human beings we have ten valencies, so we have to say ten times: `Mother, I am my own

master. I am my own Guru,' to awaken within you the Primordial master. `I am my own guide.' With full confidence. Without any guilt, without any guilt.

Without any guilt you have to say, `I'm my own master.' This is one of the diseases in the West; to feel guilty. At the present moment, your past is not there. You just worry, don't worry about your past. You just say, `Mother, I am my own master' with full confidence. Don't feel guilty. [Long pause.] Please don't feel guilty throughout. Please don't feel guilty at all. And don't count your sins but count your blessings.

Now raise this right hand, again, back to the heart, with complete love and understanding about yourself and full respect, because you are at the epitome of the evolution. You must respect yourself. At this point, you have to say twelve times, `Mother I am the Spirit,' because at this Chakras, there are twelve sub-Chakras, that's why it is to be said twelve times, or petals, sub-petals as they call it. Mother, I am the Spirit. Just say that. You are the Spirit, believe Me, you are. Just say that.

[Long pause. Sahaja Yogi tells Mother that he and/or the other yogis present feel left Viśhuddhi.] Now don't feel guilty at that time. Don't weep, or cry, don't feel bad. Just say, `Mother, I am not guilty, I am the Spirit,' with full confidence, you are. Don't feel guilty. This feeling guilty causes angina, one part of it, I tell you. Now, with that fear at least you'll stop feeling guilty.

[Aside:] [Chuckles.] [To Sahaja Yogis:] Hmm, better.

Now put that right hand on the base of your neck on the left hand side, from the front. From the front.

On the base, on the left hand side. Base of your neck on the left hand side, take your hand in front, not from the back. Now press it hard, a little. Now this is the point, which catches very badly, when you feel guilty. Now, just say, `Mother, I am not guilty,' sixteen times. But I always say that if you have too much of this fashion, of feeling guilty, then you may punish yourself by saying 35 times, or 108 times. Just laugh at yourself for feeling guilty; that's the best way. Do not condemn yourself. Say it sixteen times. [Long pause.] Still you are feeling guilty.

Now, put this hand on your forehead across, without feeling guilty again. Throughout I have to say this because that's the main thing you're catching, all the time and at this point you have to say, `Mother, I forgive everyone.' Just say that. Now, somebody would say that it's very difficult to forgive and all that. It is all a myth. When you don't forgive anyone, what do you do? Nothing. You are actually cursing yourself and torturing yourself.

So I forgive everyone. Mother, I forgive everyone. Forgive everyone. [Shri Mataji says mantras quietly.] Now put this hand at the back, on the backside of your head and pull it out a little bit. Press it a little bit. Now at this point, without feeling guilty, again I say without feeling guilty, at all, just to say, that, `Oh Lord, Oh God, if we have done any mistake, please forgive us.' But don't feel guilty. [Pause.] At the back, just at the back of your head.

[Longer pause as Shri Mataji speaks quietly aside to Sahaja Yogis.] Now, put this hand on top of your head and press it, on the Fontanelle bone area, where you had a soft bone in your childhood and just press it and rub it a

little bit and at this point as I said, I cannot cross your freedom. You have to ask for it. You have to say, `Mother, I want my realisation, give me my realisation.' Say it seven times here. Ask for it. You have to ask for it. You must know that the Divine is not going to fall at your feet. You have to humble down and ask for it, otherwise it will not work out.

[Pause. Shri Mataji speaks again quietly to Sahaja Yogis.] Now raise your hand and see if there's a Cool Breeze coming in. Just not much, about five inches, six inches higher, on top of your head. Now put down right hand, on your lap. Don't open your eyes, please.

Keep quiet.

[Working on an older intellectual gentleman:] Hmm, you've read too many books. What books have you read? [Gentleman reels out a list on impressive authors, including some so-called literary masterpieces.] No good, no good, these are catching up your Swādhiṣhṭhān and Āgñyā. You should read Barbara Cartland [author of light romantic novels]

Contents: 1983-11-05 **Talk to Sahaja Yogis (Diwali Padwa), Money, Sleep, Bhūts, Lethargy, Bonfire Night and Sitar Recital by Debu Chaudhuri, Surbiton Ashram, London, UK**

[Mr. Modi talk is MISSING.] I've had a very hectic, strenuous journey through America and it was much beyond My expectation, it worked out very well and I am very happy about it. All the Americans are very thankful to the Sahaja Yogis of England and other countries who have contributed to this tour and specially to people who

travelled across and went round and have them to organize.

So they have been extremely grateful I tell you, but for you people it would not have been possible. It was a very strenuous journey no doubt and strenuous tour and everything was bit too much after the tour of Europe. But the way people went from here and have them and you sent money, there was much less strain on them and they could manage it very well and as you know we have done very well as far as our sowing the seed of Sahaja Yoga is concerned.

So the seed of Sahaja Yoga I think is now sown and it may take a big flight I am sure because Americans have I know they are very, people who are uprooted type and quite shallow people and one can say that also that they go on changing their Gurus every third day and their cars every fourth day and their wives fifth day. When they have changed so many of them that it is easier to bring them round and talk to them about reality. That is the greatest part of it and most of them have been to some Guru or someone and the result of all that is that they have reached conclusions that if reality has to come, it should come in the way Sahaja Yoga is.

So it's not such a difficult thing to talk to them about Sahaja Yoga. But the best part of it they have been to all Gurus who have given them a good licking, real good licking. They have lost all their money, they have been trained so much, they had to do all kinds of things and they had to starve themselves and no food and sometimes they had to run for miles together, do all kinds of acrobatics and all kinds of things they have done

and as a result to them Sahaja Yoga is very precious. This is a difference I think with others and Americans is, because you have not known those severe type of Gurus that they have had who just torture their lives all the time saying that “you have to do these things just to get rid of your sins and this has to be done, because of your sins, you are like this." And the main thing was I discovered there that the philosophers or the writers who wrote about the unconscious also had made a very big mistake and they said that if you have to go to the unconscious you have to pass through subconscious. And when I saw this diagram I was surprised. Jung had done the diagram with the unconscious and the unconscious becoming conscious and on top of that, was the subconscious and then the conscious mind and then the ego.

So it was such a mixed bag.

So I told them that God is the greatest planner and He has kept the central path for you absolutely open which is Suṣhumnā path and the subconscious is on the left and the supraconscious is on the right side.

So you don't have to pass through all these things, even in an airport supposing you have to pass through the luggage to go to the aeroplane what will happen? And when human beings can understand that [then] what about God? He has to be a greater organizer, a greater thinker than we are. And He could not have thought of such a mix bag for us that when we have to ascend we have to go through our subconscious and then go to the unconscious.

So the whole thing is they had no picture, it was all a mental projection and that's how they made all the mistakes there and when they published these things, perhaps the Gurus who are aGurus must have taken a clue and that's how they started talking that you have to go to your unconscious. And that's how the whole thing has been worked out that people thought that we have to go to the unconscious through the subconscious. And when this happened they said that if you have to go to the subconscious we must bear up everything, we must get possessed, we must get bhootish, we must take drugs, we must do all those things that the mad people are doing. In addition to that they used Bible for that purpose, because in the Bible it is said that when the Holy Ghost came they all started behaving like mad people. This was Mister Paul's mischief. And that's how they justified it that we all have to get mad to become spiritual.

So this kind of a stupid idea was taken over and was exploited by the real thugs of India. Then it is now taken over by the thugs of Americans also.

So the Americans are also forming some groups there, they have also become Gurus and they are also teaching people that you have to become mad before becoming realised Soul.

It's such a thing that they never understood that there has to be some sort of a way made by God Himself for our ascent. Why will He make it so difficult, He has never made even a sprouting of the seed difficult, why will He make our evolution so difficult? And that's why these poor things, you see, half of them are mad. Really mad

people, when they came to Sahaja Yoga, they had blisters all over their hands.

All blisters on the left hand side, you could see all their hands were burning. Shaking all the time before Me, it was terrible I mean, I had to go on combating their bhoots and I really got tired with it, absolutely tired, every place I went there were people who had lots of these possessions in them. But the beauty about them which one should learn from them is that once they realised that this is the way it is the truth, they are working very hard, extremely hard and they are very disciplined people, they get up in the morning, have their baths, sit down for meditations, they work it out. They are not like us, you see we are “oh very happy” you see, floating in the air, “Mother is looking after us, it's all right, we can get up at nine o'clock and then it's all right, we say namas-kār to Mother, write a nice poetry about her” finished! They are not like that; they are working it out because what they said was very remarkable thing, what they said that “Mother, we have gone to hell actually. And we have to really jet out, very fast, if you have to get out of it otherwise we will never be there” which is a fact. And this is what one has to understand that if you have to have any rapport with your Spirit you have to really work very hard.

Now our, so far our Sahaja Yoga in the West, so far, I would say, not further because today is new year's day we have to take certain vows on a new year's day, isn't it? So, so far has been a easy chair, as you call it, politician. And another thing I discovered very funny there which now I understand why people are like this in

this country, also everywhere which, you see, you understand it better when you are little away from that place.

So another thing I discovered was that this so-called Christian ethics you can say.

[Aside to a Sahaja Yogi:] I hope you have not talked about, have you? All right.

Now the Christian ethics they told Me was really explained many things why you behave like this.

Like, one lady told Me a story that there was a fellow who had a store of his own and he used very good locks, you see, to secure it.

So the people protested saying that why did you lock your things so well, you should have given a chance for a burglar, you see, after all you could insure yourself but why did you take away the chance of a burglar? That kind of a Christian ethics works in our minds, you see.

So what we do, we always sympathize with a bhoot all the time. You see. “Oh! She is, Mother, so badly off, she is like this." “Arey Baba! she is a bhoot!" Didn't Modi tell you the saying of Rāmdās? [Aside to Modi:] Sangeetla tumhi? [Did you tell them?] So Modi said this, there which is Rāmdās Swāmī has said it. `Pishācha' means a bhoot of a style, you see which sticks on to people, is pishāch.

So he says “Pishācha mage Pishācha gele" [behind the bhoot has gone the bhoot], after one bhoot another bhoot has gone.

So who can go after that? Who can save that? I mean if they are going after the bhoot and what sarthak means, what will they achieve out of it? The whole thing is that

our mind “oh he is very much, Mother, we must help that person, we must do this for that person." All this is Christian ethics, is nonsensical. But Christ never said, he took a big hunter and beat all the people who had bhoots and took them out and put them in the sea.

So this is some sort of Christian is different from Christ, so the Christian ethics is that always sympathize with a person who is a bhootish person. Always! A bhootish person also has a method of creating sympathies.

So today on New Year's Day, I think I should warn you certain things that I have realised after going to America. My human realisation is improving [everyone laughs loudly]. I had seen once, you see, there was lady who was running a restaurant. And one thief, you see, had stolen a coat from one restaurant and came to her restaurant and would not pay the money and she informed the police.

So police said “Has he a got a very good coat?" “Yes” [she] said “he has." “He's stolen from the other restaurant we've got the reports." So the police came in.

So they filed a suit against this man that he is a thief, he has stolen a coat from there and ate food here, never paid anything.

So these people, both the restaurant people had to go to the court and give evidence saying that, you see, this fellow has stolen the coat and he didn't pay for anything and he was quarreling. And they had to spend two days and waste their money because they were earning out of their own restaurants.

So the judge said: “Doesn't matter, he was drunk at that time.

So he should be forgiven because he was drunk", firstly. And secondly he was given money because he said “I have no money now with me to travel around” while these people lost their money for two days.

And the police sat down with the hand like this.

So this kind of ethics that we have, you see, is to sympathize always with bhoots you see, wrong doers.

Even if you read the newspaper you are shocked. How were they released on one point that they were in imbalance. Because they were in imbalance, so they are released. They are sent on a parole; that man goes and kills ten people again, but because he was imbalanced.

So it is more necessary that you keep him, if he's imbalanced, it is more necessary. To be imbalanced is itself a sin, itself is criminal. If somebody is imbalanced, that means he is a criminal personality and such a criminal personality must be kept in lock and key.

Like in France I saw, I was going by a bus; now I understand many things, I didn't understand them before I must say.

So in France we were going by bus and one person boxing he was talking all kind of things. I said O' God! This one is only spelling bhoots from his mouth, who is he? They said he is a man who is talking about the war. I was so shocked, I said this man is talking about the war and these things, why is he allowed to come on a bus? Then the second one came in, then a lady came in, they were all talking, talking away something irrelevantly. They said these are all people who have suffered very much and they are coming into the bus and that's why they are like this.

So I said “But why allow these people to come in, in India nobody will allow such a person to come inside." So I think Marie was there, she said “You see our government is very sympathetic, you see, towards such people." I said, “But what about the rest of them? They are not sympathetic about the other people, at least they should be sometimes for a change sympathetic with sane people!" To have always sympathies with the insanity also shows that you are encouraging all the bhootish people to develop, to do what they like. I mean this is no sympathy at all.

That is how it works out and I have seen this bhootish sympathy has also given Me lot of trouble.

So you have to be little sympathetic towards your poor Mother. Now all sympathies of your bhoots must be given up. Because that has given Me lot of trouble throughout and now I understand why you people always sympathize with bhoot people.

Now, as it is, in England, it is a sin to awaken somebody in the morning. I mean we have had big quarrels, fights, bouts, breaking of noses, everything because somebody woke up somebody in the morning time. And people sympathize and came and told, “Mother, after all you see this gentleman went and woke them up or the child started crying in the morning and that person got up in the morning." So it is a sinful thing in the West that if you wake up someone. But, you see, you have to change yourself now, if you have to be Yogis, you must know that you cannot get easy chair, yogi position. Normally you have to go to Himālayas, live in that cold, eat nothing for days together, wash off all your desires, give

up your wife, your children, everyone. But Sahaja Yoga, so far has been, you can have your wife, even if she is slightly bhootish, is all right. But if she is very much bhootish, still I have to worry about the bhootish woman. Even if she destroys Sahaja Yoga, doesn't matter, the sympathies are there. Even if she does anything, that's a wife, after all. Or a husband who is a bhootish, I get every time a letter that my husband is a bhootish man, he beats me, he does this. Now, what am I to tell? You divorce your husband, what should I say? I mean, if he is bhootish, how can you be with a bhoot? You are a realised Soul and gradually what happens that you develop such a immunity with the bhoot that you don't know you have become yourself a big bhoot? And you go on with that and this. Can you imagine we are creating here a race of yogis, of pure people.

Now, why people were going to Himālayas? Because there were no bhoots there. You see, very few people went there, stayed away from the madding crowd. You are staying in this horrible, hellish atmosphere, where there are bhoots and bhoots and bhoots, all kinds. Now here it is more necessary that you should be very careful, supposing, you see, plague breaks out, any country, then how people become cautious? They are so frightened that we should not catch anything from the plague, isn't it? In the same way we must know, now you are conscious of it. But on the contrary this bhootish attachments are so great that I do not know how to fight it.

And the best part of it, you see, if you tell anybody, why did you do it, they say it is the bhoot who did. But from

where is he residing? In your own house. Supposing in this house somebody is residing and he explodes the whole house, will you say that the man who was residing has done it? You have to blame yourself. Why do you allow a bhoot to be abide in you? So today is a day, I mean yesterday's day was a special day of Lakṣhmī Pūjā. And you will be surprised in our house we put all the lights on. And the candles were lit up. As soon as the candles were lit up all My this, My foot, went into a contortion absolutely. It could not be brought to normal state. For at least half an hour we were struggling with it. The reason is all the bhoots of London perhaps touched My feet. And they got into there... that “save us." So this is the situation is. While you are not at all aware of it. Now people think that you can compromise with righteousness, with God. You cannot. You cannot compromise. Whatever is pure has to be accepted in its purity, in its glory and one has to work hard for it. You cannot just... You'll have your jobs, you'll have your wives, you'll eat your food, the special type of things, you must have your comforts, you must have everything. Is a first class journey to God and the bhoots along with it going towards God.

Everybody is in the baggage.

This is what one has to understand, we are yogis and we are people blessed specially to elevate the whole world. We are responsible for the whole Western world. And what are we doing about it? And I asked these people who have been to [false] Guru, I was amazed. Of course, money part was there, one thousand rupees each. And they said that we are given food which nobody can eat.

You get sick. One lady told Me that she ate such a food that she developed a horrible disease and, doctors told Me that I first of all give up this food. And you are forced to eat that food. And you have to wear very, I mean, imsy clothes and stand on the streets, sing songs, walk in a procession, dance like a mad person, do all kind of things they do.

Here in Sahaja Yoga they said nothing, is a drawing room treatment. But in the drawing room if you carry your bhoots also with you that's not allowed. That's not allowed.

So one has to understand that though we have got our realisation we have a very big responsibility and we have to move with that responsibility. The greatest problem now of, UK also France, I have seen. Because of drinking habits or whatever, it is, lethargy. Excuses, brain is very... I tell you our Sahaja Yogis also have tremendous brains. I mean sometimes I don't know how to work on their excuses. “We had a public meeting which finished at eleven o'clock, so we couldn't get up till eleven o'clock next day." Twelve hours sleep you must have. Very hard working people! But your Mother sleeps the same time and I am marathon race runner, every night whenever, I mean you have only one program, but then I go to Italy, I go to any place, I have regularly, the whole year I am doing this. Still I get up early in the morning then why can't you get up? All excuses are there, this is an excuse another is an excuse and then I have told so many people that just get up at about four o'clock in the morning. Just get up, try and see and do it. It's very good, four o'clock I've been saying for the last ten years now. I

don't how many of you have tried that. Have your bath, get ready, have your bath and then sit down for meditation. The whole day will pass out very well and sleep at about 8 o'clock.

It is English saying that “early to bed and early to rise." But I have never seen any Englishman like that so far. It is the other way round. They'll keep awake till one o'clock and get up at about eleven o'clock or ten o'clock; will not even brush their teeth and walk out. These habits you have to change, we are yogis and we have to worship the Sun.

So we have to get up much before the Sun rise. That is very important. But I find that is not here. People don't understand. They want to take Sahaja Yoga in a very slow way and you will move very slowly and so many of you will drop out I tell you. One must understand! Today is a new year's day and we must understand what are we doing. This is a real warning to all of you. You just try, this is not a very big thing; you will be amazed now. C.P. is having a conference for twenty days, every day he gets up at four thirty, every day, sleeps at twelve o'clock, every day the whole day he is working. Twenty days after all he says “once in a while I have to work hard." Our servant gets up at five thirty every day, who works very hard. Why can't you get up? You people think that you are the most unhealthy people or what is the reason? Every time [you say] “hāah." What's wrong with you? Nothing is wrong, you are lazy lumps that's all, you should understand.

Just tell yourself you are lazy, extremely lazy and we have been brought up like this and this comes from your

ego, for your information. Ego thinks, thinks, thinks, justifies everything, makes you weak and then you sleep like logs of woods. What is going to happen? This is tamasa, complete tamasa; ego is taking you to tamasa. Or when you are not inactive, then what we do is to ride a big horse, John Gilpins, we met so many. I went to Toronto, there is one John Gilpin. Mister Patrick. Was a real John Gilpin, without any single pie he became a big administrator of money, this that. Then I find here, Mister Jason is touched by him. This is another John Gilpin, I call them what you call... James Bonds. They are riding such horses.

So there is one group which is extremely fundamentalist about lethargy. You see, they know all the excuses, how to say to Mother “oh! this is so, we have this problem this that." The another group is this, riding the high horse. “Mother I have to still clear out, this is the problem." What are you doing about it? Let us face ourselves! Are we going to lag behind? You know, on a ship you have to get on to the gangway at least. If you move so slowly, gangway will be lifted and the ship will move out, I'm telling you.

So one has to understand and we have to work something for Sahaja. Sahaja Yoga should be first priority. Job is first priority, making money is first priority, or wife or children, all these are much more important. Then go ahead with it. Marriages, another is marriage. “Mother when am I going to?" People will eat My head for that also. “When am I going to get married, what should I do, whom should I marry, do that?" These things are not going to take you higher. Where should be your

attention? Those who are married are troublesome, those who are not married are troublesome. [Laughs.] Those who are married have problems and those who are not married.

So the marriage doesn't solve the problem of Sahaja Yoga. Now they'll say “but we..." Excuse is there. “We must create children." All right. Which children? “Children, which will be realised Souls." Do you think realised Souls will be born to lazy lumps? They'll keep them morning till evening if they are born, I tell you! So one has to understand that either you are lazy and when you are active you are James Bonds.

Nothing in between. And that's how people have been avoiding taking responsibility. Excuses. The whole brain system is such how to give excuse which is anti our progress. It's destructive, this will destroy you.

This is destructive. And this tamasa has to be conquered by willpower. But if I'll say willpower then suddenly I find ten James Bonds standing before Me, “Now what?" [Laughter.] Your poor Mother is blasted. Oh God! Now what to do? So I don't know which way to go. Now if you tell somebody that you have got some catches, you go and look after yourself, go away from here. Then that person starts thinking that “I am the person who is to be like an outcast" and indulges into all kinds of miserable existences. It is said that you go and get yourself alright and cleaned up. Instead of that, person is the most miserable person and the slightest pretext, you see, you find the person thinks he is in hell. Now what to do with such people. You just tell Me what is the solution for these people.

Now I am already sixty years of age, how long do you want Me to live I don't know. But whatever it is you have to now get up. Neither to be aggressive nor to be sleeping. And this sleeping business has to go away. Now in the ashram people stay here. Anywhere. There is no discipline in our ashram. You go and ask them what sort of ashram's they have [in America]. [At] 3:30 one has to get up and then what do they do? You have to clean all the compound, 3:30 in the morning in New York, which is the coldest place. You see a lady told Me, she is a very rich lady. She told Me “3:30 I had to get up and clean the whole compound and planting all the things and that was sold by the Guru and all the money was taken by the Guru himself." So the whole business was how to make the Guru prosperous and they had to get up early in the morning and go on working it out, one after another. There were two people who came from Rajneesh with the same dress, you see.

So these people told them that you can't come to Mother's program with this dress.

So they said we have only these two pairs of this dress and one mala left with us.

The rest is all gone to Guru for his Rolls-Royces.

So we have nothing left. Only this much we have left.

So I said “All right Baba, we will give you money now, but change this dress." This is the situation. That is how the Gurus extract [from] them.

But we do not try. How far have we gone? You must think now, somebody who is a left-sided person should think how far we have gone now, as our left-sidedness is concerned. Those who are right-sided should think how

far we have gone, how far in the center we have come and then think of the ascent.

Sahaja Yoga is simple, made easy, all right. Supposing I have cooked for you, all right, you have to eat it, digest it and use that for something. This cooking is done for the good of others. But people think of their family, house, children this, that, all these comforts.

So one has to really, dedicatedly, absolutely understand that our worth is much more than any one of these people put together.

I'll say My husband is working like this, I am seeing it and I am surprised. 4:30 he gets up and yesterday we had a dinner till 12 o'clock. He was so alert and talking to them in such an alert way, to these Chinese.

And every day he is doing that. How does he do it? You know that when I sleep also I am working; when I am awake I am working. All the time I am working. All right! you might say Mother you are Ādi Shakti.

But this My husband is not even a realised Soul, like you people are. There are so many like that. And he is not aggressive by any chance.

So once they start working, they start thinking how to make money out of Sahaja Yoga, just imagine! Selling candles, selling this. What are these other side of it? I mean you cannot sell Sahaja Yoga. That is one thing I want to tell you and proclaim today that anybody tries to do such a thing I'll liquidate that person and make him a pukka pauper. First of all you will get sick if you try to sell Sahaja Yoga. Nobody has to do such things. You have to keep that side extremely clear-cut, you cannot sell

anything. Also, whatever I am talking you cannot sell it in the market. Many people have this habit of selling it out.

Now somebody is writing a poetry about Rāma, what is the need to publish that poetry? What has it got to do with Sahaja Yoga? I am living here. You are writing about Rāma. What is the need? And who wants to hear that? Just think of it. Gregoire said, “Mother we want to publish your lectures and why are they publishing somebody's poetry there about Rāma?" Is this the job we are going to do? At a higher level become those great personalities, you see, which have achieved something. Learn music. I told you learn music, learn dancing, learn something by which you can manifest Sahaja Yoga. Otherwise, I don't know what's going to happen to you and to Sahaja Yoga in the West because there is no education or discipline here. We are free people, do what we like. We have to discipline ourselves. And now as you are newly born, you can do it. You have to discipline, `How dare I do these things, I am a Sahaja Yogi.' We have to take ourselves to task first of all. This is a very, very important thing and I find that is lacking so much. And you know this disease of lethargy or of high handedness is so contagious. Mister Patrick met Jason for five minutes he clicked him, Mister Jason met another one, he clicked him and if I find a link, you know, it is there. One lady like Jane, she meets somebody, she becomes bhootish. She becomes bhootish, then another person... You can link it back. You'll be amazed, how these things work out. They have a chain reaction.

So one has to be careful. But why not see to the person who is doing something about it, who is rising higher,

who is dynamic. I know who are there. They are the people I have now said these are your leaders, but some of them still go like that. You must assume your powers; that's the point I've been saying. We have to assume our powers, we have to be wise people, grown up, matured; we cannot play like children with ourselves. And this is what has been said many a times, but now whatever I've said it you put it in your action. Fight with yourself. Don't give excuses. There are excuses and excuses which you tell Me I said “All right." But, you see, I have another nature which you have not realised, I can recede! My interest is up to a point. What can I do? After some time like a glue, you know, it falls off. A glue can stick you to a point. If you get stuck well and good, otherwise it will fall off.

So that recession should not start in my mind.

So please be alert and don't worry what other problems you have.

Also I have seen that there are forces working like this. Now, somebody wants to do something, because he wants to do it you should not cut it out. On principle if it is good you should say `Go ahead, we are with you.' And that's why, I see, people don't work out. Like getting an ashram, any place will work out if everybody has positive attitude, if somebody is trying for that. Every collective thing. But everybody will say: “But, you see, if you take the ashram then who will pay for it? We are only five people." But Mother is there to look after you. Then will be another excuse something coming up that: “You see, if you take the ashram there could be such and..." But you just take it first of all and see for yourself. Like you

start driving and you say: “All right. We are going this way, but there could be a jam." But let us see if there is or not. Before hand how are you saying? I mean before facing the situation there will be ten suggestions immediately coming like a cock. Jack in the box suddenly will start, you see, giving their wise advice, cutting the legs of the people who are trying to do something. It's a very common experience I have had with Myself also. We are going now, see, in the car; I mean throughout America I have been telling people, “Now will you please shut up. Will you please now understand, let us do it." They decided to have a program after this program was over. It was in, I think, Vancouver. And I said all right then call them also for Pūjā because we have no time now to wait till they grew up and all that; call them for Pūjā. And I said come and have lunch also. They've got a fright!, “Mother we have not made any arrangements." I said, “What is there, we will make chola." We have no cholas, how to soak it? I said “Don't you worry." I told them, “Let us go to some Indian restaurant here and we'll get the chola." They said “it's not possible Mother, who will...?" I said “But let us go, I'm saying let us go." There was a discussion about it for about half an hour. “Oh! Mother is saying but how to...?" I said, “Will you please take Me to some Indian restaurant, anywhere?" “Oh we have to drive about three miles." I said, “Doesn't matter." “It's already 11:30 it will be 12 o'clock by the time we go there, there won't be anybody." I said, “I am telling you take Me to some Indian restaurant, why don't you take?" And the argument was on and on. I said, “Now, will you take Me...?" I felt like taking a pistol. And now, I said,

“Hands up. Let's..." [Laughter.] And when I insisted too much then very reluctantly they drove Me down. There was a restaurant there, I said, “Now go inside and tell this man that we want five kilos of this cholas with you if you have got chana." So he said “I have got it." They said, “Better get it for us." So he sold us. And he said, “I don't know why I am selling it you, I never do that way, but I am selling it to you." And he gave us. And then he said “There's a shop here." And he asked the person to open the shop and he gave us all the rest of it and next day we had a nice cholas. I've made them for them.

So we had it. But before starting they really, I tell you, they ate My head off. Same in Toronto, Toronto was much worse. Much worse.

Everywhere I found this is the thing. You try to do something. Now you have to take this ashram. There will be ten wise people immediately sitting “But for this how can we do it?" Then you don't have it.

All these explanations and all these things are not wanted. If you have any positive things to do, you do it. The thing is, is more talking and doing nothing is the point. Action is to be taken instead of that inaction, in such a way that it's only thought, thought, thought, thought, thought and everybody's talking.

But the system where one person talks and the rest listen always works out like in Japan, in India, if an elder is talking, nobody talks. All right! If Mother says so, “All right. Go ahead." I mean Gagan Gadh Mahārāj asked these people Modi and all that “Will you jump in the sea if Mother says so? Are you willing to die for Her?" I mean this is the first question a Guru asks, you see? Here,

dying? Only driving up to three miles you have to break your neck with them. Dying is too much! I cannot even talk of that. But even for everything it is happening and that's why Sahaja Yoga doesn't work out. And those people who try to do something, either there is jealousy or pulling him down or the wise counseling.

“If you do it who will pay for it?" There is Mother sitting, She will look after. “You should not take the ashram on hire, this will be too much for us." Everything, if it is free is very good. Now these are the two points I am saying the third point also I have to tell you and then I'll tell you the good news. [Laughter.] Now the third point which is very important one has to understand about third point. It's a very small thing but expresses in a big way in everybody's life. Now, you people are much more affluent than Indians are, but the amount of headaches I have with Sahaja Yogis about money I've never had in India which I must tell you very frankly. First we had the ashram, you know in Dollis Hill for which I don't know how much money I had to sell out. I think thousand five hundred or something. Second ashram we had, we had to sell out, again there. Now third ashram we had I think here also I had to do it. The reason is there is no proper account. Nobody knows how much money is there in the bank or not. And everybody is trying to save if possible at the cost of Sahaja Yoga. I mean this is such a low thing to talk about but it is so.

Everybody sees to one's own personal comfort but not to the whole working of Sahaja Yoga. Like so many have not even paid the rent. I mean are we going to go in litigation now, I mean, these people who have not even paid the

rent? I mean just think of it, you have not even paid the rent. Like in Dollis Hill they never paid the electricity, who is going to pay? Mother will pay, She does everything for us. You see Mother is looking after us, isn't it? So let Her pay for the electricity. Now here it is that people have not paid the rent. But for Dharma, for this great work, you have to donate. No question of paying for your rent, you have to donate. Do you understand? That is one of the principles of Lakṣhmī. These people have not understood this. You have to donate for this work.

You just think that Sahaja Yoga is for your advantage, all right, for spiritual advantage. But you do not take advantage of Sahaja Yoga this way. In India I never had this problem of money, I can tell you, this way, never. On the contrary, whenever there was a problem they stood by Me. Australia, same thing I must say, Australia has never given Me any problem of money that I have to pay out of My pocket.

Here the people have not paid the rent. Now those who have not paid the rent let... raise your hands.

Honestly.

So far. In the ashram. Everyone has paid? How much?

Sahaja Yogi: Seven pounds.

Shri Mataji: That's all, that's not much; but it's eight hundred pounds.

One must pay for Sahaja Yoga. Lavishly. You are staying here, pay for that. You see, I have seen people, just turn their faces. You are staying here. Free food is very good idea, if you can get even free lodging, London very good. You have come for the program, so what? You have come

here, now there's food, is all, pay for that. You must pay. You don't understand [that] today is the day of Diwali where people have to pay to God, God's work. Because Lakṣhmī Tattwa is like that. You don't have to pay the Guru. Thank God! You have free Guru here. Only 5p [$0:05] this time I took, isn't it? But you have to pay, not only for yourself but for your work. You don't even pay for yourself, you stay here free of food.

Think people have not paid for food. Many a times it happened. They don't even pay for the hall, one pound can you imagine? You try to save that one pound and you will be losing thousands of pounds, I tell you. Don't do like that. This is God's work, don't take advantage of it. And it was very far, very far I've seen.

We used to have one Indian who would come to our Pūjās and he would buy things for the Pūjā.

Coming this year he'll tell you. And it was impossible to pay him that money for that Pūjā things that he bought. He said this much my Puṇya. Even C.P. understands that very well. He says this is the only way I'm doing some Puṇya. After all what Puṇya I'm doing. While we try to save money out of Sahaja Yoga, is a very dangerous thing. Now, so far everything forgiven.

Why I don't declare Myself to be Ādi Shakti because once I declare Myself as Ādi Shakti, none of the sins will be forgiven, take it from Me. Is a very serious thing. All of them will be alert, is already said.

That's why I don't say I am Ādi Shakti, better keep at a lower level, so that at least you have given a chance. There is a mess of money everywhere. How can it be with all of you so good, so intelligent, giving wise advice

everywhere? And most of it is miserliness. It's so sickening, you know, to see a saint to be miserly, I've said hundred times, a saint cannot be a miserly person. That's one of the signs of a saint is that he cannot be miserly.

So much thinking of money. “If you can go this way one pound you can save." The money mindedness is so much. I have seen it every day, you see people used to work with Me. “We are not buying that paint because if we use the whole of the bottle then we cannot return it." I mean to that extent what was the need to bother? I mean the mind is such.

So don't save that kind of a thing. Labour saving devices, money saving devices, you see, are very well built in, very clever people. But they are all against you. You are so clever that you are cheating yourself.

Don't cheat yourself. Be careful. You are special people, you have to achieve special results with yourself; you can do a lot but these are the things you should be careful.

Everyone who keeps the accounts, who sends the money, who pays the money, has to be careful also.

And also the people who are taking advantage of Sahaja Yoga should be. There are many books which I have given to people I don't know when did they sell. Except for Gavin I don't think anybody has given Me a proper account of the books that were given to him.

Somebody asked Me for ten, twenty, I just trusted, I trust people. Or if they could buy, you see, one Nirmalā Yoga. “Oh we can share Mother about hundred people can have [one] Nirmalā Yoga, it's all right." Yes, that's very common, imagine Nirmalā Yoga costs you three pound

per year, used by hundred people, economical. But that's the Bible. Nobody has the sense what we are going to collect.

They'll collect coins, they'll collect I don't know what, stamps, I don't know what else they are collecting here, quite mad people. But why not collect Nirmalā Yoga? I mean, I read it, Myself I read My own articles, every time I find a new message. Why people have one Nirmalā Yoga going round and round and round.

One Nirmalā Yoga I saw once, here in the *[UNCLEAR]*, all torn, tattered this thing and I could see all the hands that have been laid on it. Because If you can save three pounds per year why not do it, we'll have the Nirmalā Yoga as well. Same thing about tapes, Mother's tapes, all right! “If you have one, can you lend me?" By the time it ends up, there is nothing left on the tape. Is this the way to come to God? To the generous of generous. There is no place for such a people. God doesn't like miserly people to enter into His kingdom. And when you have money. I would say that if you are poor people who are starving.

When I started My work in Bombay [Mumbai] they all said, “Mother, how will You do it alone?" I said “I'll manage don't you worry." And they said “We want to give you money." I said “I don't want.

Just now there is no trust, nothing, let us form a trust." When the trust started also you must know that I paid lot of money for the trust, Myself. We started the trust, in trust we started paying. Then, when we had established properly I said now you can pay. That year that moment when I was sitting there I said now I want money, you are

not so many Sahaja Yogis, fifteen thousand rupees, collected that moment I was sitting there. “What did you do?" “Mother, we didn't do anything." “Did you sell any ornament?" “Nothing." “Then how?" “We had collected, because you had said that you will be asking some time. We have got it." Cash, they brought. Fifteen thousand. In one sitting, just like this I was talking, said fifteen thousand.

And they saw to it, that paid. Here it is just on the meeting they'll say, all right, we will pay fifteen thousand tomorrow, day after. A person has to go after you to ask for money like a tax collector. This is absurd. “Mother I've got a very good house, I've got a very good wife, come and visit my house, I'll be very happy." What have you done for the Big House? You got your own house, all the blessings, what have you done for the Big House? One must understand that these are symbolic things which express your temperament, your nature.

When you are taking drugs you are spending so much money for drugs because you are addicted to it.

Why not get addicted to Sahaja Yoga? How many of you are addicted to Sahaja Yoga? Raise your hands.

Raise your hands. At least promise Me from today you are all going to be `Sahaja Yoga addicted'. Come along, raise your hands, all of you.

So this is the good news. [Laughter.] So, New Year has started and it's a beautiful thing, this year has to be something special. The first thing I was thinking about the school that you are going to establish and which is going to help you and your children very much, to begin with.

And then we'll be having different ashrams and different places.

Another good news is that we have now got the land near the Nīra river where you jumped into that river and the photograph of that time when you jumped in, is just like this in the sky, you find, the light all going on the sides with rays, it's wonderful, as you see of the Holy Ghost, exactly like that. It's a photograph, ahe ka to photo? [do you have that photo?]. It was with Dhumal I think, it was an instant photograph.

So that land we have got where you all can have your huts, nicely done, for all of you. It's already arranged. It's a beautiful spot, we're all going to have that nice time. And our old age is now being completely secured, so don't worry about the old age, don't try to save for your old age.

Now we are going to India for which we have got two programs and please try to make it easier for Me. Don't make it difficult. And if you make it easier for Me it's better for Me because even if I have to worry about everything then it's difficult. Like, we are thinking to have you on a plane which will bring you there in time. Now you can imagine you come at a time whenever you feel like at random, you want to go back at a time when you want to go. There should be some understanding that taking you to the airport from any place takes about thousand rupees sometimes and who is going pay for it? Extra? But you want to go to the aeroplane. You must tell Mother, “I have to go, I have to catch the plane, what am I to do?" Now, that's not the way. This time all of you are going by one plane and coming back by one plane. We

cannot have buses for each and individual persons and you know how taxis are expensive in India. We cannot arrange that. We'll try to make most of you arrive at a time when there will be a bus.

Moreover, if there is an arrangement that is possible we might be able to get a proper concession from Air India so that when you come back, mostly now Delhi we are not going, so it won't happen to that extent I am sure. Like merchants you see and carrying luggage, every person two hundred kilos will be lessened of course, also Air India will be kind enough to help us out with little extra luggage. But the way people carry their luggage sometimes it's... I can't understand. Two hundred kilos were given once upon a time to Me extra by Air India because of C.P.'s position whatever it is and that was also used by Sahaja Yogis.

Then all My things were left there and they just walked off with My luggage concession and those things had to come by ship or by some other people for whom I had to pay a lot, doesn't matter.

Whatever has happened is the past so forget the past. But in the new life, you should not have all the filth of the old life.

So every year one has to jump out on to a better life, a life of magnanimity, of sublimity, of spirituality. And of spirituality means no sympathy at all for a bhoot! That's one thing is definite, no sympathy! This should be decided today that you will have no sympathy for any bhootish person. Because when he sits on your head then you start saying Mother this has happened, but when you give sympathy to that person you don't

understand that you have been doing these things to a person who is anti God.

All bhoots are anti God whether they are in you or outside.

So fight them out in you or outside. Don't allow any bhoots to be dominating and once you understand this point that they are against God and you are the instruments of God, you have nothing to do with them, you will get rid of them. Once you become firm, they just run away.

So this second resolution has to be passed today that we'll have no sympathies with bhootish people and will not give funny council by which you stop the work. Many people are bhootish that way, I know that. Anything you tell them, like [to] Channe *[UNCLEAR]*, I said let us start a school.

“Oh, how can we do it, this is this, this is that." I said in Geneva “You start taking that big place." Many people came with great council, I know everything what has happened, you may not tell Me. I am not there, but I am there. I know all those people who tried these tricks, because they think they are very wise. At this time I am there to watch you and see you, but I witness you. But you will drop out. This is the point. Everything is recorded. Whatever you are doing. God has a registration office and how many marks you get is very important. You don't think that you have been given realisation, such a big position; then God is not watching you. He is watching your every step. There are angels with you to help you and there are Ganas with you, but also the registration office is registered.

So be careful. Then later on you will say that Mother I've missed the bus. There I can't do any hanky panky, I tell you, at that point. I cannot do anything. Only thing just now whatever is possible I can do it, so please work it out in such a way that you really ascend fast and this is today you decide. Tonight. How many are going to get up tomorrow at four o'clock, raise your hands. And have their baths before Pūjā and of course everything.

Not only bath, otherwise they'll say “we had the baths, so it's all right." No. But in proper dresses you have to be there in time. Actually so many times I come late because I know they must not have yet got up. What's the use of reaching there? Then when I reach they say “Mother stop, still is not yet done, we have not arranged." It has happened many a time, so you don't blame Me for coming late, it's just to give you facilities. I think that is better to go late so that there's no problem.

So the good news I have told you already that we are going to get beautiful huts for ourselves. I would like you people to give Me some good designs for your huts that you want to buy. It will be at a very, very nominal cost, but don't try to save there. You see, is the saving of savings. Like this $400 actually I did it under a wrong impression. I didn't know that it was $375 last year. I thought it was only 300 so I said hundred rupees [dollars] sufficient to increase. Now they are all called, shocked, “Mother, what are you doing, how can it be? The prices have gone doubled now." I said “Somehow or other I will manage. Don't you worry." But in the hut business also you must know you have to pay for your hut, you cannot get it free there. Or, “Mother it's all right, one person will

build and we'll come every year, we can share. It's all right, you make one hut for us, ten persons can share it." This kind of beggaring should not be expressed there. It's quite common here, “We'll share it, it's all right." But where are you going to spend your money that saving all this? You won't shave because you want to save money, you won't go to a hairdresser you want to save money, all right! Now you don't want to pay for your food, because you want to save money, you don't want to pay your rent because you want to save money, but for what? I can understand drunkards doing that because, you see, miserly people are around because they are drunkards you know. Drunkards always have to save money because they have to drink. But you are no more drunkards now? So why should you save? Only drunkards do like that, you see this miserliness is very much in England and all the places. It's reason, because they have to drink, you know, where will they get the money to drink.

So they save all their money for drinking. But you are not drunkards any more. And the thing that you are drinking is the nectar which is free.

So why are you saving all the time your money? So money making propositions and money saving proposition if they brought little low you'll be amazed that these are all joy killing. Bhūts are joy killing things. A bhootish woman if she is next to Me, you see, I want to run away, can't bear her. The reason is she's so joy killing, she'll go on saying “Mother, what is happening about my marriage now? My husband has not written any letter to me." Finished. I'm saying, “Now, fed up of her."

Then another will talk “Mother my house is not all right, what am I to do? My business is not working out, what am I to do?" All very personal petty things they'll discuss. Not of higher things. But in America I was so much happier that they never asked Me about personal problems, no one. Always talked about the higher thing. “But how is it, Mother? This is the Spirit, when it comes into you how is it the light is not spread so well?" They talked about Spirit, Spirit, Spirit. Nobody said “My husband is like this, my house is sinking, what am I to do? I have problems." They never talked like that, so they'll go much faster and you will stay stick on with your wives, children and your house and maybe I don't know what else here.

So be careful. Move your attention to higher levels. Unless and until you move your attention to higher levels how will you jump out? And this is another way you can give a lift to the newcomers also. You see, many newcomers are shocked by the Sahaja Yogis the way they are. They say “there is no difference. They tell lies, they try to save money at our cost." New people have come, all right! Are you a married man? Then they say “all right! You pay for today." We go to a hotel, he pays for them. The new man is shocked. All the Sahaja Yogis eat there, poor fellow he pays money. He is without any money; then he thinks `what sort of Sahaja Yogis these are, they are making me pay.' When a new person comes you all should pay. But if they know somebody has money then they take out the money.

This is a horrible thing to hear. And the whole problem is of money, “My husband doesn't give me the money, he

keeps the money at the bank, my wife doesn't give me money." I am fed up of all these talks.

Now no more after this, at least don't tell Me.

If you want I can give you two sticks, you hit your husband or your wife, finish it off. I have nothing to say, but don't tell Me about them. And if your wife is a bhoot or a husband is a bhoot keep her out.

Don't take a headache on yourself. And those who are marrying because they're in love with bhoots better give up. Otherwise, their love affairs and this and that, all sorts of things, I am so fed up with it! When are we going to talk about the eternal life? All right? So, I think for New Year we have had a little pep talk and a love talk and good news maybe we may be allowed to stay here if you all desire, if you do not give some wise counseling, I am sure we'll stay here. All right, when shifting here also there were lot of wise counseling, “It's very far away, what should we do, this, that." It worked out. Keep your wisdom to yourself, work it out on yourself. Try to find out about yourself through your own wisdom, `What am I doing?' And you'll be amazed how it will help you.

You have to shine. You are the leaders of tomorrow. You have to have your wings on. What are you doing? All these heavy loads throw them away, nothing important! Feel lighter. You have given up all that.

Now we are yogis, we are Sannyāsīs, what is going to matter with us, even if you don't get food, so what? God is going to look after us. He looks after us. And it is happened with people that they have all settled down very well those who have faith in their Yoga, they get their kshema all right. First look after your Yoga, is

important. That's the most important thing to look after your Yoga by which you do not falter into the ditch of this greed and lust and all those things that are surrounding us.

Try to lead a life which is detached. Detachment one has to develop. Detachment. Complete detachment is needed. Today I had a mind of bringing some present for you, because, you see, I love it, I love to give you presents. I don't know why? That's an attachment I have. [Everyone laughs.] But I said this today I'll just have little more detachment about it, because if I give it to few then they will be angry.

But I had a mind to give you some presents specially, but I'll give you some special wishes today that, let your willpower become enlightened, let you become the people with great enlightened faith and with enlightened strength. You shed off all these things of the past, come out of your shells, come out of your past conditionings and without jumping towards your ego cleanse yourself completely. Spread your wings and like a dignified bird you enjoy the ocean of God's bliss." This is what I bless you. The sky, the sky is the limit. There is no limit to your enjoyment, but drop out all these nonsensical things. Just drop out. You are saints, you are yogis, all of you are. You are not ordinary mundane people on the street.

Everybody's feet are to be worshipped, you are of that level. Your Mother has made you like that after Gaṇeśha. And what are you doing? Where are you lost? Take the responsibility.

May God bless you all! So, I am told you are going to give Me some music program today.

So why not go downstairs, it's a bigger room. Have you cleared it out that bigger room? Downstairs. People also can sit on the staircase.

Have you cleared out? Nick? [Shri Mataji converses with a Sahaja Yogi].

That's a bigger room. Is it clean? I have told Nick, go ahead. Good, two, four. Who are going to get up? One person will get up, little bit move. Labour saving. Three, four persons should go and help and do it, fast, come along. Young people, āa. Come along, come along. Come along. Hmmm. Just do it, put all the things in this back room. Ya, good. No labour saving.

How are you? All right? You can go there and arrange the music, everything. What about the food part? You never had? We'll have the music first or the food first? I think better have the music first otherwise they'll all sleep off.

[Shri Mataji starts talking with Sahaja Yogis.]

Sahaja Yogi: You see, what they wanted to do for You was to let You sit in Your room, watch the firework display and the bonfire,...

Shri Mataji: And then have the music.

Sahaja Yogi: Then have whatever you wish, fireworks, music...

Shri Mataji: Music we'll have. All right! And the fireworks. And till then arrange the music downstairs and the fireworks is on, all right? So let us go down there. Legs are little bit sitting down.

And this practice of sitting down also must be done. It's few exercises, we'll give you, that is very good to be on the Mother Earth. That is something to be learnt. You

know these people who have been to Gurus they sit so nicely, I was surprised. They were forced. And their Gurus told them if they cannot sit they'll have to sit on a thorny thing.

So they got a fright.

Let's go. I think go ahead now, is it ready downstairs Damle? But you are going all out first of all for fireworks, all right? Out in the open, for the firework.

So what I was thinking, that when will we have music then, it's the point, na?

Sahaja Yogi: Well, whenever You wish, Mother. When will You like it.

Shri Mataji: I was thinking first have the music and then go out; have your dinner there also and then the fireworks. While sitting before the thing you can have. Have the music first. All right?

Sahaja Yogi: Yes, is Debu Chaudhuri here already? Will somebody tell Debu the arrangement?

Shri Mataji: And then when we go out...

Contents: 1983-11-06 **Diwali Pūjā (Bhau Beej Day), Becoming the Ideals, Temple of all Faiths, Hampstead, London, UK**

With today's vibrations, you can see, when you are prepared for a Pūjā, how much you get it. Today you can feel it.

So the Divine is very anxious to act, only thing you have to prepare yourself. And all these preparations are going to help you tremendously. As we are now Sahaja Yogis we have to know that we have become something

different from what we were. We are yogis, we are higher people than others. And as such we have to understand one thing that we are not like other human beings who say something and do something, who can live with hypocrisy. That's why all the problems have arisen out of all the religions.

A person who says he's a Christian he's absolutely anti-Christ; who says who is Islamic, he's absolutely anti-Mohammed; who says who is a Hindu is absolutely anti Śhrī Kṛiṣhṇa. This is the main reason why all the religions have failed so far because human beings talk big of ideals. They all say that we have this ideal, that ideal, but they are not those ideals, they cannot live with those ideals. The ideals are not in their lives, they're outside but they go about saying that these are our ideals, they become fanatics but they are not the ideals.

By Sahaja Yoga now you have the method, you have the possibility, that you can become the ideals.

The ideal has to first to be understood through your brains, in the West specially. What are the ideals we have become or we have to become, what we can achieve, this idea you must have. And secondly you must have a capacity to deepen your meditative power so that these ideals go and settle in your heart as a part and parcel of your being, that you can't live without these ideals. We can take an example say of Christ. For Christ He and His ideals were the same, there's no difference between the two. He did not talk of one thing, did another thing and executed the third thing.

This will be the difference between the Sahaja Yogis and non Sahaja Yogis, that whatever are your ideals have to

be expressed in your life every moment because you are that. If you are gold, then gold is gold all the time. It is not gold sometime then sometimes iron and sometimes mud, it is gold all the time.

Only human beings are like that, that sometimes they can be snakes, lions and could be foxes also. But as Sahaja Yogis you become pure human beings and this is what we have to know. It is not difficult to strive for it, it's not difficult because now you have the power to deepen your roots to your heart.

So the brain must be used to understand clearly what are the ideals of a Sahaja Yogi. What are the things that a Sahaja Yogi should do, how he should behave in life, what methods he should follow? And then he has to bring it to his heart through meditative processes, through surrendering. How I give you second birth you know very well. I conceive you in My heart, otherwise I cannot do it. Because My heart is so pure it cleanses you; by compassion My love cleanses you and then I can take you out of My Sahasrāra, otherwise how will I do that? And when that is happened you have become a new personality.

So you are very different from all others because a Spirit has given birth to your Spirit. You have been cleansed by the Spirit.

So you cannot live like that, like all other human beings are living. All the clashes, all the problems of human beings are because they are not what they talk, ideals are out, out of their life. That is how a Sahaja Yogi will show himself off compared to anybody else. Take an example say of Abraham Lincoln, all right? Abraham

Lincoln believed that everybody must have freedom and the government should be for the public, for the people. Whatever He talked He practiced it. Whatever He believed in He worked it out and gave His life for it, that's why He's a great man. Think of Mahatma Gandhi, they were not like Christ, Incarnations. Think of any great man, think of Shivaji Mahārāj, any one of the saints, they were human beings. But once they knew this is the principle on which we have to live, they become one with the principles, they do not compromise.

So what Sahaja Yogi has to be that we should understand. A Sahaja Yogi is a person who has got Realisation through the Kuṇḍalinī and Kuṇḍalinī is the motherhood in you, is the caring, nourishing power within you. But mother will never compromise with the son; if he wants to kill somebody she'll say: “No." I mean a real mother. She will even shoot that son who tries to do wrong things. In the same way if you become the mother of yourself, then you have to look after yourself, in the same manner that you nourish yourself and all others also, you have to nourish them, care for them and do not compromise with wrong doings, unrighteousness things, absurd things.

Now when I tell you this it is not necessary for you to feel guilty. We have to look upward. Those who are standing even on a lower staircase, if they are looking upward they are all right, but those who are standing at a higher steps and looking downward, will go down.

So look forward. What we have to do in our day-to-day life in simple relationships even husband, wife, children, parents, are you becoming silent within yourself? Are you

nourishing it, with your silence, with your compassion, or you are supporting something that is absolutely anti-God? If you become the ideals, the power of ideals itself, will make you so dynamic that you don't need to consult anybody, you become the ideal. They are like torches. Your ideals itself will be enlightened.

So the first attitude should be: `How do we deepen ourselves?' That should be first attitude. Now say a husband, wife are quarreling morning till evening they cannot be Sahaja Yogis. Absurdities. If they are quarreling they are not Sahaja Yogis, take it for granted. Now what you have to do if two persons are quarreling, the one who is a Sahaja Yogi will leave that wife: `I have nothing to do with wife, I have no wife nothing.' Keep out, detach completely from within. Just don't talk to that wife. Don't discuss, don't bother about it, just detach. If the son is like that just detach, up to a point but no quarreling, no argument nothing. Complete silence, a silent protest, must be developed. But in that silence you should not be a cowardly person.

So many people are cowards and that cowardliness, they think is their silent process. A person who is really powerful will not deter, will not be aggressive but will not also take aggression.

So in your meditations you have to sit down. Now what do you say in meditation? Try to see all the Chakras. What Chakras are catching, face it yourself. These might be from your past life.

Some Chakras are weak. Try to make them all right, try to strengthen them. Because ideals have to be worked out the instrument has to be all right. If the instrument is

a crazy one how will you do? So first of all you must develop your instrument properly, it should be balanced, powerful, not cowardly. People should feel your power. Of course the power is of love, but love doesn't mean that you compromise with all the nonsensical things. There should be no compromise at all. It's a very self-certifying state. We cannot say when it is so, we just cannot say. Itself the state will certify that I'm all right now, I have reached that state. We cannot say after five hours, three minutes, two seconds you'll become that. You just mature and you see that maturity within you.

Once you understand that unless and until you become your ideals you are not a Sahaja Yogi. Everybody can call themselves Sahaja Yogis, there's not inauguration, we don't have any sort of a, inauguration of a university where people can come and get their degrees and diplomas: `All right you are certified twice born.' There are some who are several times twice born. They are twice born today, tomorrow they are not, then again they come twice born and again twice born.

Some of them can be one hundred and eight times twice born in Sahaja Yoga. And even then they are not certified.

So you have to give yourself a certificate. There's no university to do that.

You have to understand yourself, what are your problems, why you are behaving like this? You treat yourself as a child. When it is needed you have to rebuke yourself. When you have to glorify, you should glorify yourself.

So now you separate. You become the mother, the Spirit is the mother and you, whatever you are which has to grow, is the child. Mother is the ideal, she is the inspiration, she is the power and the child is the recipient. If the child is an obstinate fellow then you can't do anything about it. Also find out, you might be one of them. I know who are they like that. There are many and you can find them out in no time. Obstinate fellows, if they live with ten people suddenly we hear reports of their existence.

They are quite eloquent even if they are not talking a word people can tell you: “I had a fight with such and such. That person said such and such a thing to me, that person was so cruel to me, that person demanded this." You know which person it is, where.

You see as a diamond can be made out thorns can be made out, also anytime you go near the thorn, anyone without exception, it will bite everyone. It is not going to spare, it's a thorn.

So a thorn has to be a thorn. But if you are a Sahaja Yogi you have to be a flower and a strong flower and an eternal flower, that always grows, does not fade out. Always growing, never fades, such a flower you have to be, then you will be surprised that you do not get into a trip of ego, neither you go into a complete collapse of superego.

So much you know that any one of you can be called as a scholar I can tell you. I mean so many times people have asked Me: “Are they all scholars that You have, Your Disciples?" You know so much, much more than any Saint ever knew I can assure you. But you know only in

the brain, outside. It's all bla bla bla. It comes to the brain, you use it to show off to others and finished. It doesn't even settle down there, then how will it go to the heart? So everybody is talking big, they can impress people. I mean if some journalists come here they'll be so impressed by the Sahaja Yogis, so many wise men in England sitting down here. But you laugh at yourself; you have known all this because I've been speaking too much. Also the Spirit is shining. Let your Spirit shine in such a way that people know this is a man who is completely integrated: the Spirit, the talk, the behaviour, the life itself is completely integrated and this is what is Sahasrāra.

So if there is no integration you have not achieved your Sahasrāra. There will be no need to pull your ears.

A day should come when you all will raise your heads with great pride and glory because your ideals will shine like ornaments. I want to see those days when all those who claim to be Sahaja Yogis become that. That's the most important thing, all other things are useless. Getting an ashram, getting this, doing this, doing that, forget it. What you have to manage is this child which has to grow, who is still naughty sometimes, tries to misbehave. Now put it right. You give it a name. You call yourself a Sahaja Yogi and that child as Mister X, Mister Y whatever your name has been and always try to tell: “Now will you behave yourself." Get up in the morning, have your bath, sit down for meditation. “I feel lazy” the child says, “I can't." Then you accept the child, then the child will become the mother and you will be losing your powers, excuses. The child knows, very intelligent, it's a

very clever child, extremely intelligent, knows how to deceive you. But the child also knows innately what it needs. If it comes to know that the mother in you has developed that personality, then it accepts mother's personality. But if the child knows the mother herself is weak then he starts taking advantage of the mother.

So you have to not fight yourself but to tame and this is very easy. You'll start enjoying it, looking at yourself: `Oh Mister so and so.' Then you won't be angry. `I know how to handle you, you're hiding behind there, all right, giving excuses.' And the child grows big, so big that mother sees that and is amazed. Like in Śhrī Kṛiṣhṇa's childhood, the Mother was Yeshodā and the child was Śhrī Kṛiṣhṇa. It's very symbolic.

And He used to play very naughty tricks and She said: “You went and ate that mud from there. I know you have eaten." He said: “How can I eat, how can I, I can't even go out of the house. I'm sitting down here. Where is the mud? How can I eat?" “You did eat, I know you have eaten, so better show me your mouth." He says: “Really?" and then the mouth opens and the complete Viṣhwa Swarūp, complete vision of the whole Viṣhwa She sees and the Mother falls at His Feet. That's what it should be. This mother has to fall at the feet of the child that has grown. Very symbolic. That is how you have to grow, into that Viṣhwa Swarūp. Into that Collective Being, into that Virāta.

Arjuna and Śhrī Kṛiṣhṇa is another very good symbolic thing. Arjuna was a friend who used to take liberties with Śhrī Kṛiṣhṇa. Śhrī Kṛiṣhṇa tried to tell him about Gītā, all these things. But still Śhrī Kṛiṣhṇa could not convince him

of that. All these were just outside `bla bla bla's'; as Mother's talks are.

Mother's talks are very entertaining you know very humorous, nice to hear them, instead of listening to any music better to hear Mother's talks. And then the people think if they are listening to Mother they have become Mother already. That's it happened to Arjuna also but still he found out that there's something lacking in him, that he has not become the ideal. Still his attention is not there as it should have been.

So he asked Śhrī Kṛiṣhṇa: “I think I'll see your great image." Kṛiṣhṇa said: “All right are you prepared?" He said “Yes, I am prepared." And then He became the Virāta, the vision of the Virāta and when he saw it, he said: “Stop it, it is too much for me." That's what should happen to your friend who is this child. That it should become that Virāta and when you see that, should be amazed at yourself: “Oh God, I have grown like this." Just like Yeshodā falling at the feet of the little child, you have to fall at the feet of the child that is within you. I am sure this will happen now.

So remember that no argument, no explanation. Mother is forgiving. She'll forgive you everything, you know that. Anything you do I'll forgive you, even if you murder Me I'll forgive you, but you won't be able to forgive yourself.

So allow that child to grow, grow fully.

You must look after them and find out what's wrong with your children if they are crying. I know what are the children still not all right. Just don't pamper their ego. Work it out. Clear them out. It's important. Don't want to be bhootish. All their lives they'll be bhootish like this.

I've seen many children who are like this. They see Me, they cry, weep, shout. It's not a sign of a healthy child. Rajesh's son would not even look at Me, used to scream and shout. Now look at him how nice he's become.

So any child who is like that you don't say that, don't avoid the topic. Look after that child, put him right. You have to see that the child is all right. As you have to put your child all right also put the child which is really your son and do not live with that kind of a misunderstanding. If a child cries like that there's something wrong with the child. They are singled out.

If you find your attention is going here and there, if you are not attentive in the program something wrong with you also. If you go off to sleep something very seriously wrong with you. At that time if you are thinking of other things then something wrong with you. You get headaches, something wrong with you. Judge yourself, clear out, you must clear out, that's very important. If you are still getting into tempers, irritation, anger, there's no balance that has come in you, something wrong with you. If you know how to control your anger, then it's all right. You'll find out everywhere how negativity works in small things.

Everybody's improving but it's rather slow. It can be very fast if you meditate, that's very important.

You have to know how to make your Chakras all right. Your mantras are to be siddhis. Mantras are to be such that they should not be mechanical, just saying something mechanically. You should say it from your heart. Again, if you do not say mantras through your heart, mantra is not siddha, means you may go on saying

hundred times, it will have no effect. Siddha mantra is that, that you say that, it has an effect, it works. If it does not work then your mantra has no meaning.

So the development has to be within and without and you have to certify yourself. Nobody else going to certify you. If you want to give yourself a false certificate go ahead. If you want to cheat yourself go ahead. It's not going to help anyone. But if you want to really have the joy and the bliss of the grace of Heavenly Father, then come out of it. Many misidentifications that are there have to be given up to enjoy that beauty.

It's such a great day today to meet you all. Today is a day we celebrate in India where relationship between brothers and sisters has to be established. They're very pure. Brothers and sisters relationship is without any lust or greed. It's pure relationship where the sister prays for the protection of the brother and brother prays for the self-sufficiency of the kshema, well-being of the sister.

So this time you have to think of your other Sahaja Yoginis and Sahaja Yogis who are like your brothers and sisters. You have to think like that. Purify your hearts. It's something funny in these countries you know that there's no such relationship exists. Purify your mind today on that point, that everybody else is my brother or sister. If you are married it's all right. But look at everyone, try to look at everyone as a brother and a sister.

Both relationships don't exist.

This is a funny country where there is no relationship which is pure. It's such a filth I tell you. If you read them you can't believe it, such perversion. Specially innocent people like children are attacked. Think of them as

virgins. Be careful. And the young girls should know that they are virgins. If they go about with boys and they are Sahaja Yogis, they're not. Sahaja Yoginis have to be chaste women, powerful, chastity is their power and men too. After Sahaja Yoga men should become conscious of their chastity, that is their power too.

You see this was nomadic times when the men used to go for hunting and women used to cook in the house. Men were supposed to have five women, they were nomadic people, then they became sophisticated.

Then the monogamy started which reached a certain point. Then again this kind of an abandoned life started. This is nomadic life. Now women also have become nomadic. Men and women are all nomadic and primitive. After sophistication they have become primitive, this is the problem is. But now you have to become higher beings where there are pure relationships. Any relationships, supposing there was something in between Me and this instrument, we cannot use it. Any connection can be cut off if there is something in between.

To have the best connection is to have pure relationships and it should be discretionary. Mother is a mother, father is a father, sister is a sister, brother is a brother, all these are different, various types of relationships should be understood. Women must understand they are women and men must understand they are men. Also relationship to yourself is very important. Women should not try to be men, we cannot and men should not try to be women. Is wrong. Because basically they are different people. They are born differently. What is the difference? A man is more meticulous, he knows more about

machines, details about it. A woman will see the pattern. Woman will listen to the tune more, man will be seeing to the instruments. That's the nature God has created you. After all somebody has to see this and somebody has to see that, both are beautiful. Nobody is higher or lower, but enjoy yourself as being a woman, enjoy yourself as being a man. But man does not mean that you aggress women thinking stupidly that you are higher than woman in evolution. Or women dominating men thinking that by dominating them they can put them right. They have never put them right by that. They have gone absolutely cabbages, men have become cabbages. Wherever women dominate, men become cabbages. They have not put them right.

So both the qualities must be nourished and developed and the relationship between man and woman should be of pure love. Once you start purifying yourself these things will automatically work out and you'll respect each other. Actually you are all yogis. I have to respect you and you have to respect each other. On the contrary I find there is no respect. You are all great saints. Yes, you are. Respect, respect each other. You're not to talk harshly to anyone, to trouble anyone. Try to do as much as possible for others. This is the way we have to change. This has no brand, of any culture, is the culture of God we are talking about, is the culture of His Kingdom. Where we give others, enjoy giving, doing for others, loving others, caring for others, without any return. If you little bit help yourself the Divine is very anxious.

You have seen today that the vibrations are so much that really I am finding it difficult even to talk to you, sucking,

it's going on. Just a little thing you did yesterday, or this morning. Tremendous vibrations and you'll be thrown into that, you'll blossom into something. Just pay attention to yourself and first and foremost respect yourself because you are a yogi. You cannot be in-dignified, you cannot be stupid, you cannot be high handed, you cannot be dishonest. You have to be a sweet, matured personality because you are a yogi. I mean you should call yourself Yogi X, Y, Z. Should, you are, but calling Yogi and fighting and pulling each other's hair, then I would say it's better not call. Try to get rid of your problems which are very simple. If you cannot, then tell Me. I will tell you how to get rid of them. Face them out.

May God bless you all! Now today we'll not have any havan, that we have decided because in the Diwali there is no need to have any havan but we'll have just the Pūjā. Now today is the Pūjā, as you know there are five days they celebrate Diwali. The first day is the thirteenth day where it is the Gṛuhalakṣhmī's day, that is the day when the Gṛuhalakṣhmī is worshipped. But a Gṛuhalakṣhmī has to be worthy of the worship and then some utensil is given to the gṛuhaLakṣhmī.

Some sort of a utensil is to be given to the Gṛuhalakṣhmī as a present. That is the day Lakṣhmī was born, Lakṣhmī was born out of the Mother Earth. Out of the, we should say, Mother Earth but She came out of the sea after the churning, so that is the birth of the Lakṣhmī. She's the giver of wealth, wealth which is material as well as spiritual.

A wife who says that: “All right you save all the money” teaches the children to be selfish and teaches the husband to be selfish, to save all the money in the bank and not to be charitable is not a Lakṣhmī.

She's the One who teaches you how to be charitable, how to give to others. A woman who is very particular about her money and bank balances is not a Lakṣhmī at all. She has to spend. She's there to spend. Man has to preserve his money but the woman has to spend. He has to earn for she has to spend, but rightly, spend it rightly, not only for herself but for the family, but for the husband. She thinks: “What should I buy for my husband, for my children, for other Sahaja Yogis, for other people?", all her job. The husband earns and gives it to her and she does that. It's a very sweet distribution I think.

So that's the day of the Gṛuhalakṣhmī when She's born. She must have these qualities, if she's a miserly, calculating type of a woman she is not a woman at all to begin with. If she's worried about her own clothes and her own comforts and her own things then she's not a Gṛuhalakṣhmī. She makes others work and sits down herself and orders about, she's not a Gṛuhalakṣhmī at all. She has to work for others, she has to do for others, she has to look after. That's the thirteenth day.

Then the fourteenth day is the day when Narakasura was killed. You know Narakasura has taken his birth and he's to be killed, the Sahaja Yogis are going to kill him. You have to come up to a point and definitely he can be killed. When Kārttikeya is awakened within you he can be killed. But for that you have to be just like gold,

untarnishable. You need strong people to do that. A sword that can kill him has to come out of your metals, then Narakasura can be killed. He is one of the worst possible asura. That is the fourteenth day. When he was killed the gate of hell was opened and all those who were his disciples or his followers or Satanic people were put. That's the only day you can sleep late and a good news for you.

Then the fifteenth day, is the darkest night which we had, darkest night, that is the night when you put the lights on because it is the darkest night the negative forces can walk in.

So the lights are put because Lakṣhmī can come in. You'll be surprised how Lakṣhmīji is, that if a bottle of wine enters from one end She disappears from another. If there's a lady, she's bhootish in the family, they can never have the enjoyment of Lakṣhmī. The Lakṣhmīji runs away from them. They may have money but they cannot enjoy. The Lakṣhmīji will run away. Such a person will be so inauspicious I tell you. Supposing you want to, say, buy something and such a bhootish person telephones to you, cannot get it, finished. First of all your ears will be finished with the poison and then whatever work you are doing you'll never be successful.

Now this country is so full of such bhootish women, aLakṣhmīs, that I don't know how will they become all right. The women have to decide to get rid of their bhoots and not to carry on with them. They must meditate, they must try, if they feel sleepy they must go and have a bath, go twice, thrice, sometimes burning yourself a little bit, doesn't matter. See to it that you

don't feel sleepy and dreamy. If you are dreamy by nature then you are bhootish. That's the responsibility of women to keep the Lakṣhmī intact.

So that's the Lakṣhmī Day when we say that Lakṣhmī Pūjā takes place because that is the day you invite the Lakṣhmī to come in, the Rājalakṣhmī, the Lakṣhmī by which you become the king of the family, or the royal benevolence you can call it, the regal feeling in the family, that is the day.

Then comes the day, next to that is the first of the month in... That is the calendar, My forefathers, because you're all My children you have to use the same calendar, Shālivāhanas calendar and that is the first day of the Shālivāhanas calendar. And what do they do in the morning time to celebrate it? They take one of these jars, Aquarius and put a shawl with it and that is put as a ag, representing the Aquarius and the shawl of the Mother. That's why they are called as Shālivāhana, the ones who carry the shawls of the Mother, the `carriers of the shawls of the Mother'. That's how they put it up. The shawl on top of the Aquarius. This should be actually the flag of the Sahaja Yogis that you make it the Aquarius or we can say the jar [UNCLEAR, what do you call that pitcher? Or not pitcher but this lota business what do you call that, there's nothing used like that here. That one is kumbha, we can call in kumbha and the shawl is there so they put it up. That's why they] call as Gudi Padwa, Padwa means first day of the moon is Padwa and Gudi means `this'.

So they put it up and that is how they say that today is the New Year day for the Shālivāhanas.

Shawl is the covering of your Mother which gives it warmth and also it covers Her modesty. Shawl is a sign of regality and modesty and chastity.

So you stand for that of your Mother. You protect it like Gaṇeśha does. Only on one point He gets angry, if anybody says or does anything against the Mother, then He comes down. That's why Christ has said: “Anything against Me I'll tolerate, but anything against the Holy Ghost, will not be forgiven." That's the Son talking about the Mother, that's what happens.

So today is the second day. Second day is the Bīja, is the they call it the Bhav-bīja is the day when the brother and the sister, who are the seeds of one tree have that pure exchange of affection. The sister does the Ār.ti of the brother, gives him a tika and then brother gives her something as a token of his love, as a present. In Bombay [Mumbai] we started that and they have made sisters and brothers. I wish you also could find out somebody as a nice brother. But I found that these relationships have been so beautifully managed in India that if they could be managed here, it will be a great day of really ecstasy for Me, because that means you have overcome this devil of immorality. The purity, removing the lust and greed from your mind completely and bestowing that affection for someone who is your sister. Very common in India, everybody has a sister there; all the Sahaja Yogis have a sister and they look after their sister that way. Is a very sweet feeling and a sister is treated, like Raulbai is a sister of Dumas you can imagine and her sister is treated with the same grace as the own

sister is to be treated with all the relationships and everything.

So this is the fifth day is Dvija.

So from thirteenth to the fifth day they celebrate Diwali. For us Diwali has a very great significance. That is, from one light many lights are awakened and they are put in a line, so they are called as Diwali, means `the lights put in a line'.

So when you hold My Hands together all of us, through that the energy passes and the enlightened rasa is established and the whole world has to become that beautiful reign of your Mother where nothing but the bliss of your Father and His enjoyment when He sees His Own Creation dancing in that Ocean of Bliss.

May God bless you!... all the vibrations *[UNCLEAR]*.

You want to do Pūjā, all right do it, but I'm already finished.

[Sahaja Yogis recite the mantra to Śhrī Gaṇeśha. Once Shri Mataji stopped us and said:] Do it again, but this time do it from the heart.

[Sahaja Yogis obeyed and there was a beautiful lift of vibrations and strong flow of the Cool Breeze.] You see how the vibrations respond.

Contents: 1983-11-23 **Christmas Pūjā, Surbiton, London, UK (other date 11-21)**

It is for us to remember that Christ was born on this Earth as a human being.

It is for us to remember that Christ was born on this Earth as a human being. He came on this Earth and His the

task that was before Him, was to enlighten human awareness, with the sense of understanding, we can say it is actualisation within the awareness of human being that they are not this body but they are the Spirit. The message of Christ is His resurrection. That is you are your Spirit not your body and He showed by His resurrection, how He ascended into the realm of Spirit which he was, because He was Praṇava. He was Brahma. He was Mahāviṣhṇu. As I have told you about His birth. And when He came on this Earth in a body like a human being He wanted to show another thing that Spirit has nothing to do with money, has nothing to do with power. It is all powerful, all pervading but it is born in a stable, not in a palace or to a king but He was born to a very ordinary person, a carpenter because if you are the king as we say in Hindi Language `Barcha' then nothing is greater than you, isn't [it]? It means simply that, nothing is higher than you, neither anything can decorate you because whatever you are you are at the highest. All the worldly things so called are just like dry grass, thronawath so He was kept in dry grass.

To many it makes very unhappy and they feel very sorry that Christ, the one who came to save us was kept under such conditions and why not God provided Him with something better but to such people it does not matter. Whether you are lying in the dried grass or in the stable or in the palaces, everything is just the same for, it does not touch them, they are so detached and they are completely in joy. They are the masters of themselves, nothing can master them, no matter can master them, no comfort can master them. They are masters of

complete comforts within themselves. They have achieved all the comforts within themselves. They are satisfied people. That's why they are kings. They are called as kings, not those kings who run after things or those kings who seek comforts in life, I mean, if you have comforts well and good, if you don't have well and good, makes no difference.

So many people, especially in Latin America, when I went there they said, “But we can't understand why Christ was born as a poor man." This is again the human concept about God is. See He wants to command on God He born in a king's palace. You can not order Him about. We have our own concepts about God that, “Why should He be a poor man? Why should He be helpless?" He never showed His helplessness. He was much more dynamic than all your kings and all your politicians put together. He was not afraid of anyone. Whatever He had to say it He said it. He was not afraid of crucifixion or any such punishment so called. It's only the human beings, you see, who have these false ideas about life and that's why they want to put these ideas all to God also and make, try to make Him follow their own concepts.

God is not your concept. He is not a concept at all. To, also say that concept is after all is a concept is also concept, this I have found out very recently. This is another myth people carry. Those who say that, “Oh, concept is concept, all right, Mātājī says, all right, so what” but even this is a concept because concept is [a] thought. You have to rise beyond thought at a higher level into thoughtless awareness where you are not in thought but you are in the center of the thought. In the

sense that one thought rises and falls and there is a place in between another thought rises and fall. You are in the center of these thoughts, the Vilamba as we call it, the time where you falls. Then you will understand Christ. He was here partly, of course, to save us because He had many aspects, I should say, not only to save human beings He came on this Earth. There were many more aspects. This is also human beings have a demand, you see, that they must be saved, why? One should, I mean, from God's angle one should see, why should they be saved all of them? What have they done for God? How can you demand God that you must save us, can you? You cannot ask for that.

So He did come to create the passage between as you see here, the Viśhuddhi and the Sahasrāra, this Āgñyā, in the primordial being, the Virāt. He was born there to open that door in evolution; every incarnation has come on this Earth to open a particular door within us and to create that opening or that enlightenment in our awareness.

So Christ came precisely for opening this small little door which is constricted by our Ego and Superego. Ego and Superego are the two by-products of our thought process.

One the thoughts that are of the past and the other thoughts of the future. He came to make that gap to cross that gap and that's how He has sacrificed Himself. His body, for you it is a very big thing of remorse and repentance but for such people it is not. It's a play. They have to play a certain role. That's why I do not understand why do you show Him to be such a lanky,

panky, miserable creature! He was never miserable, such people can never miserable as you are. This is another concept of man that He should be lanky, panky, tolly, skinny, starved, bones coming out, count them one by one, horrible I tell you.

From His childhood to His death He was jolly person. He was happiness. He was joy, to make you all happy. To give you the light of happiness by enlightening your source of joy that is your Spirit in your heart, that He came on this Earth, not only to save you, first to give you happiness, to give you joy, because human beings in their ignorance and in this tomfoolery are unnecessarily beating themselves and destroying themselves. When nobody asked you to go to pubs to get into trouble, nobody has asked you to go to races and become bankrupts, nobody has asked you to go to horrible Gurus and get into troubles but you seek your destruction morning till evening then He comes there like a morning flower to make you happy first to make you happy, to give you joy. You see any child, you see any child, at least I know Myself I don't know about the funny people here, I mean, for them flowers also look like thorns, I mean, I don't know how they manage that stuff but you see a child anywhere, any child, such a joy giving thing it is and this is the child of the Divine, that comes on this Earth as a child, is the most joy giving thing and that's why Christmas for all of us, for the whole universe should be a festival of great joy, for He brought light for us by which you could see that there is someone called as God, there is someone who is going to remove this ignorance, this was the first beginning.

So for us it is necessary to be first joyous and be happy and relaxed and not to take anything that seriously as we take because Divine life doesn't make you serious because it's all a play, it's a Māyā. I have seen in all the rituals that people follow in all the so called religious people, they are too serious to be religious. A religious person will be bubbling with laughter. He doesn't know how to hide his joy.

And he doesn't know how to control his laughter when he sees people who are unnecessarily serious. I mean nobody is dead, the way people said sometimes don't know what to do with yourself. You just can't control.

So there is nothing in this world for a person like Christ to feel sad about and if you really believe in Him then please first of all give up your this silly sadness and sulking and sitting down and becoming marrows, not talking to anyone, silence bores all over. That is not the way to look at Christ. See how He went and talked to multitudes. How He opened His hands to all the people around and how He tried to give them happiness. He has said that, “You have to be born again." That means He had to do this work and that you have to get it sometimes. He has promised that you have to be born again. Christ is to be born within us. I don't know what Christians understand out of this. How do you become born again? Not by going through ritual of Christening, somebody coming from a Theological college cannot make you a Christian. Like in our India we have some paid Brahmins as you have here paid people, you see, the whole day they will eat, drink, be merry and evening

time they will come and pray and preach, that sort of people.

You have to be a person who is authorized by God. Unless and until you are authorized by God you cannot give joy. And that's why I have seen all these people this so called big Pandits and big priests and all of them are so serious because they are not authorized by God. Even on a Christmas day, I mean, anyone who comes from a village may think there is a funeral going on. And after the funeral they go home and how do you celebrate, with the champagne. And after the funeral, also, real funeral also they will celebrate, I don't know why they take champagne. How can you celebrate Christ by insulting Him? He came to enlighten your awareness because you respected your awareness, the point at which it had reached.

But you are trying to put it down. Is this the way to understand Him? And He has promised that you are to be baptized, you are to be born again and now in Sahaja Yoga this promise is being fulfilled.

So be joyous that here at the Āgñyā Chakra again Christ is born within you and He is there and you know how you can ask for His help, always. But the main thing that one has to understand that the time has come for you to get all that promised in the scriptures, not only in the Bible, in all the scripture of the world the time has come, today that you have to become a Christian, a Brahmin, a Pīr through your Kuṇḍalinī awakening only. There is no other way out and that your last judgement is also now. Only through your Kuṇḍalinī awakening God is going to judge you.

How is He going to judge you otherwise you think of somebody now? A person comes in, now here somebody sitting to judge you? How? By how many hairdressers you have been to or how many suits you have stitched for the Christmas or what presents you have bought and how many cards you have sent? And to how many people you have sent some other things which may not be very palatable. That's not the way, or is it that at what price you have bought all the things, the way we are particular, which way are we going to be judged? My God, not superficially people say, so what depth have we got, let's see, how far can we go in our depth, at the most we reach a point where we are nothing but a concept again.

So whatever depth we know of goes up to only rationality up to the concept point, beyond that we cannot reach, so how can we be judged? How do people are judged if you go to a doctor? He has his instruments and he works it out, puts the light in, see for himself and says this is the position and how your spirituality is going to be judged? How a seed is judged by sprouting it. When you sprout the seed and when you see it germinating power you know that it is a good seed or a bad seed. In the same way you will be judged by the way you have germinated. The way you receive your Realisation, the way you retain it, the way you respect it. That is how you are going to be judged not by kind of dresses you are wearing, by the type of matching you do and the hair dressing you go to, not by the big positions you occupy and the big politicians and big bureaucrats you become, not by what kind of houses you have built and by what kind of so

called Nobel Prizes you have won. You are not also going to be judged by your philanthropic work by that you think that you have given so much money, so much so because you, if you have given so much money there will be big ego somewhere hanging and it will bring you down your scale. This is the judgement in which the little feather is going to weigh much more than a ship. It is a different type of a judgement, of a personality. You can see how Christ was judged by human beings and how He was judged by God. He came and lived in the dried straw like a feather. His Mother never felt His discomfort. In the same way those who have not *[UNCLEAR* bide] their being oppressed others or taken oppression are going to be judged as first class.

In the Kuṇḍalinī awakening itself there inherent defects. Inherently the Kuṇḍalinī has some defects because of your previous Karmas, because what you have been doing in this life time, because the things that you have accepted as reality which is just a concept, because when you have not known the absolute whatever you will be doing there will be a little of ignorance with it. Whatever you have done in darkness will have a particle of darkness in it.

So without knowing Realisation, if you have propagated, “Oh, we are the saints, this that” you will have no chance. If you think you are a Divine personality and you are already a realised Soul, no chances. All the priests of all the religions will be the last to get Realisation. Valmiki in his Rāmāyaṇa has very clearly said a very interesting story is there, that a dog was asked, “What do you want to be in your next life?" So he said, “Make me anything

but don't make me a *[UNCLEAR* matabish]" a person, matabish is a person like a priesthood. "So make me everything but not a priest anywhere." Just imagine, a dog having that wisdom! But I do not say that all of them are like that. There may be some who are really genuine, some may be really realised people, may be authorized by God but I am sure they are not accepted by the multitude. I am sure of that because I have seen your history and all that. I have seen all such people have been discarded and have been tortured. But now the time has come to judge the right and the wrong. You cannot crucify any more. You cannot. Everyone is going to be judged through Kuṇḍalinī awakening.

Now we should know there are three categories of human beings. I don't know which way to start not shock you, one is human beings as we are normal. They are called as Nara Yoni. The second categories are Deva Yoni. Those who are born seekers or realised Souls, mostly realised Souls are Deva yoni. And the third ones are called as rākshas, these are called as Ganas. Actually these are called as Ganas. But it is, we can called as species among human beings, Rākshasas means people who are evil.

So we have evil people, excellent people and we have in between people. Excellent people are very few. They are born realised. I don't have their problems much. But one has to deal with the people who are in the center.

They are looking towards good but has something hanging on to them, which is not so good.

So for these people, they are inherently some defects in the Kuṇḍalinī which we must understand. The first of

them is bad health, physical bad health, actual physical bad health. In this country especially people suffer from too much of cold and other troubles due to over calcium in the water. In the same way according to the countries *[UNCLEAR* Sthanvishesh] as they call it you have problems. Like in our country we have some problems. Like in your country you have certain problems.

So physical problems are according to the country where you have taken birth. Most of you have decided to taken birth in particular country.

That's why you are identified also, to such and extent sometimes that you think there is no defect. Every country has a variety by which you suffer a certain amount of set back in your health.

So for a Sahaja Yogi, one should know that health is a very important thing because this body is the temple of God. And one has to look after your health. And you know also when the Kuṇḍalinī rises the first thing that happens that your health improves because of the parasympathetic fulfilment. Because parasympathetic gives you enlightenment, which flows into sympathetic and your health improves. I will not tell about it very elaborately today because time is short but if you read My, I would say I haven't written much but listen to My lectures and some of them are written down you will know how Kuṇḍalinī helps to cure most of the diseases except for which are being tampered by human elements. Like a kidney trouble, now has been cured by Sahaja Yoga, no doubt. We can cure kidney trouble. But a person who has been on the machine will try cannot be

cured. We can give him longevity. But he cannot be cured.

But to cure people is not your job at all by any chance. You must remember this. No Sahaja Yogi should take to curing people. They can use My photograph but not take to curing because it means you are a big philanthropic personality. I have seen people have been curing, get into such a mania of curing that they forget that they are also catching something and they are also getting some troubles and then they never cure themselves. Ultimately I find they get out of Sahaja Yoga. But with the photograph you can cure people. Do not think that this is your duty that you are a great sort of a, what do you call a benefactor, physical benefactor, no you are not. You are a spiritual benefactor but as a by-product, the body of the person improves because if Christ has to be awakened, if God has to come in this body then this body is to be cleansed.

It is done by Kuṇḍalinī. But it does not have a separate work like, hospitals. I have know people who were went so mad with their power of curing that they started visiting regularly the hospitals. And they ended up in the hospital only. They would not even come to programs. They would not even come and see Me.

So this is one of the greatest hurdles you have got is the Viyathi, is the bodily elements.

And the bodily element also should not take you down too much, if to be have some problem, forget it, gradually it will improve with some people it takes time to get all right. But the main thing is to get to your Spirit so do not always say, `Mother, cure me, cure me, cure

me.' But just say, `Mother, give me the spiritual life.' And you will be cured automatically. It may take time in some people, doesn't matter.

You have been sick all your life, doesn't matter, give more time. And also follow methods which we have told about different diseases, especially liver in this country, colds and what do you call this gout and all these troubles. We have remedies for all this, diabetes we have but work it out as a duty towards your body, towards the temple but that should not be the end of your life, that's a very little part. I mean it would be something like cleaning the whole place and then you get out of it. I said why did you clean, like I have seen here people, you see, even when we were in Oxford I was surprised everybody used to polish everything, you know and everything was a sort of, lawn was done very well and everything clean very well and not even a rat would enter their houses. For months together I never saw any person getting in only getting out and they were so particular, husband and wife so particular about cleanliness, neatness everything and the both of them would never even talk to each other. I have seen that. There were seven houses except for our house and she was, they were all surprised that how many people are coming to our house. They said, “Are you a open house or what?" I said, “Yes, it is a open house." They couldn't understand what was wrong with us. Nobody would see that polished thing or anything so that's how it should be that we should not go to that extent and it becomes a sort of real Sahaja Yoga and the rest which is the most important for God. Health will improve gradually as I have told you. But attention

should be on your Spirit. Attention should be on your Spirit because it is the attention, which goes into these various directions and gets stuck up. You just allow it to work out and it will work out.

The second hurdle which I feel is called as *[UNCLEAR* Akarmannitha, wasna] they call it, means a person does not want to work it out, of course, those people who are useless who do not want to have Realisation, forget about them. But even after getting Realisation, is an innate problem with people that they do not want to work it out. They are lazy in simple words, they are lazy. That is very much in this country, surprisingly, I mean, the other day I saw a picture where how from your country people went to Germany and blasted a complete machinery and a complete factory of that machinery which was sending pilot-less bombs. And they have over done everything so now the children are having a nice time, perhaps.

But in Sahaja Yoga you have to be alert. This is what exactly happens in Sahaja Yoga when people come here. They get their Realisation. They feel the Cool Breeze and it's lost again. The reason is they do not want to work it out. This is another danger, Akarmannitha. Then when it is lost, after one year they will come back, “Mother, we don't believe in it, but I have got some pain in the stomach, will you cure me?" Instead of you becoming so equipped with all the powers that you have, you become another useless person, coming here just to take My time.

These powers are all within you. This is your property. This is the property of your Spirit which is there inside,

which is about to manifest but because of certain hurdles that you accept that it does not.

This is Akarmannitha we can say, which is not working it out, not knowing about it, not understanding it what is Sahaja Yoga is, how to manipulate this, what are these vibrations are, how it works out, people just say, “Oh, it's too much” because they don't want to face the reality. Because as soon as your Kuṇḍalinī comes up, as soon as the light comes in before, the eyes are closed, you see, suddenly the light comes in.

You don't want to open your eyes because too much we have been sleeping. Even if you open your eyes a little bit, oh, God we don't want to face the light. Because you are identified with that state, you do not want to open your eyes. Kuṇḍalinī opens your eyes, no doubt, but again you close it down.

So is in your freedom to give up that, Akarmannitha.

Now this is also can be very collective. I can tell you this much. It's a very big disease which spreads.

Like say a husband and wife is there. The wife is one like that. Instead of the husband raising the wife he will succumb to wife, especially in the West, just opposite in India because there the husband is more dominating, the woman will succumb to a husband.

So what happens is that out of the two those who have got it also is just wasted. Instead of that both of them could be very well realised and could be there if the one who is realised puts down his will that, “No, I'll keep my eyes open to see. Let me see it. I must give a chance to myself." If they accept it then it works and then they go to the second step. Everything cannot be just like a jet

liner, sit down here and next moment you are on the moon. Even if you are in the moon still you may start with the third danger which is there, is Samshaya, is the doubting.

I don't know how to describe this madness of doubting. For example, out of all of you have been here I would say at least, I don't know how much percentage have come, have come out with the second day very great statement still I am doubting. Is that the sign of wisdom? What are you doubting? What have you found out so far? From where does this come? It's Mr. Ego, about which I have given lectures after lectures. It's Mr. Ego that is doubting it, because he doesn't want you find that. You are identified with your Ego and you do not want to find it because this Mr. Ego has been guiding your life throughout and now you don't, you want to doubt, doubt what? What are you doubting? You felt the Cool Breeze, all right? Sit down there, it would be something like somebody entering in *[UNCLEAR* to a college], university and they are going, sitting down first day there, the teacher says, `Now this the diagram I'll give you,' the students get up and say, `Sir, we doubt,' really? Then what should the teacher say? But they will not say that because they have paid the fees, they have paid it, even if it is a horrible drama, boring one still we go through it because we have paid it, you see, to go through, after all we paid it, you see, what to do? But for Sahaja Yoga you cannot pay. I have seen all kinds of tomfoolery people accept, I mean so many Gurus, like somebody says, “I am going to teach you to y” they are absolutely ready for that. They will pay money and not doubt even a bit. That

the fellow who is propagating, is he flying? Have you seen him flying anywhere? Please at least ask that person to fly. They will see the Kuṇḍalinī rising with their eyes.

They will see it pulsating, rising, breaking here, still they sit down and say I am doubting. Now who are you? How far have you reached? Why are you doubting? What are you doubting? What have you known so far about yourself? Now humble down yourself at this point. Humble down in your heart. No, I have not known myself. I have to know myself. I have not known myself. I haven't got the absolute. With what instrument I am doubting? This is one of the greatest hurdles of Kuṇḍalinī awakening and in after awakening called as Samshaya.

The second, the fourth one we can call it as Brahmathu is the one by which we go on faltering all the time, foolish questions, I mean there are certain things one has to follow if you are going on the road, you see, you are used to, say, continental driving.

So always, you turn on the wrong side but in London, you will be arrested. In the same way so far you have been doing continental driving. Now you are in London.

So you better take to the ways of Londoners and understand the roads and the maps and the regulations that are needed and try to follow them. But you are doubting it. That's the main point. Then you don't want to follow it.

So the Brahmathi, the mistakes that are arise because Kuṇḍalinī awakening is a free gift, to anyone who comes here, to anyone who has been to any sort of hell or heaven...

[GAP]... or has that in the body, point about it and why do you doubt? You are not paid any money. These two things go hand in hand, doubting and Brahmathisty, mistakes we commit throughout because we are doubting. That's why we don't take it up seriously. We do not understand it, the rule of the road. We just start driving and then we have accidents. And when we have accidents we blame Mātājī for that. That is a very, very common thing happens that we blame Sahaja Yoga. We blame that spontaneous happening within us. We never take the blame upon ourselves that, no, I must have made this mistake, all right, it doesn't matter. If I have made mistakes, I will rectify it. It's all right. Mother is forgiving, no doubt. I forgive. But sometimes My forgiveness is also of no use because unless and until you realise that it was a mistake you should go this way instead of that you have gone that way.

So the rule of the road is to be understood. That is the one come to us called as Brahmadth.

After that we have another inherent problem is called as Brahma Dharshan, hallucinations. We start seeing hallucinations especially live with people who takes LSD and all the such things. Then they don't see Me sometimes they just see light or any such hallucination, you see of the future or of the past. They may see Me as something else. Then they may see Me as something else. If you see Me in dreams, it's all right or see something in dreams it's all right. But you start seeing some things that called as Brahma Dharshan. Brahma means illusions. Then you start developing illusions. But the worst part of it is that people start telling lies about

it. I know about everyone. And when this Brahma Dharshan starts is the most dangerous thing, about vibrations also.

Some people are absolutely cock sure about themselves. I see that. And they'll tell all the world, you see, they'll dominate everybody, tells that the vibrations of this is not good, the vibrations of that is not good while they have no mastery over it. Now if I some or other, you see, I have to be careful, I can't talk like a teacher so I some or other all right you give yourself a Bandhan, now you put your hands towards Me and see for yourself and all that. If they by any chance know that I found out that they are lying then they are finished. I must keep up their falsehood everything in Me. In by chance, you see, I am very careful though because I know they are always on a slippery ground, so even if I mention in a way that is not so blunt or anything still it might happen but one must know that it is for our good that we have to stick on to the truth and we should not led away by our own ideas about ourselves.

Then another thing comes is *[UNCLEAR* ViseChitta] in which the attention is attracted by objects of your previous identification. Like your attention is has been, you see, I am very fond of cricket, all right, you are, but you should not be a sick person, I mean cricket doesn't mean that you become a cricket bat and you are good for nothing for anything else, for all practical purposes you are dead. That kind of craziness for anything what so ever gets your attention into a very wrong state. And it's also not good for all the Sahaja Yogis. Today's lecture is more for the Sahaja Yogis.

So I am pointing out what are inherent dangers of sustaining our Realisation which is very important to understand.

Now the two other very big dangers, which we suffer from, apart from that the people, get possessed and get ideas into their heads. They start singing songs this that sometimes I am so embarrassed I don't know what to say. I can see a devil speaking through them, just don't know how to tell them that, `Please stop!' Even praising Me I know what it is. But they'll just come up and say, “Mother, we want to sing a song to you” all right finished. I cannot say anything because they do not know what they are singing.

They do not know from where they take it, this knowledge. You see, something else is doing this. Because of all these problems that you get possessed. The other day somebody came to Me and said that, “Mother, I am feeling very over confident about myself and cock sure." Really? And, “I feel like doing something high handed” and he did it. First, he saw the possession coming into him and then he did it and did it in a very bad way. Everybody is angry with him, I know. But I am not, because something is done in possession, you don't know what madness people can do when they are possessed. I mean, they should end up in lunatic asylum but because being Sahaja Yogis they do all these things. But still they are not stationed where they should be.

Then there are two more stages in which Kuṇḍalinī which rises also falls down. This is an inherent danger in a person. Many people have asked Me that, “Mother, if we get Realisation does it stay?" It does stay, part of it.

Sometimes it is very thin part of it.

Sometimes the whole thing is sucked back. It is sucked back. If so then you will say we start doubting. Where is written that you will be lifted up and put in to something great, whatever may be your problems? Is it possible? Even from here if I have to go to India I have to get inoculations and vaccinations and then I have to get My passport, go through an interview. Why if you have to enter into the kingdom of God then you are going to be judged, not only judged but even when supposing you give a grace mark and all that a person is allowed to sort of get into a plane, may be that they may be asked to get down. It's possible. And that happens with some people that Kuṇḍalinī falls down. It's a very, very dangerous sign. It comes through many problems like Gurus and then going to wrong places, also going to spirits and doing all black magic and also bowing before people who are not incarnations, worshipping wrong type of deities and also doing, mad rituals, fasting at wrong times and not understanding the science of fasting and of ritualism and Chakras and the connections and complete synthesis of Sahaja Yoga and it falls down. In some people you have seen that Kuṇḍalinī rises and immediately falls down, is a very, very dangerous thing which is really very troublesome also. But still one can fix it up.

Last danger that we have which one should know that you start feeling that you have become a God or some like an incarnation or something. This is the biggest danger. And then you taking the law into your own hands. You start *[UNCLEAR* rebuking] others or doing all

kinds of high handed business or getting over self satisfied, with yourself. This is a very big danger. Humility is the only way to know that there is an ocean before you. You have got into the boat, all right. But you have to know a lot, you have to understand a lot and you have to still attend to your attention to your Chitta, to your awareness and you have to still work it out in such a way that you really establish yourself as a full edged Sahaja Yogi by which collectivity becomes your part and parcel of your being, by which you have no doubts left. From thoughtless awareness you jump into doubtless awareness. Unless and until that happens within you it is not mind but it is state in which only the Kuṇḍalinī will rise whenever you raise your hands. Unless and until you have achieved that state please try to work it out. Don't be lazy. You have to see around yourself, meet people, talk to them, the more you talk about it the you more you do it, the more you give it the more it will flow, the more you sit at home, “Oh, I am doing my Pūjā at home” nothing. It will stagnate and stagnate. You have to give it to others, you have to think of others. Thousands of them have to have it. And that's why it is important that don't get boated with the idea that you have all the powers of the world already manifesting, never. When these powers really manifest you are really not aware of them, absolutely. I mean, imagine the Sun saying, `I am the Sun.' Will He say so? When He is the Sun what is there? If you go and ask the Sun, `Are you the Sun?' `Yes, by the way, I am.' What can I do about it? Is that simple? You know, you become a very simple person, absolutely simple, because there is no camouflage. There is no

complication. You are that so anybody ask you funny questions, you say, `By the way what is there to ask?' It is so, I mean, if I am a realised Soul, I am, what is that matter? With this understanding we have to go to Sahaja Yoga which I must say I am surprised how it is working miraculously. And it is working out. But it is you who can settle it, within yourself. Now among you some are only on the periphery. We keep them on the periphery also, that you know very well.

Some of them come in the center. And some are very few who are in the inner circle. All of them are still in a state where they can be thrown out like a tangent go out, you see. And you don't know why a Sahaja Yogi behaves like that. If you see some Sahaja Yogi is behaving like that go in a tangent, know that you might do the same, so be careful.

So today, at this juncture when we are celebrating the great event of Christ's life let us know that the Christ is born within us. And the Bethlehem is within us. You don't have to go to Bethlehem. It is within us. He is there. And we have to look after it. It's still a child. You have to respect it. And you have to look after it.

So the light really glows and people know that you are realised Souls. Nobody will doubt that you are not.

May God Bless you all! Is there any question? Are you realised? Not yet, no those who are not realised should not ask questions because as I said today is the day of realised people. Those who are not realised, still having darkness so I would request those who are realised should ask Me question to begin with and those who are not realised should get Realisation first. You have read so

many books. What more question am I going to answer you, better get your Realisation.

Seeker: Please give me Realisation.

Shri Mataji: That's it, that's it, that's it, that's it, that's it. That you are going to get it. That's it.

That should be the Spirit. Just ask for it. You have to just knock at the door you will get it. You are going to get it. Any realised Soul, ask Me questions, please. They won't, come along.

[Shri Mataji is talking to a Sahaja Yogi about Her tea.] Gentleman: What is the significance of keeping the shoe?

Shri Mataji: Ah, significance of what? All right. These are My shoes. I kept it there. You are a Hindu, you understand that, Pathaththrana, you know Sanskrit or not? What is the significance of Bharata carrying the padhuka of Rāma, in the same way, all right? Have you read Rāmāyaṇa or not? Then all right.

So that's is the significance for this also, you have to understand first of all vibrations.

Where are the vibrations? From where the vibrations are coming? Then you will know the significance.

It is not mental significance. It's actual. Then you will know what does these shoes mean? What this hair mean, everything you will know, all right. But do not put attention on these. For example, you see, Indians always ask a question, “Mother, why do you wear white sari, you are a married lady” all right, see all funny things these. These are not important. The main thing is you must get your Realisation first then you will know what everything means, what it says because it's another realm

altogether. Like I have seen in England anybody who sees My this thing, immediately start laughing.

Seeker: [is asking about black magic.]

Shri Mataji: That I said it, you see. That possession and all that I said it. Yes, very true, very true, it is so. Black magic is a very big problem, I must say, very bad, I know in India it is, I agree.

Seeker: [is saying that laws should be changed to prevent black magic.]

Shri Mataji: But the problem is, you see, I have a chief justice of a one place who is My disciple, you see and you must have heard about Dr. Rangarajan of the High Court of the Chief Justice of our High Court in Delhi, who was there. He is also My disciple. And I told him that these laws must be changed, human laws because God law, God's laws are much deeper and all-pervading and they must be brought in. He said, “Mother when you will have 75% people in India realised, then we can change the laws." Till then half of them will be finished with mad black magic and whatever half are remaining will be taken over by our Gurus, falsehood. I agree but what to do? That's what he said that the law is that the 75% people in a democracy must accept that law. Now you imagine, what is the tremendous task is. That the great country with the big population 75% of the people have to have Realisation.

So now those who are new people today please come forward.

[Shri Mataji goes on to give Self-realisation to people.]

Contents: 1983-12-11 **Talk to Sahaja Yogis (Marathi), Site of the Proposed School, Chowk (near Khopoli), Maharashtra, India**

In the past many great Saints and Sādhus were born in Maharashtra. They have shown the correct way to us. They taught about religion and of the practice of religion. They spread the knowledge of the soul and always emphasized that without realisation of the Self, everything in this life was unstable and unreal.

Everyone of you have come to Sahaja Yoga and got your Self-realisation. You are realised Souls. You are Saints and Sādhus. The Saints and Sādhus of the by-gone days may not have assembled together as you have done here today. This land has been sanctified by your presence. On two sides of this land are the abodes of Śhrī Gaṇeśha. In the front there is a temple of Śhrī Shañkar known as Vaijnath and at the back there is the abode of Śhrī Dattātreya. The thought of having a school in such beautiful surroundings has been engaging My attention since long. Now Śhrī Bharwani has graciously donated this land, I feel that the school project should come up at an early date.

The Sahaja Yogis are industrious and hardworking. They cannot sit idle. They have to work for this school. Even in the Trust Deed [of the Life Eternal Trust] it has been mentioned that we shall establish and run schools. There is a great difference between a Sahaja Yoga school of our concept and the other schools. Our school will lay stress mainly on religion. It is not that in our school we will merely explain what is the Hindu religion or what is Muslim religion etc. Our school will teach the true

religion. Not only that but the people should be convinced and imbibed with the true religion. You understand many things about discipline, moral etc. without specifically being taught. In the schools the teachers have to threaten the use of cane and only then the students learn matters of importance. In Sahaja Yoga it is entirely different.

Many newsmen wonder and ask Me as to how Sahaja Yoga has produced so many scholars. They say whenever they discuss with any Sahaja Yogi, he talks like a pundit. They are surprised as to how you are all transformed into the image of Sant Kabīrdas. The answer is simple. In Sahaja Yoga the intellect becomes sharp and pointed like the needle. Not only that, but the whole store of knowledge itself is wide open before you. If so, someone may ask what is the necessity for a school? I will give an example. A person may have no knowledge of painting. He can even then tell you the different colours or the colour combination in the painting. But unless you have the special skill, you cannot produce the different combinations and give form to the painting. You may call it the technique. Unless you know that technique, you cannot give proper shape to your work. Without the technique it remains without any shape. Therefore, in order to give your work the proper shape, you ought to know the technique, The students of our school will be thought the proper technique.

In the first place, the knowledge of Śhrī Vidyā or Pure Knowledge will be imparted to the students of this school. Pure knowledge means knowledge which enables you to stabilize the Kuṇḍalinī, the knowledge of giving

bandhans, as also the knowledge of giving Self-realisation to others, such knowledge will be imparted here.

You may be surprised that many realised people and great Gurus I have met, are not aware of Śhrī Vidyā. They are great realised Souls and yet they are unaware of Śhrī Vidyā. They do not even know how to raise the Kuṇḍalinī. They do not know the Chakras or the process of cleaning the Chakras. The vibrations do their work. What is however necessary is the control over their movement or the manoeuvreing. This will be the principal subject in our School. This knowledge will be imparted to every student of the school from his early childhood.

In the second place education is necessary for earning a livelihood. In Sahaja Yoga there is no Sannyās or renunciation of worldly ties. You have to achieve your object while leading a normal life. There has to be non-attachment to worldly pleasures while leading a normal life. Therefore, education is also necessary for leading a worldly life. Moreover, in order to convey your knowledge to others, you must know the science of the alphabets and the language. Therefore, arrangements for imparting such knowledge are also to be made.

Taking all these matters into consideration, we are going to establish a highly cultured school. For that purpose after reverential bowing to the eldest brother Śhrī Gaṇeśha, let us worship him. It is Śhrī Gaṇeśha who gives wisdom to all. It is Śhrī Gaṇeśha who shows the way to use that wisdom and to remain immersed in that wisdom. Therefore after the worship of Śhrī Gaṇeśha is over, you may consider that we have started the school today.

There is a great demand for the School. People staying in foreign countries are very anxious to send their children to this school. Then there are Indian students also. In the case of local students the fees to be charged shall be at a lower rate. In the case of foreign students the fees may be kept at some higher level in proportion to the higher earnings of their parents. Of course, there will not be disproportionately high fees. We are not here for business.

One thing to remember is that nobody shall make any recommendation for admission to the school.

This rule should be strictly observed.

So also any interference in this behalf on the ground that the student is the son of your aunt or your nephew or such other relation, would not be tolerated.

Someone may say he has paid so much money and therefore his son should be admitted. This reason will also not be accepted.

Admission will depend on merit. How is the boy? Are there any vibrations? Is he pair [realised]? How is his conduct? The answers will determine the issue.

We are going to admit students who are pure and innocent. Whether they are children of the rich or of poor, will not make any difference. The main consideration would be innocence of the student, his innate goodness, his humility and his willingness to learn. A careful scrutiny of the parents would also be made. What is the use of admitting a student whose father is a drunkard and mother a quarrelsome woman? Such a student will follow his parents and even if admitted, he will have to be returned to his parents the very next day.

Therefore, it is in their interest that the parents come to Sahaja Yoga and get Self-realisation. No person who is imperfect or silly has any place in Sahaja Yoga. Then how can such students be admitted? The parents also will have to come up to certain expectations. It is immaterial whether they are farmers or laborers. They should be gentle, pious and religious-minded. I am again telling you that any recommendation for admission will be considered as a disqualification. We are going to admit students who possess the purest mind. We are not here for politics or for fighting an election. We are going to extend the best possible help only to deserving students. Those who are poor will be helped and nobody would know about the help. Man becomes great by his character. Keep this in mind always and work with unselfish and pure motives. Even some of the parents will have to be given Sahaja Yoga treatment.

Otherwise we will have to work again and again on the students every time they return to the school after visiting their parents. The work will continue day and night.

Another thing I want to impress upon you is that the use of a cane in the school shall be totally prohibited. Tell the teachers who are habituated to use the cane that this school is not the proper place for them. The emoluments here will be good; so also the other conditions of service. The teacher here shall in no case use the cane or shout at the students to make his point. He should rely entirely on love for his work and not violence. If any erring student does not mend or behave properly, his name

shall be removed. But in no case should the teacher beat the students or shout at them.

The attitude towards the students should be one of respect for them. If you extend to the student courteous behaviour as you would towards a Mahārāja [Great King] or a Mahārāni [Great Queen], the students would start behaving likewise. If you behave with courteousness and respect, the students will behave accordingly. What is wanted is the development of the students and you have to be careful about that. You cannot expect all the students to reciprocate the behaviour.

Some of them may try to vilify others. Many have this habit. If any mother ridicules the father, the child will have no respect for his father.

So also if any man ridicules his wife, then the children will have no respect for the mother. The people coming here will, of course, be having deep roots in Sahaja Yoga and highly cultured ones. I know that. But those of you who are Sahaja Yogis should not behave in a trivial manner or jokingly. All work should be done with due solemnity and in a thoughtful manner. Any person devoid of these qualities will not be eligible for Guru-hood. For Guru-hood you shall have to inculcate graveness and solemnity. You should then pass on the qualities to the students. But in no case should the element of fear or awe be introduced to achieve this objective.

We are going to provide here an ideal and altogether unique system of education. The students are going to be model citizens of tomorrow of this and other countries. We will make every effort to provide the requisite facilities on this land. If necessary we will arrange for

additional land. Where the students study in those pleasant surroundings, there will be noticeable change in them. The residents of the village Chowk will also feel the improvement. They will get jobs. They will become orderly and systematic. Not only this, but they will also experience the power of God. Once our school is established in Maharashtra, it will have repercussions everywhere outside. Let us first start the school here first. All other projects will be started later on.

Many people have given donations for this school. The money should be utilized with the greatest care. It is meant for the work of God and not one paise should be spent without due consideration. The continuous work should be neat and nice. It should be done with great care and attention. Our children behave as we do. We say that there is corruption everywhere. But the origin thereof is in the home, in the school and it then spreads elsewhere. Therefore the school should be constructed and run so that the students develop a sterling moral character. It should be noticeable in them. We do not desire to produce businessmen or politicians. We want good children here. It is these children who will rule over the world tomorrow. You go and tell the people in the surrounding villages to help us in this project. Assure them that we intend to help them. We will educate their children, particularly those of the Chowk village. They have a right to be admitted to this school. They are connected with this land. You shall also keep the rights of all others in view and do this work thoughtfully and with love.

Many experienced teachers have offered their services to this school. Two of them are from Singapore and one from Australia. There is one Head Mistress of International fame, who has also shown her willingness. They will come here to guide the school in tile beginning. You see how they work. They are very strict about cleanliness. They may not be as lovable as you are; but their sense of cleanliness is such that you cannot but admire. They are very straightforward about money matters. That quality is rather difficult for us to acquire. This is one good thing you can learn from them.

Everybody, therefore, should offer prayers to Śhrī Gaṇeśha, `That our school shall be established and conducted on the lines of the ideal pattern as desired by Shri Mataji; that the school shall be blessed with ideal students, ideal teachers and also ideal parents of the students and that the school should gather such students and teachers and parents from all over the world.' This should be your prayer to Śhrī Gaṇeśha and when He sends all this, a great work will have been accomplished. We want to establish and run an ideal school which will be the only school of its kind in the whole of the country. Everybody should pray to Śhrī Gaṇeśha with complete devotion.

Contents: 1983-12-15 **Śhrī Bhūmī Devī Pūjā (Hindi), Site of the Future Sahaja Yoga Temple, Qutab Institutional Area, New Delhi, India.....**

[While the mantras are recited, Shri Mataji stops them:] Do it again, but this time say it from the heart.

[Later:] Now the Deities are pleased! The vibrations are flowing.

Contents: 1983-12-15 **Talk to Sahaja Yogis (Hindi), The Relationship of Parents with Children and of Teachers with Students, Parent's Day Celebrations, Sahaja Temple, New Delhi, India**

What is Sahaja Yoga and what all one gets in it, you can know. But what I am going to tell you today is little about the relationship of parents with their children and how it is supposed to be. First of all, we develop two kind of relationship with our children, in that one is emotional and the other is responsibility.

Emotions and responsibility remain two different things. Suppose there is one mother and her child learns or does something wrong, still because of emotions she says, “All right let him do it, nowadays all children are like this, what to say to child, everything is fine." Another Mother is there who wants to make her children dutiful and responsible. For that she says to her children to get up early in the morning, be active, study hard, go to school in time, sit here, sit there, wear the clothes properly etc. and she is always behind her child to correct him.

Now I should tell you that this is not integrated. Today in Sahaj Yoga we have integration. Both the things [emotion and responsibility] have to be integrated. There has to be integration, not combination.

The difference between combination and integration comes because our emotions should be responsibility and responsibility should be our emotions. Like we love our children. Then we will say that because we love him

so it is our duty and responsibility that he should walk on right path. And he should walk on right path because we love him. If we don't correct our child or don't tell him the right way to live then it means that we are emotionally dominating. Then you say, `What is there in correcting them, let it be, let them do what they want, they will be hurt if we correct them or scold them, why to hurt them?' Another person will think, `No, even if they feel bad or get hurt, we have to purify them, cleanse them and make them shining'. But when integration comes then the person makes his own behaviour and nature such that it effects the child.

For example, father is very lazy person, he is drunkard, smokes and does all filthy things. Mother is very short tempered, beats and scolds the children a lot, speaks harsh. Then all this effects on the children spontaneously. Then even if you try to give them thousand preachings, nice education etc but they see what is your behaviour. How are these people? Nothing is going to effect by teaching or telling the children.

They learn by seeing. They see the behaviour of their parents and learn. They see how you behave with others and how you behave with them. How you behave with each other. Children always keep noticing all this.

There is a small story. There was one lady with very bad nature. She had her old father-in-law. She used to give him milk in a very dirty utensil made of clay. The poor fellow used to drink in the same pot without complaining. The son of the lady used to take that milk and give it to his grand father. One day that clay pot got broken. The child started crying loudly. The mother asked the child,

“Why are you crying so loudly, what is there to cry for a small clay pot? If it has broken doesn't matter." Then the child said, “Mother, I am crying because I am thinking that when you will get old then in which utensil I will give you the milk as this dirty clay pot is broken." After listening this, the mother understood and said that if the other pot will be purchased then you will not cry and give me the milk in that when I get old.

So the children always keep on observing your behaviour and whatever you do affects your child deeply rather than giving him big lectures about righteousness from morning till night. Therefore, all the Sahaj Yogis who are here and whose children are studying here should understand whether they have the integrated knowledge or not. After getting the integrated knowledge one doesn't feel bad if made to understand things and doesn't get spoiled even if he is loved a lot. My eternal love flows towards you all and I keep on telling you things and making you understand but you have not got hurt neither you got spoiled. The reason is because it is done with integrated knowledge. If the children know that you love them with full heart then even one scolding is enough but instead if you always keep on scolding them then they think that it is your habit to scold and they don't pay attention or respect.

So the children should be handled very carefully and with love.

In fact I would say that you must keep them with love. If you find any bad behaviour in them or negative activity then observe it three-four times and then peacefully sit with them and tell them that it is not good. You will be

surprised to see that if you behave with them properly and with love then they will be afraid to loose your love and will correct themselves fully. But if you have never shown your love to your child and always tried to correct him “Keep this here, keep this there, arrange this, do like this, do like that etc." then the children will think that it is your habit to always say like this and they will not give importance to what you say.

So your behaviour has to be integrated.

In our country we see that people speak lies, steal, do this, do that for their children. Even if they have to sell their country they won't mind to do it for the children. And it is reverse in the West that they are not at all bothered to put water in the mouth if he is dying of thirst. Both these things are not integrated. In the West parents think that our carpet should not get spoiled, our door should be neat and clean, our car should be alright and the children should work. They are always behind their children to clean here and there. Here in India we spoil the children, specially the mother spoils the children very much.

Sometimes even the father spoils the children.

So first of all we should face ourselves and see why we are spoiling them? We should not love them in a way that don't respect you or they don't listen to you and they should not think that they can convince you and justify themselves. In this way by giving them blind love we spoil them and put them on a wrong direction. In the same way by being too strict with them we make our children such that they turn their faces from us. Then they don't want to look at your face.

In between these two things is Sahaj Yoga on our Suṣhumnā. Therefore we should remain on Suṣhumnā.

Neither we should flow with too much love nor go with too much responsible behaviour. We should flow with the spirit. And when you will move with the instruction of spirit, then you will see that you will be looked after and your children will also be looked after.

This Sahaj School has not been made because there are less schools in our country. Many people can open schools, they can, they can even earn lot of money. Children will learn and become Graduates and everything can happen. I thought of opening Sahaj School because we need such citizens in our country who are special and idealistic. And where will these special and idealistic children be prepared? There has to be a special place where they have all facilities for it. Same way is the condition of teachers. If teachers are irritable, short tempered, every time shouting, “This is bad, that is wrong" etc. then the children will get spoiled and become like them, Materialistic. If teachers are overindulgent and spoil them with love without being strict then the children will also become like them. This is why teachers have big responsibility to make their life such that the children learn and they have great personality as an example for them. Children should remember in future that they had a teacher who had this special quality in him.

So this work is of very great people. In ancient time there used to be Guru [teacher] who used to be realised Soul and used to be very great personality. This is why your Gotra [ancient method of recognizing the university from which ancestors got educated in Gurukul] is Sahaj Yoga,

which is your university. And our teachers from Sahaj schools should be qualified as Sahaj Yogis and also the students. The best and extraordinary idealistic children should come out of this school after education.

This doesn't mean that they will become very rich and very dominating personality. But they will be such that they will become foundations of this world like Śhrī Gaṇeśha is foundation of this universe. In the same way we have to build many such foundations. This is why I am behind opening a school based on Sahaj Yoga. In the same way a big school of Sahaj is about to open in Bombay [Mumbai]. Its foundation stone has been established.

I hope that all of you will cleanse and open your hearts and move in the direction that you will make your children an idealistic personality. And everyone will collectively do this. How we have to remove the fighting and aggressive tendency in children and how to destroy the negative attitude of children, I want to teach you all who are the parents. But when this work will begin then you will see that how the parents will change and how the children will change. In the same way whole world can change. I don't see any other way.

So you all must understand your importance. And keeping your importance in mind you should move in this direction and make this school a great success. This will happen! I bless you all with the success!

Contents: 1983-12-24 **Unveiling of the Memorial Bust of Prasadrao Salve, Nagpur, Maharashtra, India**

[Tears roll down Shri Mataji's cheeks when Mr. Hidaytullah, the Vice-president of India unveils the bust of Her father.] I remember the moment when My father climbed the dome Nagpur High Court to hoist the Indian fag. We were standing below, inspiring him with `Vande Mataram'. He kept climbing amidst a rain of bullets, there was blood pouring down his shirt but he resolutely climbed to the top and hoisted the Indian Tricolour.

Contents: 1983-12-24 **Speech by Sir C.P. on the Occasion of the Birth Centenary of Shri Mataji's father, Nagpur, Maharashtra, India**

from Nirmalā Yoga, Issue 27 (May-June 1985), pp.48, 49 Most respected Vice-president of India Hidaytullaji, Hon. and Respected Dy. Chief Minister of Maharashtra, Śhrī Ramrao Adikji and Hon. Śhrī Tidkeji, Respected Śhrī Madhulkarji, Śhrī Gaikwadji, Śhrī Kishor Kashikarji, Sabi Bhaiya and my dear brother-in-law, my friend and the Central Minister Śhrī N.K.P. Salve.

Sir, may I offer on behalf of the whole Salve family, the large Salve family express to you our deep and profound gratitude for your kindness indeed to be with us here today. The unveiling of the statue of my father-in-law could not have been done by the person better than yourself. You have explained how lifelong was your association with Śhrī Salveji and therefore it is most appropriate this should have been done in the manner it has been done today. But it is a moment of devotion for us and all I can say, we are deeply touched by the very kind words in which you have referred to my father-in-law, the various anecdotes you have narrated about the

life spent with him and we feel deeply indebted, very proud. To Hon. Dy. Chief Minister, I say how profound is the Salve family to him. We all know he is the well-wisher of the family.

My wife, Mātājī Nirmalā Devī who is sitting here, always mentions that. I am very happy indeed and proud that, Sir, you are here today.

To Śhrī N.K.P. Salve I am indebted for many things, but I am indebted to him most of all for having brought me in touch with my father-in-law, who became my father-in-law later on. Śhrī N.K.P. Salve was a friend of mine in Lucknow University. I came to New Delhi and very kindly he introduced me to his family. And that was a turning moment in my life. A turning moment because I had come from Lucknow, a provincial Capital with provincial ideas and I met a person who was an Indian. He came from Nagpur, Nagpur you know is the heart of India. He belonged to you but he did not belong only to Nagpur. Nagpur being the heart of India, he represented the heart of India in New Delhi. He was first and foremost an Indian. You know when I come to my country India, as these days I am posted abroad, very often I meet, Punjabis, Bengalis, Maharashtrians and Gujaratis. What about Indians? He was first and foremost an Indian. And that created a tremendous impact on me. You know, he came from another state. I came from another state. But that created a tremendous impulse on me. Apart from this that he was a great patriot, great leader one other significant feature which almost captured anyone who came in touch with him;, we all talk that we should not distinguish between caste, creed, community,

government, language, religion. We all say that. But we say that on our lips. I wish we all could say that from our heart. And he did so. He not only said that all religions were the same, he did not merely profess, that, he did not only preach that, but he sincerely believed in that. And I don't think it even occurred to him to distinguish between persons from one area and another, or one language and another, or one religion and another.

Now this again was so vital for the Unity of the country. And he was totally dedicated to it.

I told you, big change came in my life. I married his daughter. I was very fortunate; because I came into the fold. I found, here was a person, who had dedicated his life to freedom struggle, who has fought for the country and yet, please believe me, Sir, I was with him on many occasions, at many places, he never once mentioned, that he has done any sacrifice for the country. This word did not occur to him. He thought always it was a great privilege for him to have been in the forefront of country's freedom struggle; to have been associated and been a colleague of pujya Mahatma Gandhi, Pandit Jawaharlal Nehruji, Maulana Azadji and so on. To him that was an end in itself, freedom struggle, fight for freedom, attainment of independence. Sacrifices that he made were never in the nature of an investment. He expected no return.

He did not want any return. He never thought in those terms. To him the main thing was the country, we Indians, to become independent. When the country became independent it was a proud moment for him because we all witnessed the hoisting of our national ag.

That was the return. That's what he wanted and he lived to see that.

What a valiant personality he was. He was a political leader. He was a citizen. He was a lover of cricket. He was a lover of music. You name anything he had interest in it. What a wonderful personality.

But again another feature in him which must have impressed many as it dealt me, was that many people came to see him. He saw many people but never did he distinguish between the rich and the poor, between the elders and children. He had time enough for everybody whoever it was, whether it was an old man he gave him respect, if it was a child gave him love, whether it was a rickshaw walla or whether it was a train driver or a big Honorable Minister may be, to him all were Indians, equality rights and he truly believed in that equality. He was a great citizen of India, a citizen of Nagpur, a great leader, a great patriot.

He had a unique combination of values. He never departed from those values. He never believed in compromise on values. Values to him were the high aspect of living. He believed that if we had to live, if we have to live together then live according to a set of values. That's what he did till the end of his life.

I could go on Sir, speaking about him because I respected him. I loved him. I admired him. He has left behind him many of us here. They are all very proud, very humbly proud but we can really commemorate him. We are most grateful Sir, that you have unveiled his statue. It's a great reminder of the great person.

But in what way can we really commemorate him. Today all of us can reafirm our faith in those values, being an Indian first and anything else thereafter, not distinguishing between one community and other, one state and another but serving our motherland, with total dedication. Then alone we would be really respecting his memory. On this day, let us then rededicate ourselves to those noble ideals.

Our thanks to you sir, to Dy. Chief Minister, to Hon Minister, I thank my brother-in-law Śhrī N.K.P.

Salve who is here. We studied together we were friends, when we came to New Delhi, he got me introduced to him what a wonderful association it has been, a friend, a brother-in-law. How proud I am of him. He is now a Minister, he is serving the country. It is my prayer that he may serve the country as he is in various traditional fields like his father and so he will.

And Śhrī Tidke has mentioned, it is not normal to mention one's wife in one's address, but I hope, you will forgive me. But I must mention she also is carrying the same tradition. I think her father's part in her is now leading her to promote a movement throughout the world, on the same principles. The principle of togetherness and that is even brotherly not just here in India but all over the world the brotherhood.

You know, Sir, how difficult is the world of today. The quarrels all over the world. They can be resolved only by one human family. She is trying to serve that. You will see Salve family in any sphere whether it is politics, statesmanship, religion, spirituality or humanity. They are all trying to serve in their small way and I am really

proud to belong to that family and on behalf of that family, I thank you all. Sir and all participants.

Contents: 1983-12-25 **Morning Service, 1840 Presbyterian Church, Nagpur, Maharashtra, India**

[After hymns, the Bishop gave his oration in Marathi during which Shri Mataji raised his Kuṇḍalinī. While he was speaking, Shri Mataji whispered to us (six elated and stunned Sahaja Yogis) on each side of Her:] The text is, “And God so loved the world that He gave His only begotten Son." [Then Shri Mataji smiled, lent back in Her chair and looked triumphant as if to say, `Yes, that is it.'] [At the end, Shri Mataji cures a crippled man in the very gateway of the church!]

[Three Nepali ladies from a village near Dharamshala (Himachal Pradesh) perform Ār.ti and sing bhajans:] You are My people, the people of Pārvatī.

[After the nativity play:] These are the foundations of the new educational system.

Contents: 1984-0000 **Meeting with a Professor of Mathematics, India (year not sure)**

[A colleague of Sir C.P. who is a Professor of Mathematics is telling Shri Mataji how he could work out a formula for the vibrations. She listens politely and patiently, nodding and smiling slightly. Then She seems to decide it is enough.] You see [reaching over to the coffee table and picking up some object like a bowl], you see, if I created this and if I wanted it to know Me as its creator, then I would have to evolve it up to the level that it could recognize Me as its creator. And that's all it is, it's just My desire. No, I don't have desires, it is just My whim.

[She has confounded him into thoughtlessness with such a succinct and simple explanation of creation and its meaning. Very soon he makes his excuses and leaves. She then laughs and laughs as She points to an Indian Sahaja Yogini who had been sitting on the floor next to Her during this conversation.] She is feeling sick, poor thing, catching on Void. His Void was so bad. It was full of scorpions and bugs.

Contents: 1984-0000 **Conversation with Anil Shetty, India (year not sure)**

[Shri Mataji is in a garden looking at the polaroid photos of Her which had just been taken. She is about to leave for Her bungalow and sits in the car puts the window down.] Where is Anil? [Anil Shetty, a very young Sahaja Yogi who came to Sahaja Yoga in 1975 but did not meet Shri Mataji before, is sure She is not talking about him and keeps quiet. Shri Mataji keeps asking about Anil and in the end She looks through the down window straight at him.] I am calling you.

[Surprised Anil approaches the car.] These photos are for you.

Anil Shetty: How do You know my name?

Shri Mataji: I know everything about you. Come with Me and I will tell you! [Laughs.] [Anil goes with Her and when they reach Her residence, Shri Mataji asks him to hold Her hands. She tells him all about him and then asks him to sing Her something. He sings one poem of Kabīr. Shri Mataji listens with closed eyes.] Now you know who I am.

Anil Shetty: Absolutely.

Shri Mataji: Never forget Me, ever. [Then She says that She had been looking for him and had finally found him.]

Contents: 1984-0000 **Quote related to a Delhi Leader, New Delhi, India**

(year not sure)

[Shri Mataji tells a Delhi leader not to go to work on his scooter. But he does as it was the only way he could get there and he is run over by a bus and killed.] You see, his jyotish [astrological influences] was very bad at that time.

Contents: 1984-0000 **General Advice on Children, Vienna, Austria (year not sure)**

from the book Raising Children in Sahaja Yoga, pp.54 and 55 [One Sahaja Yogini was working as a nanny in the home where Shri Mataji stayed while making programs in Vienna in the early 1980's. During this time Shri Mataji gave a few tips on how to behave in certain situations while She was interacting with a small boy of around two years who was playing in the house...] [Correct with a

toy:] [Shri Mataji explained that if a small child is not behaving well you can avoid getting cross with him and get cross with his toy instead. She took the child's teddy and started playing with it saying:] Come on teddy we're going to meditate. Come on, sit down. Oh, teddy doesn't want to meditate! [Shri Mataji played with the teddy as if he was refusing to sit down and was being naughty and doing all the things which this child sometimes did. The little boy was looking carefully at what was happening and laughing at how naughty his teddy was. She told us:] You can get cross with the toy, instead of with the child.

[Shri Mataji made a drama out of it and told the teddy off and smacked him. The child's attention was completely enthralled by this joyful game. Shri Mataji spent quite some time playing with him and his teddy in this way to show us how it can be done. Then She put the teddy on the floor sitting nicely for meditation:] Now teddy's sitting nicely, very good teddy. That's how we meditate [Shri Mataji explained that the child will get the message by what you are saying to the teddy so you don't need to say it directly to him. And you can teach them so much just by play.] [Let them have respect for you:] [At one point a father was rolling around on the floor playing with his son, who was only about one year old, letting him jump on him and sit on top of him. Shri Mataji told him that he shouldn't lie on the floor to play with the child and if he let him sit on top of him like that he would get ego and not have respect for his father.] [Correcting collectively:] [Once, the mother of the small boy was telling him not to do something, but he started playing the clown a bit and he was looking around at all of us. It

was very sweet and some people started laughing, while the mother was trying to get him to behave. Shri Mataji told us that we shouldn't let the child see us laughing. She said:] In India everyone will look very serious and all say no, if the child is doing something he shouldn't. They all look the same and so the child doesn't get confused.

[Shri Mataji smiled and laughed quietly with us, enjoying the child's sweet naughtiness but in a way that he didn't notice it, pulling a serious face and shaking Her head when he looked at Her.]

Contents: 1984-0000 **Quote**

If one accepts one's material responsibilities, then one has to go down into the world of filth and commonness and our vibrations get spoilt. However, we have been given the capacity to cleanse ourselves and by doing so we clear our Mother's creation and, in some small part, repay to Her the enormous debt we flowe Her. If we are not prepared to face the world, we go against the Viṣhṇu Tattwa and his Shakti Śhrī Lakṣhmī forsakes us. Further, we deny the fact of our birth and material existence in this world gained through the grace and auspices of Lord Vishnu supported by Lord Gaṇeśha.

If we do not accept our responsibility to maintain our Lakṣhmī, it will be hard for Sahaja Yoga to penetrate the material universe, for who will build the Ashrams and hold the program? Often in Sahaja Yoga one is asked to pay for this and that and people grumble, but they see only the gross drama, not the deep subtle meaning: that one is being asked to pay attention to the Lakṣhmī-Viṣhṇu Tattwa so that the Virātā can be enlightened by

the enlightened Ātmās we all possess by Mother's grace. For the enlightenment to have this meaning, we should enlighten the universe and enter gross matter regardless of the consequences for we are pure Ātmā.

Contents: 1984-01-03 **New Year Pūjā (Hindi), Sahaja Yogi ki Pahchān (Who Is a Sahaja Yogi), Universal Sahaja Temple, Ashram, 78 Krishna Nagar, Safdarjung Enclave, New Delhi, India**

from Nirmalā Yoga, Issue 18 (Nov-Dec 1983), Back Cover Every moment is a New Year for a Sahaja Yogi because he lives in the present and neither in future nor in the past gone by. For him every moment is a New Year, a new surge of joy (umang), a new wave. Just as one, while already swimming in the ocean of love is lovingly tossed every moment by the love all around, so also every Sahaja Yogi is to live in complete joy (ānand) love (prem) peace (shanti) and blissful delight (alhad). The question is whether we have learnt to swim thus? Only he should be called a Sahaja Yogi who has achieved complete satisfaction and tranquility [samadhan] and his pure desire has been fulfilled. He should now enjoy the supreme and unique bliss of his immense capacity to give this to others....

Contents: 1984-01-14 **Makarsankranti Pūjā, The Internal Revolution, Suryanavashi Hall, Mumbai, India**

.. All the Sahaja Yogis from abroad to this great country of Yoga. It gives Me immense pleasure; I have no words to express, to see Sahaja Yogis coming from all over the

world, all over the country to celebrate this special occasion today. It's so auspicious today that you all should be here; because you are the chosen ones, the soldiers who are going to fight till Satya Yuga is established on this earth. Is the day of revolution San-krant means san means you know auspicious, krant means revolution.

Today is the day of holy revolution.

I've told you about the rebellion that in rebellion we move in a pendulum from one to another end as a result of inertia. But through the ascent when we achieve a higher state it's only possible when there is a revolution and revolution takes spirally. The movement has to be spiral to land up at a higher position.

So this is the revolution, which is the holy revolution.

We have known of many revolutions so far; we have had revolutions in our country. In other Western countries also we have had revolution on the political grounds, on the grounds of disparities. Many other things have been fought through revolution but still the ascent has not been achieved within. I am talking about the revolution within ourselves. In this revolution you are very much helped by your own mother the Kuṇḍalinī and you evolve in a very sweet manner; in a spiral ascent to land up as realised Souls.

You have been very kind to come to this country because this country does not have the comforts and the facilities you have in your own country; so one has to be prepared for the roughing out, which may be difficult for some people to do so.

I had to buy a present for some gentleman when I came to Bombay [Mumbai] and I thought what should I buy? I'd better go buy some ivory piece for him.

So I went to the shop and I got a beautiful ivory piece called hitopadesh where Śhrī Kṛiṣhṇa is sitting on a beautiful chariot of ivory and giving the hitopadesh the sermon of Gītā to Arjuna.

It was very easy to buy; it took only half an hour for Me to go and buy the thing. But to buy the wrapping paper I had to waste two hours in Bombay [Mumbai]. Because you can't get a sensible wrapping paper here; and then the ribbon and then the flowers is an impossible situation.

So I didn't know what to do. I got absolutely, according to My husband, a third class wrapping paper.

Brought it back home; he said, “You can't wrap with this nonsense; it looks so horrid." I said, “Now, if you want, I can get silk to wrap it in this country but a wrapping paper is a problem." So when the gentleman was presented I told him very frankly; I'm sorry in Bombay [Mumbai] I couldn't get a good wrapping paper, but ivory I've brought for you and he was so enamoured by the present.

So in this country you have to see that we can get ivory but we cannot get wrapping paper. And those who are used to wrapping paper find it difficult to adjust because we are used to convenience of wrapping paper.

So one has to realise that the wrapping paper, of which we are so much fond of or we are used to, is of no importance; while you cannot get ivory in the Western countries. If you have to get an ivory piece I don't know

you'll have to move for years together to an ivory piece, but the wrapping paper you can get it in five minutes.

So one has to realise this is a country if you have to know about it you have to go deep down into it.

You have to develop a deeper understanding of this country. If you see the bathrooms and if you see the roads, if you see the houses all black, dark, dirty according to all the common standards of life. Forget it; forget it. You have not come here to see this, that all you can see in your own country and you have seen it. But what you have come to see here is the depth, the love, the affection, the human beings.

And you'll be very happy because you'll find very rare experiences, which will really enthrall you with joyous memories for all your life. Also, this country, especially Maharashtra, is a special country because the Kuṇḍalinī of the universe resides in this triangular plane. Or we can say this is the atta the triangular raised platform and hence the vibrations in this country, this part of the country are very great. Now to come to for Mahā Yoga as the Sahaja Yoga today has become Mahā Yoga you have to come to Maharashtra.

Maharashtra is the great nation.

So I'm sure you are expecting lot of things to happen to you; but keep your minds open because it's a revolution. It's not just a pendulum that from comfort you are coming to discomfort. One thing you have to realise it has nothing to do like an anti-culture stuff. You have come here to jump into your subtler and subtler sensitivities; so the grosser sensitivities must be neglected and negated, so that you can feel your subtler

sensitivities. Once you start understanding this basic principle of enjoying here, I'm sure the whole venture will be extremely fruitful.

Because all over the world we realise that Sahaja Yoga is the only way for human emancipation; is the only way we are going to transform this world into a beautiful place. For that we have to get into a proper understanding geared up; absolutely like soldiers into a disciplined life, so that whatever we want to do we can do in our optimum capacities.

So to allow your full capacities to manifest try to negate, to over look your gross sensitivities whichever come in-between.

You have to cut it short sometimes. You'll have to get up early in the morning; you'll have to bathe in a funny way and it will be a difficult thing. But if you try to adjust with this noble idea; that you are a part and parcel of the great Virāt. And that you all have to join together in such a way that in your sensitivity you become equally the same; that you understand each other very well. I'm sure you will enjoy the love and hospitality of your hosts here.

This revolution starts on such a day today I'm very happy.

So we have to have the revolution acceptable to us. You know when French revolution took place how people lived. When in this country people fought for their freedom how they lived. I know My father sacrificed every single farthing he had; he, we had to live in huts while we lived in very great comforts ourselves. He sacrificed everything. My mother went to jail five times.

My father went to jail three times and every time he was in the jail for not less than two to three years.

So you can imagine with so many children how they sacrificed everything that they had to achieve this freedom.

Now if you have to achieve the freedom of the spirit we must have the sense of sacrifice. But it doesn't mean sacrifice with complaint; but sacrifice that can be enjoyed, sacrifice of which you have to be proud, sacrifice that you don't feel, sacrifice that ennobles you. That is the spirit with which this revolution has to take place.

So far if you know we have not sacrificed anything. Of course ego and all these nonsensical things you have sacrificed, no doubt, but that you never wanted in anyway; none of you liked that ego. Even Indians had to sacrifice a lot they have given up many habits which are very deterrent or injurious to healthy growth of this nation. As Sahaja Yogis they have also come up so high, they have become very honest, extremely sweet and hospitable people.

In the same way I would say that My children abroad have really done marvelous feats to give up some things, which I thought would be difficult for them to do.

They have changed their moral values they have accepted a very strict moral code. And they enjoy that morality and that virtue.

I don't know how to congratulate you for this. You may say; Mother your love has done it, but I just don't know. I think it's your own capacities, your purvo Jan.mas

sanchitas; whatever you have earned in your previous lives has done all this.

Otherwise it is impossible even to change one person. All this change has come for the good, for the enjoyment and happiness. You don't have to change much more; you don't have to change but now you have to enjoy that change. And the enjoyment of the change comes when all the tags that you have from India, from East or from West are pulling you down; just throw them away and come up. All of you together should enjoy together the joy and the bliss of your Father.

So today is a great day this sankramana that has started requires serious effort. We cannot play about with that its very great emergency. I can feel in the atmosphere the emergency all the Gods and Goddesses are there to help you to work it out. You are on the stage and you have to create that great drama of revolution.

We have to show to this world that it's only the spirit that can save the world, nothing else. And so from today we start our journey towards that subtlety and that sensitivity, which you can feel; which you can feel Nīrānanda; your Mothers name is Nīra and at Sahasrāra you feel the Ānanda the joy of Nīra.

May God bless you.

Contents: 1984-01-18 **Talk to Sahaja Yogis, Vaitarna, Maharashtra, India**

If anybody does like that [na], they mind it, that's the problem is, this is a very different style of life, they'll never. Have you ever heard any Indian shouting at you? See, it is a different style of life, try to understand them.

They have to say, they'll just go and tell them, whisper in the ears that “Please don't talk, Mother is talking." Now they'll keep quiet. But then, you see, if you shout, anyone, if you shout, shouting is not Indian style. Have you heard anybody shouting? That's what it is, you see. It's a, your, I have seen that, like, French also really quarrel all the time, they talk to each other, the hohohoho going on. See. And I used to say, “How can it be." They said, “We talk like that Mother only, nobody minds it." They are used to this kind of thing. One talks with *[UNCLEAR* pretension], another talks with big *[UNCLEAR* extension].

So one has to understand the system is good in this country, is not to, as far as possible, to keep your temper within control, your tongue within control, yourViśhuddhi, specially the right Viśhuddhi kept in proper control. Now the sweetness and the mildness and a very soothing behaviour, you see, is an expression of love. As you, sort of, go deep down within yourself, into a subtler being, you'll find a smooth movement of your sap, of the Kuṇḍalinī which is nourishing, its not volcanic, it is not traumatic, it doesn't come out in a big, but a very silent movement of the Kuṇḍalinī. It's very soothing, it's very quiet and moves with tremendous speed but without any noise, without any bumps and if there is any bump, it stops for a while, which circles round that, circles round and goes up. And the pressure of our temperament, of our nature, or of our everything, you can say whatever it is, due to our conditionings, due to our temperaments, like anger, some people have pressures of anger, some

people have pressures of their habits also and some people have a kind of a conditioning of vanity, vanity.

Some people have vanity. Now this vanity is something stupid and that must be watched all the time and the vanity is more apparent in the West than in the East. Because it is so superficial, the life there, it's a very superficial life, if you notice. Between you and Me, we should discuss this point, that are we being *[UNCLEAR* vain], in our behaviours? We must face ourselves. The vanity is something we show off, like in our behaviour, there is more chance to be vain in the West than in the East, because the whole structure is based superficially onto the protocols of how you eat your food, how you keep your spoons, how you keep your knives, all this sophistication, what kind of a napkin you had and what kind of a dinner set you had and what place you have used it, whether it is cheapish or it is elaborate or sophisticated. The whole attention, it's just study from detached mind. You study, how much it is there that is not needed? And the pressures of these norms works so much on people, I mean actually people are nervous with it.

If there is one dinner in an English home, I mean, they are just jumping, because their idea is this, that if they have somebody for dinner, they should not end up with some sort of a bad name, the person can say that they are unsophisticated, they are very cheapish, they are very stupid, they didn't have this, they didn't have that. I am saying about the English, I mean all the West.

So they have to make extremely well, elaborated arrangements, plan for it, arrange it in a proper way, that

the spoon is kept properly, everything moves up properly, even if they may not have everything, they may borrow and to put it up just for a show. The whole system is, which is serious matter, you see, which gives you a tremendous pressure on the mind.

The artificiality of life gives you tremendous pressure and the artificiality, if you go on seeing how much artificiality we have in the West, you'll be shocked when you come to India, you can see that, see these dresses you are wearing here, these suits here, nobody minds it, they are clean, they are not dirty like...

either they have anti culture people who say we do not believe in artificiality, so they have all the artificial things like, not artificial but extra human like, lices [lice] in the head, they'll have bugs walking on their bodies all extra human you see, I don't know what, extra human things. They will be dirty people, not having baths, will be smelling, stinking, wearing a jeans for one year, you see, “What does that matter? Who are you? Who the hell are you to say what I wear? What I dress up like? I'll do the way I like." The other day I saw a very funny picture of a lady, quite fat walking with a funny dress, which had holes, you see in it.

So I asked her, “What is this dress?" She said, “This is the holy dress." In that climate, I don't understand why you need such a holy dress? It is so cold, that you would like to cover every part of your body, there she had holes you know just like diamond shaped holes, quite big big ones.

You see the trouble is the mind, once it starts moving on the artificial lines, you just go on building up yards, you see, you don't know what to do now, you have go dress

up something different, must wear something different, so they start building up something unique, then they'll have somewhat unique dress, then this one, first their tailcoats, now they don't have tailcoats, they must have another style, the another, the fashion, this that, goes on and on and on. And I don't know when it will end? I mean there's no end to it.

So in hairstyle say, for in every style, they have a typical idea. Like for example, nowadays the hairstyle, they have now in the West, would have been regarded as rustic in the olden days, absolutely rustic you see. Formally they used to put oil and put the hair absolutely straight, like that, in the Napoleonic time, they had, hair like Napoleon, then on and on and on.

So the attention was all as to, how you appear before, appearance was important. But while coming here, you see, people are not bothered so much about the appearances, you see here, though they look nice. Because the appearance conscious people can have horrid appearances, you see, because they are so much worried about it. Now, see the women in the West because they are so much worried about their appearance, their skins become haggard, they put on all kinds of things, you know, about five inches of cream, this that by the time they go home, they have no time, so they try to clear it out.

So, this is what one has to here see the deeper side of it, not the outer side of it. See the leaves as they are, they are not dressed up anywhere but look so beautiful, they turn their face only to the sun and they know that getting the light is the only way to look nice. And that is what we

have to learn from nature, that nature itself cleanses itself. Now you have to travel so much now, wherever it is just nature, there is no dirt, no filth, nothing, it's only the human beings when they live there, they create problems for the nature.

So one has to be little bit away from these horrible norms. Of course, I don't say that you should look horrid people, just coming out of jungles, you see, that's another extreme can be there. We have to be in the center so that we don't go to the extremes, we should look like normal people to the people, the way we dress up, normal, the way we have to be normal. And the pressures of this appearance business is so much that people are just drawn into that unhappy place all the time. And if you tell them that you are looking horrid today, that person will collapse that moment, that's the worst thing you can say to them. Despite that, you see people age very fast, because of the worry that they have about the superficiality. In this country, first thing you have to learn not to be *[UNCLEAR]* one point, as I have told the Indians should learn a lot of things from you. I have to tell you to understand that superficiality, like saying `sorry'. Now sorry just is a lip service, is just a lip service, doesn't work on the heart, you see, isn't it? We say, `Thank you'. Thank you is just a lip service, mostly.

So now how to overcome the superficiality? The point comes in. It only can work out in a very simple way, when we do everything from the heart, from the Spirit.

So whatever we are doing, we do it from the heart. Say supposing we have to eat something, say I have to go

and see someone, who is now this time a Minister, who was like My brother now he's an ex-minister.

So what do I think about him? I think how he was nice to Me, when we were young, I was a leader, he was one of My followers that time and then I'll think about what should I take for him? That's the of shankranti, so I take things that of shankranti, simple thing, something nice for his wife, could be like bangles, that she would like, nothing elaborate to show that I am wealthier than you, I am richer than you, I can afford to give you so, no, simple. Its expression of your heart, thought out things, what should we do? So you go to see them and give them something that is thought of. Now the normal behaviour is there, is to go to have it, get some chocolates and go to a dinner party. As soon as you go there, you say, `Hello, welcome. Come in.' Give them the chocolates, all right finished. Is that the job is done. Now give the chocolate and sit down. Then they come and ask you, `What will you have?' Then you ask them, you say, you don't drink all this. Then they'll say, `What will you have?' You see, on and on and on and on. But what I am saying is, the whole process is a norm that is made that we should go there, get some chocolates, go to the party, finished. No thought has been given. When you have heart in it, you give it a thought.

We had Sahaja Yogis before, who would come to see Me, on the way they'll find any flower, they'll pick it up and bring it to Me. It's all right, now, here, there are no flowers, nothing. On the road, they'll find some flowers, just bring it, then, they were told by some Indian people there that its not the way, if you are coming to see the

Mother, go to the market, get proper flowers, give it to Her. its not that you meet anyone and you take it. But, here supposing you are moving about, you'll find flowers, all right, you can bring them too. But where there is a thought about it, then what you do is, you go round, to see a flower for Me, there's a thought, the thought creates the feeling that I have to give a flower to Mother. Now where will I find the best flower? If that thought prevails, now this is, ours is not a thought provoking process, you see, ours is not, but the thought which comes from the heart and starts thinking what should I give to Mother when I am going to see Her. `Anything that I find on the road, should I take it for Her? Any junk I get it, some flowers I get it, some dry flowers, should I?' No. Have you given a thought to any `This is what is necessary,' for us to know because in this country, it is built in our tradition, we don't have to think. It's built in our tradition.

Like in England, they have marriages, I have seen, I don't know, maybe in every country, the boys and girls send their list of things that they'd like to have. And the people select it, there's a shop, where you go and buy them and finished. It's non sense.

I say, “Why do you do it?" They say, “It's practical." I say, “It's practical? It's very dry. But why do you do it like this?" So, they said, “Because, you see, these are the things we need and that's provided for and we all make the lists and its come to us and all that." But there is not thought behind it, it's no choice, nothing. And that you are asking for it also something so absurd in the

wedding. Also that part, I mean, think from an Indian mind it's absurd.

I had once a list like that and I told CP, “What's this non sense?" He said, “Buy one out of this and one out of Your heart." So we won’t be satisfied, unless we give something of our own.

And we have a Parsi community here, that is very much westernized, they too have something like this, that if you go to the dinner, you see, they invited Me for a wedding party.

So we asked people, “Normally, how do you do it?" In some places they give money also.

I said, “So do they take money also? Parsees?" They said, “No no no no no." I said, “What do they do?" He said, “Very simple. You find out who is the caterer." I said, “What does that mean?" You see, every caterer has a fixed price, say he's X Y Z caterer, then he has a fixed price of say, 22 rupees, all right.

So, you go, both of you are going 44 rupees, plus you give 3 rupees more, or 2 rupees, if you have, if you want to, or 44 rupees, it is sufficient, it's a contributory dinner. And there you go, they said, “Boys side people sit that side and girl side sit that side." Whatever you have paid for, the money goes to the contractor. I don't know what they must be doing, if somebody doesn't pay, do they write to them that, you better send money. It is an absurd situation. Why? You think about it. And it's very sweet.

What will I give, like the Sabari, you see, she thought “What should I give to my Rām when He comes in?" She must have thought, “Should I give Him some flowers? No

flowers, nothing, after all, flowers are nothing, that won't fill His stomach." Like a very innocent personality. She thought, “I will give Him the Ber." But then she must have thought, “They may not, they may be sour. Then what to do?" Said, “Should I taste them and see? I'll just put one tooth in it, that's all and I will know the taste whether they are sour or not. Whichever are sour, I'll throw away, the rest I'll give." And innocently she went and told and in India you know, how particular they are about this, there's no word for this jhoothan means, the one that you have eaten something or touched something, licked, which is finished in India even if it was spoon. I mean, like here, people, will take the spoon in their mouth and put in somebody else's mouth, or use the same, that's not done inIndia, its called an jhootan. The concern which is that once you have used your hands, for eating or spoon for eating, if that has touched your lips, it's jhoothan. Jhootan means, it's called as *[UNCLEAR* Ustha] in Marathi and in Sanskrit language, I don't know what it is called? *[UNCLEAR* Uchist]? So whatever is like that is not eaten.

So, but she did it. Because she gave it a thought and a sweet thought and Śhrī Rāma enjoyed.

So, to get over the artificiality, we must give it a thought from the heart, from the heart, like I thought, “What must, they must be doing?" Just thought of it and I knew that you were meditating. I said, “I better go now." Just a thought in the heart that makes you, so endearing you see, everyone knows that Mother knows about us, everything, because you are in My thought. That's what should be the case with Sahaja Yogis, that whenever they

want to do it for anyone, anything, any expression, it should not be artificial. Like shaking hands, of course, some Indians, when they shake your hands they, they take one hand up but doesn't matter, they do it with the heart. They shake your hand and then you'll feel, “Oh Baba, what a shaking." But I have seen people shaking My hands, INCO, in IMO there is horrid, I tell you, the passerby vibrations that you get, you don't want to do it because just the matter of their habit or that some of them press your hand very hard, some do that, out they don't think what is going to happen to this person. But the person, here, if he shakes your hand and he just makes you fight, I mean, shaky, it is just his love. You see the difference is the gesture is the same, one is done outside, like a lip service, another is done from the heart.

So if you can discriminate, between these two things, then you'll really have the joy otherwise you cannot have.

So we come to the point of joy. To enjoy something, just don't do it in a way that is superficial, then there is another thing which one should not confuse, emotional. Emotional is not also on the, supposing somebody, a person, now, goes on singing haha huhu, like a madcap, see that's not the way. Emotional also I do not mean. What I am meaning, in the center, where there is a kind of a gesture, which is balanced, between emotions and understanding, that is really coming from the heart. For example the other day, I went for a program, you know that, you were all there and then I went away, to that place where you were, I was with you, for sometime and then you all went away, I stayed on. And the lady came

and just put both her hands down My leg. And then she just hugged Me and everybody was angry, “What do you mean by doing this? That is not to be done." While others have greater respect, greater love for Me, but they won’t do that.

So it is not emotional exuberance, of things the way, people do sometimes, you know.

Like a Saranah? Go on, play that's not needed, what is needed, is not romanticism again. is to make it very clear, it's not romanticism expression, it's not romanticism, that's another kind of an emotional artificiality. And next day, after that, one goes for the divorce, its so artificial, you see, like many men, who are supposed to be ladies, many women who are supposed to be gentleman's ladies, they are very good at it. But it is very, very artificial, it's very cheap and useless and never joy giving. Even if you are emotionally too much involved into something, then you cannot get joy also then it becomes like this, that you become possessive of the person. Mother you must come to my room. Mother, I must sit next to you.

There's somebody sitting two feet away then he is feeling jealous of the person who is sitting one foot away from Me.

So this, what I am trying to say is, even the emotional exuberance is not reality, reality is when we really enjoy the relationship.

So one side is absolute gross, what you call the rationality, artificiality and the another side is this emotional black mail, I call it.

So both the things must be done with that dignity, with that depth and that depth if you have, then you do things, which do not look cheapish, or frivolous, but look very deep and have an effect, which is very deep and last and last long.

Now we have to know that we are in a very challenged position by the whole world today. That is the whole world is in a chaos today and we are the few who are finding out the solution, we are captain of the ship which is going to save the world, let's see that. We are the crew on the ship which has to save the whole world, so we have to train up ourselves like that. We have to behave in that manner; we have to have that discipline within us. Otherwise, what's the use of having some people who are just like street dogs, sometimes barking and sometimes asking for food? We have to have really people of valor, of purity, of understanding of very great heights. Because Sahaja Yoga doesn't need such people who will drag it down. It needs people of dignity, people of love, people of compassion.

Like Christ, who was embodiment of compassion, but have you seen him hugging round to any? Never? There's no picture like that. I haven't seen one, at least. They have done all kinds of nonsense with Him, but never I have seen Him hugging someone all the time. All right, when you meet all right, men can hug men, women can hug women, express yourself but all the time, tugging one to one woman, or tugging one to one man, is absurd for Sahaja Yogis, maybe your wife, maybe your husband, doesn't matter, doesn't look nice. It's not a very dignified picture, so the Sahaja Yogis, if they have to worry about

appearance, they must know from their heart, that they have to be Sahaja Yogis. Sahaja Yogis in every expression.

Like between the two Sahaja Yogis, there should be always tremendous respect, not only respect, but tremendous respect. Then whether, he is an Indian, or an Englishman or a French, you can have nice fun, little jokes here and there, but as far as the personality is concerned, you must respect. Ask others to sit down, you have the chair, you sit down but not that you go to the first seat and go on occupy one, first of all, you do it, that is one thing you have to learn from Indians, they have this capacity that the way they do it, you see, they don't think they are rich or poor or anything, now I've told today, I showed Gregiore that Rajesh has got eight or nine factories, the one I showed him a huge thing big thing like that, he is the owner *[UNCLEAR]*. But the way he was serving you food, he was enjoying it, have a look, nobody can believe it that he is like that.

Anybody, you see, whether he is rich or poor, or anything, there is a rapport because all this has to be lost in Sahaja Yoga. If you still think of these artificial barriers between you and human being, then we'll never solve the problem.

So, when we are dealing with them or talking to them, now I'd say that we'll be going all over there also.

So, I would like you to make them feel comfortable there. Of course they'll make a big *[UNCLEAR]* don't know, those are paid less, even a leper comes as a guest in India, he's treated like a, what you call, God. Because they said, “All the guests are God in this country." So any guest comes

in the house is treated like that. Only in modern times, when they finding it difficult, say in Bombay and all that, they get pested [pestered] by guests. Normally guests are to be respected, whatever they do. They should be given the best thing in the house. This is the culture of this country.

A guest has to be given whatever they have, you have, the best in the house. It's not like this, the rest of it is kept on the fridge and just take out the stale stuff for the guests, the best that you have, you give it to the guests and that is how it works out. Now you are there, they'll make a bigger, because this is the beginning of the tour, I am telling you that they really spoilt. Believe Me. Except for putting you on their heads, they'll do everything else that is possible, take it fromMe and they'll spoil you more and more and if you are visiting third time, then even worse. But in that, just feel their love, feel them and respect and love them. I hope you develop that oneness, because they are from the heart, these people are from the heart, they are religious simple people, from the heart, whatever they are doing, for them, it is so difficult, you know yesterday, I told them that I have to pay for the food, you see, there's a big fight going on between them. “This is our chance, they said when can we feed them after? This is our chance, why should we take away our chance?" I mean imagine, those poor people who are there, just fishermen and fisherwomen.

“When can we feed them after this? This is our chance, when can we feed them? This is our chance, why should we take away our chance?" I mean imagine, those poor people who are there, just fishermen and fisherwomen.

They wanted to feed Me. This is our chance, you see. And Rajesh wanted to pay for the lights.

They said, “No, this is our chance." He said, “Now will you please put these lights but I don't want you to be indebted for this." He said, “No, we have already collected money." But Rajesh could manage. He said, “I am also one of you, I must also contribute part of it." So the thing is done. Fight is I must do this, I must be this, I must bring this.

So we have to turn a new leaf in our life, of this simple beauty within ourselves, which we have, all of us have. Because we enjoy the stories, isn't it? Don't we? When somebody is telling the stories of this lovely, we enjoy, so why we don't have it ourselves? Something surprised Me about human beings, I have seen that, you see, a bad woman will enjoy a film and weep when she'll see another bad woman in the film torturing someone. But when she'll come home, she'll torture equally. I mean she enjoys that, she likes it. She wants that such a woman should be corrected but, she herself won't correct, it's a funny human nature.

Now when we are enjoying these stories, we have to be like that, we have to enjoy, this part we have to enjoy and God willing I am sure, it's going to work out this time, a much deeper love, affection, understanding between ourselves because inside we are all one, we are all correct, we are all collective, just we have to reach our depths, by little deliberations, penetration and confrontation with yourself and if you work hard and it's so beautiful, I mean, just think of it, you'll feel so beautiful about it that, `Oh, it happened like that? How is

it?' It's certain points of enjoyments, like I'll tell you, Ruth went to some Italian place and Sicily I think, where did you go? Where you met her? And she had a, they didn't know each other, you know, just they sat in one place and suddenly, I don't know how she discovered Ruth and Ruth discovered her as to be Sahaja Yogis. And then they met with that love and I mean they felt such nearness I mean they have never known each other, you'll be surprised also, when you'll meet Sahaja yogis, you'll feel that nearness much more than anyone of your relations, or friends, or so called. But deeper you grow, into it the better it would be and it would work out.

Now there are some new people who have come and I would like to meet them, who have come for the first time, not today because, not the, moonlight won't be sufficient light to see there.

So, I'll meet them sometime, one by one, I'd like to arrange some time that they come and see Me.

So tomorrow, we have an arrangement that in the morning time, we all get up and have your tea and you need not take bath, because we are going to have a bath later on. Take your breakfast and everything and then you have to listen to this tape, or you can go for your swim, whichever way you like, I mean what time you think you'll be ready to go for a swim? So morning time, after tea, you can have the tape and then the breakfast and then you go out there and you can have your swim, bath everything, come back have your lunch, afternoon rest, then we have a Public Program about 5 o'clock, we'll all have to gather here for a procession, that's the first procession that we'll be having with the villagers and

we'll be reaching about 7 o'clock and there will be a meeting at about 7 o'clock, will be over by 8 or 8:30, then we'll have our dinner and all the programs, is all there, but its better, once you tell them all the the programs we have, that it is very interesting program we have made.

So what is after that, can you tell them Warren? You stand up and tell them. You told them? All of you know? So you like the program? All right. I mean if there is any problem with the program let Me know.

Only we'll have a little problem, which I must tell you, its better to tell before, than to see them, that will be when you go to Aurangabad and from there you see, from Aurangabad, when you come to Rahuri, it is going to be a long journey for you and in that long journey, maybe, you may not be able to get anything to eat, I don't know whatever it is the situation is, because I don't know. What time you leave Aurangabad? Where will you have lunch? Packed lunch, all right. And then you'll start from there.

But it will take nothing sort of six hours, the whole of afternoon for you to reach Rahuri.

So you'll reach there in the evening time and evening there's no program in Rahuri. Is there any program? No.

So I'll try to reach Rahuri by train, I am thinking, but its quite far away from Dhulia I'll take a train and reach about in the morning time.

So from Dhulia, I was thinking of coming back by train to Rahuri.

So you can receive Me at the station, they'd all like to receive Me and then in Rahuri, now, you see, the thing is,

a kind of a thing we had like this, remember and the Rahuri people are not happy, they thought that you were not very comfortable there and all the now they have this *[UNCLEAR* Laguna type] now you have got this Gokul type. But I don't know if you like the other stuff, we can do it next trip, this kind of a thing you have. Let see, but that was not so comfortable though. The bathroom and all that were not so good.

All right, you see this place, if you don't like this one, you would like to go to the same village sort of thing then we can do it. Yes, but you see, we Indians, have not been to the West have funny ideas about comfort. To all, all house made of cement is the ideal. I mean that is the maximum, the greatest luxury.

What to do? Because you have lived through cement, you haven't yet live through, still? That's a cement place absolutely, I must tell you. That's a real cement, without any stone whatsoever. Take it from Me, no doubt, I am sure of it, because that's the greatest luxury for Indians to have, you know, the stone, what you call, this floor, is much cheaper than the cement floor in this country, yes it is. It's absurd. For example, the terricot is much more expensive than cotton, you must take some cotton shirts, they cost you about 40 to 45 rupees. But if you want to take to tericott shirt, it will cost you 150 rupees.

So this is a funny country, no, in this respect, upside down.

As I was telling him that we want to have huts for you and absolutely huts, but still they say, “Mother, why do you want to torture their lives?" What to do? I was telling to Gregoire and Warren, you better talk to Dhumal about

it because he thinks that I am trying to put you to ordeals by putting you in the huts. “What to do now?" I told them, “I mean, Baba, they like it, they'd love to have rest." “No, that's an ordeal." Now how to deal with them, you see. The point is, they are on the other side of it, so you better tell them that if Mother wants to have the hut, no, we want to have the huts, not Mother, because if I say Mother, then finished and even thatched roof you say you will love to have, tell them `you like thatched roofs.' They will all put their hands on their heads and sit down. But don't tell them that I have given you the idea.

I said, “We have upside down brains, either theirs or ours. But they like something that you really don't think much of it." So, I think thatched roof. That's the solution, I drew something for Gregoire and I showed him what sort of thing I have an idea *[UNCLEAR* near Nira].

So we'll have three types of huts, one small, one bigger and bigger and the kind of things, we'll have there, but this time we'll not be going that way, what a unfortunate thing. I wanted you all to go that way, because you haven't seen these old temples and I don't know how to? That's a very funny road, you can only do it from Pandharpur to Pune. But its not that way, let's see is it? From Pandharpur where do we go? Kolhapur? But how many days are you in Pune? You see the road is, only if you go from Pandharpur, to Pune, its on their way, then Belapur., which is a very interesting place and what an old temple we have there, you see and they will be able to see where we are going through the station. You can do one thing. The place at Sangam? Well most of them have not.

Just take them higher. Not even one third, one fourth.

So we can see how we can arrange it that way, you see. You come back to Pune on what date? 8th February from Satharam? Now that is different line altogether. But from Pune, just to see this place, you can go. You see, when we arrive at Pune, you can go to this place.

[After this Shri Mataji is having discussions about visiting arrangements.] You see when we arrive at Pune you can go to this place. It will take for you to go and come back from Pune, You can go from Pune to Belapur and come back, just to go and see the place and come back. 9th I think they are having a program Akuddi or somewhere. We are going to some villages so we will put one of these days that you can go and see and come back. Because you like to go and see the place, isn't it? They can see the old temple, very old temple, one of the oldest temples. Yes, ah, that's it, Shiva's I think, Shiva's temple.

So old temple, I mean you can't find such old temples, in the tourist places, you see. A very beautiful temple they have, I mean it's a very old one.

So I think would be nice idea that you go to Pune and in Pune you cut short your stay in Pune by one day. I'll tell the Pune people to make some lunch for you then go and have as a picnic there, day trip there, have look at it and come back and have your dinner. You can do it on the 8th I think because 9th they want to have it at Akuddi. There is no Pūjā in Pune this time, isn't it? And then to Bordi.

Now about marriages also you have to decide.

[Suddenly Shri Mataji starts the lecture.] To seek the highest, they live with whatever they have with the

satisfied souls. But that sometimes, can be very much detrimental to their growth as spiritual people. I should say, also certain things that have happened in this country is that we got English education from the English and the so called education of English has ruined our young people very much. Our young people have become frivolous and they do not know, what the English themselves, are now up to. They don't understand how the English are now seeking God and our young people are not seeking God.

So there are many such things that have happened in a society due to the imbalances in the political situations and our country has lost a lot of goodness, depth and understanding of God because we were slaves for 300 years.

So the people are slavish very much as much as the Western life is concerned and the attitude towards Western life is that of complete surrendering, so they don't understand what you people have suffered in that Western culture. And it is for you to point it out to them, that they should not take to that culture which does not give you ascent and I would request you people to talk to our young people here, whenever you have a chance to go to the universities and the colleges and tell them that our main achievement is that we have a possibility of achieving God easily because we are brought up that way. All our traditions, you see, the cities and the people were, they are affected by Western education, is very much ruined and the people do not have that capacity to come up to understanding that whatever we had was something very precious and is not to be lost. It's a very

sad affair and sometimes you must be also shocked the way the young people of this country behave towards the ancient heritage that we had.

Now, today's program, showed them that you had something to offer them to announce in the atmosphere, the advent and to enjoy that announcement. I wish they'll learn these things from you and would take life more seriously because they have become frivolous due to this introduction of outside culture on them. Even our cinemas and our all entertaining capacities, are full with such ideas that make them absolutely bloat into ego-oriented societies and to float on the superficial life and think that is enjoyment, they have lost their depth, very surprising, that they have lost their depth and their understanding, of deeper significance of Indian life. Now, as you see the country is going to dogs and we have to do a lot to awaken our young people in the villages, young people in the cities and the people who are not at all concerned as to what is happening they are not bothered as what is around them, they have to be brought to the reality to see that, what is their purpose of life and what they can do here? They are all Dharmic, on the whole, you can see but there's no movement, they are static in their whole approach toward life.

So, I am very thankful for all this that we enjoyed and I wish all the people of this country also those who are of your age group should also enjoy the same way but they cannot because they haven't found their spirit. It's very sad, they should not, while you should and I feel that they also should do it. Though I have worked very hard, outside much more, I spent much more time outside and

it was My due I think now I'll be coming back to India and we'll be working for this country and for its emancipation and I'm sure all of you will come down to help Me to work it out in this great country of Yoga.

May God Bless you.

***Contents: 1984-01-19*, Public Program, The Essence of Sahaja Yoga, Maharashtra, India, from Nirmalā Yoga, Issue 19 (Jan Feb 1984), pp.28,32**

In today's talk I will dwell on the essence of Sahaja Yoga. I am sure that it has been explained to you before. Besides, most of you are from Sahaja Yoga itself.

So I need not go into details.

First of all we need to understand that we are passing through an extremely serious time pregnant with unpredictable consequences. When we look at life we do not seem to understand that if we miss this opportunity which has come our way, for our evolution, we will not only be depriving ourselves of it or this country, England, but also it will be a stupendous loss for the whole of creation. The trouble, however, is that in the name of God, of evolution and of higher life, a plethora of of spurious people have come out making it well-nigh difficult to convince anyone of the existence of truth.

Under the circumstances one has to talk about truth. But mere talking about truth rarely leads to the experience of truth. It is altogether a different realm, a new awareness which you will have to get to understand the truth for which I do not know how many of you are really prepared or how many of you would like to know. Or even if you would like to, yet how many of you will really achieve it.

But the problem is the other way round. It is not a problem that we have only a few people, nor that I cannot give realisation. It is also not a problem that you cannot know the truth. The irony is that whatever is false, spurious or silly finds quick acceptance among the masses.

Sometimes I feel that I have developed a unique method by which I can give realisation en masse all over the world. But it really poses a problem for Me if the masses are not interested. In fact, it is only very few who take a keen interest in their evolutionary process and would like to come out of their ignorance in which they have been living. In all the ego-oriented countries it is very difficult to bring home the truth that we are still ignorant. We have to know a lot. It is very difficult because they think they know everything, because they have been to the moon. The Russians, for instance, still say that they saw no God when they orbited in space, which is like saying that one has been to the third floor but hasn't seen the top.

Where does God reside? Where does He manifest within us? In what manner does He manifest? We do not know what to see. What we want to see is possible only through our effort. `If we have not been able to see God, then He does not exist.' This is how we develop our attitude in this matter. But better say `no' to all that we did not know through our effort. Because we have not known about Him.

So He does not exist. You turn round in a cave.

So when you see a shadow of yourself you believe in that only and say, `nothing else existed.' The light does not

exist. That kind of attitude I have persistently been facing. And sometimes I do not know how to give them realisation.

Now you have to start the other way round. You have to seek. You have to ask for it. Nobody is going to fall at your feet and say “Well, you get your realisation. You have this, for heaven's sake, please have it." Because nothing is selling here. You are used to salesmanship, that is, if anything is selling you have to be persuaded or requested. You can save pounds for a sale and all that. But nothing is for sale here.

This is a very difficult thing for people to understand. In this present day atmosphere, where we do not know if we can get anything which is not for sale. However, I hope, slowly and steadily all of us have to get our realisation.

Somehow, we have to work very hard.

Sometimes it is very frustrating and sometimes so stupid, the way people react. Like the other day when we had a meeting at Brighton I was laughing all the while. It is so sad. A gentleman who came to our program made complaints. Look, who has got time to put him on a video; who is interested in taking his photograph. He says he is a managing director.

So what? In the presence of the Divine what is a managing director or what is even a King? Just think of it. Who is he? What does he think of himself? He has complained against us. Even the laws are so stupid sometimes that one can hardly understand. Has he got any right to complain if he comes to a program which is being conducted with a video on Me or if you are

photographed? How can you complain? On one side I find such stupid people and on the other a host of genuine seekers. How to reach them? They are like a diamond covered with mud.

So much muddle To find out the diamond in the mud, one has to dive into a mine of ignorance, to get that diamond which is lost. It concerns Me so much that I feel this mud is going to cover their brains and their eyes whatever else they have, so that they may not receive their realisation. They may miss it. Actually the Divine does not know what human beings have created.

Really, I tell you, the Divine is in the dark as to all the nonsenses that you have created around you. All kinds of nonsenses you have created out of your ignorance, out of your ego and out of the choice that you had. I can't explain why people have created this kind of ignorance which cannot be broken or removed.

Because you are so much identified with it. It is like a stuck up stamp which refuses to come off. And when such a thing happens you feel `O, God!' The whole creation has been created, the whole working has taken place and the human beings have grown so well having reached this stage. But now in this modern life which they are leading you find them so stupid and foolish that they have begun deluding others with their stupidity and foolishness. How are we to approach those people who are true seekers? Those who have been seekers for ages? All their lives before have been lost.

Sometimes it is very disappointing. But still hoping against hopes, I hope we reach all the corners of the universe where we find all people who are true seekers.

It is their power to know the Divine; know the Divine. It is not for those who are managing directors or kings or something! What does it matter in the presence of God. They would be pushed out. They will not be allowed to enter the kingdom of God. That kingdom is only For those who have known. Not for those who simply talk about God. Those who say that we are worshippers of God and we have learnt so much it will be said, “that is well, then go back to the place where from you have come." Whatever you have known is through your awareness and in your awareness you have come to know. The awareness has to be enlightened. It is not what you know but human awareness which has still to grow.

It involves such a lot of journey even after our realisation.

It takes no time sometimes to give realisation to so many people. I know it has happen with so many.

But they do not know what they have to achieve. The ego is such a horrible stuff that people do not want to see what they haven't got with them, what they have to have and what they deserve. They do not want to see that beauty, that light, that is the Spirit. The reflection of God's love is the most precious thing that you could think of. I do not know how many times I have delivered lectures in England, apart from the hard work I have put in. Of course there are results, but progress has been slow. Compared to the fake and artificial people who have made so much money out of you, Sahaja Yoga is working slowly.

I would not have been disappointed if it was at the time of Christ because then there were very few seekers.

Actually even the close disciples that Christ collected were not true seekers. You are seekers of truth.

So many of you have taken to this path just to pursue the truth. But where are we going? What are we doing about it all? What are our ideas about the truth? Is it that our ideas are but a by-product of our ego? Is it that we do not want to seek the truth? I have met all kinds of people in this country including those who occupy important positions at various levels, public and private life, lords, ladies and a host of others. They ask “Who wants to change?" I say “Really?" That is true, because they think they are the greatest. Born thus, they hope to carry their lordship and possessions with them to heaven? When they say “who wants to change?" what can be said except that they have reached the dead end, the full stop from which no further journey is possible.

Now, this, I must say, can work out only with people who are, seekers who want to know through their awareness what is the truth. You have to know your Spirit, for, without knowing your Spirit you cannot know the truth and whatever I may talk to you is a waste of time, a complete waste of time.

Because you haven't got the awareness, today, to know the truth I am talking about.

So, I must earnestly ask you to become the Spirit. Why should you hesitate to do what you are told to, so that you will get your realisation, which means that you have to become the Spirit first. Until and unless this awareness is enlightened you cannot see. It is like describing the nature of colours to a blind man. You have to open your eyes.

But even this simple thing people find difficult to accept. The reason is that they have become very naive. They don't know what it is and also they do not have any inclination to understand. Now you see a tree standing there and you must know, that they are rooted.

Somebody has told you there are roots but you do not believe it because they are not visible. It is as simple as that. But why don't you try to find out if the trees have roots or not. Supposing somebody says “whatever are outside, that much more are inside." So why not try you to see into it? This is the simple question we should ask ourselves “why should I put any barrier to seeing?", if that is going to give the best in the world, if it is going to give an inkling of that beautiful thing called the Spirit. Why should we not have it? You don't have to pay for it, not even to exert for it. You don't have to do anything.

But you must desire. This is the Point I am trying to make. If you do not desire it from your own heart, God is not going to fall at your feet, imploring “please desire Me." And if you understand that you have to really desire it because it is such a desirous thing that I must tell you that this Kuṇḍalinī is the pure desire within you. It is not yet manifested, not yet awakened, in the sense that it has not yet acted.

Imagine how important it is. You should have the desire to be one with the Divine, to be one with your Spirit.

The desire has to be strong, if not, then you would be challenging the Kuṇḍalinī, that is, you turn anti Kuṇḍalinī. Then the Kuṇḍalinī would not rise. But what has this brain achieved so far? Just look at it. You must understand. What have we achieved by this brain? For example, ask

this stupid managing director “What good has he done for anybody? What does he know about the spiritual life? What does he understand about Christ's life?" But if he sends a letter, any newspaper is willing to publish it.

Look at the stupidity of the whole thing. They do not understand that anything that has to go to the masses must be sensible; from a sensible man who is said to be an authority on spiritual life. What good has this fellow done to anybody. But if I write something or any Sahaja Yogi says that by coming to Sahaja Yoga he has given up his bad habits or has got cured his cancer or diseases, then nobody wants to listen to you. Nor does it make any news. On the other hand they think you are mad. But a man like him, if he writes, they publish it.

So it shows clearly we are not only contending with people who are not only mad but also absolutely foolish. Who have no sense at all as to how they have to live and how they have to conduct themselves.

Sometimes you have to take it upon yourself for going into and discovering the truth. It is you who have to find it out. For example, I say that this is a place where there are lots of diamonds or this is a cave in which there is a lot of gold. The gold is not going to come to you. You have to go to the cave and get it. It is as simple. I am not saying you walk towards anything or do anything like that. You have to desire and desire from your heart It is impossible for Me to raise your Kuṇḍalinī if you do not desire it, because Kuṇḍalinī itself is the pure desire. What can I do about it? Can I force it? You cannot push it out. If you want to have a seed sprouted, you have to plant it in the Mother Earth, you cannot take it out in bits and

pieces. You have to have a pure desire. And if that desire is not there, then I am breaking my head against the wall.

So it is important to understand that you must have that desire which is the highest. But if you are satisfied with things which are useless and nonsensical, then what am I to do about it? There is no psychology which can do that, because you have to have the desire to be alright. But this is something innate and does not work with people who do not have pure desire. This has been written down since long; it cannot be changed, it cannot be forced, explained, discussed or argued about. Nothing can be done; it has to work out from within. Even if you have worked it out on someone, you may not achieve the results.

So, when the situation is difficult and the children are also so adamant what can Mother do? Push them in. I am very much concerned because this ego which sometimes is selfish and conceited, satisfies itself and is very happy. It will not allow you to get to the point where you really stand, where you have all your powers and where you are the master of being. The identification with the ego is so much that it is easy to take a bull by the horns but to take an ego-oriented man to the practices of Sahaja Yoga is very difficult.

Today I am rather disgusted but other moods also come, the moods of compassion and tremendous love. I should do something to bring sense to these people.

Something should happen to them otherwise what I see is a complete disaster. It is going to happen. I do not want to frighten you like Mrs. Thatcher does about the

Russians. That might be imaginary. But this is real. I am warning you that the disaster is going to come as destruction itself. But the greatest thing is the failure of the desire that it could not communicate with you who are chosen specially in order to bring the Kingdom of Heaven. But suddenly you will find that they all have fallen into a sieve without a way out. The Sahaja Yogis too feel frustrated at times. Whatever it is, as far as I am concerned they have tremendous desire. But I am so desireless that the desire may not always work out. You see, I am a a desireless person.

So I ask the Sahaja Yogis to desire, so that people will have the great desire to become the Spirit. This is the greatest thing that we can give to our brothers and sisters, to the people, to the children, to this beautiful world we live in, to the beautiful light and to the beautiful time they all have to enjoy. Hope those who come for the first time will understand My difficulty and try to see that you should desire only your Self-realisation and nothing else. Just desire that and forget about everything else even if you are managing director or a king. Keep all your shoes outside and just desire your Spirit.

You see the difference between Me and Christ. He got so fed up that he cried out “let me be crucified." Of course it was in the plan that he should die on the cross. [I] Have to see that you all get your realisation somehow. It is like a Mother's desire to give a bath to the baby and get him cleansed.

So whichever you like, whether to be desolute or like to receive a rebuke, am willing to work it out. But at least ensure that you desire to get your realisation.

May God bless you.

Contents: 1984-01-19 **Quote from the Back Cover of Birthday Message, Maharashtra, India**

Try to become identified with that power that is what you are like. The meaning of this word is identified with the word. Like the moon light is identified with the moon, sunlight is identified with the sun. Let that identification be that oneness, that integration, so that we become the light of God's love. That people know God through your depths. It is the most fulfilling job, highest paid in every way, the most satisfying, energy giving and dynamic. You don't have to give up anything. Just be organized in the light of your spirit yourself.

Contents: 1984-01-21 **Śhrī Gaṇeśha Pūjā, Keep Your Maryādās, Dr. Sangwe's House, Nasik, Maharashtra, India**

It is so Sahaja today that the day of celebration has fallen onto the birthday of Śhrī Gaṇeśh. Every month they celebrate the fourth day of the moon as the birth date of Śhrī Gaṇeśh and today is that date. Luckily, we are here for the Pūjā of Śhrī Gaṇeśha on His birthday. I've said a lot about Śhrī Gaṇeśha and His importance in our life. He's the giver of wisdom, but this wisdom comes from our innocence. Innocence that is innate within us. As children we are innocent, but as we grow we start exerting ourselves in a manner that we start losing our innocence. We lose it in two ways; once we have lost our innocence, we cannot believe that others could be

innocent. Another is, that we think innocence is not important.

Innocence is the sustenance, is the basis of spirituality. If a person doesn't have innocence, he cannot rise in spirituality.

That's why the first job of Sahaja Yoga is to establish Śhrī Gaṇeśha within you, to awaken Him. As soon as the Kuṇḍalinī awakens, you must know that, Śhrī Gaṇeśha comes into being. Without His awakening within you, the Kuṇḍalinī cannot be raised. But it could be temporary, or it could be a permanent thing.

It could be very temporary with people who are not yet adjusted to the new method, or to the ways of God's love. Those who have not understood, or those who have not gone through those traditions, is rather difficult for them to establish Śhrī Gaṇeśha within them. At this point I find, there are people who fight with their problems and try to overcome the outward problems and establish Śhrī Gaṇeśha. But there are other people who are still not there; they start doubting others' innocence. In Sahaja Yoga is a very common failing. I've seen people complaining about others, saying that their innocence is not established.

Is the first sign that your own innocence is in danger. Because you doubt yourself, you are doubting others.

If you are doubting others, then be sure that you are not going to gain anything. Your job is to look after yourself and not others. And if you start doing like this, gradually in your Mūlādhāra, there will be lots of these bhoots, that will just jump in. And they'll give you more ideas and more ideas of doubting others.

By doubting others, you can never correct them and never yourself.

So those people who indulge into this kind of practices, go away from their innocence. They try to find out what others are doing, what are their ways of using other people in Sahaja Yoga, for their own purposes. Or some sort of a funny spy-like attitude, they develop. In Sahaja Yoga, you have to only spy yourself and not others. Those who start spying themselves, criticising others, will never rise higher, than what you are.

In the beginning, I have seen many Sahaja Yogis, who come, also try to do this, to criticise others; this is the sign of their immaturity, sign of their, also, poor awakening of their Śhrī Gaṇeśha.

So those who come for the first time should be very careful that, still we have to achieve a lot. And we should not start doubting others, making remarks about others. Because in innocence, people can be very, very simple, very friendly, but inside their hearts there is no malice, there's no filth. But those who come for the first time sometimes have the filth within them. And they see the reflection of their own filth, in other people.

I had gone to a program in Kolhapur and you know how your Mother is innocent and pure and a gentleman came and he told Me that he has a Nābhī problem.

So I said: “All right, you put your hand on My Nābhī." He put his hand there and the women there, who were really funny women, they said: “Why should Mother allow another man to touch Her knee?" They could not understand that: “How could anybody touch a lady's knee?" But once you are at that level, you don't really

know that there is bad in it. And you just say: “All right, it's all right, you can touch my knee." And the fellow got all right, with his trouble, with his Nābhī.

So you see, the thing is, if your eyes are clean, you can understand, what is clean and what is unclean. But if your eyes are not clean, you start seeing something that you want to see. Or sometimes you see something that never exists.

So I would request all the new Sahaja Yogis who are here, not to criticise the old Sahaja Yogis and this is very anti-God activity. Never say a word about the old Sahaja Yogis. Because I have heard complaints, people came and complained to Me. And I was amazed. Those who are just now there, how can they start criticising, other Sahaja Yogis? That means you who are trying to hit the roots of Sahaja Yoga. And this is not the way you are going to help.

So I have to request you, please, look after your own vibrations, look after your own ascent, look after what you have done for Sahaja Yoga and then talk. Suddenly, if you just enter into Sahaja Yoga and start criticising others, about their innocence, you are hitting the Gaṇeśha at the root of it.

So be careful; of course, you'll be hit, no doubt. And such people, who have done like this, I have seen, have ended up with cancer. Because Gaṇeśha is the one, when He gets angry, the first thing you get is cancer.

So be careful, I'm warning you, don't try these tricks anymore. Try to improve your spirituality, so that you can enjoy, the joy of Śhrī Gaṇeśh.

This is one side; the second side is, that to keep Śhrī Gaṇeśha intact we have to have certain Maryādās, everybody must have certain Maryādās. Like that, I would say that I would ask a lady to put her hand even up to My heart point from the front. But I would not ask a man to do that, because there is a Maryādā if you are a man, you are not supposed to touch My front side, but you can touch My backside. There are Maryādās for everything and if you do not observe these Maryādās, or these boundaries, then you are apt to get out of it, despite the fact that you are pure. And you might create a problem unnecessarily.

I will give a very good example of Śhrī Mahāvīra, who was the incarnation of Bhairava. Himself Bhairava took on this work and to Bhairava: `What is cloth?' `What is dress?' I mean He's a person; to Him the whole universe is His clothes, the whole directions are His clothes, He is the digambara. To Him, what does it matter, He's so innocent. He's absolute innocence Himself. And the innocence that is destructive, that will destroy, through Him only, you get your cancer, when you start misbehaving.

So it's such a simple man like Him, in the sense that He never knew what was impurity. He didn't know what sin was. Such a personality came on this earth, to teach people to be innocent, to be Dharmic, to be good.

Now this one once had to go to some forest where half of His cloth got caught up in the bushes.

So He had to cut it off and He was left with half of the cloth. And when He came out on the village outskirts, He met a person, who was actually Śhrī Kṛiṣhṇa, Who tried

to take His pareeksha [test], just came there and He said that: “Why should you have any cloth? There is no need, but I am a human being, I've no clothes on My body.

So You are a God, You are Incarnation, so why don't You give your cloth to Me?" He said: “All right, take it." He gave away the part that was there. And that's how, for a very short time, He was without clothes, very short time. But that people have exploited and are making Him nude and making all His private parts insulting. It's all nonsense they are doing.

Now many people ask Me: “How is it that Jains indulge into this nudity and all that?" This is all absurdity; it's nothing anywhere near Mahāvīra. Nobody's a Mahāvīra to become even nude, even for a short time.

So why should they do it? Because everybody tries to find out something that is a loophole, just to cover up their own weaknesses. And all such weaknesses tell upon the progenies. Now that has gone so far, that they cannot understand that Śhrī Mahāvīra, He was a digambara He was a person who did not need any clothes. Still, just to keep the *[UNCLEAR* samayāchār], He did wear His cloth throughout and later on also; but for a short time, He gave away His clothes. That doesn't mean that in the public He became nude and He took out His clothes and all that, doesn't mean that. He respected the public and all that, not only but He respected His parents to begin with, before He took to real sannyāsa. He respected His parents and He said that: “Now the time has come for Me to give up this worldly life. I've been indulging into worldly affairs and I have to take to Sannyāsa" doesn't mean that He was not a Sannyāsīn He

was, but means that the worldly life of His parents and other people, He had to leave. Because if you have to indulge sometimes into this life, like in the Hindu tradition, after certain age, seventy-five they say, you have to take a Sannyāsa, in the sense that your family, your children, are settled down now, there's no problems, so you have to take a Sannyāsa. But for that, the wisdom has to be gathered in young age; otherwise, in old age, still there is no wisdom and you are behaving like a young man of sixteen years, is better you don't take Sannyāsa.

So the whole understanding, about life in India, has to be very subtle. And to understand these great and great people, you have to be little bit greater than what you are. If you are just mud, how can you see the whole? You cannot.

So you have to remove this mud from your eyes. This is a very common feature in the West that, either they are suspicious, or they are `indulgent'; there's nothing in between. Either the people who are suspicious of others, or there are people who are indulging into, so have it *[UNCLEAR]*.

First thing I have to request, because you are the first Sahaja Yogis now, who have come for the first time to India, that this soil of our country is full of rhythm of Śhrī Gaṇeśh. You are sitting on it; you have to vow that: `I will establish my Gaṇeśha.' Don't worry about others, your attention on others. `I'll establish my Gaṇeśha and let this Mother Earth; give me the full strength to establish my Śhrī Gaṇeśha.' This is very important because, unless and until your Śhrī Gaṇeśh is established, you cannot be

connected to the whole. Nor can you have the enjoyment, of your spirit. You'll be a half-baked personality, which you should not be.

So far, you can see that the Western Sahaja Yogis are extremely assiduous. And they take things very seriously, they get to it. Because, they know, if they have to have joy, they have to work it out.

So you have to be a introvert, as far as you are concerned. And as far as others are concerned, you have to be just seeing the good points of others. Always see the good points, not the bad points. Otherwise you'll create problems for yourself and the day will come, you'll have to get out of Sahaja Yoga. It has happened with many, who tried these things. And they are out, absolutely out of Sahaja Yoga. If you have to be in Sahaja Yoga, you have to understand that, to be one with the whole, try to look after yourself.

Another thing I have told you that in every country I have to have somebody on whom I have to depend.

Just like Śhrī Gaṇeśha, I depend on Him for many things; He looks after many things; In the same way, in every country, I have to have somebody there. I do not like that all the time you are complaining about a person with whom I am in connection. You need not correct them; I've told you a hundred times, “Don't correct that person." I know, because I am in contact, I know about that person; you don't know him. I know everything about that person. I can correct that person. But I was surprised, in London also, some people came and said something funny about others and I was surprised that they think I don't know.

I know each and everything. You leave it to Me. It is not your job to do such things and this is very mediocre approach to Sahaja Yoga, extremely mediocre. And if you are going to be mediocre, I cannot help it. But the day will come; you might have to get out of Sahaja Yoga.

This is the first warning I want to give you, because now we are going to the interior of Maharashtra.

You will see women and men never sit together in Maharashtra, they sit separately, they keep a distance from them; we must learn those things. In the West we are very open people, it's all right, *[UNCLEAR]* there are methods and ways, how we are open, how we keep distances. Like I'll be much more free with the son of *[UNCLEAR]* Doctor *[UNCLEAR]* but with him I'll be a little distance. It's a style that, a lady, her elders, she must keep her distance. And a man, must keep a distance from a younger generation to him. This is a system by which, this country has worked out its innocence and we all should try to follow this point. That keep a distance with the ladies who are younger to you. And keep a distance from the gentlemen who are older than you. I mean, there even a eighty-year-old woman marries an eighteenyear old girl. It's such a confused state of affairs, where you cannot talk of these things. But here when we are trying to sort out our confusions, our mistakes, we should try to adhere to certain pattern which has helped our social life, is much better. And to understand why the social life is better, is because of Śhrī Gaṇeśha's importance. Where Śhrī Gaṇeśha is not there, you'll find even Sahaja Yoga doesn't *[UNCLEAR* work out].

Say in the north of India there is no Śhrī Gaṇeśh much worshipped.

So the Muslims came in and if Śhrī Gaṇeśha was there, they would have fought. They accepted Islamic culture and when that culture came in from the Nawabs and all that, licentious people, it all trickled down. Not to that extent, still I would say that there is a sense of chastity in people in India and we all should have that sense of chastity. But the most thing is, that in your heart, in your mind; don't allow funny ideas to come in. First of all watch what's in your mind. It will give you ideas like, `This man is no good, that man is not good.' Just don't listen to these things, just listen to yourself that `Where am I?' `What am I doing?' `What have I done for Sahaja Yoga?' `My vibrations, are they all right?' `Am I helping others?' `Where is my attention?' The attention has to be: `What am I doing with what Mother has given to me?' So today is a very great day, we must all pray to Śhrī Gaṇeśh that He should give His blessings, because He's the source of joy, He's the source of joy, He is Christ, He's in your heart, resides as spirit, so He's the one, the innocence you have to achieve. And that is the beginning of Śhrī Gaṇeśha's being, which evolves at the head here, you see on this *[UNCLEAR]* as Om it becomes.

So the same Śhrī Gaṇeśha ultimately becomes *[UNCLEAR* Om] within us. To have the purest form of enjoyment of your spirit, you must try to see that you establish our Śhrī Gaṇeśha. And let everyone follow a proper pattern; you don't try to correct each other. That's a very wrong attitude in Sahaja Yoga and is very detrimental to the growth of Sahaja Yoga. Anybody who tries this is thrown

out of Sahaja Yoga in no time, by some way or some other. And also I've seen people getting cancer and they ask Me: “Mother how is it that we've been doing Sahaja Yoga and now we get cancer?" Because of this nonsense. Don't try to go against other Sahaja Yogis; you must respect them, they are all saints. And respect the older Sahaja Yogis because they have been there, you have to learn a lot. They have worked very hard to establish Sahaja Yoga.

So I have to make a very simple announcement today, that on this day of Śhrī Gaṇeśh, all My children who are born like Śhrī Gaṇeśha, in the same pattern, should become dynamic like Him, innocent like Him, great like Him, working twenty-four hours. This little Child is working throughout the day and night to give you this source of joy.

May God bless you all.

Contents: 1984-01-26 **Śhrī Devī Pūjā (English+Marathi), 35th Republic Day Celebration, Mangal Karyalaya, Rahuri, Maharashtra, India**

Rahuri has a special significance in the history of the Goddess, that when the horrible Rākshasa, called Rahu, started ruling this area and devastating it. The whole suffered, all the God-fearing people... Then the Goddess took Her incarnation here and She killed this man, this Rākshasa and there are different places where how he ran, how She caught him and ultimately killed, he was killed in Rahuri.

And that's why rahu-ri, `ri' starts from the Hrim, as you know that: Aim, Klim, Hrim are the three words denoting

the three powers of the Goddess. Aim, Hrim and Klim: Aim is the Mahākālī, Hrim is the Mahālakṣhmī and Klim is the Mahāsaraswatī.

So, with the Hrim-power She killed this Rākshasa and then, after that killing, bhaktas started living here. And a king came all the way from Rajpur, Rajputana and started worshipping the Goddess.

And went, he was a poor man, he came here as a poor man, while worshipping the Goddess he raised this again into another kingdom and that's why they are called as Shālivāhanas because they carry the shawl of the Goddess. This Shālivāhanas, later on in the dynasty, was a *[UNCLEAR* Bhobruvaha] who fought with the *[UNCLEAR* Mahārāja] and defeated him, who was from Ujiara *[UNCLEAR]*.

Surprisingly many of My relations are still in Ujiara and they are following a new vision.

So because he fought him and he captured him many people from here shifted there and settled down in Ujiara.

Now this Rahuri developed gradually into a very modern city, or you can say in a modernized. And when we go to *[UNCLEAR* Nankhara] you will be able to see it. The forefathers of Mine were called as Shālivāhanas and My mother's place *[UNCLEAR* Rhaduvas] where they resided and lived.

So Rahuri has a special significance in the life of Sahaja Yoga, or I should say in My own life. And that is why surprisingly that in Rahuri we have established our center in the biggest way. Because the kings here worshipped the Mother with a shawl.

Now this has a special meaning as the significance goes, or you can say the symbolic, it is, it covers the modesty of the Mother.

Mother protects us, She looks after us.

So this is the one which covers Her, gives Her the grace, gives Her the protection from the cold and when the children are suffering, or are tired, or are sick She covers them with the shawl.

So the shawl has a very big meaning and because the used to carry the shawl of the Mother all the time in their hands, that's why they are called as Shālivāhanas.

So the significance of Rahuri is very great and you will also see that in the gross also the people here are very receptive to Sahaja Yoga. Even the factory people, I went to see them before I came here, to talk to them. And they are so much submerged in the developments of Sahaja Yoga and amount of things they want to do and want to take advantage of Sahaja Yoga here. As they are built for you especially too was made with great care about from that they thought that it was finished and worked very hard. Day and night, just to prepare this hall for you.

So this is how it is going to work out and last time I told them that you should not make an alcohol out of these molasses *[UNCLEAR]* and sell it at the market at a cheap rate, but make something useful.

So they are trying to find out a technique about which I talked to them now.

So they are very religious people also. And they are trying to improve the lot of the people, by removing all these addictions among the people.

So that is the significance of Rahuri Pūjā and that's what it is, that you are like Shālivāhanas who are worshipping the Mother and Her shawl.

So today's Pūjā has a special significance, that's why Rahuri we have very good Sahaja Yogis here, very developed, very evolved, moral people. They are not scholars of Sanskrit, but they are scholars of Sahaja Yoga. There is a difference between being a scholar of Sanskrit and a scholar of Sahaja Yoga. Now for you people I hope it has been a comfortable stay for you here and we hope also for the future you are going to enjoy your journey and enjoy the bliss of the Divine! [Marathi.] We don't read about Rahul's killing, because it is Mahālakṣhmī who killed, but what we read in the Devī Māhātmyam is the Mahākālī's powers. But Rahul was killed here in Rahuri by Mahālakṣhmī and that Mahālakṣhmī power is called as Hrim power, so that's why this is Rahu-ri. Actually it is Rahu-hrim we can say it is Rahu-ri to make it simple.

[Marathi.] And according to that calendar only all the Maharashtrians are living, which is very, I should say, much more subtler than vikram, this thing. Because in the vikram-Pañchanga this area is still called as Kali Yuga, Kali Yuga, but in this Pañchanga... Then: Shālivāhana-Pañchagna it is called as Krita Yuga. It's much subtler. That's a very wider thing and it doesn't give you the different sections of Kali Yuga, that how it becomes Krita Yuga and ultimately a Satya Yuga.

The calendar that was used by the North Indians was the Vikram and the South Indians used the Shālivāhana, but especially in Maharashtra. But the support came mainly

from *[UNCLEAR]* direct, who said this is the better Pañchanga because it deals with subtler side of time. Subtler side of time. And that's why it was regarded as a greater thing. Now on the first day of this calendar they put a kalasha [pot] with a shawl as a banner, a kalasha and a shawl as a banner. That's why kalash, which is the Kuṇḍalinī, is the Aquarius.

[Marathi.] In the older days all the Maharashtrian women used to have some sort of an additional cloth, a shawl, which they used to carry. If it was a marriage then they used to have a marriage sarī, *[UNCLEAR* completed with that shawl]. All the time they had to wear something, a covering over the sarī. Sarī was not the end-cloth but now we have become modern, so we don't use the, that, another cloth which one has to use.

So, but this is only the custom. In India is not the point, it is not only in Maharashtra, everywhere. But there, because a dress was not a sarī, but those who bore the sarī did not use, in the North [India]. But here those who use the sarī also use the shawl, on top of that. And that's why, you see, this country has a speciality, this part that they always had this shawl, whether they went out, for their protection, or they went for a marriage or anything they used to have another thing on top.

Now of course we have, symbolically, something modernized. This is, wearing little pieces to be used as shawls. You see, everything is getting modernized.

[Marathi.] You must, all right, touch the feet of this Rahuri Land. Then after, Gaṇeśha, we must also touch the feet. As soon as I get the land, first we establish Gaṇeśha here and once this land, we get everywhere in

the whole world, we get land and we have no problems of any kind as far as the land is concerned. When the Ashram is built here, everywhere in the whole world we'll have Ashrams.

So the beginning has to be at the right place.

[Marathi.] They have come all the way from Germany.

[Marathi.] [The Pūjā starts] [During the Pūjā:] Husband and wife, are you? Ha? You both are husband and wife, are you? You have to be husband and wife!

Sahaja Yogi: Yes!

Shri Mataji: You are? You both are husband and wife?

Sahaja Yogi: Not!

Shri Mataji: Yes! [Marathi.] Means: the husband and wife should sit together! That's the only time when a man and a woman sits together in this country. Not the brother. Not even sisters and brothers. Only husband and wife.

[Pūjā continues.]

Contents: 1984-01-31 **Talk to Doctors, Dr. V. M. Medical College, Sholapur, Maharashtra, India**

[Boys in the audience are rude as Shri Mataji is late to visit the Chief of Police in the hospital where he was taken for a heart attack. Shri Mataji laughs at the boys' rudeness and forgives them as they were young students.] Our Respected Dean Doctor Srivastava, the staff, the members of this medical college and all the seekers of their Love for God, I bow to all.

It is such a tremendous joy for Me to be able to speak to the people of such noble profession, as medicine. I Myself put in some part of My life into the studies of medical

science because I knew one day in future I may have to talk to them. I have all respect for that profession. And, in no way Sahaja Yoga could be a challenge to this. Though Doctor Thakkar has asked Me to speak on that line, because love never challenges. This is the power of love and to talk about power of love, one must understand that it has no power to challenge. Now medical science is like all other sciences, is a science or the knowledge of the tree that is outside that we see. Actually, factually, we can see with these, our senses, whichever are they, gross as they call it. And to know about the tree, one way is to know about the leaves and the branches, but could be that if you have to treat the tree, it would be better to go to the roots than to go to one leaf or to go to one branch because unless and until you know how to go to the roots, you start treating it from outside. In the same way, as the roots are no challenge to the tree, Sahaja Yoga is no way challenge to any science in this world. I personally think that, if these sciences had not developed, it would have been impossible to work Sahaja Yoga on this magnitude. Today, supposing there was no microphone, I could not have talked to so many people, for example.

But there are so many ways by which all the discoveries of this modern science has rendered so much help to Sahaja Yoga that, if I want to tell you a simple example, that when I was [Hindi/Marathi]; I had gone to Hong Kong once and the lady who was, the lady who was the owner of one of the companies of Television broadcasting, asked Me if I could stand up for fifteen minutes and ask people to take vibrations from Me. I said all right, doesn't

matter. I gave a little introduction and when I stood up, many people wrote letters later on saying that they felt the vibrations and some of them felt better within.

So, you can imagine if we can use television also, we will be able to broadcast vibrations through television, even the photographs emit vibrations.

So, you will be surprised, how the medical science which has created all these instruments can in their own turn help the propagation of Sahaja Yoga. This, specially for this microphone; I can tell you, if I put it on one of My Chakras, I can emit vibrations of that particular Chakra.

I have tried that many a times, that when there is a problem in the collectivity, in the samashti, I work it on My Chakra with that ordinary thing called as a microphone and it works. Now the whole thing looks very fantastic to us, always whenever something happens extraordinary, it looks like something very miraculous, but there is no miracle about Sahaja Yoga, nothing miracles. It is all within us, like certain discoveries today we can see, these lights. Now, when it was discovered, it must have been a miraculous thing for people, first to know about it. In the same way, people think that Sahaja Yoga is something miraculous and only few people can do it.

It is a new discovery of the Sahaja Yoga, by which it has become Mahā Yoga. In the sense, that thousands of people can now get their realisation and can be entitled to do this work of Sahaja Yoga.

Once you become the spirit, now being Maharashtrians and living in this place of saints, we know that they were all sākṣhātkari people. What is sākṣhātkari, is that they

were the spirits, they had their Ātmā sākṣhātkara and some of them did cure. Like we had Sāi Nāth here, who used to just cure the people by touching? He was not a doctor, he was not a medical scientist but he could cure people because of this power of giving energy to your roots. Now the Chakras about which Doctor... Doctor Warren, has told you, are the roots of the different plexuses we have within our body. But apart from that, we have another system, which must be dealt with, is the autonomous nervous system called as sympathetic nervous system.

Now, sympathetic nervous system is also a gross system which have a subtler, we should say the roots, which we call as Nāḍīs. Now the Ayurveda deals with Nāḍīs but also in a gross way. While the medical science deals with the Chakras, but in a gross way. Now you have Nāḍīs within ourselves, say the left Nāḍī is called as an Iḍā Nāḍī, which manifests outside, what we call as the left sympathetic nervous system. Right side, we have got another Nāḍī called as the Piñgalā Nāḍī, which manifests outside, what we call as the right sympathetic nervous system. I have studied medical science, I don't know how far it has advanced, but when I studied they did not know that these two Nāḍīs deal two different functions in our body. For example, the right side does only the physical function and the mental function and the left side does all; I mean, English language is funny; when you say mental, you mean the emotional side but here I mean the mind where our buddhi, but on the left hand side it deals with your emotional side.

So, we have two sides already within us.

Now these two sides have been dealt with in the Western science in a very wrong way because I little bit tried to study also the psychology, because I have to be with psychologists. And, I found they made a very big mistake in understanding a human personality. For them, the unconscious, they believed in the unconscious. Indians believe in unconscious, they said that unconscious is lying at the base. On top of that is the unconscious that will be conscious. On top of that, they said is the conscious mind. Then on top of that, no, is the subconscious mind and then is the conscious mind. On top of that is the Ego. I mean, it's all upside business because they don't know what they are talking about. Actually, we know that our whole system is placed parallel and vertically. It is not placed one top of another, it is vertical. The left side is this side and right side is on this side. Medically also at least we know that they are not placed, left sympathetic nervous system on top of the right sympathetic nervous system; Because, there is no correlationship between the psychologists and the medical science. You see, no one understands each other what they talk. They talk through their heads and the medical science people think they talk through their heads.

So, the whole thing is misunderstand. Now, we know medically that on the left hand side we have got the left sympathetic nervous system, on the right hand side we have got a right sympathetic nervous system. Now beyond the left hand side, we have got the left side deals with your emotions through your conditionings about which Freud has spoken. But he being a half baked man

again, I should say, he spoke on one side of the life that is left side. We are not only conditioned people; we have the right side also. And if you work out the right side too much, then you will develop another horrible thing called `Ego'. If you work out too much left side, then you work out another system called the `Superego', means the conditioning.

So, we live with two balloons like structures in our brain, one as the Ego and another as the Superego, which is the conditioning. That is how the brain is covered with the two balloons. Now because their idea is that, one is placed above another I don't know how they are going to adjust the whole picture. But as medical students, you know and as medical knowledge is there that it is placed vertically.

In the center is the parasympathetic, now parasympathetic, you don't know much about it; because to know about it you have to enter into the subtler understanding. In your central nervous system, whatever you have achieved through your evolution is expressing itself.

So, our all achievements in our evolution is being expressed in our central nervous system. For example, if a dog or a horse has to pass through a dirty lane, it will just walk through. It would not mind at all walking through any dirty lane or any such a place which can be horrifyingly, absolutely, impossible to cross for a human being. The reason is we have developed a subtler sense of cleanliness within ourselves. Because of that, we cannot overcome that feeling of filth and dirt.

In evolutionary stages, we have achieved a lot, much more than the animals but we never think as scientists, `why,' this question we don't ask. You just say this is so and this is so, so this is the reason.

But, we don't ask ourselves a question, a simple question why, why did we become a human being from a amoeba. Why not ask such a question to yourself? Because they are honest, they know there is no answer; so they keep quiet. But by shutting yourself that way, we are shutting a very great tremendous knowledge that lies within us. Now this knowledge of the self is achieved not through brains by reading books, by saying something. It is beyond the mind.

So, what is the knowledge then the people talk about? What does the veda say, the `vid'? What is the `vid'? Is what you call the bodh, is the word in the Sanskrit language, it's beautiful means, in Marathi, it is gnani, is the one which you can feel on the central nervous system. It means in the medical terminology, that you should feel it on your central nervous system. That means our attention is felt through our central nervous system. Now, I am asking to pay attention to yourself, you cannot, your attention is outside. Now how do you manage to take your attention inside is only by some happening inside and that happening is the awakening of the Kuṇḍalinī. And this power is lying in the triangular bone, which is called a sacrum. We accept the word sacrum, without finding out why is it called sacrum? Because sacrum, in the Greek language, means sacred. They accepted at a time and you will be surprised if you read also the medical science, which existed about, I

would say a hundred years back, was just the same as Ayurveda; you will be surprised. It took a different turn altogether after sometime that people could not go further with it, because they could not correlate it with other scientific discoveries.

So, the Ayurveda became more elaborate and more analytical when people started thinking of using a microscope or other such advantages we had from other discoveries of science.

So, the whole system changed and we started moving towards the analysis of a human being. Like, if there is a doctor he must treat one eye, another doctor should treat another eye, sort of a thing. But when you go to the roots, you go to the synthesis which you talked of as integration. In Sanskrit language, the word is samagra, which is a very beautiful word, `Samagra'. `Agra' means the top of it and all of them are penetrated through Kuṇḍalinī.

So, like you can see that like a pearl necklace. See all these Chakras are penetrated through this Kuṇḍalinī which is a sacred energy within our triangular bone. What is this energy of Kuṇḍalinī? Actually, what is the nature of this? The nature of this is pure desire.

It is easy to understand the pure desire if you relate it to economics. Economics says, the science of economics says that “A want, in particular is satiable, but in general, it is not satiable." Means, a desire you may have today, supposing you want to have a house. You will have a desire then you fulfil it. But then you would like to have a car, then you would like to have something else.

So the desire is shifting from one to another. But this is shuddh icchā, means the desire to be one with the Divine. This desire is a pure desire within us, is called as a sleeping Kuṇḍalinī, because it has not yet manifested itself. When it manifests, all that is desired is blessed [Marathi discussion]. It is written already by our great saint, Gñyāneśhwara, long time back, that this is going to happen. And that is today we are proving that what Śhrī Saint Gñyāneśhwara has said. Then all these things have said is being proved that whatever your desire you will get it. Now, the thing is when the Kuṇḍalinī, the shudda icchā rises, within yourself, it penetrates as He told you through the different Chakras within yourself.

I will take one example in which you will see how it is complimentary to medical science and very much supplying knowledge about so many unknown diseases we do not understand. And, if I mean, if I say so, if you just deny it, I cannot help it. Because supposing you go to a medical science and they say that this is a bone called this and this and you say we don't accept it, then what can you teach them? So, you have to be an open minded scientist first to come to Sahaja Yoga. Supposing you are educated in medical science doesn't mean that you should not be any more open to any other knowledge or any higher knowledge or any subtler knowledge that is available. Specially for Indians, I would say, this is your heritage. The Western people, if they take Sahaja Yoga first, then bring it down here, then you may accept because you think medical science has come to us from the West and so the subtler should also come from the West.

But this is your heritage; it is very easy to talk to you people than to talk to them, who do not know what is Gaṇeśha. Now for a doctor to have Śhrī Gaṇeśh in the house is common. But he does not know that this Śhrī Gaṇeśh, who is sitting here, whom I worship, controls the prostrate gland. Now if I say it controls, you won't believe it but if you awaken your Śhrī Gaṇeśh within yourself you will yourself know how to control the prostrate gland of others and how to improve the conditions of the particular thing like prostrate gland or anything that has to do with the pelvic plexus.

Now I will tell you about another particular thing, which is bothering all our doctors, is the disease, horrible disease of cancer. I say that cancer can only be cured by Sahaja Yoga and by nothing else is a fact. Now, that doesn't mean that I am claiming too much or anything. The reason is the cause of science is much subtler than we understand. As I told you on the left side is the Iḍā Nāḍī, beyond that, that is the subconscious, beyond that is the collective sub consciousness within ourselves. It is all in your body.

Recently I was happy to see some doctors in about a year back in London, they showed a TV show in which they discovered something very specific about cancer, which relates things which are talked about cancer. They said that when they were trying to research, to do a research about science they found that there are certain type of proteins, of course they give the names as protein fifty eight or protein fifty two, that's what they called them. They trigger the action of cancer, but the main point they said was this, that these proteins come

within our system from the area, which is built within us, since our evolution.

So, they are talking about the collective sub conscious area, which lies beyond the subconscious.

So, this collective subconscious is the one, which contains all that is the past, all that is there. Now there are many vegetables, which went out of circulation of evolution. These when they enter into our being exist within us because everything that is past and future exists within us.

So, once they enter into our body, we get these virus infections. Virus comes from these things, which are of the past and they enter into us and pull us towards the collective subconscious and that's how we get the symptoms of virus and you know that virus cannot be treated. It has to be allowed to pass out.

So they just enter into our being and pass out. But in cancer, there is a different thing that happens is that where our Chakras are built like these say, for example, a Chakra you can call it as the spinal cord and this is the Chakra and the left and the right sympathetic nervous system is here. Now, when you start moving too much towards the left, due to the activity of the left side, means a person who is very emotional or who bows to wrong type of people.

That's why it is said don't bow your head to wrong type of people. If you bow too much to people out of slavery and all that, all these people start getting conditioned and all that and superego develops and they go to the collective subconscious area where they are, they get caught up by these proteins which we call in our ordinary

language, as bhoot. We call them as bhoot pisāchadi. Now the Christians who believe in Christ and follow our medical science know that Christ took out bhoots from people and put them in the pigs. But if you tell them that there are these bhoots within us at a very near reach here, on the left hand side, they are not going to believe. Now doctors are not going to believe this. Now the whole mental problem comes from that.

Now, you will be surprised that cancer is caused, mainly triggered by these things which we can call as psychosomatic. But it is, a fact that later it has been found that by doctors themselves that is, I mean, I am not the one who should be held responsible for this, but this I had been saying from last fourteen years or so, that it is this kind of behaviour, the conditioned mind takes you to the left side by which you get caught up into that and the cancer is triggered. First of all, the pulling itself of the Chakras makes it, you see separated, this Chakra by which this Chakra becomes independent on its own and it starts working on its own because the connection with the whole is broken and it starts working on its own and it becomes malignant. When it starts working on its own, then the central nervous, the central part cannot control.

It means brain cannot control it anymore. The parasympathetic goes out of order.

Now to bring it back, what do we do for Sahaja Yoga? How do we cure cancer? It's very, very simple, if I tell you, you won't believe it. First of all, of course, you have to be the `Spirit'. You have to develop your powers by meditative methods. You have to go deeper into your

own roots and make it so powerful that you can emit those vibrations yourself. Now, if somebody has got cancer, what is the first sign we get? Now, how do we say somebody has a cancer? Firstly, all the fingers starts burning. Secondly, on your forehead here, you get eleven bumps which we can see, which I think people can't see, but it's a bumpy head. Here you find out a bump coming out, in Sanskrit language, called as Ekādaśha Rudra. Once it is settled then a cancer has started. Though I mean, all the time cancer is built in and broken up by parasympathetic but this time when it is built up here, a barrier is built up here and all the fingers starts burning, we know it is cancer that has started. Now, how to cure the cancer? It is very simple is to give it a balance. How do we give a balance, is to raise the left side and put it to the right side, but only a realised Soul, a sākṣhātkari person who knows about Sahaja Yoga, who knows all the methods, shudda Vidyā, we call it, can do it is to raise the left side and put it to the right side. And by that you can cure the cancer, if you know how to raise the Kuṇḍalinī on top of the head. Now this is just a action but action of the hand which has got the power flowing through it. Anything that has a power or a light, you can move it and light works out.

So, the working out of these vibrations takes place and that's how you just give a balance to that person. Because of the balance, when you raise it, this becomes loosened up, fits, is fit again, fitted in the center like this and the Chakra starts working and that's how the cancer is cured.

It's true that Sahaja Yoga has cured the cancer, can cure cancer but the best thing is that to get your Kuṇḍalinī awakened first and to become the Spirit. If you become the Spirit then the power starts flowing through you. Then you have to know the Shuddha Vidyā, in the essence you should know what are these centers? Five, six and seven centers on the left hand side. And these are seven centers here.

Another example, I will give you of a very simple thing which is a big problem for all medical science is the diseases which we call as incurable, like one of them is, say diabetes. Now the eye, now I will give you a complete picture of whole thing. Now this is a Chakra called Swādhiṣhṭhān Chakra, which is the second Chakra comes out of the Nābhī Chakra. You can call, from solar plexus it raises as the aortic plexus, outside we can say like that but it is much more than that. Now this aortic plexus on the subtler side has to work out a very special function, which medical science doesn't recognize or perhaps is not aware of it. I don't know the present position, why it was not that. It has got a very important function is to convert the fat cells from the stomach for the use of the brain. I don't know if the medical science is aware of it. Now this is the function this center has to do, is the aortic plexus has to do this function and put it through the blood stream to go the brain for the use of the brain which is using its power when it is thinking. Now the people who are very futuristic, who plan too much, who think too much, I mean they suffer from thinking, they just cannot stop thinking. In Switzerland, I met a doctor who told Me, “You cut my throat or do what You like

Mother, but stop this thinking, it's too much." So because we are futuristic all the time planning, planning and planning too much, we think too much and in that we forget that there are other functions that are to be done by this Chakra of Swādhiṣhṭhāna which represents outside in the gross as our aortic plexus. Now this special function is, when is over-done by any Chakra, what happens it neglects the other functions it has to do. It has to look after the liver, it has to look after the spleen, it has to look after the pancreas, it has to look after the kidney, it has to look after the lower abdomen, in the sense the lower intestine and it has to look after the part of the uterus.

So, it has to do all these works plus this transformation of these fat cells to the brain. Now because it is busy with one work only all the time, all these things are neglected.

So, you will be surprised to know that it is not the sugar that causes diabetes, not at all. Because you see if you go to a village, when I go to a village, they offer Me a tea, there will be at least five spoons of sugar in one cup. It is more sugar than anything else in it and if they think that I being a holy person, I should be given the best tea, so they will even put six spoons of sugar for Me and they don't have diabetes, they don't have diabetes. Diabetes is only for the people who are supposed to be intellectuals; it's not a disease for the poor people, because they don't think. They do not waste so much, so much energy in futuristic planning. And that's why they don't have diabetes. And now, I think it is being accepted by doctors that sugar is not the cause. Of course, if you don't take sugar there won't be any sugar passing out of

your urine, is correct. But you don't take any sugar, so how do you justify it has nothing to do with sugar.

So, what it has to do is that you must give a balance. You must give rest to your Swādhiṣhṭhān Chakra or some special energy by which this Swādhiṣhṭhān Chakra can cope with your futuristic thinking. Now all other such diseases, specially the worst of all that is the result, of course, liver is horrifyingly bad and liver can be cured through Sahaja Yoga only. It cannot be cured. Actually I have seen that people develop cirrhosis of liver or cancer of liver, only then you will realise that the fellow has a liver trouble but liver starts at a very early age, in, specially in the Western countries because the mothers are always thinking, the fathers are always planning, the poor child is born with Jaundice, is born with jaundice and jaundice is so easily curable but so many people die of this little thing called jaundice, children specially.

Now what happens with the other very serious disease which is disturbing is the, what you call as the leukemia, the blood cancer. See, it's a very serious disease and it can be easily cured. Now the spleen as you know, works out our emergencies whenever we want to have an additional flow of RBCs, it goes into action, is a simple thing we all know, the principle. Now, what happens we are in modern times always in emergency. Early in the morning, we get up; first of all, we before we open our eyes, we grope for a newspaper and then we open our eyes, we see some horrifying news. First of all in Sahaja Yoga, we are not supposed to read newspaper so early as that. We are supposed to get up first to do your meditation, settle down yourself because you are not

ready for any shocks. And these days as you know the newspaper is so much busy with giving sensational news that you get a real sensation all the time and your spleen goes in a hectic way in the in production of these RBCs. Then after that you just realise that time is up. You have to rush up.

So, you get up and you rush, have your bath. I mean in England, they don't even do all that. Just get out of their beds and rush, then they find their car coming and they cannot take their car, all so hectic, the wife has given the breakfast on the way. They are just nibbling it and the whole thing is such a hectic nonsense going on that, poor this spleen doesn't know how to cope with this mad man. It doesn't understand because it is so hectic, it also becomes hectic. It doesn't know when to produce what, how to adjust to your madness, you see it becomes mad in a way. The speedometer, it is a speedometer and the whole speedometer goes wobbling and that's how the whole preparation or we can say the vulnerability fall, the occurrence of this leukemia is established there. As soon as it is triggered, you get this leukemia as a disease. Now this kind of a spleen, so many people have, I have seen the, when you tell them that you have to fly now, just before going to the airport, they go hayward. They go mad.

They don't know what's happening; I mean just before that, so that, they will forget their passport here, they will forget their books there, they will forget their things, they go mad. They, if they have to travel, they become mad.

So, all these bondage of... as leukemia. Now we have cured leukemia, definitely, can be cured, 100% is this

curable, no doubt about it. But then as a result of your realisation, you become a balanced person; take things easily, in the right perspective. As I would tell you that I never plan My things at all. Never, I never plan because I have seen all plans fail. Our country has failed because all plans are failed. How they failed? Because future doesn't exist. You shouldn't plan about the future.

When you start planning about the future, you commit the greatest mistake.

At the practical side, I will tell you how it is? For example, that I went to Muradabad and I found lots of Russian tanks, or what you call these tractors being put there, becoming junks, thousands! I said what are they doing, why are they sitting here, what is their purpose. They said it was brought from Russia but I said why are they here? They said, they said they are here now, for years because there are no roads to take them to the village.

So, [laughs] why did you do it? You should have first made the roads and then brought these.

So, the future thinking is such a funny thing that you reach a station in time, the train is late, then you start thinking about why am I here.

Supposing you are a Sahaja Yogi, it is a very fantastic thing that I am telling you. If you are a Sahaja Yogi, if you are late, you understand it's planned by God. You find something, is so miraculous during that time, that you are amazed that how is it that I should have missed the plane and this should have happened to Me. It has happened with many Sahaja Yogis who found Me by mistake, by accident you can say. But these accidents took place because they missed the point where they

were about to reach, they couldn't reach, they walked into Sahaja Yoga.

So, you see the planning that we do has to be related to the planning of the Divine. Now we do not understand that there is God through medical science. We cannot, but we can do certain things by logical thinking that these flowers can become fruits. No medical science can do that. No living work can be done through us. What you do is dead work. Even if we produce a child, say out of a test tube, it is first the life is brought into it, we don't create life. Now the one that does all this living work and with such beautiful distribution and complete understanding that, say a mango tree will give you only a mango. An Indian will have an Indian child. Who does this? What you call the cheyan, the one who knows how to differentiate. Who does this job, is the Divine power, which is surrounding us. Whether you believe it or not, God exists. And His Divine power exists which does all this work, which is described in the Patanjali Yoga, as Ṛitambhara Pragñyā, means the one that creates the rutu, means that creates the different seasons. And at different seasons, you get different flowers and all this is managed by what; by the living power of God. Now we do not see Him anywhere but it works out.

First time, after you get your Self-realisation, you start feeling like Cool Breeze in the hands, is described in the Bible as the Cool Breeze of the Holy Ghost and Holy Ghost in our scriptures is called as Ādi Shakti, the primordial mother. The whole thing gets related once you get to come to Sahaja Yoga. Why Christ came on the earth? Why Rāma came on this earth? Why Kṛiṣhṇa came

on this earth? Why Mahāvīra came on this earth? Why Buddha came on this earth? What did they do? Where are they placed and how to awaken them? Everything you come to know about but you must first get to your realisation. Without getting the light as we say in Marathi *[UNCLEAR]*. It's all a shabdajalam and once you get out of it, it has nothing to do with one particular religion. You have to know that all religions are one. Christ has said those who are not against Me are with Me. Who are those? The Christians won't go and see that. I mean they Christians have said that now Christ is one side and science is on another side. From where do the science is also coming? The knowledge of science has come to us because we have been able to go to the subtler side of the matter. But, who controls the subtler side of matter. For example, recently people know let's say there is Sulphur dioxide molecule, the Sulphur and Oxygen have isometric, symmetric and all kinds of vibrations. In the matter itself they can see so clearly. Now, these vibrations, what are they? They come from where, who controls them? In Sahaja Yoga, we call it the Prāṇa Shakti, the right side.

On the left side is the Mānasa Shakti, the Manas Shakti, the icchā Shakti.

So, the right side is the Kriya Shakti, the left side is the Icchā Shakti and the central one is the Dharma Shakti; where you, you sustain a Dharma, you sustain a Dharma like Carbon has four valencies. Carbon now is placed in the center. Even if you see the periodical table of the organic chemistry, you should be amazed at the way it is organized. In the center is Carbon. Carbon has four hands

as Gaṇeśha has. Now once the Carbon is formed, then amino acids are formed, from amino acids, you go further with life. Further, further, further with it. But now after seeing all that one has to realise if we can go to the subtler side of the Carbon, or the Carbon, where is it placed within ourselves. How to awaken within ourselves? Where is Hydrogen, where is Nitrogen? How it works out? Actually after coming to medical science, we have to analyze everything and know all the details about it. But in Sahaja Yoga, you don't have to. You need not be a doctor. Just by touching somebody it works out, you don't know how. But if you want to know how it has worked out, it can be related completely to your rationality also, to your medical science. But otherwise for a simple person now, we have some one here who has cured say, a five thousand people of, he has cured even leprosy. Asked him, how did you cure leprosy? So, he told Me [Marathi], that's all he said, teertha means vibrated water, you see he took from Me and he gave it him, he cured the leprosy.

Now you may ask how it worked out. These vibrations are the synthesis of all the powers i.e. first power is of the power of desire, the power of mana and Second is the power of kriya, the power of Prāṇa and the power of sustenance of the Dharma [quotes in Marathi], the one by which we become Carbon and then we become amoeba and then we become human beings.

So, all these powers put together is one power, the synthetic, I mean we can call as synthesis of all these powers is that power, are these vibrations, which is called as `Praṇav'. Now what happens that if you want to

analyze, say for example if, “I want to analyze” you cannot; because when you want to analyze first of all you have to separate Prāṇa Shakti from these vibrations. Because you can only record Prāṇa Shakti, you cannot record Manas Shakti, can you? You cannot.

So, you cannot record it but you can see the result of it. This is the thing one has to understand that in the synthesis if you go then you can work out the thing without even knowing about it rationally.

It just works out. That's how the Christ cured people. But that doesn't mean that medical science is not needed, is very much needed and it is very, very important because without medical science there are so many things which we cannot really work out properly. In a way, I will say that now for example, I, I knew these things beforehand, what was happening and how things are, but when I joined the medicine study, I found out one thing very clearly that to relate it to people, one has to pass through a system of medical science. Otherwise it will not reach the people. Supposing, there is one man sitting under a tree, he treats somebody, he gets well. Then it will just pass out. They will say “Sāi Baba cured me" and somebody like Sāi Nāth, I don't say about other one, but the Sāi Nāth. He did through the Īshwari Shakti [quotes in Marathi], he cured, but nothing more than that. But if it passes through the medical science then it is the proper channel by which people will understand. Otherwise people will never understand Sahaja Yoga and that's why a channel is prepared. You know the science, you know what it is.

Like the other day, I told one lady, said that, “You have got sinusitis." She said how did you know? Now it is very simple because this Chakra if it is caught, it is sinusitis. And there is a simple medicine for that and extremely simple medicine, if you use it, they call it aji biles medicine as such that sinusitis can be cured. Now the same thing if you go through the medical what happens is that you know that sinus is formed like this and it is because of the cavities there sinus is formed. Now supposing, for a person who cures us like this, is easy for him but it is not so organized. For example, for Doctor Warren and Doctor Bohdan, is much easy to use Sahaja Yoga than for other people. Naturally because some people don't even know where is the heart? I tell them put your hand on the heart and they put it here [laughs].

The knowledge of heart, where it is, that also they don't have.

So, because you see, of their knowledge, they know exactly where to manifest Sahaja Yoga.

So, it has done a great service to Sahaja Yoga and to God. And the whole knowledge has come to us from God.

So, medical science is very important and specially, the Indian doctors, I would say, that it is their heritage; this is their heritage. If they take to Sahaja Yoga and then they practice medicine, it is going to help them a lot and help them so much that they will have the real satisfaction of doing real good to people of this noble profession. Because it has become machinery, there is no heart in it. You do not enjoy because there is no spirit but once you get the spirit in, then you will really enjoy this work and

you will just do it without feeling tired, without feeling any pangs of *[UNCLEAR]*.

As it is, it makes you much younger, makes you very active. You become very healthy yourself and you can cure easily. Now both of them had troubles, before they came to Me and when they were sick, they did not know how to get over it.

So, they came to Me ultimately and that's how once they get cured, they were amazed because medical science could not cure, so they came to Me. But now they know relationship between how far the medical science has gone and how to get this connected. Now if this connection, as he said that the subtle has to be connected with the gross and if the subtle is connected with the gross, the gross knowledge is going to help the most of all.

So, I thank you very much for inviting Me for this very special type of rapport that we have had. I know it may not go very well with you because you are educated in a different way where you think about it and understand. But once you get your realisation, your whole priorities change and your temperament change. I have seen people who were drug addicts, overnight they changed; who were alcoholics, overnight they changed. But there are people who were suffering from horrible diseases; for example, our president Sanjeeva Reddy, whom you have heard, I have cured. In ten minutes, he was cured, In ten minutes time he was cured and even the line of his operation disappeared.

So, it is such a tremendous thing that once you get into it you will be surprised, how fantastic it is and how as I am

using this instrument, you can use the instrument of medical science.

Moreover there are many things, which cannot be cured by also by Sahaja Yoga. One of them is supposing you have something that is dead. I have seen so far, we have not been able to cure cataract in the eye or something that is dead in the body, we cannot cure but if there is some sort of a living tissue which is unhappy or sick, we can cure. But if it is dead in the body, we cannot cure it. We cannot take it out; somebody has to work on it. For example, somebody has a, say a bullet, we cannot remove the bullet by Sahaja Yoga. We cannot, that doctors have to do.

So, also there are so many things like that we cannot help.

One more point I would like to just make, because the lady had asked Me about hypnosis. Hypnosis has been taken over by medical people blindly, which is very, very wrong. One must understand, what is hypnosis? Hypnosis again is the same as going towards the left, where you just get entrapped by these proteins and where by which you become unconscious, unaware of your central nervous system.

So, people use it for anesthesia, which is a wrong because you go to the left side by you will cure such a person physically but such person might become mad. He might have emotional problems.

So, by, by treating one part, we should not create another problem like penicillin we had, like sulphur we had, all these things are partial and are imbalances.

So, what we should try to see the whole perspective of the science of curing, let not only physically but also emotionally as he has said and also spiritually.

So, the curing has to be a complete thing and not just one bit of it because if you cure one thing with something, which is a strong medicine, you may create another problem in that. Same with acupuncture. Acupuncture is nothing but the drainage of your energies from other Chakras.

So, if you cure one Chakra, you might create a problem of another Chakra. Because the sympathetic is working out, but once you raise your Kuṇḍalinī then what happens you become connected with the whole and all the time the energy is flowing, so there is no imbalance or drainage. First you must get your realisation, then there is no tension, there is no worry, all the time, the flow is there and you have to just enjoy.

May God bless you all. I hope I have been able to put it in a way that we could understand each other.

[Applause.] [One person talks.]

Shri Mataji: Is one of the science. He said that how do you do it, how do you raise the Kuṇḍalinī, which is the sign that he is a real seeker, he wants to go to the point. Now as I said, it is Sahaja, means is spontaneous, is born with you, is very simple, as I told you these are all our centers here five, six and seven. And also, medically I have told it is accepted now that these are all sympathetic entities.

So what you have to do is put all these toward Me like this and it just works out. It moves through you the energy invites the Kuṇḍalinī and you get it, so many. But

if there are obstructions within you, you have to move your right hand, left hand being towards Me. With the right hand, you put your hands to different centers as I tell you and you can manage it. Like just now I can tell you, what Chakras you are catching.

So, I know which Chakras you are catching and if I tell you how to remove the hurdle, you can get it and then it works out, is very simple. But, in a village just putting the hands like this, they get it. For children, in a school they all get it. But we are rather we have barriers of our thoughts. [Laughs.]

Sahaja Yogi: No questions?

Shri Mataji: There will be, I hope there are some questions at least you see that shows the rapport has been established.

One person: Mā, You are saying that by doing this we will receive the energy from you. But I read in the Yoga somewhere that, this posture to conserve our energy and to avoid the loss. In this way, we conserve our energy. When we are doing like this, we will be losing our energy now, isn't it?

Shri Mataji: He has asked Me a question of this kind that if we put our hands like this, we will be losing our energies. And if we put our fingers like this, then we conserve our energies, is a wrong idea. You see what happens actually in Sahaja Yoga that Kuṇḍalinī is your Mother. Everybody has a Mother, individually placed in the sacrum bone. Now this *[UNCLEAR* matrix/Mother] within you, the mathrutwa as we call it, rises above and pushes you in the same way as the reptiles do. In the biological function of them that you are put higher than what you

are. You are not moving like a pendulum that an energy loss and energy gain like that. You just become empowered that you can give energy to others.

So, by doing this what happens, you do receive energy from Me, if I have energy force, it passes through you.

And then the energy goes inside and invites the Kuṇḍalinī as I told you. But why some of the saints used to do like this is not to preserve their energy. But this center relates to this center. And this center means the center of the Virāt, of the whole. And this is the center of the Swādhiṣhṭhāna, is the one by which all the matter is made.

So, when you do like this what you do, the energy of the whole is passed into the matter and here it is the subtle side of the matter is on. You can say the emotional side and it is passed into the emotions.

So, this mudra is not to be done by people who are not here doing this kind of work.

It is only meant for the incarnations who have that much power to do.

So, this one is not preservation but actually is passing of your energy to that. You don't have to preserve any energy, you have to get the energy passing through you. And the energy within you rises and opens that gate.

One person: [asks to explain in Marathi language for 5 mins.]

Shri Mataji: [laughs and explains in Marathi for few mins.]
Someone: [asks something.]

Shri Mataji: Yes. He is saying, “How can you prove materially or physically that Kuṇḍalinī is awakened”

because it is spiritual? It is true but the spirit is felt in your central nervous system, I told you first, in the very beginning that when the Kuṇḍalinī is awakened, what happens that you start feeling the Cool Breeze coming out of your head actually you start feeling the Cool Breeze around means that your central nervous system has awakened to a new consciousness called as collective consciousness. There is a new awakening in your nervous system.

So, also physically you can feel it because your central nervous system gets enlightened. Is the experience is there inside but the manifestation of that comes up to the gross.

Yes experience is there no doubt, but the experience is not up to the gross cell, is the point. See, the light when it is awakened is an experience but is brought to the gross level. You will be surprised that so many people, you can even see with your naked eye, the rising of the Kuṇḍalinī, the pulsation of the Kuṇḍalinī. You can feel it because it's an energy, which gives you the experience and the experience is of thoughtless awareness, you just become thoughtless. You become joyous, there is no thought.

Question from Audience: Your experience may be different from my experience?

Shri Mataji: No, No, it is not, is the same, is the same is, the experience is the same, the manifestation is the same. But when the Kuṇḍalinī raising takes place, then of course some people who have some obstructions might get little heat in the body or something like that while the raising takes place. But once the, once it raises,

everybody should feel the Cool Breeze, coming out their head and should feel the Cool Breeze coming in your hand. That's how it is.

[Conversation of a seeker and Shri Mataji in Marathi language.] Question from Audience: What made you to think of this line?

Shri Mataji: You see, he has asked Me a question that for a medical profession I mean, I did it. Why did I take this line? Actually, I was in this line to begin with. I studied medicine just to talk to you, is the other way round, all right.

[Conversation of a seeker and Shri Mataji in Marathi language.]

Shri Mataji: That's a good idea! [Marathi.] Please put your right hand on your heart. Now you have to say, `Mother, I am the spirit.' Please keep this right hand on your shoulder at the base of the neck, on the left side. This is a very important center in our body, which we get caught up because we all the time try debase ourselves or ridicule ourselves and find faults with us, which say we are guilty of this and guilty of that.

So, you have to say at this center, the mantra is `Mother, I am not guilty,' because the spirit is guiltless. You have to say. `Mother, I am not guilty,' sixteen times because there are sixteen sub plexuses or petals to this center.

So, you have to say, `Mother, I am not guilty.' [Marathi explanation.] With full faith in yourself, you have to say, `Mother I am absolutely not guilty.' You are not, because you are the Spirit. How can you be guilty? And you must know that God almighty is the ocean of love, ocean of grace and ocean of forgiveness.

So, what mistake can you commit that he cannot forgive you? You have to just say, `Mother I am not guilty.' This is one of the centers, which is very important if you suffer from any troubles due to lethargic heart, like angina, or bad circulation or any *[UNCLEAR* colt/collating thing] like that problems of pulmonary vein where blood cannot be circulated or anything like that. Now better, sixteen times. Now you have to say one more mantra is that, `Mother, I am the part and parcel of the whole', because you are a microcosm which is a part of the macrocosm. And once you become part and parcel of the whole, the collective consciousness is awakened within you.

So, you have to say, `Mother, I am the part and parcel of the whole', that too sixteen times. This cures all your throat troubles, all the ENT problems, ear, nose and throat, on the physical level. This is the simple mantra to be said. [Marathi explanation.] Please put your hand across your forehead and you have to say, `Mother, I forgive everyone.' We have to forgive everyone. Now, many will say it is difficult to forgive, but is the easiest thing to say and if you say that, actually you are taking off the load from your mind. Otherwise the person who has made you suffer, you are playing into the hands of that person. That person does not feel anything. You are feeling it, so it is better to say, `Mother, I forgive everyone.' Now, put your hand on top of your head, on the fontanelle bone area and press the palm on top of that move it in a clockwise...

Contents: 1984-02-03 **Śhrī Mahālakṣhmī Pūjā, Attention, Kolhapur, Maharashtra, India**

We are all here now. [Marathi.] In this sacred place called Kolhapur the Goddess killed the asura called Kolhasura here who was a very bad demon, who was born again recently but he died also; so thank God, the death of Kolhasura has taken place. This place specially is marked because from the Mother Earth the Mahālakṣhmī energy was emitted specially from the deity of Mahālakṣhmī. And as you know that Mahālakṣhmī is the ascending power within us through which we ascend. It's like the staircase which takes you into the realm of God and so it is very important and Maharashtra's deity is Viṭṭhala, Śhrī Kṛiṣhṇa because it is the ascending power of Vishnu to Śhrī Kṛiṣhṇa, then Mahāviṣhṇu and then to Sahasrāra. All this is possible because we have got Mahālakṣhmī channel within us. If you did not have Suṣhumnā we would have been like animals only. Even animals have this channel up to a point. As you know they can come up to the void, but after the void the ascent as human being starts through this Mahālakṣhmī energy within us.

So this energy is very important and that one is very much worshipped in this country. First this energy starts working within us as seeking, seeking shelter and food. Once the shelter is established, which is established through the Mahākālī Shakti, I mean when it is in the heart of an animal, sense of security is established, then he starts seeking food. In the same way, human beings also, once he's established in his security, then he starts thinking of feeding himself, looking after himself.

So at the very primitive stage, the human beings first tried to establish their security by getting into some caves, or some shelters where they could abide without

fear to life because if there is no life you don't think of food. For example if there is an emergency, we had a very bad floods in Patna and it was such a bad flood that people had to go in the upper story and look after their security, that was the first thing. Which is such an innate feeling in human beings, to preserve life and that comes from the Mahākālī's powers. And when they went up there, they told Me that they didn't have food for three days but they had never thought of food.

They never even thought they were hungry, they were only worried that the water may rise up to that point where they are and they'll all sink and die.

So the only worry was that how to exist, how to survive and the food question did not come. But when people starve, they also start thinking of insecurity, that they may die and then they start thinking about food.

So the first security comes in, then the second comes, the sense of food. In emergency the sense of food that comes is the beginning, but later on we start putting our attention to food. Then the enjoyment of the food, then discrimination of the food and all those things, you see various things start coming into us and we get lost with this Mahālakṣhmī Tattwa.

The more we worry about the food, the more we worry about the taste of the food, the more we worry about the time of the food, I mean one can live without food for two, three days very easily, there's no problem, but we think that we are used to breakfast at 8:00 we must have breakfast at 8:00. Like Indians are used to their lunch at 10:00 they must have lunch at 10:00. This is all our slavery to time and that's how our seeking which is

higher finishes off. Then they'll start talking about food all the time. This is of course Mahālakṣhmī's blessings that we think of food, but She doesn't say that you get lost with it, so we get lost with it and once we are lost with it then our seeking doesn't become higher. Our taste habits, we like this, we like that, this is good, that is bad. We'd like to have this, *[UNCLEAR]* if it lingers, it keeps us down. Whatever we get, we should try to eat. Whatever we think good, may not be good for us, it may be good for the time, but may not be good for us, may not be good from vibrations point of view.

So whatever God gives us, whatever is there is good, vibrated and eaten. Also then the preservation sense comes in, that if you eat wrong type of food, then people start thinking that this will also ruin their security because they may lose their health. Then they start thinking about it, up to a point is alright, but if you do too much, then you get out of the circulation in the sense that if you are flying through, will you please pay attention here? I am surprised that you are Sahaja Yogis, how is it your attention goes to small things like that? There's a lady still looking at that side. [Marathi.] Please try to put your attention to what I am saying. Is it important that because they are bringing something must you see that? I mean this is really silly at this age. Now you are Sahaja Yogis, now your attention should be concentrated.

So now the attention more goes towards the acquisition of better facilities for food, or better food, or whatever you may call for health food as you call it and that also if you go too much, you see, you can touch the banks, but

you shouldn't cross over and walk through otherwise how will you move on the river? That's the point is, so we start building up that sort of a nonsense also, this is good for health, this is not good for health, that is good for health and health for what? For what is the health? Health is for having a good attention, which you don't have, is lost in the food. And some people I have seen, they are just still lost in food, completely. Though they have got the glimpse of Sahaja Yoga, but still they are very much attached to food.

So that sort of an attitude must be changed, we should see where we go and get ourselves attached and lose our attention. It's very important that we should be very careful about our attention, where is it.

So now the attention moves on with that, I mean those who still move further and don't jump on the banks, still move in the river, further on, attention goes on, then they think that, you see this kind, it works all the time, the insecurity part of it within, so that this food could be lost, so what should we do to have better food? So they start thinking of money, so you know that the barter system became a system of money, people started having money. But then apart from food, clothing, other things started and people started moving with it to the Mahākālī power, more and more and the creative power more and more. The banks are also becoming subtler and subtler, the movement is also become subtler and subtler.

So as the man started moving higher and higher, arts developed on the right side and the idea of quality of life, or quality of security changed.

So the both the sides becoming subtler and subtler and the growth becoming subtler and subtler, man gets again lost into those subtler banks on the right and the left. Still you have to move further.

So the Mahālakṣhmī power takes you higher and higher, that time then you think you must express yourself and the expression starts in arts, culture, it starts also in your living, in your institutions of security, like political advancement, political institutions and that's how human beings reached a point where now they think they have done that was all possible, but still in a subtler way, they are still lost.

So the Mahālakṣhmī Tattwa went up to, say, Christ, up to that point and still people have not gone into the subtler side of that. They are still on the banks, moving towards the banks, not in the centre of it. In Sahaja Yoga what happens is that the pure desire that is Kuṇḍalinī is kept at the beginning of the life, just at the beginning of the life, when you were not even a human being, even below, this carbon and all the journey from carbon onwards is to be repressed again through the Kuṇḍalinī.

All this journey that you did on the superficial level of this Mahālakṣhmī stream has to be redone in the innermost way to penetrate through all these subtler centers which are inside the stream, not outside.

Because if you are on the outside, you always go to the banks, from where you cannot see any banks, there is no attention that could be taken to the banks, but you move further like a jet. And this Kuṇḍalinī is the one that's the true desire, but your attention has to be on the target. Even if you say that the Kuṇḍalinī is the moving force,

still where is your attention? Still your attention is on the banks so you come up again superficially, you come and just float superficially and then again just jump onto some bank, then again I'll have to put you down inside the water, go inside, inside, again go back to the Kuṇḍalinī, again start your journey. But from the very beginning, steadfast if you move towards the target, towards the spirit, then I have no problem but it doesn't with human beings, they are so much used to the attraction of the banks that they always come up, float, go to the banks and again sometimes settle down there, or again come back so the journey is upward, downward, downward, upward. Though the movement of the Kuṇḍalinī could be such that you jump like a jet and set down there. The day that starts I'll be the happiest person, because it is too much sometimes for Me to make this kind of a journey four times up and down with everyone because of the so called attachments they have outside. The inner movement with a detached mind, if they accept a situation and they decide within themselves that I'm going to do like this, I have decided on this, they can work it out. But it's not so. Mostly the attitude should be that Mother is like a mirror and we have a mirror in front of us so we know how we are proceeding.

So in the mirror if I see myself like this, better get rid of it and go ahead. But on the contrary, if Mother says something to someone that this is so, then they feel hurt and again float down. The mirror has to say something.

Supposing you have some spot on your face the mirror is not going to please you, it will say it is there.

So you don't hit the mirror and you just don't get angry at the mirror, do you? You see that you clear yourself because you don't want to have any spots. But just the other way around. What happens with people I have seen that if you tell them anything or you just tell them this is wrong they'll first explain, argue, this thing and if it doesn't work out, then they will just get angry with Sahaja Yoga and give up.

As if they are obliging Sahaja Yoga, as if they are obliging Mother. Actually you are obliging yourself.

You are not obliging anyone. If you take up that kind of an attitude, then only you will realise that you have to move forward without looking left or right.

So we have had many experiences, quite funny, if you look back you can see that you have been sometimes Romeo and Juliets, sometimes you have been money minded people, sometimes you have been quarreling, fighting, arguing type, all kinds we have had but those who forget all this and shoot off towards the goal are the best and the most sensible. They are the most selfish people because they know what selfishness is. All the rest are stupid because they are losing their time. There are some people I have seen who also tried to use Sahaja Yoga for making money or making something for Sahaja Yoga sort of thing in making some money out of it or sort of thing. You better make yourself, is the best way and enjoy it in a way that makes you happy and make others happy in the Sahaja stream. But getting out of the Sahaja stream and doing something is again coming out of that innermost channel of Brahma Nāḍī, outwards, again floating, going to the banks, again going down because

every time you go down like that you have to start your Kuṇḍalinī again back. It's a very difficult thing. And the force of the Kuṇḍalinī gets spent.

So one has to understand that if you have to do this journey, you have to be a determined person, you have to be a disciplined person yourself. Nobody should tell you that discipline yourself, do this do that, you have to do it. What others are doing, firstly the attention is there. I mean if somebody brings it here everyone's attention must go there, what is there to see? But this is nothing, this is very, very superuous thing, but even serious things should not attract your attention, your attention should be on the solution of all the solutions, blessing of all the blessings, the emancipation of all the emancipations.

You shouldn't worry about anything else, you just worry about that connection which is being established and nothing else, everything is looked after. It is as simple as that. If this connection is broken, the simple thing is to keep the connection on. What's the use of polishing this, doing this, doing that, are you going to get the connection back? This is a simple practical thing we forget. And once we start forgetting that practical side we become retarded in our progress and what we find wherever we are we are there.

Like in this Kolhapur I would say when I come, you will see tonight there will be a huge crowd, very huge crowd, always we have. Out of them how many really take up this journey? Very few. Doesn't matter, you shouldn't mind it because they are not wise yet. But those who become wise, who take up the journey also in between

jack in the box, they come out. Suddenly I find somebody floating, we are going through the submarine and they just jet out. This is how it has happened with all our journey and at this place when we are, we have arrived here, not by plane, not by car, not by roads but through the inner most core of our heart we have arrived. The Brahma Nāḍī we have arrived at Kolhapur, at Mahālakṣhmī's point through the most innermost part and that's how we are here.

So we look at this place in a very gross manner, that's our old habits but the new habit should be vibration-wise where are we, what is it. Once you develop this, I can definitely completely transform this Kolhapur into another place. You are like My channels. When you go with Me, I use you as My channels. But what I find that the channels are sometimes crooked, sometimes broken, sometimes there are holes and the energy is wasted.

So it is the duty if all the Sahaja Yogis who are travelling with Me especially is to be the channel. But if you take an attitude that you are here as guests, you are to be looked after, the arrangement should be good, that should be good, then you have, there is no meaning to your travelling. You are travelling like saints who travelled with Buddha, even much more because they did not do anything. But you are the channels.

So as you are the channels you have to keep your channels open, efficient and you should work it out.

Today is a special day for all of you, is called as Mahābīja, the day of Mahābīj, means all the mantras have a Bīja and the Mahābīja of that is Omkar himself, Omkar. And in the first place, this Omkar was like an egg, Brahmāṇḍa.

They call it Brahmāṇḍa, the whole Brahmāṇḍa becomes an anda [egg]. If course when they say Brahmāṇḍa even Sanskrit people don't know that they are talking of an egg, Brahmāṇḍa, the Anda of Brahma, that is the first Bīja and how this Brahma, this vibrations, how they were created.

In the first place, when the Devī separated from Shiva, before that She had gone round Him as you know and then Shiva told Her, Sadāśhiva told Her that You have to now create and the separation took place, so He came out of that Pradakshinā or you can call it elliptical form and when He came out of it, that created a kind of a sound, sound that had this Brahma in it.

So that Brahma was left in that area. As I have told you that first the Devī went round Sadāśhiva and created a garland. That garland had covered Shiva in it, like the nucleus inside. But when Sadāśhiva went out of it, it created a sound and that sound filled the whole of that Andakruti, means the form of an egg and that is the Mahābīja. [GAP] ? reborn as Śhrī Gaṇeśha and later on as Jesus Christ. That's why at Mahālakṣhmī's place come with Mahābīja day is a very significant thing. Because Mahālakṣhmī was the mother of Jesus, Mary and Her Son was the incarnation of Mahābīja.

So to come here on such and such date and to do Mahālakṣhmī's Pūjā is a very big privilege, is a great privilege for all of you. And with that privilege you should humbly do this Pūjā and try to get into that Mahābīja, become one part of that Mahābīja, which is this Brahmāṇḍa the whole Brahmāṇḍa, Brahma's Anda, Anda means egg, is created. Be part and parcel of that and not

to create any angularity or any kind of a misrepresentation but be homogeneous with the whole Brahma. One has to put attention to your Brahma Shakti which is manifested as vibrations. Today the vibrations are so great that I didn't think I would be able to speak on this, but somehow I have managed. I hope you all have been able to understand the subtlest of subtle that I have talked to you today.

So when you travel with Me you should not think that you have come here to see the whole land and all that, or to enjoy life.

You have come here to become the channel of your Mother's work. If you understand that, then you will be able to realise that God has given you a very appointed place.

So I would request you, be deserving.

Deserve it and assume your seats, coveted places where God has put you.

May God bless you.

[Shri Mataji speaks briefly in Marathi.]

Contents: 1984-02-07 **Pūjā (English+Marathi), Shivaji the Anshāvātara, Satara, Maharashtra, India**

[Shri Mataji talks in English:] It is not proper, but He was not just a mere king, you see He was a Devī bhakta and an ansha Avatāra and His Mother was also an ansha Avatāra. What is the sign of an ansha Avatāra is that they have extra powers over themselves and over others and they have no temptations, no mistakes.

[Shri Mataji speaks in Marathi to the sound technicians about the sound system problem.] So, first of all we

should know that Shivaji himself was a Divine person in the sense that He had no defects in him. He was a detached personality. I do not want to tell you the whole history about him, but his character if you study you will be amazed how detached He was. He was not found of women. He never hankered after them and on the contrary respected women very much. There is a story that once He was presented with the daughter-in-law of a great nawab because the people used to do, I do not know what you call those tactics where you attack the people hiding from behind.

[Shri Mataji is speaking with the sound technicians and the Sahaja Yogis present there about failure of the sound system due to load shedding, load shedding is a problem the people of this place face every Tuesday. Shri Mataji asks the Sahaja Yogis present there to try to listen to Her from their Sahasrāra, pay attention to Her and they will be able to listen Her.] So, this great king Shivaji was a man without any temptation for women and once He was presented with a very beautiful lady who was the daughter-in-law of a big nawab, because they looted lot of money and lot of precious things and this lady as well when her caravan was passing through some passage in the mountains.

So Shivaji looked at her. He asked her to remover her veil because she was a Muslim lady and then looking at her He said that if my mother was as beautiful as you are, I would have been equally beautiful, is the best way to say you are my sister. He himself had to marry four times because of certain problems of political nature where He had to marry four women, but He married them, because

He had to marry and all the four wives were his wives and no other women came into his head. This is such a tremendous character. This is first sign of a personality who is really mature, who has no attention towards another women, which is very common in Maharashtra it is not difficult for them they do not understand what I am talking about. This is one of the things one has to understand how respectful He was to other women. That He gave away all her things, all her money, all her jewelry, all that was looted of that nawab also, all the arms everything and sent back all the people to the nawab, because if there is a lady she is the Shakti, she is travelling so nobody has business to trouble her. This was his respect for women who belonged actually to another party. He had so many qualities that it is impossible to describe on that but absolutely honest, absolutely honest He was and He lived like a saint. He did not care for comfort. If you go and see his things that the had you will be amazed, He could sleep on the stones, but for his kingship He had to wear all the ornaments, all the dresses which He used to wear. If you go in Bombay [Mumbai] museum you will see chilkhat we call it a cover made out of iron mesh. He used to wear that, it is so heavy that you cannot lift it, but He had to wear it and He used to fight his wars wearing that, but like all other kings you see in the West He did not have weaknesses, He had no habits, extremely honest, Spartan in temperament and absolute ideal king He was, an absolute ideal king. He talked to everyone on the same level, treated everybody with respect, never showed off that he was a king, but He kept his dignity all

the time and when it was needed to be corrected with all courage He corrected people, He did not care for cheap popularity either. Such a man was a blessing to Maharashtra because He is such an ideal for us and for people to follow and His mother was a great lady who brought him out of the clutches of the Mughal people who tried to convert forcibly Hindus to Islam. Like this Aurangzeb he used to hate music and he would kill, very right-sided fellow, every year the brahmins so many brahmins that the thread they used to weigh according to his body weight.

So you can imagine what a cruel man he was. He was like Hitler only, but he was also very honest in the sense he used to make his own caps and sell them and live on that money. He was very right-sided who was honest as far as the money was concerned, the government money was concerned, but he was so fanatically imprisoned in his own ideas about God that he had become just like a Rākshasa. To face him was very difficult was very difficult in those days, he was a terror. Nobody could face Hitler from inside but Shivaji managed it and he did it so well.

So Satara is a place where he established his first kingdom. This is the capital of Maharashtra, Satara, that is why it is a very important place. Secondly, after Shivaji, or when Shivaji was the king looking after the whole worldly affairs, his own son fell into a bad company of a fellow who came from Uttar Pradesh called Kabji Kalusha who started drinking and doing all wrong things that should not be done.

He was imprisoned, but even then he was a very-very lost case, but a good hearted fellow that is why this

Maharashtra was divided into two and his younger brother had to form another kingdom or another part of the capital was in Kolhapur where I think you have seen Sahu Mahārāja's statue there.

So he was a very Dharmic fellow, very good person and he looked after that part very well.

So, Kolhapur started another capital, but what I am trying to say that when negativity starts crawling into something great, then it starts getting divided and it is now a very common character they say of Marathas that they indulge in Bhau Bandki, always form groups. I find it even happening in Sahaja Yoga. I went to Rahuri, I felt that in Rahuri also there is a kind of Bhau Bandki working out. This is character of Marathas and they have to be very-very careful about it. One of them is Bhau Bandki that they form a group suddenly and separate themselves from one another and start fighting each other, it is sort of a coagulation that takes place in their temperaments. One must understand that unless and until absolutely we are united we cannot do Sahaja Yoga.

So this kind of separation is a very wrong thing which should be avoided out and out and one thing I want to tell all the Maharashtrians that they have to be careful on this point is Bhau Bandki.

This comes out of jealousy out of thirst for power, for not accepting somebody as the leader, trying to find faults all the time. If the leader is wrong also it can happen. If the leader goes wrong if he is not a person who can carry on well with others and something it can happen.

So it is quite a mutual thing that works out but as a result of the whole thing is that it starts getting bifurcated and

that is how we lost the kingdom of Maharashtra ultimately.

So it's a very good example of understanding how Shivaji worked hard fought Aurangzeb, established his kingdom and how it was lost in second generation itself.

[Shri Mataji talks in Marathi:] [About Shivaji, that how he established His capital in Satara, that we should try imbibe his character.

His utmost quality was that he did not have any dosha [wrong]. He did not have any habits. He never had the ego that he was the king, he used to eat with his people, talk to them. Shivaji was a Ansha Avatāra, he was devoted to his mother, never spoke in front of her or against he, he was not proud of being a king.

She also addresses about Bhau Bandki which she says is a thing the Maharashtrians should be careful of.

Mother says that one should work for others and not think about only oneself. One should not find faults in others, first he should find faults within himself. Love for others is most important in Sahaja Yoga.

Nothing is impossible for a Sahaja Yogi who has has established Self-realisation, who meditates regularly and participates in the collective meditation.]

Contents: 1984-02-10 **Talk to Ladies, Pimpri, Pune, Maharashtra, India**

[Marathi.] For a... [Marathi.] Ha. For your good luck, you should say let us say for your good luck, Saubhāgya for your good luck. Is given to the ladies, always given to the ladies. Because in India the women are regarded as the Shakti and women who lead a married life and who have

been mothers, who have been daughters and also wives and things like that are respected very much as only it is believed that only the respectable women when they exist in any country the Gods also reside there. If they are not respectable the Gods don't reside there.

See the glamour is not very much respected in India. The glamorous nature is regarded as something like a sophisticated prostitution *[UNCLEAR]*. In India, glamour is a sign of a effect or a kind of inferiority complex in a women or maybe a cunning to be glamorous. See so it's not very much respected in this country. If they find any women getting very glamorous then she's little bit pulled down in the society and people try to pass remarks on her and make fun of her or sort of she's brought down. *[UNCLEAR* It's] not regarded as a very great thing but a traditional... a women has to be traditionally dressed up.

As a married women she has to wear a certain ornaments. She has to wear certain things as a married women. She has to wear certain dresses as a married woman and even if they become little bit deviated still a traditional women is respected.

So tradition is the thing that one should do and not the glamour because that's so artificial and temporary and is very degrading for women according to their standards *[UNCLEAR* you see]. And I don't know what are your standards are and that's how say for example a prostitute cannot enter into any house and if [not sure] there is a glamorous women also people avoid, men avoid such women and such women are not allowed to enter any houses here you see.

So the glamour has no value.

So the attention is not so superficial but has to be deep. Of course nowadays our modern girls are taking to little bit this glamorous styles *[UNCLEAR]* coming trickling down little bit but once they are married they also give up because not very much respected. There is no respect for women who are glamorous and run after glamour. Now thank god now in England also I have seen people are learning that also in other places people are trying to learn how to be simple and traditional... but they are some of them are getting untraditional, simple but untraditional. That's not regarded as something good in a society of Sahaja I think. We should be traditionally dressed, properly dressed. Hair should be properly done. We should dress up in traditional way. I mean they would like to see you say in a Victorian gown or a say a Elizabethian *[UNCLEAR* collars] and things like that or something like that. That is what we are. I mean we wear dresses of the very ancient times we UNCLEAR [live] what we wear like the nath [nose ring] and all that is so ancient absolutely its antiquity. I don't know since when we have been wearing nath in our lives and that tradition we observe even today all the time.

I mean whenever there is any function or anything we try to wear a very traditional dress, men and women all especially women always wear traditional dresses. Not regarded very good not to be traditional so one must make a difference between a traditional dress and an untraditional dress and also a glamorous dress.

So the prostitutes *[UNCLEAR]* and their style is of course out of question. The way they dress up show off and all that is out of question. Second one the so-called simple dress

if it is untraditional also in Sahaja Yoga is not so much respected. Reason for that is that we have different powers within ourselves and in tradition through our unconscious we have discovered that these are the traditions, for example My mother never made Me a hole in the nose but I get always pain in the nose *[UNCLEAR]*. Once a doctor also operated Me for the *[UNCLEAR]* but I know this a very simple thing I have to do is to put a hole here and wear something. Once I start wearing it I know it's all going to be alright. Most of your left Viśhuddhis will be cured as soon as I make a hole I know that.

So I have to make a hole there and it is so traditional in our country to have a hole in the nose but somehow My mother thought that she should not make a hole for Me. She had a hole of her own. But she didn't make a hole for Me.

So that was wrong I think, she should have I'll have to do that at this age sometime to make a hole in My nose.

Its all comes out of a very deeper understanding through the unconscious that it will become traditional.

Unconscious goes on giving information, people start using them then whatever is bad is discarded.

Whatever is good is accepted and you start becoming traditionally understood. See like here men have become little untraditional, they'll wear a kurta [Indian collarless long shirt] and a pant or something like that. But this you can see it's most unsuitable for this country to wear a pant which is tight. Now people are wearing jeans can you imagine this heat to wear jeans. They are wearing jeans also stupid people as they are. See whatever country you live in you have traditions built in according

to the need of the country and so traditionally whatever are your dresses you must wear. I like the bow tie and all that you wear is quite good. Nothing wrong in it. For a Pūjā if you wear that is all right.

So, one should differentiate. Now all these are traditions carried forward because people didn't find anything wrong with them so these traditions have carried forward and forward and forward. And I think we are very traditional people. I think Indians are the most traditional and thanks to our women in India who have stood all the impacts of the Western culture, Western education and Western *[UNCLEAR* hoarding/hodi]. We have still kept up our sarīs, we have kept up our styles, we have kept up our borders, we wear our sarīs the same way. They are with of course it was little tilts away but mostly we are traditional people and we have kept it which is a very good thing. And I hope you people also try to be more traditional than to be pomptous [pompous] or something amboyant, very symbolic or a sometimes too fashionable or glamorous. You see the glamour is the biggest curse of the West. Half of the time is spent in glamorizing themselves and men worried about their hair styles and women. And ultimately they end up with no hairstyle just [not sure] hair.

So that also is not good because you'll all get bald if you do not comb your hair properly and get bald very soon and then people will laugh and say how Sahaja Yogis are all bald. *[UNCLEAR* There must a trick of the trade] that every Saturday must put lot of oil in your hair nicely to it and always use some sort of conditioner you call it I don't know, but *[UNCLEAR]* is quite good, I must give you the

hint. And comb your hair in a way that is not untraditional. Untraditional hair are not good and untraditional hair are always attacked by bhoots.

So it's better to be properly combed hair and properly done hair and to be traditional and it is a tradition that a Goddess doesn't tie her hair *[UNCLEAR* She's] not supposed to tie her hair so I do not tie in your presence but as a wife I have to tie up so I tie up My hair. That is the tradition whatever is the tradition has to be done.

So whatever is bad in the tradition will drop off very soon because there are many things which are bad but they should drop out. But we should not become anti-culture, anti-tradition that is wrong.

So today one of the traditions is this that all the ladies are given this thing to wish them good luck because according to Sahaja Yoga also luck comes from the wife. If the wife has problems the husband will always have problems. If she is not alright the Lakṣhmī will not arrive, if she's catching then the there will be problem, you will have accidents, you will have Lakṣhmī problems, you will have other problems headaches and this and that.

So the wife has to be alright and she has to be careful about being traditional about being sensible, she has to be respectable also. She the responsibility is much more on her so to remind her of her responsibilities and her greatness, she is honoured. This is what it is. I hope you have understood though it's a very subtle matter. But I hope I have been able to explain to you. *[UNCLEAR]* you tell them in French a little bit.

You need not use this. It turns out to be useless or *[UNCLEAR* its] turns out to be against anti...

anti-growth so it just drops off. Like I have seen in England there are certain traditions they are so sweet and good. Like if a lady is going up the... up the stairs, then she has to go first but if she's coming down then the man has to walk first so that she should not topple. It's very simple you see there is not ladies first but ladies are first just because they are to be protected. But if you carry it too much that much somebody might say that the ladies first now it becomes fanaticism. Tradition is suitable according to the need of growth of human beings in good well being sense. And it has a style which... which is so nice and good to look at a style. But it's not a stylishness. Its style means a... the way it is done is gracious is beautiful it's not like a bull doing the job but it's a lady doing the job. Like a bull does a job you see. Like a gentleness is always confused with sophistication.

Sophistication is nonsense but gentleness is something inborn.

So people who are very sophisticated can be extremely harsh people very harsh. They say things which should never be said. I mean now we can say French. French are people who are supposed to be sophisticated, they are very harsh people when they talk to each other they actually all the time hit at every person. But the gentleness is such that you do things in such a manner in whole movement of your being is in such a manner that you do not hurt anyone. But the sophistication is to impress others, you see artificial to impress some others and aggression its aggression.

So the whole gentleness gets faden, camouflaged you see. Its hides all the harshness inside. While gentleness comes from your heart from your real heart.

So I would see that you people before you return back to your respective countries try to see the difference between the reality and artificiality. And how much time we waste in being artificial. There is no need in Sahaja Yoga to be artificial. There is no need to show off or some people even don't talk and show off. There are ways and methods people have developed very sophisticated method in the West of impressing others with their idea of superiority. Frivolousness gives you an ego but the sophistication gives you such a solid ego that it's impossible to do. No no... you see if there's frivolousness it gives you ego but it if it is sophisticated behaviour then it is such a solid ego it's just like solid stone. Now as we have separated from ourselves, we should be able to see all these things. You are no more now French, English or Indians, you are all Yogis and you are in the realm of God's domain.

So we have to see what reality is and we have to accept one *[UNCLEAR* ray] accepting reality and the tradition that is *[UNCLEAR* good].

May God bless you all.

Contents: 1984-02-13 **Śhrī Devī Pūjā, What Is Expected of Sahaja Yogis and Where Are We, Bordi, Maharashtra, India**

[A Sahaja Yogi reads the mantra `Pasayadan' written by saint Gñyāneśhwara and Shri Mataji translates it. It is the last hymn [Ovi] of the `Gyāneshwari' or `Dnyaneshwari',

which is an interpretation of the Bhagavad Gītā written in Marathi by Saint Gñyāneśhwara or Saint Dyaneshwara].

Sahaja Yogi: “Ata vishwatmake deve yene vagyajne toshave."

Shri Mataji: Now it says that all of you, who are one in your Spirit, this all description of Sahaja Yoga today, is the future, the present that you will get it, at this time what is going to happen. It is so beautifully shown, you'll be surprised, that you all will become one in the universe. The Spirit of the universe will be satisfied with the Yagñyas they are going to do, with the fire ceremonies you are going to do. How it is appropriated! He said it three hundred years back.

Sahaja Yogi: “Toshoni maza dyave pasayadana he."

Shri Mataji: And then you should give us the milk of your blessings by getting the complete satisfaction from us.

Sahaja Yogi: “Ze khalanchi vyankati sando."

Shri Mataji: That time all the horrible evil people will be ruined and their plans will be spoiled.

Sahaja Yogi: “Taya satkarmi rati wadho."

Shri Mataji: And people will take to righteousness. This is the description *[UNCLEAR]* Gupta.

Sahaja Yogi: “Bhuta paraspare pado maitra jivantche."

Shri Mataji: At that time there will be a tremendous friendship of the Spirit among people.

Sahaja Yogi: “Duritanche timira zawo."

Shri Mataji: Those who are in ignorance will get light.

Sahaja Yogi: “Vishwa swadharma surye paho."

Shri Mataji: The whole universe will see the light, the sun of One Universal Religion.

Sahaja Yogi: “Jo je vanchita to te laho."

Shri Mataji: Whatever you will desire, whatever they will desire, they will get it.

Sahaja Yogi: “Pranijata"...

Shri Mataji: All the human beings.

Sahaja Yogi: “Varshata sakala mangali Ishwarnishthanchi mandiyali Anavarata bhuMaṇḍala bhetatu.

bhoota."

Shri Mataji: When you will meet us, there will be a shower of blessings and of course, of Chaitanya; when you will meet us, that's Me, ha. [Laughs.]

Sahaja Yogi: “Chala Kalpatarunche arava."

Shri Mataji: This is the description of Sahaja Yogis, you must listen to this. That they will be the forests, like forest, means, many, thousands like moving forests of huge trees of giving blessings, trees that give blessings and can give, Kalpataru is the tree that gives you whatever you want.

So they will be like the moving forests, means, all of you are like that, great. That you will be like the great trees, like these trees are great trees which are moving, but which are bestowing blessings upon others, giving them what they want. Kalpataru.

Sahaja Yogi: “Bolate je arnava piyushanche."

Shri Mataji: They will be, now, `you' people. They will be the ocean of talking, oceans of talking or bubbling Amṛuta. Amṛuta is the nectar, the nectar of life. You will be the oceans of bubbling nectar which are talking. Like this ocean here, see the trees and the ocean. Ocean that

talks in a way that it just emits nectar, the nectar of Bliss. That's you people.

Sahaja Yogi: “Chandrame je alanchana."

Shri Mataji: They will be like the Moon without any spots on it, immaculate moon, which has no spots. No blemishes, without any blemishes.

Sahaja Yogi: “Martanda je tapahina."

Shri Mataji: Like the sun without any heat in it; that is you.

Sahaja Yogi: “Te sarvahi sada sajjana soyare hotu."

Shri Mataji: All such people who will be righteous, who will stand for the right, for the truth, are going to be related to each other, going to be related in the whole world.

Now, with this beginning we understand that the great saints of Maharashtra, that time, the greatest was Gñyāneśhwara. Because he saw the future that is going to come. And he told people about you, that the men of God will become prophets and they will have powers to make others prophets.

Now we do not realise what are we, when we become Sahaja Yogis. We become so much still worried about things, which have no value. If you see, in the ultimate, all these things have no value, these are so temporary. And if you go on wasting your energy about things that have no spiritual value, that doesn't matter, you are going to waste your life. Because you have `that' which is described. “The oceans which are talking nectar." Oceans of talking nectar. Nectar, not the nectar that we understand; nectar of spiritual Bliss. You are that! And

when you are that, what is expected of you, about yourself? Just find out, you just find out yourself, react back. `What is expected of me of myself? What am I doing about it? I am worried about this nonsense, that nonsense and I'm supposed to be the Ocean of Blissful Nectar. I'm supposed to be the forests of the Kalpatarus', the trees that give the boon to the people, huge big trees, `and then what am I doing?' `My giving capacity is so low! What do I give others? I don't even have attention that can absorb the energy of the Divine. The attention should be such that I should be able to absorb the attention of the Divine. Instead of that, my attention is on wrong things. And what am I doing?' “What do I `do' about myself is that, I'm not trying to manifest that special quality, the highest quality, the one that I am. I'm born after ages, I've been born so many times. I've been a saint, I've been going round seeking God. I've been going round and again when I'm born in this lifetime for a such a tremendous task, again I'm lost with the same nonsense. I'm still moving about with the same nonsense." If you understand that, then you'll know that what importance it has today on this day of our International Seminar.

Internationally you are all related to each other and to nobody else, `Internationally.' You are all relations to each other. These are the relations which are relations of deep friendship.

Friendship has no bias, has no lust, no greed, nothing. It's just friendship. It's `pure' relationship. And we are that.

Shri Mataji: What is the matter with you Madame? Will you please go and sit that side? This is not to be done.

Hello, get up. This is not to be done when I am speaking. What are you doing? [Hindi/Marathi.] I just don't understand. Am I talking just? I mean it has any meaning or not, in your hearts? Or I'm just talking without any meaning.

Sometimes I don't understand if I'm talking to real Sahaja Yogis or I'm talking to some walls here who are not bothered about what I'm talking.

Bring down your attention to what I'm saying. It's important; otherwise how are you going to learn this? Where is your attention? So, it's alright to say it is all love, it's all affection, it's all goodness, it's all very sweet thing, you see.

`But', you must know that you have to come up. These trees have come up after a great struggle against the whole atmosphere, against the whole surroundings. They have come up on their own, except for the Mother Earth to which they are connected.

So you people must know that you all are here to come up, to fight yourself, to find out what's wrong with you.

Where is your attention, first of all. The attention has to move in such a manner that outward you grow and inward you hold fast to your Mother, with complete respect. Those who can not do it are absolutely useless. If any tree doesn't try to hold fast this Mother Earth, it will fall out. I mean, it's just what it is doing and for from which it is rewarded. It is nothing to do with the Mother Earth. This Mother Earth has this specialty to be called *[UNCLEAR]*. This Mother Earth has this specialty and if this Mother Earth is not going to be linked by you, by your

purposeful adherence, continuous identification, you are going to fall off like a dead tree.

So, it's very important to understand that you `are' great, no doubt.

These trees are great. They have fought through, they have come up, but where is your `attention'? And what are you here for? What is needed? Sticking to things which are `against' your growth. Bothered about things which go against you, all the time. The first and foremost thing that goes against us is our own nonsensical ego. We must understand this is the one, the greatest barrier within us. And we `have' to get out of it. The Kuṇḍalinī has to rise like the tree has risen up. And the ego is the biggest hurdle for most of us. It appears in many ways. We fight the Mother Earth which is giving you the source. You are the very being of that Mother. `She' has created you, `She' has made you. Because of Her you have come up, You are fighting Her! Arguing Her! Going against Her. This is your ego, how will you grow? And once you start growing, the sun can help you, the sky can help you, everything can help you; the nature can help you. But you must have the `complete' desire to rise above your dwarfness, above your selfishness above your conditioning and specially your ego.

All this when we say that you are `this', there's no need to be pufied up. You see, if I tell a little tree that you are going to be a big tree, doesn't mean that it has become a big tree. One has to become the big tree by pushing forward. And that quality like Gñyāneśhwara, like TukāRāma, like Rāmdās, you all have to become `that' quality. They never saw Me, I just nourished them,

without they seeing Me. But they nourished themselves, on their own virtues, on their own qualities, on their own greatness. You have to be great like that! Instead of that if you live with false notions about yourself, artificial things, absurd ideas, all nonsense that we have gathered through our upbringing, through our rationality, through our reading, through other Gurus, land' our own mental projections, `are' going to be extremely dangerous for every individual Sahaja Yogi and as a whole also it will effect.

So we have to take a vow today, that we are going to behave in a manner which behove `our' Advent, not Mother's,`our' Advent, at this time which is being described and prophesied. Prophecy was made long time back. If we understand that we have come on this earth for `that' purpose, we `really' separate ourselves from all the rest of the nonsense that goes on and try to rise towards the sky as these trees have done.

You should not follow any other Sahaja Yogi in all anti-growth activities. And anyone who tries to create a kind of a group, or tries to impress you by saying that he can teach you something higher, lower, all kinds of technique and this and that, you have to forget it.

First of all you must know that Sahaja Yoga is a growth `within' and `that' growth expresses itself outside.

So, that `within' growth is to be done by you fully with `full' understanding. Then I don't have to tell you about anyone. You won't be vulnerable to nonsensical talk and jabbering.

You have some people who are intellectuals. Intellectuals have a bad habit of intellectualizing everything.

Intelligence is nothing for God, because God has created it.

So you have to see `through' that.

There are some people who are very emotional and try to express themselves emotionally. You have to get out of these ideas and you have to understand that emotions can play a very dangerous role in life.

Now, we have decided to have so many marriages in Bordi, which is a very nice thing and auspicious thing. I am very happy that we are going to have so many marriages. It is auspicious. Because marriages are supported, blessed by God. Your's is special, because I'm sitting here before you for these marriages.

But don't make a fuss out of a marriage. Don't create a problem by being superficial about marriage.

These are the marriages of Brahma-ekatva *[UNCLEAR]* where one feels the Oneness of the Spirit, of the All-pervading Power. Try to know that these marriages are done amongst saints and not among ordinary people. Try to respect the inner quality of a person. If somebody is a Sahaja Yogi of a high quality that must be respected and that must be loved. And not the outer qualities. The outward qualities are nonsensical. You `must' respect each other when you marry, because you are all saints.

You are saints of very high quality, I've told you and the potential is so great, which is already described to you, that only your `assumption' can fetch you that greatness...

[UNCLEAR]. The whole world is hoping this thing to happen that they should get such people on this earth; those, which are described.

The `whole world' is watching your progress, the whole world is `expecting' this to happen. The whole world has already pronounced' it.

And where are we? where `are' we? Our progress is so slow.

We're worried about stupid things, material things, worldly things, superficial things, artificial things.

So one has to understand that you are here today for this International Seminar to promise Me, everybody seems to be younger than Me in this group, but you have to promise that: `Mother, we will work with the same zeal, with the same attention as You are doing and try to settle ourselves.' Quieten yourself, be silent. We talk too much. Talk too much, do nothing. Try to reserve your energy in that silent dignity.

You must have full idea as to what you `are'. You must understand what you have been up to, what have you done about it? Talking, talking, talking I That's not the way it is going to work out.

The atmosphere is nice, everything is fine. The future seems very jubilant, everything is fine. But the highest above everything is: `The hope of your Mother that you are going to emancipate the whole world.' Give attention to that. Think about it; that `you' are going to do it.

You have to be the walking, talking, moving forests of that Divine Love, that Ṛitambhara Pragñyā.

I hope you understand today is a very important day. I feel that if this Bordi session works out well I, may be we might achieve a lot next year.

Now, we look forward to a Pūjā today; and try to absorb. My Chakras work very hard and actually I find it sometimes impossible to accept a Pūjā.

Today is a Pūjā of a great day and a great time today. At this time a big reservoir has to be opened up. But it has to be channelized through people. And how can I channelize it through people who are filled with vanity, with stupidity or with small mindedness? You have to be `large', `huge', `big-hearted', `great' people. You are `ail' born-again, who were great, today again. But somehow you are still mixed-up with your surroundings.

So try to understand your own importance and the importance of the time is to worship yourself. To worship; `but' to be worshipable.

You all think that only by dressing up properly, or by putting up any show like that, we become worshipable. We do not I we should be worshipable to ourself. To see, that whether we are doing, it has that grace and beauty, the love and the greatness of the saints, who are very great saints, not ordinary but `tremendous' saints. It is being described, actually Gñyāneśhwara in this poem has really worshipped you. I wish we had people like Gñyāneśhwara, but they are all inside My body. You are all outside. And whatever he said has to be fulfilled. Not only that, but whatever he said is the truth.

For all these Pūjās you must having that depth, that greatness of those great saints who came on this earth, worked for you, created this atmosphere. Think of them,

what they have done. They have `fought' all the time. They were tortured. They had none of these facilities that you have. They had nothing of this enjoyment; nothing of the kind. While you have got it all, everything on a plate.

So, be deserving people, authorized people and work it out in that way. Otherwise, this world we cannot change.

This Pūjā has `very special' significance according to Me and has to be done by people who `know' that they `are' these great personalities. It has nothing to do with your so-called artificial positions in life; or anything that is outside. It's the inside.

In this seminar one must not, too much talk about outside things. But just talk about God, your Mother or about Sahaja Yoga. Best thing is to talk about your Mother, so it neutralises both the ends and it works out It works out better. It is the simple thing one has to understand, that, God has beet? so kind to you, so kind. You don't have to fight for your saintliness, nothing. You are `all' brothers and sisters. You are `all' here, so much close to each other, you are not alone, You are so great that you can `know' what you are. Who told them? Who looked after them? Who helped them? Today, you are just like VIPs! So please try it understand that you have to have a `very' humble attitude towards. All the saints and towards Sahaja Yoga. Try to absorb as much as possible. Be kind to yourself.

May God bless you all.

[UNCLEAR].

So keep that dignity, keep that feeling, that you have come here in a very big position.

And so keep that understanding within yourself.

Now, people who come from Christian ideas you see, identify it with Christ. Christ is Me, now, sitting before you. It is all said about Me. Try to identify it with Me. I can feel the attention. It's all said about Me.

I have to say one thing, that when we are identified, say, Hindus are identified with some books. In the same way Christians are identified with some books. But because Christianity has been, like Islam and all that, an organized religion, the identification is much more in the brain, It's very difficult to get out of it.

And you do not know that Bible itself has so much discrepancies. Every chapter, if you read thrice, you'll think there are three Christs born on this earth; because it doesn't tally with one Christ to another. If you carefully read about Christ, you'll be surprised that the way they have described Christ in one, must have been born `before' John the Baptist, another one was born `after' John the Baptist! Like that it goes on.

So there is a kind of an attack, even on the scriptures. We must understand as Sahaja Yogis because we are standing with the light in our hand, we should try to understand that all these books have attack of all the negativity. Like in our Indian temples, you'll always find negative people going there and doing all the Tāntrik-Vidyā and all this base things. Even in the Churches you know we have got people now who call themselves `Charismatic'.

So this is going on and they are going to their own doom by taking to this kind of a wrong attitude.

So it is to be understood that you should not be so much conditioned by those things. You should keep yourself above to see what is the truth of every religion. That they belong to the same principle and we should not adhere to something because we were born in that, or we are conditioned into it. That's not a sign of a Yogi.

A Yogi has no religion outside. He has no nationality. He is rifted of all these things.

So try to understand that you are a Yogi and you need not adhere to these psychological conditioning that are being created in your mind.

You understand that, then you'll rise much higher. Because of the organized religion it is even `more' difficult to get out of it. And that's what we don't understand. We want to bring everything to that, which is gone and which is being perverted, which is being spoilt and which is being misrepresented.

So try to have your own understanding of the whole thing of the past.

[Before Śhrī Devī Pūjā, talking to the soon-to-be brides:] You're entering into a married life and you have been virgins so far and now you have to enter into the another life, of marriage. And it's a great responsibility on all of you to see that you make your marriages successful. And you have to see that you behave in such a manner that you create a proper Motherhood within yourself and a discipline that you want your children to imbibe and your husband to have.

You've seen your Mother, own Mother has been sitting for nine or ten hours sometimes at one place.

Not even getting out of this place. But I've seen people, that they can't sit for two hours at a place, even if they are meditating. And they get up, disturb everybody else and come down, this is a sign that we lack in our discipline, that our parents did not discipline us, that we did not discipline ourselves.

So now the first thing is that you have to have perfect discipline of your temperament and is a sign that you are the people who represent this Mother Earth who has a special wisdom and a special power to express that wisdom.

So all of you have to be `extremely' careful that whatever you do will be reflected in the whole family and in the whole Sahaja Yoga system. Now, when you get married to your husbands, try to understand that you are the Mother Earth and you have to give. And because you have powers, you can give. Because you have so many Shaktis within you, you have to give. That means you are superior in a way, that you can give.

So that your ego should not stand up all the time and say `Why should I do it? Why should I?' And then you start enjoying this womanhood.

So try to be good mothers, good wives and responsible Sahaja Yoginis. Those, who, after marriage, try to deviate their husbands from Sahaja Yoga are really the most cursed ones. You should have sweet tongue for others, you should be careful what you talk, you've to be responsible. You are special people that you are married in Sahaja Yoga.

I hope you'll keep this in mind.

Contents: 1984-02-13 **Talk to Austrian Sahaja Yogis, Bordi, Maharashtra, India**

(other date 02-14)

Now Austria is a very important place, it is the bridge between the left and the right. We can say that now all Western Europe is becoming leftish because of the influence of alcohol and frustration from aggression and they've done their level best, now they have felt, because they are fed up with themselves, sort of, they have given up now.

And on this side is the German side, is the aggression side, those who are still trying to progress and temper and conquer and fight. Europe is divided unfortunately into two types of people now. The left-sided people are committing suicide and the right-sided people are still busy with aggressiveness and aggressive ideas.

So between these two different things is Austria, it is a very important thing.

So this is a very strategic place where the left and right are bridged and the swing always moves from left to the right and right to the left.

So there is a possibility that some of the Germans may try to take to the left-sided state. But when the right-sided person goes to the left-sided state, first thing happens to such a person is that he tries to jump on to the depraved side of the left side to begin with. You see like sex, depravity.

That is why you find that most of the communistic countries are extremely licentious, very licentious.

They have no sense of morality left because they denied God, they say there is no God, that's how they can do what they like. You see, they have gone to the other extreme and now they are starting again parapsychology.

I mean you can say from Mūlādhāra, they are spoiling Mūlādhāra and the Swādhiṣhṭhāna.

So this is the situation that has started now. Under these circumstances you play a very important role as Austria and Austrians have been very important before also.

As you know that it was a very great country and Austria was regarded as one of the motherly countries.

You've been a very balanced country. You had Maria Theresa, as a very great, great queen, I think and all this happened there, there was a Rājalakṣhmī there. But to get the Mahālakṣhmī Spirit, to bring it to the Mahālakṣhmī, seeking should start.

One has to see these two channels within us because you are on the bridge. On one side it's to be very left-sided and on the other side having Mūlādhāra problems, you might be having left Swādhiṣhṭhāna problem as well.

So this is a very funny situation and very precarious. The existence of a bridge is always when you have both the banks, firmly attached, otherwise the bridge doesn't exist.

So with both the sides, with the left side of Mūlādhāra and, I mean, I would say Germans now they are ruined in this thing, but still in morality, in Mūlādhāra they were better people. Russians are better people in Mūlādhāra. But now, they were, I should say, they were better, but

after the war they have also gone down. After that aggression they have also gone down. You see, you must know Hitler was a very, very, he was like a Brahmachari he lead a very moral life, himself. See and that is how all this aggressiveness has now dropped down into the ditch and that's how they have gone into it.

That's why all Czechoslovakian, Yugoslavian, Polish, we can say Germans, Russians, Hungarian, Bulgarian, Rumanian, all of them are that type so how much they are affected, that aggressiveness has now collapsed into sex. Gone into that aggression and it's a great sin.

So you play a very, very rightly role because you have to keep this balance and this bridge clean.

So now as you have travelled to India, I'm sure, you must have learnt about how the Indians live.

So I would like to have your experiences said about what do you think. What have you learnt? What did you learn? Or you think it over, somewhere else.

Sahaja Yogi: The Indians are uncomplicated in contact with other persons, but...

Shri Mataji: Louder, I can't hear because I had a bath, My whole body is vibrating too much...

Sahaja Yogi: One feels like a member of the family, one is Indian, one is never separated.

Shri Mataji: True, true...

Sahaja Yogi: Everything normal, one is welcome, but it is normal.

Shri Mataji: So you know what normal is now, because many people told Me I don't know what is normal, you

see, normal relationships are there, normal, it comes out of purity, everything normal is pure.

That's the point is. Relationships are pure, you are guests here, whatever it is, you are guests.

You are children of your Mother, have come here as guests, that's all. That's that. Now the pure relationship between them and you is this, that you give your love to them as much as possible, look after them, don't complain, don't do this.

Sahaja Yogi: It is like in family. One knows and doesn't worry what the others should think about them.

Shri Mataji: Yes, they don't have so much brains, you see, to bother about as what others are thinking what others are doing that's not there, it's collective. It's a collective being. You are all working it out in this and what others are thinking makes no difference here. You see, what others are doing, they don't think about it, it does not much matter, it's a political idea as to what do they think because they have to take votes, you see.

Yet there is no voting because it is your own heart, which has to be so good and happy and all that because many people ask Me what is normal because relative, if you live in a relative world, you must see what is normal.

So now what about who else was here, you were here? Now you are coming now.

Sahaja Yogi: I have learnt that collectivity can be something wonderful, that people can understand one another, without problems, conflict.

Shri Mataji: And the peace you see it is possible. If you are not peaceful you cannot be there. You have to be

peaceful within yourself, you see, a person who is peaceful within himself doesn't find anything wrong anywhere, except for himself.

You see I mean, you can see it so clearly. Like you see, you are going on a sea-watch, all right. Now a person who doesn't have a proper ship will say: “Oh, the sea is bad or so." But the person whose ship is seaworthy, first will say “let me see the challenge, let me work it out." It's the peace within yourself, not the peace but that weight of the peace within us, the weight you see, of the peace makes you so balanced. It's the peace within yourself. But how that this peace is and how does this peace come? Because you are efficient, all your Chakras are efficient. You are working all right.

So you are not bothered, you attract Me to all.

So that's a good idea and I'm sorry, you can't do it before. But now it's all right. Now you're gone through it and you have to pass through it.

Some of you might feel sad because of you have liver problems and all that, but be careful there.

Already, I've told them that they should to be given a vibrated piece of sugar for liver patients, this, that.

What about your marriage? Now you have been? Marcus? Marcus has been? Yes. What about you Marcus?

Sahaja Yogi: I have learnt a lot in many respects. First, Mother, I think it's great that I recognized you, I didn't recognize you before. This is the greatest gain for me. Also I have learned that the outside world is not important at all. After the first day, I didn't feel the impact of any inconveniences I had experienced, the

whole journey was a learning process. And when something was not on schedule, I was knowing, You know, that's the best for us to wait and I really enjoyed it very much and I hope that I can fight the negativity in my country which definitely will expect us. But I'm sure it's just started, the real journey.

Shri Mataji: Is true, I tell you people in advance.

So the kind of people you have it's quite funny, you allow Mister Freud, a person like Freud to be. What's done in that country, it shows the intellectuals are really stupid people there, no doubt. But the people in India are wise, they are not intellectuals, they are wise and they have sensitivity. Nobody takes any time to get it, just I go to a village for the first time, they are all there, they just want it, no problem, because they are wise and they are simple-hearted. For the simple people, because their Chitta is uncomplicated, it is very easy to understand somebody who is like that. That's why they have no problem.

I don't know because the ego is so much in the West, that how will they recognize Me. You see, they only recognize themselves. They have no sense at all to recognize anything higher than them. They will never accept anybody higher except for a person like Hitler who comes with a funny idea, you see, of pampering their ego.

They are not going to recognize. It's a very big problem. I don't know what to do, how to make them recognize, very difficult. What do they doubt in? I just don't understand.

Now, some of them want to look like Marilyn Monroe. How can I look like Marilyn Monroe, was she a Goddess? After seeing all the temples you must have noticed why your Mother looks like this? She has to be like this, because that is the form which She has to give, that is the face She has to give, that's how the whole coefficient works out.

I just cannot make Myself the way Western people want Me to. Like a six footer you see with high heels walking like a mosquito, I can't do.

So what will make them recognize Me?

Sahaja Yogi: It would be the best for them to come to India!

Shri Mataji: That's the problem, you can see it yourself, even to arrange for hundred people is a difficult thing. But now we've done these three or two things and I was about to stop all that, but now I should say, I may have to continue for some time. But those who have been to India, now have to really contribute, write to people, go to your newspaper people, tell them this is not any story. This is our own Mother.

Just get after their lives. You say, if you don't try, we are going to fight, but it's all right, say what you have seen, what has happened to you.

You should say, that She has come, believe, She is the Holy Ghost. Believe us it is so, just write it down. Those ridiculous, stupid people, you go to hell. Tell them that. Let them know that. Otherwise I can't have this going on forever. You see, this is very inconvenient, this sort of a thing, that we can only help one hundred people or two hundred people. But we can't let the whole of Austria, the

whole of the world come here going round in Maharashtra.

Later on you all can start it, once I start building up places for you and you can all go and see places, settle down yourself, manage it that's the different point. But just now I think you can only live in wars which is a horrid thing.

So the whole thing is much more important that a person like you, who gets an experience like that should go back and jump on their heads and tell them: `What are you up to?' These Indians are going to go ahead first, but you are all going to hell and the greatest thing is the third world war, which is inevitable.

But don't get into personal things, this personal nonsense is the worst of it. Think that you have to produce something productive. All right. Everyone of you is a big saint, is a great saint. Yesterday I told you the description of the Yoga and you knew about it. You have to become that, a ego is there, you've got the power of that dignity, of that power of that weight. You are the Gurus.

And these stupid people who have nothing in them, nothing, they don't know about Kuṇḍalinī, nothing of the kind. They write books, they've become Gurus. What about you? Each one of you? If you want, you can dress up like a Guru, you'll see no difference. Whatever way you want to but just express on their head and go on their heads and tell them this is what is.

So then, you can say that She had a program in the college and She cured people, be prepared to tell about that. All right what about you? You were there.

Sahaja Yogi: I wanted to say that the difference between Indian and Western people is the difference between mind and heart.

So I searched for possibilities to have contact with our Sahaja Yoga brothers from behind all this India. And it always was a little bit of opening my heart. I think it was You who opened my heart.

Shri Mataji: So they put Me in their heart, you see, that thing is. They have a large heart, they put Me there, really easily and the Western mind, it goes to the mind first, goes to the mind and then they bring it to the heart, you see. But if supposing, I'm that, I'm the one who has to do the job, you see, you can't just do it with your intelligence, you can't use Me with your intelligence, you have to have the heart to flow Me down, you see. You see, it's a tremendous task I've come for and you have to have large hearts to take Me in and this is what they understand.

You see they realise it, it's prophesized, it's told, they know what is God. She raises the Kuṇḍalinī, finished. She is the one who has come, but you don't have the tradition. I say, I don't blame you also, because traditionally you don't know Me. They know Me traditionally. They've all the traditions with them. They've been brought up that way for thousands of years. That's why I've called you, to come here, to see for yourself, how they are living.

No question here, no, nothing, no quarreling, no complaint. But they have a problem because outside they are most underdeveloped. If you see their buses they need a governor, if you see their telephones,

doesn't work out, television doesn't work out, anything, no much, doesn't work out, horrible and if you ask them how much time will it take to go somewhere, they will say, five minutes, it will be five hours. It's a big joke, you see.

So it is like that because it is accepted, they think to go beyond time, is the tapas, is the penance.

To learn to go beyond time, to be worried about time, what time we are going to have food, what we are going to do. You have seen your Mother, how She works. You see, hours together, I've worked like this, I've no problem of time, the time is in our head.

And another problem with the Western mind is, it is too much bound by that, you can't get over that, the time is the jail, the prison. They are sitting on a, say bus, now the bus takes too much time, go into meditation! Now, they've been worried, how it's taking very long. For what? It's the time now, they are worried. I know what you are thinking sometimes, now, I tell you, what you are thinking. I was with you, for I was travelling and I knew what was happening.

So they would think that: “Oh God, now this is going to, but what is the time for?" What are you going to time, do by saving time? Jumping in the river, it's not only thing, that you have to do, you have to meditate, it's a nice time you've got, just meditate and this is the attitude one should have, is that you have not come here to sort of enjoy one of the tours that we have, one of the holiday tours but you have come here, to overcome the bondage of time.

The bondage of conditioning, of comfort and the bondage of all kinds of conditioning we have had with our Ego.

So we have come here, to overcome that, get rid of all that nonsense that is attacking, to become simple, uncomplicated. If you understand after all human beings are all the same, you are human beings, these Indians are also human beings, only that you have more comfort, you have more money, that's all.

That's it. What's there to be so superior about? Nothing, why should you have more comfort and these people live without that and are much more happy? You see Indians are much more happy people.

Now who else was with us?

Sahaja Yogi: I would like to be more like Indians so that we can love you more Mother?

Shri Mataji: That's it. They love each other because they love Me. If you don't know your Mother, if you love your Mother, you love all men, everyone. That's the trouble, is you must know more about Me, talk about Me. But we discuss anything, this is quite true, this should have happened, that should have happened. You see the English mind is the same reflecting all the Europeans minds.

All the time try to correct others. This is the situation, this could have been better, that could have been better. Why did they put Me from here? This should not have been allowed. That now why did they put it on the road, they could have put it on the left hand side *[UNCLEAR]*.

Good idea to put it right, they become, see, they sleep under the tree, they didn't clean *[UNCLEAR]*.

They'll go on thinking about everything else but themselves what they have to do. What others have to do, that is not your doing. You don't have to think about others, what they have to do, what you have to do, is to be seen.

You have to do simple things, to love your Mother and talk about Her and finished. Don't listen to any other talks. The loose talk is the worst thing and it's very common and you may think that Indians don't understand. They understand and know even what you talk, how you behave, what your attitude is, that you talk of something else than of your Mothers grace. It's the time to praise your Mother, it will give you vibrations, talk about her greatness, about how She loves you, what She has done for you, how you have changed, that is better than talk of others.

So this loose talk must be given up. And they love Me because they are simple people, they can see.

But how to make these Johnies see Me through their big Ego on the eyes and on their heads, they are so blind.

So it is your job now, I think that you have to talk about Me, to dedicate yourself.

Because after all you are born in that country or you belong to that country, you're to demand to give them something. This the only thing is, they call it in Sahaja Yoga as the Yuga-dharma of this Yuga.

Sahaja Yoga is the Dharma and that's what you talked about and in your heart, you have seen? That's a good idea to get rid of all problems. You'll say: “Mother, it's so simple” you'll become simple yourself.

Sahaja Yogi: I have noticed how Ego expresses in bad manners, this can be small things or very subtle things, e.g. it is really a bad habit to have loose conversation because it's a waste of time and a waste of energy.

Shri Mataji: That means you are frivolous, you're a shallow. You are not a dignified personality, if you talk frivolously.

Sahaja Yogi: It can also be a showing-off, you want to attract people, but there is nothing within you which has to attract people.

Shri Mataji: That's why this is glamour. You see this attraction, if a person is innately attractive he is not worry about this glamour.

So this showing off and this and that is not good. One has to be very, very gentle and the gestures, also I've seen of people who are ego-oriented. Very, very frivolous like this, that's not the way.

The dignity, the breed in your behaviour, in everything, should be delicate, for ladies and also for men, not harsh, but there should be weight in everything. That is, there should be the weight of your dignity in everything that you do. That's what it lacks in people. And they talk frivolously.

I've heard, the drivers also say they are saints, but they don't talk like saints, but a certain concept is. Now another thing is that you are not our Avatāras, you are not our Avatāras, because Avatāras never make mistakes, you are not even a chAvatār.

So once you understand that you are human and if you are not perfect, if you have to improve, you have to

become much higher than what you are. You must give up all these things you have collected through this human ego. Only human beings have ego. Animals don't have, only human beings have. This is an inter-mediatory stage, where we should see in behaviour also this is nonsense, this is not good. This is not the way to talk to human beings.

This is doglike and the dogs bark at each other. We must talk in a gentle way, in a sweet way and not discarding anybody, not hurting anyone. Even supposing I know that sometimes people get angry when they start taking a big attitude but you be careful. I know how to handle the situation. I can shout, it's all right but why do you want to shout but keep quiet and do it in a very meaningful way because you are the oceans, which are talking oceans, speaking oceans of Amṛut, despite all this. You are the oceans of Amṛut. Amṛut, you know, is the nectar of all.

You are the oceans itself when you realise your situation. Just assume that ocean, that's described by a Angsharabaravagensha. He has described you like this.

So do not have formed ideas that are in anyway contrary to the ideas of the saints. You are, that means, if you are that, that means you have to be humble.

But once I say that, then you become arrogant, typical human nature. If you tell them you are saints, when you are saints, then you become like a devil, behave like a devil, they say, no I'm a saint and do what you like. This typically human. On the contrary the Divine nature is such, supposing you say: “Mother, you are the Primordial Desire." It doesn't give Me any pride or anything of that

kind that because I don't know how to feel pride, because I am.

So this is all what happens when you say that you get vibrations.

It flows.

So there's no pampering in any way but human beings if you...

The worst pampering does not exist in the Divine Law, nothing. They don't know what this pampering is. It's only possible for a pumpkin to do that, an egoistical fellow but not to a Divine personality. Because he can never pamper.

So this is what one should be careful about, not to pamper, or get pampered. What I have said is, what you are actually, but when you are, they're extremely humble. And it is so evident.

They become all relations, all intimate, pure relationships. You do not fight with anyone, nothing.

Everyone, it's a pure relationship. No siding if we have. Pure relationships are to be developed. Now have you all been for the first trip, no? Hamid, you must have been because Hamid has been very much appreciated by Doctor Sangwe.

[Shri Mataji is talking about agriculture. That the four agriculture specialists should meet. A kind of integration should take place.] First of all I told him [Mister Sangwe] he must discuss with him all the modern ideas as you have and all that kind of an idea that anyone has, are to be first of all made Indianized.

For example in Austria you have to use machines to keep everything heated up. Here the Sun itself is supplying you a lot of heat and you don't have to do anything. You can use the Sun for heating you up and all that you don't have to do it.

And secondly when you bring it to the Indian soil they have those ideas how do there... And thirdly what you have to do is make it a Sahaja Yoga event that you see that how that Sahaja Yoga is worked through that and how we are going to improve the input now.

For example I've seen that hybrid cows. They are very bad. An Indian woman don't want to have their milk, because the children become very nasty, restless, this, that.

So they won't have a hybrid cow.

So I said all right, you give them vibrated water and it all changed.

So you can have hybrid food produced according to the Western ideas and give them vibrations. Like you people are hybrid people, because you have treated so many things.

But now with this hybrid you add vibrations, they will become perfectly all right, you've become greater saints than Indians are.

So that's how we are going to work it out. That first of all we use all the Western ideas and then treat it with Sahaja Yoga, no worries now.

The fourth most important thing for today is that you have to make statistics, you have to make data, how with Sahaja Yoga we have reached good results, like we use

to divide plants in separate things. I've seen how these have given different feature.

For example now supposing we have hybrid, say a `popeye' all right.

So it will be quite big inside but... But supposing you add vibrations, it will become a very beautiful golden colour to begin with and will not get bad so easily and thirdly it will have a delicious taste and fourthly it will be satisfying and people will be happy.

So it has so many qualities that it will cure you, all right.

So this is what is to be understood, that the whole thing is for strong attacks. One is your ideas, brought in here. First it puts the whole Sahaja Yoga on it and the data and everything collected so that we make it acceptable to collective. This is My idea and if you can help Me with that, I should be very thankful. Now I've told you to make a project so, I can break the heads of the scientific people. They are very much guided by you, absolutely they are slaves to the Western people. That's it.

They speak about the following process of the tour of Shri Mataji. Hamid tells Mother that he is afraid and doesn't know why.

[Shri Mataji advises him to put the left hand to her and right to Mother Earth.] No, it is for your education you have come, for assimilation of vibrations you have come. You've not come to give anything but you've come to take something. It's like a college you are in, a new studies you are in where you have to put in deliberate effort, all right? So this is one thing, very important.

Gregoire: One must take lessons for oneself and not think lessons are only for others...

Shri Mataji: Now what you said is true, why it happens? I tell you now why it's happened, I tell you and it's so useless to happen. Like now supposing there is one Mister X and one Mister Y, there are two persons. Now I'm talking, so Mister Y. is the one who is supposed to take all the hints, he has to improve himself, he has to chisel out himself, work it out himself. It is for his good.

So Mister Y. thinks of Mister X. that Mister X. must do it. Now what's the use? He cannot improve Mister Y. You can improve a chair, you can improve a table, you can improve all that is dead, you can even improve your dog, you can improve all your animals.

But you can't improve another human being, can you? So what is the use of that you are doing? You have come here to get yourself chiseled out, you are here for that purpose.

So why should you worry about others, you are not going to help him, you are going to help yourself.

So why don't you work it out for yourself. That is for others is a common human nature. It is to just to escape. But why escape the truth which is the light, which is the joy which is the essence? Why? Why do you try to escape. That which is before you, this whole promise of beauty, why are you escaping it? Just enter in, I've told you that you have to get into the Suṣhumnā Nāḍī, for which you have to become.

Now if there is a thing you are attached to better get rid of it that you must work it out. This is for everyone to see, that something wrong with others should not be

seen, something wrong with yourself should not be seen and work it out and get rid of it then.

That is the reason for which you are here. Supposing you have an exam. Now you don't think that that boy has committed this mistake and I haven't committed this mistake.

You think I've committed this mistake. You think I have committed this mistake, I better work at it otherwise I'll fail in the exam. Isn't it? You don't think the other boys have done this way and I should see to him that he should not have written like that. Otherwise you have to pass the exam. Not him. It's like studying for another one, it is that stupid! Can you see that stupidity? It's a stupid habit. Think about the goad it's the most stupid thing.

But what you can do is to see the other in a way that would help you. Like another boy with a different heart, see how he is so good, what does he do.

So the positive attitude of a person towards another person helps that person, not the other person.

You cannot improve the other person whatever you may do, but if you have that kind of an ideal within yourself then you do it, because the other one sees. But first become the idea, all right.

So this is a very good point that we should not see the defects of others, see the defects of yourself and have the attitude that you have come here to go through this tapas, this penance. It is a penance in a way. But what a penance of joy, a penance of love. Like Gregoire, he himself told Me this kind of lessons are so, he has become much lighter, that's right.

After all I am a alone person, nobody could be near Me, who could be near Me? I'm absolutely alone.

I have no companion. But the only thing is you feel it's come up-love, you feel you are with Me. Otherwise you are with Me always.

Gregoire: It's like a bubble.

Shri Mataji: So may God bless you for that. But one thing I have tell you for all Europeans is to understand that sometimes it has been noticed by Me that you don't talk very kindly to Indians. You think they are our servants.

Some time like that you should not misbehave and hurt people saying like that. Even when they are crowding round My feet, you should use these words, they never say this to you.

I mean you do misbehave many a time, you do quite a lot of wrong things but that's not our domain to say, you should take it gently. And the worst we do should not be so that it should be disparaging the character. Get out! Stop with that, let's be kind and gentle with them, take time. Please take time.

But people don't even look at what they say. Don't misbehave. I've heard it many a times with My own ears. But that's not the way to talk to them. They are also saints and they love Me and if they've come on My feet, I know they are stupid because they are not so organized, they don't understand that.

To them it's the greatest excitement they want just to fall at My feet. It is also always lacking in the West you see, you don't find that spontaneity, now. For that you have to be extremely gentle with them.

You must understand they serve you not because of servitude. That's not a servitude, but it is out of their heart. They like you, they like to do everything for you. Even if you tell them: “My shoes are not all right." “I'll fix them for you." But one would think “Oh, they must be trying… to get something out of me." No, it's not that.

You are guest and for a guest in this country will have always had the theory that guests are welcome and that's how we had English here. Now they are here since 300 years. They come as guests, they dominate us 300 years, can you imagine? So this is what it is.

So one has to learn these things about them and they don't feel hurt because they don't understand the language, but still you are not doing any justice. You don't see them, you don't see them anywhere. Have you seen how many here are living? But it will all come. Tomorrow they will see the marriage. Nothing they are not show off, anything they are not like Western people. Anything they go on like that. [Imitates hard breathing.] You see Western people they have to doing ha, ha, ha... or they start jumping like that. Like Gregoire once told Me like I told My daughter they were all sitting there for twenty-five of them outside her house in Hampstead and I told My daughter, “They all have their dinner." She said, “All right." This is not possible in the West, if you tell them you are going to invite people for dinner, they jump up and down, sideways. But you see because they take it in a style then they don't feel that it is necessary to make such fun.

But when they do it that way it should not be, you see, in a way treated that as if they are your servant or in

anyway are lower than you and that will help you a lot, to learn a lot from them, because if you treat them as lower people in anyway they have not gained anything out of it, nothing, they don't get much.

What is it he will buy? I can assure. They don't get much.

Sometimes of course, I mean, I do supplement things for them. Money and things like that or money that you have given Me, but as such, they don't get anything for your own comfort or anything else. But not that they gain much of it.

Contents: 1984-02-17 **Conversation, the morning after Havan, Balcony outside Bedroom, Vaitarna, Maharashtra, India** (date not sure)

[Shri Mataji points to the forest all around:] This is where Sītā Nani was, it was right here. This is where I stayed when I came here as Śhrī Sītā [points to the areas and starts describing how there used to be a river there and how it was all clear and that there was a path.] [Sītā Nani was a place where Śhrī Sītā could have a private bath. Shri Mataji was there with Śhrī Rāma and Śhrī Lakshman, because She was describing the whole area.] That is where the river flowed. There was a path there. It has changed a lot since the last time I was here.

Contents: 1984-02-18 **Śhrī Chandra Ma Pūjā, Vaitarna, Maharashtra, India**

It was such a joyful procession today, in the evening hours when we call it as Goraj muhoorta in the Sanskrit language, meaning when the cows are returning home, the dust from their feet rises and makes a beautiful

atmosphere and we call it as Goraj muhoorta, is the auspicious time. And so today at a very auspicious time we have had a beautiful, joyful procession and you must have realised that the people of this country has no inhibitions about things. They just get transformed and electrified immediately as soon as they start expressing their joy. They don't have inhibitions, neither they're shy nor do they have to think about it, of all age groups.

And I must say that Maharashtra has done such a lot of traditional training for Sahaja Yoga. All the different types of dancings and things you have seen are all traditional dancing of Maharashtra and I also used to do the same things and we used to play many things called zimma fugadi and all those things, but some of you, you have seen. But this we, our body is used to this and the lezim which the girls were playing I have also learnt. All of us are supposed to learn all these games from childhood, as if they were all prepared for this great day when there will be the advent of Ādi Shakti.

Traditionally they are so built and I am so happy you all have also tried to understand the decent type of expression. If you see the balance of the body and the balance of the whole gesture is very Divine, it doesn't have anything that is ridiculous or vulgar. It has very, very deep expression if you see and if you also try to express yourself that way, you see, all the inhibitions and the conditionings and the funny ideas about gesticulations will disappear.

Moreover, the whole atmosphere is very pure here and we are away from the madding crowd, away from all that nonsense that we have been going through and it's a

very, very blissful place. The whole thing fills Me up with great hope that one day we all will be able to fulfil the prophecies of the great saints, who said that later on the great trees of bliss, not trees, but the forests of trees of bliss, these are the trees of bliss. `Bliss' means the ones, they give benediction. And then he also has said that later on the talking, talking oceans of ambrose.

So that is what he has described, you people and I saw you moving, all of them, the forest of that; and I said, “This is the bliss walking on the roads here, on the roads of Vaitarna. Along the bank of Vaitarna the bliss itself is walking, dancing, jumping and expressing its joy." It was beautiful. I wish I could express it more subtly, because I think in the meditation one can feel it more and the words get lost, the meanings are lost, they are not sufficient enough to express the beauty and joy of that bliss.

May God bless you all.

I am very happy to meet the second batch here and I hope we'll start the evening Pūjā later on, which will be a very good beginning for you.

So I have to tell you that there is no need to have any inhibitions, not to worry about time. You have to go beyond time, beyond all your habits of comfort, habits of so-called sophistication. Try to really get rid of it. That's why you are here.

So don't start the day with all those that we have left behind.

I am so happy to see you are all so much drenched in the joy of the advent of the Ādi Shakti, to express it and to

feel that joy that you are the ones who are witnessing it, you are the ones who are spreading it.

[Marathi for some time.] Please pay attention to your Sahasrāra... You have to ask, `Please sustain my Yoga.' Then, `Please increase my Yoga Shakti.' And lastly, `Please allow my Spirit to spread its light in my attention. Mother, please give me the boon of Your grace.'...

Please see if the cool is flowing out or not, on your Sahasrāra, just press it a little bit; because just now you've been jumping too much, your Heart is catching... Please keep your hand on your heart. If the Heart is catching you do feel the pressure on your Sahasrāra. The reason is, this is the place of the Heart Chakra. Fontanel bone area is the place of the Heart Chakra. That's why I put it... Now, just say with full assertion, `Mother, I am the spirit'... Say it twelve times... but not mechanically.

... Are you all right? Give it a bandhan and raise your Kuṇḍalinī, I think... We are all Sahaja Yogis here, you see. The whole village is become a Sahaja Yogi village! So sweetly, yes? Ha, now raise it, how they do it... All right? Done! Like Maharashtrians, they say “yes" like this! They don't do it that way; but I think good for Viśhuddhi, both the sides gives a balance. Ha, done!...

Can somebody help Me here?...

[Shri Mataji is giving directions in Marathi for the Pūjā preparations.]... to organize. Yes, but I praise Indians very much and I also praise with you. But we have certain very bad qualities and one of them is that we are very extremely untidy people. Our aesthetics are so horribly made that we don't understand the difference between a plastic bag and a silver jug, such jumbled up

things we have. And I think I would request you to insist on arranging things yourself, because then they will pick up and learn things that it is to be done. You have to learn a lot of things from them, but they have to also learn some things from you and they are very important things. Because it all makes a coefficients, it makes an atmosphere and a pleasing thing for the Gods.

But this is the character of an Indian, Indian character, that whatever is wrong where, whatever is the condition, carry on. See no evil, speak no evil, it's like that. If anything is bad, let it be as it is. Let it rust, let it absolutely till it becomes so rotten that it is going to fall on your head, then you may put a little support. That's our character. We're too tolerant with everything and that has led us to this kind of an incapacity to work.

But if you see the Ṛitambhara Pragñyā, see the Ṛitambhara Pragñyā, how she works, how she beautifully does everything, how she creates everything so beautifully. There's so much neatness if you go to a jungle, you will not find anything dirty, filthy, smelling, nothing. Everything washed up, cleaned up. The nature works in beautiful circles. Everything works out so much beautifully that when we call ourselves “natural" we should understand that ritambhara Pragñyā is the most natural thing. And how ritambhara Pragñyā works is with complete neatness and complete cleanliness of the whole thing.

Indians will be personally very, very clean, extremely clean they are, no doubt. But collectively they don't understand cleanliness. If you see their roads, if you see their outside of the houses, it's all dirty.

And that is what I will blame our Indian men, you see, they are extremely conscious that they are human beings. You see, we have only two races in India, women and men. There is no third race. Men are not supposed to do any work, inside, outside, anywhere. They don't see to the outside of the house. Like in England I find men are all the time doing the sweeping, swabbing, everything outside. They do mowing of the lawn, looking after the garden, everything. Here the men will be just standing with their hands on their waist and ordering the wives, or if not the wife, the servants and all that.

And whatever may be, the wife may be dominating as far as money is concerned, but all these things the man is not going to do. He'll just give up; he'll say, “I am not supposed to do all these things." That's why collectively in this country we can never be clean people, because our men will just sit down. They won't do anything, just they won't do anything. Only the women are supposed to do everything and that's how our collective cleanliness is zero, absolute zero.

For example, if there's a W.C. not working in England, I can't think of any man who will sit down for five minutes. He'll himself do it, he'll get a plumber, he'll do somehow or other, try to manage. Here, it's not all right, it doesn't matter, it's all right. No, see no evil, manage. This is how we have lived all centuries now I think and it's high time for all Sahaja Yogis to change themselves.

Now, here there are many artists sitting in this part, but the men are not doing anything, Pūjā the women are doing. And the women don't know anything how to do it, so the whole thing can be absolutely wretched. It is not,

it is a sort of a character with us, we do this way. But otherwise we have so many qualities. We have so many qualities that you can't imagine how much we have got through our traditions.

We are very humble people, we are extremely loving, affectionate, we'll go to any extent to serve others.

We are not cunning people, we are not meticulous, we don't calculate. We are very hospitable. All these things are there, no doubt. But these things that we have to learn from you, it's maybe gross, to look at it looks gross, but it's not.

Just now as you see that if it is properly done, if it is nicely done, I mean, at least I feel very much pleased with it and everybody feels pleased about it. And when somebody sees the film also, they'll be pleased to see this kind of a film where there's something sensibly put up and everything is nicely done, care has been taken. Also shows a kind of a understanding that this is the worship of the Ādi Shakti and you cannot take liberties with it. Imagine, in these ordinary temples they spend so much money; even the walls, the doors, the windows, everything made of silver. They do so much to create that. But if you people miss it, the Indians, I am saying, then it's going to be very dangerous for you.

One must understand that you cannot just play about, just `Mother is coming.' Nobody came to even call Me.

Somebody should have come to call Me. I just walked on Myself. Here, this is not the way to behave and the Indians must learn these things, that somebody must come to call Me. After all, you see, all these protocols they are going to learn from you, from the Indians; and if

you don't have any protocol about it, how are they going to get it? So this is what one has to understand, that as English have to learn from French and French have to learn from Germans and Germans have to learn from, say, Austrians, or Austrians have to learn from Swiss, whatever it is, it's very important that the Indians must learn from the Western people. Certain things, that the way they respect their women, first of all that, the way they respect their women. Of course, one should not go to that limit that the women just dominate all the time. I mean, American women are, I have seen about women, they are horrible. But still I would say that one must learn, one must learn how to respect the women. Women are human beings. Your Mother is a woman and you must learn how to respect a woman. And if you don't know how to respect the woman, then in this country I'm sure there cannot be bliss, whatever you may try.

So the men must learn that, they must know how to talk to their sisters, to their mothers, to their wives. But if there's a woman who is dominating, you see, if there's a dominating woman then she becomes a prime minister in this country. That's what we are. If you get a dominating woman then she can manage. If she's a simple woman, she's good, she's religious, she's submissive, then she's finished. If she's dominating, then men are afraid of such women. This is very sad and that gives a very bad images.

So I feel that as ritambhara Pragñyā works out everything so well; in the nature if you see how she beautifully creates everything, how she chooses things, how she places things, how the colours change. You'll

never find anything loud, anything obstructing, anything that is destructive, vulgar, new, nothing. You find everything so beautifully done that it creates an inspiration in a human mind, in a human heart which can be of a stone also. Even French, you see, they get inspired by Ṛitambhara Pragñyā.

So you can imagine people with stone hearts can get inspired, people who have very funny ideas about human beings can get inspired by Ṛitambhara Pragñyā.

So why not we the Sahaja Yogis should get inspiration from Ṛitambhara Pragñyā and try to make everything look nice, beautiful and must have coefficients by which we can have the proper channel for our vibrations.

And this is what I feel is lacking in the coordination between East and West. Let us give them this simple thing as to understand how you respect your women, how you respect the aesthetics, how you look after things. I know in the London, supposing I have to have a Pūjā, I don't want to see these things at all. On the contrary, I am enamoured the way things are done, always. Here also they work out, I'm not saying always, but it could have been much better a little bit, because a film has to be done and all that.

But this is the trouble is that in our everyday look, outlook we are like that. You will see that everywhere you go in the villages the problem is, there are bathrooms, there are W.C.'s, but never repaired. Once spoiled means spoiled once for all. Telephone is spoiled, it's spoiled forever. At least in America people will go and buy; they will not repair, but they will go and buy new one. Here they will not buy new one, nor they will have

any replacement, carry on with it throughout. That is a very bad character we have got, which we must change. We should try to see everything is working all right.

Now, come to the Kuṇḍalinī. Supposing the Kuṇḍalinī goes out of order, are we going to give it up? If one Chakra is not good, are we going to give it up? If there's something wrong with, that point Indians are very particular, much more than the Westerners, if the Kuṇḍalinī is out, they'll get after it. If one Chakra is out they'll get after it, they'll clean it. Because they are the roots, you see and the root doesn't bother about the beauty; but the tree has to look after the beauty.

So this is a combination which has to be worked out properly by you both and the things will work out very well, I think, if you understand what correlationship you have with each other, what you have to learn from them and what they have to learn from you.

Now, today is a special day I thought of having a Pūjā, because today is the moon, just see, in front of Me here and today is the first day the moon is waxing [waning]. In the science of Sahaja Yoga, the moon is the spirit in our heart. It is the spirit in our heart, meaning in Marathi purnantara. It's the spirit in our heart and it shines when the sun reflects on it. When the sun, the sun, that is the sun of God.

When the sun of God reflects on the heart, then the moon shines in the human heart. But when it shines as a moon, then Shiva Himself lifts it up and puts it on His head.

So the human beings who are blessed by the sun of God, who are being awakened by the sun of God, that is you

can say that it is Śhrī Gaṇeśh or Lord Jesus Christ, any one of them, if they enlighten the heart of human beings, then it becomes a shining moon.

And the Amāvāsyā, the day when it's the dark night, is when a man is not a realised Soul at all. The realised Soul is like the full moon. Now today is the day when the moon is slightly, one degree less. It's a important day for us because this is the first day when it is waxing [waning.] And that is the day we have to fix up our moon within ourselves, that we start waxing [waning] by degrees. Into sixteen degrees we to go on waxing [waning.] And when that happens we don't realise that there is no shining in there.

The shining is going out. And we have to be careful, we have to look after it and we have to work it out so that we worship that day when it starts waxing [waning.] It can wax [wane] with many things. You see, we have so many ways of finishing off the light that God has given us in our heart, that is the spirit. One of them is, very great one is the thinking that we do about it. The first it starts when we start thinking about it, rationalizing about it. You must know that when I speak, I don't speak: actually these are all mantras and whatever I do, I work it out in such a way that what I'm saying works out within you. It's the Krita Yuga and it works out. When I say that, the whole machinery gets geared up.

So when I say something, if you start reflecting it in your mind you are gone, because you are not receiving what I am trying to do. If it is a mantra, that means whatever I am saying, those sound waves will create that being within you that I am describing.

So at that time, once you start thinking about it you cannot receive it, because you have put a barrier of your thought.

So when I'm talking, just try to receive it. Just say `yes, yes' inside, so that you receive it within yourself.

So this is one of the greatest problems of today, is that whatever you say everybody must answer, everybody must argue, everybody must say, `No, this could be that way, that could be, there are alternatives, this, that', everything goes on. There is no need at all to do all that. And when you start doing that, then all the Gods and Goddesses get angry one by one and that's how you start losing your light within yourself.

So this is the most displeasing thing for Gods and Goddesses, that you don't recognize Me, that you don't recognize Me fully, that you still argue with Me. Still you start asking questions, still you start giving Me alternatives. Absolutely, this is just not necessary for you to go on arguing, to go on discussing it.

It is just that you assimilate whatever I am saying and that assimilation itself will open out those new dimensions within you, which God wants to be opened out.

So better surrender in that way your ego. Ego is the one that makes you say something, argue something, discuss something. And this is what is the biggest problem, what that I have seen when the first day of the waxing [waning] starts.

So today is the first day when we should say that our ego should not start that drooping down.

It was nice to dance, enjoy, everything, but then when you sit down, while dancing you can't think, thank God! But as soon as the whole thing is over you sit down, again the mind starts going on, “tck, tck, tck, tck” and then we start thinking. And once we start thinking, then we are losing that light which we have received.

Sort of, the moon has started waxing [waning] and that point one has to be careful, because that's the most important thing. If you do not allow it to happen first time, then it can stop. It's very simple to understand that if you can stop a sarī or a last bit of it, it will not blow out, because you are holding onto it.

So at the very beginning of waxing [waning] of the moon, if you are careful about it, if you are alert about it, it will never happen; whatever you have achieved will be sustained and then you can increase. But that's the very important point which we miss and that's why we have lots of trouble and lots of problems in Sahaja Yoga.

So now as you are moving for your further journey, so many of you have come for the first time, I have to tell you: don't think, don't react. In this you must learn from Indians. They don't think about these things. But they have to think, because when they think they'll start thinking about gross things which they have to think. I mean you don't think. You'll be giving up all that is nonsensical that you have been thinking about.

So don't think about it, don't react, don't bother. Try to be subtler and subtler and not misidentified with your tags that are outside, like hooks, you see. And the mind is like a hook. I have seen all of you have some one hook outside and all the yarns go, hook around it, again

another yarn goes and hooks around it. And the whole mind is attached to that hook. That is Mister Ego.

If you can cut your strings somehow or other and say, “I'm not going to think. I have come here for my spiritual ascent. Let me be what I am. If Mother says something I'll listen to it, if She scolds me I'll listen to it, She does something, whatever She does, let me see that as I have come here for chiseling out myself; let Her chisel me out, let the Nature chisel me out, let the whole atmosphere chisel me out, Pūjā should chisel me out." But you just become like a beautiful, we can say, a jade in the hands of the Divine and allow the Divine to take out all your beauty. Just allow the Divine to take out your beauty and then you can enjoy your beauty. But if you hand over to all these old things, then it will be very difficult.

So as being the first day, I have started it on the day when the moon is about to wane, you see.

So I hope you'll be all very careful about it. Be alert. You have to be very alert. You have to go beyond time.

You don't have to think about food. Once in a while if you don't eat, doesn't matter. Nobody is going to die, I tell you! We don't eat for days together, nothing happens to us.

So food has not come, the breakfast time, the dinner time, I mean, there food is a religion, I think, so everything has a time. Here there is no time for anything. We'll do whenever we feel like, you see? Let's do that way.

So we have to be prepared for a nice thorough cleansing and a very enjoyable time throughout. These two things can work hand in hand, if you just accept that you don't

have to think. If you don't think, everything can be done without any problem and you'll enjoy life very much.

So that's one thing.

[This was the first day of the waning of the moon and Shri Mataji did use the word `waning' near the end of this talk (English part).] [Shri Mataji continues in Marathi.] [Attempt to translate Shri Mataji's commentaries on Śhrī Sūktam in Marathi language into English.] om hiranya varnam harinim suvarna rajata srajam candram hiranmayim laksmim jatavedo ma avaha Gold comes from the Sun and the Moon comes from the Spirit, so Golden Moon is a good idea, combination of both, Mother is. Chandra and Sūrya, both... Both are expressed on the face.

tam ma avaha jatavedo laksmim anapagaminim You pierce through our heart, you can put it like that in English. But otherwise it is, the Mana is as you know the Super Ego, regarded as something great in India. Super Ego means all the conditionings, the good conditionings are the...

yasyam hiranyam vindeyam gam asvam purusan aham asvapurvam ratha madhyam hastinada-prabodhinim Prabodh, Bodh is the knowledge and Pra is the enlightened knowledge. The One who gives us enlightened knowledge.

sriyam devim upahvaye srir ma devir jusatam Now, what is Śhrī Shakti? Śhrī Shakti is the power by which you enlighten all that is gross. You use all that is gross through your Divine Power. Sarva Pañchama bhoota, all the five elements. That is Śhrī Shakti. It's the subtle power of all the five elements which can be controlled by

You. That is what You enlighten within us and we can also control.

kam sosmitam hiranya prakaram ardram jvalantim truptam tarpayantim Asmita is where you don't think, Asmita, without that, the state of mind where you don't think.

Asmita, thoughtless awareness. Adrata is the humidity felt by affection and love, becomes like fire, means fire means warmth, we get warmth in our attachments, in our expressions of emotions. Warmth.

Truptas are people who are satisfied, who are realised Souls and when You worship them or sort of respect them and honour them, as if You give them the honour because they are satisfied souls.

padme sthitam Padmavarnam tam iho pahvaye sriyam Your apparition, Rupa [Mhanjets] means your apparition, your appearance. Because of your appearance, whatever appearance You have we get our Realisation. We also get that appearance of Shrī. Śhrī means dignity. Candram prabhasam yasasa jvalantim sriyam loke devajustam udaram Prabha-Aura. Yasa means success [in Marathi: but `success' is gross]. Spiritual success. We get burning spiritual success. [In Marathi: Shabda nahi.] You cannot think of a mild burning or a sweet burning in the heart you do get, isn't it? tam padminimim saranam aham prapadye laksmir me nasyatam tvam vrne This is just happening to you, I mean, just see it was written thousands of years back, is happening to you people. You are such special people. Otherwise the people used to read this before, used to think: “How, God knows how it works out." aditya varne tapaso dhijato vanaspatis tava

vrkso tha bilvah tasya phalani tapasa nudantu māyā ntarayas ca bahya alaksmih upaitu mam deva sakhah kirtis ca manina saha pradur bhooto smi rastre smin kirtim rddhim dadatu me I mean, one is asking for virtue. Virtue is to be asked, to be deserved, to be adored *[UNCLEAR]*, to be proud *[UNCLEAR]*.

ksut pipasa malam jyestham a laksmim nasayamy aham abutim asamrddhim ca sarvam nirnuda me grhat asamrddhi-affluence. A spiritual affluence. It's all spiritual all right? There's nothing like that, you see *[UNCLEAR]*.

gandhadvaram duradharsam nityapustam karisinim Make my nose, make my eyes. You increase the power of my *[UNCLEAR]*. You see when you are aware, you get a fragrance.

So what he is asking for is that you give me a nose that will always have the fragrance of your being, you see. Gandhadvaram duradharsam, means even if you are away, I should always have your Darshan, means I should always be in your nearness *[UNCLEAR]*, or I should always have your blessing, as if you are with me. Karisim.

Isvarigum sarva bhootanam tam iho pahvaye sriyam Now, Īshwari Shakti is the Power by which You pulsate in every atom, you see and the same way as You pulsate in every atom, You should be all the time fragrant in my being and also I should be feeling Your Darshan all the time.

Shreya shabda [word], you see, Sanskrit word is such... Shreya means your spiritual well being, but in Sanskrit you can say it is so in one word, but in English you have to say spiritual well being.

Manasah kamam akutim vacas Satyam asimahi Means with my body, with my being, with my speech, with my think, with my mind. Many people speak about Sahaja Yoga but in the heart they don't have and many people have it in the heart but they don't work it out with their bodies. You see they won't work it out, you see they'll be just using it for their own indulgence from the mind.

Some may work it out by talking about it. But those who work by all these three integrated forces they are the ones... You give me that power that I work out all of them with the integrated force. I mean even that is asked from Mother... But at least there is the asking. That's the great point [Laughter.] At least they're asking for it.

pasunam rūpam annasya mayi sris srayatam yasah It's spiritual, again spiritual, see, animals have got their own beauty, but You should give us that beauty that gives us spiritual success. Shreyam mhanje [means] spiritual well being... Or our knowledge of English is limited I think, I don't know... Is there anything like a combine word for spiritual well being in English? Would you say that? Anyone knowing English? [Laughter.] kardamena praja bhoota mayi sambhava kardama If I have children, let them be by Your blessing.

sriyam vasaya me kule mataram Padma malinim This you must hear. In the whole dynasty. In my whole dynasty the children should be born out of Your grace so that You are worshiped throughout my dynasty.

Contents: 1984-02-20 **Quote related to the Song `Come Holy Ghost', near Village Vani, Nashik, Maharashtra, India**

[Few Sahaj Yogis practice a song under the direction of Brian Bell, which they hoped to present to Shri Mataji at some point. The song lyrics start as follows:] Come, Holy Ghost, our souls inspire, Enlighten with celestial fire.

Thou the anointing Spirit art, Who dost thy sevenfold gifts impart.

[As they are rehearsing, they turn round to see Shri Mataji Herself enter the hall. It was completely unexpected. Brian explains to Shri Mataji that they were just been singing the song, `Come Holy Ghost' and then She came!] You'd better not sing that song too often otherwise I will be running all over.

[She sits with for a while, in a chair at a table with rungs. She props Her Feet up on the rungs so that the are facing towards us. Sahaja Yogis open their hands to absorb the vibrations.]

Contents: 1984-02-26 **Pūjā, Achieve the Power of Spirit within, Mula Dam (near Rahuri), Maharashtra, India**

I hope your journey has been comfortable so far and will be comfortable later on, as the source of comfort is your Spirit. And more you see to the comfort of your Spirit the problems of outside comforts drop off.

You are not bothered as to where you live, where you sleep, what you eat, what you do.

So allow these gross sensitivities to drop down so that the inner, subtler sensitivities grow. That's why you are here, to get over your time, conditionings... I mean it is a rat-race and the rat race has to be somehow or other stopped, once and for all, `without'.

So here we can do it `without' and once you start meditating, that `within' can also be achieved and you can achieve that peace which all human beings should have, if we have to save this world from complete destruction.

As you must have realised that now the Sahaja Yoga is growing much faster and is taking a good speed.

And we all have to keep ourselves equipped to be able to be part and parcel of this great evolutionary and revolutionary process which is going to stir up the whole world.

For that, it is important also to see that we take ourselves to task and don't get into mediocre living and mediocre thinking. We are people of very great potential. Not only that, but we are blessed by God's Divine Power. Try to use that power within yourself and try to be one with it. A little bit, you have to see that you beat up your body, beat up your mind, beat up your ego and chisel it out so that it is beautifully made, in such a way that you grow into that image for which you are made.

Regarding other things, like My tours in your countries; I think, the greatest good is done to you when you come to `this' country; as if you belong to this country and you were uprooted in some other country.

And, when you come here you prosper so well! And in that country I try so hard, I work so hard, do all kinds of things, all the time I spend with you, I do everything, day and night, all the time, I find it's impossible to achieve much, that I see happening to you here. As if here you take absolutely with great ease the divinity of this place. And I think this uprootedness has to be given up. I think

as if you had immigrated into those countries and now you are back in your own! You are not found out by immigration laws, I think! Now, under these circumstances we should change our tactics and start to establish our ashrams here and our own projects here, so that you people should come down `here' and achieve more. You can earn your living there. But you should come here and spend some lime for two or three months `continuously' and establish yourself and grow. Because I don't think it can be achieved there that good. Because we've tried everything.

So this is the ultimate outcome of our trips all over.

Despite all kinds of hazardous routes and hazardous life here, we are doing very well. I must say when I see you I find you are all very good and you are very much better and it's all improved. Like watches, you see, when you have to make them immuned, you put them under absurd conditions and they get alright. Like that, now you are immuned! They are put into troughs which are shaken very thoroughly as yesterday you were shaken in the buses. Then they are made to pass through water which is running very fast on them. And all this we are trying here; and I think your immunity is growing very fast to outward things and you are becoming really solid eternal time pieces, the way you are created here and I'm so very happy to see the development. That's the main point which we have achieved here.

So the attention should be out-away from money; first of all. That is one of the biggest problems.

Actually nobody can believe that affluent countries are much more money-minded than Indians are, though they

are so developed. You see, the developed countries are `much more' money minded, than the Indians are, it's very surprising! When you see the way they count their pennies it is impossible to believe that these are really developed people. They are worse than beggars sometimes.

So that is what you should get out of the money part. Money is horrible stuff that people count. I mean it is better to count the names of God than count the money-horrible coins.

Then we have other things like gross attachment to comfort. I don't think it's a very comfortable life there. Because here you can move in the night, anytime. You won't meet anybody who will snatch your purse or snatch your bangles. You can move about the way you like and nobody's going to bother. You won't meet two or three drunkards beating each other, nothing of the kind.

So it's a very pure life here. That's a very big achievement.

And the comforts that you want you can create later on, if you want to have them. At least I personally think that too much modernization won't suit this place.

So you should not give them these useless ideas which makes your body slaves to your own comforts and ideas of enslavement.

In any case personal cleanliness is very good here, but the general cleanliness has to be taught to these people. All this giving and taking process will work out very well, I'm sure. And the way things are moving within yourself, I have great hopes that you will really grow much faster if you come to this country and stay here for some time, in

a settled way and then go back to your countries. That would be much better than to have a visit to your countries, which I feel sometimes is just bombarded by negativity.

The other point which I wanted to tell you is that you must learn to understand that you have come here to gain something. Nobody is going to gain anything out of you.

So you have to gain something here. You are students and so you have to learn something and try to develop a sense of discipline. Like a disciple who receives all that is around, “What's that? How is it? This is the house, that's nice", you see, like that. But if you go on seeing the thing which is of no importance and loose talking about things that do not matter with you. All these have to be given up. Because you have so much time there that people sit down and jabber; talk, loose talks, ugly talks, useless talks. That's not needed at all. On the contrary it's better to be quiet and assimilate more within yourself. Because here the people don't have time, so they can't talk, they have to work. But while you have lime thereto talk, also here, so we start like that; and that's a `very' wrong thing.

Another talking is done with yourself also, quite a lot. Like you start analyzing, criticising and finding faults and all the time thinking “Oh, this could have been better, I've harmed very much here... that has happened” all those things come into your heads.

So this kind of a inner talk also should be stopped; they are called as “murmuring souls" by Christ, who said

“Beware of murmuring souls." But these murmuring souls exist within us.

So beware of them and don't listen to all nonsensical talks and try to keep a good eye on that and be alert, so it will help you. On the whole, I must say that this trip and the last trip, I am overjoyed and I am very happy that it has brought forth `so many' possibilities before Me and your potential. I am very happy about it, that somehow, in this year, we have achieved a new type of atmosphere among all of you, which is humble, which is quiet, which is peaceful, which is absorbing the Divine, which is a very, very great, joyous thing for Me.

So I thank you very much for all that. I hope you keep up your progress this way.

May God bless you all.

Contents: 1984-02-29 **Shivaratri Pūjā, Detachment and Enlightenment of Brain, Banks of Chandrabhaga River near Śhrī Viṭṭhala Temple, Pandharpur, Maharashtra, India**

In these modern times, a place which is supposed to be a holy place becomes the most unholy place. It's such a topsy-turvy condition these days. And when we are trying to establish something very fundamental that's like a little seedling that has to come out of the stones, it has to fight lots of things; so we have to keep our brains intact and be sensible about everything and try to see what we can achieve through our patience and understanding. It's very important.

Today I think is a very great day, for all of us, because this place is the place of Virāta, of Śhrī Viṭṭhala.

It is the place where Śhrī Viṭṭhala appeared to a devoted son and when he asked Him that, “You better stand on a brick” He stood there. And they say that He stood there, waiting.

Some people say that the statue that we see came out of the Mother Earth on this sand and that's what Pundarikaksh carried saying that, “These are the ones who came to see me and my parents when I was busy with them, so they are standing on the same brick which I threw." Now the whole story has to be taken in a very sensible way, with the common sense in it. That God Himself is capable of all kinds of miracles. We, who are created by God, are doing some things which look miraculous say, if you take about hundred year old situation of this world, we can say that today we are seeing many things which could be miraculous. Hundred years back no one could have thought that we could have all these arrangements done here in such far-fetched places.

But, all these miracles come from the Power of God.

So we are the creator of that `wee' bit, very wee bit of that miracle.

So all the miracles of God cannot be explained and should not be explained. They are beyond our minds, and, to make people feel the presence of God.

God can do anything: He can move into all of the three dimensions and also in the 4th dimension and can do whatever He feels like. That's what you have seen now in your every day-to-day life. How many miracles take place, to all of you and you can't understand how it works

out; even it works out on things which are not living and people are quite amazed at how these things happen.

So we have to believe, now, after seeing all this ourselves, that He is God and He can do anything that He feels like; and we are nothing! We are nothing.

There should be no rationality about it, of understanding God's miracles. “How can it be? How could it be?" You can't explain. Only when you achieve that state of mind where you believe through your experiences that God is all-powerful. It's very difficult, this concept is very difficult, because we are limited people. We have limited powers. We cannot understand how God could be all-powerful, because we haven't got the capacity.

So this God who is our creator, who is our preserver, the one who desired that we should exist, who is our existence itself, is all-powerful God. All powerful. He can do whatever He likes with you. He can create another world, He can destroy this world. It's only if He has to `desire'.

My idea of coming to Pandharpur for Shiva Pūjā was this: that Shiva represents the Spirit and the Spirit is residing in all of you in your hearts.

The seat of Sadāśhiva is on top of your head; but He's reflected in your heart. Now, your brain is the Viṭṭhala.

So to bring Spirit to your brain means enlightenment of your brain. “Enlightenment of your brain" means: the limited capacity of your brain has to become unlimited in its capacity to realise God.

I will not use the word `understand', but `to realise God', how powerful He is, how miraculous He is, how great He is.

The another is that the brain of man can create, of course, out of the dead, but, when the Spirit comes into brain, then you create living things, living work... of Kuṇḍalinī. Even the dead start behaving like living, because you touch the Spirit in the dead.

Like the nucleus inside every atom or a molecule, has the Spirit of that molecule. And if you become your Spirit, we can say the `brain' of a molecule or an atom is like the nucleus, body of the nucleus. But the one that controls the nucleus is the Spirit that resides within the nucleus.

So now you have got the attention of the body, the whole body of the atom, then the nucleus and `inside' the nucleus is the Spirit.

In the same way, we have this body, the attention of the body. And then we have the nucleus, is the brain and the Spirit is in the heart.

So the brain is controlled through the Spirit. How? That around the heart there are seven auras, which can be multiplied into any number, seven raised to power sixteen hundred, which are the ones which watch the seven Chakras, raised to power sixteen hundred, sixteen thousand sorry.

Now this Spirit is watching through this aura, watching, I am again saying “watching" through this aura. This aura is watching the behaviour of your seven centers in your brain. Is also watching all the nerves that are working in the brain. `Watching,' again.

But when you bring the Spirit into your brain, then you go `two' steps ahead.

Because when your Kuṇḍalinī rises, She touches the Sadāśhiva and Sadāśhiva informs the Spirit. Informs in the sense, reflects, in the Spirit.

So that's the first state where the watching auras start communicating to your different Chakras in the brain and integrating it.

But when you bring your Spirit to your brain, this is the second state, then you really become Self-realised, in the full way. In the full way. Because then your Self, that is the Spirit, becomes your brain.

Action is very dynamic. It opens, then, the 5th dimension in the human being.

First when you become realised, collectively conscious and start raising the Kuṇḍalinī, you are in, you cross the 4th dimension. But when your Spirit comes into your brain, then, you become the 5th dimension, means, you become the Doer.

Our brain, now, for example says “Alright, lift this thing up." So you touch it with your hand, you lift it up. You are the doer. But when the brain `becomes' the Spirit, the Spirit is the doer. And when Spirit is the doer, then you become a complete Shiva, Self-realised. In that state, if you get angry, you are not attached. You are not an attached person to `anything' whatsoever. If you possess anything, you are not attached. You cannot attach, because Spirit is detachment. Complete detachment. You don't bother about any attachments whatsoever. `Even' for a second, you are not attached.

Now, I would say, to understand the detachment of Spirit we should study ourselves very well, clearly: `How are we attached?' We are attached, firstly, by our brain. Mostly by our brain. Because all our conditionings are in our brain and all of our ego is also in our brain.

So all emotional attachments are through our brain and all our egoistical attachments also are through our brain. That's why it is said that after Realisation one must try to practice the Shiva Tattwa by practicing detachment.

Now how do you practice this detachment? Because we get attached to something, of course through our brain, but through our attention.

So we try to do what we call `Chitta Nirodh', is to control your attention. `Where is it going?' In the practice of Sahaja Yoga, if you have to rise higher you have to improve your `own' instrument and not the instrument of others. This is one thing one should know for definite.

Now, you just watch your attention, where is it going. Watch yourself. As soon as you start watching your Self, your attention, you will become identified with your Spirit. Because if you have to watch your attention you have to be your Spirit, otherwise how will you watch it? So now see: `Where is your attention going?' First, the attachment is, in all gross ways, to your body.

So we see Shiva doesn't know attachment to His body: He sleeps anywhere, He goes to the cemetreies and sleeps there; because, He's not attached, He can never be caught up by any bhoot or anything; nothing of the kind. He is detached.

The detachment is to be watched and seen through your own attachments. Now, because you are realised Souls,

not yet the Spirit, it has not yet come into your brain of course, but still you are realised Souls, so what you can do is at least to watch your attention, you can do that. You can watch your attention very clearly, by seeing where your attention is going. And then, `controlling' your attention, also, you can do. Very simple.

To control your attention you have to just remove your attention from `this' to `that.' Try to change your priorities. All this has to be done now, after realisation a complete detachment.

So the body demands comfort. Try to make body uncomfortable a little bit. Try. What you think it to be comfortable, try to make it a little uncomfortable. That's why people went to Himālayas. You see, coming to this place itself has caused us lot of problems.

So going to Himālayas, you can imagine.

So after realisation they used to take their body to Himālayas: “Alright, go through all this. Let's see how you act." So what you call the penance side starts now. In a way, it's a penance which you can do very easily because now you are realised Souls. With enjoyment, little, try to make this body... For shiva, it doesn't matter whether He's in a cemetrey or in his own Kailāśha or anywhere.

`Where is your attention?' is, you see, that your human attention is hopelessly bad! Very entangled nonsense it is. “We did this because of this", there is an explanation, or others have to give an explanation. No explanation is needed, to be given or to be accepted, or to be asked for. No explanation.

To exist without explanation is the best way. In a simple Hindi language: “jaise rakhahu taise hi rahu” [than means] “Which ever way you keep me I'll remain in that state and I will enjoy." Further in this poem Kabīr says “If you make me go on an elephant, means the royal conveyance, I'll go; if you make me walk, I'll walk." “Jaise rakhahu taise hi rahu” so no reaction on that point, no reaction. First, No explanation, [then] No reaction! Now, second is about food. That's the first seeking human beings had as animals.

No attention on food! Whether you have salt or not, whether you have this or that, no attention on food. Actually you should not remember what you ate this morning. But we think as to that we are going to eat tomorrow. We consume food not for running this body but for a sort of a more satisfaction of tongue pleasures. Once you start understanding that pleasure is a sign of gross attention; any kind of pleasure is a very gross sensationalisation [sensation], very gross it is. But when I say “No pleasures” it doesn't mean that you should become serious people and people of sort of, as if somebody is dead in your family! But you should be like Shiva.

So detached. He came on a bull, which was running very fast, to get married. He was sitting on a bull with his two feet like this, you see. And the bull is running fast and He is holding the bull; the feet like this! And He's coming for his wedding! And with Him are coming people with one eye, without noses, all kinds of funny people coming with Him; and His wife feeling quite embarrassed at the nonsensical things people are talking about Shiva.

He's not bothered what his reputation would be... but that doesn't mean that you become hippies.

You see this is the problem is, that once you start thinking like that, you become hippies. Many people believe that if you try to behave like Shiva, you become Shiva.

Many believe that way, that if you take `ganja' you become Shiva, because Shiva used to take ganja: because He was consuming all that to finish off from this world. For Him what does it matter whether it's ganja, what does it matter, give Him any thing, He'll never get drunk. No question. He's consuming all that.

Or they think, if they live like Shiva, the way He was detached about things. He was least bothered about His appearances. What appearance Shiva needs is, that whatever He appears has His beauty. He doesn't need anything to be done.

So attachment to `anything' is ugliness. Is ugliness. Is nonsense. But you can dress up whatever way you like. Or, even if you are in the most ordinary dress, you look the most magnificent person. But it's not that if you say that, `Alright, so in these circumstances let us go about on a one sheet wrapped around.' The beauty that has `evolved' within you through Spirit, gives you that power that you can wear whatever you feel like; makes no difference to your beauty, your beauty is there `all the time.' But have you achieved that state? And that state only you achieve when your Spirit enters into your brain. With ego-oriented people it is more difficult. And that is why they cannot enjoy things. At the slightest pretext they topple down. And Spirit, which is the source of joy,

just doesn't come, doesn't show. The joy is beauty. The joy itself is beauty. But, that is a state one has to `achieve'.

Attachments come by various methods, we go a little ahead with it. Then you have attachments of your family. What will happen to my child? What will happen to my husband? What will happen to my mother, to my wife? this, that nonsense. Who is your father and who is your mother? Who is your husband and who is your wife? For Shiva, He doesn't know all these things. To Him, He and His Power are `inseparable' things.

So He stands as singular personality. There is no `duality'. When there is duality then only you say `my' wife. You go on saying `my' nose, `my' ears, `my' hands, my, my, my, my, my,...

go deep down.

Till you say my, there is some duality. But when I say “I, the nose", then there is no duality. Shiva the Shakti. Shakti the Shiva. There is no duality. But we live throughout on our duality and because of that there is an attachment. If there is no duality what is the attachment? If you are the light and you are the lamp, then where is the duality? If you are the moon and you are the moonlight then where is the duality? If you are the sun and you are the sunlight, you are the word and you are the meaning; then where is the duality? But when there is this separation, there is duality. And because of this separation, you feel attached.

Because if you are that, how will you be attached? Do you see that point? Because there is a difference and a distance between you and yours that's why you get

attached to it. But it's me, who is the other? This whole universe is me. Who is the other? Everything is me, who is the other? It is not that it's a brain wave or a ego brain wave.

So who is the other? Nobody.

That's only possible when your Spirit comes into your brain and you become part and parcel of Virāta itself. Virāta is the brain, as I told you. Then `everything' that you do, when you show your temper, when you show your affection, when you show your compassion, or anything, it is the Spirit that is expressing.

Because brain has lost it's identity. The so, called `limited brain', it has become the unlimited Spirit.

I do not know, I `really' do not know how to give an analogy to a thing like that. But what we can do is to understand it: that if a colour is dropped in the ocean, the ocean becomes colourful, is not possible. But, try to understand, if a little colour, limited colour, is dropped into the ocean, the colour loses its identity completely. Think of the other way round. If the ocean is coloured and is poured into atmosphere or onto any part any little wee bit, or onto any spot, onto any atom or anything, it all becomes colourful.

So the Spirit is like the ocean which has the light in it. And when this ocean pours into the little cup of your brain, the cup loses its identity and everything becomes Spiritual! Everything! you can make everything Spiritual. Everything. You touch anything, it is Spiritual! The sand becomes Spiritual, the land becomes Spiritual, atmosphere becomes Spiritual, celestial bodies becomes

Spiritual. Everything becomes Spiritual! So it is the ocean, that is the Spirit, while your brain is limited.

So the detachment from your limited brain has to be brought in. All limitations of brain should be `broken' so that when this ocean fills that brain; it should break that little cup and `every bit' of that cup should become colourful; the whole atmosphere, everything, whatever you look at, should be colourful.

Colour of the Spirit is the light of the Spirit and this light of the Spirit acts, works, thinks, coordinates, does everything. This is the reason today I decided to bring Shiva Tattwa to the Brain.

The first procedure is to take your brain towards the Shiva Tattwa by telling it: `See where are you going, Mister Brain? You are putting attention to this. You are putting attention to that, getting involved! Now detach, become the brain yourself. Only the Brain. Detach. And then, take this `detached' brain, `completely' filled with the colour of the Spirit.' It will automatically happen. As long as you'll have these limitations to your attention, it will not happen.

So one has to `really deliberately' do this tapasya.

Every individual.

I'm with you; so you don't need any Pūjā, that way. But that state has to be achieved and for achieving that state, you need the Pūjā. I hope so many of you will become the Shiva Tattwas in My lifetime.

But don't think I'm asking you to suffer. There is no suffering in this kind of an ascent, if you understand that this is the complete joyous state. That is the time when

you become Nīrānand. That's the joy named in the Sahasrāra, the name of the joy is Nīrānand and you know your Mother's name is Nīra, so you become Nīrānand.

So today's worship of Shiva has a special meaning. I hope whatever we do in the outward way, in a gross way, happens also in the subtler way. I am trying to push your Spirits into your brains, but I find it rather, sometimes, difficult because your attention is still involved.

Try to detach yourself.

Temper, lust, greed, everything: try to reduce. Like in food, I told today, “Warren, ask them to eat less, not like gluttonous people." You see, once in a while, on a day of a big banquet you eat more, but you cannot eat every time like that. It's not a sign of a Sahaja Yogi. Try to control. Try to control your speech: whether you express temper in your speech or you express your compassion; or you are artificially compassionate. Try to control.

I know, some of you may not do much. It's alright. I'll try to tell you, many a times; I'll try to help you, but, `most' of you can do it. And you should try that.

So on a deeper level, from today we start our Sahaja Yoga, where some of you may not attain. But most of you should try to go deeper. `Everyone.' For that you don't need persons who are very well educated or well placed. No. Not at all. But people who meditate, dedicate, go deeper, because they are like the first roots which have to reach, for others, much deeper, so that others can follow.

Now for today's Pūjā we'll have a very short Gaṇeśha Atharva sheersha. Not to wash My feet or anything much

on it but is a saying of Atharva sheersha and you can put... Shiva is all the time clean, pure, immaculate.

So, what are you going to wash the immaculate? One may say that “Mother when we wash Your Feet, we get your vibrations in the water."... But it's so detached that there is no need to wash; at a state where you get completely washed, completely cleaned out. Then we'll have a Devī Pūjā because Gaurī who is Virgin, is to be worshipped so we'll say the 108 names of the Virgin. Then we'll do a Shiva Pūjā.

I'm sorry I cannot tell you everything in one short speech all about this. But detachment `must start expressing' itself in your Realisation. Detachment. What is surrendering?, is nothing. Because when you are detached, you are surrendered, automatically. When you are holding on to other things you are not surrendered, that's all.

What is there surrender to Me? I am such a detached person I don't understand all that. What am I to get out of you?, I am so detached., Nothing.

So today I hope we all pray that “O Lord, give us strength and that source of attraction by which we give up `all' other attractions of `all' the pleasures, of `joy' of ego, of every thing that we think of, but we should fall into the `pure joy' form of the Shiva Tattwa. `Absolutely.' " I hope I've been able to explain to you why I am here today and why today is a very big day. You all who are here are specially very lucky people, who should think that God has been kind to you, that He has chosen you today to be here, to listen to this. And then, once you get detached, you'll start feeling responsible. Abhiyukta; Responsible.

Responsibility, not giving ego but responsibility which is executing by itself. Which is expressing by itself, manifesting by itself.

May God bless you! [Marathi on doing the Pūjā MISSING.]

Contents: **1984-03-1x Morning Conversation and Prayer, New Delhi, India**

[Shri Mataji sits on a chair in Her room and Prerna Richards serves Her morning tea. Once Shri Mataji finishes the tea, She asks Prerna to sit near Her. Prerna neither has any pain nor she thinks she has any heart problem. Then Shri Mataji asks Prerna to turn her back towards Her. Then Shri Mataji lifts up both Her Feet and puts them on Prerna's back with a lot of pressure. Shri Mataji mentions that her father had not left her and he was still worried about her.] Prerna [repeats what Shri Mataji asked her]: Take your rebirth, because Shri Mataji is my father and She is my Mother and I am protected now and please take your rebirth because you need to take your Realisation.

Shri Mataji: I am your father, am your Mother and if you ask Me to come to your heart, then it will open it up and you won't have a catch, because your father is possessing you on your heart.

Shri Mataji please come in my heart, please open my heart, Shri Mataji please put Your Feet in my heart, Shri Mataji please let You be worshipped in my heart. Take me away from illusion. Please keep me in reality.

[Then Shri Mataji asks Prerna to say this Prayer back to Her with the hand on her heart. Then Shri Mataji puts Her Foot on her heart and asks her to repeat it again.]

***Contents: 1984-03-13*, Public Program, Day 2, Mūlādhāra and SwādhiṣhṭhChakras, Mavlankar Hall, Sansad Marg Area, New Delhi, India**

I bow to all the seekers of the world. Yesterday, I told you, in short, what is Sahaja Yoga? Sahaja, `saha' means with and `ja' means born, Yoga means union with the Divine, in simple words. Saha is with, ja is born, is born with you, something that is born with you, is the right to achieve the union with the Divine.

This is Sahaja Yoga. How it happens? Why it happens? Is to be seen. Howsoever, I may try to explain it to you, it may be that you may not believe it, but as I requested you yesterday, like as a scientist, you have to keep your mind open, with pure scientific attitude and see for yourself if this hypothesis I put before you, is true or not? But if you put a barrier in your mind, like a student going to American college, has a barrier in his mind about medicine, cannot receive anything, in the same way, if you put a barrier in your head against knowing about the roots, roots that nourishes this great tree of creation. You can never understand what I am talking about.

Whatever I am telling you today, has been written in our scriptures, in this great land of Yoga Bhūmi, this country which you have taken for granted as you have taken our human existence for granted, the greatest of greatest country is India, because spirituality, spirit is the highest, this is the country which is going to deliver goods to all the nations around. In this Yoga Bhūmi, whatever I am telling you today, has been discovered at least 16,000 years back, people were practicing this, not in a way we

are doing it today, in a hall, individually, not amass. But today the time has come to get this knowledge, the knowledge of extreme, *[UNCLEAR]*. Everyone, can have the experience of ones own spirit, but please don't put your barriers against it, as I told you. Also I told you, that in the West, they talk of individuality, as a result of that we think that they have achieved a lot, but individuality cannot come to human beings unless and until they are mature enough.

So, the maturity has to be first improved and then the manifestation of the individuality can be sensible. Otherwise, people will go amuck and that's exactly what's going on in the West today and we are following them into the same problem.

So, now today, as I told you, I'll be telling you about the conception of our being within ourselves.

Yesterday, I told you what mistake Jung made, who was the disciple of Freud, in describing a human being.

In describing a human being, he said that human being is made of the unconscious first. He described him in layers. Like first, the unconscious, then the unconscious that is going to manifest, then the subconscious and then the conscious mind and on top of that He said that is the ego. This is typically a Western Yogi talking, because he didn't have the heritage of our wealth, but you can see here clearly how we are built.

We are not built one on top of another that way, but it's a parallel thing, built beautifully by a very great organizer and the central path of our ascent is kept absolutely clean and open for us to ascent. Because any ordinary organizer can also see that if you have to go somewhere

then you have to keep the passage clean. Then the one who is the organizer of all the organizations, such a person, why will he keep us like this? That we have to go through the subconscious to achieve the unconscious and this is why these Gurus and all these people are telling you that you have to go to the unconscious through the subconscious strata, so you have to become like mad people.

Even people say that when Kuṇḍalinī is awakened, you have to behave like a mad person, you start jumping and doing all kinds of things, actually those who are unauthorized, can create problems And this is the reason why so many people in the world are literally frightened to have their ascent. These books, which are published, I mean, anybody can write about Kuṇḍalinī, there is no authority to stop it. There is no law to stop it. They can write whatever they feel like on their individual basis and people buy these books and get frightened. I think this is a very negative approach, because without the ascent of human beings to that level of the spirit, you cannot solve the problems of this universe.

You try anything, so far whatever we have tried through our mental projections, has a linear movement, which comes back and recoils upon you, as I told you yesterday, the scientific, the political, the economic.

But the only approach that can spread all over comes only when you become the spirit and it is important that we all have to become the spirit, especially the Indians, because we have our heritage and it is very easy for an Indian to get an ascent but he doesn't settle down so well, as a Westerner can, because for him, its too

precious and for us it is not. Like our independence, I think we do not reach our freedom of our souls. In the same way, we just do not bother about sustaining ourselves, but I hope that this august gathering can give some heat to their self emancipation and with self confidence they will achieve it.

Now, here we have as you see in the chart, three type of channels, first, we will be dealing about the Nāḍīs. There are three types of Nāḍīs in our body. This, of course, in the medical terminologies can be called as left and right sympathetic nervous systems and the parasympathetic. But, in Sahaja Yoga science these three channels are the expressions, are gross expressions of the subtle Nāḍīs, one is called as Iḍā on the left side, Piñgalā in the right side and Suṣhumnā in the center. Kabīra has said, “Ingala Piñgalā Suṣhumnā Nāḍī." They all have talked in a poetry, nobody have tried to find out what they have been saying, what he mean by this? There are three Nāḍīs that exist within us and express themselves in gross as left and right sympathetic nervous system and parasympathetic nervous system. Now as far as the medical science is concerned, the doctors do not know how to control the parasympathetic. Sympathetic is controllable, if you run fast, the heart beats faster, but it comes back to its normal through parasympathetic. Now, this central path, of Suṣhumnā, which expresses the parasympathetic nervous system in the gross, is the path of our ascent.

Accordingly we have three types of peoples and permutations and combinations of these three types.

The first one of these types which is the left sided, the left sided people are the people who are emotional people. Because it caters to our emotional side. With science, you cannot explain emotions, love, attachments. Science is a very limited field. With medical science you cannot explain, but with psyche, so called psychological science, which I think is compared to our knowledge in this country, is not even a little *[UNCLEAR]* child. Now this psyche, or the left side is also catering to our past. Whatever is built in within us, since our creation, exists in this area, which is called the collective subconscious. The other day in London, I saw one television show by the people who are doing research in cancer and they admitted that the triggering of the cancer takes place from the area which is built within us, built within us, since our creation. And they say there are proteins, they call them as proteins, proteins 58 proteins 53, whatever name you may give, they admit that this kind of area exist within us and from this area, this area the attack comes for cancer, this much is admitted.

Now for the right hand side, you have another Nāḍī called the Piñgalā Nāḍī, which is very strong in Delhi. This is the Nāḍī which creates the Rajo Guṇis. The first one creates the Tamo Guṇis and the second one creates the Rajo Guṇis, which act for our physical and mental activities of the future. For example, we are planning, morning till evening we are thinking. Those who are futuristic people indulge into this creation and they develop an institution on the top of their head like a balloon called Ego. While those who indulge into the left side activities create an institution which is called as Super Ego or all the

conditionings within. Now, these two things definitely exist within us, even according to Jung. When we grow, these two develop into a calcified formation of the Fontanelle bone area and we get closed down.

So we develop, an identity, a name, a personality and you separate yourself from others, that's how you get your freedom from the whole.

In Sanskrit language, we call animals as Pashu means they are in Pasha, means they are not free, they are under the pash of God's realm, they are not free to decide for themselves what should they do? But we have a right to decide, we can decide, we have that freedom to decide, whether to go to God, or to go to Hell, we can say whether to be benevolent or to be cruel. We have all the freedom to decide whatever we want to do. And this power of decision within us gives us the special position in the whole kingdom of animals, that we can decide, that we have a power to decide. Now, in this decision making, if we emphasize on individuality, we do not cater or care to our maturity. If you are not mature enough and you start deciding what you have to do, then you have no relationship to the Whole and you become a person who is like an abandoned personality.

Same thing happens in the cancer, when a cell loses its connection with the whole, it becomes malig nant, it becomes ego-oriented, it starts overpowering others, eating others and developing itself with no proportional understanding of the whole and this is what is happening today to all the ego-oriented society, where they think they should develop. The way they have developed, now they don't know what to do? Now this conscious mind,

when this develops, I mean, this effort of the ego, when it develops in such a way, it hampers your consciousness. It doesn't allow you to use your conscious mind to live well. Like Hitler you become, like Homini you become, you become so ego-oriented, a barrier is so much created in your mind, that you cannot connect yourself with others and people say that this is thick-headedness and this thick-headedness is nothing but a man who is very ego-oriented. According to our Indian Philosophy, a man who is Ahaṁkāri is a stupid fellow; he ultimately ends up into many stupidities which we cannot explain. I have seen the countries which are ego-oriented, you just don't understand why they do these stupid things, because they are only ego-oriented, they believe in individuality and they have no maturity of any kind. And they do such so immature things, you are surprised the way they are handling very serious situations.

So, this ego develops within us and now I find that all these ego-oriented people are also quite frightened of it, absolutely frightened of it, they think that they are doing harm to others, aggressing others, as they don't want to do it, but they have no control over it.

Now, as I told you, the left side is the person who is emotional, who is very loving, who is very kind, as I told you that I heard in England, every week two children are killed by parents. I mean I can't think of such thing in India. I mean here, it's the other way round, they will do anything for their children. This is going to another extreme of Super Ego, where to you, your child is the most important to you, so one has to come to the center, the center is the Suṣhumnā Nāḍī, which is sattvo Guṇi as

we call it. Because it is a balance, you have to have a balance and to create a balance within ourselves, we have got this void, which is, which is our religion. Now, this religion has nothing to do with the outside religions we are talking about. But, fundamentally we have got ten valencies as carbon has got four valency, human beings have got ten valencies. You know that all the matters have got only eight valencies, while human beings have ten valencies and these are the ten commandments, or you can tell ten Dharmas, that exists. When we try to go out of that Dharma and into imbalance, then we develop problem of stomach, or various nature that even doctors make out how they develop it and how to work it out? Now this has got ten Chakras built in on your head, here, five on this side and five on other side and this in Sanskrit language we call Ekādaśha Rudra. There are eleven rudras because the center one is that of the Primordial being, what you call the Virāta, is Akbar. These eleven Chakras, when they set in motion, our destruction starts, they are responsible for destroying us, because if we do not construct we towards destruction.

So, these eleven Rudras, are very important and in these modern times, I find, that they are extremely active. God knows how human beings are going to be destroyed, whether from within or from without, the fear is everywhere but the only solution is that you become a Spirit. Spirit resides in the heart and the spirit is the source of all the joy. The truth, the truth that is absolute. For example, a person who is spiritually developed, the one who has got spiritual powers, will say the same thing

as the other person will say, there is no duality, there is no fight.

So, to develop it, you have to have your ascent of the Kuṇḍalinī.

When the Kuṇḍalinī rises, then only the Spirit within you can be awakened, there is no other way round. People say that there can be another way, this can be done, that can be done, there can be no other way for a seed to be sprouted, you will have to put it in Mother Earth, because She is the only One who has the capacity to sprout a seed. In the same way, your Kuṇḍalinī, which is residing in the triangular bone, has to rise. Now what is this Kuṇḍalinī? Kuṇḍalinī is the true desire, the true desire, or what we call the Shuddha Icchā, pure. All other desires of the human beings are impure. As we say in the economics that wants are satiable only partially, in the sense that, in general, they are not satiable, in general, they are not satiable. That means, if you want something, supposedly, you want a house, you have a house, you want to have a car, want to have a car, then you want to have a garden, the desire which you have desired for doesn't give you the satisfaction that you asked for, so you go on asking for more and more, that proves that the desire you had, or you always had, whatever desires you had, are not true desires. If they were, when they were quenched, you should have got satisfaction.

So the true desire, the power of true desire, the pure desire, is the Kuṇḍalinī, a three and a half coiled energy which is within us, which resides in the triangular bone.

Now this resides, it is there, has been described for thousands of years in our country but you are so westernized that you don't want to see what exists within us? You can see in the course of your Sahaja Yoga treatments and all that, those people who have obstruction, in the second or the third centers, the Kuṇḍalinī pulsates just like a heart, this triangular bone pulsates just like a heart. And you can even see the movement of the Kuṇḍalinī, even you can feel on top of your head its throbbing, `lub lub' the heart's throbbing on your head. As Kabīra has said, “Sunya Sikhara para Anhada Baje." When it breaks, then you start feeling the Cool Breeze which is called as the Cool Breeze of the Holy Ghost. In the Bible, they have described the Holy Ghost which is very ambiguous thing, nobody knows because they don't want to read anything else but Bible. But it is the Ādi Shakti, the Ādi Kuṇḍalinī, the One which is the Primordial Kuṇḍalinī, which is the Holy Ghost, which is reflected within you, as your own Kuṇḍalinī, your own Mother. And She is the Mother of every individual, just waiting for someone who is authorized by Divinity, to be able to give you your second birth. But there are so many people who are self-certified, second birth, they are born again and this and that. But as a result of the awakening of the Kuṇḍalinī, as I told you yesterday, you must become, again I say, you have to become collectively conscious, means you should feel on your fingertips, the sympathetic nervous system of others and your own. You should feel the defects of your Chakra and you should find out what's wrong with your self and what's wrong with you.

Now the modern Sahaja Yoga has done only one great thing is that it enlightens thousands of people.

Because without enlightenment, if you tell somebody, “Don't do this, this will spoil your balance” people will not do it. But if Kuṇḍalinī is awakened, then the Dharma gets enlightened within you. And I don't have to tell anybody, `Don't do!' They just don't do it. It just happens automatically and that's why first let the light come, maybe it is very faint, maybe it is slight there, maybe that you do not feel much but you start feeling the problems that you have. And because that you separate yourself from your Self and you can witness yourself, you can very easily locate your problems and if you know how to cure them, you can *[UNCLEAR]*. You, yourself, try to cure it. There are many people who come and tell Me that, “Mother, my Āgñyā is catching." In English, in ordinary language it means, “Mother, I am suffering from terrible ego." But, if you have to tell somebody that you are suffering from ego, better run away after that.

But this is what happens to you, you start facing yourself so clearly, so boldly and when you know the knowledge that this is wrong with me, you just start correcting. With others also, correcting them, not telling what is wrong with them, but talking on their Chakras, so that they don't understand and they can also be cured. It is not only the physical cure I am talking about. Of course, physical is the minimum that can happen.

Let's see only one point on how we can cure cancer in Sahaja Yoga? Now as I told you, there are subtle centers within us, which looks after, caters our plexuses. Now say one of the plexuses, *[UNCLEAR]* made like this, the left and

the right sympathetic nervous system and in the center you have these Chakras, also the centers, the subtle centers. Now the left and the right sympathetic *[UNCLEAR]* passing through this, creating the center and in the center is the Suṣhumnā Nāḍī. You see, the shape of My hand is also something like *[UNCLEAR]*. Now what happens that, if the energy is very much *[UNCLEAR]*, the person is very ego-oriented, he works very hard, he does this, he does that, then what happens is that the energy is pulled out of this place very much and at that time, if there is a attack from the left, then it is pushed out and once it is pushed out then the connection with the whole is lost and the cell starts living on their own and once they start moving on their own, they become malignant. Now, how do we or, Sahaja Yogis can manage to help such a person? This is a very simple thing because a Sahaja Yogi is connected to the main *[UNCLEAR]* and through him the vital energy, which is emotional, which is physical, which is mental and it is also evolutionary. All combined together is passing through him, which is called Chaitanya. When this Chaitanya is given to that point, that takes up all that is necessary and again joins back to the same point and that's how we cure cancer. There is nothing special about it, but when you say that, I know, I had a very tough time with some organization and by some doctors, very angry with Me and they threw a challenge and all.

Now, to be very frank, I am in no way want to harm. On the contrary, as I told you, this is the science of the root, while they have the science of the *[UNCLEAR]*. Only patients who are *[UNCLEAR]*, whom doctors cannot treat, I

would like to help them and the poor people of our country who cannot reach doctors. These are the only two areas I catch and the rest of the rich people are available to you. I do not have to, in any way, disturb you from that? Now this left side is also very important. Right side is, when, I told you, you get extremely futuristic.

That is very important in a place like Delhi. People are extremely futuristic, they have no time, they have no time for themselves. They have no time for their family, they have no time for their children, they are busy running for *[UNCLEAR]*. Now, as a result of it, what happens? Now, there is one Swādhiṣhṭhāna Chakra in the center which caters, which I do not know doctors will agree, but it does, caters to a very important function is to transform the fat of the stomach for the use of the brain. Because you know that the brain is made up of fat cells. Now this function is one of the important for this particular Swādhiṣhṭhāna Chakra, which, of course, in the gross looks after the aortic plexus. Now, when you overuse this center, for only this purpose, all the rest of this functions, become subsidiary and sometimes becomes *[UNCLEAR]*.

Under these circumstances, such a person must suffer either from Diabetes, because it caters to liver, to pancreas, to spleen, to kidneys and to the ovaries and some parts of the uterus, in ladies. Now, when a man starts using too much of this center, then he can have any one of this problems. For example, he could be a liver patient and doctors do not discover liver troubles till one gets *[UNCLEAR]*. He might develop a diabetes, he might develop a very serious disease called leukemia

because of the spleen trouble, he might develop intestinal trouble and also kidney, so the kidney trouble of high blood pressure.

So when you reduce it to its roots, it comes to one side, the gentlemen will come to the right side. If you can cure the right side, you can cure the person of all these diseases. But if he goes too far and escapes all these things, then he gets a heart attack. Heart attack due to over-activity. Over-activity one can get a heart attack.

Now the left sided people are those who do not take sufficient proteins, have lethargic organs, lethargic organs by which, you can say, you develop *[UNCLEAR]* in the heart, You can develop *[UNCLEAR]*, it can give you all kinds of skin troubles, like allergies and all that. Other problems of lethargic spleen, lethargic pancreas can develop if a person doesn't eat sufficient proteins in life, or he is too much left-sided, too much emotional, always thinking of the past, as we Indians are more glorious in the past and future is all in the dark. Such people do develop a problem in the left side. Now, if we reduce it to the left side and if you know how to cure the left side and nourish it, you can solve the left side problem as well.

Now the worst problem at *[UNCLEAR]*, is wrong attachment, to wrong type of people who talk of God, who indulge into anti-God activities. Those who indulge into anti-God activities and become Gurus, can give very serious troubles, mostly in the left side and some on the right side. One can get a heart attack, one can get a cancer, one can get leukemia, all kinds of left sided problems can come from these Gurus, because they mesmerize you and in mesmerism, they put some of a thing, the same

protein that doctors have described, into you, by which you get into trouble. People develop all kinds of nervous troubles, which cannot which cannot be cure and also they develop a nervous spleen, a nervous stomach, all these nervousness comes from that kind of an unknown attack about which you have made no inquiries and found out nothing about.

I am not only dealing, here with you, about the mental or the emotional. I am not only dealing with people who have physical problems. Now, we have got, as we have discussed yesterday about Yoga, I told you that Asthanna, is eight fold, its not only one, that you start doing some exercise. It is not at all that and it is a *[UNCLEAR]* of it and one must know the science of that also that unless and until the Kuṇḍalinī rises, which is described as *[UNCLEAR]*, means establishment of the Īshwara within you, unless and until the Kuṇḍalinī rises, any exercise you do is absolutely indiscriminate. For example who are left-sided should not do any exercise forward bending, those who are right sided should never do any exercise that is backward bending. But there is no discrimination in the so called Yoga that *[UNCLEAR]*.

So anybody who wants can gather into these sciences because we have not paid attention to understand that it is so well organized, the science of God's powers are so well organized. They are so accurate and so absolute that there is no change. Like you cannot get theories of Einstein, *[UNCLEAR]* by another one and theories on somebody *[UNCLEAR]* by another one. Einstein, of course, was a realised Soul and he did talk of a macrocosm and a microcosm, which is very close to Sahaja Yoga and once

you get your Realisation, the microcosm, the cell becomes the whole and that is what exactly becomes to you, when you get the Self-realisation.

Now we have got these six Chakras, on top of the Mūlādhāra, Mūlādhāra is the first Chakra, which is the very important Chakra and which is the center of innocence. I wonder how many people understand the value of innocence? In the West, specially I was shocked, the way they are playing with their chastity, there is no sense of chastity left in them. They don't know what they are playing, they are playing with *[UNCLEAR]*. And that's why now they have horrible diseases, incurable diseases and I don't know what kind of an eruption is going to take from within. People who fall into parapsychology and all that, these are just like that, will die just like that, without understanding how they are done? All this things must be understood properly, what these sciences are? What these *[UNCLEAR]* and all these occults are and how they harm us? Unless we don't know about these things we cannot administer human beings properly.

We will not know what *[UNCLEAR]* they are working with and how to cure it? The only solution, I see, is that we all receive our Self-realisation, which is the collective consciousness within ourselves. We become collectively conscious when we become the Spirit, then we understand others, we understand ourselves.

Now these six Chakras, I'll be telling you tomorrow about, in very clear, concise, what these Chakras are? And how they are responsible? I have told you about the Mūlādhāra Chakra today and about the Swādhiṣhṭhāna,

but about the Nābhī and all others, I'll be explaining to you all tomorrow. Thank you very much.

Contents: 1984-03-14 **Conversation with Sahaja Yogis, Yogi Mahajan's House, Evening Program, Friends Colony House, New Delhi, India**

There you should meet some people in a closer way because when we have programs is very difficult to have contacts so closely as that. Now today we have people here from abroad representing many countries; then we have people from the Government and we have other friends who are interested in Yoga work.

[UNCLEAR], can you hear Me?

Sahaja Yogi: Yes.

Shri Mataji: All right.

Sahaja Yogi: Mother... [People are talking in the background.]

Shri Mataji: Now, this kind of a group is very good to have an intimate knowledge about Sahaja Yoga. But the problem I face today is this: that there are people who are at different levels of Sahaj. Then people start receiving vibrations feeling the Cool Breeze in the hand, feeling the Cool Breeze coming out of their heads which is described by Ādi Shañkarāchārya as the Chaitanya, Saleelām, saleelām, the Cool Breeze, the Cool Breeze of the Holy Ghost. Then it is just an experience of achieving what is Vaid has said, Vid, that you know on your central nervous system that something is happening to you. But that's just the beginning. It's just started that you have started feeling it around you, coming out of your heads and then unless and until you develop a greater

sensitivity of understanding how it works, how we have to manoeuvre it, how we have to work it out on ourselves and on others; the deeper movement is extremely essential.

Now there are people here who are very deep, extremely deep. And there are people who have just joined Sahaja Yoga sort of thing.

So, I'll try to make it easier for all of you to understand that this is just the knowledge of the roots. Whatever knowledge we have outside even about religion is the knowledge of the tree which is apparent shows Shabd Jālam and all those things are outside. But this is the knowledge where you have to grow deep into your roots. And for that you have to become a subtler being. Unless and until you become a subtler being you cannot go back. Now if your attention is so diverted with outside things and you are so much worried about these outside so-called worries, how to take your attention inside is the problem. And those who are more involved with this are rather difficult but some of them who are very much more involved are the easiest because they are fed up; they are tired; they want to stop their disease; they think that it's time that they should pay some attention to themselves. At that juncture is easier.

So most of the Western people are from that lot where they got just fed up.

While the Eastern people also, who have their traditional understanding that the only think that is going to help us is the manifestation of the Spirit within us, also they try to see, they try to find out through reading, through doing all kinds of other things. But the only way it can

work out is the ascent of the Kuṇḍalinī. It's a living process of the ascent of the Kuṇḍalinī. Like a sprouting of the seed is done only by one. If you give a lecture to the seed, if you stand on top of your head it's not going to sprout.

It's the Mother Earth has the capacity to sprout it and that's what one should see.

In their seeking people get misled.

Sometimes they feel that “We have to seek the peace." Sometimes they feel they have to seek, sometimes they think that it should give you money; it should give you other things that we think important. Or some people say that “So I have to have a promotion in life” or say, “I have to have a job." And all sorts of things people come for, good health, all sorts of things people ask for.

So as Kṛiṣhṇa has said, “Whatever is your akars kamatiesor any way, it can be fulfilled." But the first thing is for anything: you have to enter into the Kingdom of God. Supposing I am a member of or I am the citizen of India. Then I am entitled to all the privileges of an Indian citizen. In the same way, when you become the citizen of God's Kingdom then only you are entitled to His blessings. That's why Kṛiṣhṇa has said that, “Yogakshemam vahāmyaham", “First Yoga and then change." Now here where we, our country has failed completely that we do not understand that our heritage is this: that we have to have our Self-realisation. This is what we have to have, all of us. As Indians all our traditional behaviour has been towards that. If you read any saint anywhere you'll be surprised that they all were realised Souls; they had no problems, they were not to

be told, `Don't do this. Don't do that.' Whatever they did was absolutely correct. You didn't have to tell them, `Don't take this temptation.

Don't serve here or don't behave in this manner.' Whatever they did was absolutely correct, one with God. Why? Because they're one with their Spirit which guided... [GAP] So this is what is our heritage as Indians. And we have the knowledge of those roots in our country. The Western people have to learn from us. They don't have this knowledge. While our people who are educated or so-called intellectuals, you see, they're trying to follow the Western. Now what have the West got, you just see the complete picture of the West because I've lived there, I know what it is. It's nothing but they are going steadily towards a shock of descent, absolutely. One must understand despite the fact they have been telling us story that they are very affluent, this, that. What is there is no sense of chastity. They have no sense of chastity. They have lost completely the sense of chastity. Their women are just glamorous and nonsensical things; there is no sense of tradition. They have... the quality of human beings is wretched, absolutely wretched. They might be affluent, agreed; they might be people who might be doing well as far as the outside is concerned, but the tree that overgrows so much that it loses its relationship with the roots is going to be destroyed. And that's what I can see clearly, what's happening in the West. If you go and study the young people in the West, you see, you are just disgusted and frustrated with the kind of a development they have had. They are saying that “We are just trying to find a way

and method how to commit suicide." They are all thinking is the books and books and books; how to commit suicide, which is the best way to commit suicide, which are the best spots to commit suicide. You can imagine where their mind is going after all these affluence and everything.

Now we are the one who can provide solutions for the emancipation of the humanity. But while we, one side we are trying to follow these people into the disaster where they are; the other side we are trying to talk of idealism. It's not talk of idealism or ritualism or of big, big Shāstras but it is get into it, what we call the Kruta. Now the Kali Yuga is ending up, actually Kruta Yuga has already evolved through it where this All-pervading Power that you feel is activated; is acting and is working out. And it is such a wonderful thing to see how It works. It works in every walk of life, in every thing that you do and It is for you to see how It works. But first of all you should be solid members of the citizen of God. Otherwise if you are not that, you are nothing. You will have no blessings, nothing; you'll be always in a mess and then you'll say, “Mother when we came to You we got Realisation still nothing has happened." How far have you gone? Have you established yourself as Sahaja Yogis? Have you really established yourself or you are just having a little, sort of a past time with Sahaja Yoga? You cannot. You have to take it up seriously and work it out then you'll be amazed the amount of miraculous life, the fantastic life, the all powerful life you'll enjoy and the righteousness and the virtuousness that is within you will glorify you. It will never make you depressed or disgusted but it will glorify

you and you will find the whole thing, such a meaningful thing. Actually this is the greatest Swārth, `Swa' `arth' means where you find the meaning of Swa. But if our brains are built with the idea of so-called development, so-called this and so-called that, then it is better that people should go and see the developed countries and learn from them what they have got. But if you just go to the cities you won't find. You'll be quite surprised the way they have much more cars going like this making much more noise than they are doing here. And you can be very much surprised the way they are developed. But the way they are developed, there have become absolutely *[UNCLEAR* mad]. It's nothing inside; it's hollowness inside, absurd.

Now the... yesterday as I was telling to them the reason why the Western society has gone back far is because their accent is on individuality. Everybody's an individual, you see; even a garbage cleaner will argue out with somebody. It's a... everybody is an individual. “What's wrong?" What's wrong is their mantra? And there everybody is an individual you see, going. But they don't bother about the maturity.

That's what I said, “That a tree must have a proper maturity to bear first of all the flowers and then the fruits." And when the fruit ripens then only it becomes an individual in the nature. But while here a little child becomes an individual starts going on an individualistic life.

So this is the reason why they are so abandoned and people are amok.

If you go in England I tell you, you can't walk alone anywhere. You'll be...

Somebody will take away your purse, they'll take away our bangles, you can't walk you have to go in the car. Of course in New York you can't do it at all. If you go to Russia you'll be amazed people just look as if their eyes are popping out with fear.

So it is only out of fear if somebody's good, it is not goodness. Neither because they're abandoned and this thing they had they think they have achieved something, it's not also goodness.

So it is both ways I think, both the people who experimented with so-called abandonment and fear have failed completely in their achievements.

As Indians I think it is our duty to see that what we can really substantially give to the whole world is this, not other things that we are thinking about. Is the quality of life within and that we have and we should be able to imbibe those things into those people because they are the people who are aghast, all right? But what they need is the source of joy, the source of peace and the source of knowledge. And the knowledge is not what brain tells you, is not. It's a limited knowledge here; is all Avidyā.

Soordas after writing Susagar says: “Soordas ki sabhi Avidyā door karo nandlal” this is all Avidyā. Vidyā is only one where you know God's laws. Then you actually become the absolute and you know His laws how they work and you know the methods by which, you work it out, is the Shuddha Vidyā. If you do not have the Shuddha Vidyā all other Vidyā are useless.

We can show you by example how it works. I mean it's something people can't believe. But I'll give you an example now. Recently I was travelling in Maharashtra and the belt of the car broke.

So the gentleman said, “Now we can't move because there's no belt." I said, “Just you start the car let it move." And we went like this for eighteen miles and after eighteen miles *[UNCLEAR]* he saw one some sort of a garage or something where he went in.

So the garage fellow said “How have you been driving, we can't believe it." But we moved very well, climbed up a cart and reached the place all right.

So even in the matter you can work out these vibrations, the Power of God. As you know that in every atom there are vibrations which can be controlled if you know how to control yourself within. If you cannot control yourself you cannot control anything. And this happens; I mean so many things have happened.

Warren can tell you that when he went from India there was a strike and no petrol was available. And it so happened that he wanted to do My work there and he said, “Now Mother what to do? We have no petrol." Very little petrol was there. And he says that twenty one days the strike was on he used the car and he went to the petrol pump. The petrol pump said that, “Why do you want petrol it's all full." All these things can happen, no doubt about it. All miraculous things can happen, but the greatest of greatest miracle is this, that a man becomes transformed. A man gets his transformation. The Kuṇḍalinī transforms him completely. This is the biggest

thing that can happen, that people become Self-realised, means they become saints.

So they cannot do anything wrong. They become people who become one with the Divine. They start using the Divine Power, understanding It. And for the first time now we can balance the ecological imbalance by giving back what we have taken out of this Mother Earth, from the sky, everything... we can give it back. And this is what we have experimented and it is working wonders; in so many universities they're trying, in the agricultural university also.

But we must open our eyes. You should not be so much scientifically or hypnotized that we cannot see to the truth that can be underlined.

So many things cannot be answered by science. The other day I met one of My class fellow in the medical college and as I used to be quite a good student you see, he was surprised that I gave up medical studies. Then I told him what I was doing. He was so happy, he said, “I would like to join this and I would like to find out." Because he is a man who is very anxious. He says that, “There are so many things which are not answered in the medical science like the parasympathetic." And because we were medical students I could talk to him about so many things and he was really amazed. He said, “If the medical people could get rid of their so-called intellectual rationing for five minutes they can see there's something much more existing." And from that level when you handle situations then you'll be surprised, every sort, political, economic, every situation can be handled from that point because you become collectively conscious.

And then I would say what great poet Dyaneshwara has said of today which he calls that *[UNCLEAR* 498, posider]. [UNCLEAR, Posi] is this one when you will get the milk of human kindness flowing. That's [UNCLEAR, posider]. It's a wonderful poetry but in that he says that, “At that time when it will happen whatever you will desire that you will get, the realised Soul." And that he said that, “It will be one with the Brahma which is surrounding." You will become, so many will become one with the Brahma, is the All-pervading Power. But the biggest thing that he said describing the Sahaja Yogis or the Yogis in such a way he said that, “tsala kalpa tarun se ārav” meaning they will become Kalpa Tarus. I hope you understand the meaning of Kalpa Tarus. Aarav means forest. There will be forests of Kalpa Tarus. Even ordinary people who are supposed to be not so good for other worldly things have the all, the extraordinary so much beautifully preserved within them. While we completely exhaust the extraordinary and we become really ordinary. And that's what it is he says, “Tsala kalpa tarun se ārav." So that you become the trees of Kalpa, means whatever you desire. And then the second one he says, “Dhonatte piyu shanse ārnav." There will be the talking oceans; arnava is oceans, of Amṛuta, of Amṛuts. Imagine that's what he is describing, they will be like this. And you can see an ordinary Sahaja Yogi who is an ordinary person is doing miracles, doing such wonderful things. There's a gentleman in Rahuri who is just an ordinary village man and he's having his farm house and he is the one who has transformed over ten thousands people.

So a person can do a lot if he takes to Sahaja Yoga in a proper way and proper understanding.

Thank you very much for all of you and I would like to have some questions from you and then we can have some dinner because you all must be very hungry also.

Some questions. [Background sounds are heard.] Any questions? Question: What is the Kuṇḍalinī? What is understood by the word Kuṇḍalinī? And what are the benefits for?

Shri Mataji: I'm speaking on that tomorrow and day after and day after but I'll tell you in short what is Kuṇḍalinī. It is a Power within us in the triangular bone which is the Power of pure desire. As you know in economics that in particular a want can be satiable but in generally it cannot be satiable. That means the want that you have or a desire you have for a particular thing, once you have it then you don't feel satisfied. You want to have another, you want to have another so the desire you had was not a pure desire. If it was a pure desire then you would have been a satisfied person. But you are not. But when the Kuṇḍalinī rises then you feel absolutely satisfied. Of course, some people go up and down but some of them just shoot off and become that in such a manner that they don't need anything, they are so happy and they think, “Now we have to give." Now these things when happen that shows that this Power is the power that we have been desiring for. And this Power is the one that makes you one with the Divine. Now what is the benefit? Of course we should think that why should...? First of all it is the epitome of our evolution. We are human beings; we are in human awareness, all right? Now see a dog. If

you ask a dog to pass through a dirty lane he can pass. A horse can pass but a human being cannot. He cannot bear the smell of that place. Now when you become a realised Soul the Dharma, your valences which are ten which we call as Dharma, gets awaken within you. Then we don't have to tell you, you just become a righteous person, a virtuous person, absolutely. You see all your problems we can resolve. A person becomes virtuous, finished. Just automatically he becomes virtuous; he drops all his bad habits ninety nine percent. I would say one percent may just go up and down. But some people do, specially with the villagers because they have their extraordinary thing quite intact while we have wasted ourselves quite a lot so we just go up and down. But these people... now in the villages you'll be surprised there are I don't know how many thousands who have given up all their bad habits. Thousands have given up bad habits.

So what happens that when this thing takes place first of all your Dharma is established. Of course because parasympathetic is under your control your health improves. Cancer all these diseases get cured automatically, you don't have to worry about it. But if the Kuṇḍalinī is not awakened but somebody who has got the Kuṇḍalinī awakened can just cure that person, it's not difficult. Now like this lady who was sitting in the program yesterday. She couldn't move she was bed-ridden. Just listening to Me, because yesterday I didn't give Realisation or anything, for half an hour I spoke and she felt so much better that she could come to Me.

So it happens, one health, then mental health improves because people who are mentally disturbed you see, mad people, schizophrenic and all this, is a big problem in the West, also get completely cured. Apart from that you feel extremely peaceful and you feel joyous and you become the witness of the whole play. You start seeing the whole play as a witness. Of course externally your skin improves, your face improves, you loose about ten years of age at least minimum. Like that it works out but that's just a by-product. All these are by-products.

The main thing is that you become collectively conscious. You become. That means you can know what's wrong with another person on his centers and you can also know what's wrong with you.

So you start cleansing yourself if you know the method how to cleanse yourself. But the problem is that when the light comes into you the people do not accept it is that way and they don't try to cleanse themselves. If they try they can do it and they can be very well fast there where one has to be. But you have to little bit cooperate and work it out raising of your Kuṇḍalinī, cleansing yourself. There are so many advantages of that that it is impossible to describe in this little lecture. But I mean most of our problems can be solved by raising your Kuṇḍalinī, getting yourself cleansed.

Question: How many people who have come in touch with You in the past years have attained Kuṇḍalinī religion, who have been able to get rid of desires?

Shri Mataji: See, there are thousands and thousands; I've not made a list. I'm not interested in that way, you see? It is their own luck if they come and get it. It's not Me to

want counting them how many there are; I've not kept a file or anything. You see is like a river flowing. Those Ganges doesn't sit down and write how many come and take bath in Her, do they? In the same way I don't write; I have no idea.

If you even ask Me how many centers there are in Delhi I would not know. I don't know how many centers there are in Australia, I don't know. How many countries? I have no idea.

So for this you should consult some other people there. I have no idea of numbering. That's not the attitude at all. But what is the need? What is the need? Question: No, I... my question's that: Has anybody been able to get rid of their desires?

Shri Mataji: Yes. Desire doesn't mean that.

[The person that asked the question continued but is inaudible.]

Shri Mataji: You see the desire is... desire becomes one with God you start feeling that you must achieve God. Your so-called desires melt into one desire, all right? All of them have got that desire now.

Question: Mātājī how do You explain the phenomena of supernatural and miracle on scientific bases?

Shri Mataji: How can you blame? Question: How can You explain the supernatural and the miracle on scientific bases?

Shri Mataji: Of course you can, it is very simple. I'm not talking of supernatural because it's a funny word, you know? Supernatural means all, bhoota Vidyā, Pret Vidyā, Shmashān Vidyā. I'm not meaning that, but the Spirit.

You see it is very simple to understand. That you see you have got parasympathetic nervous system within you. Are you a medical student? Answer: No.

Shri Mataji: Then I can't explain I'm sorry. But if you were a medical student I would have told you very simply that whatever you do medically you see is just outside. You are treating the leaves but not the roots. While we are treating the roots and the connection can be established. If you were a medical student I would have explained better.

Question:... You were just talking about the matter and we'd like to know of the miracle happen with the matter like the carbon or even neutrons? with some improvement and all that.

So how do You explain this scientifically?

Shri Mataji: [asking something to someone.]

Sahaja Yogi: You had given an example that in Maharashtra when You were in a car the fan belt broke and the car kept moving. How would You explain that?

Shri Mataji: You see you cannot bring the ocean in a cup, can you? No. That's all science is just a little wee bit. You see, science just deals with one type of a power which is on the right hand side; is just the power of the five elements, that's all. It doesn't deal with your mind in the sense it doesn't deal with the emotional side. Now, can you explain love with science? Can you explain? Answer: No, that's why I'm asking You that...

Shri Mataji: That's what I am saying.

So you see science is just a wee bit of it. It is an integrated power of emotions, emotional or you can say

the power of desire, the power of action, the power of evolution and ultimately the Power Divine.

So you see how to explain it in scientific terminology you cannot. Science is something very little. It cannot explain. It is not possible because it analyzes, science goes on analyzing.

You see, you'll have one doctor for one eye, another doctor for another eye. But this does not analyze, this synthesizes. You cannot synthesize with science, that's why. You cannot explain but it works out, you can see for yourself. But I know how it works out. You see, you can control if you know how to control the elements, you can work it out. But scientific people do not know how to control the elements, they can only use it. But they don't know how to control the elements. But supposing by chance, if you know how to control the elements you can work it out. All right? How are you baby? All right? Now you may say that how to control our journalists. You cannot, you see? It's impossible. If they are off their heads, what can you do? Journalists. But you can transform them if they accept. If they are off their heads you cannot tell them you see. They have to ask for it. You cannot force Sahaja Yoga on them. And you say how to control our politics. You cannot. Politicians are politicians; they're just off their heads you just can't control them. Or the government servants, you just can't control them, they are one track people, you just can't control them. You just can't do anything about it. Because they cannot stop, you see, they are just moving speed wise that side. They won't look here and there, they're just moving this

way. But if they can stop for a while then you can manage them.

[UNCLEAR and a investment/adjustment] too. They all have one track mind.

It is a thing where you reach to the point from where you see all the tracks. It's an integration of all.

But you can control matter; you can but not human beings because they have freedom. If they want they can go to hell also. If they want they can go to God. It is their choice. You cannot force them. That freedom has to be respected. Freedom has to be respected because if you have to go to the higher freedom, freedom has to be respected. You cannot force it on him. Not at all, you have to ask for it and ask for it and ask for it. Otherwise doesn't work. It's like any Vidyā you cannot go and, an new a professor will come and touch hold of your neck and say that “You'd better study." A father and mother may do it at an early stage but a professor won't do that.

Any other question? *[UNCLEAR]*. [Hindi/Marathi. Small laughter from the audience can be heard.] Question: At our level of total understanding Is it possible for us to understand why was this world created?

Shri Mataji: I think you leave it to God. That is His whim. You see, there are... He is above us and we cannot ask questions to Him, isn't it? It is His whim, He wanted to create. He's created. He created it to create you people, to see His own image in you. He wanted to have His own children entering into His Kingdom. That was His sweet desire; any father has the same desire that he creates the kingdom for his own children and he wants them to enjoy. Have you gone and ask your father `Why did you

create us?' He just wants you to enjoy His blessing, all His powers. *[UNCLEAR]*.

Question: Does Sahaja Yoga believe in theory of Karma?

Shri Mataji: What is it? Sahaja Yogi [repeats]: Does Sahaja Yoga believe in theory of Karma?

Shri Mataji: Yes, but Karmas act in your ego because you are egoistical. That's why you feel that you have done Karmas. But once the ego disappears there is no Karma, it's Shakti. When the Āgñyā Chakra is enlightened then your Karmas and your conditionings both are sucked. That's how it opens out you. Then you are no more there, you go into akarma.

Question: *[UNCLEAR]*.

Question: Even the yogis have Ego?

Shri Mataji: They may have for the time being but it disappears gradually. To begin with, they may feel it but it disappears.

Question: Even the people who have achieved that highest still might have ego. Why?

Shri Mataji: Not, have you met some? Answer: I've not met any who is not got it.

Shri Mataji: So that's how you see, it is better to see for yourself. It is not a hear say, but see how the ego disappears. You start seeing your own ego. You don't know, you start seeing it and people really are frightened. Like somebody came and asked Me “Mother You tell me if I was Napoleon in my last life." I said, “What makes you think that?" He said “I'm quite frightened that my ego, the way I have ego and I'm very good at drawings.

So Napoleon was also very good at drawings and has such a big ego so I think I must be that." But he could see it, he start seeing it and now it is reducing.

By fighting it you cannot. Then your ego dissolves in the ego of God. Actually He's the real person Who has the real ego. He's the one Who is the doer. Like a person now, I'll tell you an example, who is going by a plane, he's told that “You should take less weight because the plane cannot carry too much weight." So he sits in the plane and puts the luggage on his head, thinking “I'm carrying the luggage." But when he realises that “It's the plane that's carrying me and my load" he drops it down. Is like that.

Those who think they are Girdhari jis holding all the world's worries on their heads, you see, should know that even if they remove the finger it will not fall on their heads.

Question: Mātājī the point that I have reached I keep saying it now is when the original Hindu philosophy said that, “One should learn to live by the virtues described in Veda."

Shri Mataji: Yes.

Question: That is the theory of Karma. [The person that asked the question continued his phrase.]

Shri Mataji: At the first verse of Veda it is that, “If you have not known the reality, if it is not Vida to you, the whole Vedas are useless." Whole thing has worked out only to know the reality. That point everybody misses. Without knowing yourself you cannot know anything. That's the point they said throughout. The whole Upanishads are that but people miss it. You see, now like

before coming to Delhi if I start just imagining that I'm in Delhi, I am going to friend's colony, I don't go, isn't it? In the imaginary world no use running about in the Shabd Jālam. The person who really gave a proper shape to Hindu philosophy is Ādi Shañkarāchārya. He is the one who said that, “This Shabd Jālam must be given up." All the people talk, talk, talk, talk so much but nothing in their lives, no transformation, nothing. They get no powers, nothing. What's the use of just talking, talking? Philosophy is not talking it is something achieving, to be. That's what is the real philosophy of Vedas it's not just talking. Actually nobody has right even to do a Havana unless and until he is not a realised Soul. All this Bhūr Bhuvah Swāhā whatever is said is all the seven Chakras. Nobody has right to touch that fire because you cannot enlighten the fire.

When you get Realisation you will be surprised fire gets enlightened and you put your hands towards the fire you might get a black soot coming out of you. It's all artificial. Whatever people are doing they're nothing but mental feats you see? Yawning and going mad. And all such people I've seen when they get old they just talk, talk, talk, talk and give headaches, that's all. There's nothing that happens to them.

I've seen so many like that, mad. *[UNCLEAR]*. They'll sit in a bus, they are talking; they are getting down they are talking. You ask them `What's the problem?' they are praying to the Gods. *[UNCLEAR]*.

Mental feats, just Shabd Jālam. *[UNCLEAR]*. How can they be so hot-tempered if they are reading Gītā or if they are reading Vedas? Extremely hot-tempered. All right as far

as we are concerned I've seen such people give such heat. Tremendous heat, they... and they get heart attacks, all kinds of problems, mad. They are really mad in old age if you see, sit next to them you'll find Oh, God.

Sometimes start wondering why did they read Gītā or Vedas? *[UNCLEAR]*. They cannot smile, they cannot laugh, they are very serious people. The symptoms are like this, you see? There's one fellow I met, the one who is a great follower in Vedas. Harish Chandra his name is. I tell you if you can sit with him for half an hour I can give you hundred rupees, You cannot. Just treat you off. There's nothing sense he talks, he just goes on jabbering. And he's hardly sixty years of age. If this is his case at sixty years what he will be at seventy years? God alone knows. Absurd, absurd people. Very quarrelsome, fanatical, how many *[UNCLEAR* sides], how many things? He is the master of all the Shāstras, the Shariatas. Now he's such a stupid fool he doesn't understand that Shariat you see, they don't even see the right thing. Like the Shariat was written by, in the beginning of the second chapter of the Bible, Sharia that you should kill a person who behaves like that because when Moses came down He found that the people were so corrupt and so much degraded that He started the Shariats. And He put down “This should be done; that should be..." in the Bible. But the Christians don't follow it, the Muslims follow it. Imagine the stupidity of people. In the Quran there is no Shariat just imagine, all these horrible things of cutting hands, cutting neck and all that is in the Shariat in the second chapter of the Bible.

That is the Torah, is the Jews. You see, Jews started these five books. *[UNCLEAR]*, they call it. And the Jews should follow that, is the Muslims who are following. Mohammad Sāb gave Quran *[UNCLEAR]*. But they have following the Shariats of the second chapter of the *[UNCLEAR]* as they call it. Torah. They call it *[UNCLEAR]* Torah or the Bible according to the religion they follow. Because these five books are the basics. Then somebody took to Mohammad Sāb, somebody took to Jesus Christ and somebody took to Moses. Shabd Jāl.

Old age is dangerous with such Christians. How many is eighty years, God save everyone. As they grow old they become hotter and hotter, terrible people, hard-boiled eggs. You can't touch them. Even if you have to wake them you have to use a barge pole. *[UNCLEAR]*.

[UNCLEAR].

[Indian gentleman is saying something in Hindi/Marathi and Shri Mataji replies in Hindi/Marathi.

This happens twice.] [Shri Mataji is talking about Her book Advent. There's a very good chapter on tāntriks.] *[UNCLEAR]*.

So is there any question from the Sahaja Yogis?

Sahaja Yogi: Shri Mataji, should we use any technique to train our attention?

Shri Mataji: He's asking Me a question. Should we use any technique to put our attention? Yes, there are many techniques as you know in Sahaja Yoga. As Nām Deva has said that, “A boy is flying a kite in the sky and he is talking to everyone; he's listening to everyone; he's playing with his friends around but his attention is on the

kite." Try to put your attention to your Spirit, simple. In everything if you try to just put your attention to your Spirit now you can do it because you have gone inside, your attention has gone inside. It will work. Ha.

[UNCLEAR] vibrations? Now put not like this, like that. Aa.

Your attention is much better but they are all worried when they go back to these advertising companies what will happen. Like their countries are real nothing but advertisement, this, that, that, that. Just see to the Mother Earth. To control your attention is the best is to see the Mother Earth. Sahaja Yoga techniques are very simple and spontaneous and living techniques. It is not something very difficult.

[UNCLEAR]. [it seems that Shri Mataji is saying something to someone. Background noise.] Question: How can we become deeper?

Shri Mataji: *[UNCLEAR* By seeing everything without thinking].

[Additional Question:] Question: Why did God create?

Shri Mataji: It is his whim! He wanted to see his own image. He wanted you to enjoy.

Contents: 1984-03-17 **Holi Pūjā (Holi Day), Sahaj Temple Ashram, New Delhi, India**

I wish you all happy Holi.

This is a wonderful festival started by Śhrī Kṛiṣhṇa long time back.

After the advent of Rāma, who was a very serious gentleman and who believed in a very sacrificing life of a benevolent king, when all these things were so much

prevalent in the air that one has to be a benevolent person, one has to be charitable, one has to be sacrificing, one has to be serious and like the king, the whole atmosphere of the society was very serious atmosphere. Anything extreme if we do, we go to the wrong side as you know.

So the whole society became a very serious society. In that seriousness it started taking to lot of ritualism. And the rituals of the time that were very absurd and funny. Like you shouldn't eat this food, you shouldn't touch this water, somebody should not touch you, you must take your bath and in that wet clothes you must cook. All sorts of absurd things they started of as the, what you call the Dharma, they thought this was the Dharma, the ritualism of the worst type started.

So much so that the brahmins in those days were not realised Souls. They started giving them lot of ideas that if you give a cow to the Brahmin you will get moksha, or you must give this to brahmin, you must do that to brahmin. *[UNCLEAR]* was all become a beggar's house.

All these upset Śhrī Kṛiṣhṇa very much and as you know, all incarnations follow the `Samayāchār'.

Samayāchār means at that moment at that time whatever is the situation. And the samayāchār at that time, He found that He had to out all these vidhi-nishedhas by which you say this is good that is bad.

Now, this happened actually in the North [India] when Śhrī Kṛiṣhṇa was here. And Śhrī Kṛiṣhṇa never went down to the South [of India] till He became the King.

So again *[UNCLEAR* we can] find the difference between the North Indians and the South Indians that the South

Indians don't celebrate Holi much. They celebrate other festivals but not this Holi festival so much. And here you see as everything has a bad result, somehow human beings know, whatever one does, you get into a bad result.

So when Śhrī Kṛiṣhṇa said it is a leelā, it is God's leelā. Everybody thought He is the `Leelā'. He became the leelāmayi.

So the gradual settling of this another abandonment, sort of temperament started in the North [India]. That's why you find the people in the North [India] are frivolous compared to the people in the South [India]. The South [India] can be, you can call them absolutely sometimes jaḍa, ritualistic, very much bound by rituals. While in the North [India] you find people absolutely abandoned, nothing in between.

So this abandonment came in the north quite a lot, though some of the people stuck on to these very ritualistic things.

So we had two types of people here. Those who were just frivolous, they would only celebrate Holi, nothing else. For them no other function was higher than the Holi.

Because Holi was frivolous and in the Holi they thought they can also take to drinks, they can take bhang, this, that. Actually Holi hasn't got that significance that you can take those intoxicating drugs. It is not so because Śhrī Kṛiṣhṇa never drank. It is only the Shiva, who never incarnates but who drinks, means in the sense that He consumes all the drugs and all these intoxicating things within Himself.

So there is no sense. I can't understand why people started taking bhang during Holi because they must have thought that if you have to be abandoned, you have to get rid of all your inhibitions, it is better to take to some sort of a drug like bhang and go mad and amuck. But it was never the case of Śhrī Kṛiṣhṇa. He never went amuck.

So the whole system has been misused in the North [India] and same in the South [India] that people have become extremely ritualistic, just jaḍa, on the left side. And the North [India] people are right-sided without any inhibitions about this. And that's why you find that the North Indian people do very well in the Western countries because they can adjust themselves better.

Now this frivolity is not the game of Śhrī Kṛiṣhṇa. He is never frivolous. He plays. He plays tricks but never frivolous. Inside, He is so deep. You know He is Yogeshwara. He is Yogeshwara and how can Yogeshwara be frivolous man? He doesn't do it for frivolity. But He plays it in such a way that people, who get into problems, He tries to play tricks in such a way that the tricks are not felt injurious, or blatant, or in any way dangerous, or shocking to the people who need His help.

So He does it in such a beautiful manner that He can just turn His finger and He can create a situation in which a person becomes aware that He is *[UNCLEAR* doing all].

Now you know that I played so many tricks Myself and you have all experienced those tricks that I play upon you. Now this is just to kill your ego, to kill your overastuteness, or overemphasis on laws and order,

kaida kanun. And some people are extremely strict about time.

So to put them out of time, you see, you can play lots of tricks with their watches. You can play tricks with their timing and all that.

So to take you beyond, to take you beyond the time, the Guṇas and the Dharmas, Śhrī Kṛiṣhṇa created a new awareness of leelā in which the whole world is a leelā. But it's only leelā for people who are realised and settled in Realisation. Not for people who are still imbedded in this ignorance. They are not the one who can do *[UNCLEAR* this].

So the Holi became a game. Holi was played only by *[UNCLEAR Gopa* and Gopis]. They were realised Souls.

So they played the Holi was alright. But nowadays everybody thinks he can play Holi's.

Whatever sins they may commit, all their lives they can do the Holi. It is not allowed. It is not allowed to people who can, everybody cannot play Holi. It is only for the realised Souls that they can play Holi.

Then in this way you have noticed that when you are realised there is no jati-pāti. You all become one caste. You are yogis. You all become yogis. There is no jath, there is no caste. There is no community.

There is no race. There is no consciousness of class and this class and that class. Is all finished. You all sit together in one line thinking that you are a yogi. You will see a person coming from a very rich heritage, somebody who is earning thousands of rupees or pounds and the another one is a very ordinary man, might be a

just a sweeper also doesn't matter, he is a Sahaja Yogi. He is a Sahaja Yogi. Among Sahaja Yogis there is no caste system. There is no higher and lower ranking or anything like that. But you have to be a Sahaja Yogi to play the Holi, to meet each other with love and make love in a way expressed that people feel that you are a recipient and a giver of love. Like people embrace. Men embrace a men, women embrace women and they also... That's how you pass your vibrations *[UNCLEAR* through it].

That's how you express outwardly your love to your own body because you are all part and parcel of the same body. And if you are part and parcel of the same body, then this hand must look after this hand, this hand must look after this hand. What you are doing is just you are circulating your love into this Virāta's body and so that the whole body feels the oneness. That's the situation *[UNCLEAR* it is].

Then the colours are, the colours are all representing your Chakras. These are all the Chakras as you know.

Every Chakra has got different colour.

So what happens? These colours just get distributed in the air, in the atmosphere. During Holi time you *[UNCLEAR* know you] are representing those colours which are completely permeating into the atmosphere.

So this is another thing when you play colours. When you colour another person, you are just expressing that these, your Chakras will be blessed. Red colour is of the Mūlādhāra. All those colours that you use here are of different Chakras.

So just you are making the whole expression of your love that let it be you become completely filled with red

colour, means innocence, means innocence. Because as a child in the womb of the mother just sees the red colour of the mother, colour of the blood.

So like that you see different colours are spread on the face. And *[UNCLEAR* abhira] is the green colour of the Guru Tattwa. Like that all these colours have got significance that they are the colours of your Chakras which you are spreading all over to your friends, to your other brothers and sisters who are Sahaja Yogis.

So it has that symbolic expression that you are spreading your, actually the essence of your Chakra, the basis of your Chakra, the colours of your Chakra, the fragrance of those Chakras to other Sahaja Yogis.

You just permeate, permeating. I don't know in Hindi language if there is a better word like in Marathi `ud-har', udahr. `Udhar' means just...

[Hindi.]... red colour, is the sign of innocence.

So Kabīra says that, “You put me into such a colour. Oh, the one who is going to colour me is the One." Rangaraj is the one who colours things.

So He says, “Oh Rangaraj, make me so that the whole thing becomes red, innocence, fills me up with complete innocence." And innocence is the one he has asked for to be filled in. And same is with Śhrī Kṛiṣhṇa that He played with all these different colours to show that there are different Chakras within us apart from the red and the others that are there. All of them play a part to create a beautiful joyful personality.

So the people who are of eccentric nature, one sided, one-track man and unusually serious, if you see a

conference of some, say, Western people, they are sitting very seriously like, you see, thinkers. And when it comes to frivolity, they are so stupid that I have seen eighty year old people doing the shake dance. They are already shaking, you know [laughing]. Plus they are doing the shake dance with a stick in the hand, you see, shaking [laughing]. And very well placed people, very well placed. They behave in such a stupid manner that you can't understand. Either they become stupid or unnecessarily serious drawn people, you see, showing-off as if they are very great thinkers.

So these things are not necessary at all to put up a show. But it is something within yourself that you feel joyous and that a child-like. You *[UNCLEAR* are] become child-like. Your smile, laughter, everything is child-like, innocent and that's what should happen to all of you.

Now the Holi day is to be celebrated in Delhi. I'm very happy because in the North [India] only Holi should be celebrated I think because here it is Śhrī Kṛiṣhṇa *[UNCLEAR* where] did His leelā and He had this Holi time. But now I'm going to tell you one more thing about Śhrī Kṛiṣhṇa which is important.

One must know, which I never have a chance to tell you about health problems we have from the wrong ideas about Holi or about Śhrī Kṛiṣhṇa. Firstly, the foremost thing about Śhrī Kṛiṣhṇa you must know that He is Yogeshwara. He is detached. He is pure.

So those who play Holi, sometimes I find they get involved *[UNCLEAR* with people] in a funny way. That sort of a thing is absolutely not the Holi. It is anti-Holi. Actually it is Satanic. Because whatever is not liked by

Śhrī Kṛiṣhṇa if it is done, then it is Satanic. They play Holi in a way that they try to have their perverted temperament expressed. Secondly, the people who play Holi should know that they must put some oil on their body because Śhrī Kṛiṣhṇa likes oil. They must eat some butter. Then they, or if they want, they can have some ghee put in their nose which is very important and something in the ear to be put, some oil, that is very good. Because this is all drying things.

So if you put all these things, then your Viśhuddhi Chakra *[UNCLEAR* will improve]. Specially the Viśhuddhi Chakra should be covered with lot of ghee or with what you call the makhan, is butter. You put it here and rub it on here *[UNCLEAR]*. Those people who have Viśhuddhi Chakra... If they do it every day, two drops of this ghee and in the ear also one drop of oil and here little ghee or makhan, the butter, is put here every day, will help you to have, at the back also, to have a very good Viśhuddhi.

Because Śhrī Kṛiṣhṇa was fond of it. And He believed that the ladies of, the milkmaid from Gokul used to take all their butter to be sold in Mathura where these horrible Rākshasas were living and they were, you see, nourished with this butter. And this nourishment of the butter was making them very strong.

So that's why He used to manage to steal the butter of these ladies for His own consumption and for the consumption of all the other children of Gokul because it should not go to these Rākshasas. And this was His idea.

But the essence of His life is this that one should understand that Śhrī Kṛiṣhṇa what He preached is that for a higher goal you have to sacrifice the lower goals. This

is the main thing, Tattwa of His life, the principle of His life. For a higher goal you can sacrifice the lower goal. Like the lower goals are, now some people are, now this *[UNCLEAR]*. *[UNCLEAR* Take], the case of He is stealing the butter. He just stole butter, nothing else. Because butter was very important for the Viśhuddhi Chakra of the Gokul people because with that they would have developed their self respect, their courage and they would have raised their neck against these horrible Rākshasas in Mathura.

So it was important and *[UNCLEAR* vital/inviting] in those days to have this butter for the people.

So the principle is you should not steal.

Then how you can you steal butter? But the higher goal is to preserve the Viśhuddhi Chakras of the people, so for that sake you can steal. But in our country, you see, everything can be understood very well in such a manner that you pervert it. Like now people think if Kṛiṣhṇa used to steal, why not we steal? We can steal government money to fill our tummy. We can steal all their money from the people and have our own children being cropped up. This is from higher goal to the lower goal. Just the other way round.

So perverted. That from the higher goal to the lower goal. Now, for example, if you have to do something, say, for Mother, that is much more important than anything else. But when it comes to doing, first do for yourself and lastly for Me. That's all. And this is what I have to tell you today about something important which I should not mention.

[MISSING Hindi for more than 15 minutes.] If you go to England, you can wear a dress like English. Because now that dress which-ever has come traditionally to them, has come because that suits that country. And when you come to India dress up like India. If supposing if you have to wear three-piece suit here with a tie, I don't know how many of you will exist to go back. We'll have to just send back your suits. Can you think of three-piece suits in India? It is so comfortable, you see, to be dressed up like the way the country is. And if it works out that you can keep up your dress here, you can. But you cannot. You know that very well. It is very suitable, comfortable dress that you have here and is better to have a comfortable dress here where the tradition has brought it to that level that you wear such and such dress.

So what I am trying to tell Indians that they need. Now you all can say that you don't like Indians, Indian ladies wearing frocks, do you? You would like to have Indian ladies wearing frocks? [Pausing and people denying.] That's it.

So what I am trying to tell them that it doesn't suit. Your face is different, your style is different, you should wear your own dress. Instead of we are trying to follow you in your dress, in your behaviour, in living.

Some British parliamentarians have come to My house for dinner. He said, “Yours is the only house we find is Indian. Otherwise all the Lords who have disappeared from England have to come to India." I said, “Why?" “See, they have all the styles, the napkins, these, the bearers everything done in that way." No thali nothing,

you never see plates, the courses and even in England you don't find these things.

You see very few people have courses and they converging these spoons, forks, this, that, all things done in very meticulous way. Just like the English. Imagine. How can you have Indian food in that fashion? Can you? Imagine Indian food in courses [people laughing]. First you'll get rasam. [Laughter very much.] Then idli. Then this, then that. And the Madrasis [Chennaiis] will say, “Baba, get away from here." [Laughing.] It is better to have plantain leaf than to have this course business. [Laughing.] How can you eat Indian food like that? And with the chapattis, you see, they start the course in a North Indian style. Then first the chapattis and with that only vegetables. Then with something else, something else, you will say, “Now, we are fed up, we're finished." With chapattis you eat with everything whatever you want. There's a choice you have. Now you start the courses here. This is the trouble is that we do not understand the value of tradition in our country. We should understand the value of our traditions and every country we should understand the value of traditions. Whatever are good traditions are to be taken into consideration, are to be used by all the Sahaja Yogis.

As I told you that Kṛiṣhṇa's main essence was to sacrifice the higher goal, no, just the other way.

[Laughing.] Is Indian style is to sacrifice the higher goal for the lower goal, you see. But Kṛiṣhṇa's style was to sacrifice the lower goal for the higher goal. He didn't believe in anything, you see. He didn't believe in time, He didn't believe.

So some people, you see, all the time slaves of this thing. So I played tricks.

As I told you, He didn't believe in time. The way He did everything was so child-like sweet, beautiful and the way He used to turn round people. You see, like Sudāmā, when he came to Him to meet. Imagine.

Then Sudāmā, an old friend of His, with all tattered, torn clothes he comes to the main door. He rushes there with all his ornaments, everything. Just hugs him *[UNCLEAR* into...]. Otherwise, you see, here, say, if you meet somebody. I know some of the ministers who were just like, they used to wear half pants before Me, little, little boys you see. But you go there. “It is alright. Make Her sit there." Then you sit down there for two hours in a cold room, then they just come and look at you and they say, “I don't recognize. Who are you?" Your own brother can do the same. This is the country. Now so this is not the thing, you see. He, for Him love was the main thing. How to express love, how He rushed out with all His ornaments, everything, without wearing chappals He just rushed out opened the door, “Oh God, My great friend has come. Ah!" He didn't see whether he had taken a bath or not. He is coming all the way. Here people will say, “Oh God! My sarī will be spoiled. My clothes will be spoiled. It should be clean. It should be *[UNCLEAR* this]." Don't learn all these bad habits. In love nobody is *[UNCLEAR* different]. In love nobody thinks of these things. What is `clothes', can be changed. But a heart which is hurt, we cannot change. We hurt the people for small, small things.

Like I knew another horrible lady who lived in America. She looked like a *[UNCLEAR* aryer] all the time to Me otherwise. But she used to think no end of herself. She used to tie up her hair like this, you see. She had her own style. I don't know what it was. I couldn't locate that in America. And this one was so particular about her time, you see.

So one day she invited us for tea and we all were to go. Now Myself and Mrs. Nagan Singh, you see, very nice and dignified lady and she is a Mahārāni and all that and we were rather late because our husbands didn't turn up. They're busy with their work.

So she got very angry. She said, “Why did you come so late? After all, you see, if the husband had not come you could have come." Again I said, “We were waiting for our husbands who comes earlier." I was so, you see, annoyed. Mrs. Nagan Singh was just pinching Me. “See” she said that [laughing] *[UNCLEAR]*. You see, Mrs. Nagan Singh couldn't bear it. She said, “We are not going to have any tea because I think we can get better tea in our house without all this talking." And we got up and walked off, see. But she was so funny and she started shouting at us. “Why did you come late?" So actually why did she invite us? She invited us for tea, to talk to us nicely, to be kind to us. Instead of that she was angry with us because we were late. Just imagine.

So we can have tea in our own house. We didn't go to listen to her angry words. Isn't it? We just went to see her.

So this is what one should understand that Kṛiṣhṇa's life was full of love. He didn't mind anything in love.

Whatever sort it was, it is all love and you see your Mother also. You know very well that I am very particular on neatness Myself, extremely neat Myself. In My house, it is a huge house you know and you should see the photographs of My house sometimes, so you will know how I lived there, extremely neat. I'm very neat and tidy. But I never tell anybody else *[UNCLEAR]*. I Myself will go and clean My own things. Today in the bathroom it was all lying hotchpotch and all that. I washed it Myself. I cleaned *[UNCLEAR* immediately]. I didn't tell anyone. I don't want to hurt anyone. Why should I hurt anyone? If I have to do, it I will do it. And even if they dirtied it, I never tell them that you should not dirty, you should not do like that. You see you should have that much sense that you should not hurt any one. Why are you cleaning the house? For whom? You are cleaning the house to make others happy. But cleaning for cleaning's sake has no sense. Why are you keeping the time? To keep others pleased. You are not doing it for time's sake. You are doing for pleasing others. But by that you are displeasing others, no use *[UNCLEAR* being decent]. No use doing this. I never grudge about anything, you have noticed.

Despite the fact that I live in My own private way. I live in a very neat and clean way Myself. I'm very clean Myself. You see when I cook, I cook very well. But I see people cook in a very lethargic manner. If I take any *[UNCLEAR* this] work, I do it in such a meticulous way, so beautifully. I see to it that I do it proper. But people when I give them any work, they just started absolutely careless about it. They don't bother *[UNCLEAR]*. You can't say.

So what I' m trying to tell you that it is better that you see yourself, that you look after what you want to do yourself. But don't spoil the heart of others. Don't injure others. Don't say things which are harsh. Forget it. Forget it as far as possible. Just try to forget. And this will help you a lot. Because this kind of a tension mounts up very well. And this is what Kṛiṣhṇa hit in His life. He just wanted to crush the tension of people because of time, because of vidhi-nishedhas, because of funny ideas about religion.

All this He wanted to kill. He said, “This doesn't exist in that area where I *[UNCLEAR* reside]." So this is what one has to learn from His life that you should try to be yourself very neat and clean. You should try to be yourself very generous. You should try to be yourself doing all the work. You shouldn't say, “I was doing all this postering and this fellow didn't do." So what? Who asked you to do it? You better not. If you think you are doing something, you better not. But if you think you are doing for your pleasures, alright. If I am cooking, I just cook. I cook, I enjoy. I don't bother how much My servant has done or any body else has done. I do everything. If it comes to that, I wash and clean and sweep and *[UNCLEAR]* do everything, if it has to be done. I am enjoying. Because you don't enjoy your work, you want others to do. “What he has done? They have not done. I have not done.

So if I do, he will all not do.

So I should not do." That's not the way. That means you don't enjoy the work of God. Any work.

You can wash the floor, anything. Śhrī Kṛiṣhṇa you know that He went and cleared the [asking something in Hindi to the audience] left over food of the guests who were there. He cleaned all that. Cleaned all that.

And just imagine in India only the sweepers or somebody like that do that *[UNCLEAR]* at the place of Yudhis.t.

hira, Dharma Rāj. At his place He went and did.

So just imagine. Christ washed the feet of His disciples.

So for them no work is higher lower. It is just what is enjoyed *[UNCLEAR* everything]. And everything is great for them.

You know that Śhrī Kṛiṣhṇa's life is so full of such incidents that you can't imagine how far He has gone in showing that your position, your, what you call the money, the way you live has no meaning at all.

Has no meaning at all. It is all absurd. And what is most important is that we should not hurt anyone.

We should not trouble anyone. We should not try to injure anybody's feelings. On the contrary we should be extremely sweet. In a sweet manner you should do [things]. And that's how He judged. When He told somebody some work. And He could judge a person that what sort of a person he is. Immediately He could judge that how deep the person is.

You see, with dedication, a little work... Like Rāma's life... And we have seen Shabari took out every little berry and tested it that it should not be sour. You see, like that they judged a person how sincere and devoted that person is. Little work do you do, how beautifully. And it comes out very well. If your devotion is alright, if you are absolutely

positive personality, it works out. But otherwise it will puzzle out.

You'll do all kinds of mistakes because the heart is not there.

So the heart should be there. This is Śhrī Kṛiṣhṇa's specialty that His heart was there. And in His heart resided Shiva. This time we had a Pūjā in Viṭṭhala's place because I wanted to take. Now Shiva, it is always the Viṭṭhala went to Shiva. But this time Shiva had to go to Viṭṭhala.

So that the people in their Bhakti , in their behaviour, in their everything should remember that they have to become the spirit. In Śhrī Kṛiṣhṇa's Bhakti they should know that Kṛiṣhṇa did everything so that you should become the spirit. You should not be bound by Guṇas, by kala, by anything. But you should be free people. He just tried to free you from all these things. But He didn't want you to be people of frivolity. You could be frolic. But you cannot be frivolous people. And the frivolity and all that He just abandoned. But what He wanted you to get rid of all these bandhanas which were keeping you down.

I think we have had a nice time in this Holi and we should always have such a nice time. Always with Śhrī Kṛiṣhṇa's blessings you all should enjoy your Holi. But the greatest Holi is within yourself when you fill yourself with all kinds of colours. Your nature should be such that everybody should enjoy that colour. That colour that is within you, colour of beauty, not artificial, just showing of, just giving something without any love. I tell you yesterday I went to the market just to buy some presents for you. And I just

went and actually I was just with full heart and I got exactly for the foreigners I had to buy forty-five pieces.

Exactly. And such sweet things that when you see that you are going to love it, just sweet things. I got and I just said, “See, it's My love. Just the idea that I have to give something to these people. How it has worked out." So we'll do that ceremony now of giving presents to all the foreign people because Holi is the day you are supposed to give some presents. Alright? So we have something for you to be given.

First we would like to give something to Rustom who has contributed substantially, very substantially his personal own money. I think nobody has contributed so much as Rustom has done.

So give him a hand.

[Claps.] And the another person who has substantially contributed personal money is Warren.

So give him a hand.

[Claps.] So just now we have to think of these two. But there are many who are coming up I must say *[UNCLEAR* Gavin] has decided to spare some money for the ashram and also he was...

Vicky? Where is she? Vicky also is going to spare some money for the ashram of England. Let us see how it works out. But do it with full heart because it is not yet working out. There is something wrong somewhere, I think, that nothing materializing.

So it is better to think about it what's gone wrong with it and I'm sure it will work out.

There is another gentleman here. I don't know if he is here, the old gentleman who has donated, who has made a *[UNCLEAR* will] to donate money for Sahaja Yoga. There are many people who have donated money like that. But today I think we must give a hand to Mister Venugopalan for doing the substantial work.

[Claps.] And for Subramanyam and Alan [claps] who have tried to do their level best to create this ashram. Now regarding this ashram I think I'll have to write down certain rules and regulations. Cannot be like Śhrī Kṛiṣhṇa. Because I think people do not even have yet the responsibility to understand that the ashram is a mandir, is a temple. And the way they behave sometimes in a temple is surprising.

Another person who has to be given a special ovation is Yogi Mahajan. Because [claps] he has substantially helped the whole thing. In such a way he has geared it up. And apart from that his idea about temple is absolutely correct how people should behave towards it. It should come from within yourself.

This is your Mother's house and how you should behave. You should not talk loudly. You are entering into a temple, into a church. And you should respect it. When you come in, you must respect it. Even the outside of the thing should be touched on your forehead. It's a temple and a temple of a living Mother who is here.

So you must try to respect this temple. I see people throw away things here and there. No use getting angry with them. Because I think they have not yet realised that they are the saints and they have to behave with the dignity of saints.

So this, I would say that Yogi Mahajan has really played a very dynamic role in really gearing up Sahaja Yoga here. And our Mister Varma Sāb, *[UNCLEAR* who] I must say that he has been such a help to all of us.

[Claps.] You must thank him very much for one thing. And that is the greatest thing he has done, is to give you profits in your sarī buying and things like that [laughing and clapping]. He has saved so much money for you.

Sahaja Yogi: Meticulous account...

Shri Mataji: Meticulous accounting and everything. Now you have got Rai Sāb here who is working out your Nirmalā Yog magazine. And [claps] now the postage side is increased and I think they need to increase a little postage on that.

So I think one pound more they want, is it? Normally? Three pounds more to be added because of the increased pricing and it was only three pounds. I think was ridiculous, six pounds is better. I think better make it seven pounds.

[Claps.] [Hindi.]

Shri Mataji: Now pound has come down.

[Hindi.] Now I have seen the newsletters are good and they are doing well. But you see. But what you have to do that you should have a very good articles written and edited and all that. And don't give that headache to Me, you see. Like Bombay [Mumbai] people did their own editing and they published it.

Only mistake the magazine made was the, where it was to be written for Jesus Christ they wrote it for somebody else. No. [Hindi.] In the *[UNCLEAR* Bhakti /Saṅgham].

[Hindi.] They changed it. You see, So from... I don't know about whom it was. They changed the title. That's all. But all these little, little mistakes. But otherwise you see they did it all their own and created a magazine out of it. You also can buy some magazine to do it.

Now your magaz. This is the seeds, you see, of all the seeds, like the water melons and pumpkins, the seeds of them are first of all soaked and dried. Now see the significance. It's so deep. We don't understand.

We just make it traditionally. Why? What is Śhrī Kṛiṣhṇa is the brain of the Virāta. And for the brain what do you need is fat. And the fat of the seed is the best called magaz. It's called also magaz. Magaz also means `brain' and magaz also means the `seeds', the inside of the seed, the white of the seeds. Can you imagine? That's why it was made. Now you can imagine how deeply it was thought of Śhrī Kṛiṣhṇa.

But they'll put bhang in it just to neutralise the Holi festival.

[Hindi.] It is no one can be compared with human being in their real sharp brains, how to put nose behind the... [Audience laughing.] Aaja? Or I must thank also Doctor Mathur or Apne Doctor Sāb. They are, both are looking on one side.

They are looking after the university and Doctor Nigam is looking after the, this is the, [Shri Mataji obviously puts Her attention to something] This is for the Devī. On a Holi day. Specialty is the half moon. Now I would suggest, we have to give a hand to both of them. Doctor Mathur for looking after the *[UNCLEAR]*...

[Claps.]... and Doctor Nigam looking after the *[UNCLEAR]*...

I would like also to say about Mister Gupta who comes from beyond the river, who has done tremendous work *[UNCLEAR* to us].

[Claps.] And all the ladies, I should say. Because actually in India the ladies are in a potential way very helping.

They are all working it out very well and they are very potential. They do not come forward.

So all the ladies who have helped Sahaja Yoga here to *[UNCLEAR]*...

[Claps.] And all the young boys who did the publicity.

[Claps.] [Hindi.] Of course, I've not left anybody. All the people who have helped Sahaja Yoga are in My heart. Every one of you I thank you very much.

[Hindi.] May God bless you.

[Claps.] Doctor Warren.

[Claps.] Look at these, so sweet. And coming to the, just look at these. How they are? Hmm, how sweet! [Hindi.] I got exactly 45. [Laughing and a Sahaja Yogi is saying something.] She was quite surprised, you know, she went mad. We didn't know because some were big some were small. And so on. And she said, “Are you sure you want so many?" I said, “I want all of them but count." She said “They are 45." Just think of it. Exactly! The children are enjoying.

[Hindi.] You don't get these, normally.

Ravin? Ravin.

[Claps.] Now all the men should come first. One by one. [Hindi.] All the men from the foreign countries.

That's too much.

Sahaja Yogi: Mother, some of Your children asked me to get You a present specially to do with Śhrī Kṛiṣhṇa.

Shri Mataji: You are all very clever people.

[Claps and laughs.]

Sahaja Yogi: It's a *[UNCLEAR* prayer] that we should all have detachment, so that we just witness our problems and enjoy Your leelā.

Shri Mataji: Ha. [Applause.]

Shri Mataji: *[UNCLEAR]* buying such an expensive thing for Me?

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: Oh, it's too much. You know I don't wear all that. And it's too much for you to spend.

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: I don't know how you open this, is very subtle. You have to open it, or you can wear it like that? May not fit Me? [Hindi.] You all should come one by one. All the people.

[Hindi.]

Shri Mataji: I've touched all of them.

[Hindi.]

Shri Mataji:... on a *[UNCLEAR* mass scale].

May God bless you.

[Ongoing clapping.]

Shri Mataji: Madhurya, just see the madhurya of Śhrī Kṛiṣhṇa. It's on your lap. Not Mine. It's your lap. You see. May God bless you. May God bless you all.

Some of them are not painted, but you can take them.

[Hindi.] [Ongoing clapping.]

Shri Mataji: Now the ladies should come after this.

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: You have counted *[UNCLEAR* it/everything]? Come along.

[Hindi.]

Shri Mataji: Is it a coloured one? Take a coloured one. Is better for *[UNCLEAR* him/you].

[Hindi.]

Shri Mataji: I hope there are forty-five people.

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: How many there are? I didn't count Dev. Dev has come.

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: Three more. We have three Gaṇeśhas.

Sahaja Yogi: *[UNCLEAR]*. I'm taken another one for *[UNCLEAR]*.

Shri Mataji: Ah?

Sahaja Yogi: I'm taken another one for *[UNCLEAR]*. He's sick.

Shri Mataji: Alright. I will give you something else for him. Alright? Because we have to see if *[UNCLEAR* he is coming]. Alright? Who are the three people? Raise your hands.

Sahaja Yogi: Robin...

***Contents: 1984-03-17*, Public Program, Day 5, Āgñyā Chakra, Mavalankar Auditorium, Constitution Club, Raff Marg, New Delhi, India**

I bow to all the seekers of Truth.

I want to wish you happy Holi today. It's a very joyous day for all of us and I told you about Viśhuddhi Chakra yesterday where resides Śhrī Kṛiṣhṇa and why He started the festival of Holi. As I told you before this is the knowledge of the roots, while whatever knowledge we have in the colleges, medical college, colleges of psychology and other sciences which deal with human beings on scientific research and scientific data's, is the knowledge of the tree.

So to become the knowledge of the roots we have to become subtler people. With human awareness we cannot dive down into ourselves. For example, you're all paying attention to Me but if I say that, “Take your attention inside" you cannot take it. You'll say, “How to do it?" It doesn't go inside. Our attention is spread outside. That is how we are made specially that we should put our attention outside and understand the value of our freedom.

As human beings we are free to choose right and wrong. We have through traditions developed lot of correct ideas about right and wrong but there have been lots of saints and seers who have given us a complete idea about what is right and what is wrong. Despite that we find it difficult to be righteous, to be virtuous, to be what that we believe in. We see something, we hear something, we know something that it is good, that we should be like that but we just can't do it. We are not samarth. We are not capable of doing what we believe in. The reason for this is because we are not integrated personalities. Our brains say something, our heart says another thing and our liver does another thing.

So we are divided into 3-4 personalities and that's why we cannot integrate ourselves. To integrate ourselves we have to become something that is integrated within ourselves. Now this integrated self is the spirit. The Spirit resides in the heart. It is said by all the seers, but in Sahaja Yoga now we can prove it, that it does reside. That is, God Almighty reflects Himself in the heart as Spirit. And the Spirit is the one which is watching us all the time. The Spirit does not manifest in our attention. If it starts manifesting in our attention then we start feeling on our central nervous system, the coolness of the Spirit, the vibrations of the Spirit, the manifestation of the Spirit. But when it does not manifest it keeps out and watches us as a Sākshī.

Now this Spirit is the one that is the integrated point. Once we become the Spirit, all these beings that are within us which are disintegrated become completely integrated and that's how we become capable of doing what we believe good or right, through our mind, through our efforts and through our love. It all combines together and we do perform everything that has complete integrated expression. Now to become the Spirit people have said that you have to meditate, you have to go inside because at the time of Śhrī Kṛiṣhṇa He could not talk on this level where people were not so well equipped to understand.

Now how to meditate is again the problem. If I say, “You have to go inside to meditate." You'll say, “How to go inside?" Now we have to understand God Almighty has made us very beautiful. We never ask a question once, `Why has He made us a human being? Why did we go

through the complete process of evolution to become a human being?' Now we have become a human being but why? Why are we human being? And if human beings are the epitome of evolution then why there are problems? Why we are not integrated? So we have to jump a little higher stage, a little higher awareness, by which we start understanding the absolute nature. Just now we are living on absolutely relative work, terminology.

Everything is relative. We don't know whether this is good or bad, whether this should be done or not. But for a Self-realised person, there is no doubt because he knows that his Spirit is emitting those vibrations which are all the time flowing and if he tries to do something wrong it immediately stops.

So like a computer he gets attached or you can say united with the Divine and then the computer starts working and informing that this is not right and that is not right. It's a very wonderful computer that God has created. We are one of the most exceptional type of computers.

We have computers in the world that human beings have created: it has to go through the thinking power and then come to something and the thinking is also fed into it by another thinking one who has thought from a very limited energy. But we do not think and we see. I see you without thinking. I can see you without thinking. As soon as I see you I, I know who you are. But for a computer it has to go through the process of finding out who the person is. Now there's a big challenge now facing us that people are taking artificial methods in every field of life because they have not been able to go higher than what

they are because they have missed their ascent, they are taking to all kinds of artificial things. First of all they are taking to artificial things like computers. Now these computers could be very dangerous things because the matter is all the time trying to overpower the Spirit. When you are creating a machine, you don't know how much you are going in the clutches of the machinery. That the machine one day if you do not allow and assert your freedom and a proportionate understanding of the powers of machine also, you might just be finished completely. You can see that these computers now can speak, can take over.

Supposing something goes wrong with the computer, it can start devouring the whole world. How can you stop it? Because it's a machine, it's the matter, which doesn't understand, it is innocent. It doesn't understand whether it is constructive or destructive.

So this is a very dangerous point where we have arrived. In every field we are doing such dangerous things.

Like in the agricultural side we can see that we try to make a hybrid seed. Hybrid seed can never produce seeds. Moreover all this hybrid business gives problems. If you study a hybrid cow and an ordinary cow you will be amazed that the hybrid cow has no sensitivity to her child. If a calf dies of a simple cow, she stops giving milk. She stops giving milk because her love informs her that the child is no more, what is the use of giving milk now, for whom? But if a hybrid cow's calf dies, it doesn't mind. You see the little hen that we have in the villages, because people have now studied them very well, they say a hen which is an ordinary hen, which is a normal

hen, if it sees the little chicks around it and when she sees the, some sort of an attack from some birds or something she immediately calls her little chicks and puts her complete protection for them. But if you have somebody, say somebody which is a hybrid one like incubator or something, they have no feeling for their children; they have no feeling for them.

So even if some rat is coming, anything she's not bothered let somebody eat the children, do what they like.

It is so much going into our lives that we are not aware as to how much we are dominated by the matter. Matter is a very important thing but it is to be seen what it does to the Spirit. Now for example what we do of matter is nothing but to change its forms. We develop an ego thinking we have done this, we have done that, we have built this big thing and we have huge big palaces built by us. But what are all these things? Are nothing but stones. From dead to the dead, what have you achieved? Nothing but an ego which is absolutely, ego means something you believe into, which does not exist.

So you believe into something that is the matter, that you have changed the forms of the matter. But as a result what happens? You become a slave of the matter. For example those who are used to the chair cannot sit on the ground. You get used to it, you form habits and this matter starts dominating you all the time when the whole ideology in the West starts with the individual growth and also of the comfort. Comfort is a very important thing in the Western philosophy, that you must achieve comfort. And when you start seeking the comfort

of the body, what happens that your body becomes such a slave of the material things that you are absolutely flabbergasted the way you land into a very funny situation. For example in England now, I am there, I find it is impossible to get fresh chicken, is impossible to get fresh lamb. Everything is tinned and you cannot change it because it has gone into that kind of a big industrialised process that if you want to have anything that is simple, that is natural, you just can't get it. You have to do the way it is done for the whole there and that's what you have to accept. While in India thank God, we are not that mad, that we still can get lots of things which are fresh. But the greatest thing that we can get in this world is the love, love of other people. Holi is one of the festivals in which we express our love to all the people. Now in England if you go or in any other Western countries, the love is expressed through a printed card. There they say, “We wish you a happy Christmas." Finished. To your father also they will send a card, “We wish you a happy Christmas." We go to the market, get some papers, write down or they might get ready made everything. You get ready made for the mother, ready made for the father, ready made for the grandfather, ready made for everyone. Just bring the ready made stuff and write it down and send it over.

I have seen sometimes people will make mistakes and they might send a, one of these ready made ones in such a funny way that instead of addressing to the child they may address it to the grandmother.

So it is so much of a mechanized life that you have lost that flexibility that can really inspire love within our

hearts. Such people become absolutely dry, they have no love for anybody and what they want is only material things. This matter cannot give you joy. It's already said in the economics, if you see the law of economics, the first and the foremost is that a want is satiable in particular but not in general.

Means nothing can satisfy your wants. You will today ask, say for a bicycle, tomorrow for a car, then for a house, then for an aeroplane. I don't know how it moves.

So, a person is never satisfied who tries to find joy in material things.

So now we come to the point where we see that these Western countries as I have mentioned to you earlier, the three affluent countries, like Sweden, Norway and Switzerland, are competing among themselves as to the rate of suicide tendencies and how many people suicide. Now of course this year they have given prize to Switzerland because they have the greatest number of people, young people who are committing suicide.

So they have the highest income. Despite that they are committing suicide because they have not found the joy. They have done everything. They have got beautiful railways, they have got beautiful telephones, not like Delhi telephones and they have got everything first class. Despite all that they have now decided that most of the young people should commit suicide. That's the only way they can exist. That suggests one thing definitely that their movement towards the achievement of material well-being has not given them anything of substantial value.

So now they are turning to God, turning to Spirit, trying to find out what should they do to become the Spirit. Now we must know those people have talked of the Spirit didn't tell lies. They didn't tell us lies, that is first thing we must know. There are some people who say, “We don't believe in God." I think is a sign of complete arrogance. Is a sign of ignorance also, that you just say, “I don't believe in anything." It's like a person who goes to a university or school and there he goes and tells his teacher, `I don't believe in this that this can happen.' If you are sensible and balanced person and wise, then you can think it over that, `Why is it in the world today there's a moral crisis? Why we are suffering so much?' The reason is we have given too much importance to the material life, too much importance. The material life also cannot be enjoyed without the spiritual life.

Now I'll tell you what happens when the Kuṇḍalinī rises above the Āgñyā Chakra which is placed between the pituitary and the pineal body in the Optic Chiasma. The Optic Chiasma has got this very important center. Now this important center cannot be seen through microscope or anything but it asserts and exerts its power when you see the Kuṇḍalinī rising. When the Kuṇḍalinī rises, mostly it stops at that point which we call as the Āgñyā Chakra. You have seen now a study you saw so many people had this problem of their Kuṇḍalinī stopping at the Nābhī Chakra or at the Āgñyā Chakra. You can see it clearly when it stops at the Nābhī Chakra, with your naked eye you can see the pulsation of the Kuṇḍalinī that rises and goes and stops at liver or some places. But at the Āgñyā Chakra you cannot see. When it stops at Āgñyā Chakra, it

also drops down. Now this Āgñyā Chakra which is placed between the pituitary and the pineal in the center of the Optic Chiasma is the one which is a very narrow gate, which is a very narrow gate, through which somebody had to pass through to prove that eternal life is to be sought. Like Kṛiṣhṇa has said about eternal life, *[UNCLEAR]*. You see the thing is *[UNCLEAR]*. The reason is, what He is trying to say is that this cannot be cured, this cannot be destroyed, this cannot be sucked in. What is that? That is the spiritual life that is the eternal life that is within us. But how do you do it? Where do you get that eternal life which cannot be crushed? So somebody had to show what is that.

Kṛiṣhṇa has described it so clearly in His lifetime that you have to achieve that eternal life which I am telling you.

So somebody had to come on this earth, on this Āgñyā Chakra to work it out. In that I would say that you should go and read some of these *[UNCLEAR* doughty deeds/data's] about Mahāviṣhṇu which is described by Mārkandeya. Mārkandeya is the person who has very clearly described the origin of Mahāviṣhṇu. Mahāviṣhṇu was created by Śhrī Rādhāji. Śhrī Rādhāji is the Mahālakṣhmī, is the Suṣhumnā, is the parasympathetic nervous system within ourselves. She has created with Her own will power, this Mahāviṣhṇu. And this one was like an egg and half of it became active and became Mahāviṣhṇu. And with that active Mahāviṣhṇu, we can cross through the Āgñyā Chakra. As I told you before that we had ten Gurus who came on this earth and they represented the innocence of the three Brahmā, Viṣhṇu, Maheśha of Dattātreya and one of them was Zoroaster,

another was Mohammed Sahib and all these Gurus represent those qualities of innocence of these three personalities called as Dattātreya.

And also told you how by understanding these different Gurus we can produce the effects even on our physical health.

Like we had a doctor who came all the way from Iran and that day I was very tired, very tired and I told him that, “You have to become a Sikh gentleman if you want to become all right. And I cannot help you much because you do not believe that there is anybody else but Mohammed Sahib." Then he got very angry and I said, “I am really very tired and in one sentence I want to finish it because I am really very tired." So he went away and he came back next day and started arguing with Me. He said, “What do You mean by this?" I said, “I mean that Mohammed Sahib and Guru Nanak are the same personalities." He said, “How do You say that?" I said, “It is said that once Guru Nanaka was lying down and people said that, `Sir, your feet are towards Mecca.' So He said, `All right I'll turn this side.' He turned on the other side and Mecca was on the other side. What does that mean? That means that Mecca is at the feet of Mohammed Sahib, also at the feet of Śhrī Guru Nanaka. That means both of them are the same personalities and if you want to argue with Me, I cannot tell you how, but I will tell you one thing, that if you want to get cured of your cancer of your stomach, then you have to believe in Guru Nanak." He said, “I can't believe in Guru Nanak." I said, “I cannot cure you, I am sorry, I just can't help you." He went home, his wife was a wiser woman, she said, “My

husband is going to die now." He said, “All right, why not believe in Guru Nanak? Let's see what happens." So he came down after three, four days when he had very bad time and he said, “Mother all right, now we like to know about Guru Nanak." So I told him about the greatness of Guru Nanak. Why He came on this earth. Because He found that what Mohammed Sahib had done is undone by Muslims.

So He came down to tell the Indians about Mohammed Sahib and about other Gurus and to bring a unity of Hindu and Muslims. But you can see now what's happening to that also.

So the all whatever good these great people have done can be all neutralised by our own ideologies and by adding to it our own biased arguments. And this is what happened with all the great Gurus. Now as I told you that with the Guru problem you develop this stomach problem. For example a person who is following Dattātreya always will have a stomach problem, always will have. And if you have to correct him you have to tell him how to take the name of Dattātreya. Now in the same way we know that Christ came on this earth and He was the incarnation of Śhrī Gaṇeśha Himself. Śhrī Gaṇeśha is a *[UNCLEAR* Chirabalakam], is a eternal child and that's how He took birth on this earth as Christ.

So when you see a cross, people get frightened. When they saw the cross in Maharashtra, they said, “Oh, Mother are You teaching Christianity?" I said, “Supposing the Swastika becomes the Cross have you any objection to that?" He said, “Then we have no objection. If Swastika becomes the Cross we have no objection." So

swastika which represents Śhrī Gaṇeśha who is the carbon atom within us with the four valences, becomes the cross when it comes to the Sahasrāra. Because in between the Sahasrāra the top Chakra and the lower part of it that is, we can say the Viśhuddhi, there is placed this special Chakra called the Āgñyā Chakra.

And to enter into the Sahasrāra, which is the kingdom of God as it is described, the limbic area, one has to pass through this narrow gate and something which is absolutely eternal had to pass. Now you know that Śhrī Gaṇeśha is Omkāra, is the Brahma Shakti. Is the Shakti which we feel after realisation, which you felt yesterday around you. Now this is the only thing that can pass through this one, that small gate.

That's why He said, “I am the path, I am the gate." But He didn't say, `I am the goal.' But He didn't say, `I am the destination.' He didn't say, `I am the destination,' the reason was by saying that He would have stopped the progress further. And that's why He didn't say, `I am the destination' because destination is the limbic area.

Now it is very interesting to note how people try to twist everything. For example in the life of Mohammed Sahib He Himself has said, “When the time of resurrection will come your hands will speak." Very clearly He has said in the *[UNCLEAR* Bible]. He has written so much about the resurrection time which is today, which you are feeling in your hands but nobody talks about it. They only talk about the kayama, the time when everybody is going to be destroyed. They are just talking about that part. That everybody is going to be destroyed and you should be frightened, you should be awed that you should come to

all these Mullahs and pray to these Mullahs and become frightened people thinking that the kayama is going to fall. But there is a resurrection time in between which is described so clearly in Koran but is not mentioned at all throughout if you see. People never talk about it. People don't know there is a resurrection. Mohammed Sahib has very, very clearly talked about it and said that, “At that time your hands will speak." He has called Kuṇḍalinī as “Assas." Now in the Bible also we have, “I will appear before you like tongues of flames." These Chakras, these centers look like tongues of flames specially the Sahasrāra. It's such a beautiful assemblage of different colour flames which are very silently moving and are living flames. We can see them. If you cut the brain, in the transverse section of a brain, if you see it looks like the petals of a lotus. It is thousand petalled brain and you can see those thousand petals enlightened if you can achieve your evolution to that point, which just looks like a beautiful lotus with flame like little, little petals which are living petals. And you can see the silence and the beauty of those petals.

Through that is in the center is the Āgñyā Chakra through which the Kuṇḍalinī has to pierce, which is a very difficult part and one had to come on this earth to show what Kṛiṣhṇa has said that, “You have to lead an eternal life." That's why Christ incarnated. He was Mahāviṣhṇu, He was specially made. That's why on Easter day they make an egg. If you ask a Christian man, `Why do you give an egg on Easter day?' They won't be able to tell you. But it is in the Purāna of Devī that you can find out that He was first made like an egg. He is born, gradually his pituitary

starts working and he collects lot of ego on top of his head.

So ego and super ego, both of them meet in the fontanelle bone area and you develop a calcified thing here, I mean this cranial box and you become a person with your `I's'. Like, “I'm Mister so, Mrs.

so” like, “I am a citizen of this and I am a Christian or a Hindu or I am an Indian or Englishman” all these you see, separate identities start crawling into you and you become like a box or like an egg. Now this egg has to grow. When it is ready enough then only just like we call a Brahmin a `dvija'. A brahmin who is not a `dvija' is called abrahmin in the Shāstras, he is called as abrahmin. He is not a brahmin, he is a abrahmin. That “a" has to go away. Till he gets his realisation, he is still a abrahmin.

So when this breaks, this egg breaks into a new being, when you become a new being, you are called the `dvija' and a bird is also called a `dvija' means twice born. But there are many people I met, they say, “We are already twice born." Is also false certification, “We are twice born." What, what do you mean by twice born? You cannot just give a certificate to yourself. If you are twice born then what is the specialty? What do you get as a twice born personality? First of all you should become collectively conscious. Means on your central nervous system, always whatever you have evolved comes on your central nervous system. But now after realisation on your central nervous system you should feel your own centers, the subtle centers and you should feel the centers of others. That's the minimum that should

happen to a person who says who is a yogi. If he cannot say that then he is just giving him a certificate. Like that you can certify yourself that, “I am the prime minister of India” but who's going to listen to you? This self certification is a very easy thing as far as God is concerned and religion is concerned because there is no law that people think can really guide them or can put them in the prison.

So they do the way they like. Now we have to understand that there is a life in this life time only. You're going to get a life which is in a very different dimension where your spirit starts shining through your attention, through your central nervous system. Yesterday many people felt the Cool Breeze. Now what is this Cool Breeze? This Cool Breeze is the Omkāra Shakti, is the Brahma Shakti of God, the All-pervading Power of God, the power that converts or that transforms the flower into a fruit.

Till you become a fruit we do not separate the fruit from the tree. In the same way till you become a realised Soul you cannot have that detachment. Those people who work at detachment before realisation are really trying to do a very immature thing. It doesn't work. Once you are mature enough then only you can feel the detachment completely and in that detachment you give, you become dynamic. Like the sap in the tree it rises, rises and gives its energy, nourishment to every leaf, to every branch, to every flower, to every fruit and it returns back. It doesn't get attached to anyone. If anybody gets attached like that, you can see in any tree, it does not, they are sensible. Because trees and vashus are in the pasha of God, so they are sensible things, they never get

attached. But supposing like human beings, they get attached to one flower or to one fruit, the whole tree will die and that fruit will also die. But this is what we do not realise when we get attached to our children, we get attached to one person or attached to this and attached to that, attached to material things. But this detachment is actually your true nature, which just works out when you become the Spirit. Now to become the Spirit you have to pass through this Āgñyā Chakra.

Now in Sahaja Yoga we have found out the best mantra for this is that, `Mother I forgive everyone,' is the best mantra for this `Kshama' `Kshama'. But Āgñyā Chakra has got two petals one in front and one at the back. This is all placed in a this way, actually we can say that the front side is here and the back side is there. But all this works out in such a manner that when you have too much of ego, you have too much of ego, then your one of the petals starts working which we can say that this petal looks after the pituitary.

So when you have ego you think, “I will do this, I must do this, I plan out this one, I must achieve this” and ambitious people, we can say the `rajo Guṇis' the `rajo Guṇis', when they assert themselves too much, they develop an ego in top of their heads as I told you. And the another one, the ones who deal with life in such a way, who say that, “I have to bear and I must suffer and this is how it happens” and you go on taking the conditioning of all kinds of things, then you develop a super ego. And the super ego and ego, both are on your head and that's how you become the bird encaged in a shell of egg.

Now when this Kuṇḍalinī rises above the Āgñyā, what happens? The most marvelous thing happens is this that this ascent immediately pushes the, pushes the both these balloon like things into the Viśhuddhi Chakra and the whole thing is sucked in. Once it is sucked in the limbic area which is covered with ego and super ego opens out like this and the Kuṇḍalinī passes through that and enters into the limbic area and then comes out of your fontanelle bone area called as Brahmarandhra. And then you start feeling the Cool Breeze emitting out of your head.

Now this sucking of the ego and super ego is one of the greatest things that Christ has achieved through His crucifixion. Through His crucifixion He showed that He was resurrected and resurrection is the message of Christ's life, that He was resurrected because He could not, how can He die? *[UNCLEAR]*, how can He be killed? So He was resurrected actually and He showed through His resurrection that all of us can be resurrected. Now the suction of the ego and super ego is a very important thing I told you because the idea of Karma that whatever Karmas we do, we have to suffer, only human beings feel they are doing Karmas. Animals don't. We only feel, “We have done this Karma, we have done that Karma, we should not have done this Karma, we have done this wrong” either we feel sorry or we feel elated, whatever we have done. But when this is sucked in you have no ego nor super ego, it's sucked in.

So what happens, your Karmas are all sucked in. It is the ego that makes you feel that you have done these Karmas and it is the super ego that makes you suffer for

your Karmas. But once it is sucked in there is no problem of sins or Karmas. That's why it is said that Christ died for your sins. It can be explained this way that when He died, He resurrected Himself and when He resurrected, He created an awareness within us. If it is enlightened through Kuṇḍalinī our Karmas can be also sucked in.

But as a result of that so many good things can happen on the physical side also. I remember a girl met Me, she was in a hospital and one of the nurses told in the Breach Candy hospital, she knew about Me so she told her father that I should be contacted about this girl. This girl was supposed to have a kind of a tumor somewhere which was very deep down and they called a doctor from Madras [Chennai] and the doctor from Madras [Chennai] said, “It's a very deep down stuff, we cannot just locate it and it's impossible to go down there." Then he called Me there. You'll be surprised; this girl had a very funny problem. She had lost all her control on her fingers and feet, she was just lying down. She couldn't even lift her spoon. In five minutes I just knew that the Kuṇḍalinī is stuck there. I raised her Kuṇḍalinī, immediately she became all right. And the father was so surprised at the whole thing. Actually I met him suddenly one day in a music program and he came and touched My feet, I didn't know who he was and then he reminded Me what I had done and all that. I had forgotten even the trouble that that girl had. But then it really struck Me that if the Kuṇḍalinī can be brought out you can cure all the brain troubles. All neurology can be brought into proper lines if you understand how to raise the Kuṇḍalinī.

Now we have people who suffer from brain tumor. Now the brain trouble could be from super ego or from the ego. Whichever way it is, can be cured through the proper adjustment of the Āgñyā Chakra.

If you really master Āgñyā Chakra, you can. But there are people in Sahaja Yoga who come to Sahaja Yoga, they mostly come that, “We should get our realisation" and some of them come that, “We should get cured." But you need people of very deep devotion who should go into it and master it fully, how to control the brain and how to control all the problems of the brain through Āgñyā Chakra. Now one of them is Rustom who's I must say, Rustom Burjorji is another great personality the way he came to Sahaja Yoga and he took to it. Another is Doctor Bohdan and Doctor Warren whom you have seen. All these three doctors have really taken it up very seriously and they're working it out. But the problem is that it is very difficult for scientists to understand that there is a knowledge beyond knowledge. That the controlling point of all the knowledge is somewhere else and we are just trying to treat the tree from outside not through its roots. But if you can find the roots it's such an easy thing to treat a patient who suffers from nervous trouble, from brain trouble through Āgñyā Chakra adjustments. Today I have talked to you about Āgñyā Chakra, tomorrow I'll tell you about the Sahasrāra, the thousand petalled Chakra which resides in the upper portion of our head. I hope I have been able to clarify about Āgñyā Chakra and how it is worked out in Sahaja Yoga. But the subject is so big on Āgñyā, I must have given at least seven lectures in London so I don't know how could I make it so compact

as to deliver the complete idea about it. But it's the most important Chakra. Now why do we put red mark here? I mean many people don't put it; many ladies also these days don't put it. The red mark is because, if you put the red mark, then the red is the sign of innocence, is the sign of innocence, is the sign of a person who believes in innocence and all the bad `prakrutis', all the `dusht prakrutis' which are against God are frightened of the red. That's why we wear this special red just to frighten them. Specially the ladies are very easy to catch these depressing moods from others, like a woman has a hysteria another one has hysteria. All these depressing moods can be controlled if you can put the red here. Men should also put the red is a good idea. But it's a very difficult thing to tell people who are so fashionable that they find it's impossible to put a red mark on the head, but red mark is the one that saves you all.

In Sahaja Yoga what we do, those people who suffer from such affectations in the psychosomatic side, we ask them to put a vibrated red mark in the night when they sleep and they have been cured. It's very simple. But to believe in it is an impossibility for people, that how can a red mark solve it. But it is vibrated, means there is a Brahma Shakti inside it and it acts. It does act, it has acted, it has helped so many people and should help all of you. In the Bible it is described as I told you about Koran, that Sahaja Yoga is going to come. That such and such person is going to come. That Mahākālī, Mahālakṣhmī, that Śhrī Mahāsaraswatī, the Comforter, the Redeemer, the Counselor is going to come. Christ has clearly said, “I'll send you the Holy Ghost” means Ādi Shakti on this earth.

But the Christians cannot see beyond even one foot, they cannot see. It is one of the most sophisticated fanatic group I have ever met. The most sophisticated fanatic group. You can see the Muslims as very blatant fanatics and you can say they are fanatics. And you can see the Sikhs sometimes, you can see the Hindus being fanatics, but these Christians are so intellectually sophisticated that you cannot make out how fanatic they are. They will be the last people to enter into the kingdom of God in India. But abroad they have seen through it, they have seen through it the sophistication. But in India, the Indian Christians are the most difficult and that's why I took My birth in this the most difficult community called the Indian Christians because they cannot see anything beyond one foot. The rest of the Christians in all over the world are now Sahaja Yogis, they can see it because William Blake, such a great poet has written about Sahaja Yoga exactly everything about it so clearly they have found it and they are reading it. But Indian Christians in India everybody's religion is in danger. That way everybody's a fanatic. If you ask anyone, they'll say Sikhism is in danger, Hinduism in danger, Islam in danger, Christianity in danger. I don't know how we are dangerously wasting. How can it be in danger? If it is reality, it can never be in danger.

We must know eternal things can never be in danger. Only we, we have made it something very transitory, something very superficial, something very cheap, that's why we think it is in danger. These are eternal things and nothing can destroy, nothing can destroy.

So tomorrow I'll tell you about Sahasrāra where we get the complete integration of all the seven Chakras which are called as the Pīṭhas, as the Pīṭhas in the brain. I'll talk about that tomorrow and I hope I'll be able to tell you that from there how we'll come to the gross. I'm sorry tomorrow there is no program it's on the 20th. It's My birthday on the 20th, they are celebrating here, you are all cordially invited to come and it's nice that I have to speak about Sahasrāra on that day because that's the thing I have tried to study and work out. I have worked out the Sahasrāra in this life time and hence you know I also studied medicine and partly this and that, just to understand what these people call this and that and that's how I can relate it now to the gross things also.

Thank you very much.

Now if you have any questions like yesterday you can ask Me for a while and then we'll have the session of realisation, for about ten minutes. But ask sensible questions.

Question: *[UNCLEAR]*.

Shri Mataji: You see this widowhood and all that we don't believe in it. No man is a widower, why should a woman be a widow? You see it is the mistake of the women who accept all these nonsensical ideas.

In Sahaja Yoga we don't allow any widows to come with that forehead. It's all nonsensical ideas given to us, about women. Women are so sacred, have to be sacred because actually, they are Shakti Pīṭhas. But we the women have made us, ourselves like that. What was the need to be subdued like that? We have lost the capacity to be a woman now. A woman is like this Mother Earth.

She can bear lots of things upon herself but not nonsense. This `vidhwa' [mourning] and all those things are all absolutely nonsensical things and Sahaja Yogis don't believe in all that. Between the two somebody has to die earlier, they both can't die together. I've not known anybody both of husband and wife dying together on the same time, same spot. One will become a widower or a widow. Is only a suppression of women which has come to us from various sources and we have accepted it. North India, you don't tell Me about North India. In North India even married women don't put, they want to move like widows. They just don't put it I have seen. I mean it's not easy to make out the married woman from an unmarried and a widow in North India.

They have no mark nothing, they don't understand the value of all these things. They have all become like westernized people or Islamic, I don't know what sort of a culture. [Hindi.] All religions. [Hindi.]...

All they are the best. [Hindi.]... Sahaja Yoga.

Question: *[UNCLEAR]*.

Shri Mataji: In Sahaja Yoga we respect all the religions. What Nanak Sahib has said, “Sahaja Samādhi, now Sahaja Samādhi." You have to get your Samādhi; you have to become your spirit. The time has come for that. There is no need to have so many religions. All religions are respected within yourself because they all reside within you. You do not know how important every religion is to us, is extremely important. We do not know the essence of all the religions, we are just outside, that's why.

So the child should be called a Sahaja Yogi who is `dharmatīt', who is `guṇatīt', who is `kalatīt'. [Hindi.] Question: *[UNCLEAR]*.

Shri Mataji: Now why are you worried about death? I am talking about life. This is a typical Indian mind. I tell you. Indian people first of all they'll come and ask Me, “Mother was I a king in last life?" Then what was “I"? I said, “Baba why are you worried? To Me you are My son, you better get your realisation." We have to be in the present. We have to be in the present, past is finished and future doesn't exist. We have to be in the present.

Question: Is prakruti like purusha?

Shri Mataji: Of course. It's like moon and moonlight, sun and sunlight. But when the prakruti creates, the purusha watches.

Question: Despite all my efforts in the last few days I have not had any sensation of Kuṇḍalinī. Can I have your touch to clear my Chakras?

Shri Mataji: All right, can you come down to Me? I will see to it. I'll work hard, don't worry. We'll work it out.

Question: It is extremely difficult to become a lady saint as you are?

Shri Mataji: I mean I'm not a saint. I'm a Mother, that's all. It's very easy for Me to be the Mother.

If your Kuṇḍalinī is the Mother, I'm also the Mother. Is the easiest thing to be a Mother. I do not claim to be a saint or anything like that but lady is always a saint so she cannot become a saint. A woman's position is that high. A mother who looks after her child, gives all her attention to the child, is already reached the saintly hood actually.

But we Indians we think that only men can become saints. Naturally those who are not, have to become saints.

Question: Ladies can chant the Gāyatrī mantra?

Shri Mataji: No one should chant without understanding. Now Gāyatrī mantra is to be chanted by people who are depressed in life, who feel nervous in life, who are left-sided.

So ladies, some of the ladies have to do it. And those men who are like that, also have to do it. But those who are already riding a high horse should stop chanting Gāyatrī mantra.

Question: My son is suffering from asthma. What should I do? He is ten years old.

Shri Mataji: All right. Sahaja Yoga can cure your child. You have to come to our center and they will tell you what is to be done. All individual questions should be sorted out in the center individually.

We can pay attention to every individual. We have doctors here; we have other people who can look after you.

Question: Is it the Mother which has been, which has no beginning and end, therefore without the father?

Shri Mataji: Is it the Mother...

Question: Is it the Mother which has no beginning and end therefore without the father?

Shri Mataji: Mother that's all. Mother is the thing.

Question: I have been feeling intoxicated since two days, something different. What is this difference?

Shri Mataji: *[UNCLEAR* Jaba mast hue phir kya bole].

Question: Some chandanas have been utilized for the forehead. Is it fine or bad?

Shri Mataji: There are two types of chandanas, white and the red. Now the red is to be used for people who are left-sided, depressive. And the people who are aggressive or people who are right-sided; they have to use white chandan.

Question: *[UNCLEAR* Can You for life, why are we born]?

Shri Mataji: We are born to be the spirit. We are born to be the citizens of God's empire to enter into His kingdom, to enjoy all His blessings and glories. Like a very gracious father He has invited you and He wants to grant all that is possible for His children.

Sahaja Yogi [makes an announcement about Shri Mataji's birthday celebrations]: *[UNCLEAR]*.

Question: You have told about Kuṇḍalinī jāgrat but how can it be achieved? I want that we should achieve.

Shri Mataji: All right we'll have it now. Practical *[UNCLEAR]*. All the people who are standing can sit down, can come forward and sit down. Everybody should sit down. Be seated comfortably. Please be seated comfortably.

[Next day Shri Mataji announced that She has opened the Sahasrāra of Delhi at this Pūjā.]

Contents: 1984-03-20 **Birthday Felicitations, New Delhi, India**

On this occasion I bow to all My children, to al the well-wishers, friends who have come here to express their kind feelings towards Me. Thank you very much. [Applause.] In such circumstances the words cannot

express the deep feeling of gratitude for all of you who have so kindly come down here.

It is very important for us to realise one thing that the time has come for all of us to transform ourselves.

All the possibilities of transformation is [are] possible. We all have to transform ourselves. We must raise our level from this human level to the higher level of Spirit. Otherwise those who will not, will not enter into the Kingdom of God and may be destroyed. The time is very precarious and precious and the most opportune time.

Today is the day they have put a Sahasrāra here meaning the one thousand petaled lotus surrounding the limbic area in our head. The coconut.....

Contents: 1984-03-22 **Birthday Pūjā (Marathi+English), Be Sweet, Loving and Peaceful, Sri Shanmukhananda Chandrasekarendra Saraswathi Auditorium, Viel Parle, Juhu, Mumbai, India**

[Shri Mataji talks in Marathi: MISSING.] [Shri Mataji talks in English:] I have just told them [Indian Sahaja Yogis] that you should not try to copy the Western style of egooriented society where people use harsh words, because then we think that we have modernized ourselves.

To say harsh words to somebody, “What do I care! I hate you!" All these sentences, we have never used, these are unknown to us. I mean anybody to say like this is unmannerliness. How can you say such a thing: `I hate you!'? But now I have heard people talking like that in our country. “What is wrong with us?" “Who are you to

say that?" Like that we do not talk. This is not the way we talk. Any person who comes from a good family would not talk like this because this reflects on the family. But the language is more copied here than in the Western countries. I am surprised the way the people talk here in buses, in taxies and the way they use the language that's something I can't understand. And so I have asked them that the language should be full of love and with our own traditional style.

We wouldn't even scold our children. If we have to scold our children, we use language which makes them honourable (Bahumānav): Damle Sāhab has put on a kurta pajama, so “You are looking like Shivaji Mahārāj. Welcome Shivaji Mahārāj." We should speak in such respectful language so that they would not get scared. Correction if it is to be done, we used to do it this way; but the correction of the other side is not proper because it never corrects.

That's why you cannot control your children. All the time you are scolding them, insulting them, insulting others.

Insulting methods and emotional blackmail and all this nonsense is not at all traditional in this country and those who try to do this will be thrown out.

You should not do them, I can tell you, in Sahaja Yoga you cannot do it. You should not have all these ideas of insulting people, of bringing them into situations where they can be insulted. This is all modern style.

So we should not do like that. In Sahaja Yoga, we should behave in such a way that we should be dignified, behoving our style, our tradition. Sahaja Yoga tradition is that we talk to people in the most sophisticated manner,

the sweetest manner, in the most affectionate manner and inviting manner. And that is how we should all speak.

So, this is the first thing I ask that in your expression of love there should not be a thing that you shout. I do shout at people who have bhoots in them, but by that the bhoots run away. But if you shout, you get the bhoots; bhoots do not run away, they get attuned, so better not do it. If you have My powers; you can do that. But you don't have.

So be careful, you don't try My tricks, you see, I'm different type of a person and I do say things understandingly, which you do not.

So when you follow Me in things I am the way that I am on the side that I forgive, the way I am loving, I am affectionate and not the way where I am terrible. Because My terrible nature has got an undercurrent of My Love which you don't have, nor those powers.

So don't try these tricks with anybody else. You have no right to shout or get angry, because if you should, you get back all the bhoots in you. For they are the ones who provoke you.

They provoke you to get caught up into it and you get absolutely ruined, the more you try to do so.

Therefore, the best thing is to stand in the center and to have affection and love, the power that I have given you. That power you have to develop that power of love. First develop that power of love, then you don't have to worry, you don't have to shout or do anything. Your power will become Krita [active], it will work out itself and create that beautiful atmosphere that we do not want to have anybody ruined.

But if you shout, people will run away. Specially in a ego-oriented society, you cannot shout at all, it cannot appeal to them. If you shout in ego-oriented society this will distract them and they will run away.

So I have to tell you, that you might be highest of highest, first thing that you have to give Me today that in your talk, in your behaviour, in your heart, you will reside one with Love.

The second thing I have to ask is that you be peaceful. Try to have peace with yourself. Now don't fight with yourself. Now, the Western people have one problem that they fight with themselves. “How is this that this is happening to me? I am this! I am so bad! I am no good." If you go on fighting with yourself then you will not progress. On the contrary, you should say that, `I am so good. What's wrong with me? I have got my realisation, what's wrong with me? There is nothing wrong with me.' Have that confidence in oneself and then it will work out. Not that you start shouting at others, but supposing you understand that there is nothing wrong with you. You have to be peaceful. You all have to be very peaceful. You have seen, My peaceful nature has solved so many problems just like that. You have to achieve that peace within you. That peace has not to be lost at any cost, should not be expressed outside.

In a way, My peace itself becomes terrible. You don't have that kind of possibility. Don't do it, never do it that way, try to be extremely peaceful, keep your forehead relaxed.

Many people come to Me with face like that [distorted, twisted face] and I see bhoots sitting in their forehead,

then I shout at them, forehead relaxes. “I am not doing anything, Mother is doing everything." Relax. If you relax you will find that your heart opens out.

Some say that my heart cannot open. Why can't you open your heart? Because you have no trust in yourself. Try to trust yourself. It will open your Āgñyā, open your Ekādaśha, open your Sahasrāra and your heart will open. Once the Sahasrāra is open, the heart will open automatically, so you will have a peaceful life.

So today I am asking for two things from you. It is a funny thing that Mother has to ask for a gift.

The first gift you have to give is that you should express peacefulness through your own character. But it does not mean that you should be people who are timid, or people who are morbid or who tolerate nonsense. No, but the people who are peaceful resistance. You are not afraid of anything. You are not going to bow down to anything, compromise with anything, but you have that sort of a temperament you should develop and express, is very important.

And the second one is that this peace and all this should express your love? Love to others. Like, now, in everywhere in next two-three years you will have Ashrams, I am sure. And in the Ashram, I will like to see loving, caring, affectionate, patronizing beautiful attitude for the people who come there. On the contrary if you do not have this, Ashrams will be reduced to zero. It has happened in many places. You don't blame Me why our Ashrams do not run. It will be your responsibility to see that it is Mother's House and people are coming to the

Mother's House. How Mother will treat these people, with love, affection.

Whatever you do, you can starve, but give to others kindness and sweetness so that the impression on the people, that people will think he is not an arrogant personality. I want top class persons to be in charge of an Ashram. If the person is mediocre, he should not be appointed. By next year you will have all the lands in your hands and Ashrams will start by next year.

May God bless you.

On My birthday today so that you be properly established by the end of next year, but first two conditions should be there. If you are not ready for that, God will never give you an Ashram. He does not want to give Ashram to some funny people. It becomes such that some people have no place anywhere, come in the Ashram.

So unless and until you have people of that calibre who remain loving and peaceful then the Ashrams will be established.

You should be able to have Ashrams in every place.

May God bless you.

Contents: 1984-03-22 **Birthday Felicitations and Evening Program, Sri Shanmukhananda Chandrasekarendra Saraswathi Auditorium, Viel Parle, Juhu, Mumbai, India**

[Doctor S. Swaminathan (sister of Shri Mataji) in Marathi:] Honorable guests, who have graced the occasion of my elder sister's 60th birthday, my younger brothers and sisters and Sahaja Yogi brothers and sisters. This evening, I consider myself fortunate for getting this

opportunity of saying a few words about Nirootāi. We call her Nirootāi* whom you know as Mātājī Nirmalā Devī.

Nirootāi and myself, we both grew up together and hence I had the privilege of being closely acquainted with her virtues and the dynamism of her personality. We were born when India was a slave country, yet, being born in an affluent and well-to-do family we did not suffer from any want or other problems of life. Our childhood days were spent happily and merrily. We were born at Chhindwara i.e. my elder brother Mister Narendrakumar Salve, who must be known to you all because today he is the Minister for Steel and Mines, Nirootāi, myself and my younger brother Mister Balasaheb Salve, we four were born at Chhindwara; and the younger three brothers and sisters were born at Nagpur, because our father shifted to Nagpur in the year 1928. In the year 1930, which is supposed to be the most crucial year in the struggle for the Independence of our Nation, our lifestyle underwent a total change. Our father renounced his title of `Rao Sahib' to join the Freedom movement. We were too young to understand the significance of the change that was coming in our way of life i.e. our clothes, our activities etc. but perhaps due to an inborn love for freedom, we welcomed the change and never opposed it. All of us accepted the change but, amongst us. Nirootāi was most zealous about accepting this change.

Our mother had to take all of us in the car whenever she and father had to attend the meetings of the then Congress and I remember that Nirootāi held similar meetings at home for us and imitating the leaders she delivered speeches from the `Home Stage'. We sang the

song `Charkhd chata chata ke Lenge Swarajya Lenge' [we shall win our freedom by turning the spinning wheel]. We accompanied our mother for picketing the wineshops. But most important were our processions. Bapu [Gandhiji] had introduced `Vanar-sena' [Army of the monkeys] especially for the children. With the tricolour flag of Congress in her hands Nirootāi led these processions which went round the locality where we stayed.

Thus `leadership' and that too with full understanding and purpose of achieving something in life and not merely to satisfy one's ego, was evident in Nirootāi, right from her childhood.

In 1942, when `Quit India' movement started, Nirootāi participated very actively. I do not know if she has told you of an incident, of this period, that she had to be rusticated, from the college, for presenting bangles to the son of the Director of Public Instructions who refused to cooperate with the movement.

When the orders of the rustication were received by the Principal of the college, he, being a close friend of our father, proceeded on leave. The Vice-principal came to our home and met our mother. Father was already in jail and hence he requested our mother that she should withdraw Nirootāi's name from the college otherwise her educational career would be ruined. Mother discussed the whole issue with Nirootāi, who fearlessly told mother and the Vice-principal that she would never allow her name to be withdrawn.

She would much rather accept the punishment [of the British Govt.]. What a sacrifice! A girl taking such a bold

decision at the age of fifteen or sixteen was not a trifling matter. Such decisions can be prompted only by some inner inspiration. They cannot be forced and hence these inspirations coming from within like the `Word of Divine' can lift a person to very high and lofty levels. We were very lucky in having very understanding parents who never suppressed our inner urges. I have already men n e d that our father was already in jail.

Correspondence with the family was not allowed. I do not know if you are aware of the hardships of the families of the freedom fighters before independence, because today you are sitting here in a free India and many of you may have been born in Independent India. We received a letter which our father had put in the pocket of the coat which he had sent for the laundry wash. He had written “I have read in the papers. Heartiest Congratulations to Mātājī Nirmalā Devī." Thus, even then all of us were proud of her.

Just the other day some persons who are writing the biography of a freedom-fighter had enquired about Nirootāi's contributions to freedom struggle, because she and a friend of her's had dared to travel about with this freedom fighter as his daughters only to save him from being arrested.

Even after her marriage Nirootāi did not change and only because of her such unequivocal qualities she has been able to collect a big family of so many of you. According to me she has been attracted by `Sahaja Yoga' mainly because of the solid foundation, of right values, importance of an ethical life and spirituality, laid by our parents in our childhood.

Every evening, after returning from the court, our father played the organ and taught us Bhajans [devotional hymns] of all religions. We are Christians but I do not remember any special preference for Christian hymns alone. Being fond of music I was specially interested in learning these Bhajans. The first Bhajan taught was “Bande Jap Man Har Giridhdri": O mind remember Har [Shiva] and Giridhari [Śhrī Kṛiṣhṇa] in Rag [melody] Darbari Kanara. He even made us sing these Bhajans individually.

Thus reverence for all religions was imbibed in us right from our childhood and with this background, I am not in the least surprised that `Sahaja Yoga' has become the `life mission' of Nirootāi.

Her another distinguished quality is her motherly love for all. We are much impressed and moved by the deep faith and the genuine devotion that all of you have for her. I have been observing since yesterday how earnestly and tenderly you want to look after her. I remarked jokingly that I cannot be certain that even my daughters-in-law would look after me so well! Therefore in a world like this, to come across such deep faith, genuine devotion, loving considerations and pure affection is a rare experience. We shall collect by thousands if we are asked to be selfish, to distrust each other and to be violent and destructive. But we shall hesitate to come forward if we are asked to love each other, care for others as our own and respect a human being just because he or she is a human being.

Therefore Nirootāi has accepted a real challenge, a challenge not only on the national level but also on

international level and for this we, brothers and sisters are very proud of her. She has given me an idea of her work and the people who have become her disciples. Why not? Because I firmly believe that `goodness' is the essential quality of a human being and therefore whatever temptations may come his way he ultimately chooses the right path and comes to realise that spiritual life and God are not myths but are Real! I am grateful to you all for giving me an opportunity for expressing my thoughts before you and on behalf of our family members I pray to God that Nirootāi should be blessed with a very very long life. We shall try to contribute in our way in her mission of `Sahaja Yoga'. I am sure all of you will also cooperate with her. And in the end, beseeching the Lord to help her, I conclude my speech.

Contents: **1984-03-xx, Public Program, Sydney, New South Wales, Australia**

(very likely 1983) from The Wind, Vol. 1, Issue 6 (Mar 1987), p.17

Human beings are the epitome of evolution. They have to just get to their realisation. Especially for Australians. I have told you what special thing you have in you is innocence, that there is innocence lurking all the time in an Australian and that is going to work out great in this country and maybe one day in the whole Western world maybe it will start from Australia this movement of Real Spirituality.

***Contents: 1984-04-10*, Public Program, The Tradition of Seeking, Porchester Hall, Porchester Road, London, W2, UK**

I bow to all the seekers of Truth.

So very happy to see so many Sahaja Yogis as well as so many seekers today here to know about themselves.

First of all we have to realise that when we use the word `I', when we say “I like it, I want it” we do not know this `I' at all. This `I' is unknown to us. What part of us likes it, what part of us dislikes it and what part of us is the reality? We know what we can see with our eyes, with these human eyes, with the human awareness that is available to us. We can at least as human being have a conception, have an idea that there has to be something more to this life. It's not that we are just to be born on this earth, worry about material things of life and then die worrying about them again. That's not the life we are here. We are human beings specially created, delicately, beautifully looked after, for what purpose? Why are we here? We have to understand that there has to be some higher purpose of our life. But it's definite that we have not yet felt it and so many of you have felt it too.

Seeker is that special category as I have told you who is aware that you have to seek something more than material well-being or the power or the so-called pleasures of life. There's a special category born out of the people who have had this seeking before, before they came on this earth and they had this seeking, they worked it out and today they are ready to receive the knowledge. Now this knowledge is not the knowledge that you can know through your brains. Whatever you

can know through your brains is all limited because your brain, the capacity of it, is all limited, so you have to have something higher sensitivity in your central nervous system to know this knowledge I am telling you about. Now when we talk of knowledge we do not know that it is the knowledge through our central nervous system. When we evolved to human state whatever we know, we know through our conscious mind, through our central nervous system. But as far as the brains are concerned we can think of anything, we can think that we are now become the King of England, we can think that we are the President of America. Whatever we think we can go ahead with it and whatever we want we can read, all that is nothing but a mesh of words.

There's no reality about it. The reality exists in our central nervous system, in our conscious mind and that's why the knowledge has to be in your conscious mind.

Now those who have tried to misguide the seekers had some gross intentions, maybe to make money but I think the subtler way they are so negative that they didn't want you to seek. I have met many seekers all over the world and I've found they were all exhausted people who have been to wrong type of seeking. They are so exhausted that they have no energy left now any more to seek. They are so fed up of seeking, so doubtful about everything, even about themselves, that they don't want to seek and thousands and thousands or maybe billions are lost like this. Their misguiding forces, their Gurus have been exposed but still these misguided people are still blindly following something which is destructive. It's a very sad thing that traditionally you should have known

what to seek, what to find out, what is the Spirit, what do we gain, how do we get it. But I think in this modern style that we live, we have lost that tradition.

Just now I was coming I saw so many houses built so traditionally like this one without the cement.

So beautifully it is but we have lost the tradition. Now we can't make them. We have lost it. In the same way in our seeking also we have lost the tradition to know what we have to expect, what are we to know.

What do we have to know is about that All-pervading Power which has been described in all the scriptures. In the Sanskrit language it is known as Brahm or the Nirākār or the formless energy of God, the All-pervading Power of God, of love, the Divine Power of God, of God who is living, the Power that does all the living things like transformation of flowers into fruits; like changing the seasons; like working in our heart; the parasympathetic nervous system; all autonomous things that happen; everything that living work has to be dependent on is done by that energy which is the All-pervading Power of God. Sahaja means `born with you'. Saha Ja.

Saha means `with'. Ja means `born'. It is born with you that you should get this Yoga, the union with the Divine, with this power that is all-pervading. This right to get it is born with every human being and you have to have it and for that it is said that you have to go to a master but master who is a sat Guru, who is a real master. Reality doesn't mean how he dresses up, doesn't mean what he does in life, it doesn't mean how he earns his living but real personality is that which makes you meet the Divine Power. He's not interested in your purse. He's not

interested in your wife or husband. He's not interested in all these things. His interest is only one that you should get your fundamental right established of this union. For that He works. `How can you pay Him for this?' is a simple question we cannot understand. We think we can pay for everything. This is our ego to think that you can pay for everything.

So many things you have, can you pay for them? Can you pay for love? You cannot. Can you pay for being born in England? You take it for granted. We take for granted so many things that God has given us. How much you have paid to be a human being? You have paid nothing but it is difficult for human beings now to understand that there is something for which you can never pay. You cannot put in any effort. It has to be effortless.

Actually putting effort itself builds up stress and strain. Anybody who says that you have to put in effort for it to get your Realisation you must know that it is wrong. It cannot be. It's just the akriya, is the opposite of effort.

I'll tell you an example. For example, a man is standing in a very Sahaja manner, is spontaneously in a relaxed way. There's no pressure on his body. What you call the prayatna part, the energy of prayatna is not acting, like people who are standing will move their hands, scratch their heads you see, slouch themselves. But a person who is standing just not bothered, absolutely relaxed. And another one is standing with some intention. Maybe the intention of catching the thief or whatever it is, some intention.

He has that idea that he has to achieve something through this body and he's in an effort. Now this man, the

second man, is not suitable for Sahaja Yoga, is not suitable for Kuṇḍalinī awakening because his energy has gone outside. All his attention has gone outside on to something else. But a person whose attention is relaxed, a person who is just not bothered about other things is the person who gets Realisation quicker.

Many people who come to the program are mostly futuristic. They are thinking how they are going to get a car or something like a bus or I don't know what all. “What's the time now?" You see even if you look at the watch there's attention. Attention has to be relaxed first of all. That's very important. Unless and until this attention is relaxed it's difficult to raise the Kuṇḍalinī.

Now there are people supposing who are sitting and doubting, doubting, I mean that's the habit we have, we doubt everything because we are shoppers. We go to the shops and they will pay money and we're doubting, “Is it all right for the price or am I saving some pounds or not? Is there some consumer surplus?" We weigh it all the time. In the same way, when we come for Realisation also we sit down here, “Is it what She says is correct or is She another hoax?" We start doubting. Unless and until you are mesmerized you go on doubting but in Sahaja Yoga you are free. You cannot be mesmerized. If you are mesmerized then Sahaja Yoga cannot work out so you cannot be mesmerized. You are absolutely free.

You are free to choose, choose to relax, to get your Realisation.

Now when you try to relax you'll find all these things will be there but you should learn how to neutralise it. Neutralise it by saying `I have come here for my Self-

realisation, that's all and I have to get it.' So these thoughts which have been hovering will also settle down. It's important that these thoughts must be settled down, otherwise you are still busy, you see, so many things, there are so many tags that keeps you down. Of course, you know that here at least there are seventy percent people who are realised Souls sitting in this hall. Never happened in this hall. I don't think you could have had such a congregation before, such enlightened people sitting down here. But this relaxation has to be first established which I find is a very difficult thing in the Western countries because they are over alert to things, over sensitive even to the sound over, any child cries and suddenly the attention goes out.

Something happens all the time because of the hubbub of this modern time and the peace that is required within yourself, minimum of minimum, is also not there because there's no peace outside. It's a vicious circle. We are seeking the peace and the peace is inside they say and to get the peace inside you must see that there is at least peaceful atmosphere outside.

So people would go to Himālayas, sit down there and try to achieve their Realisation.

But I must say today the Sahaja Yoga in it's modern state has become really quite aware of the modern society. Whether you are in the hubbub, whether you are in London or New York, you can get your Realisation. I'm Myself amazed the way it is working out, very much amazed at its speed and its way of getting it done at any cost. Whatever may be the situation *[UNCLEAR* it will] work out, it does work out. I can understand thousands of

people getting Realisation in India, in the villages, not in the cities but in the villages. But even in New York we could see people getting Realisation, even in Hong Kong.

So I should say one should not worry, think about those things which are your surroundings and atmosphere and bother your head about it.

Just now you have to just see within yourself that you have to have your Realisation. Once you have your Realisation you will know what peace is within and then you will know what peace is without. Then you will know that you are a part and parcel of the whole, that you become part and parcel of the whole, not that just a lecture that you are brothers and sisters but you do become, in the sense, you start feeling the other person within yourself. You help the another person through the methods that you learn how to use this energy, this All-pervading Power which starts flowing through you. It is all over. It is all over. It is within you also. Otherwise how are you doing all living work? But you are not aware of it. You cannot handle it, you don't know how to adjust it. Once you become part and parcel of that it starts flowing and once it starts flowing through you, you have to just learn how to use it. Simple methods for which you have to come to some centers that we have. This is the trouble is that thousands will come to My lectures but to the center very few are coming.

There again the tensions like somebody supposing he is a minister he'll come to My program. In India I have seen people, ministers and commanders and the chief of air force, this that, all are there for My lectures but for My program, none of them, because they are quite conscious

they are big people. How will they come to the centers? Programs are all right but not to the centers. Why? They are conscious.

That consciousness itself creates the tension. To be conscious that you are something is a horrible haunting nightmare. You are nothing but the Spirit. All these are outside things. Tomorrow they'll drop out like that.

So this consciousness of ego that “I am something, how could I go to the center and how could I learn, you see that fellow is not even educated and I'm such an educated man, I am doctor of this thing, that." These things give you tensions and these tensions cannot lead you further. You might get your Realisation. It might just sprout and finished. You won't grow. You have to grow and you have to grow so that you mature.

It's a big confusion in the West that they talk about individuality. We should be individuals. Even a boy of seven years would like to say “I like it. I, I, I." He thinks he is an individual but without maturity how can you be individuals? But when you talked about it, it didn't mean individuation, means that you must mature. Once you mature, when you become the Self, then you are an individual. Before that you are not. You are a slave of all your habits. How are you an individual? You are a slave of your mind. You are dominated by your surroundings. Even a slightest sound can upset you. You get upset with the smallest thing. How are you an individual? Only because you can do what you like, you are an individual? To be an individual you have to become the Self. This is the missing point I think in the Western philosophy when we think of individuality and that's why everything is

going amok. The whole thing has to be worked out to your maturity of your wisdom. You have to become that peaceful beauty and then you become an individual personality. Like a fruit has to come up ripe and then it separates from the tree and becomes an individual when then through the seeds of this fruit other trees can grow.

Otherwise, if it is raw and it says “I'm an individual” it's spoiled. It's of no use. It has not matured.

So first we have to achieve our maturity in Sahaja Yoga and then you will be amazed to see your own glory, your own depth. The shallowness will disappear and the deeper things which are so subtle, which looks so mysterious to us, become so apparent and the whole knowledge about your Self becomes so easy.

Like so many newspaper people ask Me, “Have you got all Your disciples scholars here?" I said, “No, I think few may be scholars, very few, but most of them are knowledgeable. They have the knowledge." And this is what one has to achieve is the Spirit.

Now as you know I have been speaking in England for the last twelve years and thousands and thousands of lectures I've given in England, America, Europe, India

So in this short lecture how much can we achieve? But only thing one has to understand that whatever we have is not the end and the end is very near and this is the special time when we have to have it. It is absurd to live like this satisfied with the mundane things, with the ordinary things, because you are not born for them. You are born for something special and that special you must have and this is your fundamental right to have it. And why should you deny yourself that fundamental right

when it is available, only because you are whimsical, because you have funny ideas, because you have got some sort of a kink in your head? You are so great and why not find that greatness, that glory, that's, wealth that is within you. It should not be given up for anything whatsoever.

Is a very important time and is a fantastic time when you are born and you realise that you yourself, a special personality, that you are a seeker. I hope you'll ask Me some questions and I'll answer you because really I have spoken every day in India and there has been a very little gap for Me here also.

So I don't know what more to say but if you have any questions I'll be very happy. It's a sort of an introduction I have given to new people. May God bless you.

I think you can ask Me some questions if you have. If you can come here nearer to them *[UNCLEAR]*.

You do not know what to say about what? Question: *[UNCLEAR]*.

Shri Mataji: What's it? Question: *[UNCLEAR]*.

Shri Mataji: Why do you want to cut off from everyone? Sit down.

Question: *[UNCLEAR]*.

Shri Mataji: No, no, no, no, that's all wrong idea. You don't have to run away from anyone, they are so beautiful. Imagine I have to cut off from everyone, then what will happen? You don't have to cut off at all. On the contrary, you become one with everyone. Even if you are here or not you cannot be cut off. You become the part and parcel of the whole, then how can you cut off? If this

finger is numb then it can cut off, you see, but when it is not, it is connected with the whole, why should it be cut off? Question: *[UNCLEAR]*.

Shri Mataji: *[UNCLEAR]*. No you are, that's what you have to see, that's your idea that you are an individual, you are not. You become only an individual when you become the whole. That's the dilemma.

Hanging in the air you cannot understand it. Once you become the whole you are surprised that you are an individual. You are an individual Self but which is awakened. When you are not awakened Self you think you are individual because of ignorance but once you get the knowledge then you become one with the whole. Then you become the whole, the real individual. Before that you are not the whole. Before that you feel you are individual.

Question: *[UNCLEAR]*.

Shri Mataji: You see, this is, this comes out of ignorance. You are part and parcel of the whole, that's the truth. That's the reality and when you try to become one alone you become malignant, you become a malignant cell. You see, so that's anti-life, that is anti-evolution. You have to become the whole.

Question: *[UNCLEAR]*.

Shri Mataji: That's you, that's you very much. You become Me and I become you. All right? You are very much that, you are the Spirit and when you...

Audience [interrupts]: *[UNCLEAR]*.

Shri Mataji: Yes, yes, I would love to make everyone that way but let's see how many. You have to try. That's the

first time you enjoy others you see. That's the first time you really enjoy others, other human beings. Really enjoy them. It's so beautiful, they are beautiful things. They are nothing to shun.

All like lotuses. Beautiful flowers. Yes, My child? Question: *[UNCLEAR]*.

Shri Mataji: What is the whole? I mean, there's a big lecture on that but I would say that it's a conception for you, is a hypothesis for you. For Me it's the knowledge, it's the reality but if I tell you something you need not believe. It is better that you feel it, that you become the whole. Now what is the whole? It is the whole body like we are, in the same way the whole cosmos is one body, the whole universe is one body, the whole creation is one body and you become part and parcel of that in the sense you become aware of it, of this oneness that you are a part and parcel of the whole. In short, I have told.

Question: *[UNCLEAR]*.

Shri Mataji: Yes, then you become the whole.

Question: *[UNCLEAR]*.

Shri Mataji: Yes, but you become the whole like a drop falls into the ocean becomes the ocean, doesn't it? Question: *[UNCLEAR]*.

Shri Mataji: *[UNCLEAR]*. All right, now what's it to be? Somebody else? Question: *[UNCLEAR]*.

Shri Mataji: What? Question: *[UNCLEAR]*.

Shri Mataji: What sense? Question: *[UNCLEAR]*.

Shri Mataji: That you know that you have become the part of the whole, that part that you know that you are the part of the whole, that much. That you are aware that

your existence is absolutely related to others. You are not alone. That part and that part is nothing but your Spirit. The more you evolve, the more you see the light, the more you understand. Like this in this room supposing, you have no light, then there is, you think all of you are separated, you see. Everybody sitting separately, everybody grouping this, grouping that.

Somebody says that this pillar is the truth.

Somebody says that these lights are the truth. Like that they go on having individual ideas. But when the light starts coming, `Oh, no, no, no, this one is also with me in the same room. This one is also with me.' The relationship improves. Gradually you start seeing the light more and more clearly. You start seeing you that no, we are all in this room.

Any problem to this room is problem to all of us. If there's a bomb going to fall on this all of us are going to suffer. You can feel it if you are going by a ship and it's better. In a ship some people are together, all right? Just put together and all the problems of the ship they face all of them together and they are surprised that we have no individual problems. We have a collective problem.

So the whole universe is one. Because we are not aware one person is dealing with one problem, another is dealing with another problem, Third one is dealing with another problem and actually no problem is solved because it is the problem of the collective which has to be solved. Now how to be one, collectively one? We cannot think because there is no light. Say for example, if you have to climb up to these steps here, come up here.

So then what you have to do is to find out a way. Now how to find out? If there is a light all of you can see this is the way to run up to the stage.

So unless and until there is a light you do not see the problem being solved.

Now, individually if in darkness you solve one problem thinking you are very individual, a great individual, another is solving, you are not solving the problem at all. On the contrary, you are creating problem for others. Perhaps you are hitting someone or you are aggressing someone or you are trying to take the area of somebody else, you don't know because you are in ignorance. There's no coordination, there is no cohesiveness, there's no understanding. But in the light you see another person sitting next to you, he has a chair of his own and all that, you know where you are standing. You'll step onto somebody else's feet if you don't know where you are with the other person, what is the relationship. When there is light then you see the whole. Not only that but you see the beauty of this place. In the darkness you might see some ghosts here or something like that in your own imagination but when there is light then you see the beautiful place, how it is beautifully done. Because there is no light we think we are separated, we are individual and because in that loneliness we see all kinds of ghosts, we want to run away from that, also want to become greater individuals but actually when there is light, it's beautiful, it's beautiful, the world is beautiful. The whole chaos is very superficial. All these problems are extremely superficial.

Now, what is it? Is it the same person asking questions? No, please don't. If you have asked the question then you should not now. Let others ask, all right? Sit down. Now, what is it? Question: *[UNCLEAR]*.

Shri Mataji: *[UNCLEAR]*.

Question: *[UNCLEAR]*.

Shri Mataji: All right, that's it. That's the question, very good question. That you have to have on your central nervous system the knowledge of others. That you have to be collectively conscious, that you should feel another person on your central nervous system. That's scientific. That you can feel it on your fingertips. Mohammed Sahib has said that when the resurrection time will come then your hands will speak, not your tongue. Even for people who are blind, those who cannot speak, deaf and dumb, they use their fingers, to express. But when you get your Realisation your fingers speak. That means you feel the Cool Breeze around you of the Holy Ghost, the Cool Breeze of this living force on your fingertips. You feel the energy flowing through you and when you try to test yourself you find out what's wrong with you on the centers and you can feel others also what's wrong with them. Actually you can feel it.

This is the only one thing but there are thousand and one thing happen to you but I am just telling you the only thing that happens at collective awareness point, to that extent. But it's so many things happens to you when you get your Realisation. But firstly you should start feeling your own centers and the feeling of others on your fingertips. As we say always, “It is on my fingertips." That is the criteria. I mean there are many who say, “We are

born again, I am a self-certified people." They are not. There's no transformation. And then the transformation starts your priorities change, you become a transformed personality, a dynamic force because the force that you are acting or the one that is manifesting is such a dynamic force and so peaceful and compassionate and so kind and dynamic. Can you imagine love being dynamic? Yes, please.

Question: *[UNCLEAR]*.

Shri Mataji: That's it. Now that I won't tell you, I'll give you. And I'll teach you how to give to others, all right? That cannot be told, that has to happen through the Kuṇḍalinī awakening and that is within you. You know there is Kuṇḍalinī force within you which is the Pure Desire. It has to manifest and when it manifests you will get it. That's the thing, that has to work out. It's a primordial force within us which works it out. That's all. But how it works out, how can you tell? Because you can see with your naked eyes it's rising. It's a thing that's pulsating. You see the pulsation on top of your head as Kabīra has said: “A shoonya shikhir per anhad baje re." On the head you start feeling the throbbing and then you feel the Cool Breeze coming out of your own being. Surprising isn't it? But it happens, it does happen. It's very simple to sprout a seed, isn't it? But how it works out must be very complicated and the capacity that the Mother Earth has, if somebody has the same capacity you can get your Realisation, why can't you? But the best part of Sahaja Yoga today is that you get the power, you can do it, you can give Realisation, you can work it out,

your own powers manifest. Any other question? Question: *[UNCLEAR]*.

Shri Mataji: All right, that's very simple. That I am going to do that. They are very anxious. It's a very good idea because you are a seeker, out and out. That's the right question, yes. That's a very encouraging question. That's the thing, you'll just get started just now. All right? Is there any other question now? Yes please? Question: *[UNCLEAR]*.

Shri Mataji: What's that? Question: *[UNCLEAR]*.

Shri Mataji: No, no, no, no you go beyond time, nothing, you become, you just become, you go beyond time, as we say, kalatīt. You go beyond time. There's nothing like limited time like military hours or nothing. No. You become a free bird, you see but for a free bird which is say a bird that has come out of the egg has to learn how to fly. That's all. Then the whole sky is there. Go ahead, go wherever you feel like it. First strengthen your wings and fly. That's the point where people miss, specially in the West. If they miss there, they get their wings all right. But they don't learn. They don't take it seriously.

So far our experience has been that. That's why the progress of Sahaja Yoga has been very slow. I met so many people like that who said, “Oh, why we have been to Your program. We've got Realisation, Mother, but we have had no time. We were busy you see, this thing." Then you must have little time to learn. That's very important. All right, now should we have it? All right? Good.

I'm sorry you had to take out your shoes. The reason is this Mother Earth helps us a lot so you take out your

shoes and you put your feet to the Mother Earth. You don't know this England. England is a very holy place and the place of Shiva Himself resides so you put your feet on the ground, very carefully and we have to ask this Mother Earth to help us at this time. She has the power to help us a lot, to suck in all our problems, so in our heart we have to thank Her for what She has done for us and to request Her at this time of our salvation She should help us. In full faith in ourselves first of all, we should not think that I may not get and all that, we shouldn't worry. Must have faith in yourself to begin with. There should be no guilt and there should be no feeling that I am incapable, how will I get it? Everybody has to get it and forget the past. This is transformation power which is tremendous. You should forget the past, absolutely forget the past. Whatever has happened has happened.

Now if you have anything tight please loosen a little bit if possible.

Sometimes if it is too tight it troubles you. You have to sit in a proper way, little bit if there is any tight in the neck or here. If you can little bit loosen it, it will be better. Physically, be comfortable. Sit in a very comfortable way. Physically you should not be uncomfortable. Nothing should bother your attention at the time of your Realisation.

Now just put your hands like this. You can take out your spectacles also because eye sight improves with Sahaja Yoga. You don't have to open your eyes, keep your eyes shut. There is no mesmerism on.

So, put your hands just like this towards Me and close your eyes.

Now in this introductory lecture I didn't tell you how the machinery within us works it out and how we have to work out our own machinery. But whatever I tell you, you try to listen to Me and don't start arguing within your mind. Tell yourself that I am not going to argue it out. Let Me work it out, it will work out. It's very simple. Just put your hands whichever way you are comfortable, either like this or on your lap, whichever way you feel comfortable for a while. It's not long time. It's very quickly it happens, very quickly it happens but still it's better to be comfortable so that your attention is not drawn away due to discomfort.

Now you have to close your eyes and don't open your eyes till I tell you. It is important because if your eyes are not closed then maybe the Kuṇḍalinī may drop down, maybe, or may not start even. Keep your eyes shut, that's all. Nothing has to be done for about a minute. Just keep your hands like this straight towards Me. Please put your hands like this, like this. This gentleman? Yes, like this. Be comfortable.

Now close your eyes. Close your eyes. Put your hands straight towards Me, not towards yourself, your hands but towards Me straight. Now close your eyes. You should try to close it for a minute.

Now later on you'll realise on the left side is the manifestation of your power of desire, left side. Now you have a desire to have Realisation so you put your left hand all the time steady towards Me like that with the desire that you have to have Realisation. And the right hand has the power of action so you yourself should

learn how to awaken your own Kuṇḍalinī which is a very simple thing.

So what you do is to put one hand towards Me and one hand on your heart, the right, right hand on your heart. Now keep your eyes shut. In the heart resides the Spirit. It resides in the heart, so you have to ask a question to Me, `Mother,' in your heart you have to ask, `Mother, am I the Spirit?' Ask this question thrice, `Mother, am I the Spirit?' This is a very fundamental question you are asking but don't feel guilty this is the problem is that as soon as you ask the question your mind stands against you and says `Oh how can you be the Spirit, you have done this wrong, that wrong and all that.' You forget it and just say the question.

Now the right hand should be moved on the left hand side of your stomach, left hand side of your stomach. Keep the left hand all the time towards Me. We are doing all the work on the left hand side if you notice, with the right hand, so now when it is on the left hand side, your right hand on the stomach.

This is the center of the master, the Guru. Now, you have had some good Gurus and had some bad Gurus, some had a very great Gurus also, no doubt. But your Principle of Guru is to be first awakened. If you are Spirit you become your own master, your own Guru.

So here you have to ask a question thrice, in your heart you have to ask a question thrice, `Mother, if I'm the Spirit am I my own master? Am I my own Guru?' *[UNCLEAR]*.

Now, put this hand still in the lower part of your abdomen, in the lower part of you abdomen. Here is the

center we get the knowledge about the roots and the knowledge how to work out this Divine Power, the laws that are Divine. That's why at this center you have to ask, I cannot force you. You have to willingly, freely, on your own humbly ask that `Mother I want to know the True Knowledge.' We call it Shuddha Vidyā, the Pure Knowledge. You have to ask for it. Six times. Better. Now, six times you ask.

Now, raise your hand higher on your abdomen on the left hand side. When you have ask this question to Me now let us see if this knowledge is working in you or not, but you have to be confident, absolutely confident about yourself. No diffidence, no guilt no ego, nothing but full confidence that you are the Spirit.

So as you are the Spirit you have to say with full confidence, `Mother, I am my own master.' Say it ten times, `Mother, I am my own master. Mother, I am my own Guru,' because you are the Spirit. You have to say this ten times because the Principle of Guru is ten. Your valencies are ten, the Ten Commandments.

`I am my own Guru. I am my own master.' While saying that you are not denying any great Gurus which have been great people on this earth but their ten principles you are trying to invoke within yourself by saying so that `Mother I am my own master.' You are not to be nervous about it. There is no need to be nervous. Nothing harmful can happen to you. You have to be completely confident of yourself, first of all.

Now, raise your hand, after saying it ten times, to your heart again. In the heart you are the Spirit so you have to

say, `Mother, I am the Spirit. I am the Spirit. I am the Spirit.' Say it twelve times please.

This is according to the number of petals you have for a particular center we have to say it. `I am the Spirit.' Better. Tensions are too much, too much tensions.

Question: *[UNCLEAR]*.

Shri Mataji: You shouldn't doubt Me at this point because you have come to Me for something very great. You have to, not to accept Me but you are not to deny Me either.

Now put your hand on your neck on the left hand side, near your shoulder. Where the neck and the shoulder meet on the left hand side, push back your hand, push back your fingers and hold it tight and try to press it. This is one of worst Chakras in the West where we feel guilty about everything, all the time we feel guilty. I don't know why the psychologists and every sort of a training and all this things have brought this guilt in the West. Now, putting your hand down there pressing it, you have to say, `If I am the Spirit how can I be guilty?' So `Mother I am not guilty.' You have to say that sixteen times and if you still say that you are guilty then you better say it thirty-two times. It's stupid to sit down and sulk and think that you are guilty. Who are you to judge yourself? You have no right to judge yourself like that all the time. What guilt can you commit which cannot be forgiven by the powers of God? He's the ocean of love. He's the ocean of compassion but do you know He's the ocean of forgiveness? Say it sixteen times with full confidence that `Mother I am not guilty.' This is the worst hurdle I've had, always, specially with English people. I don't know what they are guilty about. All right, better, getting better.

Hold it tight, push it down and say that `I am not guilty,' with full confidence.

Now put your hand on your forehead across, right hand, with the left hand towards Me. At this point, you have to say, you have asked, of course, you are dependent on the forgiveness of God, so now you have to say that, `I myself forgive everyone. I forgive everyone.' Put your, only right hand and left hand towards Me. `I forgive everyone. I forgive everyone.' Otherwise, why should God forgive you? Now. You see when you say I forgive everyone your tensions will disappear because most of the tensions are there because you do not forgive others and is it not funny that the people who you don't forgive don't suffer. It is you who is suffering. You are suffering yourself, not the people who have made you suffer and you are suffering at their hands more because you cannot forgive them, so just say, `I forgive.' And how dare anybody can harm you? This is the greatest weapon you have, when you forgive others, nobody dare harm you.

Now put your hand on top of your head, on the fontanelle bone area here which is called as Tālu. Now press it hard with your palm and move it clockwise. Now again at this point, I cannot overcome your freedom.

Here you have to again ask Me that you want your Realisation, so humbly you have to ask `Mother, I want my Realisation. Please give me my Realisation.

So please Mother give me my Self-realisation. I want it.' In a humble way, say it seven times and press it hard, move it, move it in a clockwise manner. You just say that.

[Shri Mataji awakens the Kuṇḍalinī of the seekers, seven times a wind voice is heard.] Now put both hands in the same way as you had started. Now don't think about it, don't think about it, just don't think. You are not thinking if you see within yourself there's no thought. Now, slowly put your left hand on top of your head about four, five inches, slowly. Now don't think, that's the main point is. Now see if there's a Cool Breeze coming in from your head. Right hand towards Me. Is it? All *[UNCLEAR* right/rise]. It's very subtle. Move it up and down. It's a very subtle thing. Little higher.

Not very high. Move it and see. Try to find out. It's there. It's very subtle. In the beginning it is. At the back, here, just on top of the fontanelle bone area.

Ah. Now put the left hand towards Me and without thinking, again don't think, now put your right hand, you can stop your thinking, now put your right hand and see. Right hand. See now. Is there, right hand. Put the left hand towards Me, left hand towards Me. Now right hand and on the top of your head.

See. Now do you feel? Ah. Better? Now raise your hands above like this all of you, just raise it high and now ask a question in your heart, `Is this the Cool Breeze of the Holy Ghost? Is this the All-pervading Power of God? Is this the brahma?' Now feel it in your hand. Just see. With all this, it's very subtle. You'll also feel it in your hands.

Now I'll tell you how one has to raise the Kuṇḍalinī oneself. First of all, when you are sitting down put your left hand in front of you just like this, left hand and the right hand has to be moved, up, forward, downward, backward. In this way you have to move your right hand

in a clockwise manner and try to move it slowly, watching the left hand, carefully putting attention on the left hand. Keep the attention there. Try to raise it. Now loosen your arms and give it a twist, give it a twist and tie it up. Now, we have to do it three times and the third time you have to give three knots. That's it. Again. Slowly, do it very slowly watching your left hand. Left hand should be watched all the time till you go up, loosen your shoulders, put your head up, again give it a big twist and now a knot. Again, once more. Now you have to give three knots. Now loosen your shoulders, put back your head. One knot, second knot, third knot.

Now you have to protect your aura. That is very important. You are going now to do this. Now how to do it? Please put your left hand on this and try to do this. One, two, again, three. Again, four. Again, five. For all your centers. Again. Six. Now the seventh. Now see you feel the Cool Breeze in the hand more. All right? Good. Now raise the hands who have felt the Cool Breeze, let's see, both the hands.

[UNCLEAR]. Everyone.

May God bless you.

It's done.

Contents: 1984-04-22 **Easter Pūjā, The Way of Our Full Spiritual Growth and Sahaja Penance, Temple of all Faiths, Hampstead, London, UK**

Today we are celebrating the resurrection of Christ [and] with it we also have to celebrate the resurrection of human beings, of Sahaja Yogis who have been resurrected as realised Souls. With that we have to

understand that we enter into a new awareness. There was no need for Christ to enter into any new awareness, He had to come down and again to show to this world that you are the eternal life, that you lead a life that is spiritual, which never perishes.

You have to rise into that new realm which is the realm of God Almighty, what you call `The Kingdom of God'. And He said it very clearly to Nicodemus that, “You have to be born again” and when he asked, “Am I to enter back into my mother's womb to be born again?" And He said it so clearly! It's so clear. Those who don't want to see can remain blind! But he said it very very clearly that, “No” that is, “whatever is born of the flesh is the flesh, but whatever is born of the Spirit is the Spirit." I mean nothing could be more clear than that, that it has to be born of the Spirit.

Of course, human beings have a special capacity to twist everything around. For them Spirit could be a book, could be some words, could be an organization, a church, or some sort of a thing like that which they have made. But whatever is man-made is not the Spirit, this is the clear statement of Christ, which people wanted to avoid and start their own organizations, their own ideas and created a very mythical thing in His name. And now the time has come for it to be blasted.

It has been going on and on now for thousands of years, captured so many innocent people and people are into it. But when you are resurrected and you become realised Souls, one has to understand that now your movement is inward, you are moving towards your roots and not outside.

So whatever was the endeavour before realisation has to be changed, the direction has to be changed and that point mostly we miss.

This is the thing, today, [that] I am trying to explain to you. That, so far, to a human mind entertainment was important; entertaining. To the mind, not to the Spirit. Entertainment to the Spirit is absolutely opposite to the entertainment to the mind.

Like somebody the other day telephoned to Me and said that, “Mother, there is no excitement in Sahaja Yoga." [Laughter.] The excitement is too much. We are going against that. We are going towards peace, not towards excitement and this kind of electric shocks that we require every time. You see, a drunkard, he's alright in the morning but evening time he goes off, he needs a shock, a, some sort of an injection into his body. All human enterprises have been like that. They are to excite your body. Because if it is the dead you are dealing with, then you have to excite it. But something that is living, that is eternal, you have to enjoy it and not to excite it.

So the direction has to be [a complete] juxtaposition and that is where many Sahaja Yogis fail to understand. How do we do it? Is the point. How do we make our attention move inward instead of going outward? If you start from the time you are born again it is much easier because it's a new venture into [which] you go in. That is the peace, peace of your Spirit, the joy of your Spirit, which is permanent, you don't need any excitement from it, it is permanent, it is eternal.

So the first thing that comes to our mind is that: whatever we were doing before realisation we have not to do. The first and foremost thing is that realisation comes to you effortlessly.

So the effort which is built into your body all the time, the energy of effort, `I must do this, I must do that, I have to do this, I have to do that!' That creates tension, that I have told you already.

So what do we do? We do not try to compete with others. We do not try to fix certain timings, dates, watches. We do not also put our attention into any endeavour which puts us into effort, but we relax that attitude of effort. It's called as, in Sanskrit, prayatna shaithilya. For a Western mind it is very difficult to grasp the subject so try to understand. That doesn't mean lethargy, doesn't mean lethargy. One should never confuse with the dead, the energy of the living.

Now we are trying to transform our energies towards the energy of the Spirit.

So you have to allow the Spirit to take over. Your effort of your mind should be reduced and the energy of the Spirit should work through you. Now how do you do it? First is detachment, detachment. Detachment start with the thought, let us see the thought. It is called as vichara shaithilya, relaxation of the thought. Now a thought is coming into your mind, some thought [like], `Today is Mother's Pūjā let's go. We have to hurry up.' You see, `Must get this, you didn't get the flowers, now you go to the Third World and get the flowers. You must get this and you must get that!' The second [thought] is: `No! Detach yourself! Witness. Leave it to the Spirit. Watch!'

You will get it. Many of you have noticed this. But still this mind, which is quite silly, tries to impress upon you that you have to use the old junky instrument of this mind! And it asserts that `Better use!' And when you start using that, ego comes in, you get attached to it and what you lose is your progress and thus the joy is minimized.

How do you detach yourself? For a person who is absolutely detached is very difficult to explain how to detach isn't it? I'll try! [Laughter.] I cannot get attached that's the problem is! And I find it difficult to explain to you in words, that are human words, but still, I'll try to say now.

Say, I tried something as human beings do, in the beginning, just to see how it works out; because I had to experiment. For example, when I had to, say, attend any Pūjā or anything, I used to ask them, “What is the auspicious time?" So they would tell Me, “This is the auspicious time." And then another would telephone to say “This is the auspicious time." So I said, “How can there be two auspicious times?" You see, [it's a] big problem with human beings.

So they said, “There are five Pañchangas in India." Means five books to consult the auspicious time. That's what human beings have done. I said, “Then why consult? It's better not to have five auspicious times, isn't it?" Then the auspicious time has to be beyond time. But it is bound in the time the way human beings have made it, so it is bound in the time. Like in India, it is so much, so much, so much, but now, here [in London] it's different. Then you calculate, you have a watch. You see, to

overcome all these hurdles human beings also make certain devices.

So you consult.

`Now what is the auspicious time here?', leave at that time. Then it's a big headache because there are five books to be consulted, watch could be wrong, this could be wrong, that could be so. But if you are the Spirit, then the Spirit works out auspiciousness. It's the Spirit that works out the auspiciousness. And imagine when you think like that, how much tension goes out. First of all you have to be a slave of your watch; another, you have to be a slave of the books, then you have to be a slave of the market, of the room, of the place which you have to hire. But supposing if you allow the Spirit to work it out, then everything will work out. And you will reach at the point when it is the most auspicious.

So how do you accept it? Just by accepting.

So just now, if you give up your satta, your own domain, you get into the domain of your Spirit. You give up your domain, that is your ego's domain, or may be your superego's domain. You give up that and try to see things how it works out.

Now, what is the testing point of it? How do you test it? It works out. That's the point of testing! It works out. Allow it to work out. Don't put your attention. Attention [word] has the second part of, is the `tension'. And don't try to say, `Why not today, it should have happened today, we expected it to happen. Why not at this moment?' That's your ego. “Thy will be done." So the thought that starts moving in our mind all the time, which creates tensions is not the thought of the Spirit.

So, what you should say [is], `Not this thought. Not this thought.' `Ya neti, neti wachane nigamor awachus.' `Not this thought, not this thought, not this thought,' and see how you relax. Now you are relaxed. `Not this thought, not this thought.' Just go on refusing accepting any thought.

So you go into Nirvichara. In that state you feel the Spirit.

Christ has done the greatest work on this, I should say, but we do not understand because His life was like a micro thing you see, three years.

So we have to open it out a little bit and see what He did. He has given us the greatest weapon of forgiveness. When you forgive a person, what do you do? You accept the situation, to begin with and secondly you forgive what you think has been done wrong to you. But because nothing can be done wrong to your Spirit, you just forgive, because you are the Spirit. And when you forgive, you have found that your tension goes away.

So even to your thoughts if you say, `Alright, forgive this thought, forgive this thought,' because thought is not to be punished. `Forgive this thought, forgive this thought, forgive everything.' Not forget, forgive: because then you will even forget that you are the Spirit! [Laughter.] But `forgive all the thoughts that are coming to me.' Just go on saying. This is a mantra. What is a mantra? Is that power of the word, that expresses Spirit.

So this is a very important thing Christ has given us: the weapon of forgiveness. Everybody has that weapon, everyone can use that weapon. You don't have to put in any effort for it. You don't have to pay for it, it's just you have to say, `I forgive.' You'll be amazed your nerves will

soothe down, this tension, this pressure of these modern things will be reduced if you go on saying, `I forgive, I forgive them.' For example, you go and see some sort of a... I mean if you happen suddenly to see something very filthy according to the Spirit. Maybe it is very exciting according to normal human beings, but we are abnormal people and for us if we find it rather ugly then the best thing is, to get over, is to say `I forgive, because they are ignorant, they are blind, they are not yet there where I am. I am the one who is at the Source of enjoyment, at the Source of peace and while these are not, so I forgive.' And you'll be amazed that this forgiveness that Christ gives you works out vichara shaithilya, is the relaxation of the thought.

Now this opposite movement, that you have to move [in], first of all should start at this point, today, from forgiving others.

Now what happens when you forgive someone? That means you do not react. The power to react to somebody's injuries, insults is finished. And when that power is finished, you become a powerful person because nobody can now overpower you, because nobody can kill you, nobody can hurt you, nobody can do anything to you. But it is not, again I say, shamelessness. You see people can think that it is shamelessness.

So if somebody says to you something harsh and something that is wrong, you do not accept it. But supposing I shout at someone, the bhoots run away. You have seen that many a times, I have to shout at people, so bhoots run away because they react and they just run away, but the Spirit shines through.

So in Sahaja Yoga one has to understand that it is just this central path, is just the balancing thing which is important. It's not an extreme of anything. Like when we go to say that you forgive everyone it's not going to that extreme where you have done some wrong and somebody says to you [and] you don't take that part of it, it doesn't mean that. Again discretion is the engine of your movement.

So you have to see, if they have said it, something like that, `Is it? Have I gone against the Spirit?' Otherwise, if I say to you something, you will say, `Alright, forgive Mother!' You see the point is? `Forgive Her for saying so.' No! You cannot say that to Me! So then, that is the point [from which] you start thinking, `Why Mother said so? What have I done?' Now think on those lines, so you start moving again.

It's a very thin road on which you have to walk. One side is the huge, big Gibraltar, rock of Gibraltar, of your ego and another side is a superego. In between is a small discretion path going, on which you have to see both the sides, whether you are hitting yourself with the rock of Gibraltar, or you are falling into the valley of superego. You should see that you are using your discretion.

So the another thing one has to remember [is] that whatever you were doing before realisation, is to go to extremes. For example now, you start some sort of a movement. Say, you say, `We'll have classical things!' Alright. Then you go so classical that it becomes mechanical. Now you'll say, `Give up! We'll start anti-culture.' So you'll go to the another side that you become primitive. Till you have reached the end of it and learnt a

lesson of your life, you do not return! But in Sahaja Yoga, it's a very slippery road on which we are walking and there you have to see that it is not your ego and it is not your superego.

So discretion has to be used very much and the balance, in this movement, which we need not use otherwise. Till we are absolutely destroyed we can go ahead with it, before realisation. But in Sahaja Yoga as soon as you leave your discretion you fall this side or that side. Now those people who are of high quality Sahaja Yogis take to discretion first: `How far to go?' Now for that Mother doesn't have to say because you are the Spirit. You yourself, you are the Spirit. First of all assume your position as a Spirit and then you move with it, that you see, discreetly, how far to go, how far not to go.

Now that is one of the things: that you have to become thoughtless by becoming a forgiving person.

Most of the thoughts will drop out once you become forgiving. But you cannot forgive some people, like you cannot forgive God, you cannot forgive Mother. Certain things you cannot do, so the Maryādās must be seen. Now, in these boundaries if you walk properly, you can go ahead. This is the thing which brings you vichara shaithilya or you can call, the mind becomes relaxed. Then you have to have vishayatha shaithilya: means your organs, sense organs, always react to things, because you are human beings, you are born like that.

So whatever happens you react. For example, you see a beautiful flower, you react to it.

Some sort of a thought rises with it. Now you must practice to see something without allowing any thought

to rise, then you start sucking through your Spirit the beauty, the glory, the fragrance of a flower.

Every flower is a poetry, but when you start thinking about it then it becomes a dead thing. But you just try to enjoy. Now you are the people who are on this earth to enjoy yourself, not to worry about anything.

Just enjoy! But if you are still used to, “I must do this thing special, I am something special Sahaja Yogi, I'm a very highly evolved Sahaja Yogi” then you are finished! Say, we are all going in a boat enjoy the boat and also the waves. But somebody says, “I'm a very special one, I'll try to jump down” then you are back again into the same position.

So one has to have an attitude of looking at things. Try to develop this habit of looking at things without thinking about it. Try to develop your mind on those lines that you do not react. Now this excitement business, or all this sensationalisation that is today's craze, comes from the same [source]: that your sense organs require a kind of sensation because they react. While we must have our sense organs which do not react because they must only react to the Spirit.

So we have to develop a new kind of sense organs or a new quality of sense organs who do not react to outside excitement.

Now if you want Sahaja Yoga to be excitement, how can you do it? I mean just, it is just the opposite of it.

So what you have to do is to see that your sex organs, say for example your eyes, they see something then they react. Your ears, they hear something [and] they react.

Somebody wants to talk and see the reaction, there are expectations [of a reaction]. But because Spirit is active itself, it acts itself, you have seen vibrations don't speak, they act, It has the power to act [so] you need not react.

If you can reduce the power of reaction you rise much higher. This is a thing which one has to know when now we are celebrating His resurrection: because it is tapah, it is the penance of Christ. Christ came on this earth for penance. You know in the Gāyatrī mantra, there are seven things they have said in it and at the point of Christ it is tapah, is the penance.

So you have to have the so-called penance to achieve the joy. The penance is to pull back your sense organs inside yourself. As Kṛiṣhṇa has said that you have to pull back all your limbs of sense organs like a tortoise does.

So the excitement that you require for your sense organs is no more needed, because your sense organs, now, are themselves the source of excitement. In the sense that they neutralise all the excitements. You go to that point from where it starts. A river starts with a very small, little drop and then it expands, expands, expands, expands. You go to the source, absolutely to the central point, there you'll find hardly even a drop falling on you. Another good example would be: a wheel has the central point and the wheel moves all the time but the central point has to be fixed otherwise with the wheel [if] that central point also moves, then the cart cannot move, the cart will also start rolling down.

So the central point has to be fixed otherwise the wheel cannot move.

So you go to that central point and the movement is on the central point where there is no movement, in a way, because there is only ascent, there's no revolution. It doesn't revolve any more, there's just ascent on the central point.

I hope you try to understand that all the movements come out of ignorance. All the outer movements come because we are not yet on the central point. But that achievement is not difficult because you have jumped onto it. But you again come out onto the periphery, onto the wheel.

So how to keep there and to ascend in that, line? Say, for example, there are wheels like this, wheels after wheels, but central point is fixed. Now every time you jump out, now how do you go back to the central point? Is by detachment, by tapah, by penance. Penance is to deny. It doesn't mean asceticism of outside but asceticism of within.

First of all we must learn to give, give to others. That also sometimes people find it difficult, I have seen. “Even to give $1” they said, “for Sahaja Yoga people find it difficult!" I was amazed! So to give to others is going to be even worse. Try to give to others. Detachment.

So one way is to have forgiveness, then second is generosity. If you work for Sahaja Yoga: `I haven't done anything so far.' Not to react to it what work you have done. `Oh, it's pleasure, I did it. It's my pleasure, I did it. Just out of pleasure.' Don't count it; `I brought four flowers, she brought two flowers.

I must be paid for one and a half flower.' All these calculations are on the periphery, outside, when you

were not realised Souls. Now you just don't count anything else, but your blessings.

So you be generous.

I have seen now people have different attachments, subtler ones. Like attached to their own children.

I have seen people [like that]. Once their children are born to the Sahaja Yogis then the whole world becomes their children: You'll spoil them, you spoil yourself. You are just their trustees. But to you it becomes a very big thing that you have produced a child. Anybody can produce, even a dog produces a child, what is so great? I mean, the bitch. That's a funny word to say! So, to create a child is not something great, but that you have a child in charge of you, which has to work for God. You are just in charge. But to identify that, `This child is great, he's a very big realised Soul!' and all that will blast your head completely, because it is subtler blasting. It's like hydrogen bomb. Ordinary bombs can destroy a part of it, but these subtler bombs are even worse. And that will spoil the child, that will spoil also you very much in your ascent.

So what you have to do is to see that if you have a child, alright you are just in charge, as you are in charge of all the children of Sahaja Yogis not [just] of your own. Be generous. “Udār charitrānām Vasudhaiva Kutumbakam" [meaning] “The person who is a generous person, for him, the whole world is his family." So expand yourself. “This is my family, this is my wife, how can I live without my wife, or my husband, my child, my..." This will not help you, this will tie you down completely. This is a very subtler thing you start, because now you are receding

back. First you gave up your family, gave up your children, gave up everything, came to this extreme, now you are going back! For Indians they understand that they are already too much in this, so they know that to detach yourself from your children is very important because they are already in it. They are too much attached to their children. In the beginning, they will always tell Me, “My child is like this, my mother is like this, my father is like this, my brother is like this, improve my..." and they will be all bhoots, one better than the other! Without any discretion, bring all those relations on my head and I feel terrible about them. Even, a farfetched relation of a relation of a relation they will bring in along that, “You see she's my relation." So, in India it is very important that you are a relation of such and such a person and you may not have anything to do with that person but he's a relation, so “He is a relation." So, what we understand, is that our relationships and our identifications have to be dropped completely.

We are universal beings now.

So your child is a source of joy, every, child should be the source of joy to you, every child should be. Bachelors that way are better or the ones who are not yet married, they can enjoy everybody's child nicely. But, when you are not a mother and a father, if you are enjoying [other children], what is so creditable? When you become, the parents and then, you enjoy other children as much as you enjoy your child then your generosity has started.

So the generosity of loving others, the generosity through compassion. Compassion doesn't mean that you should pity someone but compassion means the sharing

of personality, sharing of love personality. And that is where we miss the point, that compassion means that somebody has to be helped. Sahaja Yoga compassion is not that, Sahaja Yoga compassion is, it's sharing.

Now the fourth thing you have to remember. What I have told you other? First is? Is the forgiveness.

First! According to Me first is forgiveness. Second is, you can call it, the compassion or the detachment leading to compassion.

So you can call it the first one as the forgiveness, [then] detachment and thirdly the compassion. These are the wheels of your chariot which moves you. These are the wheels you should remember it.

Now, if you go further with it, with the detachment, supposing works out in you, even you become compassionate, even that comes. Still what is the judging point? How do you know that you are alright? How do you measure? How do you find out that you are alright? I mean what you call the, take the bearing, as they say, of the ship. How do you know? You must have peace, you should be a peaceful person. Agitation should be outside, but you should be absolutely peaceful person. If you are not a peaceful person then, be sure, that you are not yet there where you should have been.

Now you can say that, `Christ also got very angry, he took a whip in His hand and beat the people, so we can also do the same!' You are not Christ! You are not an incarnation, you must know, you are a realised Soul.

So you don't have to take a whip in your hand and hit others. You cannot. This is the mistake what the disciples of Mohammad Sahib have done, that they never thought

that He was an incarnation, you see. All the incarnations have killed. Kṛiṣhṇa has killed, Rāma has killed, Devī has killed.

But you are not the Devī, you are not Śhrī Kṛiṣhṇa.

So you don't have to kill anyone. You don't have to show the temper.

So if you still have a temper then know that your progress is very slow. You have to be a peaceful person. Imagine Sahaja Yogis having a Jihad. What do you say to that? Going with swords in the hand and a spear in the hand and hitting others. This point I want to make very clear because when I am there, of course, I am going to tell you everyone, but when I am not there I don't want you to take in your hands the swords and things and fight. What William Blake has written is for the incarnation. Incarnations say “Give me my..." It's not that you should say now `Give me Rāma's Ayudhas.' You cannot use! You are not an incarnation. Because the discretion of these are effective, yours are not.

So you are not to take any, weapon into your hand or even anger. Doesn't behave a Sahaja Yogi at any point, unless and until I tell you to be angry.

So this is the criteria, that you have to be peaceful person, not aggressive person.

Now different people have different type of aggressiveness. For example, men would start... men don't discuss, you see, they just slap you, finished. They don't argue they don't like to argue, at a point they will go and they'll just hit you out and finished. But women are very good at argument and very aggressive, very aggressively argumentative.

So you don't argue: is the second point. If you are argumentative then know that you are not yet there where you have to be. A peaceful person goes to a point and then argues it out. If you are argumentative then your progress is not alright.

So a person has to be absolutely peaceful and this peace is the most effective thing. We are seeking the peace of the universe: you cannot achieve it through any one of these bombs, you can only achieve it through the Spirit which is the source of all the peace.

So, I would request all of you to give up tempers, angers. Peace is the greatest powerful, thing on this earth.

There's a story, a Chinese story, interesting, about it. There were two very great fighting cocks, you see, known to be the greatest of all. And they have this excitement again of the cock-fighting in China. I mean you can have of everything in this world, all absurd things, like rugby, football, this, that, I mean there's no end to it! So these two cocks were to go in for an international sort of a fight I think.

So they said there is one great saint living here, he makes everyone very powerful.

So the owner of the cocks went to him and he said, “Will you make my these two cocks very powerful, so that they can fight and win?" He said “Alright, it's very simple. Alright, you leave them with me." So after a month when he appeared to take the cocks, they would not react to anything, they were just standing like this, watching. He got a fright of his life! He said, “How are they going to fight?" He said “You just take them, you'll see." So he took them to the arena and put them there and all the

cocks, you see, invaded each other, fought. These they were just watching, these two were watching! [Laughter.] And all the rest of them got so frightened with these two, they all ran away and they won! So the person who is peaceful is the powerful [one]. The one who doesn't react to anything else, is the most powerful.

So, one has to understand that peace is the criteria to know that you are absolutely at that point where you have to be. But peace by no, chance means cowardliness. Because, you see, I know what indiscretion is, human indiscretion. They think then cowardliness. No. You stand like this [upright] not like this. The difference between a peaceful person and a cowardly person is that a cowardly person acts to the negative forces and a peaceful person creates positive forces, constructive forces. Generates it.

So you are not to be cowardly but you have to be peaceful. And a peaceful person is like a magnet, you see, so soothing, it is.

So you can see we are moving towards the soothing qualities of the Spirit. We have to soothe, others and not to excite, but to soothe. And that soothing quality, what you call, is, we call it like the ghee: when the body is charred and is absolutely burning, then you put some sort of a ghee on it so it becomes smooth, like lubrication, [a] lubricant. Such a personality is a lubricant. It doesn't go into friction, but reduces, frictions. It is a lubricant temperament.

So you should judge yourself, `Am I a lubricant personality?' For example, you see two persons are fighting, alright? And one goes as a peace-maker; and

one goes to excite it more, you see, he joins them. Now the one who is the peacemaker is the blessed one, is the one who is the one moving towards God because he is the peacemaker. “Blessed are those who are the peacemakers." All these things if you see are, what I am telling today is the same, but in a different language, that's all, what Christ said it. To understand Christ you have to open him out more, because He said it in very simple words, which has very deep meanings and only a Sahaja Yogi can understand Him.

So you have to make peace. I have seen people been given Nobel prizes of peace, who have no peace within at all. They are hot-tempered, horrible people and given Nobel prize for peace! Alright! And personified temper, absolutely hot-tempered; and you call it peace! How can you have peace with a person who is so hot-tempered? So this is possible. In this human endeavour anything is possible you see.

Sometimes so absurd, you see. Like I have seen people getting a degree `doctorate of learning', who has not even been to a school who doesn't know how to read the book! Anything is possible because it is just a manoeuvreing of everything, it's so artificial.

So the lubrication of your love, the love.

So the love that you enjoy is not what is bestowed upon you but what you bestow upon others.

The idea of love is also funny. It's just the opposite of what you have seen so far. They'll write “I love you." Alright? And the second sentence will be “I want to divorce you." And the modern fashion is like that. “I love you; I want to divorce you because I love you too much!"

[Laughter.] “Because I want to spare you!" Is very modern, very sophisticated it is.

So the love that hurts others, love that tortures others. The love that expects, is not love. Love that just flows, just forgives, it is just compassion. It's the most, enjoyable thing. Radiant, just like the sunshine, like Christ who even forgave those who crucified Him! Imagine! Imagine! Because He knew that God will not forgive. Even God will not forgive those, He tried to forgive them. But we, those who call themselves Christians, those who are supposed to be Christians are just the opposite of Christ, just, the opposite in every, way, if you see, just the opposite.

So, you come to a point where you understand that you become the love. And when it is pure love relationships then there is no lust and greed or anything but just love and purity of love. You don't want to do it because you want to have any lust out of that person. Just see, the opposite. Here the girl is very `attractive'. What is so attractive? To My eyes they just look like mosquitoes. Horrible! Sometimes like witches you know. Their nails and all that look like, to Me, like witches: so artificial. Just like machines, sometimes. What is so attractive in these women? Or in these men? You see. They look like skulls to Me, sometimes and somethings like, Frankenstein, I don't know what they look like, horrible. The way they walk, the way they try to impress. I mean, nothing but fear comes out of them.

So, what you emit out of your love to others [is] a sense of security, an ocean of security you can call it. Everyone

feels secured, secured with you. And that security will be felt by you. Trust, trust others.

You must trust. That is very important. Trust for everything. I have seen some people are very serious on money, some are very serious about possessions, some are this. I know they are sometimes weak people.

Could be weak about money, could be weak about possessions, could be even insulting to things that should not be so: but don't lose your temper just have forgiveness for them and let them feel secured, absolutely secured. Trust. You see as you know that I never ask the trustees to give Me any reports. I do not ask them to give Me any accounts or anything. I don't understand accounts at all Myself, you see.

So I never see how many accounts you have got, what money you have got or, say, supposing Gavin is saying that “I am sending money now Mother to you” whatever I receive it's alright, finished. I don't know whether he gives you receipts or not, nothing. If he says so [it's] alright. I leave it to him. He has to grow, whatever it is. It's his responsibility, if he's not grown up enough he will grow.

So trust others because in Sahaja Yoga you must know we are all growing, we are all transforming.

So we must grow, we must grow and for your growth security is the most important thing. If there is no security for a tree it will never grow.

So everybody should feel secured in the company of Sahaja Yogis. If there is any insecurity from someone then it should be reported to the collective and [you] should see that all such cases of insecurity creating,

trouble creators should be, little bit, taken out for the time being. Because there should be a healthy growth. But growth must take place and for that you must trust.

Somebody might make mistakes, alright doesn't matter.

Somebody may be dishonest, doesn't matter.

But give them security.

But what we do is to give security to bhoots, I have seen, [it's] very common. People will have only interest in the bhootish people. They will trust a bhootish people than to someone who is a little dishonest.

You see, what is dishonesty? Supposing somebody doesn't give income tax, doesn't matter, it's this government, or is that government. What does it matter to us? As long as that person is honest to God it's sufficient. Our honesty is of a different level.

So we become angry with that person, we get upset with that person. There's nothing to get angry.

Actually My system as you know is that I know also the people who have mismanaged money, who have not been alright, I know it, somehow, without knowing accounts but I said, `Just forgive, forgive, forgive." I know everything but I just say, “Forgive, doesn't matter." Then, you might say, with rationality, that, `Mother, such a person will go ahead with it'. No he won't! You try and trust. Why? Because they are growing, they are coming to light and the more light they see the better they become. This trust has to be there. Trusting in God that He will give him the right path.

So this understanding about your growth is within yourself, which you can see.

And the highest of all is the collectivity. Not the fraternity of bhoots, but Collectivity. Again discretion has to be used, how far you are collective. If a person thinks he is a very great person and he can correct everyone and he can punish everyone and do as he likes, then he's not collective. But sometimes you have to also understand that even with bhootish people I have to stoop down to conquer them, to bring them up. Don't become like them, try to elevate them than to go down to their level. And if you can manage that, then you have achieved what you wanted to do through your collectivity. And a person has to be collective. If he is not collective then one must know that there is something definitely wrong with that person. Then what you have to do after detachment from things [is] the penance part of it. For this we have to be doing some penance. For example if you are too attached to anything: say you are very fond of food. Many people are, I know that. The tongue is the worst of all. If you can control tongue then you have controlled at least 50% of your sense organs. If you are attached to the tongue [you should say] `These days I am going into a big penance, I am eating just boiled food without salt, without anything in it, just boiled food. Going into penance. I have to! For nine months.' For Me it doesn't matter. It is no penance for Me because I've no tongue at all, no taste buds, [so] I can manage.

So whatever you like too much, “Ahā! I love to have something." You see, specially here I've seen if you see good food or anything, “Mmmm..." [Sahaja Yogi brings cold tea for Shri Mataji.] Now, it's as cold as ice. Should I have it? I can if you want, but it's rather cold, I think you

would like to give Me hot. Alright. I don't mind having it. Alright.

So now what you have to do is have a kind of self-directed discipline. Self-directed. Not on others.

Self-directed. `Do I meditate in the morning? I don't.

So what's wrong with me? I'm supposed to be a Sahaja Yogi.' Nobody has to tell you. You yourself should do this to yourself. You are fond of food, `Alright doesn't matter, I'll fast for two days.' No fasting is allowed in Sahaja Yoga, alright, but fasting for detachment is alright, not for God's Sake, but for your sake you do it. `I like a particular type of cake.

Alright I'll not have it. I'll not have it for one year.' But no, when people have to give up, they give up something like Rhubarb [a bitter vegetable]! [Laughter.] So one should not be cunning about it, you see, should not be cunning with yourself.

So what you have to do is to see that, `Where does this mind go? What is the attraction?' I mean, even now, I find some people are like Romeo and Juliets, you see, still living in that area of Romeo-Juliet-ness. Get out of it! [It's] nonsense. Get out of that kind of a thing. That doesn't mean you become a dry personality of another extreme, can be, that you become like sticks. That's not the point. But you should not indulge into these things. These are all artificial things.

So a tapah to be established within yourself. Self-discipline. Now those who talk too much should stop talking, absolutely mauna [silence] is the ilāj. Mauna is the treatment for such people! Just don't talk! Those who do not talk, most of the English men do not talk, women

talk too much. It's a fact. I've seen, any interview you see, the women will talk first. This [police] constable lady died [and] her mother was talking! In India the mother would not be in a position to talk, you see. The father was sitting quiet. You see, you can't imagine. In India supposing a child dies like that, you see, the mother would be absolutely sobbing, in a mess, she won't be talking. Here the woman was talking, we were most surprised! You see, the women talk too much [here], men just don't talk, they are not supposed to talk I think, they just keep quiet. At the most they might be slapping. I don't know what they do. [Laughter.] So what we have to do is to teach ourselves that, if our tongue talks too much, then we better keep quiet. If we do not talk, we better talk, we should teach ourselves how to talk. Now go and talk to the sea, go and talk to some tree, go and talk to someone like that. Or best is to talk to Me, to My photograph.

So that's how you achieve a kind of control over your tongue. To talk sweetly.

Some people have to go through penance for that. For them to talk sweetly is like taking rhubarb again. They just can't talk sweetly, just can't. Sarcasm. You see, in that sarcasm they have a special pleasure. Try to say something sweetly. You can be humorous without being sarcastic. Humour is the best way. What is the need to be sarcastic? There's no need at all. Is a sign of cowardliness, I think, sarcasm, is a sign that you want to hurt others, but you are not straightforward.

So try to avoid sarcastic talking. If you are sarcastic, better tell your tongue to behave itself.

So, little disciplining towards yourself, punishment what you call, or the tapah, the penance has to work out.

Now people have so many ways of, you see, seeing things.

Some men want to see women all the time, some women want to see men all the time or clothes or anything, you see. Now, the difference is that when you see something, it reacts. The difference between My looking at anything is that, that reacts. When I look at you, your Kuṇḍalinī reacts, when I look at this, it gets vibrated. Kataksha, kataksha: Every eye... every glance, every glance makes the thing react. And nirīkshana means, I know what it is. I know what it is. Looking at a person I know what it is. Looking at a thing, I know what it is nirīkshana. And the whole thing is in the memory there, you see.

Like, we were going and they said we have only black stones. I said, “No, you have red also." He said, “Where do you know?" So I told them the exact spot where to get the red stones. They said, “How do you know, Mother?" I said, “We passed that way about eight days back and I know there are red stones." So everything I see gets vibrated and also I note what is there and is all ready there to be used at a proper time. But what do I do? What do I do? I do nothing. I do nothing. I don't think, I don't plan.

Everything that you do, I don't do.

So when you have that kind of a temperament you will be amazed! The amount of dynamism that will work it out. You don't have to create a dynama, it's inside you. Let it work out. Today I had told Gavin that I won't have

so much of a Pūjā but I'll talk. Because Pūjā is alright, it talks for itself and this thing.

But I wanted to talk to you because now the time has come for us to go further.

As a result of all this, all this, that when you do [it], you become the Truth, you become the Truth.

So, in every Chakra if you concentrate and use the Chakra to detach yourself from the particular quality of that Chakra. Like, now for example, the Nābhī Chakra does the digestion. Now you don't worry what you should eat to digest. Just detach yourself from there, with vibrations, if you just see and eat whatever is there: you will digest. And then you become the Truth. Truth that is love, that is God.

May God bless you all.

.....

In a human form you `decrease' your age as your birthday comes. But with this you `increase' your age. And you are proud that you are growing. In the human level you feel unhappy that you are growing; here you feel proud that you are growing. Just the opposite of what you are doing if you try to do it, it would be nice. I mean, that doesn't mean again, indiscreet, you know. I'm quite worried on that point! [Laughs.] Discretion is the first thing that you should have before you.

Now if you have any questions you can ask be for about 5-10 minutes till I take My tea and then will have a little Pūjā.

[Later on to Melody Hodgson:] We don't run away from negativity.

[During the recitation of the Holy Names of Salutations, Shri Mataji adds one more:] Salutations to the One who came to England.

Contents: **1984-04-2x Shopping for Creating a Roof Garden, London, UK (month not sure)**

Sahaja Yogi [to an approaching friend]: Here's your Mother.

Shri Mataji [very sweetly]: Yes, that is what they call Me. I am the Mother.

[Shri Mataji warned Alex Henshaw that the people were racist at that stall.] [Afterwards:] English were in our land for hundreds of years and the Indians were very gracious.

They let England leave with dignity and and they praised them. The Indians come here, they work very hard, they buy houses, they start businesses and the English are very racist. The English are lazy and complacent; they complain and whinge and that is why has gone down, because they have no self-respect.

[She also says they had become wealthy at the expense of other nations, particularly India and most of the crown jewels were from India. They colonized and took over countries that had ancient civilizations and thought themselves superior. They learnt nothing of spirituality and yet they imposed their rule and bureaucracy on India and never learnt anything from the country.] [The times are changing now and the English are taking to Sahaja Yoga. She says that is a miracle in itself, the fact that the English were turning to spirituality. She says that there were some very deep seekers and they had great saints

like William Blake to help them and steer them in the right direction.

But the biggest problem is the Anglo-Saxon brain. It is hard to crack through that and therefore England is a hard place to work out. It is the heart of the universe, but is one of the hardest nuts to crack.] Alex Henshaw: I'm Australian, Shri Mataji.

Shri Mataji: Yes, I know [laughs].

Contents: **1984-04-xx Quote on Incarnations, Brompton Square, London, UK (month not sure)**

[Shri Mataji is visibly saddened:] Luis, do you know that people ask Me such strange questions.

Luis Garrido: No, I did not know, but who asked the strange question? Shri Mataji: [Explains that someone had just asked Her whether the boy of Gail and Graham Pottinger that She had named as William was the reincarnation of William Blake.] How can you people ask such absurd questions like that? [Luis was living at Chelsham Road ashram and this boy named William was also living there with his parents. No one there ever suggested the absurd thought that this boy was an incarnation, though he was obviously a very sweet, realised child and very well behaved. Luis ventured to ask Shri Mataji the answer to this question.] How could he be the incarnation of William Blake? [Pointing at Herself:] William Blake is in My body.

All the incarnations are within Me at this time. There are no other incarnations out there right now.

[On another occasion Shri Mataji tells Luis that the reason why She named the boy William was because his

father had the honour of being the first Sahaja Yogi that brought to the collective attention the fact that certain poems of Śhrī William Blake contained prophecies about Sahaja Yoga.]

Contents: **1984-04-xx Quote, Brompton Square, London, UK (month not sure)**

[John Watkinson worked in many houses of Shri Mataji and all of Her bedrooms were always beautiful, but at Brompton Square it was a jewel. The atmosphere at that house was also very special. Shri Mataji wanted a cupboard made, especially for Her saris and shoes. Outside Shri Mataji wanted purple embroidered silk to match the rest of Her bedroom and inside She wanted China blue silk. The cupboard was approximately kitchen unit height, so to apply the silk to the inside John had to climb right in.] [While he is applying the silk, Shri Mataji, Her daughter and two grandchildren suddenly come into the room. Shri Mataji's family had just own in from abroad and wanted to rest.] [John pops his head out of the cupboard and says to Shri Mataji that he would go and return to do the work later.]

Shri Mataji: It's ok, you just carry on.

[John continued and they all fall asleep very quickly. While applying the silk, John could not avoid the occasional tapping sound, to which Shri Mataji wakes up.]

Shri Mataji: Please, come in! John Watkins [popping his head out of the cupboard:] It's me, Mother. I am in the cupboard, I should go.

Shri Mataji: No, you just carry on.

Contents: **1984-04-xx Quote related to Mirrors, Brompton Square, London, UK (month not sure)**

[Shri Mataji enters the house and upon seeing Her own reflection in the many mirrors of the house, She does a double take, as if to say `Oh! There you are!'] [To Danya Martoglio]: You see, I need all these mirrors to remind Myself who I am!

Contents: **1984-04-xx Quote on Śhrī Jesus Christ, Brompton Square, London, UK (month not sure)**

[Shri Mataji gives a tour of the house to the parents of Danya Martoglio. After that, sitting down for tea Shri Mataji asks them if they have any questions.] [To Danya Martoglio]: You see, I need all these mirrors to remind Myself who I am! Father of Danya: I have always wondered, did Christ really say, “Why hast Thou forsaken Me?" when He knew the whole Divine plan for opening the Āgñyā Chakra?

Shri Mataji: Yes He did say that. Even though it had all been decided in the Vaikuṇṭha stage, yet thee is still the emotion of the drama.

Contents: **1984-04-xx Quote related to Jewelry, Brompton Square, London, UK (month not sure)**

[A young French Sahaja Yogi who was sent to London by his father to research the jewelry market, ends up spending most of his time going to Shri Mataji's house. Before going back to France he leaves a letter thanking Shri Mataji for the nice time he had spent at Her home.] Shri Mataji [to Luis Garrido]: I feel this boy should not go home without seeing Me first and if this means him losing

his flight I'll buy him a new ticket. Tell him to come and see Me before going back to France.

[He stays longer and Shri Mataji finds out that he had failed to do the research for his father.

So She gives him a detailed lesson on marketing jewelry in the UK. She teaches him that when it comes to silver certain shops are very particular about the need to have the silver hallmark. As for the London Indian shops the accent is on traditional handmade jewelry, the hallmark is not essential and these are two completely different markets. Shri Mataji shows him examples of necklaces that would be appreciated by Western customers so long as the items were delicate and fine and it did not matter if they were machine made or handmade.] [Shri Mataji asks to have a certain jewelry box sent down from Her bedroom. Sir C.P. offers to bring it down, however he comes down empty handed as he could not remember where it was kept. Shri Mataji gives him some hints and he remembers. She makes light of the situation by telling us that Sir C.P. knew each and every detail of matters related to his work, but in household matters he could be quite forgetful.

She is in a playful mood and explains that because Sir C.P.'s name was Chandrika he belongs to the moon and that planet makes people quite forgetful. Everyone laughs and in no time Sir C.P. comes down with the jewelry box.] [Before the box is opened Shri Mataji asks everyone to pay attention because it is a testimony to British honesty. She explains that after India achieved independence and after Her father had passed away, the British government found a box of jewelry that had been

confiscated from Mr. Salve and returns it to the family. Had the British not confiscated it, Mr. Salve would have given all the jewelry away towards the fight for independence. It was a substantial amount and Shri Mataji explains that this was Her share, as other members of Her family received a portion as well.] The reason Indian ladies wear so much jewelry is not a matter of indulgence or luxury, it is just something they do traditionally because it is said in the scriptures that Śhrī Ādi Shakti wore certain items of jewelry and Indian ladies want to emulate the Goddess.

[Shri Mataji passes Her hand repeatedly over a silver necklace to vibrate it and then hands it to Luis Garrido, saying that it is for Carol, his wife, who had a claim to be an Indian lady because she was born in India.]

Contents: **1984-04-xx Quote related to Downloading a Van, Brompton Square, London, UK (month not sure)**

[A large haulage van is brought to Shri Mataji's house at Brompton Square, to be filled up with items that were stored in the upper stories of the house.

Some items were very heavy and bulky and there were so many of them. There was no lift and the job involved coming down many flights of stairs to the van. It was just after lunch.] Please finish the loading if possible by three o'clock but no later than four o'clock. As you know tomorrow I travel away on a long tour, so let us try and finish this job on time.

[Sahaja Yogis struggle with some heavy items and none of us believed it was possible to finish this job on time so

we gave no answer to Shri Mataji. Comes four o'clock, Shri Mataji seems surprised that they had made such small progress.] Please make sure you finish this before it is dark.

[But they never believed this would be possible and the job was only completed much later, in the dark, by dinner time. Then the ignition key of the van breaks in the lock, the van cannot be moved and it is too late to solve this problem. They know that if the items are left in the van overnight they could be stolen so they have to do the job again in reverse.] I knew there was a problem and that is why I warned you to finish before nightfall.

[Now at last the three Sahaja Yogis remember that they have spiritual powers. They say the mantra of Śhrī Hanumān and then with full faith initiate the unloading. To they surprise it only took half an hour.

They are laughing all the way up the stairs, carrying what now seemed very light-weight items. They recall the words of Christ, that if one has faith one could move a mountain.]

Contents: **1984-0xxx Events Related to Tapes, Brompton Square, London, UK**

First Occasion: [In 1984 at Brompton Square Sahaja Yogis present Shri Mataji with some transcriptions of Her talks for Her approval. The intention was that once checked and approved they would be circulated to the countries where Sahaja Yoga had centers. They are surprised to see Shri Mataji going through Her talks with a pen crossing out several sentences and changing others and in a few instances telling us to write the

opposite of what had been transcribed.] [Luis Garrido is worried that people might say that he had made a mistake when transcribing or that he had changed what was on the tape and because of this he gets permission from Her to add a small comment in the text explaining that the changes had been done by Shri Mataji Herself.] [Shri Mataji explains that She knew She had spoken thus at the time, but when She said it, She had a particular person in mind and as certain comments were aimed at a particular person they did not apply to all.] Second Occasion: [Later Shri Mataji finds out that the talks had not circulated abroad as intended and gave instructions for copies to be sent to these places.] Third Occasion: [Shri Mataji is informed that the Easter Pūjā talk that She had just delivered in the UK had bad sound and too much noisy interference from children. She watches the video tape and comments that She is surprised to see what an interesting and deep talk She had delivered. Then Shri Mataji asks Sahaja Yogis around Her to name a Sahaja Yogi especially endowed with intelligence and he/she would be the one appointed to ensure that this videotape is cleansed of the noise. They cannot think of any Sahaja Yogi specially gifted with intelligence. To their relief Shri Mataji comes up with the name of a Sahaja Yogi who has very good computer qualifications and he is appointed to take the tape to a lab to remove the noise interference.] Fourth Occasion (two instances, the second one at Chelsham Road): [At local Sahaja Yoga, Public Programs without Shri Mataji in person, it was the norm to first play an audiotape of one of Her public lectures in its entirety and then to give realisation. Shri Mataji's lectures were

held by Sahaja Yogis with great esteem and admiration and the thought of playing just part of Her talk was unthinkable. It was by listening to the whole talk that new people often wondered with admiration at Her infinite love, knowledge and wisdom. Everybody felt transformed, including those who had come for the first time. Gradually the video tapes of Shri Mataji were introduced, much to the joy of all present. At one point the person conducting the meeting started to reduce the time allocated to Shri Mataji's lecture.

This led to discontent amongst Sahaja Yogis who complained to Shri Mataji.] [Then Shri Mataji to Chelsham Road and the whole collective has been invited and this is one of the rare occasions in which Shri Mataji passes a personal rebuke, to the person who had been stopping Her lectures half way through. She seems visibly saddened by this situation. The person responsible for this corrected his behaviour and took no offense.]

Contents: **1984-04-xx Quote on Shoes, Brompton Square, London, UK (month not sure)**

[Shri Mataji had a servant who was a bit difficult and he kept doing silly things. One thing he did was to hide Shri Mataji's shoes.] He has hidden My shoes somewhere in this house and we have to try and find them.

[Luis Garrido looks around. There was a big steel chest down in the basement. Shri Mataji comes down in the afternoon and walks past it.] Have a look in there. Open up that chest.

[Luis opens it up and it was like opening an air-conditioning unit. It had a coolness emanating from it,

with all Her shoes in there, where the servant had been hiding them.] Shoes are the best! They've got so many vibrations. [Laughter.] It's amazing, these shoes are tremendous.

Bring them upstairs.

[So Luis carries them upstairs, pressing them against his heart, because he could feel these incredible vibrations from each pair of shoes. He takes them up to Mother's room, one pair at a time to enjoy the moments longer.]

Contents: **1984-04-xx Quote on Time, after Shopping for Groceries at Southall, Brompton Square, London, UK (month not sure)**

[One day Alex Henshaw drives Shri Mataji all the way out to Southall. On the way he tries to take mental notes of all the landmarks so he wouldn't get lost on the way back. It is a very slow journey and seems to take forever. Eventually the car reaches to Southall and Shri Mataji buys some Indian groceries for the night entertainment. On the way back there is a discussion about racism and the British, how they came into India for four hundred years and ruled and plundered and pillaged. And how the Indians have come to London and work very hard and are doing very well, yet the English really resent that. On the way back time seems to go so quickly and all of a sudden the car reaches Brompton Square.]

Shri Mataji: See, it didn't take very long to get back, did it? Alex Henshaw: Shri Mataji, it seemed to be a lot less time than going there.

Shri Mataji: Time is an illusion. When you are at Sahasrāra, it is a complete illusion. I watched you and

your mind was trying to remember all the landmarks so you wouldn't get lost on the way back. You were thoughtless on the way back.

Contents: **1984-04-xx Quote on Barometre, Brompton Square, London, UK (month not sure)**

[One day Alex Henshaw is upstairs with Shri Mataji, cleaning/moving some furniture and all of a sudden he feels a very heavy Āgñyā catch.] Ah, you're like a barometre.

Somebody has come. Every time someone comes in whose vibrations are not good, you register it. Go downstairs and see who it is.

[Alex Henshaw goes down and someone who had an Āgñyā problem arrives.]

Contents: **1984-04-xx Quote on Love, Brompton Square, London, UK (month not sure)**

[A little girl of a Sahaja Yogini helping to make curtains for Brompton Square, knocks over a crystal vase and it smashes on the ground. The mother is upset and scolds the girl.] No, it's all right! Everything is ok [cuddled the little girl, who is crying].

Material things aren't important. Love is more important and you shouldn't scold the child so much for material things.

Contents: **1984-04-xx Quote on the Power of Vibrations over Matter, Brompton Square, London, UK (month not sure)**

[At the bottom of the stairs, the statue of an Indian boy playing dholak is not formed properly and is anatomically incorrect.] I need to fix this.

[Alex Henshaw is standing up the stairs and another Sahaja Yogi is a little lower and both are watching it from different angles.] [Shri Mataji starts giving vibrations to the statue. Alex Henshaw can see the actual shape of the wood changed. It is as if the shadows became more defined, along the scapula at the back. It becomes like plastic before his eyes.] Other

Sahaja Yogi: Yes, Mother I see [but he didn't really see it]. [Suddenly with excitement:] Yes Mother, I can see! I can see it's changing! [When Shri Mataji finishes, the actual form and shape of the sculpture have changed. There was more definition around the back and the muscles at the back were correct.] That's much better! That looks better, doesn't it? Vibrations have the power to transform matter.

Contents: **1984-04-xx Quote on Being Lost, Brompton Square, London, UK (month not sure)**

[After driving Shri Mataji for a couple of months, he thought that he knew London fairly well. Then one day while driving back to Brompton Square, he takes a wrong turn and the car ends up in North Kensington. He starts driving around.] We're lost, we're in North Kensington. Why are we going into North Kensington? Maybe it is to vibrate the area. Just stop and ask someone where to go.

[So Alex does so and he is told to go back the way he has come. He is getting more and more lost, for about half an hour.] [Finally at 5:10 p.m. Shri Mataji speaks again:] I

know why we're lost. I have to go to a function tonight and I don't really want to go and I have to be back at five o'clock, in time to go to it. When I go to these functions I have to shake hands with all these people and I take in all their baddhas and bad vibrations.

Contents: 1984-05-05 **Sahasrāra Pūjā, The Start of a New Era, Church, Ch^ateau Mesnifferes, Mesnifferes-en-Bray, Rouen, France**

It is so wonderful for your Mother to see so many beautiful Sahaja Yogis assembled together, on this day of Sahasrār.

I think the first era of Sahaja Yoga has ended now and new has started. In the first era of Sahaja Yoga, the starting point was, first, the opening of the Sahasrāra and gradually moving towards the completion, I find there are so many who are great Sahaja Yogis today. It is a very natural process of growth that you have gone through.

The first one was, we can say, is just the awakening of the Kuṇḍalinī and piercing the fontanelle bone area.

As you see on top of your head these bandhans, that's how you too have in your head, same way and you have the Chakras same way built in, in your Sahasrāra.

So in the first era of Sahaja Yoga we have awakened the deities in your centers, in the medulla oblongata and also in the brain.

But now the time has come for us to spread it on a horizontal level and to move it on the horizontal level, we have to understand how to go about it. Like the seven colours of the rainbow, we have got seven colours of the light of these centers, of the Chakras. And when we start

it from the back, from the Mūlādhāra, bringing it up to the, this side, Āgñyā, then it is placed in a different order, if you see it clearly. I mean to say that in the Sahasrāra, because it's a concave placement, is important to understand that the center of the fontanelle bone area corresponds to our heart.

So heart is the pivotal point for the second era now. I hope you understand what I mean.

So if you have to place your attention to Sahasrāra, first thing you have to do is to pay attention to your heart. In the Sahasrāra, the Heart Chakra and the heart itself, the Ātmā, coincide. Means the Jagadambā becomes one with the heart, that is the Ātmā.

So we see that here the Yoga takes place.

At this point of time it is very important to understand that we have to take a bigger step.

The whole Sahasrāra moves in this way. All these Chakras throw their lights in this way, in a clockwise manner and the axis is the heart.

So the essence of all the religions, of all the prophets, of all the incarnations is compassion and is placed in this Chakra of heart. Thus we understand that in the second era now, we have to have compassion. Is the manifestation now of the compassion. If God Almighty had no compassion, He would not have created this great Universe.

Actually His Power, or the Ādi Shakti, is the embodiment of His compassion and this compassion has brought forth all the evolution to human level and even your

emancipation as Sahaja Yogis and compassion is always completely covered with forgiveness.

So you can see, the Trinity meets at this point. The Son of God is forgiveness, is the embodiment of forgiveness.

So the God Almighty who is the witness, the Mother who is the compassion and the Child who is the forgiveness, all of them meet at Heart Chakra, in the Sahasrāra.

Now, one must learn how to improve Sahasrāra itself. You know the presiding deity of the Sahasrāra very well. Now the place of Sahasrāra is in your head, as you think it to be, but it's just the center of the whole Universe.

To develop this, you have to pay attention to your Heart Chakra in the fontanelle bone area. If you pay attention to the fontanelle bone area, then there you must establish the Deity. But this Deity has to be first established into the heart.

Now you are very lucky people that you have the Deity in person with you. The people who got realisation before I came on this Earth had to imagine the Deities and in that imagination they were never perfect.

But as they say that “At Sahasrāre She is Mahāmāyā" that is how it is described.

So if you also see the person, you may not be knowing fully that person or in the perfect way or a complete way, because Mahāmāyā Shakti is much greater than your imagination. That is why one has to surrender! With your limited imagination of brain, one cannot see the Deity.

Also it is said She is Bhakti Gamya, you can know through Bhakti , through devotion.

So the devotion has to be there, but the devotion has to be a very clean devotion, in the sense [that] there should be no malice in the heart, heart should be clean. Heart, to keep it clean is very difficult. Always human beings have a relative understanding of reality, but reality is absolute.

So to achieve that, one has to get rid of all the other kind of impurities that are within the heart.

So in the beginning we try to achieve our realisation, not with very clean heart. At that time we had lots of attachments, we were identified with false things and also we thought by getting realisation we'll become very powerful people. After realisation also, we started indulging into petty things, we started asking for favours for our relations, friends, mothers, sisters. And the women thought of their husbands and their brothers, children. They all asked for the blessings of all those with whom they were entangled. All this entanglement you got over, I know, very soon.

Now the job of a Avatāra is such that He has to fulfil the desires of His bhaktas, His disciples. For example, Śhrī Kṛiṣhṇa was asked by Gopis that “We want You to be with us, individually with every one of us." So He divided Himself into many Kṛiṣhṇas and He was with every one of them. But that was a very Divine desire, I think, that was a very Divine desire of the Gopis. But when you asked Me about your brothers, sisters, mothers, fathers, I tried to do that, whatever was possible.

Also the kshema that you asked for, the ashrams you asked for, all the things that you needed, was there for your desire to be fulfilled.

So at the Kṛiṣhṇa's level it was “Yogakshemam vahāmyaham” so the kshema was looked after at Kṛiṣhṇa's level, because it was promised.

But what next, in the new era that has to come? As you have now good families, good ashrams, good jobs, everyone is happy, let us think of the next era. Next era is of compassion, as I told you. But [if] any one of the Chakras are weak in you still, the light that becomes white because of the seven colours may dim out, or may be defective.

So, all the Chakras that are within us are to be looked after. To pay attention to every Chakra and put compassion, the feeling of compassion on these Chakras.

Now let us take the Chakra of Śhrī Gaṇeśh. You pay attention to Śhrī Gaṇeśha and establish Him through your thought, because now your thought is Divine, in the Mūlādhāra Chakra, with great respect.

Here now, you have to know that in the first era of Sahaja Yoga I could not have talked of these things to you... this is much subtler doing, subtler work.

Now put your feeling on that Chakra, Chakra is the pradesha, is the country and the King is Śhrī Gaṇeśh and that's the country. Now when you put your attention onto that Chakra, put your feelings towards Him, of, feeling of love and adoration to Him, to begin with. And then to manifest compassion, you have to ask nothing but one thing, that `Oh God of Innocence, give innocence to all the people of the world.' But first you have to be innocent to ask that, otherwise it is unauthorized asking, or you can say, you have no right to ask.

So to understand innocence you should try to understand yourself, how your mind is working.

When you, say, look at anyone, do you feel that you should possess that person? Do you feel unduly attracted, or something base feeling comes into your mind? For an innocent person, when he sees a beautiful person, or a woman, or this beautiful scene or a beautiful creation, the first thing should happen that he becomes thoughtless, there's no thought.

So if there is no thought, there's no question of having any expression of possessiveness or any kind of a baser feeling. But if you pray to Śhrī Gaṇeśha, also unauthorized a little bit, that: `Please make me innocent, so that I am empowered to ask You for this boon, that, wherever I go I become the source of innocence.

So that I emit innocence. When people look at me, they feel I am innocent.' This is compassion, the compassion to ask Him to give you the power of compassion itself.

So that, as you see here these beautiful centers, as if the light starts moving horizontally. It starts moving on the sympathetic nervous system.

So you become the powerful innocence yourself. You don't become stupid or childish, but you become child-like. The whole behaviour is extremely dignified and innocent.

Normally, if you find a person who is dignified, is normally, is not an innocent person, because he puts up a show, it's a deliberation to become serious and show that he's very dignified, to impress others. And [a] child doesn't put up the show of innocence, of dignity or anything, because the child is not aware of deliberations.

But you develop that rare combination of innocent dignity.

Now the other quality of, say, Śhrī Gaṇeśha starts expressing itself on horizontal level, that you become discreet. But that is a power, I'm again say[ing], the power of discretion you develop. Now one must understand the difference between the power of discretion and discretion itself.

So the power means, it acts. For example, you may not speak, but if you are but if you are standing somewhere the discretion itself will act in the situation. Like a Sahaja Yogi, supposing is a good Sahaja Yogi, is going in a train and the train has an accident, mostly it will not have, but has, nobody will die.

So you establish the discretion which is power itself, that acts by itself. You don't have to say that you act, it acts, but you just become the vehicle, a beautiful clean vehicle of that discretion. Then you should believe, now you are spreading horizontally. In the first era of Sahaja Yoga, you needed to see Me in person. You needed to see Me in person. As we say in Sanskrit, dhyeya: is the target. You wanted the target in front of you.

Gregoire [translating]: No, I cannot say `target' Shri Mataji.

Shri Mataji: But see, there's no word in English! `Dheya', `whatever is to be achieved'. Because there's no word in English language, what to do? So now when you wanted that all the time and you felt happy, secured, joyous when you had that in person before you. Then in the second era, now, you will not desire so much that Mother should be there, you'll take it over from Me. This is the

Divine Desire I'm telling you about and you have to work on that from today onwards.

I am with you, you know that, but need not be in this body, because I don't know if I exist in this body or not.

But once this desire starts working, you will see tremendous miracles happening. When the child is born to a mother, automatically she gets milk.

So the nature is so connected with the whole thing. In your Divine desire also it is connected. And it is very evident when you are a Divine person.

So you may find Me anywhere. You are walking on the street, suddenly you might find Mātājī walking with you.

So this is the second era we have started and you should not be shocked if you see Me sitting on your bed and putting My hand on your head. Or you may see Me in the form of Christ walking into your room, or as Śhrī Rāma. That has to happen, so you should be prepared! [Laughter.] Already so many miracles have taken place on you, but on a grosser level. You have seen the light coming on My head and the photographs have shown some miracles to you. But many things will happen, that you will see something that you could never imagine. This has to happen, just to convince you that you have reached a certain height of your evolution in the new area of Pragyalok, because this is a new state into which now you will be entering, on a horizontal basis.

In this area you will give up asking for gross things and also for anything subtler, anything that is subtle. The asking will disappear and that is the time you'll become very powerful. And whatever I say happens, as you know, the only thing [is] I cannot command you to be evolved.

The Kuṇḍalinī's work in you has been done, quite a lot. Now the new work of compassion, of spreading it to others has to be done by you. As the light grows brighter and brighter, the area it covers becomes bigger and bigger.

So you become the giver of compassion. In My last lecture, which you have heard already, I have requested you how to do tapah [penance]. With a complete surrendered mind you have to go through the pilgrimage, say, of this castle. This is one of the glimpses of the tapah that you have to do, because I am told some of you had to get into little difficulties and you people suffered a little bit on your way for the pilgrimage.

But it is fun to be venturesome and to get into places where the devils dare not go.

Gregoire [translating]: Mais, it is fun.

Shri Mataji: Fun, no word! They have never fun! Let us say, it is miserable! [Laughing.] And if you know how to get fun out of the so-called discomforts, then you should know you are on the right lines.

And as you start becoming discreet automatically, you should know you are progressing well.

As you become more peaceful and your temper vanishes in the thin air as soon as you see somebody attacking you, then know that you are progressing well.

As soon as you see a ordeal or a calamity falling on the personality and you do not get worried about it, then know that you are progressing.

When no amount of artificiality can impress you, then know that you are progressing.

No amount of material well-being in others makes you unhappy, no more unhappy, then know that you are progressing well.

No amount of labour or, or troubles are sufficient to become a Sahaja Yogi. Whatever you may try, one cannot become a Sahaja Yogi, while you have got it without any effort, so you are something special.

So this, once you understand, that you are special, you will become humble about it. Then, when it happens to you that you humble down when you see you have achieved something, that you have some powers, that you are emitting innocence, that you are discreet and as a result of that, you become more compassion, [a] humbler personality, a sweeter personality, then you should believe that you are in the heart of your Mother.

This is, is the sign of the new Sahaja Yogi, now, in the new era, who has to move with new force.

Where you will grow so fast that without meditation, you will be in meditation. Without being in My presence, you will be in My presence. Without asking, you will be blessed by your Father.

This is what you are in for and, again, I welcome you to this new era today, on this great day of Sahasrāra.

May God bless you all.

Today what are you going to do Gavin? Sahasrār Pūjā.

It's complete silence.

Make the hole so big that there cannot be any ego left there! Now let's start the Pūjā. Who will do the Pūjā here?

Contents: 1984-05-06 **Talk to Sahaja Yogis, Seminar, Day 2 (the day after Sahasrāra Pūjā), Ch^ateau Mesnifferes, Mesnifferes-en Bray, Rouen, France**

First of all we have to thank the French Sahaja Yogis who have arranged this program for us.

[Long MISSING part: more thanks, gifts and presents.]

Shri Mataji: Now, if you have any questions I would like to answer them and then I will tell you something about Sahaja Yoga. Gavin, can you keep this letter... it is important which...

[Aside to Gavin:] *[UNCLEAR]*.

Gregoire: *[UNCLEAR]*.

What's the time? Gregoire: *[UNCLEAR]*.

Shri Mataji: So just ask Me questions.

Gregoire: *[UNCLEAR]*.

Sahaja Yogi: *[UNCLEAR]*.

Gregoire [repeating the question]: OK. How can we better protect ourself if we work in an environment which is against Sahaj?

Shri Mataji: That's the place you have to work it. [Laughter and Applause.] Gregoire: *[UNCLEAR]*.

Shri Mataji: I will tell you later on on this point more.

Gregoire: *[UNCLEAR]*. Later on?

Shri Mataji: Later in the lecture I'ill tell on this point. Now another question.

Sahaja Yogi: *[UNCLEAR]*.

Gregoire [repeating the question]: Is there a particular advice to keep the Sahasrāra open and clear?

Shri Mataji: Particular? Gregoire: Is there a particular advice to keep the Sahasrāra open?

Shri Mataji: Alright, I'll answer this also.

Gregoire [after translating in French]:... She will answer this question when She will talk.

Shri Mataji: No, I can answer this question now. It's very simple, as I have told you, that the deity of Sahasrāra is sitting before you... that the deity of Sahasrāra is the Mahāmāyā... that try not to understand Her through your reasoning and imagination but by surrendering absolutely to it you keep your Sahasrāra open. In case you still find it is still closed, you have to ask forgiveness from the deity that `if we have by mistake... made any mistakes, so please forgive us' that's all. Alright, now what is the another question? Gregoire: It's a very specific question. It is advised that children should sleep in the same room as the parents that if they wake up four, five times during the night, is it possible to put them in a separate room?

Shri Mataji: No no, then the mother should sleep to the child and the father should sleep in another room. Mother should never leave the child. Moreover I would advise you that now you have children, don't get too much involved with your children, that's a dangerous thing. This is another phase. First they get involved with their wives or husbands, then they get involved with their children. If you get involved with the children, then again you have to restart many things.

So don't get involved, you have to just do the work like a trustee of the child, just a trustee of the child, but don't

get involved with the child, that is My job, you have to leave it to Me.

So don't get too much involved with the children. I find people who got children, you see, are going now writing literature on it. Don't do like that. I have already given instruction what is to be done about the child, that the children are Mine, not yours.

So you just don't get involved into them because that's a temptation for you. Too much involvement in the children is a sign of degradation. It's only your responsibility to look after it, that's all.

And mother must be with children, must `be' with children. She should sleep with them, she should look after them till they are five years of age. If they have to go out, she must know that she has to carry the child. She cannot leave children, that's not good. Should never leave the child before they are five years of age, whatever is there. Because women should know that till that age, five years of age the child is growing very fast. You see at an old age say, somebody is ninety and ninety five there is not much difference. And at that time the sense of security must be maintained. That one has to do.

So if the husband has to do something else or if he has to go out or anything, he can go with other friends... āh... the boys, or other Sahaja Yogis, but the mother must look after the children, that's her duty, she has to do it. And of course the husband must help her, must do whatever is needed, but here the question is of shifting the similarity. Now at this time the mother is important, she has to look after the child. That's her first job. And at

this time the husband's job becomes a secondary thing. But hers is a first job and later on then it again shifts, because husbands work becomes more important. If you give them now the security *[UNCLEAR]*, the children you will find will be very peaceful and that's what Indians do. You have seen how Indian children behave, they are so quiet, so peaceful because completely the mothers forget about the whole world. You will be surprised, till My younger daughter was five years of age, I never went out with My husband.

And women should not unduly feel that to look after the child is a lower job and to work in the office is a higher job because that pays more money or gives you artificial powers. You must know the greatest power in this world is that of the mother and unless and until give you that first to your child, the child is not going to give you back that discipline, that respect, that *[UNCLEAR* glory] that you expect as parents.

There should be a report between the child and the parents and understanding, they should talk and not give toys all the time but talk. Even when they don't talk you talk to them and that will improve cases.

So what is the second question? Gregoire: Can You talk about discrimination Shri Mataji?

Shri Mataji: It's an innate quality, you can't talk about it. Discrimination is not rational. It's an innate quality but the best thing you have are vibrations by which you should see if the things are alright or not. But you must know as Sahaja Yogis as you will grow you will know immediately what is good and what is bad. It's a state in which you just... you become discrete. But for that you

must know is to have your responses controlled, a steady response. Do anything. You just for example you see something for a minute you just become into thoughtless awareness. Then you will have the power of discretion. Is a power it is not a thing that can discussed or thought, is a power.

So one has to develop that state and the best is to at any confrontation anything that you face first you become thoughtlessly aware so you enter into the Kingdom of God and then react. The responses must be made very steady and subtle and one should not suddenly change the attentions just now, now [snaps Her fingers] everybody's attention there... Mine is not. I did the job.

Gregoire: Once again.

Shri Mataji: Alright? The attention now is with Me, suddenly all of you turn. What is there to see? Who is responsible? So those who put their attention there pull your ears [laughing]. I think everybody should do it [Sahaja Yogis are laughing]. Alright...

So... now... what's the other question?

Sahaja Yogi: *[UNCLEAR]*.

Gregoire [repeating the question]: How an artist who is a Sahaja Yogi what means to create a piece of art?

Shri Mataji: The piece of art must emit vibrations. If it does not emit that means there is something wrong. And going for something higher subjects like Kuṇḍalinī, like the expression of Kuṇḍalinī the colours of Kuṇḍalinī and intrudes another world, you have to move into that world like you can see we have so many artists for example you can say Blake. And for a Sahaja Yogi it should be a

kind of a beautiful integration of the gross and the abstract or realistic and abstract you can say and little bit of impressionism. That's how you should try to integrate all of them. They express one style, Sahaja Yogi has his own style, because he knows how to mix them, how to integrate. But certain colours like black should be avoided. But the pastel colours if they are mixed with black give it a depth to the pastel colours.

Now, your Mothers attention goes to Sahaja Yogis, that's My attention is. And it is such a remarkable attention that it is described “Kataksha, Kataksha, Nireekshana” means every glance examines and acts so then you have that attention then it's alright to see everything, because it so deep and penetrating.

Gregoire: Some people for reason or another cannot live in an Ashram, so how do such people know that they are growing in collectivity?

Shri Mataji: Growth in collectivity creates joy, fun, happiness no discussion no argument comes in.

Specially with the leader, how worth are your relations, that's very important. Now if you fight with the leader there is something wrong with you. You have no right to fight him, the leader. Now if the leader becomes absolutely unpopular, then he is no more a leader that I know. But he has to be unpopular in the whole world. Say for example if there is Mister `X' who is popular in the country, who is a leader and unpopular in a country `Y'. Now that is no judgement because they might be jealous. They think they are equal to him and stand fighting back and can chat him down. And no administration can work like that.

Least of all Divine administration.

So those who fight the leader are first of all uncollective. Actually India is the best way to find out.

They come and tell Me about who is who.

So I would put it like this very grossly that you have to be popular in India. And the Indian leaders have to be popular otherwise, in other countries. But perhaps I have some sense of discretion and I know who is who.

So somebody who is a leader you should not fight, first of all. You should not, āh..., if he is strict, if he is harsh with you take it with a grace and be happy that you are collective. But if you give an explanation, or you fight it back, or you think that you are alright then you can never improve. I have seen there are some Sahaja Yogis and Sahaja Yoginis who are being with us for years and they have not improved at all because they think that there's nothing wrong with them.

Sometimes I shout at them because the bhoots have to go, so they had said “alright, Mother has shout at our bhoots." And they never want to look at themselves. And they are the looser who is going to lose. They are stupid. And then such people go and talk against the leader at his back, these are the murmuring souls that Christ has described. And they try to form a group against the leader and create a problem, a barrier for themselves and also for Sahaja Yoga. These are very dangerous people and they know the ways how to talk against the leader.

So keep away from them and shut them down. Even they might be your husband, or your wife, or your child, don't listen, tell them to shut up. This is a bhoot talking. Just

don't listen to anyone who murmurs behind the back of the leader. They will appear to be very wise, very sensible, but know that they are against Sahaja Yoga. Just don't listen to them, don't accept anything from them, tell them to shut up.

The leader has to deal with very important things, with Me is very difficult to deal and he has to also deal with petty things. They, poor things are like martyrs, I should say, in My presence. I had to correct [them] so many times in such a bold manner, I correct them and they take it from Me. This is how we are going to work it out very smoothly.

[MISSING few sentences.] Gregoire: Yes Shri Mataji.

Shri Mataji: One must understand, that it is the leaders who have to be really strict with the discipline. They themselves should be disciplined and they must put discipline on the people, but they have to be compassion, full of compassion, compassionate towards all other people, but not sympathetic towards bhoots. Not to sympathize with bhoots, not to identify with bhootish nonsense, not to be kind to people who have bhoots is discipline, is the compassionate discipline. That's how we all are going to improve and improve and improve for our own being.

Now here there is no domination; is the compassion of God you accept and the bhoots you discard, the domination of the bhoots you discard with help of your leaders.

So if they are harsh with you thank them for that. Next question.

Sahaja Yogini: *[UNCLEAR]*.

Shri Mataji: They are sadly mistaken. Thus if they do that, they will be lost in no time. This is the same thing which has ruined our Western country where people believed in individuality without maturity.

We believe in maturity and then individuality. Say a flower becomes a fruit. On the tree it has to mature, on the tree with the whole till it is completely matured and then it can become an individual, otherwise what's the use in having these half-baked people. He must know that in Sahaja Yoga we don't believe in an immature individuality. Like two little boys of ten years fighting in front of My road, having a boxing.

I asked them “Why are you fighting?" They tell Me back “It's a personality clash." Alright now..., what's the next question? Sahaja Yogi [questions]: *[UNCLEAR]*.

Gregoire [repeats the question]: The question is if there is one leader who does not stand up to his responsibility...

Shri Mataji: That's Mine look out, that's Mine look out. You know, I know everything, so you just don't worry. You don't have to judge your leaders, leave it to Me, I will manage them. See now already have so much work to judge yourself and to judge those who are not yet realised so why should you worry about your leaders so much?

Sahaja Yogi: Is Śhrī Kṛiṣhṇa born from a cow? [Shri Mataji and Sahaja Yogis are laughing shortly.]

Shri Mataji: Now, there once upon a time long, long time back, the Mother took birth as a cow. See? And everybody was in that cow. Kṛiṣhṇa and every one was in that cow. Then later on that cow took the form of a lady a

then Kṛiṣhṇa was born from that lady, from her children. Now any other questions?

Sahaja Yogi: If you are in Sahaja Yoga and your wife leaves you, or your family leaves you how do you react?

Shri Mataji: I am just the same! [Long applause.] Now fourteen years have passed, it's just the same and only thing you can do is to prove it. Prove it by your own behaviour, by your own example. If they are honest they will accept it, if they are dishonest forget them. This so-called family is temporary, this is the eternal family you have.

So don't quarrel or fight with them, leave them alone, they will come around.

Actually you should never force them to come.

I give another instruction today that many people who are Sahaja Yogis won't take their children to their parents, because according to them they are not Sahaja Yogis, sometimes they don't take their children because they think their parents will spoil them. Unless and until they are positively against Sahaja Yoga, if they are not against Sahaja Yoga you should take your children there, there is no harm.

Because this is a very funny attitude people take. But if they are definitely against Sahaja Yoga, doing activities against Sahaja Yoga then you cut them. But as long as they are neutral they are not doing any harm to Sahaja Yoga, they are not against Sahaja Yoga, they are not against you, then there is no harm in going and seeing the children.

I mean that Sahaja Yogis are so frightened of bad vibrations that they look like schizophrenic people.

It should not be of craze, Sahaja Yoga is not the craze. It is a power that should give you greater power instead of making you frightened personalities. You are not excluded people, excluded from the rest of them. You are not excluded. You are exclusive, but not excluded. This is discretion again.

So go ahead with it. Meet everyone, talk to everyone, be nice to everyone, go to every shop, go to your parents, talked to then nicely, be nice, don't talk about Sahaja Yoga. Otherwise you will develop some horns [laughs].

So this is “to feel everybody's vibrations, bad vibrations, good vibrations" madness. And a fellow who came to see Me, he is a Freudian and he wrote in his book that Sahaja Yogis are schizophrenic..., Yeah he did. There is one fellow in India a stupid fellow. And you see, he must have picked up some Sahaja Yogis from the periphery, you see, who are frightened to talk to `you are Freudian, *[UNCLEAR]* I don't want to see your face.' Why should be afraid of anyone? Even of the Satan. Who is he? You are there to kill Him and you have powers.

So what is this kind of a cowardliness? Doesn't behove.

Gregoire [rejoicingly and powerfully]: Bolo Śhrī Jaganmātā Ādi Shakti Śhrī Nirmalā Devī ki! Sahaja Yogis [rejoicingly and powerfully]: Jāayyyyyyy! Gregoire [rejoicingly and powerfully]: Śhrī Nirmalā Devī ki! Sahaja Yogis [rejoicingly and powerfully]: Jāayyyyyyy.

Gregoire [rejoicingly and powerfully]: Śhrī Nirmalā Devī ki! Sahaja Yogis [rejoicingly and powerfully]: Jāayyyyyyy.

Shri Mataji: All right. Next question.

[Sahaja Yogis are now expressing their Joy with rejoicing and long applause.] Actually you have such powers that even if you do like this, the bhoots will run away. `Like this!' Is sufficient. Now what is it? Gregoire: This we haven't registered.

Shri Mataji: Yes, because they said there is not good vibrations in the thing. I'm coming here, how dare anybody stay here. They must have run away at least hundred miles. [Shri Mataji is saying this while laughing and it is followed by joyful laughing, blowing conch horns and long applause of all Sahaja Yogis].

Shri Mataji: So now, let's have it, the second question. Now what is it?

Sahaja Yogi: Mother, how can we please you best? Gregoire: It's not a bad question Shri Mataji.

Shri Mataji: What did he say? Gregoire: How can we please you best?

Shri Mataji: I have no desires. I don't know [Sahaja Yogis are joyfully laughing and applauding].

You see, inside Me is complete peace and complete satisfaction. There is nothing that is needed inside.

But the ripples of that joy flows outward all the time. And when it reaches your shores, you see, it comes back. And it weaves a beautiful pattern and I see the pattern. The reciprocity, how much you reciprocate, is the way the pattern is beautiful. It's delicate, it's powerful. It's so soothing and it weaves the complete beauty of Bhakti .

So much so that this ocean of joy itself gets turbulent and I really swing with it. And it is not easy to describe

that beautiful feeling of tremendous joy. The first thing you have to know that I love you very much, with all My heart, with all My soul. In the same way try to love Me with all sincerity and trust.

May God bless you all! Now I speak for one minute about this meditation. Yesterday I told you about putting your attention to different areas, the pradesh or the Chakras. And the Chakras, as you know, have got Maṇḍalas, is the areas.

So when you pay attention to the Chakras, where do you pay attention to, is the point. Actually you pay attention to the deity. Now this deity, supposing you are taking the name of Śhrī Rām. You are trying to establish Śhrī Rām within your heart, right Heart Chakra. Now at that time what do you do? You say the mantra.

But there's another way which is easier. Because you are saying a mantra in a way that is not so much intelligible there to Śhrī Rām. But first of all if you study the qualities of Śhrī Rām. What were his qualities? And if you manifest those qualities through your character, then it's very easy to please Śhrī Rām. What is the quality of Śhrī Gaṇeśh? He's entirely surrendered to Mother, even Father doesn't bother Him. What is the quality of Christ? He forgives those who have crucified Him. He can go through all kinds of tapas. What is the quality of Śhrī Kṛiṣhṇa? For whom everything is a leelā.

Like that, when you take the name of Śhrī Kṛiṣhṇa, do you see everything as a witness? If effortlessly that happens to you, you should know that you have established Śhrī Kṛiṣhṇa. Is the most difficult thing is to establish Me. Because I'm Mahāmāyā. And the facets are

so many, sixteen thousand..., into..., raised to power one thousand.

So it's difficult. But whatever things you can grasp and think this is Mother's quality, try to imbibe that within yourself. That doesn't mean you start shouting at bhoots first.

So first, what is the first quality of Mother? That She came on this earth and She has worked for people who are nowhere near Her.

She stooped down to elevate. And then gradually you can understand that this quality will take you to higher qualities that you think.

So among the seven colours to begin with, I am the green colour. Because I'm in the center. Green colour is the colour that you get it from the Mother Earth.

So first you must establish the quality of the Mother Earth: that she sucks up all the problems, gives you the best that she has. Start with the Mother Earth so you start with the Kuṇḍalinī.

That's how one should start imbibing. The pure Kuṇḍalinī form of Mother is purity, is cleansing purity.

But are you pure? Are you pure in your heart? Just think of that. And then, with purity you start. That is how you have to establish different Chakras, of purifying all the Chakras and ultimately when you have purified all of them, you have established Me.

Thus we understand we have to grow within and without by spreading our light horizontally now.

Only when you become like the deities your light will spread horizontally, otherwise not. That is what we say

that somebody has got the siddha of a particular deity, is the siddha of Gaṇeśha, is the siddha of Śhrī Kṛiṣhṇa.

So first when you develop their manifesting outside powers, you see, of kindness, compassion, of witness and all those, then you can develop their other qualities, which are on the destructive side.

First the constructive side you must develop, then the destructive automatically will work, you don't have to worry. Like one side of Śhrī Kṛiṣhṇa he was playing with ordinary herds men and the another side he was killing Rākshasas.

So first you have to become like Him and then automatically you will get the other powers.

You don't give swords to stupid people, do you? So one would understand that one has to develop these qualities of construction of all the incarnations and then you become empowered by the destructive qualities of those incarnations. If you understand the sequence, then the fanaticism will never grow because fanaticism comes when you start thinking that you are the incarnation or whatever incarnation has done, you can do.

Like Christians felt they could become Kalki without His Advent even and they took a rie or you can say gun in one hand and Bible in another hand. And the Muslims, they never believed that Mohammad was an incarnation so they think, `Because he was a prophet but he was not an incarnation, so we could also do the same what he was doing.' In the same way Hindus also when they become fanatic, they start thinking they have become great incarnations.

So discretion must be used again that you develop all the constructive side of an incarnation.

So after the seminar you have to remember My word about it that you have to concentrate on a deity to imbibe the qualities of that deity. Otherwise you have no communication with the deity and no use saying the mantras.

Like we would say that, `My this Chakra is catching or that Chakra is catching.' Why? Because there is that lacking of that Chakra that you have not yet imbibed within yourself.

So you must try to identify yourself with the qualities, the constructive qualities of every deity and that's how you should believe that you are now correcting your Chakras with the mantras. Otherwise I'll find all the Sahaja Yogis carrying all the thousand weapons of the Devī in their hands, suddenly thinking they have all become Devīs.

Now I hope when you go back home, you won't forget My words and try to concentrate on your pradesh, on your areas of different Chakras which are not all right and which are troubling and try to imbibe those qualities.

And nourish, nourish also the ones that are all right by understanding the qualities of the deities. Then only you will be amazed that your powers will flow without even thinking about it. It's not difficult for you. It is not at all difficult. But know that instead of paying attention to other's Chakras better look after your own Chakras.

If your Chakras are all right, you won't even catch from others. Another dangerous thing people do is to correct the Chakras of others. Individually it should never be done, collectively you may do.

But it's better not to enter into that exercise till you have reached certain state of confidence. This is for your further movement into the second era of Sahaja Yoga.

And I hope I will live to see the second era fully.

Gregoire: Until the third, fourth one?

Shri Mataji: But first second one. You desire for the second. You cannot jump, you know. Now here you should today say to yourself that in your heart promise that, `Mother I will now correct myself completely for my own benefit and I will project my mind to think discreetly how I can help to propagate Sahaja Yoga to others.' With discretion, you should not go and talk to a bull about Sahaja Yoga.

Now for the leaders I have to tell you that consolidation is a very important part of the projection. I would say all the leaders must meet and decide specially about few things like tapes, now. Tapes are to be put into some place as bank. Put it in Switzerland, put it somewhere and that they should be distributed regularly, there should be a regular register of it.

Write it down wherever I speak where is the tape, how many lectures She gave.

Some of you should try to translate or to edit some of the tapes on your own and see how you have done it.

Send it to your leaders. Let the leader read it and then if he finds it all right, he can send it over to Me.

So that we have a record also on paper. And also the sending of tapes from places to places is very important.

And must find out the people who want the tapes, should write to a particular committee for that, that you haven't

got this tape or that tape and if you get a particular tape, correspond about it with each other. Just don't get lost. Correspond, `Did you see? Did you listen to that tape? Have you heard of that? What is this?' You discuss now Sahaja Yoga among yourselves. Write to each other.

Now the video tapes: whatever tapes you have, video tapes or any tapes, you better inform the central committee which will be formed of all these leaders here and inform them that you have got this tape and that tape and that tape. Make a list of that, send it over and revise it, put it right because they should not be lost.

All of you should try to think about the little problems of facing the propaganda. Like I would say that people may say what is so miraculous about Mother.

They are not realised Souls.

So what do you do? Now we can always keep the photograph where you saw the light on My head. And show them and ask them how do you explain? Also you can... now there's another beautiful photograph. Can you show them Arno? Arno has got a beautiful photograph where My whole hand has come like a moving sun.

All right, bring it up. You must pay him to get a copy for that and all of you one should keep that with you. There is another one where there is light coming out of My feet. Like that you should keep these photographs with you all of you, so that when anybody confronts you, you can show the photographs, `See now, how do you explain?' In England, a discussion about Christ that a gentleman supposed to be very knowledgeable says, “Christ never existed." Because Paul never mentioned it.

[To one Sahaja Yogi:] Paul, I think you change your name because that Paul was a horrible fellow.

[Laughing shortly.] Gregoire: Shri Mataji, how should he be called?

Shri Mataji: This now, we have to ask them, `But why do you believe in Paul?' You should write to all the churches, `Because you believed in Paul, that's why there is a problem.' This is also some committee should handle that we have to blast all of them when there is any attack on Christ or on Me or anything, all of us must write immediately, `What do you mean by this?' Christ has said that “You are to be born again” and Nicodemus said that “Does it mean that I enter into the womb of my mother?" So Christ said, “What is born of flesh is flesh but what is born of Spirit is the Spirit." See the vibrations, you see. What about that? So, then you write to them that this Paul great was never a realised Soul.

So we cannot trust him and the churches cannot give him up because their basis is Mister Paul.

So you write to Pope and you write to this Dhuram fellow and you write to all of them. And say that you cannot believe in that Paul, you have to believe in Christ. And it's a very cowardly thing to compromise with the non-believers. You better write. Like that you will face so many things. But it should be a way all of you must react, all of you in collective way.

Gregoire: Who is going to write the letter? Please raise your hands. Who is going to write?

Shri Mataji: All of you.

Gregoire: To the Pope. The English to the Archbishop of Canterbury.

Shri Mataji: No, no, no, no. All of you should write to the Archbishop. What is the harm. And to the Pope and to all of them. Because this controversy has started. Gavin must be knowing the man who has started the controversy, the name of the man. Of course it is good, because it hits the basis of churches, in a way it is good. You need not mention Me. But you should not mention Me, but you should say, `Any sensible religious man can see this Paul is good for nothing.' So the photographs were I'm in a simple dress, that is better to be shown than the one with the crown.

Because it's just their ego gets challenged.

Now there's a funny letter, a thing, news, a pseudointellectual of India has written about Me, which I have brought to show you. Which is very stupid. She says that “We should be wise, not to touch the feet of a person who is just a human being” and all that. Now is better to write to her about her wisdom is very shallow because she's a pseudointellectual of the West. But if she knows anything about the Devī or about anything about an incarnation, it's very easy to find out that Mother is the embodiment of Shakti.

Because She has, we have seen, She has given realisation to so many.

We have seen the pulsation of the Kuṇḍalinī with our naked eyes and that the Cool Breeze comes out of the head and to deny it will be dishonest. Moreover Mother always, in India, says that it is better to give realisation to people who are not overeducated. Because

westernized education that they have had and they have not yet matured into it.

But we in the West are eighty percent educated people. Eighty *[UNCLEAR* why], about hundred percent I should say, mostly *[UNCLEAR* cent] percent. Or you can say about eighty or ninety percent people who are educated, very well educated and we have found that through this knowledge you cannot understand Mātājī.

Only the way you can understand is through some of the poets like Blake or you can say Khalil Gibran or some of the people or through the scriptures you can find out who Mātājī is. But the best part is that the poets of India, the ancient seers of India, had given it much more clearly and when you try to test it with that you can find out who Mātājī is.

So first you better read these things and then talk about Mātājī.

On this line you all should write.

We have here all kinds of doctors, engineers, all sorts of people, educated graduates, this, that. And all kinds of people are educated people. But in India there are only about twenty percent who are educated in Sahaja Yoga, because all their education has been in the Western language and Western ideas that's why they are still to grow into it. They have not passed through it, you see.

That's what you should impress on them. And that to challenge our sanity or our wisdom is not very kind of this lady. Her name is Umā Vasudev. What a name she has! Does she know the meaning of Umā and Vasudev? You see, Umā is the Devī and her surname of Vasudeva,

actually the Goddess because She was the sister of Śhrī Viṣhṇu.

So her name is Umā Vasudev and you can write, some of you can write a letter to her, care of Yogi Mahajan, that we have heard like this, that this lady has criticised Mother by saying that She allows people to touch Her feet. Actually She doesn't want people to touch Her feet. But those who are realised are specially privileged people, they can feel the vibrations.

Has she heard of Pragyalok? Has she heard of anything like that? What is she talking? She's just like an ignorant, some clerk in England. That's what she is. And when you write the letter, you send Me a copy also, I would like to see.

So now for all such attacks we all should act in a very collective way. And this will open the eyes of many in India because they think no end of themselves, they have just Western education of a very low standard and one has to cross the limit to become, you see, a Sahaja Yogi.

When this Western wisdom reaches its depth, you see, it reaches its depth then it starts seeking something beyond it.

That should happen, only it can happen to a category of people who have reached that state.

Otherwise it cannot happen to a person who read the books of economics, you see.

So that is how we have to develop our attitude towards these people. And towards other people whom we want

to get it, we have to know that they will be impressed by our behaviour.

For example, I have seen people who try to organize programs also dress up in a queer way. That's not necessary. Even Indian dress is queer to other people.

So if you are organizing programs you don't dress up like Indian people. You dress up like French, you can dress up like English, you can dress up like the way you are.

So you should not appear to be strange to them. It's all right among ourselves. But among the other people to impress them, you must dress up like way they know and understand. Because even the disheveled hair they can't understand.

So you can go to a hair doer to get the hair done like some sort of a actor, doesn't matter. You have to do everything for these stupid people and dress up in that way that doesn't give them a shock.

Because you have to have the show to begin with. Otherwise they'll never look at you.

A little abnormally dandyish. Little, little. That impresses, I tell you. You see, in the Western countries I've seen people like aggressive people. They like people who are show-offs, little bit.

So I'm not saying that you should, I mean, wear funny things absolutely like a stage actor, but you should look little bit more than what you normally are.

Sahaja Yogi: Touch of class.

Shri Mataji: That's it. Touch of class, you see. And I know it's very simple. This country is like that mad you know. In England once I didn't know that they appreciate real

pearl so much. Actually I had one pearl necklace. And My daughter one day wore a chiffon sarī with a pearl necklace that particular pearl necklace. And when she came back she said, “Take back your `madam pearl necklace.' " I said, “Why?" She said, “Today everybody was calling me Madam, Madam, Madam." And once I was wearing an emerald ring I have, I mean with diamonds, you see, in Oxted and I went to a shop and everybody's eyes were popping out looking at Me. I said, “What's wrong with Me?" I couldn't understand. And actually one lady then asked Me, “Is it real Madam?" I said, “Yes, it is real.

So what?" So this is the trouble is, is so superficial attitude is that you have to be careful about it. But the seekers, you see, seekers are not so much impressed, as I always used to think, but is not so. Seekers are also... little bit *[UNCLEAR* whinier] of that they have.

That must be broken. I used to think that seekers would like to see people absolutely like a Sannyāsī Baba walking, you see. But no, they like it in Indians not on you.

For such purposes we can use people like Bala. But he's so smartly dressed always so, you see, you have to make him look like that, if you have to carry someone.

Now, so we have to come to an end of everything and everything beautiful has to end up to start something more beautiful.

I'm going to travel in the second half of August, September, part of October to all the European countries. You all should write where you want Me to go.

So all of you should write to Gregoire or to Gavin about what country you belong to and what places you would like Me to go.

Gregoire: Shri Mataji, would You like to do the tour at once or come and go, come and go?

Shri Mataji: First you write that, then we will sort it out. I can do one thing, say, for example, I go to Italy, go back to London, then I go there and go back to London, like that.

You see I think that's a good idea is to divide it a little bit, will be better and if you can't pay for My ticket, it's all right. Don't you worry. No, doesn't matter. You see, we have some money in the bank as it is and if it is finished, is all right. But if you can pay for My travel, you may pay. But if you don't have, don't worry.

But it's better to keep it with gaps. And don't pay pegs or regs or hex tickets for Me. I can't manage that you see. It again puts Me into a pot.

All right. Now one more thing is the responsibility of the London Sahaja Yogis, because I'm in London, to see that I get all the visas in time.

Gregoire: You talk for the London yogis?

Shri Mataji: Visas, in time. All the London Sahaja Yogis have the responsibility to get Me My visas in time.

Gregoire: Thank you, Shri Mataji. I thought it was nice if You repeat it three times.

Shri Mataji: No, no, better tell openly, is better. Because I always forget that I have to take a visa because to Me the whole world is Mine.

So now, we say goodbye to all of you. You all have to go pack up, have your lunches and then you have to go. Please write to Gavin not to Me. Whatever you want to write, you write to him on his address, is the best. If you have to send anything to Me, any letter, put it care of Gavin Brown and get his address to yourself, all right.

Now, if you have any personal problem, you can come and see Me in My room. But not all of you.

Those who really have. I would like to see Pamela for something, Pamela and her husband. And anything else, anybody has any personal problem raise your hands. All right. But not about your husband, wife and all that. All right. Because I have had enough of it. And I would like to meet Glenda and her husband.

And that Austrian Sahaja Yogini, the Austrian Sahaja Yogini who's come with him. Who else wants to see Me personally? Gregoire: Shri Mataji, we have some presents for the French Sahaja Yogis. After you leave we will do.

Shri Mataji: That you can do among yourselves.

Gregoire: So if you would allow Shri Mataji, we would now take Your mantra and You...

Shri Mataji: As long as you don't have any more present for Me now, let Me go.

Sahaja Yogi: There are presents.

Shri Mataji: All right, then you can give Me the presents and then say the mantra, all right. But bring it fast.

[MISSING.]

Contents: 1984-05-21 **Quote from the Book Prayers, Praises and Protocol, p.169**

We cannot fight ourselves. We can only leave it to the Kuṇḍalinī and the Ātmā to work things out for us, by the constant practice of Sahaja Yoga, shoe beating, foot soaking, Dhyāna [meditation] etc. And since it all happens automatically, there should be no room for ego intervention or mental activity.

Contents: 1984-05-21 **Quote on Śhrī Viṣhṇu**

Lord Viṣhṇu is the one who oversees the four Ashramas, or `stages of life' and one of them is Grihastha, or `householder'. For a man who is Ātmāsākṣhātkari and a realised Soul, such a thing can be a great tapasya, but without the collective cannot survive and its evolution and the drama which is the basis of the creation is harmed. This drama is born of Divine Will and Desire and therefore that is opposed. In the West, one has an idea that Grihastha and marriage are given to us to enjoy and it is true that this is the outer manifestation, but there is a deeper, hidden meaning, that by it we fulfil our duty to God who has manifested as the Virāta so that, in spite of being one with the Ātmā, we accept the responsibility of matter, to be one with Him and prove our Love and Bhakti for Him. There is a very subtle and twisting play here, for the sādhaka seeking the Ātmā gains it, but with it also matter, as tapasya this time and not indulgence.

Contents: 1984-06-22**, Public Program, The Experience of Truth, South Bank Polytechnic, London, UK**

I bow to all the seekers of Truth.

There are in those modern times, many seekers of Truth are born. It's a special category of people born in these modern times.

Perhaps we are not aware, that in every country, [a] lot of people are born with the seeking. They are a special category which sees beyond, tries to find something beyond, what they can perceive through their sense organs. The truth as we see, is through our sense organs. For example something we see as white, we call it white, something we feel cool, we call it cool; [similarly] something as hot. Means whatever we perceive through our sense organs and whatever is communicated to us through our central nervous system we accept as Truth and we should accept that only, as Truth. And not something that is told to us, not something that we have read in the books, not something that we can project our mind to and can think about. That doesn't mean that I deny any one of the scriptures. That doesn't mean that I deny anything that we have known so far. But to begin with, let us start from scratch as they call it or on a clean slate.

Let us see what is the Truth.

Now in every religion Truth has been described. As I can see it, everybody cannot see it. That's why this problem. That's why fanaticism. That's why this blindness. That's why there are these blind alleys where you end up arguing [about] things.

So there must be something that is missing within us that we have not been able to really relate Truth to our central nervous system. And what is that missing within us, we should try to find out. In all humility we should

know that there must be something within us, that we have been arguing about so many things, we have been talking about so many things, reading so many books, going into all kinds of funny experiences, right from alcohol to other drugs and `Gurus' and this and that. But still we have not felt anything on our central nervous system.

Secondly that we have no control over that truth, so far.

So what is the reason? Is it that something [is] missing in the human awareness? Is it that we are lacking something in our human awareness? All the books, all the scriptures, which are true scriptures, have said one thing, that to know the Truth, you are to be born again. That's not only in the Bible. Say, if you take Patanjal which is a very ancient book, it's not that the Patanjala asked you to stand on your heads. [This understanding] is wrong. It's just a wee, wee, wee, wee bit out of it. But what Patanjali has written is that you have to achieve the Truth on your central nervous system through your `Ātmāsākṣhātkar'. The word is different, meaning: `the experience of your Spirit.' Now English language has an advantage and a disadvantage, that the Spirit could be the Ātmā, the spirit could be an alcohol, or spirit could be a dead body. But it could be a disadvantage, because it is not so. There there are three separate things, absolutely opposite [to] each other.

So [that] the Ātmā, the Spirit, has to be found out, is said even by Mohammed Sahib. He said, “You have to become the Pīr." It's said by Zoroaster, is said by Lao Tse, is also said by Zen. Buddha has said it, Mahāvīra has said it, every one of them has said it.

So many religions have started in the name of God without going to the Truth that you have to be born again.

Now you have to be born again does not mean that you certify yourself `I am born again.' Selfcerti ficate! You can go ahead, “I am a born again!" But you don't become [that]. What is so special if you are born again? What should be so? The human awareness at this level is just ready to be born again.

As in Sanskrit the word for a `bird' is Dvijaḥ, means born again and also for a Brahmin who is born again. But those who call themselves Brahmins are not Brahmins. They just call themselves Brahmins.

Have they come to know the Brahma, the All-pervading Power of God? Those who say that they are born again should feel the All-pervading Power of God around them. If they cannot feel it they are not born again.

So all this self-certificate and deception, self-deception and deception of others, is just a money making process.

So the Truth has to be achieved through your evolutionary process which is a living process. Again we must understand, living process. Not through just talking, mental projections, sitting down here we talk about it, or by giving you some courses, or taking some money from you. You cannot get it [like that]. It's a state in a living growth, that proves that it is a living thing. Means the state of our awareness has to be higher than what it is. If our state cannot rise then it is not of any use. Like a seed becomes the roots then the bark, the leaves, the flowers and the fruit, different states. In the same way a living religion must give you a different state and that living

religion is within ourselves. Everyone has that. When we go against that living religion within us we go into imbalances.

But even today people can ask, “Why the religion? Why should we have a balance? What is the need? Let's go into imbalances!" I mean, is a quite logical question people can ask “Why the religion? Why have the religion in the stomach even? For what?" So what is the religion, we come to that point, is that religion is the valency of human beings. Just like carbon has four valences human beings have ten valences, which matter does not have. Animals have nine and human beings have ten valences. And when these ten valences go out of balance, then they go out of the quality of a human being.

But still one can ask, “Why should we have those ten valences?" Because you have to ascend. Because in the evolutionary process you have to ascend. And you can never be satisfied with yourself unless and until you have achieved it. Especially the seekers. That's why I say they are a special category. Because, in this special category, “Men of God" will have to become prophets, “and they will have powers to make others prophet[s]” said by William Blake. In your great country William Blake has said this. When is that going to happen? It has to happen today, tonight.

But, there are barriers within us, built in. Not because of anything else but only because we have been seekers. We have been going to various roads of seeking, whatever suited us. Wherever we went to, we have tried to find something. And we have injured ourselves within ourselves sometimes. We have built up certain barriers.

Now when you become the prophet you actually become your own master. You become a free person. You have to be a free person.

So far you are not. You cannot overcome your own weaknesses, your own temptations, infatuations, emotional problems, mental worries. Why? Because you are still standing in the waves of this turmoil, this troubled area where you just see the waves all the time and you are frightened of getting drowned. But if you somehow or other get out of it and get into the boat of your own being, then you enjoy, you become the witness, the Sākshī.

Even to understand the scriptures you have to be a free person, which you are not. You have to be your own master. For that you cannot pay. I am too free that I cannot accept anything. To get your freedom of Spirit you can't pay because money is binding. Money has no value in the Divine field! Nothing can bring forth this but your own ascent. And how do we ascend? Is there anything built within us? So whatever I am telling you today is the knowledge of the roots. What we see is the knowledge of the tree. We see it from outside. We see a leaf from outside. If you have to treat the leaf we have to go to the roots. But from outside, when we see the tree we are still outside the tree. When you have to treat the leaf, you have to go to the roots. If you pluck out the leaf, it is dead. Then you put it under the microscope you can go on seeing cells after that you can see the nucleus, you can go on analyzing it and analyzing it making it dead, dead and dead and dead. But to treat it you have to go to the roots. And this knowledge of roots we have to know.

That's nothing wrong in knowing something new. These are not new ideas. These are ancient ideas, very ancient ideas. In the Bible it is described as the Holy Ghost. One priest was asked, I saw, on the television. A very high ranking priest, “What do you know about Holy Ghost?" He said, “I am agnostic." So then they said, “Then what are you doing here?" He said, “I am doing my job!" If that is the attitude towards God, towards your inner knowledge, then you can never reach there, as you cannot reach the tree through the leaf, you have to go to the roots. This has been available only to seers like, you can say, William Blake. Like we had many in other countries. But they did not talk about it because perhaps that was not the time for people to know. But in many languages it is described.

Now the roots within us, if you can see this [Chakra Chart], are placed in this manner. When I went to America the Jungian Society invited Me to talk to them about the unconscious. I had never read Jung, though I knew he was a realised Soul, at least he got his realisation at the later time.

So I said, “Alright let Me have one book, let Me see who... what is he saying about” you see. And as I opened the book I saw a diagram, what he had drawn of a human being and I said, “That's the mistake." Because he saw human beings from outside and he described them in layers. Like first he says is the unconscious that cannot be expressed, manifested, then the unconscious that can be manifested, then he says above that is the sub-conscious. And then he says is above that is the

conscious mind. Then above that is the ego. Like layers, one after another.

Now when you are sitting here, though you are in layers, the path is laid down vertically [the path between the chairs in the hall]. In the same way within us, God being the greatest organizer, He has not made us into layers but what He has made us [is] in a parallel way, as you can see there very clearly, left side and right side. Left side and right side [and] the central path. Three paths He has made within us for our evolutionary process. The central path works out our evolution. The left side gives us the desire and the right side gives us the power of action. These are just the principles I am telling you. But you can understand, slowly, when you grow, all the details about it.

The central path of evolution has brought you today to this level of human awareness. Now beyond that is a very short ascent, which you have to achieve, by which you become the Spirit. But there has to be some living process for this to happen. And what is that living process built within us? Is the reflection of the Holy Ghost within us in the triangular bone, which is called as `Kuṇḍalinī' in Sanskrit language.

This exists within us. And you can see with your naked eyes, sometimes, in some people, where there is an obstruction in the higher centers, it starts pulsating. And when it ascends you can also see it clearly in some people when it is obstructed. Or through your stethoscope you can feel the percussion, which we call as anāhata, up to the top of the head here, where it pulsates and then it breaks. When this breaks the

pulsation stops and you start feeling the Cool Breeze of the Holy Ghost coming out of your fontanelle bone area. This is the happening and not the Truth. In the sense that the happening takes place so that you get connected with the Truth.

So the connection takes place and you start feeling on your finger tips the Cool Breeze of the Holy Ghost which surrounds you. Actually, you start feeling it. But then as the rational mind it says, “So what?" “Now we are feeling the cool breeze, so what?" Then one should know that when we have eyes we start seeing, when we have ears we start hearing, so now we have got new awareness, what is this awareness is? This is the awareness of collective consciousness, that you become. Again I say, “You become!" You are not just certified but you become. It's a question of becoming, that you become collectively conscious, that on your central nervous system you can feel another person, you can feel your Self, you can feel your centers which are shown here, you can feel the centers of others on your fingertips. And the best on this, is Mohammed Sahab, I would say, because he has written clearly, “At the time of resurrection your hands will speak." But who talks about the resurrection? In nowhere people talk about it. They talk about the doomsday. Because they can frighten people of the doomsday first and take advantage of it and make money out of it.

God who has created this Universe, He feels love, do you think He will destroy this great creation of His without giving us the fruit, without letting us to know the fruit of His creation? He is the wisest of wise, the greatest

compassionate Source of Love, how could he allow this Universe to be destroys [destroyed]? Especially this Earth, which is a special present from Him.

So don't believe in all these stupid ideas of destruction and the Last Complete Devastation. Still lot of time. Let's first enjoy the blessings of the Divine for which He has created you.

So the experience of Truth has to be felt on the central nervous system. The problem is not that you will not feel, you will feel it, but, as you know, the experience is very slow in the Western countries. I am sorry [to say that]. Not that you are in any way less seekers. You are very great seekers. I would say you are greater seekers than the Indians are, much greater seekers. Indians are still to cross lot of steps to come up to your level, no doubt. But while coming up to this level, you have gathered lot[s] of problems around [you] and that's why the seeking is sometimes... takes time to express itself as a fruitful gain of Self-realisation.

So you will get your realisation, no doubt, but again the Kuṇḍalinī goes down. I must tell you very frankly, because I cannot be dishonest with you. But it can be brought up by you, by understanding how to work it out, by cooperating with yourself, by understanding yourself that you are the temple of God and that you have to work it out with respect to yourself. And you have to give some time. I mean, in Caxton Hall, you must have seen, I had thousands of people coming to Me. I have been working in this England for twelve years now, twelve years. It's the last year now. There's a special reason for that. But what I find [is that] people get their realisation

and then get lost. Then when they have some disease or something, they'll telephone to Me, “Mother, now I am in the lunatic asylum!" or, “I am suffering from cancer." “Now that's happening to me. Can you help me?" It's too far gone a case. But if you know how to handle your roots, how to nourish it, how to look after it, then you flower out, you bear fruits and by your fruits people know what you are. Then you become trees, giant trees, like Boddhi trees and many who come under such trees, get realisation.

English are great people no doubt. They are placed in a country which is the Heart of the Universe.

You are very important. I've given the maximum time to England, you'll be amazed. Maximum time.

But the Sahaja Yogis who are not in England have grown much faster than in England. The reason is, it's like the foundation that always gets damp here. You have to again puncture something inside the foundation, remove the dampness. Again it gets damp. Rather difficult! But once they are settled you will be circulating the Divine interpretation, the Divine experience of Truth, all over the world. You are at the heart point and this is what you have to do. We cannot be mediocres in Sahaja Yoga. There is no compromise with your Self. You become so powerful that you don't compromise also. You can just get out of everything in no time. But you must accept yourself first of all, have faith in yourself. Once upon a time the English had too much faith in themselves, I mean `extraordinarily powerful people'. Now there they are the other way around, they have no faith. You see now the sap has come up, as if the dampness has come,

“Oh, we are good for nothing!" This is the second phase that I find in this country, it's complete lethargy. “Oh what can happen? Let us be destroyed Mother! Now that's the best for us!" Completely reconciled to our doOm And I look at them with great hope. They have to circulate. They are the cells, who are lying in the heart, who have to pump the heart. Now what am I to do? So I have to make a humble request with you: that I know [the] experience of Sahaja Yoga is slow but very steady and I am sure that today I have got people who are of [a] rare quality of courage. An assiduity, which was the English character, once upon a time. And that they will take it up seriously: their ascent and the ascent of the whole world.

We'll be having about three more lectures and there I will be telling you more elaborately about Kuṇḍalinī and the Chakras and about all this knowledge. All this knowledge is available to you now, because it's time for you to know all these secrets.

Some newspaper people asked Me, “Mother have you got your disciples all very great scholars?" I said, “No, they are all very ordinary people.

Some may be, who are more difficult [some laughter], but [laughs] but mostly they are very normal, ordinary people. Simple people. But what makes you think that way?" They said, “They are so scholarly they know so much!" Because you become the Knowledge.

So Truth is the Knowledge. The rest of it is all mythical, is mythical. What do we know about things is all mythical, because whatever we see from outside, is outside. Like, I would say, we appreciate Mona Lisa, we appreciate the

miracles as we say, the great miracles that human beings have created. Why? Why do we call them miracles? Sometimes we think that, maybe because it's a very miraculous task they have done, mentally we think, but actually it is not so. Because they have vibrations, they have Divine vibrations, they emit vibrations and they appeal to you because in your heart lies that Spirit which is the Universal Being and which gives that feeling of bewilderment when you see these great miracles that human beings have created. At least I have seen six of them and all of them have tremendous vibrations.

But unless and until you become a realised Soul, how will you know? [Short pause.] Now this is the only gap. And to become the realised Soul you have to have the ascent of the Kuṇḍalinī and the proper state of that Kuṇḍalinī to remain there. And that's the point where I find we lack in efforts, lack in courage, in patience.

So again and again I request you, that don't be superficial. Let Americans be superficial. You'd better not be. You be solid people, serious. Take it up seriously! Because you are going to lead the Europeans, the Americans, even the Greeks, even the Italians. The problem is the horse is behind the cart! [Soft laughter.] Sitting lethargically. [Soft laughter.] Now what am I to do to the horse? That, “You get up now! Because of you the cart is not moving." That's why I make a very-very special request to you all, that you must decide that, `If we get our Realisation, we'll establish ourselves into Sahaja Yoga.' For which you don't have to pay, there's no membership, there's no organization. Nothing. I have nothing to take from you. You can't give Me anything.

So I hope today, many who are new will get their Realisation and establish themselves and will not forget it. Because in the beginning the experience is very great, you feel as if you are coming out of a pub! [Laughter and laughs.] I don't know what that experience is! Must be terrific! [Big laughter and laughs.] Because I see so many people coming and falling down and again so many going in.

So I used to wonder, “How is it?" [Laughter and laughs.] Must be some memory of something great, must be there! So by God's grace you all should get your Realisation and I would like to have some questions, but in that I would like to say that there are people I know, we had before also, belonged to some Gurus or something, paid by some Gurus and come to. Because you see they feel ah... the Gurus are feeling that I am, in a way, attacking them. In a way, they feel that way because I say “you cannot pay", so all their profession is finished! [Laughter.] So they get angry with Me for that.

So they might be saying, “Ah, you go and attack Her." And all sorts of things, you know. And there could be some people who are aggressive because of other problems of ego or something.

So you need not be aggressive. I have come here to give you what you have. And you need not be also docile about it or slavish. I have come here to give you or tell you, what is freedom.

Now you may also say, which is [a] very common question arising in your mind and justifiable, that `why should I do it?' Now that's the miserable part of it, that I have to do it. I wish you could do it, but you can't, that's

the trouble is. And if I have to do it, I don't hurt your ego. No, I don't want to hurt you. You see this is something people don't understand that `why should I do it?' You can do it also but first I'll have to take you [a] little bit ahead, your awareness has to grow a little more. And then you can do it [on] your own. But first definitely, I have to do that. Which is a headache [for Me]. I tell you, it makes Me also a miserable person because you know, this is something, a thankless job of a Mother.

But I have to do it. Maybe I am paid for it somehow! [Laughs.] I don't know. Whichever way it is. But you shouldn't feel hurt about it! It's a crucifixion, I tell you. It's not easy. It's a very difficult task. It's like [lifting] mountains sometimes. The Kuṇḍalinī is just embedded, poor thing, sometimes so hurt, so wounded that to raise that wounded Kuṇḍalinī itself, takes such a lot of... effort. But one has to do it and I knew I have to do it.

When you will know what it is you will not be angry with Me, but you will understand the task ahead of us, all of us. All of us have to do it.

May God bless you all.

Now, as this is the first program, I would like to have questions. But sensible questions which will help everyone to ascend. It should not be `dog in the manger' policy, that you don't want to ascend? Alright, goodby! We cannot force. Actually we cannot force it. It has to be asked for otherwise I cannot do it. You have to knock at the door otherwise [the] door cannot be opened.

So those who do not want it should not bother to ask Me questions. I have seen mostly the people who ask Me the questions are the first to go away.

So, this is not meant for such people. I mean, for that you can join, say `miner's strike' or something like that. [Laughter. There was a big coal miner's strike in UK in 1984.] But this is not the place for such people who want to fight it out. It is something that's so beautiful, that is your own, which has to be opened out.

So you can ask Me questions, it would be a good idea.

Thank you very much.

[Nobody asks any question.] That doesn't mean you should not ask Me questions [laughter and laughs softly]. You shouldn't be frightened. You should ask, you must.

No questions at all? Now, I'll ask one question. How many are new people to Sahaja Yoga? Absolutely new. Please raise your hands, please. Can I request you to come in the front two rows, all of you, please.

If you don't mind. It will be a better idea. Because I want to look after you. Please.

Front two rows you can occupy. Front rows you can occupy. [Pause.] Please. [Pause.] [Aside:] Is there any other seat for this gentleman? Alright, you can sit next to Gavin. Gavin, just have him there.

Now it's a very collective working, extremely collective. See, like this finger has some pain so the other hand comes round and presses it and puts it right. Alright ? So you are all, we are all part and parcel of One Being. As you call them, ahh, the microcosm and the macrocosm. And only thing [is] the ones which are awakened will help to awaken the rest of it. That doesn't mean anybody is superior or higher or lower. There is no obligation. Like my own finger paining if I try to rub it. Am I doing any,

ohh? Am I obliging that finger? No, I am not. Because I can't live without that. I can't bear the pain. And this is me and this is me too. In the same way it works out.

So we'll try to work it out and, when it works out some of the Sahaja Yogis will come and see what's the situation is, what are the centers in trouble. Nobody should feel bad about it. With all respect to you it will be done.

So one should not feel bad or sad about it [or] in any way dear... hurt. Why I am saying so [is] because, the... you see sometimes people feel that they are challenged. You see, they feel that way.

You should not. It's for your good, for your health.

So, I am just trying to tell you as a mother would say that, “It's alright, you see and there's nothing wrong [with you]." So, don't be frightened of anyone.

Don't be angry with anyone. Specially with yourself don't be angry and it will all work out.

Now, another thing I have to request is to take out your shoes for one reason that this Mother Earth helps us a lot and if you take out your shoes the Mother Earth, you see, earthing. For earthing's sake it is better to take [them] out. Though mostly, everything is so much artificial that it's impossible to reach the Mother Earth somehow.

Alright.

Put both the feet straight like this. It helps that's why. Just to help.

And sit in such a way, straight, that your back is straight. Not too much of a... like this, or forward, or bent. But in a straight way, in a simple manner. `Sahaj' also means `a simple way, spontaneous'. As you sit, spontaneously.

Now, as it is because your finger tips have five-six and seven centers which are to be enlightened within yourself, you have to put both your hands just like this.

And now close your eyes, you have to close your eyes. Don't open your eyes till I tell you. Because if you open your eyes, this center of Christ won't open. You have to keep our eyes closed.

Now we have to cooperate with ourselves, we have to give power to our different centers with our right hand.....

***Contents: 1984-07-02*, Public Program, Town Hall, Hampstead, London, UK**

I bow to all the seekers of Truth. The other day I talked to you about the experience of truth. That the truth has to be felt through your central nervous system. If anything has to happen to your evolution you have to feel it through your central nervous system otherwise it is just a projection of your mind which falls off and you are surprised at yourself. Like we call somebody as a friend, a dear friend and one day we find there is no friendship. Maybe one day the friend will try to murder you or you may try to murder that person. You just don't understand what happened to that love. Same thing about all of our projections, we find it has no basis, it's so superficial.

When we realise that all is so superficial, it has no basis, we just get frustrated and we start thinking, what is all this, we are playing games. One can't be sincere. What has happened to us? Why are we so frivolous? Why are we so superficial? We may start taking interest in things which look superficially very great, but ultimately we find

that it doesn't have any depth in it and suddenly to our horror we discover that everything seems to be relative in this world, nothing is absolute.

So the experience of the truth has to be absolute. Means everybody should feel that way, if not then it is something poetical because each poet sees the reality in a different way, describes in a different way. But if he is a truthful poet he keeps the essence at least the same. But when we say we have to feel the truth, by everyone in an absolute manner, what does that mean? That means when we get our Self-realisation, when we think we have got a new awareness of collective consciousness, that means we are unconnected with the whole, with the absolute, then everyone of us who is like that should feel the same way. For example there's a person who is sick and you get ten children who are realised Souls, that means we say are realised Souls, now tie up their eyes so that they cannot see at all and ask them what centers are catching in this person. All of them will raise the same finger.

This is the finger that is catching. And if you ask that person relative to that finger, have you got this trouble, he'll say yes, but how do you know? How do these children know? So the truth is felt by everyone the same. Then it is absolute. If somebody sees a blue colour, if somebody sees a red colour then it is not the truth. And you'll be amazed when you become Self-realised, if you meet people who are Self-realised, you'll be amazed they say the same thing in a different way in a different, but they say the same thing.

It is very amazing that people who were in India, who were in Lebanon, who were in China, who were in England had nothing to do with each other, had no communication what so ever and they say the same thing.

So down within us there is something that is absolute that tells us about absolute.

So the second experience should be of absoluteness. The Divine power that is all-pervading, if it is truthful, if it is real, then all of us who are feeling that power through this realisation should receive the same message and no different messages.

This is the second proof of truth and you put this test to anyone who says that this is Self-realisation.

This is a very, very important thing to understand that truth has to be one, it has to be absolute and if you can establish your report with the absolute you cannot have any other information but the truth.

So as you ascend in Sahaja Yoga you start learning that whatever messages you are getting is the truth, that all these messages that you are receiving you can yourself perceive them, can feel them, nobody has to tell you. Even a child can say the same thing.

So you move one step forward into a world called faith, which is the faith of experience. You call say this as escape, how do you know it is not artificial? It is real because you have experience of the artificial; and the real and now when you feel it you can say with faith `yes it is real.' In the same way reality can be only accepted if you go through the experience of truth and then have faith.

Human mind is a very wonderful mind. English word mind doesn't explain much though what mind means but in Sahaja Yoga it has been very clearly explained what human mind creates. Here as you see very clearly that on top of the head there, you see a lotus. We can say how can there be a lotus on top of the head Mother, this sounds very poetic and something fantastic and is a fantasy, it is symbolic of course they express something. Of course I wish everybody had that lotus blooming. But very few have it but still they have no doubt. Now this one, when you see the lotus, before that if you see the brain in Sahaja Yoga is just shown as a hollow thing. There's nothing like brain shown there. But there are two, blue, deep blue and the yellow, somebody should show John, will you come? somebody, two balloon like structures in the brain. Now when the first balloon only existed, when we were just animals our brain was at, so was the Himālayas. Himālayas represents our brain in the gross life.

So the Himālaya was also at and our brain was also at. Then man started hitting with branches when the animals attacked them, they learned how to hit back and another line started which we call as the sun line but which another side started developing and the brain got transformed into a new formation of a triangular. This triangular brain, now is like a pyramid I see and sometimes I find it swollen very much more on one side, a bit too much.

So all our problems started from that point where we decided that we can do it. We have to do it. And when we started doing it that way. This yellow stuff which we call

as ego started pushing the superego in such a manner that the brain became a prism like structure. But it is was important to create this prism. Of course with this Himālayas also developed a triangular structure. It was very important that it should have happened in the human brain, that we had developed this ego within ourselves. We could have avoided it if we had not committed the mistake at the stage of Adam and Eve, but we did commit, so now we have it.

And that short circuit got elongated and our evolution started going on a different line where we wanted to find out ourselves what is the truth.

So the journey started and started moving so fast that we remained in the state of a balloon alone, nothing else but a balloon that existed.

So we became nothing but balloons floating superficially. The balance was lost completely and the whole problem has started with this balloon, that we can put in the effort, we can find the truth, we can discover this. Like one scientist was forced by a King in *[UNCLEAR* Reston] and was in prison and was told that you should try to create gold out of Mercury, poor fellow he tried his level best he could not, but in the result he found out how to make beautiful China. That's exactly what has happened to human beings, in the search of truth we have discovered everything else but the truth. Because truth you cannot discover it, as I told you the other day it is a state that one has to achieve, one has to achieve to receive the truth, to know the truth.

So some people felt that truth is what we have found out, like blind people, whatever they have found out they

called it as truth. Even in India, where people have a great sense of meditation, people committed mistakes and what they found is the movement on the right hand side and they said yes, there is All-pervading Power and that is formless. The left hand people found while praying to God that there are forms which guide them so they talked of the forms.

Some talked of the formless and some talked of the form. The right-sided people being the worshippers of the Goddess of learning wrote down everything as Vedas [most ancient Hindu scriptures] but in the very beginning of Vedas, Vedas means to know and to know means to evolve to become Self-realised. It is not when I talk to you what you know, is the knowledge, is not. The knowledge is which is expressed, manifested on your central nervous system. The truth.

So they wrote down what they found, that we have to first excite or initiate the nature.

So they wrote *[UNCLEAR]*, all those things, now that has become an authentic writing, big things for intellectuals, that to after many, many years people remembering it by heart.

So authentically you might say that Vedas came only about 800 or 80es or something like that.

So all that writing, if you go by that you'll be lost into another wild goose chase and those who read only Vedas can never find that what is supposed to be known. In the first chapter or the first verse of the Vedas that by reading this book if you do not get the knowledge no use reading the Vedas. But there are books and books and books, libraries and libraries and libraries, all the wild

goose chase. Many of the systems follow, was the system of fearing the God, then finding out the forms of God, worshipping God as forms.

The incarnations came on this earth and people worshipped them, like Christ for example. Now there is a challenge on Christ, these intellectuals will challenge everything because they challenge everything through the intellect. The trouble is that they think they are the wisest. Such wise people can not find God is impossible. You have to be a little humble.

So the intellectual as usual challenged and the others who just believed without the intellectuals were the people who just believed into things without knowing. Who had just faith, as our devotional emotional songs are, devotional songs are. All these extreme movements on both the sides created two different types of people, one who we can call them as intellectuals and another as fanatics.

They did not create Self-realised people because ego makes a person so superficial and so stupid that he cannot grasp, it's beyond him. He is so stupid. He cannot grasp the truth. Is a barrier, is a projection outside, he is a concave personality, is a convex personality. His brain is convex. And the other one is so concave, is so conditioned that you cannot talk to him. That's how the quality of seekers came on this earth, who are seeking truth.

Now we should also know that God must be worried about his creation, he must be worried about the people who are created by him, who became human beings, who are seekers, special category, not hypocrites, you

cannot help hypocrites, you cannot help them but those who are real seekers. There are many real seekers and he must be worried about all these seekers and he must have arranged something for them and that is how Christ came on this earth to guide you. He came on this earth to guide and tell us that you can find the truth by your second birth. You are to be born again. You are to be born again, then there are people who just believe that I am born again, you see self opinionated, I'm alright! I've found it! Stupid people, they just believe, certify themselves they have found it. They just give themselves a certificate, oh I've found it, but who is the loser? It's not God. He is there, to reveal himself to you if you want to know him, through your evolution, through your effortlessness. But as you have seen Patanjali Yoga Shāstra was written for the central people, for the real seekers but people took out of Patanjali also what suited them is the physical exercise, I mean just imagine, it is like a person who has been invited to dinner is doing dish-washing, it's that stupid. And that book, even today thank God, despite all the intellectuals attacks and all nonsenses, he does talk of the formless not of the form so much but he does say that you have to neutralise your effort, [Sanskrit] you have to neutralise your thought which are [Sanskrit] and in the absence of that thought only the Kuṇḍalinī will rise.

Now a vicious circle is created, even when we say we should not have any thought, we fight with that thought. I will not have any thought x2.

So there is thought still there. How to get rid of this thought, is the problem. How to become Nirvichara?

Anybody that preaches a lot, talks a lot, is actually creating the thought in the mind but some may not. But mostly they do.

So something has to happen that the thought must stop. And that is what happens in Sahaja Yoga. But it is all done by God Almighty within us, that he has made these beautiful Chakras. They are made from different elements, the essence of different elements and all incarnations of our ascent are placed there to guide those subtle centers, is already within us, we may not know about it but they exist within us and ultimately the residual, they call it, the residual power, that is Kuṇḍalinī; it is residual because it has created everything but has not manifested itself, is the pure desire to know the truth, pure desire to know the Divine, to become the Divine, is still sleeping.

When these Chakras are in proper shape she spontaneously rises just like a seed sprouts, you don't have to do anything to reduce your efforts and your thoughts. The thoughts are created and they disappeared again they come up and disappear, there's a little gap in between and that gap widens by the ascent of Kuṇḍalinī and you become thoughtless without any effort. With effort you cannot, that's the point is.

This mechanism exists within us. Now if something happens here say for example this is working out, then we go into the mechanism of this and try to find out how this is working out. Now if you want to see, you can see the rising of the Kuṇḍalinī, you can see the breaking of the Kuṇḍalinī, you can feel the Cool Breeze coming out of you. Now how it happens? It cannot happen.

Some people believe if you go to God and if you can sing well, is done. Or if you sing some music, or you do some reading of bible or some books is done.

It is the Cool Breeze that emits on top of your head, is the first sign that your Kuṇḍalinī awakened and then when you start feeling it all around now you are in connection with the All-pervading Power. Before that we are denying the truth. It's all done by God, by his grace, he's made it all so beautiful, so very, very beautifully, this machinery is within us. We don't do a thing, we don't have to do a thing, but that is the point, we cannot do, that we don't have to do anything about it. Always they ask Me, then what must we do, I said you don't do anything, that's the point is. It is too much to accept. But how do we become human beings from monkeys? Did we cut our tails or anything, we just became? How does a seed sprout? By itself spontaneously. In the same way your evolution has to take place spontaneously. And every time somebody has to lead, somebody has to go forward, somebody has to be bold, somebody has to talk about. Maybe somebody else would have been better for this job, as I said the other day, I would be very happy to retire but that's what it is, it's true. I have to do this job, it is a thankless job no doubt but I have to do it, now what can I do about it? That should not upset you. That upsets many people but I don't do anything actually, it is a nature within Me, like the sun shines, it doesn't do anything does it? But when the sun shines the trees become green, just it happens, I mean the sun doesn't take any credit or doesn't say that the trees must offer part of their greenness or something to Me. Does it? They

are not angry with the sun are we? Because it tans our body. Do we? We don't get angry with it. In the same way it's somebody's nature, somebody's nature is to do that and somebody's nature is to ascend and to rise, is more credible to more people who achieve it that way, don't you think so? So, there is nothing to feel unhappy about it. This is another problem which I told you last time, that in the West it is a really big hurdle for people. You cannot pay for it, you cannot put in any effort, you cannot do anything about it, it has to work out. It cannot be guaranteed that. If it is there it will work out, if it is not there it will not work out. If the desire is pure it will work out and then you have to work it out to keep it there.

So by reading about it you will never understand, there are so many people who read bible, so many people who read Gītā, so many people in India who know by heart the whole of Gītā, the meaning, everything but there is nothing in their lives, they have sickness, they've ill feelings, they're unhappy or ego-oriented, something wrong, somewhere. Nothing wrong with the scriptures, we have forgotten it is said you are to be born again.

So the third experience should be of transformation. If it cannot bring out the virtue in you, if it cannot give you the strength of your spirit, if it cannot transform you then it is not Self-realisation. But transformation can be taken like this that people can just change the colour of their clothes and say we are transformed, now we have taken a Sannyāsa, you see, we are all detached. All such self opinionated people. It's not that, it's no opinion, is to be in that state is important, to be in that state that's the truth and that's the truth you should ask for and nothing

else. Are you transformed by it and the first transformation you feel, before you change your temperament, before you change your habit, before you change anything is that your central nervous system acquires a new dimension of collective consciousness.

Acquires! You get it. And you can verify it.

But human beings still think they are obliging Me and say no Mother no much, I don't believe in it. It's alright, who are you, I mean don't believe in yourself.

So the first thing that should happen in this experience of transformation or evolution is that you become, again I say become, become, become collectively conscious, by which you know your Chakras and you know the Chakras of others, you know the subtle problems you have, the subtle diseases you have, the hidden problems you have. The whole life which is abnormal comes to normal you see because you can see abnormal. Supposing I am standing on the edge of this and there is no light, I cannot see, I may fall down. I am about to fall down I cannot see but there is light, I see.

So I get into balance. That is enlightenment. If enlightenment doesn't give you the vision of wisdom it is not enlightenment at all. You drink, you smoke, you see all kinds of things, you have temper everything exists and you say oh God I am a very religious person and the second thing that comes to you is some sort of a abuse.

So your virtue, virtue must shine and that's the time is today according to the Shālivāhan? calendar this is the Krita Yoga. This is the Yoga when there is, is the age when there is perfection means where, you get in contact, actually, with actuality. That means you

actualise it and that is the time, today, that has come called as Krita Yoga.

That means All-pervading Power is actualised and you feel the manifestation of that power very, very clearly, on your central nervous system. Because whatever is evolved in you, you feel it on your central nervous system.

So this new breakthrough is to be seen through and not to be just accepted, not to have blind faith, nothing of that kind. Then once you come to that certain state then the subject gets deeper and deeper and much more interested, but first that state has to be established. Many people have complained to Me that Mother Sahaja Yogis who are senior are rather secretive, there are no secrets, no secrets but as a boy who enters say into the first class or the first *[UNCLEAR]* cannot understand what *[UNCLEAR]*.

So he might feel this fellow is trying to hide something in his books. It isn't true. One has to grow to that point, bear the truth also to bear the truth we have to develop that power within ourselves and that state we have to achieve.

I requested last time all the people of England especially, because in the map of the Divine, England represents the heart and the responsibility of heart is the maximum and if they don't pay attention to their heart the world having a heart attack.

So how important it is that we should seek our ascent and seek the truth. Of course I don't say, that you don't do this, you don't do that, nothing of the kind, that is not to be said anymore. Just first get your realisation then

you look after yourself I don't have to tell you. Then you get your light you yourself will see that you will not put your hand into the crocodiles mouth then, are you? But first you must see the crocodile, because if I tell you the crocodile in the darkness, you say let me try even if you, that's how it works.

It's so beautiful. There's a very beautiful thing to achieve that's what we say is the Kingdom of God, that's what we say that is that resides within us, that joy, that fills the whole world as bliss, complete auspiciousness of God's being can be ours if we decide to be there, nobody can force you. No one can. It is you who has to choose it in your own freedom only you can achieve your complete freedom.

May God bless you.

***Contents: 1984-07-08*, Public Program, The Experience of Truth, Town Hall, Ilford, UK (another date 07-09)**

I bow to all the seekers of Truth.

In the previous two lectures I told you how to understand the experience of truth. In the first one, we came to the conclusion that if we have to feel the truth, it's not our only mental acceptance that it is truth, or our mental projection that it is truth, but you have to feel it on your central nervous system. In the second lecture I told you that when you feel the truth through your central nervous system in your evolutionary process, then you become something. You become, you become is the point. Is not that you think you are like this or like that, but you really become something. Like a flower becomes

a fruit or an egg becomes a chick. You have to become something in your awareness and this new awareness is the awareness of collective consciousness. Where you can feel yourself, what's the problem with you and you can feel others, on your fingertips. This is a very good English idiom they use, on your fingertips. I mean somebody must have thought of Sahaja Yoga when they formed this I am sure. To use this, you should know it on your fingertips.

Now what does that mean? We have never thought of it, we always say so, we should know them on our fingertips, but actually you feel them on your fingertips. The different centers within you and the centers in other people. As hot or cold, may be as heavy, burning; this you just feel it. You can feel it, others can feel it, children can feel it and everybody feels the same, because truth is absolute and is for everyone.

Whether you have a different caste, community, race, religion, nationality, all kinds of superficial things, which divides human beings, everyone feels the same.

For example, supposing you put a finger to this [candle flame], you are going to feel hot. Because you have a different hair style, you are not going to feel something different, it's like that. Truth has to be that way and that is what is the experience of truth. And once you know you have to know the truth and nothing else but the truth. When you decide in your mind and be honest about it then when you see it, it is very obvious. It has to be obvious, it cannot be secretive. It cannot be, it has to be obvious, apparent, absolutely known to your central nervous system.

So you know the absolute as I told you. Like a computer you start working, you ask any questions, absolute questions and the answers come to you, as cool vibrations for yes and as hot vibrations for no and sometimes the vibrations stops to say that absolutely no. But it can be some blister sometimes a little bit, to say that it's Satanic. And you can decode it yourself and see for yourself. This is the second phase where you start knowing about others and knowing about yourself.

So you become connected with the Absolute. Absolute, means there is no question about it, absolute means there is no doubt about it, absolute means it is single.

Today I have to tell you about what actually happens when this force called Kuṇḍalinī within you rises and gives you Self-realisation. Actually within your self what should happen? Nobody tells you these things, I mean, they'll say you are to be reborn, so you have a sort of a certificate, twice born, reborn and you go about, when it's not like that. Supposing a monkey puts a signboard on, `I am a human being,' does he become? If we just say we are this, we are that, you are not. For example we say we are Muslims, we are Christians, we are Hindus, we are not. Because you have formed a group, you call yourself something, or something that you are not. It's just your own idea. How are you a Hindu? How are you a Christian? What all these religions have said that you have to be born again. Every religion, Jews have in a way said it too, but the problem is that we don't do what is told to us, we just form a group.

Group can be made out of anything nonsensical like, I met some other people the other day and they told Me

our group is called as Knives and Fork. I said “What's that group?" Knives and Forks, yes very good group, so I said, “What is that?" “Because we put our knives and forks in a different way than others." I said “But what's the use?" “No, we form a very strong group." “For what?" “We can form a political party tomorrow." I said, “All right, go ahead with this kind of a nonsense." But it is nonsense, all this is nonsense. What is sensible is that we have to become something more than what we are. We are human beings, we have to become more knowledgeable, we have to become the knowledge. That knowledge you cannot get in the libraries or from the books.

How do you grow into that knowledge is through this Kuṇḍalinī awakening, through this happening that, this Kuṇḍalinī rises within you and pierces through your fontanelle bone area giving you the real baptism and not the artificial one. The reality again. Supposing somebody doesn't get it, all right, so he comes back on Me, “Oh I never got it Mother." Something wrong, he should get it, should get it. Because we cannot give you a false certificate, you cannot give yourself a false certificate. But it is very common as you see in this world, that when you listen to people who are religious, you find they are horribly fanatic, funny, stupid people. I mean if you want to hear about each one of them you should go to the opposite party. Like if you want to hear about Hindus go to Muslims. If you want to hear about the Muslims go to Jews and if you want to hear about Jews go to say Muslims or anyone, Christians and they'll tell you.

So there's nothing universal opinion about things.

It is surprising for a person who wants to see the truth in every religion, he cannot understand why people belonging to religion, when God is only one, why there's a fight going on. Why this world is divided by, even religious leaders are dividing the world. It is very amazing.

So where is this religion? And what happens to our religion? When we get our Self-realisation, we become the Self, the Spirit and the Spirit is untarnishable. It's untarnishable. You cannot cleanse the soap, can you? But the quality of Spirit is that it cleanses you. First is it cleanses you. Just like a Mother lovingly cleanses the child who has fallen somewhere in the road and cleanses the clothes and makes the child absolutely neat, tidy, clean and with great admiration looks at the child; in the same way the Spirit bathes you with it's beautiful blessings so that you cleanse.

And the second thing it does is to give you light. Now the light doesn't mean electrical light, it doesn't mean the light you see inside. What does this light means is your awareness itself. Your awareness itself becomes a higher awareness by which you start seeing things clear-cut. Like I know somebody who came to see Me before Sahaja Yoga and he met Me after say a month, he was a changed man, I could not recognize him.

So I said what has happened to him? He came to Me I asked him, “How are you?" He said “Mother I am fine." He used to look very old and haggard and absolutely frustrated. I said “What has happened?" He said “Mother you know, when I got realisation, suddenly I felt tremendous compassion for everyone and I had an

enemy that was my uncle and I hated him from the bottom of my heart and I used to think he has killed my mother and I could not believe that he has not killed my mother, so many people told Me but still with the hatred I could not get over it. I had insulted him, he had insulted me and if somebody had given me freedom with a dagger I would have gone and killed him. I hated him from the bottom of my heart. And all the time I thought of killing him, doing this and all the nasty things I could think of. My whole mind was preoccupied." “So what happened?" He said, “Next day I started seeing his good points, I said no he is a very generous man. I have been nastier that he has been, suddenly I started feeling it, that feeling of love, compassion and when I said uncle, I forgive you completely, the blissfulness crawled upon me, that's the first time I've felt the joy of my spirit. I had said this before also but I had never felt it, but first time when I said this I felt it and that bliss was so great and that joy was so great I said now I must have it at any cost.

So next day I saw him at a race, he was a great race goer also, a very rich man. I saw him and I just embraced him. I couldn't help it. He was surprised, he looked at me, he said `come and have tea with me and we are great friends now.' " So all that wrinkle, all that horrible anger and all that has gone away and this Divine, serene face was showing its beauty there. But he said “I have done this before, I've tried to forgive him, I told myself, I told many a times that he's not killed my mother, I should not hate him. I tried to convince myself, but still I could not forgive, I didn't have the power to forgive. But when I got

my Self-realisation, suddenly the power came to me, in such a gush. I have become powerful Mother." In the Sanskrit language it's called the word Samarth, Samarth means powerful but actually means Sama-artha, it means equal to your meaning. Equal to your meaning, means you become your Self.

Samartha. When you become yourself, you become powerful to fight your weaknesses and you automatically do it without any trouble, spontaneously. Very easy it is to forgive.

Not only this, so many things there are which you just do without any difficulty. It is very difficult before realisation for a person to think that to part with your little bit of two P's that you have, even that is sometimes difficult. You think ten times, calculate it, all right, if I give two P's now how much will I get, three P's or five P's, all right if I get three P's no good, five P's is all right; but after realisation you just give. You just give, you like to give, you love to give, you want to enjoy the giving capacity of yourself.

So far the acquiring, acquisition and also the capacity to preserve, keep everything to yourself becomes a giving capacity. And as a result of that, what you find, you are filled in.

Every sort of thing, every sort of material or physical or anything that is needed to make you happy just comes down. From where, how, God alone knows because it's only God does the job, it's God's work.

So the power to stand up against evil, against injustice, against wrong doing just changes your priorities completely and you become a powerful personality. Like Christ when He saw the prostitute, Mary Magdalene,

being stoned, He saw the disciple Mary Magdalene in her. He stood up and He said, “Those who have not sinned can throw stones at Me." That character, that strength that stood up there and nobody could even think of throwing stones at Him.

This powerful personality which is compassion, which is righteous, which is virtuous, starts shining through you. It's not a quarrelsome dominating power in which we believe. According to us a powerful man is the one who can dominate the whole world. The power of love we have never exploited, never. All our enterprises, all our worldly affairs, political, economic, are based on hatred. The power of love in it's purest from is the most powerful thing and that is going to emancipate the whole universe. There's no other way out. It doesn't mean your carnal love or your nonsensical ideas of love, it's not, it's pure love.

The pure love is that kind where the sap rises in a tree and gives nourishment to all the parts of the tree and goes back. It's not attached. If it gets attached to one flower, the tree will die, the flower will die.

So this is the power which empowers you, nourishes you, soothes you, consoles you, relaxes you and leaves you powerful.

That sort of a power is to be felt if it is the experience of truth. But we have never tried to understand love in its own truth. The reason is we were not realised people. When we are blind, we are mixed up.

We can't make out one from another but when our eyes are opened out we understand the true love. And this is what people have exploited, many of them, many so-

called Gurus and these people who talk of God have exploited this side of love by teaching dirty things to people, debasing them, using their weaknesses.

Saying that if you do this kind of a weakness, then you will reach God. Love that makes you a slave cannot be love and that is what it is, the love that is Divine, is the love of God that starts flowing through you, you become the medium, as you call it, of that love. A powerful medium. But you know how to manoeuvre it. You know everything. It's not blindly, I have seen some people, oh we are in love, you see going on like that, no. You know everyone. You know ins and outs of everyone and of yourself also.

I have seen many people coming to Me and saying, “Mother please save me from this Āgñyā." Now in our language it is this Āgñyā, but actually it means ego. You can see your ego clearly once you get realisation and we say oh God what is this? That's not me, I am not ego, oh that's not me, I am the Self, I am the Spirit.

So this separation takes place within yourself, with your own understanding that, you are not this body, this mind, this ego, this superego but you are the spirit. And the more you grow into it, a beautiful personality of a character, which is not a character, sometimes people think if you are very meek, is he compromising, such a character will never compromise, is a terrific character. It would never compromise with anything that is not the truth. It cannot by temperament. But is very kind and compassionate, forgiving. Gives lots of chances because there's that inner urge to save others, to save others, to help others, to get them to the right thing. It's like people

who are standing on the brink of a disaster, or people who are on the bank and see the people getting drowned and trying to pull them out with all their effort. But they don't want to compromise as to jump or to leave the banks that they have got.

Such a character you develop then and this character is felt by everyone. I have known many Sahaja Yogis first who came to Sahaja Yoga, their own family people were angry. Now you are following another Guru, this is another cult, this is that. But then they found out that they are giving no money, nothing and they are flowering. In every way they are beautiful, they are becoming better and better people.

Righteous and virtuous people, powerful people of great character and they are amazed you know. How do they become? And they become very intelligent, they don't do any stupid things, they just don't do it. Even a little child knows it's stupid. They don't do stupid things. They don't do nonsensical things.

They are dignified and they don't take to cheap entertainments. The depth that you feel in the poets, in the great musicians, becomes their own nature. When they talk, when they walk, any rapport with them, you can feel the depth of their spirit.

They become very knowledgeable suddenly. As I told you last time these journalists asked Me “Mother have you got all scholars?" I said “Scholars, what." “All scholars are Sahaja Yogis” I said “No, at the most one percent may be, who have been great headaches to Me, the rest of them are simple people." Simple people are the best and this is what is true, that those who get realisation start

feeling the knowledge which is absolute. Seeing the knowledge, knowing the knowledge. Like if you see, say, this pillar, you just look at it, you say, oh very nicely done painted this, somebody might say it should not have been this colour, that colour. But a Sahaja Yogi doesn't see this pillar as to how aesthetically it is and all that, but immediately he'll say it's beautiful. You'll say why? It gives vibrations. The whole aesthetics are worked out through vibrations. All the beautiful things, as I told you last time, of the world have vibrations. Real beautiful things have vibrations. Like Mona Lisa I told you the other day, if you go and feel her vibrations, she has vibrations. Now the one who has made her has put his joy into her and she emits vibrations. And that is the thing that gives joy to you because you are at a level where you can feel those vibrations.

You start feeling the physical side of yours, you understand you have a physical problem. Immediately you know you have a physical problem, you know where it is, how to correct it, how to cure it. I have seen many people who come to Me, “Mother cure my cancer” but they don't come to Me before they get cancer. If they had come they would never have got it, but they had no time, at that time they had no time. But when they get cancer I have no time either. It happens always. Of course they are to be helped, cured, but why not come as a prevention to all those diseases which has no meaning. It is unnecessarily so much accepted that health is first of all. Then there is nothing to worry about health if you come to Sahaja Yoga, you don't need any doctor, sorry for the doctors, I am sorry. And this is what

it is to be understood that physically you feel absolutely fit. You look fit absolutely. You look marvelous.

Then when you start expanding yourself you start feeling your own mind. The peace, the bliss of your own mind. Many a times you'll find there is no thought but the joy is just bursting in and you just think why it has happened. Suddenly, how do I get this? Gradually the state of joy starts increasing in its frequency and you become joy. That is, one has to achieve, to become the joy is important. And once you become that joy it's not a duality, it's not a duality. It's not a thing in which you feel the happiness and unhappiness but you feel the joy. Joy is a witness, it's a kind of a power of a witness which sees a drama, by seeing the drama, whether tragedy or comedy, it's at a point where it is just a witness and enjoying it.

In the same way you'll see so-called comedies and tragedies of your life and the futility of your nonsensical endeavours and you'll laugh at it, oh that's it, that's me. For example in Romeo and Juliet, Shakespeare has tried to show the futility of all those egos. According to Indian standards he was Avadhūta, as they call it, a person who was realised and was a very evolved personality. And if you want to see how Romeo should get his realisation and how he should feel that after all that happened he should laugh loudly. She gets realisation, oh what a fool a stupid thing I was. Shakespeare did not show him getting realisation he kept it for us Sahaja Yogis to see it, but should have seen to it that Romeo laughs at himself and makes fun of himself, oh stupid Mister Romeo, now you better settle down. But he showed and very cleverly if

you see in all his Macbeth or any of his dramas that he has tried to show the futility of our ego, our enterprises, we think that is very important in life.

I would say there are so many great writers in English language, which I cannot name them in a series, but I have read them.

Somerset Maugham, I would say was another one. I was very much impressed by his writings and read most of his novels because he was very much there. Cronin for example is another one I would say who wrote Citadel was another great person who could see the drama of stupidity. Leave alone your great poets like William Blake and all those. But all that was to show that there is a higher being you see, which sees all this and giving you a drama of yourself, projecting it through you. That this is what you are, you see, see yourself. That's what they did and despite everything we're lost. We are lost quite a lot. We have to become the same like Shakespeare to see the drama, like Somerset Maugham, we have to become the same.

To see the drama, we may not write a book, doesn't matter, but the capacity to see the drama, that's what we develop. We need not write, we may not have the are of a pen to write but we see it the same way as they see it and that's the mental capacity to which we rise with Self-realisation. I have seen very stupid people absolutely calling themselves Gurus, you look at them and you don't know what to say, you see. You have to look at stupider persons to stupider, that person, what you say, stupidest person, in the presence of such a person, because he looks at you, you see and you understand he is stupid

and you don't know what to do. And you get frightened of such a person you know and you don't want to hurt his feelings you see, so you look the greater stupid person and then he gives you a big lecture, on something very stupid. But then you find that person you see, big newspapers you see like Times, publishing such a stupid man there.

Just imagine, this is what we have done to Shakespeare, to all our great writers and everyone, we have reached that state that we cannot even see the stupidity. Our brain is stunned because we have been asking for sensations, with all these electrical sensations in the brain we are stunned. Which opens out, which completely opens out and you start seeing, through and through, the mockery of all this kind of seriousness and the hypocrisy and the way people who are stupid try to give you stupid ideas. And once you are realised you laugh at yourself, oh God I was so stupid, that's what should happen. If that does not happen your Self-realisation has no meaning, it has no meaning. The righteousness and the virtues become part and parcel of your being. It's not that you have to be told anything, you just shouldn't do it.

It's beyond your self respect because you respect your Self, you respect your Spirit. How can you do such a thing? You cannot despise yourself can you? You just become virtuous. You may be kind to others even if they are not virtuous, you can be nice to them, you can forgive them but as far as you are concerned there is no compromise. And you enjoy your virtues, you enjoy your magnanimity, you enjoy your generosity.

People will tell you, stupid fool, you go on distributing things what are you doing? And you laugh at them. As Lao Tze said, somebody told Me this saying about Lao Tze, another great incarnation of the primordial master, that when a wise sees the way, he respects it and says this is the way. That's the sign of a wise man and a mediocre who is half way this way and that way when he sees the way he waits for others to go into it and when the stupid sees the way he laughs. But when the wise sees the stupid in himself he laughs.

So that power of wisdom starts shinning through you, you become a wise, righteous, virtuous man. And such a balance you develop. I have known people who are honest, you see, so-called, now they go to such an extreme of honesty, that for honesty's sake they'll kill their father, kill their mother, kill everyone. But such a balanced and integrated person you become that whatever you do is good for your spirit and for the spirit of others.

In Sanskrit the word is *[UNCLEAR* Haitha], what ever is good for your spirit and for the spirit of others you do it. And that is the right thing to do and that's how you become a righteous personality.

That's the religion within you that gets awakened. Nobody has to tell you your religion, you yourself become your own master, your own Guru and by which you determine yourself, now Mister you can't do this. No you can't.

So you become your own police commissioner. You don't need any outsider to tell you. You are on your own guard because if you do something like that your vibrations will

disappear and then you don't like it, don't like it. Then you feel uneasy. Nobody has to have you as a Guru, there's no need you become your own Guru, is the best way. And that's how you solve the problem of becoming better by others, is very difficult but yourself becoming better, by your own understanding and urges, it's a thousand fold happier and strong.

So the third thing that happens to you, that you become religious, you become the Guru, yourself.

Nobody has to tell you because there is a natural valency of ten within you which starts balancing you and you become one and enjoy that balance. As you enjoy a balance of colours in a beautiful photograph, in the same way you enjoy the balance within yourself. You enjoy your personality, you enjoy your being and you enjoy to be the Self. And those who are on the same level, you just enjoy each other. This is the first time you enjoy other human being, as if you are enjoying a flower. The fragrance of that personality is spiritual fragrance, is so beautiful and attractive. Without any lust and greed in it but just enjoying the company is real perfect bliss.

Thank you very much.

May God bless you.

Now, again today, I would like you to ask Me some questions. There is going to be the fourth lecture, that they will announce. I hope you will make it a point to come and complete the series of lectures we have been having.

Question: *[UNCLEAR]*

Shri Mataji: It's true. It has been told that you must have a Guru. But it's said that it has to be a SatGuru. Anybody you see, mostly, the Gurus who are in the market today. You cannot be in the market and those who are in the market are actually, are nowhere near God. They have to be SatGuru, means he has to be a realised Soul of a very high degree. Now you better become your own Guru. And then you will know that you are a SatGuru. I am the Mother, I am not a Guru. And what is Mother's desire is? You had a mother also. Whatever I have, you better have it. That's all.

So as you have come to Mother, now you don't ask for any Guru, you better become yourself a Guru. All right? Question: *[UNCLEAR]*.

Shri Mataji: No. You see, you must know that the Kuṇḍalinī awakening itself, breaking through and all that, is a big happening. A key event of evolution, the epitome of it, as you know, as an Indian you know how sākṣhātkar is such a big thing. But to achieve that, there must be a big machinery within us.

Like you see the electrical bulb here, or a light here, you know there is a history behind it and it is a big mechanism and organization that has worked it out. In the same way to achieve this there's a big organization.

So, when you become realised, that will happen very soon to you. Means you'll feel the Cool Breeze coming out of the Brahmarandhra, through your fontanelle bone area. But then to develop it, you have to understand, deeper, the mechanism. Then the mantras are placed according to the deities of these seven Chakras. Now if the Kuṇḍalinī is stopping, or is weak at a point, any one

of these Chakras, then you have to say a particular mantra for that. Which will be told to you, which you can learn very easily. And you will know also about all the mantras that are to be said. Like, you see, many Gurus I have seen give away one mantra. Like they say Rām. How can that be? You see, there are seven Chakras and if you take Rām, he's on the right side of the Heart Chakra, means *[UNCLEAR]*. Now, if you are taking the name of Rāma, why, why Rāma's name? Ask a question to him, you must ask a question. Why Rāma's name, why not Kṛiṣhṇa's? Why not Jesus? The reason is, if he's a SatGuru he'll tell you, that you have a problem with your right Heart. But all of them here, those who are realisation souls, can tell you where is the problem. And you will also tell tomorrow.

Question: *[UNCLEAR]*.

Shri Mataji: No, it's not. There are seven mantras actually. Basically you must know about seven mantras. But gradually, you pick it up in no time, because immediately you know where the problem is and immediately you say the mantra. It's not very difficult, it's very simple. It is woven in a pattern and it's very simple to say those mantras. But it works out so spontaneously, I mean, these are all people who are English and Greeks and this and that and they don't know. Even, we can say mantras in English language now. That's an advancement I think. That all the deities can understand English language as well.

So you can say it in Sanskrit or in English, it's all right, it works out. And, once you know it, it's so easy to say it, easy to understand. It's not a problem at all. But first of

all you should get your realisation, that's first thing. That is you should break through, you see, the seed must break. *[UNCLEAR]*, its primule must break. Then the second thing is to see that it sustains itself above the ground. Then it is to be maintained and developed until you become a tree. But it's very simple, it's not difficult.

Question: *[UNCLEAR]*.

Shri Mataji: When you get your realisation you start feeling the Cool Breeze coming out of your fontanelle bone area and you start feeling the Cool Breeze in your hands. Then you can ask a question, is this the breeze of the Ādi Shakti? Is this the Chaitanya Lahari of the Ādi Shakti? Is this the Cool Breeze of the Holy Ghost? The Holy Ghost is Ādi Shakti actually. Nobody has explained to them, they don't know. I mean, they asked the Archbishop of Canterbury about Holy Ghost, he said “I'm agnostic” can you imagine? Yes, he answered. I mean, if he's agnostic this Robin Day asked him “So what are you doing here?" So he said “I'm doing my job." So Robin Day said “Yes" because he also does the job. He understood it. [Hindi.] Now the problem is that when you start feeling the Cool Breeze in your hands, you might find that after some time it goes away then comes. See, depends on.

Some people have a express train, as we call it. But some of them have some bogeys, which go up and down. It doesn't matter. We should not frustrate on that point, it works out. One should not get unhappy about it.

Question: *[UNCLEAR]*.

Shri Mataji: Subconscious. Of course, I mean the same. I am the Self, I am the Spirit, yes. Like, I'll tell you, in the bible, Christ clearly said it, very clearly, we don't read

bible that way, that's why. That Nicodemus, you see, He told Nicodemus that you are to be born again.

So, Nicodemus said that does that mean that I should enter into the womb of my mother. He said no, that is flesh and the flesh is born out of, whatever is born out of flesh is flesh. You are to be born of your Spirit. And whatever is born of the Spirit is the Spirit He said. But how many people follow that? That's the consciousness I'm talking of, the real Selfhood. What we do, in the churches, or in our Indian, any one of the religions that we have. We put the water on the head, now you are baptized, you are a Christian. For a Hindu they put a string, now you are a Brahmin, without knowing a word about Brahma. *[UNCLEAR]*.

So now, there is reality. All these people didn't tell us lies you see, never told us lies. But the truth is always covered by the intellectuals, by the intelligent people on one side and by the fanatics on the other side and that's why the problem comes in.

Question: *[UNCLEAR]*.

Shri Mataji: You see, because, what happens that intellectuals rationalise it. They say whatever we see, we see the science, so we don't want to believe. Now recently there has been a controversy about Christ miracles, isn't it. There, let's take this thing very recently, there's a controversy about Christ's being born of a virgin. He was born of a virgin, no doubt, but how can you convince an intellectual you see, because He cannot be born of a virgin. But He was born. All these miracles are absolute truth, no doubt.

So the problem is they want to see through science. Now science is analytical, it is not does the synthesis.

Science deals with the dead. It deadens everything, it analyzes and whatever you see you think it's the truth, no, but it's just a part of the truth. Now why do they accept? See now, big challenge, is intellectual.

This was Mr. Paul, who came in. When I was a child I asked My father, who is this Paul? My father, being a very great realised Soul himself, he said, he was another mad man. And this Paul had never seen Christ. What we call, he had a supraconscious, a kind of a *[UNCLEAR* condition/position], he got blind and all that. And then he became, he was a horrible man, he killed so many Jews, he killed the young boys for *[UNCLEAR* stealing] you know he did all sorts of things and then suddenly, he becomes a big Christian. Because he saw some sort of a political thing in that.

So what does he say, he doesn't talk of Christ as He was, he talks of a Christ which was the church Christ, the Christ of the church. Now, Christ of the church has nothing to do with real Christ, has nothing to do.

So now, because they have to accept, the churches have to accept Paul, they cannot accept Christ. It's a good idea. Either accept Christ, or accept, this is what happens with intellectuals. Even in India it has happened. I'll tell you when, when Ādi Shañkarāchārya, he wrote a book called Viviketurya. It's a great treatise. About Advaita he said that God is everything, Brahma is everything. A beautiful treatise he wrote.

So there was a fellow called *[UNCLEAR* Vishra, Mandan Vishra], is a great learned man, another intellectual, he

came to argue with him. And he argued and argued and argued, you see with argument where do you reach? You cannot by arguing give realisation to somebody. And he said, “Why don't you take your realisation?" But he argued, he said “You defeat me." He said “I don't want to defeat you I want to give you realisation, why don't you take your realisation?" He would not take the realisation.

So, the intellectual, you see, tortured his life. He was so fed up, Ādi Shañkarāchārya. The book he wrote was Saundarya Lahari, if you ever happen to read it, it's nothing but the praise of the Mother, throughout. He said this is how *[UNCLEAR]* not by Yoga by *[UNCLEAR* Sankara] by discussion, it's only through Mother's grace you are going to get realisation *[UNCLEAR]*.

So the intellectuals, you see, want to derive a pleasure of an intellectual feat out of most if it. It's not the real that they are seeking. They read, a lot, achieve nothing. I have known people who are very learned, who have written many books and they are so horribly immoral within their private life you can't believe it that they could be philosophers. And you don't understand, how can you be, why are you so hypocritical? But they are. Because they are not realised Souls. And an ordinary person, you find a realised Soul. Just uneducated. That's why Kabīra has said Pari Pari Pundita Mura Kabai, by reading too much you learned have become stupid. But I don't say all learned are stupid. No. But learning should reach that supreme power of intelligence, which is pure intelligence. Then obviously you see the thing and you accept if you are honest as I said in the beginning. You must have that pure intelligence to see, God is there.

He's above everything, he's above your intelligence, above your thoughts. You have to feel him first, you have to rise. That is the transformation, if you cannot achieve, then how can I talk to you? If a person is blind, what's the use of talking about colours to a blind person, what does he understand? He can't even see whether I'm smiling or laughing or if I'm crying. What can you talk? So the eyes must be open and these eyes which I'm talking of are above your thought. You cannot by your projection get it.

It has to come to you. It's a grace. Ashirwad.

Question: *[UNCLEAR]*.

Shri Mataji: No You see what I would suggest that what happens that once you get your realisation then I have seen a person who has developed the intellect, understands it in an intellectual way what realisation is and a person who is not supposed to be so intelligent starts talking like saints. I had gone to a village in India and there was a person who was, I was going on a bullock cart, he was driving Me and I asked him when he did you get your realisation and then he started talking to Me. I said “Kabīra is driving Me or what? How is he talking like this?" The truth, tremendous, what intelligence. How much Christ studied in what university? So we should not misunderstand intelligence I mean the Divine intelligence, that's a very different thing.

Question: *[UNCLEAR]*.

Shri Mataji: You are, all the time, if you, Shaktipath is the word they use it, Shaktipath you see, but it is very much misused. Shaktipath means people start dancing like mad, they start shouting screaming how can that be Shaktipath? That's madness, that's possession, you get

possessed. Shaktipath means if somebody is a Shakti, you see the Shakti of that person enters into your being and invites your Kuṇḍalinī so the Kuṇḍalinī rises. That's what actually it is and then the Kuṇḍalinī rises and makes you a beautiful person it doesn't make you a mad person no how can it be? Just imagine now after evolving yourself from amoeba and all the donkeys and all the monkeys and what else, oh, cockroaches are you going to become a mad person? Or a frog, jumping like that.

So this is very much, that's why I don't use very much Shaktipath power because these days every Dick, Tom and Harry is using you see. Shaktipath that's not what I mean. Shaktipath means if somebody has Shakti it just works. You don't go and put it in the head of that person, it just flows, all right? But it was used in Patanjali's day in that way but who reads Patanjali? Nobody reads I think nobody reads and talks about it. What they talk is some sort of a head standing some sort of a *[UNCLEAR* sheersh] asana that's all. I mean that's we, we, we, part of it. Nobody reads him I mean if you read it, I mean, *[UNCLEAR]* you see what he has written is that's what I am doing. I am quite surprised how people talk about this thing. What he says you achieve *[UNCLEAR]* means you become effortless first *[UNCLEAR]* you become without thoughtless, then the third thing he says you become complete negation of thought, *[UNCLEAR]*. But here it is they are all jumping, talking big, this, that, how can that be? Meditation means jumping in the air, how can it be? [Hindi.] Indians understand thank God, Indians are that way you see, safe. But there should be seeking in India. You see these people are seeking and striving and they

are the ones who want it, I must tell you very frankly they are the people who really are nicely seeking, in England I am saying not in India.

But Indians are not seeking that, but they have one great thing in them is that they know what is reality.

They understand. You see like some of the people who went to a Guru, I must tell you and he gave them a mantra for which he charged $300 in secret, in the ears, nobody to be told. And the mantra was `tinga'. `Tinga' and they told Me in the ear and I couldn't help laughing, `tinga' means showing like this to someone. And he used to giggle at people because they were all so stupid, poor things, but they were seekers, real seekers, you know, of such high quality and this fellow who told Me was a barrister can you imagine? Question: *[UNCLEAR]*.

Shri Mataji: Yes, you are part, you are part of the whole. You are part and parcel of the whole. The microcosm becomes one with the macrocosm, as we say in Sanskrit is Virāta, you become part and parcel of that Virāta.

Question: *[UNCLEAR]*.

Shri Mataji: No, no, no. *[UNCLEAR]*. Correct. See it may look like that because the myth of responsibility drops out. Supposing, this wire thinks that it is responsible for what I am speaking, does it become more efficient? Say, what responsibility we have is like this. When we are going by a plane, question is very good, I have seen it. I mean actually, it must be understood in its full context it's correct that when you think it is the responsibility of God you see, then you become irresponsible. On the contrary, you become an instrument into his hands you see. But you don't think that you are doing it yourself, like you are

sitting in the play. I give this example many a times because I have seen this happen.

Some villagers never knew how to go by plane so they were told not to take too much luggage. They sat in the plane and put all their luggage on their heads. Carrying the responsibility of the plane, saying that we have to carry the load because we don't want the plane to carry all our loads you see.

So that myth drops out, that myth drops out. But you become a very efficient person because the energy that's Divine starts dynamically working, manifesting. You become a dynamic person, you can do a thousand and one things which you have never done before, because you have become a perfect instrument. You are not perfect as long as you think you are doing it, you see My point? All of them, those who are realised Souls and you will be too. What work are they doing, is spiritually they are doing a lot of work, now, that's another side when you'll come to Sahaja Yoga we'll tell you what work they are doing. You see what work you want us to do may not be the work that we are doing but we are transforming people. We are saving people from cancers and so many diseases, we are transforming them, we are changing them so much that they have given up drugs.

So many people have given up alcohol, all these bad habits have dropped out.

So many people are cured of so many diseases, so many diseases we have cured already, when you come to us we will let you know as to what substantial work it is. All right? Starvation of course, our starvation. Why people are starving also because I think people who drink are

starving because they waste their money in drink. If they haven't, if they have money why should they drink? If they don't have money why should they drink? But most of the people starve themselves because they spend all their money, in UK I am saying, not in India, India is a different thing. But in India people who have got realisation are blessed they don't starve anymore.

[UNCLEAR].

They don't need anything, it is said that “Yogakshemam vahāmyaham” first you get your Yoga, your union with God and then I will bless you. Kshema.

[UNCLEAR].

Yes, yes, of course, of course you can pay your rates, everything, but you just come and see before.

This is the intellectual side, come inside and see, whether it works out or not. Why not see? Don't argue for arguments sake, it works out. There's somebody sitting behind you who has, in his life it has worked out, just behind. In many lives it has worked out but you come and see for yourself what miracles it has, all right? You come and see all previous things just drop off. Come and see how God is blissful after all the blessings come from God. But we don't want to do anything for God and why not God look after us, what have you done for God so far. Can I ask a question? Everyone has right to ask a question to Me, I better ask you all. What have you done for God? Just surrender it. *[UNCLEAR]*. You are afraid? *[UNCLEAR]*. Afraid of God? *[UNCLEAR]*. Pray? But what we pray to God is `Give me my food.

Give me a job. God get me this. Let me win this war. Let's kill my enemies." I know all those prayers.

Question: *[UNCLEAR]*.

Shri Mataji: First you get connected all right. First let us get connected then you will know. Then you will know what He wants and what He does. Then you will know He is very kind man, very kind, extremely forgiving that the way He has forgiven us for whatever we have done. But don't feel guilty for it, that's one thing I didn't want to start, because you see that's one trouble you all have is to feel guilty and I don't want you to feel guilty because realisation doesn't work out. Don't feel guilty it's all right.

We'll have it next time madam, is it something important? Question: *[UNCLEAR]*.

Shri Mataji: Talk. Talking is not the thing, you see what I would say you should see the way they talk has nothing to do, what you have to see, what have you achieved yourself. Whatever people may talk is they might be talking because they are possessed, that's all. If somebody talks big be careful, be careful, the one who does, isn't. You have to feel the Cool Breeze coming out of your head is the point I said that nobody can do, can anybody do that? Those who talk can be good actors at the most, at the worst they are possessed. *[UNCLEAR]*.

Question: *[UNCLEAR]*.

Shri Mataji: Your married life improves immensely. Because you will learn later on there is a center for it and you understand your married life as a bliss, it's absolutely pure blessings to married people.

Actually you will be surprised we can't give realisation to people who are not married, in the sense who are going to marry is all right. But those who are against marriage we can't give realisation because they are a little

imbalanced. I think the one we had you see, we couldn't give realisation, I hope he's not here.

But he is going to get married so we will give him realisation, we just couldn't give him, but married life improves like this.

Question: *[UNCLEAR]*.

Shri Mataji: What is it about Bhagwan? [Hindi.] This kind of a Bhagwan, who cannot even smell a flower. Can you think of a Bhagwan like that? You know in the Devī Māhātmyam or into the Viṣhṇu Sahasrānama, or anyone of them where there is a described God at least twenty five names of God is he's fond of flower, fragrance, flower. I can't live without flowers and the fellow who cannot smell a flower [Hindi]. I mean what do you give him? Phenyl or something? This is one of the tests. How can you be a Bhagwan? *[UNCLEAR]*. These are the names of God.

Question: *[UNCLEAR]*.

Shri Mataji: You see, say now if I give you Indian money say a hundred rupees how do you know it is a hundred rupees? You have to go to India and spend it and see if it works out or not. In the same way when you get the vibrations and you feel the Cool Breeze you spend it and see for yourself and judge it. You can do the whole process yourself, you can give realisation to others all right? You see now I would say please get your realisation, if you get it, I don't promise, if you get it. That's a very big if, sometimes. I know it happens if you get it then you have to go and see for yourself whether it works or not. But to get it is not easy in certain cases, so be cheerful about it and be patient with yourself. More

patience is needed with yourself, not with Me because I am extremely patient. You have to be patient with yourself because your mind will be coming up and always saying something, you didn't ask this question, you should have asked this question, tell your mind to be quiet. Take your realisation, let's see if it works out. We cannot assure, it may, it may not, it's your luck, that's it.

Question: *[UNCLEAR]*.

Shri Mataji: This conscious mind that you have just now is the human awareness, all right, at this point the human awareness is at such a stage, that you are not connected with your spirit. First your human awareness has to be raised it has to be brought to that point where you get connected. Like this instrument is here now, consciously whatever you do with this it is not connected, it has no meaning. In the same way first you should be connected. After connecting only we can see where is the problem is, what is missing, what is it and is to be done.

So we have to take a very reasonable attitude towards it, about ourselves, to understand that maybe there is something missing, something is happening, it's not working out. Because at this awareness, at this consciousness that you have, this human consciousness is not sufficient.

So you have to jump, there's a breakthrough and you have to achieve that breakthrough.

Which I will not promise, as I told that gentleman there you, it cannot be promised, it has to be achieved.

If you get it then you have to have patience with yourself work it out and see for yourself.

Question: *[UNCLEAR]*.

Shri Mataji: Yes They did because that was the time you see. Now Jesus came at a time when our Āgñyā Chakra was opened, see it's like a Tree of Life has to grow you see and They come at a proper time what has to grow. Now if it's the root time and somebody else came in, when the shoot started somebody else came in gradually it has come up to this point. Now Mohammed, what Mohamed has said, nobody says that today. All the Muslims must know that He said “At the time of the resurrection your hands must speak” where is that? He said it I mean nobody else but Mohammed had said so clearly about it. And what does He say is not known nobody knows why He said *[UNCLEAR]* like this.

Nobody asked questions, why do you follow? But after Sahaja Yoga will know what *[UNCLEAR]* what Mohammed means, who He was and why He said so what is so important about it. You can't understand even Mohammed or anyone, Jesus or anyone, without realisation because you have not entered into that rank, you see My point. Because the time that time was not to say whatever They had to do They did very important work very, very important. Every one of Them have worked very hard. Only I must say that today I am at an advantage than They are because so many are getting Self-realisation. They had a very bad time. They had a very bad time nobody accepted Them. All acceptance came later on when They were not there and people liked to have such acceptance because they can do what they like. They don't want to, nobody asked Them for

realisation at that time, nobody, everybody tried just to kill Them.

I mean everybody was anxious how to get rid of Them, isn't it a fact? Like today as there are so many who want their realisation that time was not there. Today is the time, all right? Question: *[UNCLEAR]*.

Shri Mataji: You see that you don't even need one minute for that, to say, “I'm born again" it is all self-opinionated thing, just to say. But you have to have powers you see that's what I told you the whole lecture was like that. That once you get Self-realised you get the powers you have collective consciousness you become conscious. You see it is very easy to say, just to put the, I don't know how much they pay but you just put the name membership “I'm born again." You don't know this born again people, horribly hot tempered, useless people absolutely. You see some of them brought some bibles and one lady bearing all artificial jewelry here and there and she came to give Me the bible and I just ignored her. I just started laughing and she was quite surprised to hear this sound.

So this is what born again how can they be born again if they can't make out a saint. How can they be born again? *[UNCLEAR]*. Only the truth will survive. All these are fads and things *[UNCLEAR]* it has no meaning.

Let's have our realisation now all of us, but I don't promise as I said it's your own lookout. If you believe in our, according to Indian thing if you believe, according to our former Karmas according to our previous things that we get Ātmā sākṣhātkar, because it's the highest to have.

So let's see what happens.

And also My compassion, My love, My desire that you all should get your realisation and establish it and become powerful Sahaja Yogis and understand it fully. Now those who are here have to follow what I say, is very simple method by which you help yourself. As I said you are your own Guru and on different Chakras we have to work it out and it works.

So please take out your shoes for one reason, that the Mother Earth helps us to sort of earth some of the problems that have come from the Mother Earth. Now, you have to keep your eyes shut throughout, not to open your eyes. The reasons are many but one of them is that the center of Āgñyā, which is placed between the pituitary and the pineal body, is a very important center. It is the gate and it doesn't open if your eyes are open outside just now.

So please keep your eyes shut till then and maybe the Kuṇḍalinī may not also rise. The whole attitude should be that I should get my realisation. You're not going to lose anything, I don't take any money, nothing of the kind and there is nothing to gain out of it anyway.

So just you have to gain something out of it so, in a humble way, you have to sit down and put your hands on your lap. Those people who have come for the first time, or are standing there, can come forward here and sit down and the Sahaja Yogis should give them places. Sahaja Yogis should never take the first places, I would request, it would be a good idea. All right, just try to sit on the side if possible, those who have come for the first time.

[Aside about a parked car.] Now, as I told you, you don't have to do anything. It's an effortless thing that happens, it's a happening and the Kuṇḍalinī rises by itself. Only put both your feet straight on the Mother Earth. Straight, as far as possible, straight touching the Mother Earth. But those who are sitting on the ground are all right, they can sit with [Hindi], on the ground is all right. [Hindi.] Now put your both the hands towards Me, as I told you and close your eyes. We have to have a proper attitude towards ourselves. Firstly, it's going to be the happiest thing that is going to happen to us and the highest thing that we have been asking for ages.

So we are not to be in any way under any tension about it, it's really happening to all of us. Sit with a very cheerful mind, not frivolous but cheerful mind. And secondly you have to respect yourself. If there is any guilt or anything in your mind, it won't work out, as I told you. You must know you're saints, born to get Self-realisation. You are, as described by William Blake, you are men of God, who have to become prophets, who will have powers to make others prophets.

So, that is the attitude we should have towards ourselves, that's how you are here today. Please do not condemn yourself, do not have any guilt about yourself, nothing of the kind. Just believe in yourself, that you are the Spirit. Now, you have to keep both the hands on your lap.

[Aside:] you can keep your purse down, lady, you can keep it, it's all right.

Now put your both the hands towards Me, close your eyes fully.

Some of you must have already started feeling a little Cool Breeze in your hands. Put both the hands like this, open upwards, just as like you do for *[UNCLEAR]* or something. The left side, as I told you the other day, is for your desire and the right side is for action.

So we are going to put the left hand, all the time, as it is, desiring to be one with the Divine. And the right hand we are going to use for the action of removing the obstacles in our centers.

So, first put the right hand on the heart, just on the heart, on the left hand side. Here resides the Spirit in human beings, so, now you ask Me a question without opening your eyes. You can call Me Mātājī or Mother, as you like, whichever way you want to call Me. `Mother, am I the Spirit?' Ask the question thrice, you have a right to ask Me that question. Now this right hand has to be taken down on the stomach, on the left hand side, on the upper part of the stomach. This is the center of your mastery, or what we call the Guru center, it is on the left hand side of your stomach. On the left hand side you put this right hand. Put the left hand towards Me as it is. Now, here you ask a question, because you, as a spirit, has to be your own master, has to be your own Guru.

So you ask Me a question thrice again, `Mother, am I my own Guru?' ask Me. With full confidence, `Am I my own master?' On the higher part of the stomach, please put your right hand on the higher part of the stomach. Now, put this right hand on the left hand side of your stomach, in the lower region. There's a center there, in the lower region of your stomach, lower region of your stomach. On the left hand side, keeping the left hand towards Me.

Now, this is the center where is the knowledge of the working of your Kuṇḍalinī. In this center, called as Shuddha Vidyā, meaning the Pure Knowledge. As this point, I'm sorry but you have to ask for it, I cannot force anyone into it, like you cannot force a student to accept any knowledge. In the same way you have to say `Mother, give me that Pure Knowledge" or you can say `Mother, please give me that Shuddha Vidyā,' you have to ask six times, because this center has got six sub plexuses.

So you have to ask six times, in a very humble way, `Mother, please give me that Shuddha Vidyā.' That is the first asking. See this prayer, this is such a pure prayer. Give me the Shuddha Vidyā, give me the Pure Knowledge of the Divine, the working of the Divine. Now, as you have entered into that realm of asking Me for the Pure Knowledge, the first thing you have to assume, is that.

***Contents: 1984-07-10*, Public Program, Town Hall, Chiswick, London, UK**

I bow to all the seekers of Truth. We have had three lectures before this, about the experience of truth and today is the fourth one and the last on the subject of experience of truth. In the first lecture I described what is truth, how to recognize truth and that's how we proceeded till today and today we have to get to the finale, that is the enjoyment of the bliss of truth. The first one was as I told you, before was the experience of truth which one has to feel on the central nervous system. Into a new collective consciousness, was the second one and the third one we talked about the transformation that

takes place. But the final is the nature of Divine. People say Divine is purity, Divine is blissful, Divine is compassion, Divine is love, it is described by many words, but I don't think it can be described. It has to be experienced. You can go on describing, writing books after books, stories after stories, poems after poems, Divine is so unlimited that you cannot describe it in it's full extent, nor in it's depth, but as it is being described that the spirit is the truth.

So the first three lectures I covered the subject of truth within us, that we have to feel it in our evolutionary process; the truth on our central nervous system. That's a very important point we have to understand, because anything that people tell you or project is not the truth. Nor whatever you project is not the truth, but whatever you feel on the central nervous system is the truth. Like you feel something hot or cold, everybody feels the same and that's how it is the absolute, but the truth that is within us and which manifests within our being is known through our brain.

So yesterday somebody asked Me a question that the intelligence is very much needed, yes that much intelligence everyone has, to know what is truth. But before knowing the truth if you depend on your intelligence you can be misled completely.

Intelligence that is without the spiritual insight is your own ego. Is not pure intelligence, it is just your ego which says this is right, “I say, I believe I am like this” that is ego. After realisation the truth that comes to you is the real pure truth and is not your ego.

For example now we are in this hall I have been here before or not, whether I was in this place or not? How will you know? It's not possible. But for a realised Soul it is very easy to make out because they can feel the vibrations of the place. They can make out that somebody here has been a person who had Self-realisation and now in this hall there are so much vibrations that even to speak to you I have to watch it's just right, if those who can feel it can feel it but those who cannot feel it, for them is just the same, no difference at all.

So when the truth is felt within us, our intelligence tells us is the same thing. If you are inert, people say like this stone, or this thing, it might suck in the vibrations, it may have the vibrations and now see the point, the differences, but it will not be intelligent, or it is not intelligible to that particular matter.

So the matter when it is inert is not sensitive to understand, it is different to absorb vibrations, but it is very difficult unless and until you are a human being to discern it, to find out whether there are vibrations or not. Like we would say that, I went once to Kashmir, with My husband and we were going out somewhere in the wilderness and suddenly I felt tremendous vibrations in that place.

So I told the driver there must be something great here, is there a temple or is there a mosque? He said nothing this all wilderness. I said let's go the way we get the vibrations, so I asked him you drive on this side and we came on a road you see, crossing through something, we came on a road and on that road and we found there

were some poor people living and some other people just walking about.

So I asked them have you got any temple here? They said no, we have nothing, but we have further, if you go, there's a mosque.

What is that mosque? It's called as Hazrat bal means one hair of Mohammed Sahib is kept in that place.

I said really, just imagine! One hair of Mohammed Sahib was kept in that place and I caught it up at least five miles away.

So that you can imagine that hair may not be aware of the vibrations it has, but the one who is a human being and a realised Soul gets the awareness five miles away from that hair, that there lies the hair of Mohammed Sahib.

Now for this hair there has been big quarrel and fight and this and that and then it was replaced, all sorts of things, but ones who were fighting even for that do not know what it is. Just fighting for nothing at all. Like that you can see that those things which have got, we can say matter in it, same matter becomes a human being after sometime through evolutionary process and the same thing which was just a matter when it becomes a human being, becomes aware of those Divine vibrations. Before that it can not, so we cancel out all the animals. I had a dog which used to vibrate, if anybody came used to say Mother what vibrations coming from this dog. And it used to feel if some man with nasty feelings or something would come in the house, he knew it was, so it used to bark on that. He knew many things but he was not aware that he had vibrations, he could not feel himself that he

had vibrations. He kept a very good health and was a pedigree dog but the doctor said that this dog is remarkable for his own pedigree, he's too tall and too broad and very healthy you see, but because of the vibrations he kept up that kind of health.

So one has to understand that you become the truth, means your awareness itself becomes aware of Divine. That your central nervous system, or you can say that your brain evolves to that state that you can feel the vibrations. That's one thing. Then you can not only feel the vibrations but you can discern them, you can find out whether these are good vibrations or bad vibrations. Then you can also say whether these vibrations are partial or full vibrations from the person, if the person has got some sort of a disease or a trouble, you can without knowing a word about medicine, you can say this person is suffering from such and such diseases.

Imagine the computer that we are, we are really the greatest computer that anybody can produce.

Human beings can't produce this computer. The one they have produced is just a copy of this which is not such a great copy also, because this computer sees something and knows this is this, it doesn't think. Can you think of a computer which doesn't think? Just without thinking it knows, And that's the computer we are. Now this great computer of our brain which just sees and knows, feels and knows, smells and knows, this special computer becomes a greater, we can say subtler instrument which knows the Divine, which feels the Divine, which understands the Divine and can manoeuvre it, it can manoeuvre it. For example. A person has got some

problem, he is suffering from some disease, take it, he knows how to cure himself, also he knows how to cure that person. Now don't many people who say that we are doing, they are healers, some people heal also, but it can be very dangerous with these healers, because these healers are not the people who have any knowledge about the Divine.

Some of them could be realised Souls, could be, but they do not know what they are doing, what they have to do and some of them, most of them are not the ones who are realised Souls, they are the people who use a kind of a spirit.

Like in this England, here in London we had one hospital once upon a time, called late Doctor Lang's Hospital, called as Doctor Lang's International Hospital or something like that. Now this doctor was dead and he manifested into a soldier somewhere in Vietnam and told him that you go and see my son. And when he came to see the son, the son said “How do you say that my father is in you?" He said. “I'll tell you the secret talks you had with your father" and he talked to him, he was amazed. Now he said your father wants me to start a clinic.

So he said “Are you a doctor?" He said “No I'm not a doctor” but he said there are many doctors who have died without expressing their skill, so they would like to help and we should start this clinic.

So the boy agreed and they started a clinic. Now see the father did not posses the boy but he did posses another healthy person in Vietnam; where he got a shock and he possessed him and then they started their healing process.

So, actually I came to know about them because there was one lady in India who came to Me and she came to see Me because she was suffering from horrible nervous trouble and she came before Me she was shaking before Me just like this, so I said. “What's this?" She said, “This is my nervous trouble." Then she told Me that she had some ulcer in her stomach and she had some problem with her ulcer and she knew about this Doctor Lang's International thing from someone.

So she wrote to him saying that please cure me and one day she was just resting in her bed, they told her that on such and such a day you rest in your bed and such and such a point, that we'll cure you. And she felt this shaking in her body, the whole shaking came to her as a shock because they didn't tell that you'll be shaking. And after the shaking stopped her ulcer was cured and she felt very much better, but as the time passed within three years time she discovered that she's a very nervous woman. She got frightened of everything and she used to shake and at a very young age and her whole body started shaking. And doctors couldn't understand what sort of a disease is this. Now this kind of thing can be also so-called healing, but the healing has to have an intelligent answer, after realisation.

Supposing we say Sahaja Yoga can heal cancer, then we should be able to tell a doctor how we have cured the person of this trouble, it's not just I have touched a person and I've cured. Yes it has happened that way, it may happen but that doesn't mean that there is no explanation for it. There has to be an intelligent explanation, that on such an such center we found that it

was exhausted and when this exhausted center was triggered by some entity, then the cancer took place and what we have done is to put back the center. Now the doctor would be surprised because he will be surprised to know that we know exactly where the cancer is, we know exactly how to put it right and we can give a full explanation to him, from what plexus it has happened and what it has gone, he will be surprised. Then if you give realisation to that doctor, he gets realisation and then he himself can cure other people, he can cure himself also, but it has to have an intelligent explanation. This is what the truth becomes when you become a realised Soul.

If a person is a realised Soul, he sees truth so directly and that he can explain it so the people can understand what he is going to say and what he is meaning. It's not something ambiguous. For example, now in the Bible we have a word called Holy Ghost. Now we can say that `Holy Ghost' is a word which we can not explain because if we just read Bible you can not understand the Holy Ghost, because Christ or Holy Ghost are like oceans and you cannot just put it in one little cup and say that this is it and beyond this is nothing. You have to go beyond it to see there are many cups filled with the knowledge and you have to see all of them and find out what is the meaning of the word Holy Ghost, in other scriptures also.

And when you find the similarity between the two, then you are surprised that this is what Holy Ghost is.

But when we just take Bible as everything you see, then I have seen people making Bible so small as that, putting in the golden box, hanging it here. Imagine! It is

absolutely absurd. Bible is to be respected no doubt, it has great knowledge in it but as the Bible itself I feel is a microscopic thing, is very microscopic every word is microscopic and to go into it's details and all that you must first get realisation and get explanation from other places, other dictionaries which can explain it better.

But when we stick on to one sort of thing, then we are flabbergasted, like other day we had a controversy about Christ and I told you very frankly that Paul is all wrong, he is not a realised Soul at all and he doesn't understand God, he doesn't understand religion. And that is what, is when the truth comes to you, you see everything clearly and all the people, truth being absolute say the same thing. Take Kahlil Gibran, he says the same thing, take your William Blake, in England, any one you take they say the same thing because there is no difference of opinion as far as the truth is concerned, if you are facing the truth.

And the trouble is when you are a human being you can be, also dishonest.

Supposing even if you see that this microscope is placed before me, all right. Then a person who is not a realised Soul can tell a lie also, there was no microscope, can tell but not a realised Soul. And a person who is possessed may not even see a microscope. You will be surprised some don't see Me, they see the light, if they are possessed, their eyes are possessed, if somebody is a drunk fellow he may not even see Me, he just walks over Me like that.

So the awareness before realisation can be blurred and there for a simple truthful thing as you see with your own

eyes there can be aberrations there can be other explanations and other descriptions. But after realisation the basic truth never changes.

You may say in a poetic way like Paul has said this; Paul seems to be a strange man to Me, I may say that he was not honest or somebody may say something but the truth about Paul is the same but those who are not realised Souls will not understand. They have built big churches in his name, people are going to the church, now people are flabbergasted, they don't know what to do, they have built up the churches in the name of the Christ, everything and denies the miracles of Christ, so now what to do? They are lost.

They don't know how to get over this feeling of frustration, that they love Christ so much, they adored him and they thought him to be such a great personality that The Son of God and then now suddenly to say that he has no miracles. You get a shock, but don't believe them. Don't believe them because Christ was a Son of God, no doubt about it. But how can you explain, when you just read Bible you cannot see and then Paul, this Paul who was he? He should not have been there, he is not a Christian in anyway, because he had never seen Christ.

So this kind of a challenge, only a person who is a realised Soul can put it and all realised Souls will stand by with that person, they'll have the same voice about it. Whether you go to the antiquities or you go in the future any time a realised Soul will come he will say the same thing. That's why there is so much similarity, I should say the unity, in all these people whether it is Lao Tze, or

whether it is Mohammed Sahib or whether it is Rāja Janaka or Nānaka they say the same thing.

Now where is the difference that comes in? Also we see very clearly when the truth is your own. The difference comes that these incarnations came for a different type of a job. Like Moses came to establish the void, as we say here, in the center. All these Primordial masters came to do that.

So their job was, like we can say like Guru Nānak, or all these people who were Primordial masters came on this Earth to establish the balance and that's why whatever they have said, all have said the same thing. Then came Rāma. Supposing Rāma came on this earth, he came here to establish the benevolent king. What is a benevolent king, the idea of a benevolent king, so he talks differently, then came say Kṛiṣhṇa. Kṛiṣhṇa came to establish the truth that you have to ascend first and secondly he came to show that the world is just a play of God. Then came Christ, now Christ came on this earth to create a full awareness within us that we are the spirit.

So the accent of their preaching has been for the purpose they have come.

For example I have to give realisation to people, I have to raise the Kuṇḍalinī and I have to explain all of them and integrate them so I have to talk about all of them. But My task is easier because there are sensible people in these days, but when Christ lived, what sort of people lived there, absolutely cruel, violent, nonsensical. Mohammed Sahib had a very bad time, Guru Nanak had a very bad time, none of them have such a nice time that I am having. None of you are going to crucify Me.

So you must understand that the truth when it comes to a person like that, not only that he knows but he can make others also know, this is what William Blake has said. That at this time men of God, that's you people, will become Prophets and they will have powers to make others Prophets.

So people sometimes say why didn't happened earlier? No that was not the time, now the blossom time has come, so it is happening. Then you see the truth in its full extent. Like at that time this was the situation, today this is the situation and according to the situation or the development of tree of life the work is done. This is what one has to understand, the complete comprehensive idea about the spiritual growth of human beings. Unless until you have that kind of an idea, whatever you have, is like a person is saying that the flower is the tree, somebody saying that the leaf is the tree and they are fighting. Everything is the tree, everything is needed for the tree.

So when you understand through your Self-realisation, that truth is what it is. We can not change it.

So you become the truth and strength of truth comes in you and then you're not afraid of anything. You say it out, loudly. You say this is the truth, I know this is the truth. People may not accept it, they may crucify you, what they like, but truth is truth and that truth remains for ever and ever, it is eternal. But this brain that we do not think much of becomes aware of the truth, this is the blessing of the truth upon us which comes to us through our Self-realisation or we say through our spirit. There can be complete seven lectures on truth if I go on but, I

think I have to see to the other side of it, what else it does.

Another thing happens to you is your attention. Now our attention is out side, the reason is our brain has become like a prism and the rays that come into us of awareness also are thrown out and as a reaction our attention goes outside. If I tell you take your attention inside you can not take it, just cannot, something has to happen inside and that's why when this Kuṇḍalinī rises within you, then your attention is attracted inside and this happening takes place and then you find that you can enter inside as well as outside, but otherwise you cannot. Many people say that we are praying, now you are praying outside, there is no connection. First the connection must be established.

So when your attention is outside you react to everything. For example I come and see these flowers, then I react to it and then I say something, or another thing I see all the time I am reacting outside. As a result of all the kind of sensations we get out of our reactions our attention becomes absolutely disturbed and we get into lot of troubles. First of all our eyes are not steady, they go on hovering from here to there, God knows what are we looking for. The eyes become impure because we start thinking about things, as soon as we see something we start thinking and [a] barrier is created. For example there is a beautiful piece, something very beautiful you see and looking at it if there is a thought you can not enjoy it, but if there's no thought, there's pure rapport, pure connection between that beautiful art and yourself, then you just see it and enjoy that joy of the artist which

he has poured into it, without thinking about it, otherwise normally people will think oh how many pounds can I save? Or what should I do? Should I purchase it or not? All sorts of nonsensical flippant, cheap ideas can come into your head, or could be something higher also, this colour is not matched with that and this, but a person who's a realised Soul will just see. Just like children, they just look, in the same way, without thinking.

So the first thing that happens to your attention, that the thoughts subside. Thought is the first problem that has started with ego and now when the thoughts subside, then you become peaceful. People talk of peace, we should have peace, how can you have peace? It is not possible, is an impossible situation.

You see we think by thinking by organizing by manipulating, we'll have peace, you cannot. You cannot have peace that way? How will you have peace? When the peace is established on your attention, when your attention is peaceful, when we are absolutely without any thoughts, then the peace is resides. After all the peace is disturbed by human beings only, isn't it? It is not disturbed by something else is disturbed by the human beings. And now if the human beings are not peaceful how can you have peace by talks? On the contrary when there are talks be sure that there will be some violent action after that, always it happens, because thought is incapable of keeping your attention in balance.

Now how do you remove the thought from your mind is the problem. Thoughts are all the time in your mind, if you get possessed you may not have thoughts, but otherwise which is the other way? The other way is the

Kuṇḍalinī when it rises, a thought rises and falls off and another thought rises and falls off, but when the Kuṇḍalinī rises, then what happens, these thoughts become elongated and starts some work inside and there is gap in-between and this gap is place of our peace. If you achieve that peace the world peace can be achieved. By just taking placards, by shouting for peace, you can not establish peace. Peace has to come from the hearts of human beings, in the hearts of human beings peace can be only established when you establish the spirit within it's core, where it manifests the bliss of peace.

When you start enjoying the bliss of peace you don't want wars, you don't think of a wars and that is the state where now the human beings have to rise and go to that.

So these horrible times which we call as Kali Yuga, the modern times which are the times of complete illusion and when all the value system is changed, where everybody seems to be unhappy and sick, is the time also preceding the Krutha Yuga, the time where everything will be done, perfected and established. That's the meaning of Krutha Yuga.

So to begin with primitive times which were called Krita Yuga are established again the primitive is again established, but here with the awareness, like as I told you the matter becomes aware of itself.

The Kuṇḍalinī which is a potential thing, which is a potential power of desire within us, which is we can solve the primitive, manifests itself and becomes aware itself. That is what is Sahaja Yoga today, it's all Sahaja, it's all spontaneous all life process has been spontaneous, but today that is what it is.

So spontaneously our attention becomes peaceful, absolutely peaceful and when that peace is achieved, that peace is established within your heart through the ascent, then every bit of that peace emits peace.

Such a person wherever he is, he emits peace, wherever he is, if there is quarrel going on, there will be peace. Even we have seen if there one person who is a realised Soul in a train and if there is an accident everybody is saved, even one person. There are many examples where, in a bus there was one lady who was a realised Soul and the bus fell down with three somersaults and fell on its four legs and everybody was safe and the thing started and they tried to find out who was the realised Soul, because in India we understand these things. We are more grown up in spiritual sensitivity than in the material sensitivity.

You are very sensitive to material things we should also learn something from you I should say, but you should also learn something from us and that is the spiritual sensitivity. To understand what serenity is and what superficiality is.

So with this attention being absolutely stationed on a balance, you start seeing the superficiality and you start discarding the superficiality. You immediately see that this is superficial there's nothing in it and then the attention only accepts whatever is deep, whatever is Divine. The rest of it is rejected, it doesn't accept, it doesn't react, it doesn't say anything about it, it doesn't accept, it has nothing to do with it, it just separated. The attention keeps a distance from all superficial things, it has no enjoyment. I have seen many Sahaja Yogis, who

are here today, who used to indulge in all kinds of things, all kinds of things which I was amazed. How could they go, because they were Men of God. But this situation is such, the atmosphere is such, that they were, like that.

They had given up their parents, they had given up everything and had really become like vagabonds I should say, but when they got their realisation they settled down, everything settled down. And now they know they don't go to those places now, they just don't like it, they don't want to see it on the TV.

If it's on the TV, they put it off, because the attention has now the sense, the sense I would say, of purity.

The sense of morality, which morality which we know of is hypocrisy outside.

We are hypocritical but this is inner morality which just keep you moral. Inner quality, like Christ now, he would not do something filthy, will he? Why didn't do anything like any other person why he was not attracted to something that was not good; because his attention was pure; it would not accept anything that was not pure. Like that your attention becomes absolutely pure, your eyes become innocent, your eyes do not have dirty ideas, lust and greed, but they have purity in them. And wherever you put your eyes that becomes purer, wherever you look that becomes purer and you spread purity through your eyes, not lust and greed. And this is something must happen today because the time has come our eyes are tired, now tired of looking at all horrible things.

Let us now have those eyes who discard. Then why will they have dirty things? It's only we have created this

filth, once we discard it, it will all disappear, its our own creation. Whom can we blame? Not the birds have done it, nor the tigers have done it, or the trees have done it, it's we the human beings, we have done all this nonsense. If we get purified everything will be purified. Now the attention becomes, the attention becomes collectively conscious, becomes.

So far your attention is not. Your attention is, you can see a person, how his hair is or what dress he is wearing and all these things, but you can not penetrate into that person to feel what sort of trouble that person has, what center he's catching, whether he is a good man or a bad man, from the Divine point of view. Because your attention has achieved that state of collective consciousness you can understand, at a very sight of the person you can say what sort of a person he is.

I mean I have many experiences like that I told once My husband, that this man has came to loot our country and he was shocked. He said. How do you pass such a remark, just looking at his face? I said he has came to loot our country and he did it, he did it, within three years time and we found out that he looted us out, like that, we can have many people who are really are at the top of organizations, Governments, this, that, are really cheats. Are going to one day ruin the whole country or destroy us completely, you can see it from the face of it, but that penetration can come only when you have those pure eyes, When you are yourself impure how can you see it? When your glasses mirror, supposing there is a, your eyes are covered with some colour, then how can you see? To see something clearly your eyes must be

clear and clean and that's what happens to us, but there's nothing wrong, once the Kuṇḍalinī rises he kindles a light, you can see a twinkle in the eyes of a person who is a realised Soul, their eyes are twinkling and there's a kind of a light, you can see in the eyes of such a person and then you know that a such a person is a realised Soul.

It's very simple to make out even the eyes of a bad man and good person when you develop your own inner sensitivity and this comes through the attention being absolutely at balance, no thoughts, rising you look at a person without any barrier. For example, you see, say I see an Indian and immediately I think, oh from what country and what part of the country, then who is he, this that, supposing.

So that's he's lost that it's nothing important, what is important is, what sort of a person he is He may be your own brother, may be a nasty fellow tomorrow he may murder you So it does not matter whatever you have understood through your brain, is not important, what is important if you are seeing through and through what sort of a person he is.

So the attention has to be purified, but that you don't have to do your Kuṇḍalinī itself purifies your attention, you become collectively conscious, so many things happen to your attention. Sitting down here you can tell about people, what's happening to them. Now the Krita Yuga means it happens, it is manifested, so now the attention manifests itself, it's another very remarkable thing has happens. Like I'm sitting here now and I'm thinking of someone, all right, I'm thinking of someone, if

I want I can think, if I don't want I need not think, that is the situation, but after realisation somebody needs your help, you'll just think of that person and if you think of that person, that person is helped. Even if the person doesn't know and he's thinking of God, you may help that person just thinking of him. It happens, it has happened you must have seen one of these things happened in Bedford is very surprising for people but it's a fact.

The fact is like this, that some people were going, no, one boy See extract from Bedfordshire Journal: Appendix a was going on a motor cycle and he fell down from a bridge and they called for the ambulance, but after some time the boy himself got up and came up and they were surprised because they expected him to be dead you see, they were surprised how did he walk up.

So they asked him, he said, there was, no I'll tell you in the hospital; they took him to the hospital and there was also police people and he told them that I fell down all right, but a lady came in a white car, I have a white car and she came down and she healed me. They said which lady, he said an Indian lady, she was wearing a white sarī, they could not believe, said this must be an hallucination. Next day he saw My photograph, because I was speaking in Bedford at that time when he fell down like this, we had a bigger hall than this and I was speaking there when this had happened.

So they were quite surprised and he said that a little point down below is left there, she said you come to me and I'll cure it. But it's nothing great it's nothing special because if you can receive on the television something from the ether, you can always receive at that level also

and you can manifest them, but in the television what we receive is, it doesn't manifest supposing we see some photograph of someone, it doesn't get up and cure us does it? It does not, but here attention when you put to it, the attention manifests, see how fantastic it is. It is very hard to believe but it happens, it happens, that the attention itself manifests.

So this attention that becomes enlightened becomes one with the Divine, it manifests and it acts and it helps. It is very miraculous. But now those who are Sahaja Yogis here know a thousand and one stories about it, it has happened like that, it can happen to you, it can happen to anyone of you.

Like once I remember a girl, she went to a place which was a little lonely and some people attacked her and some Sahaja Yogis were going by bus, so they just suddenly got down at a place and just walked, they didn't know why they walked there and they found that so many people were attacking this girl and they just saved the girl from there. And they were from a different place and she said how are you all here? Oh we don't know we just felt we should walk this side, so we came, we just felt the vibrations we just came walked here and we saw you in this condition. It can happen that way, so you become one unit, one unit.

Like the part and parcel of the body.

So you become the attention, makes you a part and parcel of the whole body, but also the awareness of it, like this big finger, is part and parcel of the whole body; but is not aware, is not aware that it is part and parcel of the whole body. It acts but there it is aware and it acts

without even having any connection outside like ductless glands it acts and it manifests and it works out the way it has to work out. It's such a fantastic thing is the attention that becomes.

Then the last and the most important thing is that you become the joy. Nowadays we have lost the sense of joy. With the smallest thing we get irritated and angry. You see the small children running “you should not run here I am disturbed." I mean children when they run and the sound they make, so sweet, so beautiful, so joy giving, but she can't bear she's so tense, she's just waiting to hear, she comes down, there's one child, she shouts at the child, the child cannot even speak, why are you shouting at the child, he makes noise he can't talk, oh then she goes back. All the time you are just waiting to find faults with others, waiting to complain, waiting to see what others are doing wrong, not enjoying them at all.

Once I was travelling from Lucknow to Delhi in a train and we had ladies compartment and we were four ladies, but there was only one lady with Me and Myself and in the other compartment there were two young boys and they had met after a long time I think they were in college together. And they were hitting each other and you know talking with each other you know in such a friendly manner, I was just enjoying you know and this lady was so angry, she said these stupid fools don't allow me to sleep, I said we sleep every time enjoy the way they are having, she said what you are enjoying really enjoying, I am feeling my young age has come and hitting each other and you come along now, what is it

this way and that, is so interesting such innocent talk they were having, this lady got so infuriated and she said no, she said no I'm going to hit them hard, I said you can't so that, at the most she knocked ten times she knocked I said why are you knocking let it be, I am enjoying, so she said no, no I just can't manage I can't, then she went out, her attention you see would just not allow her to sleep. She went out shouted at them “what do you mean by doing like this and what do you mean by talking like this” poor things you know like this, I felt so sad, so when she went away, I went and told them doesn't matter you know she's still her ears are very very sharp you see, so when you talk, talk in muffed voices she won’t know, but even that she could hear, she would not spare them, the whole night you see she didn't sleep just hearing, are they talking? She asked Me, “Don't you think they're talking?" Now better sleep. That's how our attention is, horrible, it can never enjoy anyone. What the birds sing, how the children run and how the people talk, you see enjoy, it's so enjoyable everything is such an enjoyment which we have lost, that sensitivity completely.

We cannot enjoy each other but then we enjoy, we just enjoy the person who is a realised Soul, just sitting with a person, nobodies talking, many a time we Sahaja Yogis travelling together, there's a pin drop silence nobody's talking and the ticket collector said why are you meditating or what, nobody's talking just sitting enjoying, he can't understand and what's the matter with these people their not talking, nobody talking just enjoying each other, just sitting enjoying the company, then

nobody bothers about the comfort. You know sometimes we have our programs where we have thousand people or something and also sometimes we go to India, it's horrible spartan living, absolutely spartan to the last we can say and they don't mind at all and they don't mind anything. I said you want to go to the villages but be prepared it's a horrible place. Oh no, no Mother we enjoy. They said our Kuṇḍalinī rises, it just goes boom in India and we just enjoy that, we don't want anything else and it is so difficult for them to send them to send back to their own country that you actually push them with a pistol, now go back. And they enjoy all the discomfort in that country I was surprised absolutely most uncomfortable places there. But we had four Americans once and three of them ran away, they couldn't bear it, they said Mother it's too much.

And we had to force them, we said we have to stick them with something and they stick on here but they would not. They said, no mother it's too much for us, how can we live like that. I said what comforts you have in your country, you see all plastics, you eat in plastic, everything plastic, even for towels you have plastic at least in India you have everything cotton. You have a plate of say, a beautiful plate of brass to eat food, what do you have in your country that you are talking of your comfort and they got a little bit I said at least we have motor cars, all right we have got bullock carts doesn't matter but it is too much for them to go by a bullock cart because you see their body is all shaken up and their attention all outside you see.

So this is what happens your attention becomes balanced, attention becomes collectively conscious you start enjoying others and this so-called comfort which we really vie is zero. Like here I see if you go to Yorkshire you find people have gone to Brighton. Why? For a holiday and the people from Brighton have came to Yorkshire for a holiday. I said. But why? I can't understand they can't sit in the house you see nothing like a Gṛihastha, means the one who stays in the house is there, there's nothing like a householder they are always out, out of the house as soon as they get holiday they must pack up and go out, some people are just cruising. Why? Why are you cruising? You must sit at home, home is the place of bliss, sit down, talk together and have some rapport, be nice to each other. That's not there you will have a television in between you, otherwise if there is no television there is a fight. Nobody can stand the company of another person even for five minutes either you have television or a newspaper or something in between. There's nothing like enjoying the company of another person. Why? Because our attention is so shaky, it just gets disturbed for nothing at all, I mean how can you live in a place, in any place without any sound? You want to have a soundless area then why God as given you ears? See He has given you the ears to enjoy the music of his rhythm and that you can only feel when you become a realised Soul before that you are very uncomfortable, you have all kinds of wrinkles all over and you ask them why have you got wrinkles? Oh God, you know I have neighbours who are young boys, they are all the time singing loudly, I will grow old in no time. I said I

would go and join them if it was so, what is there to feel so bad about it? What is there to feel that you cannot bear it? You see, why should you be so tired about it? Because our attention makes us tired all the time our attention is and the worst is our attention is on the watch. Watching the time, for what? For what are you watching the time, there is no more going to be a war of Waterloo anything. You don't have to worry on that point, when the bomb will come, it will come without knowing; so why watch the time? After all that's the only thing that is important isn't it, otherwise what is important, is enjoy the time, this moment, every moment has a dynamism in it. But you are thinking, now to go, now Mother is speaking, whether I'll get my train or not, I should look at my watch now as soon as time is I'll run. But I tell you for a Sahaja Yogi the trains will stop, the aeroplanes will stop; everything stops for them. Because after all it's all God's realm you are entering into. Who is greater than God, who is more powerful than Him, once you enter into His Kingdom everything works out, you know it works out. Mother we don't know how it worked out, it works out. They talk in third person, it works out.

So the joy of those happenings, the joy of that blissfulness, that security of God, fills you up and when it fills you up you feel absolutely relaxed. You feel it's all done for you.

Now the gentleman has gone you need not look at him, actually when he was sitting he was having big things and it happens with people, because I think he's a possessed person and with Me sitting here sometimes you know, they go into contortions and do all kinds of

things, better that he's gone. But you don't pay attention to him, he's nothing important, there's no need to turn your eyes. Just now were talking something nice, let's talk of something nice, why put the attention to something that's not so nice.

So attention should be at the nice things as we say but it is never. How do we do? We do it by enjoying the nice things, by understanding the nice things, just our attention goes there and whatever else may be there we just don't see, we just don't see.

We once went to a place called Nepal, you must have heard about Nepal and Kathmandu and My daughters were there with Me and normally Indian people are a little bit, sort of you see with daughters, they would not carry them to places if there are erotics and all that, actually we had never seen erotics in all our lives you see because our attention is not there.

So we saw the whole of Nepal we never saw any erotics you see, second time I went My disciple was there he was writing a book and he said Mother do you know that Nepal has the maximum number of erotics? I said no, I never saw. We were moving about with our daughters we had never seen any erotics anywhere. Oh it's full with that. I said where on top of every temple I said why do you see the top of the temple, why don't you see inside the temple, he said no on top of the temple you'll find lots of these erotics. I said where? You know to My amazement when we went there the Japanese had put up, long, these wires and what you call them, what you call them those big machine like ladders, special ladders they have and with the zoom lenses they were taking

photographs of these erotics. I said Baba what's the matter with these? I said what is there to see in that and they were taking photographs of these. I said from this distance I can't see anything. I mean any Indian who goes there, goes to a temple, his attention is on the Deity and he's not bothered we never saw these things.

What is there outside? And these Japanese are there with the zoom there's one falling down and holding onto the wire, another standing on his head trying to arrange the camera, to get what? That filth, dirt. I was amazed because our attention is used to filth, you see if you know people who are, called a sweepers in India, they have to clean the, which is not very good thing, but they do dirt cleaning thing, or the garbage cleaning; and they have no nose to feel the dirt or anything. You see they become like animals, they can pass through any dirt or filth.

Same thing happened to us, we have no sense left of sin. What's wrong? So what! That's what we have lost sensitivity to sense but after realisation you just become sensitivity and you abhor it, you just leave it.

So the discrimination takes place. You never enjoy a sinful act and the enjoyment of righteousness and virtue starts flowering into and you become flowering personality. You really enjoy yourself, you never say I hate myself or you never use this word I hate you and next movement I love you. That sort of a nonsense goes away from your tongue. You become beautiful person whose never bored, whose never bored. You enjoy your own company so much even if you are in jail you're enjoying yourself, whether outside, you enjoying yourself because you are there, you are not lost.

So this is how our attention becomes enlightened and you become the joy. And this joy fills you up completely. You become personality of magnetism, complete magnetism. I was surprise that best perfume that they produce in Paris is called as joy, is the most expensive is joy, I think they have found out that joy has that magnetism in it and it is from pure flowers, actually these flowers we find in India. I don't know where you find them here or not, from where the joy is made, but whatever it is, what I find that the people are hitting the point all right, in every way this is joy, the perfume. Joy means the joy is the perfume in a human being. If you have that within you, you may not take bath for ten days you will never have a problem of any smelling or anything, because you are perfume, you become a perfume. Anywhere, even some people think of Me they get the perfume. All kinds of perfumes you might say, it happens like that, because in the attention the Mother Earth which was the element, the matter becomes the perfume, the causal; causal of the Mother Earth is perfume, it becomes the perfume. The magnetism of the Mother Earth becomes the magnetism in your personality.

Whatever you have, got it from five elements, goes back into its primitive stage, in the sense that it becomes its causal. Like it becomes the glow, the phagous is the, the causal of light, the causal of light is phagous, is the glow, your face glows, your skin glows, there's a glow on your face.

Sometimes you find glow around the thing, but to see glow is not good, that I'll tell you sometimes later, but you do see a person like this has glow on his face.

So you become your primitive, or you can say your causal, of which you are made, all your five elements express in it's causal. But now the causal is aware, that's the only difference there is.

So you become the joy, source of joy and the giver of joy and you yourself enjoy yourself, because your `self' is so glorious, so great and so May God bless you.

So again we'll have some questions but open the windows today it's like India I tell you, it's so hot.

Again some questions please, the windows are made for England not India, can you open the thing just push it out so there's cross ventilation, can you open this one please here.

Now any questions please. You mentioned the glow. Why is this so? The glow or aura is you see, we have seven we are made out of seven centers and they emit auras around us and they are actually the expression of the causal of all the five elements, so they express it outside, now what happens if you are in the center, in the present, you see the person as he is, but if you are say on the right hand side, where the causal you can feel, say like persons who take LSD take it they move to the right hand side, so they just see the light of a person, like a person comes to Me taking LSD. They cannot see Me there are many who will tell you that and they just see the light here, nothing else but the light, you see, it's like that, so if you see some sort of an aura around Me before realisation then you have to be a little careful that means you are more on the right side but there are left-sided people who are very extreme left-sided, especially. I would say the Eastern people are left-sided very much so

they see Me in My previous lives you see and they see Me as something else than what I am, so that is also not good, you have to see Me as I am now today, so when you see Me as I am, that is this very normal and I would say you have to be a normal person first of all is there any normal like this and see that gentlemen who was sitting who having is left-sided fellow and he possessed that somebody Guru must have done something to him so he could not sit before Me so it alright he can be cured but if you at back it is better then to sit here but nobody told him and he sat here and he had problem but not such a problem if he have had it is so, if you are too much left-sided and you have problems and you have too much right-sided you have problem, if you are in center is better but central people get realisation much faster then he get retain then better but even once sided or another sided manners can be given to them and realisation can be some of the photographs are there with all are and that yes there are some photographs of My. Yes please.

Question: I think Mother he said that is matrin your immoral or moral before realisation?

Shri Mataji: It doesn't matter at all doesn't matter after all how much moral you can be doesn't matter at all, don't judge yourself, don't judge sight, don't feel guilty, doesn't matter. There's no morality needed before that then what's might being here just don't think about it and don't feel guilty that the first thing and last thing that I request you don't feel guilty, if I say something forgive me and don't feel guilty all those thing are gone know that you calms yourself and do this nothing of the kind

and you just come and get your realisation for this, this is like this modern Sahaja Yoga is different way that first thing was calm upon us for twenty-five year, twenty-five years again to put him in every Chakra bring him up and then give him realisation ultimately by 75 he will get his realisation that was the old style, I just thought give them realisation first let their be a little light then they see themselves and bless themselves and you don't have to tell them all right that the better idea is it, we can't afford to wait longer.

Question: *[UNCLEAR]*.

Shri Mataji: Yes it is think but it depend on supposing I mean if you have a brain wash and have it something cured always and you have a Sat Guru, if you have a Guru, yesterday we had many Indians I must tell you and they were following some funny sort of a craze saints you see and I was surprised how can you follow, Indians can not afford to follow such Gurus, I can understand Western people, but they're naive, they don't know, it's all right but how can Indians follow these wretched people, I just could not understand, I was amazed, how could they follow such a Guru, after all what is said about Param, whatever will said is Sat Chit Ānand it has to be one who gives this Sat Chit Ānand that person you attend to and to other people we have clear-cut say about who is the real Guru, who is not real Guru, I mean everyone has said if might that wrong time we go to Tāntrikas and we go to miracle making people this and that, who gives you say a Guru change, you would call him Guru I mean for that you could go to some Javari Bhaja, isn't it, but it is so, you know what I am saying, that this is Kali Yuga, Ghore

Kali Yuga it is and in these times people can be enamoured by something which is told so many times don't go to a person who takes money, who has anything to do money, who takes you towards money, he is also a wrong person of course when you get realisation you do get material well being, because “Yogakshemam vahāmyaham” Kṛiṣhṇa has said, that after Yoga you get your well-being, so that's a different point, but you come to me and I'll give you money, if somebody says so then don't go to that person, but most of them say you come to me you give your money to me and I'll look after ti you'll have no botheration, so this brainwash should be the wash of a Mother, or a wash of a person who is a pure person, purity is very important, otherwise if wash is done with something impure what will happen, you understand. You can cure the person also and he can help very much hands and feet are not such a difficult thing those who do not feel in the hands and feet and they feels in the spinal cord also they can feel in Chakras but first thing is the heart if you have a black heart it's very difficult but if you have hands broken or any thing broken doesn't matter even spine is broken gets connected but how to connect the black heart I don't know.

Question: What is the black heart? Now you know that, not sinful but crooked like a vulture a sinful person is like a little bird which is hurt and hunted so it commits sin, that is familiar, but one who hurts, one who is a vulture which was a hawk that one was not good for Sahaja Yoga. Sinfulness I have seen many a times comes out of torturing, trouble, childhood problems, it's absolutely a

hunted heart alright, like Hitler I can't give him realisation... Now have your realisation then you will know what Sahaja Yoga is, you see when you ask questions you should take benefit of it.....

Contents: 1984-07-14 **Guru Pūjā, Leysin, Switzerland**

I bow to all the Sahaja Yogis of the world. It is very heartening to see so many of you assembled here to do the Guru Pūjā. To worship your Guru in person is regarded as the highest blessing. But in My case it's a very different combination that I am your Mother and your Guru.

So you can understand how Śhrī Gaṇeśha worshipped his Mother. You all are created in the same image of Śhrī Gaṇeśha who worshipped His Mother and then He became the Ādi Guru, the first Guru. He is the primordial essence of mastery.

Only the Mother can make the child a master. And the motherhood in any Guru, whether male or female, can only make the disciple a Guru.

So, first you have to become the prophets and develop that motherhood within yourself, then you can make others also prophets. Now, to become a Guru, what do we have to do after our realisation? Guru word means gravity. Gravity means a person who is grave, who is deep, who is magnetic. Now as you have learnt in Sahaja Yoga that realisation takes place in complete effortlessness.

So normally a Guru tries to make his disciples effortless, which is called as prayatna shaytilya, means `relax your efforts'.

Without doing anything you got your prayatna shaytilya, otherwise Kuṇḍalinī would not have risen.

Then the second stage is vichara shaithilya, the thoughtless awareness. This also you got it without doing anything.

And the third is complete negation of thought, abhava and the bliss of peace.

So one has to understand that you have to pass then, through three stages. First, when you get your realisation all these things come spontaneously, for that moment. When you raise the Kuṇḍalinī of others, these things happen to them spontaneously. You too have that power now to raise the Kuṇḍalinī of people and to establish it in them.

But we must understand why it has to be done that way, why we have to have vichara shaithilya, [it is] because when you project any thought, it is artificial, it is not reality. Thought always stands between you and the reality. When you put in an effort, you stand against becoming.

For example, if I have to cure you, I just put My hand and finished, no effort, because I am that. You get your realisation because I am that. I don't put in any effort, I don't think about it, I am that. Just looking at someone, it can be done. Just putting attention to someone, it can be done. Just with a small desire, it can be done, because you are that. You can mould it the way you like. You can get an example from gold. Now gold is untarnishable. It does not have to think it is untarnishable, it does not have to put in an effort it is untarnishable, it is.

So to be, to be, you don't have to put in any effort. If you have to put in an effort, that means you are not yet that.

If you look at the sun, it shines. It doesn't have to put in effort to shine, it shines.

So to be that, if you have to put in an effort, that means you are not that, you are trying, you are artificial. The flowers are beautiful, so they don't have to beautify themselves. And this is what one has to understand, that innately if you are that, if you have already become, then what is the need to put in any more effort? But when we say these things, you see, then people think you have to be lethargic, that you need not do anything, you become a Guru without doing anything. That's why, at the very outset, I said it goes in stages.

So the first stage is of Śhrī Gaṇeśha, how He surrenders to the Shakti, to the Mother, that is the beginning. If one cannot surrender... That doesn't mean you don't do anything, but surrendering means the worship, the respect of the higher, the obedience to the higher. Not to argue it out, not to react, acceptance, absorption. Like a child absorbs the milk of the mother without questioning, without reasoning. That's why Christ has said, “You have to become like children." But if you are questioning, then you are no more a child.

So first is the state, which you have to develop, is the child-like state. But child, which is a realised child, which has to have a gravity. If you can develop childhood first, then everything takes proper course, because maturity cannot take place unless and until you start from the very beginning and gravity means maturity not frivolousness.

So now the quality of Gaṇeśha, as you know, is that He has Viveka, means He has discretion. He `has' means He is discretion.

So try to develop your discretion power so that Śhrī Gaṇeśha gives you the wisdom, subuddhi, wisdom. And this is why you have to have a dependence on Śhrī Gaṇeśha.

So at this point you have to make a negation of efforts. Like, whatever are efforts anti-Gaṇeśha, or anti-innocence must be negated.

So the negation of effort is to be achieved by negating whatever is the effort, means the effort of negation.

So in the beginning you will not be effortless, you will have to put in effort for that. Like Christ has said, “Thou shalt not have adulterous eyes." So how do you make your eyes innocent? In Sahaja Yoga we have a method by which we try to distract our eyes from effort that makes it adulterous. Like, we try to put our attention, our eyes, on the Mother Earth, on the grass, on the trees.

So the avoidance, the avoiding of the effort itself is effort.

So those people who have come now, recently, have to understand also that they have to put in all kinds of efforts to stop the efforts. For example, some people are used to very comfortable life, they may talk of all kinds of renunciation, [but] when it comes to comfort, they want to have comfort. Such people should try to get out of the habit of comfort, Sleep on the ground, sleep on the Mother Earth.

Some people have an attention which is all the time looking this side, that side, cannot see to one point, so fix your attention.

So gradually, you will find, you'll discipline yourself.

So the effort that you put in is very important in the beginning of Sahaja Yoga.

Another thing is very common, in the West, is the harsh tongue, the sarcasm and hurting others, is a very subtle way of violence. Or if they are really blunt they can start with ego expressions also “I, I, I..." Such people should stop talking completely, make an effort to stop, just don't talk. Now watch your mind, is it trying to talk something sarcastic, nonsensical? So, this watching also requires effort.

So, to sprout the seed is easy, but then one has to put in the effort to look after the little plant. And when it matures, then it's on its own.

So the, first the effort should be made to protect yourself against the mind which you have built in, through your ego or superego, that goes into the wrong direction of effort.

But sometimes, be very careful, you have to be discreet. And the best way to be safe on discretion is to keep in the center, never go to any extreme of anything. For example, some people are fond of music, say, so they'll go on after the music part of it.

Some people, say, are fond of poetry, then they'll go after the poetry only. There is nothing wrong in those things, but whatever you achieve in all these things must be brought back to the collective and must be enjoyed by

everyone and you should also enjoy what others have found.

For example, somebody is a very learned man and a dry person.

So he has to make an effort to make himself sweet.

So try to neutralise your extreme nature by coming in the center and the best way to say is, `I like everything. The way You keep me, I am happy in that state.' And to suggest yourself that, `I am the peace', suggest, autosuggestion, `I am the satisfaction, I am the dignity.' Try to impose these artificialities upon yourself of these virtues and righteousness and then ask yourself, `If I am dignified how can I do such a thing?' Ask yourself, you judge yourself with those. For example, somebody is a miserly person and he says, “Oh you must be generous", then you can call him a hypocrite. But supposing the miserly, you see, questions himself then he is not a hypocrite.

So when you put all these artificial, so-called, values upon yourself, sort of a goal and then try to achieve that goal through your own effort, then you become that.

So automatically you criticise yourself and you don't criticise others and you know what's wrong with you. Because, what's the use of knowing what's wrong with others? It is like England trying to improve the conditions in India and India trying to improve the conditions in England.

But in this also human brain has an escape. When they want to criticise themselves, they find a pouch called the left Viśhuddhi and become settled there. The more cunning you are, the more clever you are, the worse is

the left Viśhuddhi. Then you put everything there, settled down nicely to stagnate, to get all kinds of filth in it and to be settled with yourself nicely. It's like any lousy housewife, she takes all the dirt of the house and all that and piles up into a room, locks it up and thinks, oh she has been very efficient.

You have to face it and you have to correct it and see to it! And that's how you become powerful.

Because if your machinery is out of gear, what's the use of improving somebody else's machinery? And when your machinery is out of gear, you put it in a lock and key and lock it up and say, “Now it's alright." Or you blame somebody because of this, because of that, something else other than you. Thank God to Sahaja Yoga today that you all have got realisation, so I don't have to do all that cleaning, you can do yourself.

So, in short, you become your own Guru to begin with. You try to tell yourself, separate yourself from yourself and say, `Hello Sir, how are you now, come along.' But in Sahaja Yoga, you see, people suddenly assume, you see, a big sort of a ego nonsense and they think they are big Gurus, you see, big, great people, Avadhūtas, you see, like that. And if you ask them, they say, “Mother, Mother I loved You very much." So they think if they love Me, then it is My duty that I should really keep you clean. That's not the attitude of a Guru. What Guru does, is to purify himself and others and give those flowers to the Deity. Till you all become Gurus, I am your Guru, but once you become the Guru then I become your Deity.

[The translator asks Shri Mataji to clarify.] Till they are not yet Gurus, I am their Guru. Till they reach that state. Once they become the Guru, then I am their Deity.

Like all the Gurus, we can say Mohammad Sahib, He talked of “Allah Hu Akbar." He talked of the Holy Ghost, He talked of the resurrection, because He was a Guru. And whatever He had to say, He said it with full confidence pointing out towards the point where He looks, or where He gets His guidance from.

Like Moses, like Christ also put His two fingers denoting His Father.

So till you become your own Guru, you have to put in effort in the beginning. Then gradually you can achieve it effortlessly. Effortlessness is not to be certified, but you can verify it. A person who is discrete, in his presence others become discrete. A person who is honest, others in his presence become honest.

It is said in Sanskrit language, “Yatha raja tatha praja", “As the king is that's how the subjects are." When you are the Guru, you are the example. You have to be the example. Now I have seen people who are Gurus, who think, call themselves Gurus, in different varieties and different types of life: like professors, teachers, you can call them, not spiritual Gurus. They too, when they try to follow a mundane type of life, not of something exceptional, then their disciples lose faith in them. Even political leaders, when they... supposing a political leader is licentious, he has weaknesses, then the people who try to follow him have no respect.

So they too have to have a personal character, a personal value system.

So what about the spiritual Gurus then? They have to be excellent people. There should be no two types of life, one outside, one inside. When the outside and inside becomes one, then it is effortless and that is what one has to do, the inside and the outside, one has to work it out from inside. For that you cannot bring the outside inside, but inside has to go outside.

So this is the beginning of Antar Yoga, the inner Yoga.

At the second stage you have to become thoughtless. This is very important in the West because they live in thoughts, they do not have other problems of a gross nature. For example, they are brought up in such a way that they are frightened of law. They are brought up this way, they'll keep all their carpets clean, everything clean, you see, very particular about keeping every place clean. All the gross things they keep clean and then when they try to adjust themselves, they adjust within. Outwardly they are gentlemanly, but inside, in their thought, they are not clean. In their behaviour they are not clean, their eyes are not clean, it's poison inside. And they like that poison to be taken out, sometimes it comes out as sarcasm, it comes out as their sinister acts of aggression on other countries. They may plan out the complete destruction of the world and they don't think there's anything wrong in it because it is `an ideology' for which, is a thought they are fighting for. As long as there is an ideology, there's a thought, there's some sort of a sublime talk, then they can do what they like.

This filth is very sophisticated. Like the people who don't take their baths can use some artificial things to get a fragrance. Inside has to be clean and that's why first the

efforts are to be made to have good thoughts. Watch your mind, how does it think about others? I would say, racialism is one of the diseases of the same thing. I have seen people who are very well placed, sophisticated, wear immaculate dresses: when it comes to a person from a developing country, or from say, another colour complexion, they come out with a remark, even if they are Sahaja Yogis I have seen they do it. I am saying this for the Sahaja Yogis and not for others. That suddenly that dead stuff, which we call as dead, becomes alive.

So the mind is dirty, full of lust, greed and anger, jealousy and that's why we have to be very, very careful.

Those people who have become sophisticated their weaknesses have also become sophisticated and that's why jealousy is a common disease. Like the other day I asked someone, “Why the father is angry with the son and with his own brother?" So the answer was, “Because the brother is looking after the son in London." Normally any person should be thankful that: somebody is looking after my son in my absence. But the fellow is jealous because of possessiveness and the possessiveness comes out of insecurity and insecurity comes within us because we make others insecure. There are many reasons for insecurity, but one of them is because we are ugly and we see that ugliness in others.

Now this inside filth has to be taken out with greater effort than the outside filth and that inside filth you can watch and see within yourself.

Some people try to dominate others, to tell them things, just for the bossiness of it. Now watch out, first of all, have you bossed yourself enough? Have you mastered

yourself enough? Are you master of your own or you are still lacking in that? Those who have not mastered themselves want to have others, to master them. But the one who is the master of oneself, need not master anyone. He becomes the master. He doesn't have to put in any effort, he masters. And there are so many tricks by which he can master, so many things by which he can correct. He may not say, he may not do anything, but just he manages. Everyone learns a lesson without his doing anything about it. But they know that somebody is a master of masters. Maybe, such a person will be very unassuming, simple, innocent looking, but that's Mahāmāyā, that's the illusion.

So, the person who is that power doesn't want to show it outside, on the contrary, it shows in such a way that people know it. I mean, the way things happen in life, we start understanding that we don't have to put up any show, someone knows everything. When we have someone like that, try to follow.

So, in the third stage the effort should be to follow your Guru who is a Sat Guru.

Now that one becomes the one... a pattern, which you have to follow. But in this also Sahaja Yogis can be very superficial. One of the Sahaja Yogis used to wear a shawl in a particular way.

So, I sent him some other Sahaja Yogis that he will try to help them, he can be their Guru; they all started wearing shawls the same way. [Laughter.] It's not the outside; you have to follow the inside.

So when you become the Guru, become the Guru, you become. It's such a short method, just to become.

Now if you face yourself, you'll know that there are still some steps you have to cross to become. Even now when I am lecturing to you, you are thinking of others, `Oh, Mother is talking about him"', not about yourself. That is how one has to take it inside, the absorption from your Guru, that you have to see yourself. Now, that is very important if we have to become the prophets who will make others prophets.

Now, the higher stage is that your Guru becomes a Deity. When you say “Gurur Brahmā, Gurur Viṣhṇu, Gurur Devo Maheśhwara." They go up to that point but nobody says “Guru is Devī." You can have a higher stage, than Brahmā, Viṣhṇu, Maheśha. Because the Guru state is where you have the innocence of all these, Brahmā and Maheśha and Viṣhṇu, their power of innocence. But then ultimately they say, “Guru sākṣhāt Parabrahma." And Parabrahma is the power of the Mother that is flowing through you.

So you become the instrument of that Parabrahma, but how? Not only by becoming but now, becoming the reflector of your Deity, to develop yourself into the reflector from Guru to that state. At that state you start controlling all the elements. That's why all these incarnations of Ādi Guru had control over elements. Brahmadeva is absolutely manifested through them.

So out of Gaṇeśha, which is the Ādi Guru, He is born, or He is manifested through these three, Brahmā, Viṣhṇu, Maheśha and then He comes out as Brahmadeva with four heads, three of Brahmā, Viṣhṇu, Maheśha and the fourth of Śhrī Gaṇeśh.

So Brahmadeva becomes the symbol of Guru and as you know Gaṇeśha is Chatvari, is four, all the time. He becomes these four, in expression, in manifestation.

And as you become Brahmadeva, at that stage you control all the elements.

So, today I have tried to explain to you the different stages of Guru Pada, the state of Guru. And one should understand [that] whatever we are today, we are extremely blessed and fortunate people that, in this short time, you started from a scratch in the mud and you have become the lotuses.

The lotus will invite many insects and will convert them into lotuses. Madhukar they call it, Madhukar, the ones who are selecting the Madhu, the nectar, the, what do you call?, the honey. When they get the nectar, they become themselves the lotuses.

The whole dirty, filthy pond is covered with those lotus flowers. And one lotus, who is the Guru, grows higher and then is given to the Goddess on which She resides. She resides in the heart on the platform, beautiful platform that this lotus has created. But to bear Her on your heart, you have to have a heart.

There are so many qualities of a Guru, which I have told you. All the best qualities, the twelve qualities of all the sides should be completely manifested in a Guru and the owner of those qualities is Shiva.

So that is how the essence of Shiva, out of Brahmā, Viṣhṇu, Maheśha, the Maheśha's qualities, should shine through you.

The Viṣhṇu's qualities of Dharma, first you have to make an effort to be Dharmic, to be balanced.

Then you ascend. Then you become one with the Virāta and then you can give Dharma to others.

So one has to know that stage by stage it happens to you and you do not become a hypocrite. But you become real and the reality is shown by its own being. That is how you become.

So understand the reality within yourself, face it, solve it. But mostly, I have seen, when I tell anybody, “No, Mother I am not like that. No Mother, I didn't say like that, that is not true!" Some such people would like to sit in front or sort of try to show off or anything, but that is not important.

What is important is how much you know yourself, it is Self-realisation. Once you develop that, then you know the others in the real way and not artificially and then the enjoyment is complete. Like a bee will never go to an artificial flower. But human beings have to become the bee. The Guru does not need to say that he's the Guru.

Today I bless you.

I have completed the twelve years of Guru's and you should really assume the Shiva's powers within yourself. I, that is My body, My mind, My heart, everything, has spared no efforts to completely indulge into this cleansing, into this making, into this becoming of you people. I request you now that please do not waste My efforts. Look at yourself, help yourself and try to rise higher and higher to become your Self.

When you become your Self, then you become the Guru. And once you become the Guru, you become Brahmadeva, Maheśha and Viṣhṇu.

So first you are made in the pattern of Gaṇeśha, then Brahmā, Viṣhṇu, Maheśha. But very much depends on your readiness to do it and, most of all, your honesty and sincerity.

I hope Śhrī Gaṇeśha will give you the wisdom to understand. The Shakti will give you Shakti to work hard and Shiva will give you joy, Sadāśhiva will give you the joy so that you proceed in your establishment.

May God bless you.

All those who are going to worship Me can come here and sit down. In the manner we have today described we'll have three Pūjās. One Śhrī Gaṇeśha's then Guru Pūjā and thirdly that of Devī. I think all the two leaders which you have selected from every place can come here would be better.

Contents: 1984-07-17 **Talk to Sahaja Yogis, Ashram, Founex, Switzerland**

What one has to realise from such a great thing, is this, that, when you are seeking it from your Mother, best is to see the vibrations. And you should also, for yourself always seek to the vibrations. But Dunning is one of the earliest Sahaja Yogis. And then, if he can forgive that, I think anybody can forgive.

So, what you have to remember is this, that God has given you a new personality of vibrations. Now as I told you in Guru Pūjā slightly, that this watch has got vibrations, tremendous vibrations. I say because it. But,

we bought it, only on vibrations. Not on anything else. And Rustom says this is the only watch that has vibrations.

So, what we bought, got us two things together and I think one must stop feeling the vibrations and taking decisions with vibrations. One should take decisions through vibrations and should remember also. If you try the God, or after saying, with confidence and you will feel the God.

So, that your personality becomes very aware. Because, this watch is not aware, but it has got vibrations. But you are aware.

So, if you develop your awareness that way, then you will understand yourself very well.

Otherwise, you can make such big mistakes.

So, what I feel about some of our centers all over, that there's kind of a collectivity, but not that much of homogeneous, spontaneous collectivity. For example in a group, I find some people have full understanding of what I say. And some do not understand Me, when I go to the subtler side. When I give lecture they are very happy, because they get vibrations, because Kuṇḍalinī goes up. That's a very very good thing before that is how you indulge. But what about you, who has been out from the *[UNCLEAR* pool/pull] When you talk to people about Sahaja Yoga, do you understand it that you can convince in an intelligent manner. Or you have to use one or two persons all the time? Because you all must know intelligently, what is Sahaja Yoga. Otherwise, you cannot spread Sahaja Yoga. Now, some of you may say that,

Mother we are not so God blessed, we are not so educated. Because, we have not read so many books.

Some people might say that, before our seeking started we got our Realisation, so we had no time to see books and read about them and to know what they have to say. Now, I would suggest that, you must also read some books which we have described for Sahaja Yoga, like Kali Yuga, like Rāmarasa, like Kavita, like Bible, like so many books you must read after Realisation and Gītā. Blake, I mean, so many of them that you can read. And from the angle of Sahaja Yoga, you will be surprised you'll understand the truth better and you will pick up the points, which strengthens your understanding of Sahaja Yoga.

Now, when you listen to My lectures, you should sit down and have *[UNCLEAR* taken children apart] to find out what it is? And say, by talking to each other because some people are so over read people that they immediately catch the point. But some do not. Doesn't matter. It can be.

Now you see, Christ was educated, He was just a carpenter's son. But, because He was such a great realised Soul, that He spoke nothing but knowledge. Now, after that you can also understand that, this is one side very important. You should present yourself as good. Because, you must know what questions people will ask you, what sorts of answers you have to give, which you can come and ask your leader, if such a question comes in what should you answer? What is the answer? Like, today Michael asked Me, how do the negative, negativity

begin? How did these people create it? The Rākshasas and all.

So, it’s like in a house where people are very tolerant you see allow all kinds of dirt, fill to it you will find after some time, worms will crawl up, then you will say from where did the worm came up? It's like, it is a by-product of a reactor. Like, It is the product of the filth in the house. Now see, house is there and we tolerate the filth means, we tolerate the wrong type of things. Now we keep on tolerating, we are simple kind and nice and sweet and tolerant. It's like, really dirt and filth. And when we put also sympathy on it like pouring water on the mud. In the *[UNCLEAR]*. And sometimes we do it in the name of luck. Now at that time, what happens, that the filth and the dirt [filled]. And out of that suddenly, so many worms, all types, all colours crawl out. That is how the filth is created. Now, when we understand that why filth or anything creates a worm. Now, the filth comes from the matter. Because, when the matter evolves out part of this is started. Like, you go to any parties you will find maybe dirt but if you go to a forest, no dirt. Because natural laws rule in the forest.

So what happens, that when the leaves fall off, they are absorbed by the Mother Earth, they fall on the Mother Earth, they are absorbed by the Mother Earth and converted into nitrogenous salts for the nourishment of the plants. And again, the same plants produces foliage. Now, so this is the circle that is complete. And, the nature completes its circle and automatically you will find a forest with all these leaves. But what does the man do?

He builds a paved road for himself. Or a tar road for his cars.

So, whatever falls on these roads cannot be absorbed by the Mother Earth.

So, whatever is natural and *[UNCLEAR* primitive/permissive] acts according to the laws of the nature. Then the human ego comes. *[UNCLEAR]*. And, it creates a barrier between the natural laws permitting. That's how the filth *[UNCLEAR* is very] couldn't penetrate.

So, as in the nature, from the seed a flower comes out. And the other way round in human beings is that, from beautiful human beings worms come out.

So, what do we learn from this? Because, tarred roads are there, our ego is there, the barrier is there.

Now, how to stop the worms growing further? First of all, we cannot have any tolerance of the filth at least. Of course, outside in the West, people are very conserved, even the leaves they clean. And they climb on the ladders, you see and I see what are they doing, they are cleaning their leaves, surprised.

And the same ladders, then they take to Kathmandu to put it to the temples and to zoom their lenses to some naughty *[UNCLEAR]*.

So, they think they are very clean people.

So, outside looks very clean, of a Japanese. You know, we don't even have one Japanese in Sahaja Yoga. They are the cleanest people.

Actually, we cannot make them sit for more than five minutes together. Because, if they see this thing is little bit like the this, they will get up and [UNCLEAR set right].

[UNCLEAR Because, there is a little bit?] And the women are so particular for their beauty, that they shave theirs [themselves], If this is not right.

So, the outside cleanliness is too much.

So, we have to see about our inside cleanliness. That is very important. Because, as I have said first of all, we must have a proper knowledge about Sahaja Yoga that we can talk to anyone intelligently. And you can ask questions and get answers. If you still are not answered, you just write to Me, I'll answer you. But let your knowledge exploit. When I first went Bengal, they asked Me in the first day, hundred questions for hour.

So, you have to find out, not just for asking questions, but you must find out you if you can say something about Sahaja Yoga or not or what questions you have which you cannot answer.

Now, as *[UNCLEAR* sage/saint], you know that to preach someone, you must have a personality which is sensitive. Your eyes may be sparkling, such as you are a realised Soul. But you have to have also a personality. We have in Sahaja Yoga, many ways and methods by which you get victory over health.

I wish you to have good health.

So you have to have good health. Otherwise, people will never listen to somebody, who is talking like a police in a station. What if somebody is an aggressive lion? But, the person who is dignified in the center and talking like a grown-up, mature personality. Now, there's another thing, I must tell you is that, whatever I am or whatever may I dress up or whatever I do...

[GAP]

Contents: 1984-07-18 **Talk to Sahaja Yogis, Ashram, Founex, Switzerland**

Shri Mataji: That is directed, that is ultimate time has reached *[UNCLEAR]*, na? *[UNCLEAR]*, [German lady].

Sahaja Yogini: I don't know the translation in English, Mother.

Shri Mataji: But intellectuals like Rajneesh.

Sahaja Yogini: Yes.

Shri Mataji: Is that true?

Sahaja Yogini: And he send them to the third [mantra].

Shri Mataji: So I don't think the lady should have the child with her *[UNCLEAR]*.

So somebody else should look after the child. Is there somebody who can look after the child, who has no children in the house? And even if you have children it's good for the children to come together. It is very good for the children to get the [infection] once. You should get this [verily] it's very good. But you tell them it's dangerous.

Sahaja Yogini: It's a big epidemic in the whole of Switzerland now.

Shri Mataji: Just now, when you see how is *[UNCLEAR]*. I asked her. She won't sit in the house.

She couldn't face it up. The whole of the left, left side, especially the left Nābhī and right Viśhuddhi, it's a combination of the left Nābhī and right Nābhī and also right Viśhuddhi, the combination. I think they didn't have to do anything [right], but to sit all the time. But also

nothing to do, but the epidemic, it's you have to work and you have to work, like we have to work on... I was wondering what had happened, verily because never happen this, all right? If it happens to come here just remember to *[UNCLEAR]*, all right? Please. I just couldn't [put possible around], that suddenly. And I couldn't lie down, immediately [they go in]. Suppose, if *[UNCLEAR]* trouble then you [read] one hundred and eight names of [that Chakra]. Just read them once. And then after you watch this [right] after you. That's the way it is. See, [Raju] has got it. Give him a bandhan. Is it for the grandparents like this? *[UNCLEAR]*. Take these hundred and eight names.

Sahaja Yogi: Mother, [if we have time] we'll see her today, too and this is to discuss with her something.

Shri Mataji: Ah...

Sahaja Yogi: And Mother, [if there's time] we'll see her today.

Shri Mataji: Is her [Nābhī].

Sahaja Yogi: Her [Nābhī is a complain] and left Nābhī. Both things are [there].

Shri Mataji: It's a negative, it's a left-sided attack, you get. But in a way, you become immune to it.

So when you get it you feel because you fight to the negativity through immunity, not through the *[UNCLEAR]*.

Sahaja Yogini: *[UNCLEAR* Usually, Mother, in different way/Nowadays in Switzerland] they do vaccination.

Shri Mataji: [Rajneesh].

Sahaja Yogini: Yes, they give [the sickness] to the children, especially to the, *[UNCLEAR* girls/those] before the age of thirteen.

Shri Mataji: Is it?

Sahaja Yogini: But I was not, I was not vaccinated.

Shri Mataji: *[UNCLEAR]*. [You should all understand], I use Haṁsa like that. Yesterday I talked about how to become a [Christian]. And you cannot feel you are not well but you can judge yourself. And you can be with your *[UNCLEAR]*, you get the [video] from there. *[UNCLEAR]*.

Sahaja Yogi: [French].

Shri Mataji: Now, today I did not have any intention of giving you a lecture but I just wanted to find out what sort of a problems you have in Lausanne. Because I'm coming to *[UNCLEAR* Lausanne/ Toulouse] for a program [every week] and one day in... One day in Lausanne or two days?

Sahaja Yogi: One day.

Shri Mataji: Ah?

Sahaja Yogini: One day, Shri Mataji.

Shri Mataji: Is it one day? And two days where?

Sahaja Yogi: Geneva.

Shri Mataji: There's for two days. Is it so?

Sahaja Yogi: And one day in Strasbourg, Shri Mataji.

Shri Mataji: One in Strasbourg.

Sahaja Yogi: Yes, [in Strasbourg]. The people from Toulouse and Strasbourg are here, Shri Mataji.

Shri Mataji: Ah?

Sahaja Yogi: The people from Strasbourg and Toulouse.

Shri Mataji: Are there? Who are the people from Strasbourg?

Sahaja Yogi: [French].

Sahaja Yogini: From *[UNCLEAR* the/new] Lausanne.

Shri Mataji: You are the people from *[UNCLEAR* the/new] Lausanne.

Sahaja Yogini: Yes.

Shri Mataji: You need this course of Yoga?

Sahaja Yogi: Go to Strasbourg, Shri Mataji.

Shri Mataji: Strasbourg. Now what you have seen in Me? Sahaja Yogi [translating from French]: After program, after Your program about twelve people came back. They were all coming from the [Rosicrucian] and they went back there.

Shri Mataji: Hmmm... All of them?

Sahaja Yogini: Yes.

Shri Mataji: So many? And then, now there's no one coming?

Sahaja Yogini: One young boy.

Shri Mataji: I feel crazy, [what they do], every time. The thing you know is, there were so many people in Lausanne. But if I go they'll all disappear somehow. What did she say? What's this?

Sahaja Yogini: That is the progress in Strasbourg.

Shri Mataji: I mean, they were together [do they]? *[UNCLEAR]*. You are doing that?

Sahaja Yogi: Four, Shri Mataji. At last there is the weddings, Pūjā and the Gaṇeśha Pūjā; there is the weddings. Then You have two programs in Geneva, one

in Lausanne, one in, one in Strasbourg and there is lot of travelling around, lot of travelling.

Shri Mataji: Seven days. Two days for Gaṇeśh Pūjā, any days.

Sahaja Yogini: Sunday, Monday.

Sahaja Yogi: Yes, because if we go on the, if we go before Zermatt to see the Matterhorn, to see this mountain for the Pūjā which we all hope it will work out, this is about three hours and a half from Geneva.

Then Strasbourg is about three hours, four hours. Strasbourg is four hours from here.

So I'm afraid it's a lot of travelling.

Shri Mataji: Four hours from here?

Sahaja Yogi: Strasbourg, yes.

Another Sahaja Yogi: But we'll get a plane.

Sahaja Yogi: No, no, we don't have an airport.

Shri Mataji: And how far is Toulouse?

Sahaja Yogi: Toulouse is about near Strasbourg. It's thirty miles away from Strasbourg. Seventy miles from Strasbourg.

Shri Mataji: It is Strasbourg and Toulouse. Which one you think it will work out first? Because in Strasbourg we have no one there.

Sahaja Yogi: We have Ruth and Kingsley. [Translating for a Sahaja Yogini:] She says Strasbourg is a city of students, is sort of European city because that's why is the European Parliament and the Council of Europe.

Shri Mataji: It's very important. I think you all should come. You can advertise the program about that tour in [villages].

Sahaja Yogi: If the people are coming there, then yes, we will do that.

Shri Mataji: So they can come if they want to Strasbourg, you see, because in Strasbourg we have got then Ruth and Kingsley, an hour station and we had programs there before also. Strasbourg, we had people there. Only thing is that not yet very much established because [it sounds] could not be much there. But Toulouse people, if they can come to Strasbourg then it's perfectly all right. They'll go to Strasbourg. What happened to the journalist?

Sahaja Yogi: He was at Guru Pūjā, Shri Mataji. He came at Guru Pūjā. He, he wants us to report from Guru Pūjā something in the newspaper.

Shri Mataji: That's why people's establishing doesn't work out. [Otherwise] even there we saw five hundred people [like if they count in] coming there and they were very much [at peace with themselves, with others and very quiet. Then Pūjā is also and the attention is, you see, just [meditate] and all were very well fit.

So all these others permanently [seek for] permission to sit *[UNCLEAR]* outside the hall, to see five hundred people coming from all over the world and without *[UNCLEAR]*. And they all sat together, [ate] together, *[UNCLEAR]*. You can [go] for all these things into hell.

So this is the least you can have. While you never see their strives and struggles and *[UNCLEAR]* to achieve this work. To find a group of people from all over the world they will look plain, steady *[UNCLEAR]* and lot of struggles and [parties] and every sort of community were represented. All kinds of religions were represented.

There was no quarrel, no fight and everybody was enjoying each other.

There was such a *[UNCLEAR]* without any particular kind of *[UNCLEAR]*. I mean, anybody *[UNCLEAR]* there. It's amazing how can we have young people so subtler, so [efficient], but anyway the people of that tour that they we brought them *[UNCLEAR]*. From what countries they had gathered, it's a special resurrection. There's a [team] over there. You see, all the way from Australia and everywhere, we had people there. And there was no sort of a funny behaviour. People were not jumping. They were not shouting, screaming, [fighting] there. It was not there. It was a very, very beautiful combination of people. It was a very, very beautiful combination of sensible, mature people [we got there]. And there were children and nice people and people who were realised and very good family life. All this social life [type] of Sahaja Yoga, this is to describe that all will [live long] isn't it, about all this tour. And also that, today, a special number of people who go to the cults, anything they, they are the people who say, quarrel everywhere, fight with each other. The reason is, they are actually primitive people. The reason is a very funny manner. Very surprisingly, they have no sophistication, there's [no edibles] in that and they dress up same. For example, one group of people will dress up in one style, like Maheśh yogi wants all of them to wear suits with lining, you see, because he's saying *[UNCLEAR]*.

So and then another group will change their waste clothes with another clothes. They were wearing all the dresses of their own country. There was nothing

compulsory on [their own] style, what he dresses up, how he dresses up. Nothing of the kind.

But the whole personality of Sahaja Yogis is very, very [pleasant]. You see, automatically [they are up]? Very homogeneous society, which you cannot see in these modern days. And the another aspect of Sahaja Yoga is that so many of them have cured diseases, like cancer, this, that. Without [taking any money], without [obliging anyone], they have worked on these people on the physical level and also on mental level, because there are two people [who had come actually] from [you know,] some lunatic asylum.

And there were cancer patients who were cured and [someone only calculates] the cancer patients. It's a, we should bring out the aspect that how Sahaja Yoga's left without [patients itself] what are its good things in this world. Then there is nothing to worry for the people in this world. Wherever the Sahaja Yoga centers, wherever they are, everybody is welcome there and nobody is charged any money or anything.

And they can always take advantage of all that *[UNCLEAR]*. Thus can be very bad on physical, mental and emotional level and also [saves a lot].

You can say there are two, three families who were divorced and they remarried in Sahaja Yoga. Three families, you can say. And the children were also very happy, healthy, peaceful. Obedient and helpful.

That kind of children you don't find. Now see, I think it's the best we can say that in Sahaja Yoga we do not have this doubting that means a person who maybe is just a very ordinary being is put there together with a man who

may be a diplomat. *[UNCLEAR* Tour/So] is better they said, [end of] background.

But it has not been done by mental projection. But when your Spirit awakens, then you see the universality of human beings, [universal is]. And then you live with that new personality, enjoying everybody's presence, [amity of a person]. All perverse ideas like sex or about the violence, all these [left-sided], permanent catches, weaknesses, drop out.

So there is no quarrel. There's no violence.

So peaceful is with the Sahaja Yogis.

So one can say that a new race has already formed, it's *[UNCLEAR* beautiful/with you] and it is better to see that within. At that time if that can't be explained, it's all right because to the person *[UNCLEAR]*, he might get pampered. And one starts feeling that there is God and there is also Christ to look after you. You know, the problem is with the fanatic structures and the wrong sides of taking their [concepts] about Christ. And the very existence it starts with that. And you know from where, about the controversy, there's a man who says that the problem of [Christianity] is the miracle [of His life]. If they are to accept Christ they have to discard Paul. And if they have to accept Paul they have to discard Christ. This is the [foreign possession] for Christians.

So these are the days of our Judgment. Now do you believe in Christ or in Paul? Of course, Sahaja Yogis don't believe in Paul. They believe only in Christ, because we can prove Christ came in as the Son of God. We can prove it. And it is so absurd that these people have no moral courage within. The Archbishop of, now the one

will go to their *[UNCLEAR]*, the one *[UNCLEAR]* who is a demon, who is a *[UNCLEAR]*. He is a fellow, who actually I saw him talking on the television, absolutely a horrible fellow, saying that Christ's disciples could not describe Christ as He was but they just made a big imagination and symbolically. And I met the Vatican ambassador early and he told Me that, “No, these Christ's disciples were not good. They were not intellectuals. But Paul was an intellectual. He is the one who is right." The intellectuals are always against all these incarnations. Hardly they will believe and they'll go to hell. And there's one in India who's saying that Saundarya Lahari was not written by Ādi Shañkarāchārya because he was such a learned man. Why he would write that we must worship Mother? If they try to destroy the image of Christ they will be destroyed themselves. You must know, you cannot destroy Christ. And the place where this fellow was given a big [oration] and also they celebrated his [appointment] was burned by the Viṣhṇumāyā, we call as the lightening. And they have, they have a, they have a way of escaping it by saying, now they say that it's a miracle that only the roof was burned.

They cannot relate to this fact that you cannot challenge Christ and His life and His disciples. They are the true thing. And this Mister Paul was a Roman, who was a horrid fellow, who made so many sins in the sense that he, people were [clubbing] strong such people and he was looking at it and he was enjoying.

But you see, Kahlil Gibran has written about it long time back [before I said]. He said that, “This Paul I can't understand. He's a strange man. He is not a free man,

he's a free [soul] and whatever he talks, he does not believe it." And this is what it is, that all realised Souls understand Christ. And even Mohamed Sahib has said that Christ was the first word, that is, Omkara, Om. He also said that at the time of Resurrection your hands will speak. He also said that somebody was to come at the time of Resurrection.

And there is, there is another example of this Archbishop of Canterbury, [the former one] was asked by one of the horrible interviewers of BBC that, “What do you mean by Holy Ghost?" So he answered, “I'm agnostic." Also [said so] this Rabindranath, “Then what are you doing there?" He said, “I'm doing my job." He [stayed] for it and he's doing the job without being, having any faith in Holy Ghost. He says, “Now, let the Holy Ghost, bless you." And then, “Believe in Holy Ghost." How can Holy Ghost bless that people? And this Rabindranath could say, “Ha, your Guru is doing the job like me” so he said, “I'm a holy person." These are the people of little faith that Christ has described. And today, at the time when Resurrection takes place, these people with the little faith will be finished. A man who has faith in Christ, is far away from this nonsense. And He'll shatter them nicely and ask them questions, `What do you mean by this?' But people think that He was born [and rather believe in this] Paul, an intellectual *[UNCLEAR]* most likely and I think it slipped attention.

So the judgment is going to be [this awareness]. And so many people now, you see, are getting [these days] as devils. How many people are going to come to Sahaja Yoga, we cannot say. Because the judgment, they have

to judge. Nobody can force them; it is their freedom. As a Mother Myself and you as Sahaja Yogis, must have compassion and understanding. And Christ will free out as many as possible from the darkness of ignorance. If they are to be saved you must put in all effort to save them. You see, there's a responsibility in the sense of that power that we have to do it. Then you will not mind so many things and you will see that as the people who have to save, as saviours for these people, we have to work hard, we have to take lots of insults, we have to be kind, we have to be diplomatic, we have to be gentle, [and trying] hard, but somehow or other get them together to [raise their being].

So all of you have to feel that we have to give realisation to people, talk about Sahaja Yoga, discuss of it and you can work out. Any kind of a [gathering], anywhere, try to talk to them about Sahaja Yoga.

A way could be you can wear a badge or something so people ask you questions. Will be a good idea.

So [you try that]. *[UNCLEAR* You need that en masse realisation/You don't have to have My photograph], you can have Sahaja Yoga. Like in India they say “Sahaja Yoga is *[UNCLEAR]*. Long live Sahaja Yoga." So that, you see, what happens that people have a curiosity to find out what it is.

So this is [way] to be. This is what people have done before by sitting *[UNCLEAR]* have a nonsense there and without *[UNCLEAR]*. Because the method has to go through. I've already talked at length yesterday how to become a Guru and I hope you'll go to demonstrate and you'll try to listen to it and imbibe those qualities within you

yourselves. And each one of you can give realisation to so many people. You are all very intelligent.

So any other thing you have to discuss [you tell Me that thing]. You think they know where I am coming now definitely?

Sahaja Yogini: Yes, Mother. But You see *[UNCLEAR]*.

Shri Mataji: Now all of you should verify against each back. We'll form a row. You know this is truth.

[Incarnation] is here. [Stay back]. And all of you should discuss [that for instance] about the [guests] when I am coming, what you are doing, what kind of posters you are putting and... How is that, the poster?

Sahaja Yogi: Shri Mataji, may I show You, please? Because he says *[UNCLEAR]* except from Matin and with Your blessings I don't know why I feel that way but *[UNCLEAR]*.

Shri Mataji: And they have already given you such a lot of posters? [What they have done?]

Sahaja Yogi: Yes, yes, that's another one. This is to use only for library, Shri Mataji.

Shri Mataji: Library?

Sahaja Yogi: Yes, it is the one from England. It's good only for library. It's not, it's not catching up on the wall. For the wall we have got a nicer one in colours. But I think this picture is marvellous.

Shri Mataji: How is vibrations?

Sahaja Yogi: It's, it's, this is too much, Mother. Because it's very beautiful also. You could also watch the work of that. They come in.

Shri Mataji: You'll work it out.

Sahaja Yogi: Yes, we will, we will work it out. Matin.

Shri Mataji: Matin loves this. Is Matin who's done this?

Sahaja Yogini: She has to move.

Shri Mataji: It's like that miracle *[UNCLEAR]*.

Sahaja Yogi: Can you show to Shri Mataji the one with the light? Sahaja Yogis: No, no [not this one].

Sahaja Yogi: Oh, so it's there. It's fantastic. I'm going to put all over the place, specially on the way to my office so that I will enjoy everyone [admiring it]. Very good, very good. It is remarkable, Shri Mataji.

I found this very *[UNCLEAR]*, remarkable. And at that time someone said that people *[UNCLEAR]* and that's very unique.

Sahaja Yogini: A lightening here. They had some lighting here, next to the sea.

Sahaja Yogi: They had a lightening in the, the day when it was Mahāśhiva-rātri. It's incredible.

Shri Mataji: This is also something unique, I must say.

Sahaja Yogi: This one is also something unique.

Shri Mataji: It's because of other people, you see, it is there *[UNCLEAR]*. Do you see the light there?

Sahaja Yogi: There is a fire.

Shri Mataji: It's a fire. OK?

Sahaja Yogi: Was it a fire, Shri Mataji? I don't know. [Could it be].

Sahaja Yogini: Shri Mataji, You are giving blessings to the fire and You cleanse people then.

Shri Mataji: You have to come.

Sahaja Yogini: If I will come that close to Śhrī Shiva.

Sahaja Yogi: That it will work [in time] but *[UNCLEAR]*.

Shri Mataji: And how [many of you are going to] America? Did you see *[UNCLEAR* name]? *[UNCLEAR* He/She]'s very relaxed. Any other problem you have?

Sahaja Yogini: Mother, should I [want and pray] that You should come to the Kṛiṣhṇa Pūjā in New York?

Shri Mataji: Of course, this Pūjā [we'll have].

Sahaja Yogini: Everything we have [shifted].

Shri Mataji: Ah?

Sahaja Yogini: We've been shifted.

Shri Mataji: How far is that?

Sahaja Yogi: Quite far that people say…

Sahaja Yogini: Seven, eight hours.

Shri Mataji: [Cause I don't know this place]. Because [you still you have come such a way]. It is time. What's your full name?

Sahaja Yogini: Doris.

Shri Mataji: But your name is what?

Sahaja Yogini: [Iphydrine].

Sahaja Yogi: Doris [Iphydrine]. Her husband is from Turkey.

Shri Mataji: [Iphy]?

Sahaja Yogi: [Iphydrine]. Her husband is from Turkey.

Shri Mataji: That's why.

Somebody told Me it is [Iphydrine], I said, “Let's see. At least we can talk to this gentleman." I must say, he's done tremendous work. He decorated the whole place very well. He did so much of organizing; so much he did that. I was really amazed how she could be.

So she's come now only, very recently and how to create such a [stout] time. Actually they don't understand *[UNCLEAR]*.

As a Sahaja Yogi *[UNCLEAR]* these days who are doing *[UNCLEAR]* no good. *[UNCLEAR]*. Not complying to you but I must have seen her before when she's get her realisation in [Nasik]. And she's done so much. I mean, she's surprising. Normally you don't find her, as others judging everyone and how it goes, how it goes and not [fighting each other]. But this one is so straightforward. I mean, there's something great about *[UNCLEAR]*, why she's done so much and she takes to Sahaja Yoga so straightforward and it's so much, you cannot imagine. This leadership, to organize everything, arrange everything, even decorated My bathroom. I mean, every sort of things she has worked out. And [she seems to] many people like an Indian. ”You should have faith in Me; I am an Indian." That's how I feel after I see this picture and the place *[UNCLEAR]* predicted about. That's the thing *[UNCLEAR]* person is, then *[UNCLEAR]*.

[MISSING.]

[Caption chosen by Shri Mataji:] The ascent of the Spirit.

[The photo chosen by Shri Mataji is the one where She is sitting on the ground in India and rays of light are falling on Her Sahasrāra. These big posters with a miraculous photo of Mother, together with this impressive caption produced a very powerful result.

Some people who did not know that Shri Mataji Herself had conceived the posters commented that they might be a bit too strong, but felt reassured upon learning that Shri Mataji Herself was their designer.] ***1984-07-00*** Original Poster with Photo and Caption Chosen by Shri Mataji (Hove Town Hall data)

***Contents: 1984-07-24*, Public Program, Medina Theatre, Newport, Isle of Wight, UK**

I bow to all the seekers of truth. It was tremendous joy for Me to come to this beautiful Island that nature has created for our pleasure and happiness. We have to think about, God has done so much, such beautiful things for us and what have we done for him? Can we do something for him? He is all powerful, all knowing. What can we do for Him? What can we praise Him? He's glory personified, his beauty, his compassion! Only thing that we can do is to know him and to know God, is important that we should seek him. If we seek Him, what do we do? Again the problem is what do we do to seek Him. We don't have to do anything about it, as God has created this beautiful Island, all the beautiful things of the world, he has created you as beautiful people. All human beings are created with great delicate, compassionate attention of the Divine. You are not just created out of the blue, but with very great, great understanding, you are a special category of human beings God has created. And what he wants you to know Him, that's all. And to know Him what should we do? Now for example I'm standing before you, you see Me standing before you. Whatever Warren has told you about Me, you know something. You

know Me because you can see Me in person here, but to know God what do we have to do, is that our central nervous system itself, our awareness itself, our attention itself is to be enlightened.

Let us not be persuaded by people who claim that they know God. They use God as a means, an instrument to build up and organize something. How can it organize God, you cannot organize God. He may organize you but you cannot organize Him. It's a very ego, sort of an idea, that we are organizing this organization that organization. Sahaja Yoga has no organization as such. We have no president, we have nothing, it's just a thing that it should happen to you, that you should become. It's like a seed sprouting, it's a living process, it's a living process of the living God. Living process, you cannot put any effort. If you have to say to sprout a seed what effort can you put in? If you have to transform a flower into fruit what efforts can you put in? It's just built in and it works out but it shows results. It is not that a seed will say I'm the tree, it becomes a tree, does it? By professing something, if the flower says I'm the fruit, does it become a fruit? It does not! It has to become! Becoming is the point we must remember. If you are truthful, honest and if you are seekers we must know that for our benefit we have to become! It's no use belonging to anything, no use professing anything, is all nonsense because it will give you a false notion about yourself. But reality will be when you will feel it on your central nervous system.

Unless and until you feel it on your central nervous system, you should not even accept Me or no one.

Why should you accept Me? There is no need! As long as you know that you have to become something higher. Christ has said very clearly, He said to Nicodemus, “I say you are to be born again." Now supposing Nicodemus has taken a word I am born again and put a certificate, self-certified born again going around and then fighting and arguing and being violent. Is this the way? It's just a falsehood. You cannot just say, if I say I am the Mayor of this place, do I become? Every day to day life you know that the authority has to be bestowed upon you. In the same way if you do not become you are just professing one of the nonsenses which our forefathers have done and they, everybody has done in this world. Have you become something? The time has come, now the time is there, this is the special time when you can become. At this time, those people who just cling onto things which have given them nothing but an ego pampering, must realise that it is high time that you come to reality and understand that you have to know it on your central nervous system as you know Me standing here.

If the central nervous system doesn't give you any indication then you should not accept it. That's one of the conditions of the truth, that truth is known on the central nervous system. Projection, one can do anything, I can say I'm this and that and that, I can talk this and that and that...

So what? It's all my projection, are you to believe? Supposing I say I have found something great and this is it and if I have a good brain I can put up a big show before you, so must you believe it? I can put on some horns and come before you and say those horns are the

special ones that God has given me, are you to believe? You have to believe when you know.

For this God has made us so beautifully, that's what I wanted to show you, the chart, how you are made. Now in the bible there is a mention of the word Holy Ghost. I asked a priest, I said do you know what is the Holy Ghost is, he said I'm agnostic. I said you are agnostic, how are you a priest? What are you doing about it? He said I'm doing my job. I said job, is this a job you can do? It's not a job, you cannot do a job with God, you have to know Him and to know him there is an arrangement already made within you. The one who is our creator, who has created all this beautiful place, do you think He would not have made us that way that we should know him? He is more worried about his creation and the beauty of that creation is expressed in human beings, that they should know him. If that is the purpose of His creation don't you think that he must have made some arrangements within us for that? He must have done.

For example when I landed here on the pier [Ryde] it was written if you want to see this place you better go here, better go there, there's a church you can see, you can see this place. All organized arranged you see. As soon as you come in there is a train for you, as you walk into the ferry there's another way of getting out from here and getting another train, it's just ready everything arranged. If human beings can arrange so well what about God Almighty? He must have done something special within us! Now here there are two doctors one of them is Warren who talked to Me and there is another Dr.

Bohdan, but both of them are here and I'll show you what is the subtle side within us, how God has made us. In short you can have a look at yourself. Now when I say all this you are also not to believe that...

blindfolded. No use believing in to it blindfolded, you can see for yourself if it works out or not. I cannot even guarantee that it will work out in you, I cannot guarantee. You see you cannot say that this flower will become a fruit can you say that? But one can try. If there is a possibility, a potentiality is there it will work out. And there is a potentiality in every human being that it can work out, but first of all you have to be honest about it, you have to be open about it.

Now within us are these seven centers, if you see the red one, the yellow one, the green one, the blue one and here is a little smoky one and then here is like the light and ultimately this big one which we call as Sahasrāra. These are the subtle centers and they control outside the centers that are known to the doctors as plexuses, outside in the gross. Now these centers are very subtle centers and govern our parasympathetic nervous system. And this parasympathetic nervous system is beyond our control.

For example, when you want to increase the beat of your heart you can run, you can do some exercise, the heartbeat will increase. But to reduce it there is a force of this parasympathetic which brings it down automatically, spontaneously, Sahaj! Now when you go say to think about, when you go to some Gurus or some other people and you go and try to seek somewhere else, apart from yourself, then what happens? Then you start moving

away from the central path, we have to keep to the central path and that's why all the religions have come, to keep the balance, to keep the balance! And once you have the balance, then only it is easy for the ascent. As you know, I was happy to know that in this place you make some small aeroplanes. Now the basic thing of aeroplane is that it should be a balanced thing, if it is not balanced properly it cannot ascend. The whole thing depends on its balance and its angle, so it has to have an angle upward and it has to have balance.

So the first thing is to have the balance which takes place at this point where you see the green, Void we call it.

Here the balance of the religion comes in. All the religions of the world have come on this Earth to tell us that be moderate, don't go to extremes. But we go to extremes absolutely blindfolded, we follow extreme pattern of life and then our balances go out. The another thing of an aeroplane is that your eyes are upward, you have to look upward and that is what Christ has done, to tell us that you have to look upward. You are to be born again and when he said that Nicodemus asked Him, he asked Him what do you mean? Am I to enter into my mother's womb? He said no, that's the flesh. The flesh can give birth to only flesh but I am talking about the Spirit and the Spirit has to give you the birth again and that's what it is, has to happen within us.

Now this Kuṇḍalinī about which He spoke is at the base, at the bone called Sacrum bone. Sacrum, now see the word Sacrum itself is suggestive it's a sacred bone. I asked the Greeks why you call it a sacrum bone? They

said that because they found that when you burnt the body, you see in cremation, this bone doesn't burn so we thought it was some sacred bone that was there. But it is more than that, you see in through the unconscious they must have known that this is a sacred bone.

In this bone lies the representation of the Holy Ghost. Holy Ghost is the Mother. We say God the Father, God the Son, have you ever heard a father and a son without a Mother? We don't want to accept that there could be a Mother. There could be a Mother! Christ didn't talk of his own Mother because he was a little bit, acted on more understanding that if he says that His Mother has any powers they'll first kill Her and the whole drama of crucifixion will be spoilt.

So he didn't talk about Her, but the Mother is the primordial Mother represented within us, is this Kuṇḍalinī the Holy Ghost! And it is also said, the Holy Ghost, the Cool Breeze of the Holy Ghost. It has to rise and come up.

Now the misunderstanding of the Bible is so much because of misinterpretations of people. Firstly I would say that people think that when the Holy Ghost blesses you, you become like a madman, you talk of funny things, it is not so. One must understand what is written in the bible clearly, that when they got the Holy Ghost, the blessings of the Holy Ghost the Cool Breeze came in and then they started talking in strange languages with strange hands, hand movements. Now what does that mean? That means that they started talking about the centers. When you hear these Sahaja Yogis talking, they will not say that you are suffering from ego, they'll say,

it's Āgñyā, Āgñyā Chakra is catching. Christ's Chakra is catching! They don't talk on the same language because it's a subtler language, so they talk on those languages and that's why it looks strange to a person who is not exposed to this knowledge, to the deeper knowledge of your being. Naturally it looks strange and when they move their hands, they have to use their hands because the power is flowing through their hands so they move sometimes like this, sometimes like this and then people can think they are mad.

This is the big misunderstanding, then when people say that the Holy Ghost has descended on us and then that's why we are behaving like mad people, it's the spirit, it's the dead spirit, is a possession, is a witchcraft! And when it happens you don't behave like a mad person but you become the sanest of the sanest, wisest of the wisest, you become a balanced person, you become a beautiful person, your face changes, the whole face glows and the whole life changes. This is what should happen a complete transformation.

Now we have here somebody who is a Sahaja Yogi who is looking after the centre here but he came through a girl who was in London first time I met her and she was a hippie, a very clever, intelligent girl. She was a hippie and taking drugs and when she came to Me, I mean she was absolutely in coma sort of condition. I looked at her she couldn't even talk to Me, I couldn't talk to her she was absolutely a gone case, she was a seeker. And today she is a person who has such a big organization, you can call it, we don't call it organization but it's such a big congregation of people who are being Self-realised,

whose lives are changed and she's a different person. Now she has become an M.A. in psychology and she has children and a husband who is another fantastic person and they are leading a very happy married life transforming people.

So the first thing that should happen you should be transformed. The first transformation takes place that you must have body... peace, I think, bodily peace or you can say that you get cured of your physical ailments.

[Aside to those holding the Chakra Chart.] So, in this body, changes that takes place within us you see, that when the Kuṇḍalinī rises she supplies the vital force within us. When of course we have been able to cure, we shouldn't say we but this Kuṇḍalinī, this your Holy Ghost within you has been able to cure: cancer, leukaemia; this girl the one whom I'm telling you about, her own brother was suffering from leukaemia and he was told that he'll die within one year, one month's time and he's quite alright, he's doing very well, he's perfectly alright, but doctors don't want to believe it. When it was pointed out, they said you write to us and people are writing to them and British Medical Association wanted to find out and it's such a big you know, red tape going up. But it's true, why, why this cancer is cured through Sahaja Yoga is a very simple thing, one should understand why cancer is caused.

If you know why cancer is caused then you'll know how Kuṇḍalinī can cure and you will know how to cure yourself, not only but you will know how to cure others. It's not just touching like a spiritualist who's hands are shaking, but it's actually, you'll know like a doctor, like a

specialised doctor. Even you may not be the doctor, how this person is suffering from cancer and how he's cured. As you have seen here there are centers within us. Now the centers are made from the left and right hand side of the power, of the, we can say the sympathetic nervous system and the centre that you see in the here [demonstrates with Her hands forming two circles with index finger and thumb but joined as one circle], is on the parasympathetic nervous system.

Now sympathetic is the one by which we work out our emergencies. Now when what happens in life when you have too many emergencies? Say leukaemia, how is it caused? Leukaemia is caused by people who are very futuristic, who think too much, who are always in emergency. Like supposing early in the morning you get up and half eyes open you see the newspaper, there's some shocking news, you get an emergency, your spleen starts working, it has to produce more blood cells to give a protection to you. Now then after that you get ready, you're already late, you get into your car, you see a jam, you have to reach in time and this has to happen. All emergencies all the time working on you and you're extremely on time, you are very particular about everything, you have to do it, you are very particular about your child and you work it out. Even women, when they are pregnant, when they are so particular about things and they make so many emergencies out of their lives, then their spleens act on the child and the child can also get leukaemia! The mother can get leukaemia! The speed you see is controlled by your spleen and the spleen is the speedometer which goes crazy, mad

because it does not know when to produce more blood cells, when not to produce, becomes crazy.

Now we can say the state is of a vulnerability, you are vulnerable to cancer. At this time if you happen to meet someone who has been to the dead, who has been to the cemetery or somebody who has a Guru or somebody who happens to do all these trance and all this nonsense and all these funny movements that are on, you will get cancer.

Now recently, about a year back I saw a beautiful research work of some doctors and what they said was that cancer is caused by entities, they call them protein 52, protein 58, which trigger it and they tried to show some photographs, but one thing they said that these entities remain in our being since our creation.

Means in the collective subconscious, so since then they are there and once you start moving towards the dead you are much more vulnerable than a normal person. And that's how the cancer is set in every moment, they say, means you become vulnerable every moment because the pressures of life are such.

But what does the Kuṇḍalinī do? When she rises, what does she do? She creates an atmosphere within the centre, that exhausted centre gets the vital force and it tries to bring the attention to the centre.

Once you come to the centre you get connected with the whole again because cancer is set in, when all your Chakras, all your centers are exhausted or one centre is exhausted and it gets broken up like that [gestures with her hands the two circles coming apart]. It has no connection with the whole and it becomes malignant.

When it becomes malignant that time this triggering takes place, in the sense it is vulnerable to malignancy and triggering takes place, that's how you get cancer.

Heart trouble for example, the other day I was read that English have the greatest enemy as heart trouble. Is absolutely curable and you can become absolutely heart proof once you get into Sahaja Yoga.

Now what happens, how do we get, these are very subtle things which are to be seen how it works out.

Heart troubles are of two types one is a lethargic heart and another is a heart which is over active. Now the lethargic heart, you get angina and all these troubles. Now these differentiations are not in medical terminology, I have done Myself medicine; I know they don't have all these terminologies, but a person who has a lethargic heart is a different absolutely the opposite, juxtaposition of a person who has a heart which is overactive.

Now these two things are caused by the deficiencies in our being itself. Now what happens is that we have two channels of sympathetic nervous system, one on the left, one on the right. If you use the left side too much like the people who go to these dead and all that, they are on the left side, those who cry too much, sly people, they are sort of what you call the masochist type people, in extreme they are like that.

The another are the type that are opposite, sadistic and the aggressive type.

So one are the left side the other are the right-sided.

Now those who are left-sided people are more prone to cancer and the right-sided people are more prone to the heart, because what happens that when you start working very hard and you start going to the work much earlier than its time and you sit down there and you worry about this and worry about that, then your attention goes out and there is no attention to your spirit which resides in the heart. As long as spirit resides in your heart you'll live but as soon as it disappears you die.

So this spirit gets annoyed.

When it gets annoyed it goes into different kinds of contortions, it goes into different kinds of defects.

So the attention that is outside too much, how will you pull it inside? If I say you put your attention inside, I'll meditate, meditate. How? Something has to happen within and when that happens, your attention is attracted inside and that happening is the happening of the Kuṇḍalinī. Now the word Kuṇḍalinī should not upset you because it's an Indian word, but it means a coil, because it is in three and a half coils, is what you call the Holy Ghost within yourself which rises and gives you your second birth which really makes you the person who is not an egg anymore but a bird. This is what it is, that's why on Easter Day we give an egg, to suggest that Christ showed us the way by His crucifixion, how we have to become the birds.

People don't know why we give eggs, we just give eggs to people on Easter days without knowing why we do it. Like I asked them why is it called as River Medina [City of the Prophet; Arabic name for girls]? And why is it called Isle of Wight [‘wight’ is a person of a specified kind,

especially one regarded as unfortunate, a spirit, ghost, or other supernatural being], no one knows, we just accept it as it is. But there are reasons for everything because all these things have come from the unconscious which is universal, which is everywhere.

So what happens to you that once you become conscious of that universal unconscious, you become universal yourself because spirit is universal. The Cool Breeze starts flowing through your hands, the Cool Breeze starts coming out of your head. Now jumping, changing dresses, enrolment and all these things cannot bring out the Cool Breeze from your head, can it? The Cool Breeze starts coming from your head and you start feeling the Cool Breeze from your finger tips and when these, what you call the waves of Cool Breeze, you get it. Then, you feel absolutely peace, there is no thought and you enter into the Kingdom of God.

Now these are the ones that tell you the truth [gestures with Her hands]. You ask about someone whom you know to be a crook, ask it, is he a good man or a bad man? Immediately you'll find it's burning coming or a hot thing coming on your hands. But supposing you know a very good man, who you know he's a very good, nice person, you ask about him, it will start, it will soothe down. If he's a realised Soul, Cool Breeze may start coming into your hands. That's how you will know who is a realised Soul and who is not.

So many people are really these days, are hypocrites of the worst type and from India we have a speciality in telling lies, I must say, the way they have come here to make money, befool you and take away money but it

was actually the idea came to them through some people who think that they can take money in the name of God, in the name of religion. They can organize things and that's how they started doing it. They think that they can befool you now, in a very subtle way they tried to befool the people here, they made a lot of money, I mean they have Rolls-Royces and this and that.

In America, you'll be surprised, when I went there, the newspaper people asked Me, how many Rolls Royces she has? So they said She hasn't got anything, She doesn't take anything, they said we are not interested in a person who has no Rolls-Royce. That's where we have reached into materialism, to that extent, that now we cannot see things correctly. We are blinded now by this money and money orientation.

To such an extent we have come, now we are challenging Christ. You must have heard about this new movement of challenge of Christ, I mean it's horrifying how can you challenge a person who was really the Son of God, because you have not felt it, when you feel it, you know that he is the Son of God, you ask the question, was he the Son of God and you get tremendous breeze in your hands.

You are not yet authorized to talk about Him and to denounce Him and say these things. Actually Paul, I don't know, when, I read Bible for the first time, I was shocked, I said who is this Paul, why is he there, what is he doing? How is he connected with Christ, I didn't understand, this man he has nothing to do with Christ, he has no vibrations. I was surprised Kahlil Gibran has said about him, this strange man Mr. Paul. He will always deny that

there were no miracles about Christ, he will, because he was not a man who was a free man, he was not a free soul. He himself was suffering from epilepsy, can you imagine a man suffering from epilepsy talking about Christ. He was the man who had seizures so many times and how could he talk about Christ, he thought it was a good way of befooling people and becoming something great by taking over. But you beware about it; don't listen to these things, these intellectuals.

Intellectuals can never understand Christ and they have never understood Him. Only the people who are seekers, those who are seeking the truth, will know what Christ was. It's amazing, in India, people are shocked to hear that people are talking like this about Christ. How can you understand God? First, at least get your Self-realisation, at least become the self, what Christ has said, first achieve your realisation.

For that you go to the church, a priest puts his hand on your head, like William Blake said that, “A priest cursed me on my head” and then you think you are realised, how can you be? How can you be realised? By a person who himself is not realised? The Kuṇḍalinī has to come up, you have to feel the Cool Breeze, you have to become a realised Soul where you feel the collective consciousness, by which you feel your own centers and you feel the centers of others.

I was amazed when I came to England, I could not believe these intelligent, sensible people who we knew in India have now taken to witchcraft of all kinds; we thought it's only in India, where people are very poor, they take, poverty takes to these things and when they

become poor they go more to these things and then they become poorer, it's a vicious circle. These dead spirits always create poverty and greater poverty, diseases. This, all kinds of diseases, which are left-sided come from them. But I was amazed how intelligent people have taken to this and to talk the whole thing people have come from India and they said you have to pay $6; 000. For what? To jump, to what is it, to fly in the air, to fly, why do you want to y? What is the interest of God to make you y? He doesn't want you to become birds does he? Use your brains and they paid $6; pounds for this man, each, for flying and then when he hurt them they came to Me, with all epilepsies and things like that and are they flying anywhere? He has made a big money out of you! With all the intelligence, with all the brains God has given us, with a person like Christ we have known, how can we do these things? Let us now know that it is for us, for our good, for our own benefit, that we have to become the self is the whole property that God has given us, all the wealth that God has given us within us and it is no use clinging on to someone, to be someone's pleader, somebody's professor or somebody's disciple. Better become your `Self' ! Unless and until you become your self, you cannot talk about Divine, you cannot talk and that is a different line altogether where you become absolutely peaceful and you become collectively conscious. The collectively consciousness is described by Jung, who got his realisation very late in life, but he described it, that in the days when people will come they will have their realisation and they will have collective consciousness.

Mohammed Sahib has clearly said that when the resurrection time will come, your hands will speak; in the Koran, most of it is about resurrection he has talked. But the Muslims won't talk of the resurrection; they will talk of the doomsday because they want to put fright into people so that they can get their money and have their big organizations to make money and make their mosques and things. What is a mosque? What is a temple? What is a church, but the church within yourself! This is the church you have to build, you are the church yourself! What are you belonging to? Everything belongs to you, you have to become that.

As he has said [Warren in the introduction], I have nothing to gain, is not true, I have to gain one thing, the darkness has to go. Darkness has to go, you have to see the light that's very important, that's My mission for which I have come to your beautiful Island. I'm sorry it is only for one day I'm here and I won't be here for tomorrow because we have other programs and they fixed Me up you see so I have to move from one place to another according to their programs. But whatever it is I'm very happy to see you all here and I hope you people will understand what I am trying to tell you. What I am requesting you and warning you that be careful, better look after yourself, this is the time of judgement! This is the time of judgement! Do not postpone it, you will be judged by your Kuṇḍalinī, by nothing else, your own Kuṇḍalinī will judge you and you will know your own judgement by which you can cure yourself. I don't have to tell you, this is wrong with you, that is wrong with you, you yourself will know. You'll know on your fingertips, in

English language, they say “you know on your fingertips." All the centre's that are, I've shown you, are five, six and seven centers on the left hand side and five and six and seven centers on the right hand side, they will tell you. Even a child who is a realised Soul can tell you, what's wrong with you, what's wrong with himself and how to get alright.

But the one snag is that people get realisation, is the parable of Christ when he described, that some seeds were thrown onto rocks, some on the sand but some on the fertile land, like that.

So those who fall into fertile land, you may get your realisation today, I don't say you may not, but to retain it, to grow into it, you have to work it out. Which is today is a collective working, you cannot just sit at home, Mother I'm meditating, it doesn't work out, you have to have a collective working out.

Let us see out of you how many want to have it and grow into it. There's nothing that should enslave you, on the contrary you should get over all your habits and all that, you should become a master of your `self'. That's what it is and you become! There are thousands in the mainland who have got realisation and why should you be left behind I don't understand.

I'm here now for ten years. I've been working very hard, with people in the beginning I had only six people and for four years I was struggling with them to make them something and now they are great people and one of them is the girl about whom I have told you.

So it is not difficult, now suddenly the speed has improved and people are getting realisation but still in

the West it is very slow compared to in India, because people are simple and innocent and have the basis, they know what is Kuṇḍalinī, they have the basis, I don't have to argue with them and tell them about it because traditionally they have known these things, they are just there and they get it. What he told you about six thousand and seven thousand people is a fact, but it's in Indian villages. I've worked in the villages than in the city because city is more sort of money orientated, they are not seeking God or they are not seeking higher things but what they are seeking is plastic.

So let them have plastic for the time being, when they get fed up with it then they may seek God. But more I'm working in the villages of India and I hope that something will turn out of this meeting with you people.

May God Bless You.

I'm sorry in this short time I could not, somehow, elaborately talk to you about it but these people have got My tapes and I must have given thousands of lectures in English language. You can listen to them and can have more ideas about it and you can deepen your knowledge about Sahaja Yoga, but first thing is that you get your light, first you get your realisation because if I have to talk about these lights before putting on the lights then I can give you a big lecture on how these lights are made and what is the history behind it and how it was discovered, from where it is coming but it's a headache... first you have the light and then you see everything in the light, it is much better. I would request you that first you have your realisation. And there's one thing that Warren has said, that one has to be humble. That also is

quite a challenging word, I think, there's nothing to be humble about it, I mean you just have to be a gentleman, that's all. You need not be harsh with Me and if you try, you can try it, I mean it doesn't matter with Me but you should not disturb other people by your aggressiveness so, let those who want to have, let them have it. There should be no dog in the manger attitude and that only I would request that you should try to achieve it yourself and let others have it. Thank you very much.

[Warren requests people who have come for the first time and want their realisation to come to the front of the theatre.] Another thing I have to make a very humble request is, we have to take out our shoes because this Mother Earth helps us a lot to consume many of our problems and tensions. It's a very helpful thing so we should take it out. You have to take help. We have to take help from all the elements and they help us if we really want them so better take out.

So nice to see so many Seekers.

Alright, as I said it is not possible to guarantee anything but there's one thing I have to request you because this is My experience so far, that people in the West unnecessarily feel guilty, I don't know why.

This feeling guilty is sort of in the atmosphere and there is nothing to feel guilty about anything, what are you feeling guilty about? You see, that's one thing you must get rid of because I am talking about God who is the embodiment of compassion, embodiment of love. Above all, He's the ocean of forgiveness.

What mistakes can you commit? If I have said anything in My lecture which might be giving you that feeling of, oh I

should not have done this or that, you must know that to err is human and to forgive, Divine.

So please do not try to condemn yourself for anything, I have to make a very, very humble request because when I came to your Island, I felt that this, the first feeling I got was oh Baba, the people are so guilty.

So please get over that. First of all, you must tell yourself that, `I am not guilty at all.' Alright.

So we sit in a very pleasant mood, not a frivolous but a pleasant mood because we are now going into the Kingdom of God which is promised to us and that's what we have to get it. You have done no sins whatsoever, forget your past, forget all about it. Just think that you have come here to achieve your Selfhood. For that you don't have to blame yourself for anything that you have done, you just forget about it. That's very important. And there is nothing serious about it. It's a very pleasant experience, nothing happens to you if you start thinking how miserable you are, this is... forget about it. Just now, at this moment, at this present moment, you are a person who wants to enter into the Kingdom of God.

Supposing if you have to go to the Queen's party. You'll dress up well, you put up a smile. You look very nice because you don't want to put a show that you are feeling unhappy. In the same way now, if you have to enter into the Kingdom of God, which is the highest for us, we have to be very happily built up within ourselves. It's a very pleasant experience and you will enjoy it. There's no sensation but an experience of a very eternal value.

So I would request you not to get into any morose or a gloomy conditions but to be in a pleasant condition. Or not also, in a very ego high handed position but in the centre expecting to happen to you. It should happen to all of you. May God bless you.

Now what you have to do is to little bit, if there is anything tight on your waist, if it is very tight, if it is uncomfortable, anything uncomfortable to you when you are sitting, if it is not it's alright.

Please take out your glasses also, there's no need because you'll be closing your eyes completely and sit very comfortably with both the feet on the Mother Earth, straight parallel like this because we have to look after the left and the right side. And now you have to put the hands like this because I told you all the centers are here, they have to receive the vibrations to begin with and then it happens to you automatically, spontaneously, like a sprouting of a seed. You don't have to do anything about it. Actually, you'll feel that there is no thought in your mind, automatically, you don't have to tell, don't fight your thoughts. Let the thoughts come in, they will all disappear because you will become thoughtlessly aware, it's a becoming. You cannot force into it, so don't put in any effort just sit comfortably forward but in the centre, in a very normal way, but not slouchy nor very backward but just in the centre.

Now, close your eyes, till I tell you don't open your eyes, you are not to open your eyes because if your eyes are open, the Āgñyā Chakra which is the centre of Christ, you see it doesn't allow the Kuṇḍalinī to rise because the attention is pulled inside and you get the dilatations of

the pupil, so you better keep your eyes shut till I tell you that you have to open.

Now the left hand side as I told you, is the desire, the power of desire, our emotions, our past and everything, so put the left hand towards Me all the time like this and the right hand is the power of action so we have to use it on different centers to awaken the centers and so that the Kuṇḍalinī rises and relieves our centers with our own doing. Nobody is doing it for us, we ourselves are doing it.

Please close your eyes. Now, you have to put your right hand on your heart, on your heart, that's very important, on your heart. Perhaps you don't know that London is the Heart of the universe and heart is very important. Put your right hand on your heart. When you put your right hand on your heart what you are trying to say is, that in the heart resides the spirit and that you have to become the spirit.

So you can ask Me a question in your heart, you need not loudly ask Me. You can address Me as Mātājī if you find it easy or you can call Me as Mother, whatever suits you, whatever you like to call Me. You have to say Mother am I the spirit? Now don't open your eyes, just ask the question, an earnest question, three times in your heart, Mother am I the spirit? Keep the eyes shut *[UNCLEAR]* because it's an absolute thing and if it is an absolute, like a computer it works and it gives you the answers, so you ask the question Mother am I the spirit? Very simple question it is! Which you are! [Aside:] Got it.

Now take this right hand down on the stomach on the upper part of the abdomen. If you are the spirit then you are your own master too.

So you ask a question to Me here, three times again, with full confidence in yourself, not feeling guilty at all, but ask a question, Mother am I my own master? Am I my own Guru? Just ask the question! *[UNCLEAR]*. Please don't feel guilty, don't feel diffident. Please don't feel guilty, or diffident you are your own master you have not yet felt your spirit, that's why. Don't be diffident about it; you are your own master, don't have to go to any other master. Even if you have been to a wrong type of a master it can be cured by this, just asking the question. Please keep all of you your eyes closed. Everyone should try to get it, what's the use of standing on the banks or on the fence? Better to have it, you don't lose anything.

Now please take this hand down below, absolutely on the lower portion of the abdomen. Here now, for the first time, you have to assert, you have to ask for something and that something is the True Knowledge, is the art of True Knowledge, the technique of True Knowledge. Yoga means two things; it means first the union with the Divine and the technique, how to keep the contact all the time, the technique of the Divine Laws, technique of the Divine machinery.

At this point you have to ask because I cannot cross your freedom, you are human beings and God has given you freedom and nobody wants to take your freedom, so you have to ask otherwise I cannot force things on you.

So to ask Mother we want to do the technique of True Knowledge, the Pure Knowledge, the absolute

knowledge. Say it six times because this centre has got six sub-plexuses; just say that, it is very important for this place.

[Aside:] Better.

So that if you have done things which are not true, which are not real they'll drop out.

Now as you have asked for this, you have to assert by putting your hand higher in the abdomen, in the lower part of the stomach, here as you have put it and you have asked for it, now you put this hand in the higher part of the abdomen. Here you have to assert and say with confidence because it is very important to be confident about it that you are the spirit, you have to say ten times Mother I am my own master, just say it. It is not ego it is a fact. Fact is neither ego nor superego. Just say Mother I am my own master. To be your own master doesn't mean you are aggressive, that means you are master of yourself nothing can enslave you. Mother I am my own master. Please say it ten times with full confidence in yourself. That's one thing one should understand that you are going to become the spirit, which you are already. It has to manifest. And a person who has no confidence, how can you be? With full confidence you say I am my own master, ten times.

Now, raise this hand to your heart again, now with full confidence in yourself you have to assert by saying Mother I am the spirit twelve times. Mother I am the spirit, you are the spirit, believe Me you are the spirit. Now don't doubt it, you are not to doubt yourself. If you have diffidence it is not going to help us just say at this moment Mother I am the spirit. God has made you a

special category, a special category. Category of men of God as William Blake has said, “The men of God will have, will become prophets and they will have powers to make others prophets." These are the days when you the men of God will become prophets.

So just assert `Mother I am the Spirit.' See now, how it works out.

Alright, now raise your hand to a centre on the left hand side of your neck, where it touches, where it is near the shoulder. Just put it there, press it hard now, bring the hand a little backward and press it hard. Now this is the centre which is very badly caught up, is the centre when you feel guilty. Now sixteen times say and assert that Mother I am not guilty and if you have that habit better say it one hundred and eight times to punish yourself [smiles]. Please say Mother I am not guilty, what are you guilty about, what have you done? All conditioning, people have told you, you should be guilty about this, all these ordinary norms upset you. If you have not said thank you to someone, you are guilty, if you haven't opened the door for someone you are guilty; what is this? We are human beings, what about our dignity? Some countries have some customs; some countries have some customs, why to feel guilty about it? You are an Indian or you are an Englishman or you are a German whatever it is, you are first of all you are a human being.

What is there to feel guilty? Sixteen times! First forgive yourself, that important, those who can't forgive themselves, how can they forgive others? And why should God forgive them also? It's kind of a violence towards yourself is not to forgive.

Now put your right hand on your forehead please, across on your forehead. Now this is the centre as I said of Christ, this is the gate through which everybody has to pass and here you have to say Mother I forgive everyone. Say it from your heart. Now don't remember whom you have to forgive, in a general statement just like that. I forgive everyone, put it across, put the hand across your forehead... fully. Fully across.

Now take this hand on top of your Fontanelle bone, the soft area which you had in your childhood, put your fingers there. Fingers on that soft area which you had in childhood, now it has become a tough stuff but it will become soft now. Now you try to press it down a little bit and move it clockwise, press it down with your fingers and move it clockwise. Now this is one place again where the Kuṇḍalinī rises and breaks through this area and you get your Self-realisation or your real baptism. But here again I cannot cross your freedom so you have to say that you want your realisation.

So Mother please give me my realisation I want it. You have to say it otherwise I cannot force it on you, so press it hard and move it and say it seven times Mother please give me my realisation, I want my realisation, I want to have my realisation, whichever way you want to say you say but just press it hard and move the scalp. Say it seven times.

[Shri Mataji blows into the microphone.] Now put back your hand where it was before and now with the left hand try to see if you feel any Cool Breeze coming out of your head. Put your hand about four inches above that area and see if there is a Cool Breeze. Right hand you put

it on, towards Me and with the left hand you try to feel it. Left hand, with the left hand you try to feel. Please try to feel it if there's a Cool Breeze. At first you might feel a little hot coming out of you, possibly. Little higher, just see it, about not very high, about four inches high at first and then gradually you move up and down and you'll see there you'll feel it. Now turn, you put your other hand down now left hand and with the right hand you see.

[Aside:] Working out.

Try with the other hand see if it's coming, if it's coming you need not see but if it is not coming. There, just put it up, don't get disappointed with yourself, don't get disappointed, if it is not working out there are people who will work it out, you're getting quite a lot eh? Are you feeling it? Just raise your hand a little bit; just see if you are feeling it.

Now put your hands towards Me and open your eyes, just see. Don't think, the thought is no more in your, just don't think. Now see in the hands are you feeling any Cool Breeze? Just little bit blowing, a little hot, rub it, rub your hands a little bit, yes see. They're a little insensitive, see for the first time they are exposed to the Divine now see. For the first time you feel this all-pervading power that creates everything, works out everything and which has evolved us. The power of God's love. Put your hands up and ask a question, Mother is this the power of the Holy Ghost, is this the power of God's Divine Love, is this the complete power? Now put back your hands and see. Are you feeling the Cool Breeze in the hands? Don't think about it, just don't think, thinking stops it. Better now? In the head did you feel it? Now I'll ask some of the Sahaja

Yogis who have come from England to see for themselves. But don't think, that's one point, just don't think. Can you come down and see for yourselves.

More right-sided some people are, doesn't matter, don't you worry they all have gone through the same so don't you worry. Good, feeling fine, feeling hot? Is it? Sahaja Yogis should not talk first of all see for yourself the vibrations, don't talk to them. Hello, don't talk to them first see the vibrations, because you may disturb. You see they are just now getting the experience, so you must understand. If you suddenly ask questions you see, they might get disturbed, don't ask questions just see if it is working out. Alright, is she alright, oh I can see that. These two gentlemen are here. Please everybody must be attended to see there's one gentleman left out there. There are lots of Sahaja Yogis, Antonio, there's one gentleman there.

Ha! What do you say, tie them up, is it working out? What do you say, is he alright? Raise it, tie it up.

Raise it, tie it up. You're alright, you got it, now don't think, don't think.

Ah that's good. You see, the experience will be tremendous, keep your eyes shut if you want to, experience can be tremendous for some people. It's tremendous. Very strong, great place I must say, surrounded by the sea. How is the gentleman there, is he alright? Everybody getting it? Doctor Mathur, he's got it? Great1 Great seekers.

So I bow to you all for such great seekers of truth. You have found it, now try to know it, become, be serious about it, don't waste it. It's very easy. Thank God we

have somebody here who is very good at Sahaja Yoga and you can go to his house and he can help you. The whole family is involved into it, the children know, everyone knows. You and your children your family, everybody will know about it and a new life of joy for all of you.

Great seekers I tell you, no more diseases, no more troubles no more tensions, there's a hole now for everything to go out, so enjoy yourself. Done! How is this gentlemen here, has he got it? Left Nābhī. The one who doesn't have Sahaja Yogis should raise their hands and tell Me. All the people at the back have got it, have they? Give a bandhan to their left Āgñyās, left Āgñyās are there. You will know all this. It's nothing Latin. it's very simple, simple. Even a child knows as I told you. Has to be simple, isn't it. It has to be universal; it has to be simple, available to every one of every type, every quality, every race.

Better take their names and addresses and things and they can contact. Please now do not waste this experience. This is just the beginning, you have to become the tree and it's very simple, you cannot pay for it. You cannot organize it but you have to ask for it, just that somebody who knows about it, tomorrow you will become the knowledge so just go and ask for it. Know for it. Have you got the books and things? I think that they should get the books there only from the centre. Why not give then the name of the centre and the address so that they can get the books there.

May God Bless You All. Enjoy Yourself.

[Shri Mataji goes through bandhan and the raising of the Kuṇḍalinī.] May God Bless You. That's how you become the master.

Contents: 1984-07-25 **Radio Interview, Brighton, UK**

Interviewer: This time show. Now nowadays there are many people who reach a state of depression, unsure which way they should turn, often taking drugs to compensate, looking to religious or alternative lifestyles to shed a new light on their lives when now apparently a silent revolution has been growing, led by a spiritual leader, Shri Mataji. I am pleased to welcome Her to the studio now. Hello, Shri Mataji.

Shri Mataji: Hello.

Interviewer: Now, first of all, let's talk about the thing that you, the process you are involved in. It's called Sahaja Yoga.

Shri Mataji: Yes.

Interviewer: First of all, let's ascertain what exactly Yoga is.

Shri Mataji: Yoga means, there are two meanings to word Yoga. The first meaning is the union with the Divine that your attention becomes one with the Divine, or you can say that you become one with the Spirit. Second meaning of Yoga is depthness. Or you can as call it technique, depthness of the Divine laws.

But unless and until you get united with the Divine you cannot use the technique.

Interviewer: Right, now…

Shri Mataji: Sahaja means, `saha' means with, `ja' means born, means it is spontaneous. It is a living process of evolutionary ascent, the last breakthrough.

Interviewer: Right. Now, taking it one step further, how do you go about, what is this? Is it, it's the Self-realisation. Is this the same thing?

Shri Mataji: Yes, it is Self-realisation. It is the last breakthrough of our evolution, that we become the Spirit. As Christ has said that, “You are to be born again." And when Nicodemus asked Him that, “What do you mean? Have I to enter again into the womb of my mother?" He said, “No, the flesh is born out of flesh but I am talking about the Spirit and you should be born out of Spirit." Now we have within us this power in the sacrum bone called as Kuṇḍalinī, in Sanskrit language, but in the Christian language it is called as the Holy Ghost.

Now this power of Holy Ghost is actually the desire to be one with the Divine. And it is resting there till you get somebody who knows how to awaken it spontaneously and it rises and you get your real baptism and not the baptism so-called. But this power has to be in the person as the Mother Earth has power to sprout the seed. In the same way it just is a living process that works it out.

Interviewer: So what sort of thing do you think you can accomplish with this Yoga? What sort of thing can one assume if you follow it?

Shri Mataji: First and foremost thing that happens to you, that your awareness receives or enters into a new dimension of collective consciousness. That means you start feeling your own centers. You start feeling the centers of others. Like Mohammed Sahib has very clearly

said that at the time of Resurrection your hands will speak.

So you start feeling the centers of another person on your fingertips, as in English language is a very good phrasing, “on the fingertips." And you can make it out what's wrong with another person, what's wrong with you. And if you have the second thing that is the technique, how to cure yourself or to cure another person, you can cure. But it's not only physical. It's physical, mental, emotional, all cures. Apart from that you become the source of peace, bliss and compassion.

So you don't have to do anything. It's just effortless. You give it effortlessly. You get it effortlessly. Because it is built within you.

It's just to happen. Like this your instrument has to be connected to the mains. In the same way.

Interviewer: Yes. Yes. Yes.

Shri Mataji: It's the same. It works the same way.

Interviewer: Is it your religious based would you say that?

Shri Mataji: All the religions are here, all the religions. But the way people are doing about, going about religion I don't think it has anything to do with real religion. The real religion is within ourselves and it is the one that gives us balance in life. Now, this religion whatever is so far comes to us from, say, Christ or from Mohammed or from other great saints or great prophets, is just a step forward towards this happening. Like a seed grows into a plant, then into a tree and then the flowers appear.

So this is the blossom time. And so many flowers have to become the fruits. They are all connected.

So you are not to disregard anyone. They are all within us. They are like milestones of our progress.

Interviewer: So despite the fact you look into yourself is it insular or can you share it with lots of other people?

Shri Mataji: It is absolutely collective. You become a collective being and you cannot keep it to yourself. You have to share it. Otherwise you cannot enjoy. It's like a microcosm becoming a macrocosm.

You should become one with the whole. And so many become one with the whole and you will feel the same way. Even a child who's a realised Soul feels the same way as anybody else.

Interviewer: So how long would it take to see me, say if I want to take up this Yoga, how long from the state I am now?

Shri Mataji: A spilt of a second.

Interviewer: No, no.

Shri Mataji: Yes, it is a split of a second. But we have barriers, because we have mental barriers, we have sometimes health barriers.

So doesn't matter, but still it doesn't take much time. Everybody can get it. Every human being can take it.

Interviewer: How did you get involved in it? What's Your background?

Shri Mataji: I, I, it's a very ancient background I have. But when I was born I knew I have to do this job and I knew that I had all these things within Myself.

So to describe the background I think I'll have to write a book. But in any case I would say that I deliberately got My birth in *[UNCLEAR* a/the] Christian religion. My father

was Christian, mother was Christian. But they were not the type of Christians who just go to church, come back home. They were very learned people. And My father was a scholar of Sanskrit. He knew fourteen languages and he also translated Quran Sharif and all that. And My mother was a honours of Mathematics, very learned people. And they believed in the real religion, in the balance of religion. And both were realised Souls. They were already Spirits, you see, so I had no problems with them.

Interviewer: Why do you think these certain Yoga and certain beliefs in religions and cults come from the Eastern parts of the world as opposed to the Western? Is there any reason *[UNCLEAR* there/ for that]?

Shri Mataji: You see, in the West I think, you see, people took more to the achievement in matter, that how to master the matter, how to get the matter. You see, that was a good movement, of course, helpful for spiritual ascent also because if there were no telephones or televisions and *[UNCLEAR* how] I could not have worked as fast as I am working now.

So it is of use, but the main thing is you have to achieve is to be the Spirit. And by all these affluent achievements people are now turning to the Spirit because they know that there is no joy in it.

So now they are turning to it. It's also this was a necessary step for so many people that they came to this. But India has been a traditional country and people have been thinking about it since long and they have discovered so many things since long and if you have to understand Bible is better to read some of these books so that you understand Christ, you understand everybody

because He is described in those books, how He will come, who He was, how He was. His background is given. In the Bible there is no background of Christ, you see.

So most of these religions are coming from the East perhaps because I think these people also feel that we can give them something that we have. But nowadays it's a market and people are just selling religion and they are befooling people. They are doing all kinds of nonsensical things. And in the West the people are so naive that they don't understand that you cannot purchase it, you cannot pay for it. First thing you must put a stop at the place where they start selling it. You cannot sell it. You cannot organize it.

You cannot organize God. God can organize you. All these things if you understand in a very simple way you can avoid all this nonsense.

Interviewer: There's probably sceptic actually, especially in the West, who would allot all these cults, religions and things under one blanket, under one, put into one area. You know, is it right to maintain, are you often mistaken the people are the Moonies or something, I don't know, but moneymaking enterprise or something like that?

Shri Mataji: But they more go to those things, you see. Because they are more enamoured by the money they have, the Rolls-Royces they have. This is the trouble with them. When I went to America, they asked Me there was somebody phoning in the radio they asked Me, “How many Rolls-Royces She has?" So I said, “I don't have any." So they said, “We are not interested." Can you believe it? It's like that.

So because you people get impressed by these nonsensical things which are material these people are effective. If you remember about two years back I have told about the Scientologists here because I saw them, very active, in the *[UNCLEAR* East Grinstead] or something.

So I talked against it. But nobody paid any heed and now today you can see these things. But first test you must put, what transformation it is going to give you and those who have got it, what have they got themselves? Just a blindfolded why should we jump on to something? Interviewer: Right. I'm afraid we are going to have to leave it there, Shri Mataji. And thank You very much for joining me today. You will be appearing at the Town Hall tonight at seven thirty p.m. and anybody can go along and see You, can they?

Shri Mataji: Yes, whole hall.

Interviewer: The whole Town Hall they do.

Shri Mataji: The whole Town Hall. Oh, I'm sorry.

Interviewer: Yes, that's it. I've got the details and I'll give it out towards the end of the program again. Thank you very much for joining me. Thank you.

Shri Mataji: Thank you very much. Thank you. Thank you very much. Thank you.

Interviewer: Bye-bye.

Contents: 1984-07-26 **Talk to Doctors, The Fourth Dimension and the Parasympathetic, Brighton, UK**

Shri Mataji: The fourth dimension that they mentioned about. What do they mean by that? That is the thing.

Warren: They call that transcendental state.

Shri Mataji: But what? Warren: They can't describe it. [Here Shri Mataji says again `What?' while Warren is saying the word `describe'.]

Shri Mataji: They can't describe it. You see, supposing somebody has a low heart beat, low pulse rate or has a low consumption of oxygen or anything.

Warren: That's not transcendental state.

Shri Mataji: That is not transcendental state, because you are still in the state, where your attention is on your body.

So it is not a transcendental, you will have to transcend. Transcendental means you have to jump onto the parasympathetic. See, we have four dimensions we can say. One is the dimension of the left sympathetic, another is of the right sympathetic, then we have got the central nervous system, which is our conscious mind and the fourth one is the parasympathetic. Does he jump on the parasympathetic? Warren: We do.

Shri Mataji: Yes. In Sahaja Yoga you jump onto the parasympathetic; means your attention starts controlling the parasympathetic nervous system. Then how do we prove it that we become the fourth dimension? First thing is, that the person, who becomes the controller of the parasympathetic, becomes the `auto'. He can do things. He can do things, like she can tell that another person is suffering on these centers without going to any laboratory, without going to any medical check-up, on the fingertips.

So the person, who becomes the fourth dimension, he becomes the `auto', which is the autonomous nervous system, you see, the `auto' part of it. He controls the

parasympathetic. Now, when he controls the parasympathetic, he controls this supply to all the centers through certain movements, through certain kind of technique. For example a person is suffering from some disease of the heart. Now, a normal person, who doesn't have this fourth dimension, will not know that she is suffering from any heart trouble. He will have no idea, he'll never feel his heart or anything, till he suddenly gets the attack and then he dies.

But at the very onset of it the person, who is in the fourth dimension that is the realised Soul, can feel that something is going wrong with his heart. Also he knows how to cure himself, the technique of curing himself, also he knows that he is the source of the medicines that he has to give, is the vital force.

So this is the fourth dimension, is a great potential, becoming a kinetic force, like an egg becoming a bird.

So the egg we can see egg has no way of flying out, but the bird can. It is a tremendous difference between an egg and a bird.

So such a person, who gets Realisation and gets establishes, is no more a person, who can be tested by these machines and all that, because these machines deal only with the physical side, but it is he who can test. Even a child, who is a realised Soul can test another person. You don't need any machines with that. He becomes the one, who diagnoses; he becomes the one, who cures; he becomes the person, who can soothe you. Not only that on physical level, but supposing somebody is emotionally disturbed, then such a person knows that another person is emotionally disturbed. He also knows

precisely which center is disturbed; he also knows how to put that center right. You don't have to go to lunatic asylum to get cured, but a person, who has fourth dimension, can cure that person of that sickness, because he precisely knows where the trouble is and how to cure it.

So all the diseases, which are only physical, can be cured; which are the psychosomatic can be cured; the combination of both can be cured. Any combination of these things can be cured by a person, who is an established Sahaja Yogi.

But in case a disease has gone so far that it is irreparable or something artificial has been introduced in the body, as they put sticks, steel sticks and all that, then, Sahaja Yoga doesn't work on dead things. It works on living. If the organ is still living, it can work out, but if it is not living, then it does not work out.

It works out on eighty percent of people, but the twenty per cent of people on whom it cannot not work out, are the people, who do not have a basic foundation to be a human being. They are like animals; their attitudes towards are animals, even worse than animals.

So a state that could be a so-called fourth dimension could be where a person is no more a human being; he becomes either a devil or a Satanic person.

This has to be accepted by medical science that there are people, who can be very devilish and they cannot ascend any further into the fourth dimension. The fourth dimension is not a mechanical process, but is a living process of the evolution by which you evolve to a higher being. But for that you have to have some basic

foundations. A person, who is an alcoholic, can be cured of alcohol, but a person, who is cheating himself, cheating other people, is cruel to others, or say, a person like Hitler, he cannot ascend. He's gone beyond that stage, where we cannot cure him. We can cure animals, we can cure human beings, but not people, who are abnormal or we can, there is no word for some the..., but Satanic people and that's how it doesn't work out in some people. Also the cases which have gone very down onto the state, where we can say now, absolutely out of order, then Sahaja Yoga allows such a body to take another birth and try.

So because it's a fourth dimension, we cannot take medical science as a vehicle to express everything, because this is higher than that. But in many ways we can medically show that people have been cured of anginas, of cancer, of leukaemia, of everything through the vehicle of parasympathetic nervous system, which doctors cannot handle. Because they have their own limitation, they cannot jump onto the parasympathetic nervous system and that is why they cannot cure a person, who has problems of the parasympathetic.

All problems can be solved through parasympathetic in case there are basic conditions; if they are fulfilled. In the medical science people will even treat Hitler, there is no discrimination. But as you grow higher and higher even in evolution you become more discreet and at this stage you cannot treat a person, who is a hypocrite or who is a cruel man or who is aggressive to others or who is practicing methods to subvert people. And we have many Gurus, who take money and destroy many people just for

money's sake. Such people can never go to the fourth dimension why should they talk about fourth dimension.

Such people have to be something so extraordinary that they become righteous, virtuous, compassionate and very dynamic people. They have the greatest quality, is of compassion, which though we accept in our ordinary life, in medical science we do not accept. But on what basis is the medical science? Is compassion.

So you become the compassion. This is the fire point is to be seen. When we talk of the fourth dimension, we talk of the beyond. And when we talk of the beyond, we have to project our mind to see what do we except ourselves to be, when we become something of the beyond. Are we going to be the same mean, aggressive, complicated human being or are we going to be something like a saint.

So this projection has to be brought in the minds of the doctors. Unless and until they project their minds to that extent to see that if we have to be at a higher position, we have to accept that we have to be better people.

Now Sahaja Yoga is the synthesis of all the three powers that are within us. The first is the physical power, the second is the emotional power and third is the evolutionary power. You become the synthesis of all these three powers. It's not the analysis, but medical science is the analysis.

So it just analyzes physical side, goes on analyzing so that you have one doctor for one eye and another doctor for another eye. But a doctor has to understand that there is no solution for many problems that we have.

So they have to raise their eyes higher to see that there must be something missing that we have to know. Of course medical science is very important, because once you get your Realisation, even you may not be a doctor and you become established Sahaja Yogi, you can cure people. But with medical science you can prove that it has been cured, so medical science also has its own purpose and the basics of medical science that is compassion, is now expressed through the human being, who becomes the embodiment of compassion. It's not poetry, it's not some sort of a abstract thing, but is a happening of evolution that has to take place and this is the last breakthrough about which many people, scientists and also doctors, we can say psychologists have talked about, though they are not taken seriously.

So now there is time for us to think seriously about it and to know that we are not only this body, mind and ego, but we are something beyond that is the fourth dimension. And what are we there? We are the `auto' and the `auto' is called as `Self'.

Unless and until you project your mind higher and do not get contented with what discoveries you have made on a physical gross level, you cannot see the point of view of Sahaja Yoga. And what is there to argue about? When Sahaja Yoga is curing people, why do you argue? Why don't you see how it is curing? Supposing a doctor is practicing and people go and argue with him: “How do you cure?" You will tell him: “What do you mean? I'm not supposed to tell you all that, but I do cure." Now you have a certificate, say from a medical college or somewhere, so you think you are a doctor, but supposing

somebody has a certificate from the Divine Itself, then why not see, why not keep your eyes open like a scientist, why close them by whatever you have known so far. Why make a barrier out of the scientific research you have done, why not be a research student in Sahaja Yoga also and see for yourself that you really achieve that state.

You have to become that state. While those who talk of the fourth dimension otherwise, make people mad, they make them lunatics. They end up as lost races.

So how can that be a fourth dimension? There are so many cases of these people, one can show that doing those horrible courses and things they have become really mad. And they are good for nothing, they are cheats. They are doing all the bad things that one can do.

So how can you say that this meditation helps anyone to be a better person or better person in health? Moreover, to be only all right in health is not sufficient. One must also see that point. One should not be so much attached to the body, because supposing if you have all the wrestlers or boxers in this country, now take a position like that, then what will happen? As it is, we have too many of them. Now what we need, are the saints. Not physically over-healthy people, who will try to boss over others, but people, who are saints, who can help without charging any money, without any aggression, out of compassion, effortlessly, those who are suffering physically.

But there is another barrier, which must be told very frankly, that when you become a Sahaja Yogi the vital forces of new dimension start flowing effortlessly and you

do not charge any money for that. You enjoy your own compassion. Compassion, that is the basis of medical science.

So that state maybe doctors may not try to have, but there are many, many people, who cannot be cured by Sahaja Yoga and they can come to doctors, so doctors should not have fears about it. How many people can be helped by Sahaja Yoga, cannot be said, but those who come to Sahaja Yoga can be helped.

So it should be at least accepted as a higher type of redemption or a curing power, which must be accepted and those who can be cured by that, must be given a chance and there should be no barrier about it.

Warren: What is this parasympathetic in fact, if it is described in medical science as the thing that balances, brings everything in back into balance.

Shri Mataji: It depends on, it depends on. It is actually the evolutionary process. You see, parasympathetic works at different levels of our evolution. Say, at the stage when you are matter, it organizes you in the periodic tables. Who does that organization? Is parasympathetic. Then, when you rise higher as an animal, then it gives you the understanding of eating food, seeking food by which animals seek food. Then as it rises higher it gives you another feeling of protection, you seek protection. Animals also seek protections. That's how the evolution goes on, by giving these feelings within us or we can say as the parasympathetic starts manifesting higher and higher, the seeking starts becoming higher and higher.

Then comes up to the human state, where people seek food, protection. Then when they achieve that, they seek

power, they seek money, they seek possessions, they seek possession of other people, which is sometimes called as love. They seek all kinds of such things, but still their seeking is not finished, still they are seeking. Then the same parasympathetic creates an urge within us that we have to seek something higher. This last feeling after human stage is to be manifested and for that there is a residual force placed within us called as `Kuṇḍalinī', which is actually the power of desire within us, which has manifested everything. But still it is residual, because it is not yet manifested itself. Because this is the power of desire to be one with the Divine vital force. And that's why it rests in the sacrum bone, sacrum meaning sacred, so people knew about it. And then when this force rises through the various centers and pierces through the fontanelle bone area, you are actually get the Cool Breeze coming out of your head. For that you don't need any medical science, any laboratory, just put your hand on top of such a person and you get the Cool Breeze coming out of such a person. Not only that, but that person himself feels the Cool Breeze coming out of his head. And after some time he feels it coming out of his own hands. Then he tries to use it. When he uses that, he finds that, this is the power that works out all the cures.

So one has to realise and accept that at the stage of the human level you cannot achieve the fourth dimension. You have to become something more. And this is the thing where the people who want to cheat you for money have used, that what you become, is a possessed person. They brainwash you; you become a different person. They put some possessions in you, you become

possessed and you think that you have already being something different. But to be different is not the point, to be higher is to be seen.

And higher means the one, who has full control over himself; who is completely relaxed, who is at peace, who is compassionate and who is a higher personality. Anybody, who is physically fit, by no chance is a very evolved person or who has got the fourth dimension. On the contrary, they also come to Me and ask Me, `Mother, give us peace.' Warren: If sympathetic is a case of living in extremes and parasympathetic is a case of living in balance.

Shri Mataji: But you see what I said is that it is parasympathetic in totality, say in one word, see you must make it clear-cut that it does give balance at a point, you see. Balance is a result of trial and error, is a result. How do you get on to a bicycle? First you make mistakes, you wobble, then you fall down, then you'll learn. You can talk to them. If you have to say that physical well-being is not the end of it.

Hello, Shridevi, Shridevi, how are you? Shridevi, are you all right? How are you feeling today? Today you are not crying at all.

[Trying to lift it up]. This is the Cool Breeze coming out. Much better? I worked on her last night.

Aa! Hello Shridevi! [Cries of a child.] No! No! Not to cry. [Cries of a child.] Still a little bit... Is it coming?

***Contents: 1984-07-31*, Public Program, Clarendon Building, Teesside Polytechnic, Middlesborough, UK**

I bow to all the seekers of Truth.

First of all we have to know what truth means. We want to seek truth, there's an urge within us that we have to seek the truth. Because of this seeking only we all have become human beings. Now after human beings stage, what is going to happen to us? As it is, you find there is so much of confusion in this world, so much of confusion, so many ideas, so many thoughts, so many ideologies, so many religions. All kinds of things have come up and a simple human starts looking at it and he gets quite puzzled, “What sort of thing this world is?" It's a very confused world, first of all. The confusion gives you a greater urge to seek, because you find, “What's this going on?" Secondly, I went round your city today just to vibrate the whole place and I felt the place has got a kind of a feeling of dullness and I asked the person who was driving Me, I said, “Why the people here are looking very dull?" He said, “The people are now without any jobs” so I said that should happen to any country which is so industrially developed.

When we are industrially developed, you see, all our industrial wants are over perhaps, then we start seeking more because we think now we've got everything, we've got proper dress to wear, we've got food, we've got everything, now what next? And that's how we become dull because we don't understand the meaning of life. Now this meaning of life is more in the people who are affluent and has to be less in the people who are still developing because they want to become like you, have all plastics around them, they want to have foundries

with all pollution, everything. Once they have that then they will start seeking.

But in a country like India which has been a very different type of a country I say, because of climatic position. It's very good climate, like this, it is always there, so you can be always out in the villages, you can be in the forest and you don't have to worry so much to fight the nature.

So in such a place people have been meditating and trying to find out, “Why are we here?" Now all these things when you see the development everywhere, you find it's like the tree, the tree outside you see very well developed. But any tree that has developed very much must have very deep roots, otherwise it will be all finished and destroyed.

So when there is such a lot of development outside, there must have been some development inside also, the roots. And this is what we are going to tell you about the roots now because your development is sufficiently enough and if you have to sustain this development you must know about your roots.

We have neglected our roots very much and that's the reason today we also find people suffering from terminal diseases and all kinds of trouble. That is one of the first worry for Me that everyone should be healthy and that health comes to you not from outside, from inside. Because supposing if on a tree you find a leaf is sick and you start treating the leaf, you don't treat the tree. You don't treat the disease at all. But if you have some means of entering into the roots, you treat the whole of that tree very well, very easily in a very simple manner. In the same way if you can somehow reach your roots,

you can treat yourself without much difficulty, without any medicine also.

Now where are these roots? Or for that you have to see to this chart, I don't know if everybody can see this chart, that within us this beautiful instrument is placed and this is what is described in the Bible as the tree of life. Unless and until you achieve a state which we call as Self-realisation, which Christ called as the second birth we cannot understand what is this. Because now you are listening to Me very closely but if I say, `Pay attention to yourself within,' you cannot. It's a difficult thing, our attention is outside.

Now what should happen for that? There's a happening that takes place, because of that happening your attention is attracted inside.

And once the attention is inside, the same attention gets the enlightenment of this power which is within you, as in the sacrum bone, sacrum meaning sacred, that means the Greeks knew about it. When this power rises, awakens, it's like the primule in the seed, the germinating power of the seed and it just gives you a new dimension. It enriches your subtle centers. These subtle centers actually are the subtle entities of the gross plexuses. When they're exhausted you suffer from diseases.

Now for example, today's article made Me think that I should tell you how we get a particular disease called horrible cancer and that is so common in the West, not so much in the developing countries as it is here. They say cancer is a rich man's disease. The thing is that within us there are two systems, of nervous systems

which cater us. One of them is the one called as the central nervous system, another is the one which we call as autonomous nervous system. Now the doctors are honest, they just call it by name, autonomous. Now if you ask them, “Who is this auto?", they won't be able to tell you. Just they call it some name, autonomous. This auto is the Spirit in the heart and this auto if you somehow or other bring into your attention the light of the auto comes into your attention, you start controlling your being completely. This is a simple method I'm telling you.

Now the nature of the roots is such that this autonomous nervous system has three channels. The two channels of the left and the right sympathetic nervous system and the central one is the parasympathetic.

Now you can see here the three channels but these are the subtle channels which control, which control the gross channels. Now these subtle channels work out in such a way that the left side channel caters to your past, caters to what has happened, caters to your conditioning. It is what we call as the channel of the moon, or this is the one that works out the power of desire within us.

The right side channel is the channel which works out the action, so it is the channel of the action, caters to your future, to your mental activities and to your physical activities. It is called as the channel of the sun. Now both of them are parallel to each other. Now when a human being tries to find out something, he tries always to go to the extremes, in anything. Supposing he goes to the pub then he must drink the whole of it. If he goes to some other work, he must finish off his work with completely dedication, as they call it and exhaust all his life doing

that. Always we go to extremes, either to the left or to the right.

Now if a person is a person of moderation, he stays in the center. The central path is for our evolution.

The whole of matter has evolved, as you know there's a chart and in the chart if you find the periodic laws the nature are so beautifully made and it is all very much balanced. And in the center lies the carbon and the carbon is in the first center lies within us. Now all these centers are nothing but the steps of our evolution. Like we were first carbon, then we became animals, then we became human beings and now we are seekers. That's how we develop one after another and the evolution takes place and we become human beings.

Now the question comes, what next? Why are we here? We are human beings but what are we to achieve next. If this question doesn't come into your mind then it will come later on, no doubt, but it's better that the time is here for you to seek that; why are we on this earth? We are here on this earth, like this instrument if you make, you'll ask, “Mother why are you making this instrument?" This instrument is made to carry My voice. In the same way you the human beings are made instruments of God. Now you're to be employed by God and He's going to use you and this power is going to flow through you.

Only thing is, you have to be connected to the mains and this connection takes place through the ascent of this Kuṇḍalinī which is actually the Holy Ghost in the Bible.

In the Bible nothing has been written about Holy Ghost as such. I asked a priest, “What do you mean by Holy Ghost?" So he tells Me, “I'm agnostic about it." So I said,

“Then why are you there? What are you doing?" So he says, “I'm doing my job." There's no job in God's realm, like that where you can get money without knowing what you are doing. You're supposed to know what you are doing. You are supposed to know what Holy Ghost is and you are supposed to know where it is. You just cannot get a job, become something and profess something without knowing much about it.

And this is what is the dilemma of today's religions, not one but all of them. They do not know that they have to be born again, first of all to profess any religion. Christ has said so clearly that you are to be born again. And when Nicodemus asked Him, “What do you mean by born again? Have I to enter my womb again?" He said, “No. The flesh gives birth to flesh but I'm talking about the Holy Spirit. The Holy Spirit has to give birth to your Spirit." And that's what it is, the Holy Spirit within you is this three and a half coiled Kuṇḍalinī or the Holy Spirit. Now through meditative processes because as I told you the attention of Indians was more inward so they tried to find out how we are made. And this is not the knowledge of today, it's a very ancient knowledge. A book written about a person fourteen thousand years back has described in all details all the things I'm telling you but we have never come to know about it. Neither we tried to look at it. Even about Christ there's so much written in those books thousands of years back. About Mohammad thousands of years back, we never try to translate those things or bring this knowledge to that level that everybody could read it. But now it is possible for you to understand that you're not only the body, mind, ego,

superego, but you're something much more. And that much more is the Spirit and the truth is that you have to become the Spirit.

Once you become the Spirit, means when you become the light what you do exactly is to give the light.

But before that there are lots of hurdles, like as I told you there's cancer, this, that, all kinds of diseases that hurt human beings. There are mental diseases, there are emotional problems, there are all kinds of problems and they can only be solved if you go to your roots.

Now let us see a simple case of cancer, for Me, it is simple because it can be cured very simply. Now for example, you take one of the centers, it's like this within us, like this, you can see, all of you. And this center is inside here. While this is the left and the right sympathetic nervous systems and in the center we can say is the parasympathetic which supplies the balance, which supplies all the energy that is needed for the left and the right. When we go into any emergency, for example, if you start running then the heart starts pulsating very fast. But it comes to normal through the central path of parasympathetic. Now what happens that this center supposing is used too much because of our extreme habits, you see, you use too much. Anyway, then what happens, that starts breaking this chain and you lose your contact with the whole. Then you become on your own, means you become malignant. The cells become malignant, they start eating other cells without any relationship to the whole. You don't know how far to go. Supposing you develop a cancer of the nose, the nose cells start becoming bigger, they start eating other

cells and whosoever they touch, like an egoistical man, like Hitler, whosoever they touch, that cell again becomes malignant and then that starts eating and that's how the whole body becomes malignant.

This is how cancer is set in, a simple thing. But recently, about a year back, I saw a very interesting television show of the doctors. They said that the vulnerability of cancer is present in every human being because we live on extremes all the time, but the triggering takes place when some entity attacks you from the area built in within you since your creation. And this area we call in Sahaja Yoga as the collective subconscious. That is whatever is dead within us resides in that area. Now this is the area beyond the left sympathetic.

So those people who go too much to the left side, too much to the emotional side or those who go and bow to wrong type of Gurus, wrong type of people and accept wrong type of religions, I should say where you take to dead, to spiritualists, spiritual work and all those things are very much vulnerable to diseases like cancer. Cancer is not the right side disease but heart attack could be a right side as well as a left side disease.

Like in Sahaja Yoga we have two types of hearts, not one type. One is the over active, another is the lethargic heart. Now the people who are over active, you see, all the time running, looking at the watches and just on the run, you see, all such people have an over active heart which is absolutely exhausted. And the attention is so much outside that the Spirit in the heart is agitated and it recedes and you get a heart attack. Now there's another type of a heart which is lethargic, which takes to
